HOUSE JOURNAL No. 1

Wednesday, December 1, 2004

On the first Wednesday in December in the year of our Lord, two thousand four, it being the day designated by the Constitution for assembling, the one hundred and fifty-ninth General Court of the State of New Hampshire convened at the Capitol in the City of Concord. The representatives-elect were called to order by Karen O. Wadsworth, Clerk of the House for the preceding session.

Rep.-elect Frances Potter offered the following prayer:

Holy and gracious God, Creator of all that is seen and unseen, we offer our thanks this morning for the beauty and resources of our State and for the trust of its people who have sent us here as their representatives.

We pray for the protection of all people who may be in harm's way at home and overseas. We pray for Your guidance as we take counsel together that all that we do may be worthy of Your blessing. Amen.

Rep.-elect Eugene W. Kelly, Jr. led the Pledge of Allegiance.

The National Anthem was sung by Holly Winchell, a student at Plymouth State College and daughter of Rep.-elect George Winchell.

With 384 members-elect having answered the call of the roll, a quorum was declared present.

COMMUNICATIONS

November 24, 2004

Karen Wadsworth, Clerk of the House

Dear Clerk Wadsworth:

For medical reasons, I am unable to accept the seat from Sullivan District 4 to which I was recently elected.

Sandra and I are deeply grateful to you, Speaker Chandler, and many, many members for your prayers and good wishes following our accident. We shall always remember the friends we made during our two terms here.

It was an honor and a privilege to serve the people of New Hampshire in this great House.

Sincerely, Rep. Joseph D. Harris, Sullivan 4

November 24, 2004

Karen O. Wadsworth, Clerk of the House

Ms. Wadsworth:

On November 10, 2004, I was confirmed by the Executive Council as a Public Utilities Commissioner for the State of New Hampshire. Accepting this position requires that I do not accept the seat in the House for which I was elected on November 2, 2004.

By this letter, I am therefore notifying you that I will not accept the seat or serve as a state representative for the State of New Hampshire from Strafford District 3 for the term beginning December 1, 2004.

My last four years in the House of Representatives have been some of the most rewarding in my life. I look forward to working with you and the entire House in my new position as Public Utilities Commissioner.

Sincerely, Rep. Michael D. Harrington,
Strafford 3

NOTIFICATIONS OF ABSENCE

The following representatives-elect notified the Clerk of their absence for the day:

Reps.-elect Claire Clarke, Dodge, Goyette, Moran, Nordgren, Prichard, David Smith, Katherine Taylor, Wells, Robert Wheeler and Burton Williams.

RESOLUTION

Reps.-elect Craig, Douglas Scamman, Weyler and Whalley offered the following:

RESOLVED, that a committee be appointed to wait upon the Governor and the Honorable Council to inform them that a quorum of the House is assembled and requests their attendance.

Adopted.

The Chair appointed the following: Reps.-elect Howard C. Dickinson, Robert A. Johnson and Roland J. Lefebvre.

OATH OF OFFICE

Governor Craig Benson, having been informed that a quorum of the House was assembled, appeared, accompanied by the Honorable Councilors Raymond S. Burton, Peter J. Spaulding, Ruth L. Griffin, Raymond J. Wiczorek and David K. Wheeler. The members-elect, having presented their credentials, were duly qualified by the Governor as members of the House of Representatives by taking and subscribing the oath of office agreeable to the provisions of the Constitution of the State of New Hampshire.

The Governor and Executive Councilors retired.

ELECTION OF HOUSE SPEAKER

The Chair declared that nominations for Speaker were in order.

Rep. Sheila Francoeur placed the name of Rep. Michael D. Whalley in nomination for Speaker. Reps. Bicknell and Anderson seconded the nomination.

Rep. DeJoie placed the name of Rep. James W. Craig in nomination for Speaker. Reps. Phinizy and Daniel Eaton seconded the nomination.

Rep. Craig spoke in favor of his nomination.

Rep. O'Neil placed the name of Rep. W. Douglas Scamman in nomination for Speaker. Reps. Hager and King seconded the nomination.

Rep. Scamman spoke in favor of his nomination.

Rep. Jasper placed the name of Rep. Kenneth L. Weyler in nomination for Speaker. Reps. Asselin and Hagan seconded the nomination.

Rep. Weyler spoke in favor of his nomination

There being no further nominations, the Chair declared nominations closed.

After the nominations were closed, the Chair, at the request of the candidates, named Reps. Irwin and Daniel Eaton as tellers for Rep. Craig; Reps. Lockwood and Kidder as tellers for Rep. Scamman; Reps. Jasper and Nowe as tellers for Rep. Weyler; and Reps. Thomas and Griffin as tellers for Rep. Whalley to tally votes.

ANNOUNCEMENT

The Chair announced that the following representative-elect had been sworn in by the Governor and Executive Council: Rep. Robert W. Brundige, Hills. 19.

FIRST BALLOT

Of the 384 votes cast, 193 votes were needed for election. Rep. Craig received 146 votes; Rep. Scamman received 43 votes; Rep. Weyler received 54 votes; and Rep. Whalley received 141 votes. No candidate was elected on the first ballot.

The House recessed at 12:50 p.m.

RECESS

(Clerk in the Chair)

The House reconvened at 1:15 p.m.

ANNOUNCEMENT

The Chair announced that the following representatives-elect had been sworn in by the Governor and Executive Council:

Reps. Bonnie Ham, Graf. 4; and Mary Beth Walz, Merr. 13.

SECOND BALLOT

During the recess the candidates agreed that speeches prior to the second ballot would be held to three minutes and that the candidate order of speaking would be reversed. Reps. Weyler and Craig spoke and withdrew their names from consideration. Rep. Stephen L'Heureux spoke in favor of Rep. Scamman's nomination. Rep. Whalley spoke in favor of his nomination. The Chair called for the second ballot. After the balloting was closed, the Chair called for the appointed tellers for Reps. Scamman and Whalley to tally votes. Of the 385 votes cast, 193 votes were needed for election. Rep. Scamman received 221 votes and Rep. Whalley received 160 votes. There were three ballots cast for a withdrawn candidate and one blank ballot. The Chair declared Rep. W. Douglas Scamman duly-elected Speaker of the House. Rep. Whalley moved that the vote for Rep. W. Douglas Scamman be made unanimous. Adopted.

(Speaker Scamman in the Chair)

The Sergeant-at-Arms escorted Speaker Scamman to the rostrum. The Speaker addressed the House.

APPOINTMENT

The Speaker appointed Rep. James W. Craig, as the Minority Leader of the House. The House recessed at 2:20 p.m.

RECESS

(Speaker Scamman in the Chair)

The House reconvened at 3:00 p.m.

RESOLUTION

Reps. O'Neil and Craig offered the following:

RESOLVED, that the House inform the Honorable Senate it has organized and has elected its Speaker, W. Douglas Scamman, and is ready to meet with the Senate in Joint Convention for the purpose of electing a Secretary of State and a State Treasurer. Adopted.

SENATE MESSAGES

The Senate has organized and has elected as its officers: Sen. Thomas R. Eaton, President; Steven J. Winter, Clerk; Tammy L. Wright, Assistant Clerk; Henry W. Wilson, Sergeant-at-Arms and Doorkeeper, John J. Byrnes, Sr.

The Senate is organized and ready to meet with the Honorable House of Representatives in joint convention for the purpose of electing a Secretary of State and a State Treasurer.

JOINT CONVENTION

(Speaker Scamman presiding)

The Speaker called the joint convention to order.

The Chair declared nominations were in order for Secretary of State.

Sen. D'Allesandro placed the name of William M. Gardner in nomination for Secretary of State. Sen. Barnes and Reps. Robert Johnson, Kennedy, Alger, Putnam and David Cote seconded the nomination.

There being no further nominations, the Chair declared nominations closed and instructed the Clerk to cast one ballot for Mr. Gardner.

The Chair declared Mr. Gardner duly-elected Secretary of State for the 2005-2006 biennium.

The Chair declared nominations were in order for State Treasurer.

Rep. Rausch placed the name of Michael A. Ablowich in nomination for State Treasurer. Sen. D'Allesandro and Rep. Weyler seconded the nomination.

There being no further nominations, the Chair declared nominations closed and instructed the Clerk to cast one ballot for Mr. Ablowich.

The Chair declared Mr. Ablowich duly-elected State Treasurer for the 2005-2006 biennium.

The Chair administered the oath of office to William M. Gardner and Michael A. Ablowich.

Sen. Clegg and Rep. O'Neil moved that the Joint Convention arise.

Adopted.

The Joint Convention adjourned.

HOUSE SESSION**(Speaker Scamman in the Chair)**

The Speaker reconvened the House session.

ELECTION OF HOUSE OFFICERS

The Speaker declared nominations were in order for Clerk of the House.

Rep. Welch placed in nomination the name of Karen O. Wadsworth for Clerk of the House.

Rep. DeStefano seconded the nomination.

There being no further nominations, the Speaker declared nominations closed and cast one ballot for Karen O. Wadsworth and declared Karen O. Wadsworth the duly-elected Clerk of the House for the 2005-2006 biennium.

The Speaker declared nominations were in order for Sergeant-at-Arms.

Rep. Wall placed in nomination the name of Deborah Nielsen for Sergeant-at-Arms.

Rep. Robert L'Heureux seconded the nomination.

There being no further nominations, the Speaker declared nominations closed and instructed the Clerk to cast one ballot for Deborah Nielsen and declared Deborah Nielsen the duly-elected Sergeant-at-Arms for the 2005-2006 biennium.

The Speaker administered the oath of office to Karen O. Wadsworth and Deborah Nielsen.

Reps. O'Neil and Craig offered the following:

HOUSE RESOLUTION NO. 1

RESOLVED, that the House adopt the Rules of the 2004 session for the 2005-2006 biennium.

Rep. Whalley offered an amendment to House Resolution 1 as proposed by the Rules Committee:

AMENDMENT TO HOUSE RULES

Amend Rule 64 to read as follows:

January 21, 2005, Friday, 12:00 p.m.

Last day to sign-off all House bills, including re-draft requests.

February 3, 2005, Thursday

Last day to introduce House bills.

Last day to amend House rules by majority vote.

Adopted.

House Resolution No. 1 adopted.

Reps. Hager and Craig offered the following:

HOUSE RESOLUTION NO. 2

RESOLVED, That all action taken at all sessions of the House of Representatives be recorded on tapes through the public address system, and that the tapes be used by the Clerk to confirm and correct the permanent journal. The permanent journal as prepared by the Clerk and as may be corrected by the House shall be the official record of the House.

Adopted.

Reps. King and Craig offered the following:

HOUSE RESOLUTION NO. 3

RESOLVED, That the following policy be established for the distribution of House calendars and daily journals, bills and resolutions to members of the General Court and state departments:

1. Every citizen is entitled, free of charge, to one copy of any publication at the legislative counter or to have the publication mailed to that person upon individual request for one such copy.
2. Persons requesting copies for the entire session will be charged a fee sufficient to cover postage, envelopes and handling. Such fees may be prorated when service is received for portions of the session only. All fees are payable in advance. The subscriber list may be submitted for legislative accounting and auditing purposes, but is not for publication or sale.
3. All fees charged for publications in accordance with this resolution shall be fixed with the approval of the Speaker, paid into the state treasury and credited to the legislative appropriation.

Adopted.

Reps. O'Neil and Craig offered the following:

HOUSE RESOLUTION NO. 4

RESOLVED, That the Speaker may employ such personnel as he may deem necessary and, with the approval of the House subcommittee of the Committee on Legislative Facilities, may fix their compensation in accordance with RSA 17-E:5.

Adopted.

Reps. Hager and Craig offered the following:

HOUSE RESOLUTION NO. 5

RESOLVED, That members will be paid their legislative salary, as provided in the Constitution, in the month of January 2005; and,

That mileage of members of the House of Representatives be paid every two weeks during the session.

Adopted.

ANNOUNCEMENT

The Clerk announced that the following representative-elect had been sworn in by the Governor and Executive Council: Rep. Elenore Casey Crane, Hills. 21.

RESOLUTION

Rep. Hager offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, January 5, 2005 at 10:00 a.m.

Adopted.

MOMENT OF SILENCE

Speaker Scamman requested that the House stand and observe a moment of silence in memory of Marine Corps Lance Corporal Adam Brooks of Manchester, New Hampshire, who recently died in Baghdad, Iraq. Rep. Hirschmann will have a resolution drafted at a later date for presentation to the family.

RECESS MOTION

Rep. Weyler moved that the House stand in recess for the purpose of introduction of bills only.

Adopted.

The House recessed at 4:00 p.m.

RECESS

(Speaker Scamman in the Chair)

APPOINTMENTS

The Speaker made the following appointments:

Deputy Speaker, Kenneth L. Weyler

Majority Leader, Michael O'Neil

Majority Whip, Pamela G. Price

RECESS

(Rep. Price in the Chair)

RESOLUTION

Rep. Weyler offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, House Bills numbered 31 through 49; 51 through 74; 76 through 81, and Constitutional Amendment Concurrent Resolutions numbered 1,2 and 3 shall be by this resolution read a first and second time by the therein listed titles, sent for printing, and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILLS and CACRs

First, second reading and referral

HB 31-FN-A, relative to state matching funds for Federal Emergency Management Agency disaster assistance grants and making an appropriation therefor. (Phinizy, Sull 5; Pratt, Ches 2; D. Eaton, Ches 2; Parkhurst, Ches 4; Dunn, Ches 3: Finance)

HB 136-FN, removing increased penalties for crimes substantially motivated by hostility toward the victim's religion, race, creed, sexual orientation, national origin, or sex. (Bicknell, Rock 1; Giuda, Graf 5; Itse, Rock 9; Boyce, Dist 4: Criminal Justice and Public Safety)

HCR 1, urging Congress to withdraw the United States from the United Nations. (Albert, Straf 1; Matthew Quandt, Rock 13; Hawkins, Hills 18; Buhlman, Hills 27; Headd, Rock 3; Boyce, Dist 4; Roberge, Dist 9: State-Federal Relations and Veterans Affairs)

HR 10, urging increased consideration and preservation of local authority in international trade and investment agreements. (Weed, Ches 3; Pratt, Ches 2: State-Federal Relations and Veterans Affairs)

CACR 5, relating to the size of the house of representatives and compensation of the legislature. Providing that the number of representatives be reduced to 100 and that compensation shall be an average daily wage of the citizens of the state. (T. Robertson, Ches 3; Anna Tilton, Ches 6; Pratt, Ches 2; Weed, Ches 3: Legislative Administration)

CACR 6, relating to state representative and state senate districts. Providing that there shall be 36 senate districts and 4 house districts within each senate district. (Pratt, Ches 2: Election Law)

RECESS

(Speaker Scamman in the Chair)

Rep. O'Neil moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 2

Wednesday, January 5, 2005

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by House Chaplain, The Reverend Hays M. Junkin, Rector of Saint Andrew's Episcopal Church in Hopkinton.

Lord of all Creation, as we begin a new year, our hearts and prayers are with all those who have lost their lives, homes, loved ones, health and occupations in the tragedy of the South Asia tsunami. May we, by our example, empower each and every citizen of our beloved New Hampshire to join in the tsunami of compassion from around the world that seeks to comfort all those who are suffering. Bless the work of the honorable House today. Bless those who stand guard to protect us, and receive those who have given their lives that we may remain free. Amen.

Rep. Matthew J. Quandt led the Pledge of Allegiance.

The National Anthem was sung by Tori Caruso, an 8th grade student at Whitefield Elementary School in Twin Mountain.

LEAVES OF ABSENCE

Reps. Dyer and Stepanek, the day, illness.

Reps. Stephanie Eaton, Hilliard, Klose, Parker, Pelkey, Reeves, Serlin and Sorg, the day, important business.

Rep. Butynski, the day, illness in the family.

INTRODUCTION OF GUESTS

Bruce, Allison, Christopher and David Scamman; son, daughter-in-law, and grandsons of the Speaker and Rep. Stella Scamman.

Honorable William Craig, former member from Manchester, father of Rep. Craig.

Frank and Roxanne Caruso, parents of today's singer, guests of the House.

MOTION TO VACATE

Rep. Packard moved that the House vacate the reference of **HB 90**, relative to private driving instruction and exhibition facilities, to the Committee on Transportation.

Rep. Weyler spoke in favor.

Motion adopted.

The Speaker referred **HB 90**, relative to private driving instruction and exhibition facilities, to the Committee on Municipal and County Government.

RECESS MOTION

Rep. O'Neil moved that the House stand in recess until Thursday, January 6, 2005 at 11:00 a.m.

The House recessed at 11:00 a.m.

Adopted.

RECESS

(Speaker Scamman in the Chair)

Rep. O'Neil moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 3

Thursday, January 6, 2005

The House assembled at 11:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by House Chaplain, The Reverend Hays M. Junkin, Rector of Saint Andrew's Episcopal Church in Hopkinton.

Lord of all meteorological grace and control, we ask that You send enough snow to our beloved New Hampshire today that we may realize a modest economic benefit for all our citizens without hampering the safe travel of those who join us on this historic day. Bless this honorable House, its work, and all its members and staff. Bless those who stand guard to protect us, comfort the wounded, and receive those who have given the ultimate sacrifice of their lives that we may remain free. Amen.

LEAVES OF ABSENCE

Reps. Bickford, Richard Cooney, Dyer, Golding, Schmidt and Stepanek, the day, illness.

Reps. Stephanie Eaton, Klose, Millham, Rausch and Sorg, the day, important business.

Reps. Bouchard and Butynski, the day, illness in the family.

INTRODUCTION OF GUESTS

Frances Dionne, Quebec's Delegate to New England, recently appointed to the Quebec Government Office in Boston, MA, guest of Rep. King. Kelsey Plifka, daughter of Rep. Plifka.

RESOLUTION

Reps. Weyler and Phinizy offered the following:

RESOLVED, that the Honorable Senate be notified that the House of Representatives is ready to meet in Joint Convention for the purpose of hearing the report of the Joint Committee appointed to compare and count the votes for Governor and Executive Council, for the Inauguration of the Governor and for the taking of the oath by the Executive Council.

Adopted.

SENATE MESSAGE

The Senate is ready to meet in Joint Convention for the purpose of hearing the report of the Joint Committee appointed to compare and count the votes for Governor and Executive Council, the Inauguration of the Governor and the taking of the oath by the Executive Council.

JOINT CONVENTION

(Speaker Scamman presiding)

The Sergeant-at-Arms introduced the Honorable Senate and Senate President, Thomas R. Eaton from Keene.

REPORT

Sens. Clegg and Larsen and Reps. Dickinson, Robert Johnson and Lefebvre offered the following report: The Joint Committee appointed to compare and count the votes for Governor and Executive Council reports that it has attended to its duties and the vote is correct.

INTRODUCTION AND SEATING OF SPECIAL GUESTS

The Sergeant-at-Arms introduced the following who were escorted to their seats by the Governor's Military Staff:

The family and friends of Governor-elect Lynch. The Governor-elect's office and transition staff. Mayors Hon. Michael Donovan of Concord and Hon. Robert A. Baines of Manchester. Commissioners and Department Heads. State Treasurer Michael A. Ablowich. Secretary of State William M. Gardner. House Leadership. Representatives of state and local law enforcement: Troopers First Class John Cody and Louis Copponi, Atkinson Police Chief Philip Costinino, Hopkinton Chief David Wheeler and Lincoln Chief Ted Smith. Attorney General Kelly Ayotte. Honorable Edwin

W. Kelly, Chief Judge of District Courts. Honorable Robert Lynn, Chief Judge of Superior Courts. Honorable John R. Maher, Chief Judge of Probate Courts. The Associate Justices of the Supreme Court: Hon. Joseph P. Nadeau, Hon. Linda S. Dalianis, Hon. James E. Duggan and Hon. Richard Galway. Chief Justice of the Supreme Court, Hon. John T. Broderick, Jr. Former Ambassador, Hon. Terry Shumaker and Mrs. Polly Shumaker. Former Governors: Hon. Walter Peterson and Mrs. Dorothy Peterson, Mrs. Gayle Thompson, wife of former Governor Melvin Thomson escorted by her son Rob Thomson, Hon. John H. Sununu and Mrs. Nancy Sununu, Hon. Stephen E. Merrill and Mrs. Heather Merrill, Mr. William H. Shaheen, husband of Hon. Jeanne C. Shaheen, Hon. Craig Benson. The Reverend Clergy. Executive Councilors Raymond S. Burton, Peter J. Spaulding, Ruth L. Griffin, and Raymond J. Wiczorek and Councilor-elect Debora B. Pignatelli. Jackie, Julie and Hayden Lynch, daughters and son of Governor-elect Lynch. Governor-elect John H. Lynch and Dr. Susan Lynch.

INVOCATION

Offered by House Chaplain, The Reverend Hays M. Junkin, Rector of St. Andrew's Episcopal Church in Hopkinton.

Lord of all, whose heart is compassion, we ask Your blessing upon our beloved New Hampshire, and particularly upon this inaugural celebration. May Your spirit be upon John, our Governor-elect, and his family as he assumes the duties and burdens that we have entrusted to him.

As we remember today the journey of the Magi who brought gifts of gold, frankincense and myrrh to an unlikely King, empower all of us who are blessed to live in peace and prosperity to place our gifts of dedication, sacrifice and generosity at the service of those who most need a helping hand. May we follow in the footsteps of Your compassion and be remembered not for our success, but for our faithfulness to Your will.

As always we ask that Your protective hand be upon those who stand guard to protect us, comfort those who are wounded, and receive those who have given their lives that we may remain a free people. Amen.

POSTING OF COLORS

Members of the New Hampshire National Guard, Sergeant First Class Gordon Butcher, Sergeant First Class Martin J. Wyman, Sergeant First Class Duane Hinxman and Specialist Brandon J. Westgate, dressed in colonial and traditional uniforms, posted the Colors.

PLEDGE OF ALLEGIANCE

Brigadier General Kenneth Clark, the Adjutant General, led the Pledge of Allegiance.

NATIONAL ANTHEM

The National Anthem was sung by Peggo Horstmann Hodes from Concord.

PRAYER

A Prayer for Peace and Thanksgiving was offered by The Reverend Gayle A. Murphy, Pastor of the Northwood Congregational Church.

Gracious God, Creator of Life and our source of strength in times of challenge, this morning we are thankful for You. Thank You for the beauty of this State seen in its mountains topped with snow, its rivers bordered with fertile land, lakes which restore our souls and the sea which beckons us beyond ourselves. Thank You that this is the state where we find ourselves and are building our lives. Thank You, God, for the strength of its people, resourceful, caring and capable, all of which are important to You. Today we thank You for the people willing to serve this state and its citizens, the representatives and senators faced with difficult decisions coming here with creative options, chosen by the people to be their voice. Thank You for the people who work for this state, O God, carrying out laws and mandates, but more importantly, serving the people with their hard work and commitment to the common good. We thank You, God for the man about to become governor, committed to hard work, creative thinking and the core values of integrity and commitment. We pray for our elected officials, appointed, hardworking state workers and the governor, that You will lead them in their work and guide them in their challenges and triumphs. Instill in them a spirit of justice that watches out for the least of our state residents. Hold them to the higher standard of the common good which helps them find common ground in their differences. For today, God, is a day of hope and possibility. A day we claim You are a part of because

You are about commitment to one another and new beginnings. We take time in the midst of celebration and commitment to celebrate a change of government brought about in peace and by the choice of the people. We acknowledge the best of what can come out of commitment to Your ideals of righteousness and justice and we claim that You are present in the spirit, action and faith of the people gathered here. Thank You, O God, for Your many blessings and the hope of this day. We pray this through our faith in You. Amen.

OATHS OF OFFICE

The Honorable John T. Broderick, Jr., Chief Justice of the New Hampshire Supreme Court, administered the oath of office to Governor-elect John H. Lynch. Dr. Susan Lynch, Jackie, Julie and Hayden Lynch joined the Governor on the rostrum.

Governor Lynch administered the oath of office to the Honorable Executive Councilors-elect Raymond S. Burton, Peter J. Spaulding, Ruth L. Griffin, Raymond J. Wieczorek and Debora B. Pignatelli.

PRAYER

A Prayer for a Successful Administration was offered by Rabbi Edward S. Boraz, Ph.D., Michael Steinberg '61 Dartmouth College Hillel.

Source of all being, bestow Your blessing upon Governor John Lynch, the members of his administration, the legislature and our judiciary. May You grant them the understanding to lead our people to realize a vision of promise and fulfillment for our Granite State. The prophet Isaiah, in teaching that which God desires most from us, stated, "It is to unlock the fetters of wickedness, it is to let the oppressed go free, to share our bread with the hungry, to take the wretched poor into our home, that when we see those who are naked, to clothe them. Then shall our light burst through like the dawn. If we banish the yoke from our midst, the menacing hand, the evil speech, when we will offer our compassion to the hungry, then our light will shine in darkness and our gloom shall be like midday."

May Governor John Lynch, his administration, members of our legislature and judiciary be guided in these ideals of fairness, charity, and goodwill. May they be sensitive in helping to ensure that each child receives a quality education, that the poor, the disabled and the homeless are provided for, and that equality under the laws of our state and under the Constitution of the United States of America remain foremost in their consciousness. The poet Robert Frost once said, "The religious person is never quite certain that his or her actions are right in the eyes of God." His words echoed the words of the prophet Micah, "All that God seeks from us is that we pursue that which is just. That we are committed to acts of loving kindness and that we walk humbly before the divine presence." May our Governor and those who serve our great State of New Hampshire be guided by these principles of humility and loving kindness so that a new light should break forth from among the peoples of New Hampshire. Then shall we be deserving of the blessings and the bounty that have been set forth before us. Amen.

POEM

New Hampshire Poet Laureate Cynthia Huntington presented her poem entitled "Canaan."

*This one is for the lake
with the kids and families swimming
at nine o'clock, last light in the sky,
its blues and whites growing thoughtful,
not yet dark, but patched with meaning ...
Night is meaning, wants to be truth,
will cover the strip of beach
ending in grass, the painted floats
marking off a square for the swimmers,
away from the boat landing
where a girl in a blue tanksuit
stands in water to her knees, thinking.
The bathhouse is open, catching dark;
the swimmers can still see themselves
and one another: clear, simple shapes*

*except for the blindfolded one
 spinning, crying, "Marco! Marco!"
 and the answers soft, elusive: "Polo."
 Soon they will all be blind,
 but they'll come in before that. Fold up towels
 and beach chairs, get into their cars and drive off.
 This is for the lake, which keeps on
 taking darkness into itself, beginning
 with the mountains, their shadows diving in,
 reflections that try to touch bottom
 but float up to the surface. For the lake,
 whose water is warm, moving against
 the whole shore of itself, that small
 impulse from the center. For the shore
 where boats are tied, where paths come down
 between pines, the bank crowded with trees.
 For the lake, its water, a surface reflecting
 motion, quiet below. For how it is always here.
 Through summers. January ice. With beaches
 or overgrown. Once not discovered. Then settlements
 beside it, farms. War on the radio. Still, it gives up
 its surface to the sky; by night
 it is night, and by day night lies hidden in it,
 under boats, under rocks, under roots, in the still
 darkness at the center, sparkling
 and throwing back light as the lake looks up
 through itself into the world. Clouds, mountains, trees
 the cool of evening
 settling down to touch, just touch
 the calm skin of the water, trembling inside.*

MUSICAL INTERLUDE

Members from the 7th and 8th grade Hopkinton Middle School Chorus, with teacher, Barbara Jenkins and accompanied on guitar by Paul Silverman, sang "Life Uncommon."

INAUGURAL ADDRESS

Governor John H. Lynch delivered his Inaugural Address.

Thank you all so much. Mr. Speaker, Mr. President, Mr. Chief Justice and members of the Judiciary, honorable members of the House, Senate and Executive Council, and my fellow citizens. In a ceremony as old as our constitution, here in this historic building, with my hand on the Holy Bible, I have taken a solemn oath as governor to serve the people of this great state. This oath represents a sacred trust – a trust placed under my care by the people of New Hampshire, to whom I make this pledge in return: Every day, in everything I undertake on your behalf, I will do my best to prove myself worthy of that trust. The citizens of New Hampshire expect and deserve a government as clean as our mountain streams and as open as our blue skies. Today, let us pledge together to make this government – the people's government – clean, open and honest.

Let me introduce four very special people: My wife, Dr. Susan Lynch, the love of my life and my best friend for close to 30 years; my daughter, Jackie, now a freshman in college; my daughter Julia, a sophomore at Hopkinton High School; and my son, Hayden, a future UNH hockey player and now a student at the Maple Street School. Without their love and support, I would not be here today.

Let us, too, take a moment to remember the many New Hampshire men and women serving overseas in our armed forces. We are thankful for their sacrifice, their extraordinary courage and service. Let us pray together for their safe return to the families who love them, and to the state that admires them so much.

And we mourn the tremendous loss of life from the Indian Ocean tsunami. With this tragedy, we are reminded again that citizens of the world are more closely connected than ever before.

Those of us here behind the podium represent the political landscape of New Hampshire. Senator Eaton, a Republican – elected from the most Democratic county in the state. Speaker Scamman, also a Republican – selected to preside in this House by Representatives from both parties. Chief Justice Broderick, a Democrat – nominated by a Republican governor and confirmed by a Republican Executive Council. And I am a Democrat who could never have been elected governor without the support of so many Republicans and Independents.

Some might wonder what in the world the voters were thinking about when they put us all here together. I think I know exactly what they expect. They expect us to shake hands and then go to work – together – for all of New Hampshire. Let's not disappoint them. We will not agree on every issue. But let us respect those differences and respect one another. Let us recognize that we do not serve an ideology or a political party. We serve the people. We serve children who deserve a quality education. We serve families who need affordable health care. We serve seniors who have earned a secure and dignified retirement. We serve men and women who simply want a decent job. I promise you and all the people of New Hampshire this: my door will always be open, and no governor could be more willing than I am to join you in addressing the issues facing our state. More than 30 years ago, I came to this great state and entered the freshman class at the University of New Hampshire. That moment changed my life. Thanks to the people of New Hampshire and our university, it was possible for a kid like me, the fifth of six children from a working class family in a small New England town, to get a college education. I also learned something very important. I learned that New Hampshire was where I wanted to make my home and raise my family.

I love New Hampshire – for our beautiful mountains and lakes and seashore; for the special, intimate quality of life in our cities and towns; for the way everyone somehow gets to know each other, no one is a stranger for long, and everyone chips in to help whenever someone else needs it the most. That is the New Hampshire way. We know the New Hampshire spirit. It is because of our faith in that spirit that we can come together now to address our challenges and make progress on the important issues that we face.

Let me be clear. I am not here to advocate for more government, but better government, and that starts with open, ethical, honest government. The people of New Hampshire expect the highest standards of ethics and integrity from us, their elected officials. The only interest we should be considering are the people's interests.

But we can't just say the words. We must prove it with our deeds. Tomorrow – my first full day as governor – I will issue an Executive Order requiring everyone who works for the Governor's Office, regardless of title or pay, to file a financial disclosure. In choosing my nominations and appointments, I will have one simple test in mind: who will do the best job for New Hampshire. I will require all my nominees to meet the highest standards, to file financial disclosures and to disclose any potential conflict of interest.

And I will propose legislation creating an independent ethics commission to investigate ethics complaints against executive branch appointees and to toughen penalties for violating our state ethics code. An ethics commission, by itself, will not guarantee the good behavior of public servants. Our own individual integrity is the only sure guarantor of that. But such a commission will hold us to the highest standards. Our citizens deserve nothing less.

Integrity is also about how you treat people. I am not a man who values people based on their titles or their wealth. I value people based on their character, on their effort and on their perseverance in difficult circumstances. For example, it is the state employees of New Hampshire who make this government work even in the toughest of times. I will be a governor who respects our state employees. I intend to lead an administration that honors the trust given to us by the people of New Hampshire.

That means we must be honest with our citizens about the challenges we face. We must face the hard truth about the state budget. We are inheriting a large deficit, 300 million dollars. As a state, we must decide what we want to do and how we can do it better. I am in the process of zero-basing every department budget, requiring every department to justify every penny they spend, starting from zero. And, in February, I will present this legislature an honest and balanced budget that reflects our values and our priorities as a state.

And let me be clear: I will veto an income or sales tax.

As a businessman, I made the difficult decisions necessary to save a failing company. But I also learned that you can keep an eye on the bottom line and still look out for people. And that's what I will do as your governor.

Education – from kindergarten through college – is the most important investment we can make in our children and in our state's economic future. We must improve our schools, make sure more of our children graduate from high school and that more go on to college. But we cannot improve quality if we continue as a state divided, if we spend every year re-fighting school funding, if we are constantly changing the rules on communities.

It's time for a fresh approach to education funding – an approach that allows us to once again focus on improving quality, directs more state aid to the communities that need it the most, and eliminates the statewide property tax and donor towns. I will present such a school-funding plan and I will work with all of you for a fair and lasting solution. I do not care who gets the credit, and neither do the people of New Hampshire. They just want this solved. And it is up to all of us to live up to that responsibility – this year.

Improving public education is the best long-term strategy for strengthening our economy. But there are other immediate steps we must take: promoting trade so that our businesses can sell their products across the world; investing in tourism promotion to help attract visitors to New Hampshire. And we must address the number one issue facing our businesses, the soaring cost of health insurance. Too many of our families are one sickness away from financial catastrophe. Too many of our children are without health care at all. Health insurance premiums for too many of our small businesses have skyrocketed so high that investment is stifled, hiring curtailed and economic growth stymied.

Although passed with good intentions, Senate Bill 110 is not working. Delaying action won't make this law better, or its impacts on our businesses and workers any less severe. We must repeal SB 110 now. But repealing SB 110 is just the beginning of the discussion and not the end. The health care cost increases that we are experiencing are not sustainable. I will appoint a task force on health care to bring together consumers, providers, business leaders, and elected officials to recommend innovative solutions. Working together, I believe that we can and will make our system more affordable and better for all of our citizens.

Children with access to health care do better in school and later on in life. Preventative health care is simply less expensive than remedial care. Providing children with health insurance is not only the right thing to do, it's the smart thing to do. And as governor, I will work to make sure we enroll every eligible child in our Healthy Kids children's health insurance program.

We cannot discuss investing in our state's future without talking about protecting our beautiful, natural environment. It is part of why we all love and live in New Hampshire. And it is one of our state's most important economic assets. As New Hampshire grows, we must fight to protect our environment and quality of life – our open spaces, our lakes and seashore, our groundwater and clean air. Let us together ensure the environment we pass on to our children is better than the one passed on to us.

I recognize that a governor's most fundamental responsibility is to protect the health and safety of our citizens. That responsibility is even greater after September 11th. Every day our state troopers, our local police officers, our firefighters, our EMTs and our other first responders are out working to protect us. First, let us say to them, thank you for everything you do. Second, let me say that as governor, I will work to make sure that you have what you need to do your jobs and to do them safely. I will work with you, with our neighbors across New England and in Canada, with the federal government and with businesses to make sure New Hampshire is protected and prepared. Finally, New Hampshire's tradition of citizen involvement is one of our state's most cherished attributes – from helping organizations like the United Way or Red Cross to serving on town boards and commissions, from volunteering time to coach children's athletic teams to assisting seniors living in nursing homes. As governor, I intend to give these efforts greater recognition, and especially to encourage our young people to devote more time to community service.

The citizens who elected us expect us not just to represent them on issues of importance, but to represent their highest ideals for the state they love – to cherish and protect New Hampshire's long and hard-earned reputation for open government, responsive government and honest government. We must not let them down.

No one understood this better than Daniel Webster, New Hampshire's great statesman and orator, who dedicated his life to public service and to preserving democratic government. His portrait hangs on the wall of this chamber and watches over all of us today. Daniel Webster said, "A sense of duty pursues us ever. It is omnipresent, like the Deity." No matter where we go, Webster said, "duty performed or duty violated is still with us."

Throughout our common history runs a common theme. Our duty is to the people, not to ourselves, not to a political party. Whether we are elected or appointed, members of the executive, legisla-

tive, or judicial branches of government, here in New Hampshire we hold ourselves to a higher standard. We believe that public service is an honor and a privilege.

We realize that this historic structure is more than a building where people meet each year to debate issues and cast votes on legislation. This State House is also the symbol of New Hampshire and we are its temporary custodians, with the solemn responsibility to ensure that it – and everything it represents – is never tarnished by anything we do.

That is the New Hampshire way. Let us take it together.

Thank you very much.

BENEDICTION

Reverend Edward J. Arsenault, Moderator of the Curia, the Diocese of Manchester, offered the Benediction.

Gracious and merciful God, You have shown us such great love by fashioning each person with these singular powers in our soul; understanding to know You, memory to keep You in mind, to hold You within ourselves, will to love You more than anything else. Therefore, we offer You praise and thanksgiving for having shown us Yourself and in making us in Your own image and likeness. This sacred trust begins from the moment of conception until one's life meets its natural end and we return to You. Every person is made to serve You and others. You challenge all of us to promote what is best for all – the common good. In a particular way, those we elect as leaders are charged with public service. They must seek out the delicate balance between individual rights and the fulfillment of what best serves all in their words and deeds. For as Saint Luke reminds us of the words of the Lord, "The measure with which we measure will be measured back to us." May Governor Lynch, his Council, the members of the General Court and our Judiciary be faithful servants of the common good.

You've endowed our new Governor with many personal talents and an ability to see and nourish such gifts in others. Inspire his vision and his resolve to work for the good of all by building consensus among leaders as he begins his public service to the people of New Hampshire today. May the gift of faith inspire him, may his vision for our state continue to be hopeful, may his efforts to serve us be rooted in a profound sense of Your love for every human person and in Your call that we love one another. In this spirit, may all that we do be begun by You and by You be brought to fulfillment, now and forever. Amen.

Rep. O'Neil and Sen. Clegg moved that the Joint Convention arise.

Adopted.

The Joint Convention adjourned.

Trumpeters Robert Couturier of Manchester and Thomas Lavoie of Farmington performed as the guests exited the chamber.

RECESS

HOUSE SESSION

(Rep. Weyler in the Chair)

The House reconvened at 1:05 p.m.

RESOLUTION

Rep. O'Neil offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, House Bills numbered 162 through 186, shall be by this resolution read a first and second time by the therein listed titles, sent for printing, and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILLS

First, second reading and referral

HB 162, establishing boating speed limits for Lake Winnepesaukee. (Pilliod, Belk 5; Emerson, Ches 7: Resources, Recreation and Development)

HB 163, establishing a committee to study the provision of education through the county government system. (Wendelboe, Belk 1: Municipal and County Government)

- HB 164**, relative to the use of chelating agents or chelation drug therapy for the treatment of medical conditions. (Slocum, Hills 6: Health, Human Services and Elderly Affairs)
- HB 165**, relative to cellular telephone use during motor vehicle operation. (Scanlon, Hills 18; Roberge, Dist 9: Transportation)
- HB 166**, relative to notice of driver's license suspension or revocation. (Scanlon, Hills 18; Roberge, Dist 9: Transportation)
- HB 167**, relative to mail-in rebates for merchandise purchased within the state. (Scanlon, Hills 18; Roberge, Dist 9: Commerce)
- HB 168**, relative to the licensure of electrologists and establishing an electrology advisory committee. (Pilliod, Belk 5; Emerson, Ches 7: Executive Departments and Administration)
- HB 169-FN-A**, relative to completion of a sidewalk on Hazen Drive in the city of Concord and making an appropriation therefor. (Bouchard, Merr 11; R. Williams, Merr 11; Reardon, Merr 11; DeJoie, Merr 11; MacKay, Merr 11; Larsen, Dist 15: Public Works and Highways)
- HB 170**, relative to unemployment compensation. (Bishop, Rock 2: Labor, Industrial and Rehabilitative Services)
- HB 171**, relative to nicknames on ballots. (Marshall Quandt, Rock 13; Matthew Quandt, Rock 13; Soltani, Merr 8: Election Law)
- HB 172**, relative to periodic review of state contracts by the legislative fiscal committee. (P. Smith, Rock 3; Matthew Quandt, Rock 13; Phinizy, Sull 5: Finance)
- HB 173**, relative to food service and distribution. (Pilliod, Belk 5; Emerson, Ches 7: Health, Human Services and Elderly Affairs)
- HB 174**, relative to renewable energy transition service and the extension of a portion of the system benefits charge. (Maxfield, Merr 6; Gatsas, Dist 16: Science, Technology and Energy)

HB 237, relative to telephone rate disclosure. (Bergin, Hills 6; Dokmo, Hills 6: Commerce)

RECESS

(Rep. Marjorie Smith in the Chair)

RESOLUTION

Rep. Norelli offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, House Bills numbered 238 through 248, and Constitutional Amendment Concurrent Resolution numbered 9 shall be by this resolution read a first and second time by the therein listed titles, sent for printing, and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILLS and CACR

First, second reading and referral

HB 238-FN, relative to the use of marijuana for medicinal purposes. (T. Robertson, Ches 3; Weed, Ches 3: Health, Human Services and Elderly Affairs)

HB 239-FN, relative to certification of shampoo assistants by the board of barbering, cosmetology and esthetics. (N. Allan, Hills 26; Patten, Carr 4; P. Katsakiores, Rock 5: Executive Departments and Administration)

HB 240-FN, relative to psychotropic drugs and child protection. (P. Katsakiores, Rock 5; G. Katsakiores, Rock 5; Griffin, Rock 4: Health, Human Services and Elderly Affairs)

HB 241-FN-L, relative to removal of political advertising. (Marshall Quandt, Rock 13; Matthew Quandt, Rock 13: Election Law)

HB 242, relative to falsification of motor vehicle applications filed with the department of safety. (Hinkle, Hills 19; Bicknell, Rock 1; Green, Dist 6: Transportation)

HB 243, relative to boat registration fees. (Patten, Carr 4; Brundige, Hills 19: Ways and Means)

HB 244-FN, relative to statutory liens by the department of safety. (Packard, Rock 3; Letourneau, Dist 19: Transportation)

HB 245, establishing a committee to study property appraisals of features of land and the view from residential property and unimproved land. (Parkhurst, Ches 4; Phinizy, Sull 5; Alger, Graf 6: Municipal and County Government)

HB 246, establishing a committee to study the classification of employees as independent contractors. (Gould, Rock 5; Infantine, Hills 13; Green, Dist 6; Foster, Dist 13; Gottesman, Dist 12: Labor, Industrial and Rehabilitative Services)

HB 247, extending the law regarding receivership of care facilities for a certain length of time. (MacKay, Merr 11; Pilliod, Belk 5: Health, Human Services and Elderly Affairs)

HB 248, authorizing semi-annual payments of school building aid. (Alger, Graf 6; Carter, Hills 3; Johnson, Dist 2: Education)

CACR 9, relating to taxation. Providing that a 2/3 vote is required to pass a new tax or to increase a tax after it is levied and that the maximum increase in any budget bill shall be limited by the rates of inflation and population growth. (P. Smith, Rock 3; Dumaine, Rock 3: Ways and Means)

RECESS

(Rep. Price in the Chair)

RESOLUTION

Rep. Weyler offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, House Bills numbered 249 through 277, and Constitutional Amendment Concurrent Resolution numbered 10 shall be by this resolution read a first and second time by the therein listed titles, sent for printing, and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILLS and CACR**First, second reading and referral**

- HB 249**, relative to delivery of absentee ballots to city or town clerks. (Vaillancourt, Hills 15: Election Law)
- HB 250**, permitting certain election day workers to vote by absentee ballot. (Vaillancourt, Hills 15: Election Law)

- HB 273-FN**, relative to licenses for persons who are not United States citizens and who are temporarily residing in New Hampshire. (Hinkle, Hills 19; Bicknell, Rock 1, Giuda, Graf 5; Green, Dist 6: Transportation)

HB 274, relative to notice of the availability of automobile gap insurance. (Hinkle, Hills 19; D.L. Christensen, Hills 19: Commerce)

HB 275, defining farmers' market. (O'Connell, Hills 6; Phinizy, Sull 5; Babson, Carr 3; Bragdon, Dist 11: Environment and Agriculture)

HB 276, relative to nominations by nomination papers. (Mulholland, Graf 10: Election Law)

HB 277, relative to special elections for executive councilor, state senator, and state representative. (Whalley, Belk 5; Kennedy, Merr 4; Clegg, Dist 14; Flanders, Dist 7: Election Law)

CACR 10, relating to apportionment of representatives. Providing that the legislature apportion representative districts according to certain fixed standards. (Itse, Rock 9; Dumaine, Rock 3: Election Law)

RECESS

(Speaker Scamman in the Chair)

Rep. O'Neil moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 4

Wednesday, January 26, 2005

The House assembled at 1:00 p.m., the hour to which it stood adjourned, and was called to order by the Speaker.

His Excellency, Governor John H. Lynch, joined the Speaker on the rostrum for the day's opening ceremonies.

Prayer was offered by Guest Chaplain, The Reverend David P. Jones, Rector of Saint Paul's Episcopal Church in Concord.

Powerful, patient and persistent God, unpredictable in every way, save for love, guide and guard these good men and women, commissioned by You to lead. May they feel the pressure of Your desires and the comfort of Your care as together they make the choices for us that will define our tomorrow. Amen.

Rep. James W. Danforth led the Pledge of Allegiance.

Rep. Mary Gorman led the members in the singing of the National Anthem.

LEAVES OF ABSENCE

Reps. Mary Allen, Almy, Brundige, Carlson, Desmarais, Egbers, Foote, Hammond, Hopfgarten, Hunter, Manning, Palangas, Powers, Tholl and Wall, the day, illness.

Reps. Donahue, Fesh, Introne, Klose, Lary, Lawrence, Moran, Pelkey, Reed, Rowe and Wiley, the day, important business.

Reps. Julie Brown, Coughlin, Hollinger, Knowles and Lefebvre, the day, illness in the family.

Reps. Abbott, Adams, Balboni, MaryAnn Blanchard, Jennifer Brown, Buhlman, Cilley, Dalrymple, DiFruscia, Gilbert, Grassie, Hagan, Heon, Keans, Miller, Mooney, Moore, Naro, Pantelakos, Sanders, Snyder and Katherine Taylor, the day, inclement weather.

INTRODUCTION OF GUESTS

Neil Capano, guest of Rep. Golding. Karl Hecker, guest of Rep. Dunn. Mrs. James Phinizy, wife of Rep. Phinizy.

PETITION

Hon. W. Douglas Scamman, Jr.

Speaker of the New Hampshire House

Dear Mr. Speaker:

We, the undersigned, do hereby petition for the House to exercise the powers granted to it by the New Hampshire Constitution, Part Second, Article 22, to vacate the November 2004 election of Bonnie Mitchell to the state representative seat in Cheshire District 7 specifically because she did not meet the constitutional requirement, at the time of the election, to "have been an inhabitant of this state" for the preceding two years (Part Second, Article 14).

We request that this petition be referred to the Subcommittee on elections (per House Rule 30(m)(1). With keen interest in the integrity of votes made on the House floor, we request that this matter be expedited so that the Subcommittee will report directly to the House(per House Rule 30(m) by the next scheduled session day (January 26, 2005) and that a vote to vacate the election of Bonnie Mitchell be taken up by the House as the first order of business that day. Reps. Balboni, Ingbertson, Cady, Newton, and Easson.

CLERK'S NOTE

The entire text of this petition is on file in the Office of the House Clerk.

COMMUNICATION

January 6, 2005

Karen Wadsworth, Clerk of the House

Please be advised that the following representative-elect was sworn into office by the Governor and Council on this day:

Sullivan County District 1, Stephen G. Prichard, d, Grantham (P.O. Box 1220) 03753 William M. Gardner, Secretary of State

COMMUNICATION

January 21, 2005

Hon. W. Douglas Scamman, Jr.

Speaker of the House

Mr. Speaker,

With regret, I must submit my resignation from the appointment as Chaplain to the House, for personal and professional reasons, effective immediately. I have been honored to serve in this ministry and leave, early in this new term, knowing of the good work that is accomplished every-day in the House.

Sincerely, Hays M. Junkin,
Saint Andrew's Episcopal Church

The Speaker accepted the resignation with regrets.

RESOLUTION

Reps. O'Neil and Craig offered the following:

RESOLVED, that the Speaker appoint a committee of three to select a suitable person to serve as House Chaplain during the 2005-2006 biennium and to report such selection to the House.

Adopted.

The Speaker appointed Reps. Weyler, Potter and Manney to the committee.

RESOLUTION

Rep. O'Neil offered the following: RESOLVED, that in accordance with the list in the possession of the Clerk, House Bills numbered 278 through 299, and 301 through 316 shall be by this resolution read a first and second time by the therein listed titles, sent for printing, and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILLS

First, second reading and referral

HB 278, relative to the alternative budget procedure in school administrative units. (Casey, Rock 11; C. Robertson, Rock 13; Asselin, Rock 7; P. McMahon, Merr 3; Scanlon, Hills 18; Hassan, Dist 23; Fuller Clark, Dist 24: Education)

HB 279, relative to the classification of Spofford Lake in Chesterfield, New Hampshire. (Hogancamp, Ches 4; Dexter, Ches 6; Currier, Merr 5; Eaton, Dist 10: Resources, Recreation and Development)

HB 280, relative to acceptance of service of process of divorce petitions and requests for modification. (Bickford, Straf 3: Children and Family Law)

HB 281, requiring certain labels on bottled water. (Marple, Merr 9: Executive Departments and Administration)

HB 282, establishing a committee to study issues relating to voter registration and identification requirements. (Price, Hills 26: Election Law)

HB 283, relative to the commission to examine all aspects of same sex civil marriage and its legal equivalents. (Morrison, Belk 2; Splaine, Rock 16; Craig, Hills 9; D'Allesandro, Dist 20: Judiciary)

HB 284, excluding the value of a view from property tax assessments. (Alger, Graf 6; Parkhurst, Ches 4: Municipal and County Government)

HB 285, relative to carrying a concealed weapon without a license. (J. Wheeler, Hills 6; Adams, Hills 2; Biundo, Hills 15; Hansen, Hills 6; Gibson, Hills 19; Gallus, Dist 1: Criminal Justice and Public Safety)

HB 286, prohibiting the operation of pocket bikes and motorized scooters upon ways. (J. Flanders, Rock 8: Transportation)

HB 287, ratifying the purchase of a certain property by the town of Canaan. (Solomon, Graf 10: Municipal and County Government)

HB 288-FN, establishing a commission to effect the process for the town of Killington, Vermont to become part of the state of New Hampshire. (Currier, Merr 5; Patten, Carr 4; Major, Rock 8; Reardon, Merr 11; Clegg, Dist 14; Flanders, Dist 7; Gallus, Dist 1; Johnson, Dist 2: Legislative Administration)

HB 289-FN, relative to registration fees for lobbying and lobbyists and requiring registration of employers of lobbyists. (Weed, Ches 3; Pratt, Ches 2; P. Allen, Ches 6: Legislative Administration)

- HB 290-FN**, relative to participation in health savings accounts. (Wendelboe, Belk 1: Executive Departments and Administration)
- HB 291-FN-A**, establishing a research and development tax credit against the business profits tax. (P. Sullivan, Hills 10: Ways and Means)
- HB 292**, establishing a procedure for a town to withdraw from a 3-town school district. (Drisko, Hills 5; Gargas, Hills 5; Alger, Graf 6; Ryder, Hills 5; Hunter, Hills 7; Gottesman, Dist 12: Education)
- HB 293**, establishing a commission to study the development of a materials resource and recovery facility in Sullivan County. (Phinizy, Sull 5; Cloutier, Sull 4; Donovan, Sull 4; Converse, Sull 4; Ferland, Sull 5; Burling, Dist 5; Odell, Dist 8: Environment and Agriculture)
- HB 294**, relative to criminal records and evidence. (Dumaine, Rock 3; Hagan, Hills 17; Itse, Rock 9: Judiciary)
- HB 295**, relative to access to certain motor vehicle records. (Dumaine, Rock 3; Hagan, Hills 17; P. Smith, Rock 3: Judiciary)
- HB 296**, relative to bonding requirements for private detectives. (Dumaine, Rock 3; Hagan, Hills 17; P. Smith, Rock 3; Ulery, Hills 27: Commerce)
- HB 297-FN**, relative to charter schools. (L. Christiansen, Hills 27: Education)
- HB 298**, relative to consolidating statutes relating to driving while intoxicated. (Tholl, Coos 2: Transportation)
- HB 299**, relative to mechanics' liens. (Infantine, Hills 13; Hebert, Hills 17; Martel, Dist 18: Commerce)
- HB 301-L**, relative to parent advisory councils for pupils with educational disabilities. (Drisko, Hills 5; Gargas, Hills 5; Hall, Hills 5; Ryder, Hills 5: Education)
- HB 302**, establishing a county mileage surcharge for service of documents by county sheriffs. (Ryder, Hills 5: Judiciary)
- HB 303-FN**, relative to the fire standards and training and emergency medical services commission. (Stevens, Carr 4; Tholl, Coos 2; Winchell, Rock 6: Criminal Justice and Public Safety)
- HB 304-FN-A**, relative to federal highway grant anticipation bonds. (Rausch, Rock 5; Dowd, Rock 5; Dowling, Rock 5; Graham, Hills 18; Waterhouse, Rock 4; Morse, Dist 22; Letourneau, Dist 19; Clegg, Dist 14: Public Works and Highways)
- HB 305**, relative to amended warrant articles on official ballots. (Hawkins, Hills 18; Graham, Hills 18; Slocum, Hills 6; Roberge, Dist 9: Municipal and County Government)
- HB 306**, relative to mandatory education for crossbow hunters. (Stohl, Coos 1; Greco, Merr 7; Patten, Carr 4; H. Richardson, Coos 2: Fish and Game)
- HB 307**, establishing a committee to study the feasibility of licensing residential building and remodeling contractors. (Infantine, Hills 13; W. P. Campbell, Straf 3; Holden, Hills 7: Executive Departments and Administration)
- HB 308**, relative to the special education payment distribution schedule and relative to alternative dispute resolution proceedings in special education. (Claire Clarke, Merr 6; Dunn, Ches 3; Rush, Merr 7: Education)
- HB 309-FN-A**, establishing a commission to recodify laws relating to financial contributions and disclosures and conflicts of interest and making an appropriation therefor. (Hess, Merr 9; Rowe, Hills 6: Legislative Administration)
- HB 310**, relative to requirements of the fish and game department before a coastal area may be closed to fishing of marine species. (Morris, Rock 14; Hammond, Graf 11; Pilliod, Belk 5; Gibson, Hills 19; Goyette, Hills 27: Fish and Game)
- HB 311-L**, enabling towns to establish revolving funds for certain purposes. (Patten, Carr 4; Foose, Merr 1: Municipal and County Government)
- HB 312**, relative to the appointment of parenting coordinators in child custody cases. (Gargas, Hills 5; Bickford, Straf 3; Franklin, Sull 2; Roberge, Dist 9: Children and Family Law)
- HB 313-FN**, relative to registration of business entities. (S. Francoeur, Rock 15: Commerce)
- HB 314-FN**, requiring public restrooms in the division of motor vehicles. (Palazzo, Rock 14: Public Works and Highways)
- HB 315**, relative to best available technology for air pollution control. (Maxfield, Merr 6; Thomas, Belk 5; Flanders, Dist 7: Science, Technology and Energy)
- HB 316**, relative to neutral evaluations in child custody cases. (Gargas, Hills 5; Bickford, Straf 3; Franklin, Sull 2; Roberge, Dist 9: Children and Family Law)

MOTION TO VACATE

Rep. Sheila Francoeur moved that the House vacate the reference of **HB 217**, relative to liability of third persons under workers' compensation, to the Committee on Commerce.

Adopted.

The Speaker referred HB 217 to the Committee on Labor, Industrial and Rehabilitative Services.

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. O'Neil moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 72, relative to continuing education requirements for professional engineers, removed by Rep. Russell.

HB 123, relative to the New Hampshire state flag, removed by Rep. Paul Smith.

HB 96, relative to a certain highway project between Pembroke and Bow, New Hampshire, removed by Rep. Field.

Consent Calendar adopted.

HB 74, relative to the sale of permissible fireworks. **OUGHT TO PASS**

Rep. Gene P. Charron for Criminal Justice and Public Safety: This bill allows New Hampshire permissible fireworks dealers to sell at wholesale to other New Hampshire permissible fireworks dealers. States cannot and do not regulate interstate sales. That is the authority of the federal government. The Fire Marshal supports this bill that clarifies that wholesale sales are, and should be, allowed within the state. Vote 16-0.

HB 80, relative to the definition of a deadly weapon. **INEXPEDIENT TO LEGISLATE**

Rep. Peter M. Sullivan for Criminal Justice and Public Safety: This bill would change the statutory definition of a "deadly weapon" by removing language that specifically references firearms and knives. The committee believes that such a change is unnecessary and has the potential to create confusion and ambiguity in the law. In addition, the Attorney General's office informed the committee that it opposes passage of this bill. Vote 19-0.

HB 86, relative to property held in police department property rooms. **OUGHT TO PASS**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill changes the length of time that a police department is required to hold unclaimed and abandoned property from 180 to 90 days before disposing of it. There was testimony that police department property rooms are overcrowded. This bill would provide relief to those agencies experiencing storage problems. This bill does not affect storage of evidence. Vote 19-0.

HB 131, requiring notice of the installation of smoke detectors prior to the sale of residential property. **INEXPEDIENT TO LEGISLATE**

Rep. Gene P. Charron for Criminal Justice and Public Safety: The committee is well aware of the importance of safety. It was felt that this bill went too far for several reasons. All residential homes would be required to install hard wire detectors before the home could be sold. The bill required more detectors in living areas and sleeping areas on all levels. The homeowner would have to certify that the system is less than ten years old and the committee was concerned with this. Who becomes liable? The installation of a system prior to sale could create a financial burden to the seller, especially in older homes. The burden would be more so on the elderly. Who would enforce compliance? Vote 16-0.

HB 62-FN, relative to the Social Security offset in the calculation of state retirement system annuities. **INEXPEDIENT TO LEGISLATE**

Rep. William R. Zolla for Executive Departments and Administration: This bill would have the 10% offset start when the beneficiary actually retired under federal guidelines between the ages of 65 to 67, thus requiring more money in the interim. At the present time, the offset takes place at 65. The retirement system terminally funded this at age 65 many years ago when it reduced the offset from 25% to 10% at great expense to the special accounts. The current bill does not address past retirees or those vested employees eligible for retirement annuity, only future retirees. The cost this bill would place on the political subdivisions would be approximately 1.9 million dollars a year according to actuarial estimates and would be in violation of Part First, Article 28-a of the NH Constitution. Vote 14-4.

HB 85, establishing the private attorney retention sunshine act. **INEXPEDIENT TO LEGISLATE**
Rep. Maurice L. Pilotte for Executive Departments and Administration: The committee was informed by the attorney general's office that requests for the hiring of outside attorneys are currently submitted though the attorney general's office and negotiated rates currently agreed to by the State of New Hampshire are capped at an amount far below the \$1,000 per hour rate threshold suggested in this bill. The current procedure of review of contracts by the governor and executive council would be duplicated if contracts passing a specific dollar threshold were subjected to a hearing by the joint fiscal committee of the legislature. Vote 16-2.

HB 99, changing the name of the college for lifelong learning to Granite state college. **OUGHT TO PASS WITH AMENDMENT**

Rep. Francis B. Sullivan for Executive Departments and Administration: After listening to extensive testimony from the University of New Hampshire Board of Trustees, the president of the school requesting the name change, and numerous other interested parties, the committee felt that the name change was appropriate at this time. It was felt that the name change would bring about many positives for all involved with the school. Vote 18-1.

Amendment (0026h)

Amend the bill by replacing section 5 with the following:

5 Effective Date. This act shall take effect upon its passage.

HB 161, relative to vacancies in the office of United States senator. **INEXPEDIENT TO LEGISLATE**
Rep. John DeJoie for Executive Departments and Administration: The committee carefully reviewed the testimony of the sponsor who offered the only testimony on this bill. While the sponsor's testimony was an attempt to standardize the process of filling vacancies, she was unable to illustrate a problem with the current system. In fact, her testimony illustrated various procedures for filling vacancies. As such, the committee did not believe there was merit in pursuing this bill any further. Vote 17-1.

HB 101, relative to the duties of the oversight committee on health and human services. **INEXPEDIENT TO LEGISLATE**

Rep. Thomas E. Donovan for Health, Human Services and Elderly Affairs: The intent of this legislation was to add the ability to monitor the development of new data systems within the Department of Health and Human Services, specifically in the Home and Community Based (HCBC), and long term care programs. The committee felt that under the present RSA 126-A:15, the Oversight Committee had the ability to perform this, and the committee also expressed a commitment to direct the Oversight Committee and place this on its agenda for future review. Vote 17-0.

HB 105, relative to denial of fertility treatment to a fertility patient. **INEXPEDIENT TO LEGISLATE**
Rep. J. Gail Barry for Health, Human Services and Elderly Affairs: The committee was concerned about the anecdotal information provided on this bill concerning fertility treatment. However, after considerable deliberation, a subcommittee recommended ITL, as it felt there are currently a number of avenues available for consideration and response to complaints. In addition, the Department of Health and Human Services has received no complaints about fertility treatments in any of the clinics in New Hampshire. The Board of Registration in Medicine is available to hear complaints against physicians, which they take seriously and act upon readily. This bill was also opposed by the Director of the Fertilization Center at Dartmouth-Hitchcock, as well as the New Hampshire Medical Society and the New Hampshire Hospital Association. Vote 16-0.

HB 106, establishing a commission to study the practices and procedures of fertility clinics and to develop standards of care for such clinics. **INEXPEDIENT TO LEGISLATE**

Rep. J. Gail Barry for Health, Human Services and Elderly Affairs: This bill is a companion to HB 105 that also addressed issues concerning fertility treatment. HB 106 was studied by a subcommittee that voted unanimously to recommend ITL. The committee agreed and also voted unanimously Inexpedient to Legislate. The committee was sympathetic to those who pursue fertility treatment and experience anxiety and difficulty in the process. However, it was felt that the preponderance of evidence provided did not justify the need for a commission "to study the current practices and procedures of fertility clinics." The New Hampshire Department of Health and Human Services has not received any complaints about treatment received at fertility clinics. The Boards

of Registration of Medicine and Nursing are available to take action in malpractice and other claims against physicians and nurses. The New Hampshire Medical Society and a representative from the Dartmouth-Hitchcock Medical Center testified against this bill. The committee was convinced that existing provisions are provided on a national and state level to provide the highest level of care. The American Medical Association is opposed to this type of legislation. Vote 15-0.

HB 108, relative to the acuity-based reimbursement system developed by the department of health and human services. **INEXPEDIENT TO LEGISLATE**

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: This bill would have incorporated the cost of supervision for certain clients into the acuity-based reimbursement system. There was a total acknowledgment by the committee that individuals diagnosed with Alzheimer's or other related dementias most certainly required additional care. The committee also felt that there presently exists a mechanism to review the acuity levels of individuals in nursing facilities and that this concern will also be addressed and reviewed as part of the GraniteCare legislation. Vote 16-0.

HB 111, establishing a commission to study the elimination of cervical cancer in the state of New Hampshire. **OUGHT TO PASS WITH AMENDMENT**

Rep. Fran Wendelboe for Health, Human Services and Elderly Affairs: Cervical cancer is nearly 100 percent preventable with public education to not only promote PAP tests, but new tests and emerging vaccines. We now know that cervical cancer is caused by a common virus, human papilloma virus. HPV testing for target populations will aid in early detection and treatment. A vaccine currently in test trials at Dartmouth Hitchcock Medical School will potentially eradicate HPV and therefore cervical cancer in the future. The commission established by this bill will look at the prevalence of cervical cancer in New Hampshire, raise public awareness and use of HPV testing, and help prioritize strategies to eliminate cervical cancer in New Hampshire. The amendment simply corrects a clerical error. Vote 17-0.

Amendment (0008h)

Amend paragraph VI of section 3 of the bill by replacing it with the following:

VI. Developing a statewide comprehensive cervical cancer prevention plan and strategies for implementing and promoting the plan.

HB 164, relative to the use of chelating agents or chelation drug therapy for the treatment of medical conditions. **INEXPEDIENT TO LEGISLATE**

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: This bill deals with the administration of E.D.T.A., also known as Chelation Therapy. It provides that a licensed physician may prescribe E.D.T.A. when the physician deems it is appropriate for the patient. The New Hampshire Board of Medicine adopted a policy that E.D.T.A. "is used orally or intravenously in rare instances where there are valid reasons such as heavy metal poisoning." However, the Board feels there are real dangers in the use of this treatment. To quote a member of the New Hampshire Board of Medicine, "E.D.T.A. isn't safe as a drug. There's a real chance of kidney failure. E.D.T.A. can also cause bone marrow depression, shock, low blood pressure, convulsions, cardiac arrhythmias, allergic type reactions, and respiratory arrest." The Board's position is that E.D.T.A. cannot be used "for treating autism, atherosclerosis or any other condition for which there is no scientific basis." The committee voted this bill unanimously as I.T.L. Although the committee is supportive of alternative therapies, it felt that this legislation intrudes on the medical practices that are based on scientific evidence. The committee does endorse the ongoing medical research on E.D.T.A. Vote 18-0.

HB 173, relative to food service and distribution. **OUGHT TO PASS WITH AMENDMENT**

Rep. Cindy Rosenwald for Health, Human Services and Elderly Affairs: The intent of this bill was to establish a committee to study whether food services at youth summer camps, nursing homes, and agricultural fairs should continue to be exempt from licensure. The bill amended the definition of shellfish to comply with U.S.F.D.A. ordinance, corrected a reference which is no longer applicable to food safety classes, and clarified the definition of occasional food establishment in the food service licensure statute. The bill was referred to a subcommittee which found that current statute provided appropriate standards for licensing. The subcommittee was concerned that certain small community events might be subject to licensure. The bill was amended to correct the food safety class reference, change the shellfish definition, and revert to previous number of days defined under

occasional food service establishments, but also added exemption from licensing for non-profit service organizations, extra-curricular school activities, non-profit sporting events, and religious activities. The Department of Health and Human Services was in agreement with this amendment. The subcommittee was unanimous with its recommendation, as is the full committee. Vote 18-0.

Amendment (0039h)

Amend the bill by replacing all after the enacting clause with the following:

1 Food Safety; Terminology Changed. Amend RSA 143:11, I(a)(2) to read as follows:

(2) passes a food safety class, subsequent to the revocation of the license, ~~[which has been certified by the Buros Institute for Assessment, Consultation and Outreach at the University of Nebraska, or a successor organization]~~ **meeting the standards of the Conference for Food Protection**. In order to fulfill the requirements of this section, the new remedial plan shall first receive the approval of the commissioner. Notwithstanding RSA 541-A, any individual denied a full license at the end of the 90-day period shall immediately shut down his or her establishment, unless otherwise ordered by a court of competent jurisdiction.

2 Food Safety; Definition of "Shellfish." Amend RSA 143:20 to read as follows:

143:20 Definition. The term "shellfish," as used in this subdivision, means all fresh or frozen edible species of oysters, clams or mussels, either shucked or in the shell, **or scallops in any form, except when the final product form is the adductor muscle only.**

3 Food Service Licensure; Terminology Changed. Amend RSA 143-A:6, I(b) to read as follows:

(b) passes a food safety class, subsequent to the revocation of the license, ~~[which has been certified by the Buros Institute for Assessment, Consultation and Outreach at the University of Nebraska, or a successor organization]~~ **meeting the standards of The Conference for Food Protection**. In order to fulfill the requirements of this section, the new remedial plan shall first receive the approval of the commissioner. Notwithstanding RSA 541-A, any individual denied a full license at the end of the 90-day period shall immediately shut down his or her establishment, unless otherwise ordered by a court of competent jurisdiction.

4 Food Service Licensure; Definition. Amend RSA 143-A:3, V to read as follows:

V. "Occasional food service establishment" means any food service establishment operated by a private or public organization or institution, whether profit or nonprofit, which prepares food or drink for sale or for service, and any other eating or drinking establishment or operation where food is served or provided for the public with or without charge, no more than ~~[96 hours at no fewer than 3 hours a day]~~ **4 days** during a 30-day period. ***This definition shall not apply to the following non-profit entities which do not offer regularly-scheduled weekday meal service: extracurricular school events; non-profit sporting events; religious activities; or non-profit service organizations.***

5 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

I. Amends the definition of "shellfish" to be in compliance with the U.S. Food and Drug Administration's model shellfish ordinance.

II. Corrects a reference which is no longer applicable to food safety classes.

III. Clarifies the definition of occasional food service establishment in the food service licensure statute.

HB 186, establishing a committee to study the quality and delivery of nursing care to persons in nursing facilities or receiving home and community-based care. **INEXPEDIENT TO LEGISLATE** Rep. James R. MacKay for Health, Human Services and Elderly Affairs: The committee is supportive of the study duties outlined in this bill. Issues dealing with demographic data including the distribution of our population who are in home-based care, community-based care, and skilled nursing facilities are basic to the mission of the subcommittee on GraniteCare that has been recently established. In addition, the bill addresses training and other work force issues. The overall concern for quality of care is primary. The committee voted ITL not to discourage this study, but rather to include it in the already existing GraniteCare subcommittee. This allows the study to begin immediately under the purview of the GraniteCare subcommittee with all of its resources available. The committee voted unanimously to support this approach, including the involvement of the bill sponsors in the study process. Vote 18-0.

HB 36, establishing a committee to study the location of transitional housing for the New Hampshire hospital. **INEXPEDIENT TO LEGISLATE**

Rep. James B. Rausch for Public Works and Highways: A study committee, as proposed by this legislation, was deemed unnecessary. The hospital campus where the transitional housing is located has had extensive review and legislation to propose building rehabilitation, roadway and sidewalk reconfiguration. During the many meetings to study the campus, the Department of Health and Human Services has never indicated any problem with the transitional housing. Unless a specific request is made by the department, the committee feels a study is unnecessary. Vote 15-0.

HB 124, naming a certain portion of New Hampshire Route 125 the Mel Keddy Memorial highway. **OUGHT TO PASS WITH AMENDMENT**

Rep. Eric P. Rochette for Public Works and Highways: This bill names a portion of NH Route 125 from NH Route 107 to NH Route 111 after East Kingston Police Officer Mel Keddy, who died in the line of duty on this stretch of Route 125. The amendment added the word "officer" and includes NH DOT and Public Works and Highways Committee standard language for the naming of highways, which says that the state shall not be responsible for any costs incurred for signage, etc. Vote 15-0.

Amendment (0019h)

Amend the title of the bill by replacing it with the following:

AN ACT naming a certain portion of New Hampshire Route 125 the Officer Mel Keddy Memorial highway.

Amend the bill by replacing all after the enacting clause with the following:

1 Highway Named. Pursuant to RSA 4:43, the segment of New Hampshire Route 125 from its junction with New Hampshire Route 107 to its junction with New Hampshire Route 111 is hereby named the Officer Mel Keddy Memorial highway.

2 Signage. The cost of design, construction, maintenance, and installation of any signage, replacement signage, or other markers required under section 1 of this act shall not be a charge to the state. However, the design, construction, and installation of any signage or other markers required under this act shall be approved by the department of transportation.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill names a certain portion of New Hampshire Route 125 the Officer Mel Keddy Memorial Highway.

HB 135-FN-A, establishing a committee to study funding sources for the state laboratories and extending the appropriation to the department of corrections for the prison automation system. **OUGHT TO PASS WITH AMENDMENT**

Rep. John A. Graham for Public Works and Highways: This bill is identical to a bill passed by the House in the last session. However, due to unacceptable Senate amendments, the bill died in Committee of Conference. This bill has two distinct sections. The first will establish a study committee to look at the fees charged at the state labs and whether or not these fees should be used for maintenance costs or debt service. The second part extends the lapse date for an existing capital appropriations for the prison automation system. This extension will allow the Department of Corrections to leverage approximately \$800,000.00 in federal funds. The Department testified that there is a critical need for this automation system and that if the lapse date is not extended they will lose access to the federal funds on March 31, 2005. The amendment extends the lapse date to 2006. This will allow the Department sufficient time to speed the allocated funds. Vote 14-0.

Amendment (0024h)

Amend the bill by replacing section 6 with the following:

6 Capital Appropriation; Department of Corrections; Lapse Date Extended. The \$750,000 appropriation to the department of corrections in 1997, 349:1, III, D, for the prison automation system, is hereby extended to June 30, 2006.

HB 160, naming a certain bridge on New Hampshire Route 3 between Pembroke and Allentown. **OUGHT TO PASS WITH AMENDMENT**

Rep. Candace C.W. Bouchard for Public Works and Highways: The New Hampshire Department of Transportation will be replacing the double-deck bridge on Route 3 on the border of Allentown

and Pembroke and asked the towns to name the bridge. The two towns decided to have a bridge naming contest with the 8th grades at the Armand R. Dupont and Three Rivers Schools. The name Suncook Connection Bridge was chosen because the name will help preserve the culture and heritage of the scenic historic area known as Suncook Village. Members opposed to this legislation had issue with a contest being held to name the bridge, but the majority of the committee thought it was appropriate for the two towns to involve their local schools. Vote 13-2.

Amendment (0025h)

Amend the bill by replacing all after the enacting clause with the following:

1 Bridge Named. Pursuant to RSA 4:43, the new double-decker bridge to be built on New Hampshire Route 3 between Pembroke and Allenstown is hereby named the Suncook Connection Bridge.

2 Signage. The cost of design, construction, maintenance, and installation of any signage, replacement signage, or other markers required under section 1 of this act shall not be a charge to the state. However, the design, construction, and installation of any signage or other markers required under this act shall be approved by the department of transportation.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill names the new double-decker bridge to be built on New Hampshire Route 3 between Pembroke and Allenstown the Suncook Connection Bridge.

HB 148, transferring the New Hampshire estuaries project from the department of environmental services to the university of New Hampshire. **OUGHT TO PASS WITH AMENDMENT**
Rep. Judith T. Spang for Resources, Recreation and Development: This bill, as amended, enacts a recommendation of Chapter 257, Laws of 2004. The Estuaries Project's Management Committee was charged with finding a permanent host for the project. The University of New Hampshire was selected in order to facilitate coordination with UNH marine research programs integral to the Estuaries Project's work. Modest cost savings to the state are anticipated. The amendment makes the bill effective upon passage and deletes references to obsolete programs. Vote 15-0.

Amendment (0035h)

Amend the bill by replacing all after section 2 with the following:

3 Office of Energy and Planning; Obsolete References Deleted. Amend RSA 4-C:1, II(i) to read as follows:

(i) Administer the following programs: [~~the coastal zone management program, the New Hampshire estuaries project, the saltmarsh restorability program, the southeast New Hampshire groundwater sustainability program;~~] the statewide comprehensive outdoor recreation plan, the national flood insurance program, the land conservation investment program, the scenic and cultural byways system, fuel assistance contracts, and weatherization contracts. The office shall employ necessary personnel to administer these programs.

4 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill transfers the New Hampshire estuaries project from the department of environmental services to the university of New Hampshire. This bill also deletes references to programs that are no longer administered by the Office of Energy and Planning.

HB 174, relative to renewable energy transition service and the extension of a portion of the system benefits charge. **OUGHT TO PASS WITH AMENDMENT**
Rep. Sam A. Cataldo for Science, Technology and Energy: The bill added a new paragraph relative to renewable energy transition service, extending a portion of the systems benefits charge, and repealing laws relating to information provided to electric customers. This bill extends the authority of the commission to impose such a charge shall terminate on June 30, 2008. Vote 17-0.

Amendment (0046h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to renewable energy transition service, extending a portion of the system benefits charge, and repealing laws relating to information provided to electric service consumers.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Public Utilities Commission; Rulemaking; Renewable Energy Information. Amend RSA 365:8 by inserting after paragraph XII the following new paragraph:

XIII. Standards and procedures by which those electricity suppliers and utilities that choose to offer renewable energy options will provide information to customers who take such service of the fuel source or sources and emissions associated with the electrical service that they take and to inform such customers of the resource mix and emissions associated with the electricity generated and sold in the New England region as a whole.

2 System Benefits Charge; Programs for Low-Income Customers. Amend RSA 374-F:4, VIII(c) to read as follows:

(c) The portion of the system benefits charge due to programs for low-income customers shall not exceed 1.5 mills per kilowatt hour. The authority of the commission to impose such a charge shall terminate on June 30, [2005] 2008. *If the commission determines that the low-income program fund has accumulated an excess of \$1,000,000 and that the excess is not likely to be substantially reduced over the next 12 months, it shall suspend collection of some or all of this portion of the system benefits charge for a period of time it deems reasonable.*

3 Repeal. The following are repealed:

I. 2002, 268:7, relative to environmental disclosure.

II. 2002, 268:8, relative to expenditure on renewable energy education.

4 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill:

I. Requires the public utilities commission to adopt rules relative to electricity suppliers and utilities offering renewable energy options.

II. Extends the portion of the system benefits charge due to programs for low income customers.

III. Repeals provisions that required all electric customers to be informed of the resource mix and environmental characteristics of their electric service and required the public utilities commission to expend money to inform the public of the benefits of electricity generated from renewable energy resources.

REGULAR CALENDAR

HB 97, relative to replacing school budget committee members. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Paul R. Hopfgarten for the Majority of Municipal and County Government: The statute as currently constructed in (RSA 671:33) has possible conflicting provisions regarding the filling of vacancies for Budget Committee members. A notification to either the moderator or the chair of the school board seemingly determines who will fill the vacancy and could become a foot or telephone race. The changes to RSA 671:33 are only for elected Budget Committees, and would not affect methods of filling vacancies for appointed Budget Committees such as the Cooperative School Board representative to the Committee. The majority of the members of Municipal and County Government feel that the provisions of RSA 671:33 currently do not fill the vacancies in the same manner as all other elected Budget committees, and the proposed change makes the filling of vacancies consistent. Vote 10-5.

Rep. Harry S. Gale for the Minority of Municipal and County Government: The minority believes that HB 97 is unnecessary because there is a process in place in RSA 671:33 that provides a clear process for what either the budget committee or the cooperative school district representative has to do – notify the respective appointing authority. By removing the moderator, whose obligation and job description is to remain neutral and impartial, from the process of filling a vacancy will create more tension than the proposed change will ease. The minority believes that the recent court case in Sanborn reaffirms the existing policy.

The question being adoption of the majority committee report.

Rep. Gale spoke against.

Rep. Patten spoke in favor.

Majority committee report adopted.

Ordered to third reading.

BILLS REMOVED FROM CONSENT CALENDAR**HB 72**, relative to continuing education requirements for professional engineers. **INEXPEDIENT TO LEGISLATE**

Rep. Alida I. Millham for Executive Departments and Administration: A requirement for continuing education for engineers was established six years ago by the Board of Engineers. This bill was submitted to eliminate the education requirement for re-licensure. The committee determined there is no compelling argument to support this move and, in addition, felt it was not in the interest of the public or the profession of engineering. This would set a poor precedent for continuing education in other professional groups. Vote 19-0.

Rep. Russell spoke against.

Rep. Millham spoke in favor.

Committee report adopted.

HB 123, relative to the New Hampshire state flag. **INEXPEDIENT TO LEGISLATE**

Rep. Judson K. Dexter for Executive Departments and Administration: The American flag is recognized all over the world and has not one word within its border. The words "Live free or die" are a politically and emotionally charged phrase that we know has caused the state legal problems in the past. Additionally, it was made clear during the hearings that it is not against any state or federal laws if any individual wishes to add this phrase (or anything else) to our state flag. Our current state flag represents our proud history and hope for the future without stating a political position. Finally, "is there a problem with the flag?" Other than the sponsor, no one contacted the committee in any way expressing dislike of the current flag. Vote 15-2.

Rep. Paul Smith spoke against.

Rep. Guida spoke against and yielded to questions.

Rep. Dexter spoke in favor and yielded to questions.

Rep. Paul Smith requested a roll call, sufficiently seconded.

The question being adoption of the committee report.

SULLIVAN

Converse, Larry

and the committee report was adopted.

Rep. Joseph E. Stone did not vote and notified the Clerk that he wished to be recorded in favor.

Rep. O'Neil moved adoption of the amendment to House Rules as proposed by the Rules Committee.

AMENDMENT TO HOUSE RULES

Amend House Rule 46 (b) to read as follows:

46. (b) All bills and resolutions affecting state **revenues and fees** shall, if approved by the House when reported from the appropriate policy committee, be referred to the Committee on Ways and Means.

Amend House Rule 49 to read as follows:

49. (a) Whenever there is any disagreement between the House and the Senate on the content of any bill or resolution, and whenever both bodies, voting separately, have agreed to establish a committee of conference, the Speaker shall appoint four members to the House conference committee. Exceptions: (1) the House committee of conference on the operating budget shall consist of five members; and (2) the number of members of the committees of conference on any bill may increase or decrease if the presiding officers of both the House and the Senate agree.

The two committees of conference on a bill shall meet jointly but vote separately while in conference. A unanimous vote by both committees of conference shall be necessary for an agreed report to the House and Senate.

(b) The first-named person from the body where the bill or resolution in disagreement originated shall have the authority to call the time and place for the first meeting of the committee of conference on said bill.

(c) The first-named House member on a committee of conference shall be the chairman of the House conferees. The chairman of the committee of conference of the body where the bill or resolution in disagreement originated shall chair the joint meeting(s) of the committee of conference.

(d) A committee of conference report analysis for all bills and resolutions in conference shall be prepared by the first-named House member on each conference and shall be printed in the House calendar.

(e) A committee of conference report may be placed on the consent calendar only by a unanimous vote of all House conferees.

(f) No action shall be taken on any committee of conference report earlier than some subsequent day after the report has been delivered to the members' seats.

(g) A committee of conference may neither change the title of any bill submitted to it nor add amendments which are not germane to the subject matter of the bill as originally submitted to it. For the purpose of this rule, a non-germane amendment is any subject matter not contained in either the House or Senate version of the bill.

(h) The prime sponsor of any bill or resolution referred to committee of conference shall, upon request, be granted a hearing before said committee prior to action on the bill or resolution.

(i) The report of the committee of conference on the general budget bills or the capital budget bill shall be printed in the appropriate calendar or supplement thereto before action on the report is taken on the floor. Notwithstanding the provisions of paragraph (g) of this rule, amendments to these bills shall be allowed if the subject matter of such amendment was contained in a bill which has been passed by the House.

(j) A member of a committee of conference who has been removed for any reason and replaced with another member of the House shall have his or her name appear on the committee of conference report with a strike-through showing the individual is no longer a member of the committee of conference. Amend House Rule 64 by adding the following:

Thursday, February 24, 2005	Last day to report House bills going to a second committee
Wednesday, March 9, 2005	Last day to act on House bills going to a second committee
Thursday, March 24, 2005	Last day to report all House bills not in a second committee, except budgets
Wednesday, March 30, 2005	Last day to act on all House bills not in a second committee, except budgets
Thursday, April 7, 2005	Last day to report all remaining House bills for action in 1 st year session Last day to hold public hearing on retained House bills
Wednesday, April 13, 2005	Last day to report list of retained House bills
Thursday, May 5, 2005	Last day to act on House bills CROSSOVER Last day to report Senate bills going to a second committee
Wednesday, May 11, 2005	Last day to act on Senate bills going to a second committee
Thursday, May 26, 2005	Last day to report all Senate bills for action in 1 st year session Last day to hold public hearing on retained Senate bills
Wednesday, June 8, 2005	Last day to report list of retained Senate bills
Thursday, June 16, 2005	Last day to act on Senate bills
Wednesday, June 22, 2005 at 3 p.m.	Last day to form Committees of Conference
Wednesday, June 29, 2005	Last day to sign Committee of Conference reports
Monday, September 12, 2005	Last day to act on Committee of Conference reports
Friday, September 23, 2005	First day to file legislation for the 2006 session Last day to file legislation for the 2006 session

Rep. O'Neil offered floor amendment (0081h)

Floor Amendment (0081h)

Amend House Rule 49 by deleting subparagraph (i) and renumbering the original subparagraph (j) to read as (i).

Rep. O'Neil spoke in favor and yielded to questions.

Floor amendment (0081h) adopted.

Rep. Dodge offered floor amendment (0054h).

Floor Amendment (0054h)

Amend House Rule 49(g) by replacing the second sentence with the following:

For the purpose of this rule, a non-germane amendment is any bill section whose subject matter is not contained in either the House or Senate version of the bill.

Amend House Rule 49(i) by deleting the second sentence.

Rep. Dodge spoke in favor.

On a division vote, 109 members having voted in the affirmative and 213 in the negative, floor amendment (0054h) failed.

Rep. Hall offered floor amendment (0053h).

Floor Amendment (0053h)

Amend House Rule 45 by deleting subparagraph (c).

Reps. Hess and Hager spoke against and yielded to questions.

Reps. Daniel Eaton, Mirski and Hall spoke in favor and yielded to questions.

Rep. O'Neil requested a roll call; sufficiently seconded.

The question being adoption of floor amendment (0053h).

 and floor amendment (0053h) failed.

Irish, Christopher

Rodeschin, Beverly

The question now being adoption of the amendment to House Rules.
 Adopted.

RESOLUTION

Rep. O'Neil offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, February 9, 2005 at 1:00 p.m.
 Adopted.

LATE SESSION

Third reading and final passage

HB 74, relative to the sale of permissible fireworks.

HB 86, relative to property held in police department property rooms.

HB 99, changing the name of the college for lifelong learning to Granite state college.

HB 111, establishing a commission to study the elimination of cervical cancer in the state of New Hampshire.

HB 173, relative to food service and distribution.

HB 124, naming a certain portion of New Hampshire Route 125 the Officer Mel Keddy Memorial highway.

HB 135-FN-A, establishing a committee to study funding sources for the state laboratories and extending the appropriation to the department of corrections for the prison automation system.

HB 160, naming a certain bridge on New Hampshire Route 3 between Pembroke and Allentown.

HB 148, transferring the New Hampshire estuaries project from the department of environmental services to the university of New Hampshire.

HB 174, relative to renewable energy transition service, extending a portion of the system benefits charge, and repealing laws relating to information provided to electric service consumers.

HB 97, relative to replacing school budget committee members.

UNANIMOUS CONSENT

Rep. Espieffs addressed the House.

RECESS MOTION

Rep. O'Neil moved that the House stand in recess for the purpose of introduction of bills and receiving Senate messages only.

Adopted.

The House recessed at 3:35 p.m.

RECESS

(Rep. Clemons in the Chair)**RESOLUTION**

Rep. McKinney offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, House Bills numbered 317 through 394, shall be by this resolution read a first and second time by the therein listed titles, sent for printing, and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILLS**First, second reading and referral**

HB 672-FN, relative to notaries public and adopting the Uniform Law on Notarial Acts. (Dokmo, Hills 6: Judiciary)

HB 673-FN, making it a felony to knowingly transmit the human immunodeficiency virus or hepatitis to another person. (Slocum, Hills 6: Criminal Justice and Public Safety)

HB 674-FN-A, establishing fees for construction plan reviews by the state fire marshal and establishing the position of fire protection engineer in the division of fire safety. (Stevens, Carr 4; Tholl, Coos 2; Winchell, Rock 6: Executive Departments and Administration)

HB 675-FN, exempting agricultural tower silos from the education property tax. (Babson, Carr 3: Ways and Means)

HB 676-FN, exempting agricultural buildings from the education property tax. (Owen, Merr 4: Ways and Means)

HB 677-FN, establishing fees and reporting requirements for the storage of hazardous materials. (S. L'Heureux, Merr 9; Palangas, Hills 12: Environment and Agriculture)

HB 678-FN, relative to the insurance premium tax. (Camm, Rock 8; Hunt, Ches 7; Roberge, Dist 9; Flanders, Dist 7: Commerce)

HB 679-FN-L, authorizing the electronic enforcement of traffic signal violations. (Bouchard, Merr 11; Packard, Rock 3; Graham, Hills 18; R. L'Heureux, Hills 19; Ferland, Sull 5; Larsen, Dist 15; D'Allesandro, Dist 20; Roberge, Dist 9: Transportation)

HB 680-FN, relative to witness tampering. (Dumaine, Rock 3; Hagan, Hills 17; Cady, Rock 1; Itse, Rock 9: Judiciary)

HB 681-FN, relative to training, quality assurance, and licensing of assisted living facilities. (L. Elliott, Hills 1; Patten, Carr 4; Wall, Straf 7; Larsen, Dist 15: Health, Human Services and Elderly Affairs)

HB 682-FN, requiring an informational statement regarding the powers of district courts. (Marple, Merr 9; L. Christiansen, Hills 27: Judiciary)

HB 683-FN, relative to reporting of motor vehicle offenses by driver education instructors and drivers' school licensees. (R. L'Heureux, Hills 19; Gorman, Hills 23; Tholl, Coos 2; Flanders, Dist 7; Roberge, Dist 9; Johnson, Dist 2: Transportation)

HB 684-FN-L, relative to education funding and the distribution of targeted aid and transition education grants. (Gionet, Graf 3; Patten, Carr 4; Langley, Rock 18; Foose, Merr 1; Maybeck, Graf 8; Fuller Clark, Dist 24; Kenney, Dist 3; Gallus, Dist 1; Johnson, Dist 2: Education)

HB 685-FN-A, permitting casino gambling. (Gionet, Graf 3; Ingram, Rock 4; Asselin, Rock 7; Gibson, Hills 19; Goyette, Hills 27; Gallus, Dist 1: Executive Departments and Administration)

HB 686-FN, relative to the judicial branch family division. (Hager, Merr 12; Pratt, Ches 2; Weyler, Rock 8: Judiciary)

- HB 687-FN**, relative to tuition waivers for children and spouses of members of the armed forces who die while on active duty. (Shurtleff, Merr 10; Gile, Merr 10: Education)
- HB 688-FN**, relative to the regulation of mental health practitioners and the procedures of the board of mental health. (Franklin, Sull 2; Odell, Dist 8: Executive Departments and Administration)
- HB 689-FN**, relative to the jurisdiction of the New Hampshire commission for human rights over housing discrimination cases. (Rogers Johnson, Rock 13; Carson, Rock 3: Commerce)
- HB 690-FN**, relative to medical services for children and pregnant women. (Marshall Quandt, Rock 13: Health, Human Services and Elderly Affairs)
- HB 691-FN-L**, relative to the medicaid program. (Kirk, Hills 7: Health, Human Services and Elderly Affairs)
- HB 692-FN-L**, relative to the county department of corrections. (Nedeau, Belk 3; Whalley, Belk 5; Fitzgerald, Belk 4; Thomas, Belk 5; Johnson, Dist 2: Criminal Justice and Public Safety)
- HB 693-FN**, making the low and moderate income homeowners property tax relief program a tax cap and applicable to current year tax liability. (Solomon, Graf 10: Ways and Means)
- HB 694-FN**, relative to interference with service of process. (Ulery, Hills 27: Judiciary)
- HB 695-FN**, requiring the university system of New Hampshire to make payments in lieu of taxes for purchased property. (M. Cooney, Graf 7; Naro, Graf 7; Dorsett, Graf 8: Education)
- HB 696-FN**, relative to enhanced penalties for crimes against the elderly and persons with disabilities. (MacKay, Merr 11; Morris, Rock 14: Criminal Justice and Public Safety)
- HB 697-FN**, establishing a commission to study medicaid reimbursement rates for pharmacy providers and exempting pharmacy providers from certain requirements of the department of health and human services relative to reimbursement rates. (Wendelboe, Belk 1; Baroody, Hills 13; Martel, Dist 18: Health, Human Services and Elderly Affairs)
- HB 698-FN**, relative to penalty assessments. (Welch, Rock 8; Stevens, Carr 4; Knowles, Straf 6; Gilbert, Rock 12: Judiciary)
- HB 699-FN-A-L**, relative to fines for parking violations. (Kennedy, Merr 4: Municipal and County Government)
- HB 701-FN**, establishing a citizen complaint review commission. (Marple, Merr 9: Executive Departments and Administration)
- HB 702-FN**, relative to the screening of medical malpractice claims. (Wall, Straf 7; Lasky, Hills 26; Pratt, Ches 2; Mooney, Hills 19: Judiciary)
- HB 703-FN**, relative to advertisement of prescription drugs and establishing the pharmaceutical marketing disclosure law. (DeJoie, Merr 11; Dexter, Ches 6; Pilliod, Belk 5; Matthew Quandt, Rock 13; Letourneau, Dist 19; D'Allesandro, Dist 20; Larsen, Dist 15: Commerce)
- HB 704-FN**, establishing the New Hampshire Rx advantage program and continually appropriating a special fund. (DeJoie, Merr 11; N. Allan, Hills 26; Bergin, Hills 6; Marshall Quandt, Rock 13; Larsen, Dist 15; Hassan, Dist 23; D'Allesandro, Dist 20: Health, Human Services and Elderly Affairs)
- HB 705**, relative to passenger restraints. (Pilliod, Belk 5; Emerson, Ches 7; Osborne, Merr 12; Gottesman, Dist 12; Roberge, Dist 9: Transportation)
- HB 706-FN**, relative to the cost of storage of firearms which are voluntarily surrendered to local law enforcement agencies. (Ferland, Sull 5; Welch, Rock 8: Criminal Justice and Public Safety)
- HB 707-FN-A**, establishing a credit against the business enterprise tax for certain borrowed and invested money. (Itse, Rock 9; Buhlman, Hills 27; Clegg, Dist 14: Ways and Means)
- HB 708-FN**, establishing a new state defined contribution retirement plan for new state employees and establishing a committee to study the transition of current employees into the new plan and administration of the new plan. (Wendelboe, Belk 1: Executive Departments and Administration)
- HB 709-FN-L**, relative to records of assessment information available for inspection. (Cady, Rock 1; Hagan, Hills 17; Bicknell, Rock 1; Newton, Straf 1; Roberge, Dist 9: Municipal and County Government)
- HB 710-FN**, establishing property appraisals for the taxation of property based upon its current use as a residence for persons over 65. (Weed, Ches 3; Pratt, Ches 2: Municipal and County Government)
- HB 711-FN-A-L**, making an appropriation for kindergarten in the town of Merrimack. (D. L. Christensen, Hills 19; Mooney, Hills 19; Hinkle, Hills 19; Batula, Hills 19; Brundige, Hills 19; Roberge, Dist 9; D'Allesandro, Dist 20: Finance)
- HB 712-FN**, relative to electioneering. (Cady, Rock 1; Albert, Straf 1; Newton, Straf 1: Election Law)

HB 713-FN, relative to a process for the request and disclosure of social security numbers. (Patten, Carr 4; Kurk, Hills 7: Judiciary)

HB 714-FN, adopting the Uniform Partnership Act (1997). (Lasky, Hills 26: Commerce)

HB 715-FN-A, relative to the regulation of bingo and lucky 7. (Hess, Merr 9; Kurk, Hills 7; Hager, Merr 12; Almy, Graf 11; Pratt, Ches 2; Foster, Dist 13: Executive Departments and Administration)

RECESS

(Speaker Scamman in the Chair)

COMMITTEE ASSIGNMENTS

The Speaker made the following assignments:

Rep. John B. Hunt on Judiciary

Rep. Paul C. Smith on Public Works and Highways

RECESS

(Rep. Daniel Eaton in the Chair)

RESOLUTION

Rep. Gile offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, House Bill numbered 716, shall be by this resolution read a first and second time by the therein listed title, sent for printing, and referred to the therein designated committee.

Adopted.

INTRODUCTION OF HOUSE BILL

First, second reading and referral

HB 716-FN, relative to securities regulation. (S. Francoeur, Rock 15; Flanders, Dist 7: Commerce)

RECESS

(Speaker Scamman in the Chair)

The Speaker called the recessed session of January 26, 2005 to order at 1:00 p.m. and declared a quorum present.

RECONSIDERATION

Having voted with the prevailing side, Rep. Russell Albert moved that the House reconsider its action whereby it adopted an amendment to House Rules by voice vote and defeated floor amendment (0053h) on a roll call vote of 161 -162.

Reps. Albert, Giuda and Hall spoke in favor.

Reps. Price and Chandler spoke against.

Rep. O'Neil requested a roll call; sufficiently seconded.

The question being adoption of the motion to reconsider.

Rep. O'Neil moved that the House adjourn from the session of January 26, 2005.

Adopted.

HOUSE JOURNAL No. 5

Wednesday, February 9, 2005

The Speaker called the February 9, 2005 session to order at 1:30 p.m.

His Excellency, Governor John H. Lynch, joined the Speaker on the rostrum for the day's opening ceremonies.

Prayer was offered by Guest Chaplain, The Reverend David Keller, of the First Congregational Church in Concord.

Holy One, You who are far beyond whatever we might make You out to be, we thank You that You are with us. Not only now, as we gather to serve the people of this state, but through all the goings and comings of our separate lives. We acknowledge that, behind the willingness of these men and women to do the work of this legislature, Your generous and sustaining Spirit has been working, and we thank You for shaping their spirits for service to others. We pray Your blessing and Your guidance on our work today and every day. We pray Your special favor on any in the assembly facing any trouble that saps their spirits and burdens their hearts. Take that pain and worry, merciful God, and replace it with Your healing touch, Your forgiving grace, Your deep peace. We pray also for those whose lives are affected by the decisions made in this assembly, especially for the most vulnerable – those who are poor, or addicted, or aged, or young, or imprisoned. Cultivate among the people gathered in this hall today open and attentive hearts that seek both to understand the real and complex needs of people and to listen carefully to the counsel of their colleagues in this assembly. Let Your light, which reveals righteousness and exposes injustice, shine upon the efforts of those who serve here, not only on the legislation they produce, but also on the way that they work with each other and with others who serve in government. And as we do our work, continually remind us that You are sovereign over all people, over all governments, over all of creation, so that in all things we gratefully acknowledge Your rule and humbly seek to act in concert with Your will. Amen.

Rep. Saghir A. Tahir led the Pledge of Allegiance.

The National Anthem was sung by Allison Wilson, a sixth grade student at Exeter Cooperative Middle School.

LEAVES OF ABSENCE

Reps. Callaghan, Clayton, Peter Cote, DeVries, Foote, Palangas, Philbrick and Reed, the day, illness. Reps. DeJoie, Domingo, Dowling, Hollinger, Irwin, Paula Johnson, Lawrence, Moody, Palazzo and Pantelakos, the day, important business.

Reps. Bicknell and Hutchinson, the day, illness in the family.

INTRODUCTION OF GUESTS

Michael and Lisa Wilson, William Childs, parents and grandfather of the singer, guests of the House. Claudia Nixon and Talia Glesner, guests of Rep. Gile. Roxanne O'Brien, wife of Rep. O'Brien. Grace Kane and Dana Lindsay, guests of the Lebanon delegation. Casey Bessette, guest of Reps. Pilliod and Emerson.

INTRODUCTION OF SPECIAL GUEST

Coach of Concord High School's boys tennis team, Harvey Smith, accompanied by his wife, Betty, whose distinguished 30 year career included 1988 National Federation High School Coach of the Year, 16 times chosen NH Coach of the Year, 14 state tennis championships and a 112-match unbeaten streak since 1998, guest of the House.

INTRODUCTION OF ADDITIONAL SPECIAL GUESTS

2004 University of New Hampshire "Wildcats" football team reached NCAA Division I-AA play-offs and tied University record for most wins in a season, represented by players David Bailey, David Ball, Tim Beckett, Tim Carignan, Shaun Diner, Corey Dix, Joe Kreider, Christian Leibl-Cote, Dan McClean, Amir Saadich, Ricky Santos, Derek Stank, Adam Triscila, John Williams, David Wyman, Captains Mike Granieri and George Peterson, Offensive Coordinator Chip Kelly and Head Coach Sean McDonnell, guests of the House.

RESOLUTION

Rep. O'Neil offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, Senate Bills numbered 23, 28, 39, 41, 44, 45, 53, 54, 59 and 73 and Senate Joint Resolution numbered 1 shall be by this resolution read a first and second time by the therein listed titles, and referred to the therein designated committees.

Adopted.

INTRODUCTION OF SENATE BILLS and SJR

First, second reading and referral

SB 23, relative to membership on the public water access advisory board. (Resources, Recreation and Development)

SB 28, relative to confidentiality and workers' compensation. (Labor, Industrial and Rehabilitative Services)

SB 39, relative to disinterment of dead bodies. (Health, Human Services and Elderly Affairs)

SB 41, relative to penalties for certain OHRV violations. (Fish and Game)

SB 44, establishing a study committee on student credit card debt and regulation of credit card solicitation on college campuses. (Commerce)

SB 45-L, relative to the Hanover school district tax stabilization fund. (Education)

SB 53-FN, relative to increased funding for publication of certain materials by the department of environmental services and changing the title of chief operations officer to chief financial officer in the department of environmental services. (Executive Departments and Administration)

SB 54, clarifying the role of a guardian ad litem in guardianship proceedings. (Children and Family Law)

SB 59, relative to the general powers and duties of guardianship. (Judiciary)

SB 73, relative to market conduct record retention and production. (Commerce)

SJR 1, declaring the month of April 2005 to be Boston Red Sox Month. (Legislative Administration)

MOTIONS TO VACATE

Rep. Hunt moved that the House vacate the reference of the following House Bills to the Committee on Legislative Administration.

HB 270, relative to procedures of the legislative ethics committee.

HB 289-FN, relative to registration fees for lobbying and lobbyists and requiring registration of employers of lobbyists.

HB 309-FN-A, establishing a commission to recodify laws relating to financial contributions and disclosures and conflicts of interest and making an appropriation therefor.

HB 403, limiting permissible gifts to elected officials.

HB 424-FN, prohibiting gifts to elected officials.

Motion adopted.

The Speaker referred **HB 270, 289, 309, 403** and **424** to the Committee on Election Law.

Rep. Robert L'Heureux moved that the House vacate the reference of **HB 491**, relative to the inherent dangers of OHRV operation and limiting landowner liability for certain fish and game related land uses, to the Committee on Fish and Game.

Motion adopted.

The Speaker referred **HB 491** to the Committee on Resources, Recreation and Development.

Rep. Batula moved that the House vacate the reference of **HB 473**, relative to the creation of screening panels for medical injury claims, **HB 489-FN**, relative to disclosing an ownership interest in certain health care facilities and businesses, and **HB 566**, relative to eligibility for public benefits and drivers' licenses, to the Committee on Health, Human Services and Elderly Affairs.

Motion adopted.

The Speaker referred **HB 473** to the Committee on Judiciary, **HB 489-FN** to the Committee on Criminal Justice and Public Safety, and **HB 566** to the Committee on Transportation.

Rep. Dokmo moved that the House vacate the reference of **HB 294**, relative to criminal records and evidence, and **HB 405**, to discovery depositions in criminal cases of persons under 16 years of age, to the Committee on Judiciary.

Motion adopted.

The Speaker referred **HB 294** to the Committee on Criminal Justice and Public Safety, and **HB 405** to the Committee on Children and Family Law.

Rep. Dickinson moved that the House vacate the reference of **HB 572**, granting regional water districts the power of eminent domain, and **HB 619-FN**, relative to skier safety and ski area responsibility, to the Committee on Resources, Recreation and Development.

Motion adopted.

The Speaker referred **HB 572** to the Committee on Municipal and County Government, and **HB 619-FN** to the Committee on Judiciary.

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. O'Neil moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 35, relative to bank reserve and lending procedures, removed by Rep. Marple.

HB 67, prohibiting excessive overpricing of essential commodities during a declared state of emergency, removed by Rep. Osborne.

HB 154, relative to changes of party registration on primary day, removed by Rep. Graham.

HB 142, establishing a commission to study changing the local property tax abatement procedures, removed by Rep. Cady.

HB 165, relative to cellular telephone use during motor vehicle operation, removed by Rep. Scanlon. Consent Calendar adopted.

HB 63, establishing a committee to study the feasibility of requiring that liquor brought into the state of New Hampshire be brought in through the port of Portsmouth. **INEXPEDIENT TO LEGISLATE**

Rep. Charles L. Clark for Commerce: The intent of this bill was to establish a study committee to explore the feasibility of requiring that liquor brought into the state of New Hampshire be brought in through the Port of Portsmouth. The committee found that, although the idea is well intended, it would be counter productive as the liquor commission's present distribution is much more effective and financially viable than the alternative proposed to be studied. Vote 21-0.

HB 143, relative to real estate appraisals. **INEXPEDIENT TO LEGISLATE**

Rep. Donald H. Flanders for Commerce: This bill requires a real estate appraiser to provide a certified copy of the appraisal to the mortgage applicant as well as the lending institution, whereas current law permits the applicant to make a written request to the lender and receive a copy of the appraisal from them. The committee felt that the present plan was working efficiently and did not need to be changed. The lender has the necessary information in its files to provide a copy promptly, whereas the appraiser frequently does not know who the borrower is or how to contact him. Vote 21-0.

CACR 6, relating to state representative and state senate districts. Providing that there shall be 36 senate districts and 4 house districts within each senate district. **INEXPEDIENT TO LEGISLATE**

Rep. Richard B. Drisko for Election Law: The intent of this bill is to restructure the General Court to increase the senate districts to 36, each to contain four house districts. Each four districts will have a single representative. The four districts will have equalized populations that will not deviate more than 5% of each other. The General Court would be constitutionally reduced from 424 to 180. Further the bill repeals current constitutional provisions for redistricting and promotes increased compensation for the legislators. The committee felt that the redistricting controversy could eventually be resolved in a constitutional convention. The changes offered in CACR 6 would not satisfactorily solve the need for an increase in the senate. The committee was in favor of retaining the "citizen legislature" of 400 members assuring more districts and smaller districts for strong constituent contact. In addition, a reduction in size would tend towards a "professional legislature" at greatly increased cost to the state and to candidates' campaign costs while weakening constituent contact. Vote 14-4.

HB 95, relative to delegates to state party conventions. **OUGHT TO PASS**

Rep. Michael G. Biundo for Election Law: The intent of this bill is to cultivate more grassroots participation in state party conventions. Often a person will run for both an elected office as well as a delegate to the state party convention. The possibility exists that a person will win both seats, therefore, qualifying twice to serve as a delegate to a state party convention. This bill will simply

allow the next highest eligible vote getter running for delegate to take the spot of a party nominee who is already entitled to serve due to being nominated to an office. The committee voted unanimously "ought to pass" because it feels this will open up and encourage more people to get involved in the political process. Vote 18-0.

HB 171, relative to nicknames on ballots. OUGHT TO PASS WITH AMENDMENT

Rep. William L. O'Brien for Election Law: This bill amends RSA 655:14-b in order to clarify what nicknames are allowed on the ballot and the process for obtaining approval of contested nicknames. The original bill would allow any nicknames that a candidate can show by three affidavits he or she has been known by for five years in the community. Based on review by a subcommittee, the bill was amended to limit nicknames to one word, unless it is a common derivative of a candidate's name, and to prohibit offensive or profane nicknames, as well as those that imply the candidate is someone else, constitute a slogan or associate a candidate with a cause or issue. The amendment also requires that the demonstration of the use of the nickname for five years in the community has to be by clear and convincing evidence, which may include three affidavits. Vote 15-1.

Amendment (0096h)

Amend the bill by replacing section 1 with the following:

I Form of Candidate's Name on Ballot; Nicknames. Amend RSA 655:14-b, I-II to read as follows:

I. Every candidate for state or federal office who intends to have his *or her* name printed upon the ballot of any party for a primary shall designate in *[his] the* declaration of candidacy, or on *[his] the* primary petitions and assents to candidacy, the form in which *[his] the candidate's* name shall be printed on the ballot. The candidate may designate his *or her* given, first, and middle name, the initials of his *or her* given, first, and middle name, a nickname, or any combination thereof as the form in which *[his] the candidate's* name shall be printed on the ballot, but *[he] the candidate* shall not designate a deceptive name. If the candidate designates a nickname in place of or in combination with *[his] the candidate's* given name or the initials thereof, the nickname shall be set off with quotation marks and shall be placed immediately before his *or her* surname. If the candidate designates a nickname, the nickname shall be customarily related to the candidate's given name, *or, if the nickname is not customarily related to the candidate's given name, the candidate shall submit clear and convincing evidence that the candidate has been known by the nickname for at least the 5 years immediately preceding the time of filing. If deemed sufficient by the appropriate official, 3 affidavits from voters in the district who are not related to the candidate stating that the candidate has been known by the nickname for at least 5 years may constitute clear and convincing evidence. Nicknames shall be limited to one word, except for 2-word nicknames customarily related to the candidate's given name. No candidate may designate a nickname that implies that the candidate is some other person, that constitutes a slogan or otherwise associates the candidate with a cause or issue, or that has an offensive or profane meaning.* A candidate shall include his *or her* surname in *[his] the* designation of the form in which *[his] the candidate's* name shall be printed on the ballot.

II. Every candidate for state or federal office who intends to have his *or her* name placed on the ballot for the state general election by means other than nomination by party primary shall designate in *[his] the* declaration of intent the form in which *[his] the candidate's* name shall be printed on the ballot. The candidate may designate his *or her* given, first, and middle name, the initials of his *or her* given, first, and middle name, a nickname, or any combination thereof as the form in which *[his] the candidate's* name shall be printed on the ballot, but *[he] the candidate* shall not designate a deceptive name. If the candidate designates a nickname in place of or in combination with *[his] the candidate's* given name or the initials thereof, the nickname shall be set off with quotation marks and shall be placed immediately before his *or her* surname. If the candidate designates a nickname, the nickname shall be customarily related to the candidate's given name, *or, if the nickname is not customarily related to the candidate's given name, the candidate shall submit clear and convincing evidence that the candidate has been known by the nickname for at least the 5 years immediately preceding the time of filing. If deemed sufficient by the appropriate official, 3 affidavits from voters in the district who are not related to the candidate stating that the candidate has been known by the nickname for at least 5 years may constitute clear and convincing evidence. Nicknames shall be limited to one word, except for 2-word nicknames customarily related to the candidate's given name. No candidate may designate a nickname that implies that the candidate is some other person, that constitutes a slogan or oth-*

erwise associates the candidate with a cause or issue, or that has an offensive or profane meaning. A candidate shall include his *or her* surname in ~~his~~ *the* designation of the form in which ~~his~~ *the candidate's* name shall be printed on the ballot.

AMENDED ANALYSIS

This bill establishes limitations on nicknames that may be used by candidates for state or federal office and permits a candidate to use a nickname that is not customarily related to his or her given name if the candidate has been known by that nickname for at least 5 years.

HB 201, establishing a study committee to consider amending voter identification and public assistance requirements as a means of discouraging illegal voting and illegal access to public assistance. **INEXPEDIENT TO LEGISLATE**

Rep. Charles F. Weed for Election Law: This bill would establish a committee to study the potential for amending voter identification and public assistance requirements to discourage illegal voting and access to public assistance associated with immigration. Having heard that the requested study committee would include several complex issues associated with immigration, public assistance, and voter identification, the committee believes that these subjects may need to be separated. Some of the issues relate to granted privileges and others to fundamental rights. At present, the committee is not convinced that the issues to be studied present a public policy problem for New Hampshire. Vote 18-0.

HB 33, establishing retainage procedures for public contracts. **OUGHT TO PASS WITH AMENDMENT**

Rep. Nelson S. Allan for Executive Departments and Administration: The amendment of the bill directs the commissioner of administrative services to study retainage practices relative to state construction and highway contracts. The study, conducted with the commissioner of the department of transportation and director of public works, reviews the rules governing retainage practices culminating in a written report containing findings and observations of eight specific issues. The study report will contain recommended guidelines, rules or legislation for subcontractors' retainage practices in the state. Vote 19-0.

Amendment (0088h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the study of state retainage practices.

Amend the bill by replacing all after the enacting clause with the following:

1 Study of State Retainage Practices by Department of Administrative Services.

I. The commissioner of administrative services, shall study, in consultation with the commissioner of the department of transportation and the director of public works, retainage practices relative to state construction and highway contracts. The study shall include a review of rules governing retainage practices and the extent to which the following issues are addressed by rule or other agency procedures:

(a) Retainage by state agencies from payment to contractors and retainage by contractors to subcontractors.

(b) Retainage from periodic payments and final payments including a maximum allowable amount of retainage.

(c) A time certain for an owner's release of retainage based upon the owner's occupancy, substantial completion of work, or the owner's use of the improvements.

(d) A time certain for the contractor's release of retainage to a subcontractor.

(e) Conditions permitting withholding of retention beyond the date of release and limitations on the amount of retainage for a condition permitting withholding.

(f) Conditions permitting interest on wrongfully withheld retainage.

(g) Reimbursement of attorney fees incurred to recover wrongfully withheld retainage.

(h) The line item release of retainage for specified work that has been completed and approved by the owner.

II. On or before September 1, 2005, the commissioner of administrative services shall submit a written report of findings and recommendations relative to retainage practices, including any recommendations for subcontractor guidelines, rules, or legislation, to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill directs the commissioner of administrative services, in consultation with the commissioner of department of transportation and director of public works, to study retainage practices on state construction and highway contracts.

HB 42, establishing a statutory joint committee to review and propose changes to state unclassified officers' salaries. **OUGHT TO PASS**

Rep. Judson K. Dexter for Executive Departments and Administration: The purpose of this legislation is to establish a statutory committee which will have the responsibility of reviewing and recommending to the legislature the approval of the appropriate salary grade for unclassified state employee positions. The bill contains language explaining the process for setting the salary grade for any new unclassified position as well as for the upgrade or downgrade of existing unclassified positions. The acting director or administrative head of any agency or department shall submit a recommendation to the commissioner of administrative services. The commissioner shall submit the recommendation to an outside consultant retained for the purpose of assessing the appropriate letter grade of unclassified state officers. The consultant shall assess the recommendation and report to the joint committee on compensation of state officers. The committee shall set a temporary letter grade allocation for each position referred. The committee shall subsequently propose to the general court legislation recommending permanent salary levels. This is the second time this bill has come to this committee. The bill passed 16-0 last year on the consent calendar. The bill went to study in the senate and was defeated. This was a good idea last year and is still a good idea. Vote 16-2.

HB 65, allowing licensed barbers and cosmetologists to employ shampoo assistants. **INEXPEDIENT TO LEGISLATE**

Rep. Maurice L. Pilotte for Executive Departments and Administration: The committee heard testimony on two bills dealing with shampoo assistants (HB 65 and HB 239) and recognizes the advisability of accepting the provisions of HB 239, as amended, for a shampoo assistant apprentice program rather than the exemption provision in this bill. Vote 18-0.

HB 168, relative to the licensure of electrologists and establishing an electrology advisory committee. **OUGHT TO PASS WITH AMENDMENT.**

Rep. A. Laurie Harding for Executive Departments and Administration: The Department of Health and Human Services is requesting legislative intent to formalize a process which is currently used for the inspection of offices where electrology is practiced. Vote 16-2.

Amendment (0042h)

Amend the bill by replacing section 1 with the following:

1 Powers of the Commissioner; Inspections. Amend RSA 314:2, V to read as follows:

V. Conducting ~~[inspections and]~~ investigations *and directing inspections of each office identified by a licensee*, in accordance with RSA 314:9.

HB 181, establishing a committee to study the special account in the New Hampshire retirement system. **OUGHT TO PASS WITH AMENDMENT**

Rep. James M. Fitzgerald for Executive Departments and Administration: There was unanimous bipartisan support to establish this important committee to study the special accounts of the New Hampshire Retirement System. The special accounts are running low and could have an adverse effect on member benefits. The amendment changes the reporting date from December 1 to September 1, 2005. Vote 18-0.

Amendment (0073h)

Amend the bill by replacing section 5 with the following:

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before September 1, 2005.

HB 216-FN, relative to the authority of the New Hampshire retirement system to purchase supplies and services. **OUGHT TO PASS WITH AMENDMENT**

Rep. William R. Zolla for Executive Departments and Administration: This bill exempts the retirement system from provisions on the purchase of supplies by the department of administrative services. Exemptions of this sort are fairly common and are contained in RSA 21-I:18.I. The amendment

to this bill also allows the retirement system to purchase through the director of plant and property management when it wishes to do so to employ the states purchasing power when appropriate. When making such purchases, the retirement system shall be required to follow the provisions of this chapter and shall make purchases under competitive bidding requirements except when waived by the executive director or his or her authorized agent upon written justification. Vote 17-1.

Amendment (0061h)

Amend the bill by replacing section 1 with the following:

1 New Subparagraph; Administrative Services; Purchase of Supplies; Exemptions; Retirement System Added. Amend RSA 21-I:18, I by inserting after subparagraph (n) the following new subparagraph:

(o) The New Hampshire retirement system shall not be required to make any purchases through the director of plant and property management, unless it wishes to do so. If it does, the executive director shall be required to follow the provisions of this chapter. The retirement system shall make purchases under competitive bidding requirements except when waived by the executive director or his or her authorized agent upon written justification.

AMENDED ANALYSIS

This bill allows the retirement system to be exempt from provisions on purchases of supplies administered by the department of administrative services.

Referred to Finance.

HB 222-FN, relative to payment of medical benefits costs for disabled group II members of the retirement system. **OUGHT TO PASS**

Rep. William R. Zolla for Executive Departments and Administration: This bill extends the year of eligibility of group II members who become disabled for the payment of benefit costs by the retirement system. This benefit is terminally funded each year for new members employed after July 1, 2005 thru June 30, 2006. Without this bill, there would be no medical benefit for the employee other than workman's compensation. Vote 18-0.

Referred to Finance.

HB 239-FN, relative to certification of shampoo assistants by the board of barbering, cosmetology and esthetics. **OUGHT TO PASS WITH AMENDMENT**

Rep. Judson K. Dexter for Executive Departments and Administration: This bill was brought forward at the request of Joint Legislative Committee on Administrative Rules to clarify the responsibilities and qualification of shampoo assistants. The bill is crafted so it does not impede anyone from becoming a shampoo assistant. The bill establishes registration requirements, direct supervision and fees. The board of barbering, cosmetology and esthetics approves of this solution. Vote 18-0.

Amendment (0126h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to registration of shampoo assistants by the board of barbering, cosmetology and esthetics.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Definition; Shampoo Assistant. Amend RSA 313-A:1 by inserting after paragraph XIII the following new paragraph:

XIII-a. "Shampoo assistant" means any person registered with the board as an assistant who performs any of the following functions:

- (a) Shampooing.
- (b) Rinsing and pulling rods.
- (c) Rinsing treated or untreated hair.
- (d) Other cleaning or sink-related functions as determined by the board.

2 New Paragraph; Rulemaking; Shampoo Assistants. Amend RSA 313-A:8 by inserting after paragraph XIII:

XIII-a. The application, qualification, and fees for registration of shampoo assistants.

3 New Section; Qualifications; Shampoo Assistants. Amend RSA 313-A by inserting after section 13 the following new section:

313-A:13-a Qualifications; Shampoo Assistants. In order to be registered as a shampoo assistant by the board, a person shall:

- I. Be at least 16 years of age or have successfully completed the eighth grade or equivalent.
- II. Work under the direct supervision of a licensed barber or cosmetologist.
- III. Pay a fee as established by the board.

4 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill requires shampoo assistants to be registered with the board of barbering, cosmetology and esthetics, and requires the board to adopt rules for the registration.

HB 107, relative to the use of artificial light to view moose in Coos County. **OUGHT TO PASS**
Rep. Renney E. Morneau for Fish and Game: This bill would extend the permissible hours from 9:00 to 11:00 p.m. to allow for moose tours to bring tourists on excursions late enough to see moose in their habitat, benefiting not only the local economy, but also providing tourists with a social activity. Vote 12-0.

HB 179-FN, permitting certain hunting activities on one's own land without a license. **INEXPEDIENT TO LEGISLATE**

Rep. Vincent E. Greco for Fish and Game: This bill would have exempted property owners from purchasing special hunting stamps for a variety of wildlife such as turkey, pheasant, bear, etc. This would have resulted in an undeterminable loss of revenue for the year 2005 and beyond. It was the committees' opinion that wildlife is a state resource and everyone should pay their share to help manage the resource. Vote 10-1.

HB 199, relative to fish and game department expenditures for marine fisheries. **OUGHT TO PASS**
Rep. Stephanie Eaton for Fish and Game: The committee voted unanimously to support this Fish and Game Department request. Efficiency of process promotes that the Fish and Game Executive Director may adopt marine fisheries' rules as provided by statute. This bill also repeals provisions directing marine fisheries funds, leaving that responsibility to the Director. Vote 12-0.

HB 206, relative to alcohol education and abuse prevention and treatment programs. **OUGHT TO PASS WITH AMENDMENT**

Rep. Thomas E. Donovan for Health, Human Services and Elderly Affairs: In 2000, the legislature created the Governor's Commission on Alcohol and Drug Abuse Prevention, Intervention and Treatment. The commission has received various levels of funding using monies determined through a formula from profits from the sale of liquor. The purpose of these monies was to provide for alcohol and drug abuse education and prevention.

This bill will ensure that the formula for the distribution of designated profits will be used as the previous legislation calls for, primarily used for alcohol and other drug abuse prevention, Vote 17-0.

Amendment (0125h)

Amend RSA 176-A:1, III as inserted by section 1 of the bill by replacing it with the following:

III. Moneys shall be disbursed from the fund upon the authorization of the governor's commission on alcohol and drug abuse prevention, intervention, and treatment established pursuant to RSA 12-J:1. ~~[At least 1/2 of the money]~~ **Funds** disbursed ~~[from the fund]~~ shall be used ~~[primarily]~~ for alcohol ~~[education]~~ and **other drug** abuse prevention ~~[activities]~~, **intervention, and treatment services, and other purposes related to the duties of the commission under RSA 12-J:3.**

HB 224-FN, relative to the collection of data on hospital-acquired infection rates. **INEXPEDIENT TO LEGISLATE**

Rep. Peter L. Batula for Health, Human Services and Elderly Affairs: This bill, relative to the collection of data on hospital acquired infections, is a subject matter of good intentions. After the bill was entered, the prime sponsor and the co-sponsors requested that the bill be withdrawn from consideration due to the fact that late information became available that this data is currently being monitored and recorded by the Medicaid Commission and currently by the New Hampshire hospitals. Vote 19-0.

HB 247, extending the law regarding receivership of care facilities for a certain length of time. **OUGHT TO PASS**

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: This bill was introduced at the request of the long term care ombudsman. Two years ago the legislature passed and the

governor signed a law regarding health care facilities going into receivership. That law was scheduled to sunset in July 2005. The legislature was concerned that in the event a health care facility ceased to function that the residents be protected. Any change in housing, particularly for elderly in institutional care, can lead to psychological trauma and severe reactions. The legislation, in part, was based on a 2002 national AARP study of nursing home closures. That legislation, if anything, is needed even more so today. There is considerable concern over the future of nursing home beds as the GraniteCare Plan is studied. In addition, it was announced that many nursing homes have waiting lists, further complicating the ability of individuals to relocate if closure occurs. This bill has the unanimous support of the committee. In addition, it was supported by the Long Term Care ombudsman and his advisory committee. No one spoke in opposition. Vote 19-0.

HB 269, establishing a statutory committee for the protection of human research subjects. **OUGHT TO PASS**

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: This bill was initiated at the request of the Department of Health and Human Services. The D.H.H.S., for several years, has had an existing committee for the protection of human subjects. This practice is common, particularly to agencies who carry on research utilizing federal research funds. This bill covers research in the areas of mental health, developmental disabilities, or any other dependence disorders or addictions. The bill was unanimously supported by the committee. It is an essential ingredient for the state to participate in competition for federal funding for research in mental health and addiction. This bill fulfills a federal and scientific requirement to protect consumers participating in research studies. The committee agrees that this is required to receive federal funding. Vote 15-0.

HB 41, relative to the right-to-know study commission. **OUGHT TO PASS WITH AMENDMENT**

Rep. Gregory M. Sorg for Judiciary: This bill would transform the right-to-know commission into a permanent oversight commission that would report annually on findings and recommendations for proposed legislation considered necessary to keep the right-to-know law, RSA 91-A, current and consistent with its purposes in light of on-going advances in information technology. The amendment changed the number of House members on the commission from three to four. Vote 15-0.

Amendment (0044h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the right-to-know oversight commission.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Right-to-Know Oversight Commission. Amend RSA 91-A by inserting after section 10 the following new subdivision:

Right-to-Know Oversight Commission

91-A:11 Oversight Commission Established. There is established an oversight commission to study and oversee the right-to-know law in light of the supreme court's decision in *Hawkins v. N.H. Department of Health and Human Services* and increasing use of electronic communications in the transaction of governmental business.

91-A:12 Membership and Compensation.

I. The members of the oversight commission shall be as follows:

(a) Four members of the house of representatives, one from the science, technology and energy committee, one from the municipal and county government committee, one from the judiciary committee, and one other member, appointed by the speaker of the house.

(b) Three members of the senate, appointed by the president of the senate.

(c) Three municipal officials, appointed by the New Hampshire Municipal Association.

(d) One school board member, appointed by the New Hampshire School Boards Association.

(e) One school administrator, appointed by the New Hampshire School Administrators Association.

(f) Two county officials, appointed by the New Hampshire Association of Counties.

(g) Four members of the public, one of whom shall be an attorney who has knowledge of and experience with the right-to-know law, one of whom shall be an information technology professional, and one of whom shall be a telecommunications professional, all appointed by the governor with the consent of the council.

(h) The attorney general, or designee.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

91-A:13 Duties. The commission shall study:

I. The need for disclosure requirements or guidelines for email and other electronic communication occurring between and among state, county, and local government appointed and elected officials and employees of governmental entities.

II. The need for disclosure requirements or guidelines for electronic communications with constituents of state, county, and local government appointed and elected officials and employees of governmental entities.

III. Archival requirements for electronic documents.

IV. The status of proprietary data within the definitions of the right-to-know law.

V. The ability to recover costs relative to the retrieval of electronic files and communications.

VI. Issues relative to public records posted to web sites of governmental entities.

VII. Whether a member of a body subject to the right-to-know law may participate in a meeting by teleconference or other electronic means.

VIII. The extent to which the public will be provided access to stored computer data under the right-to-know law.

IX. Any other matter deemed relevant by the commission.

91-A:14 Chairperson; Quorum. The members of the commission shall elect a chairperson from among the members. Nine members of the commission shall constitute a quorum.

91-A:15 Report. The commission shall make an annual report beginning on November 1, 2005, together with its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the senate president, and the governor.

2 Repeal. RSA 91-A:11 – RSA 91-A:15, relative to the right-to-know oversight commission, are repealed.

3 Effective Date.

I. Section 2 of this act shall take effect November 1, 2010.

II. The remainder of this act shall take effect upon its passage.

AMENDED ANALYSIS

This bill changes the name of the right-to-know study commission to the right-to-know oversight commission, and extends the commission for 5 years.

This bill is a request of the right-to-know study commission established in 2003, 287.

HB 44, allowing municipalities to require certain current use landowners to file a bond for the payment of the land use change tax. **INEXPEDIENT TO LEGISLATE**

Rep. Eric G. Stohl for Municipal and County Government: The committee felt that even though this was enabling legislation, there was potential for complications and confusion. One issue that was raised was the added expense burden onto the property owner for obtaining and maintaining a bond. According to the bill, the reason for this bond was because sometime during ownership of the property, the owner had been in arrears on the property taxes. Another issue that was of concern to the committee was that the owner would be guilty of a misdemeanor if he or she failed to provide the bond within 30 days of a notice to do so from the local assessing official. We feel that the sponsor has good intentions to address this issue, but this bill is not the best method to achieve the results that are sought. Vote 18-0.

HB 53, repealing a 1901 law relating to the apportionment of library funds in the town of Haverhill. **OUGHT TO PASS**

Rep David L. Buhlman for Municipal and County Government: In the 1880's, three libraries were founded in the town of Haverhill. Due to a local conflict, the Legislature settled the dispute in 1904 when it passed Act 180: "An Act to prevent the Misappropriation of Funds Raised by Taxation for Public Libraries in the Town of Haverhill," which allocated a specific percentage of funds to one of those libraries. At the town meeting in 2004, Article 17 of the warrant requested that the legislature repeal 1901, 180 relative to the apportionment of library funds in the town of Haverhill. The committee received a signed confirmation of that article from the three Town Library Trustees. The warrant article passed with a showing of strong local support and the committee voted to recommend repeal of 1901, 180. Vote 18-0.

HB 64, establishing a committee to study assessing local education costs on a county-wide basis. **INEXPEDIENT TO LEGISLATE**

Rep. Eric G. Stohl for Municipal and County Government: The committee received limited testimony in reference to this bill. We unanimously feel that this bill raises the possibility of establishing the foundation of county-wide donor towns with respect to educational funding. The bill also raised questions with regard to education costs in school districts that expand beyond county boundaries that could not be accurately determined. Vote 17-0.

HB 84, relative to compensation of Rockingham county convention members for county business. **OUGHT TO PASS WITH AMENDMENT**

Rep. Nancy K. Johnson for Municipal and County Government: The current law allows only delegation members of county committees to be eligible for compensation for any mileage and time. This bill started out as a Rockingham County bill only but in looking at the issue, the committee amended RSA 24:9 to allow all county conventions to decide if and when any member of the convention would be compensated for mileage and time when attending to, discharging, or participating in county business at the county complex or other locations, as authorized by the county convention. Vote 17-0.

Amendment (0032h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to compensation of county convention members for county business.

Amend the bill by replacing all after the enacting clause with the following:

1 County Conventions; Compensation For County Business. RSA 24:9-e is repealed and reenacted to read as follows:

24:9-e Compensation for County Conventions. Members of each county convention may receive from the county treasury a sum not to exceed \$25 per day for actual attendance at meetings of their respective conventions and an allowance for travel expenses to and from the place of meeting at a rate per mile not in excess of the rate allowed by the United States Internal Revenue Service to be set by a vote of the respective county convention. In addition, the county convention chair may approve compensation for members attending to, discharging, or participating in other official county business, as provided in RSA 24:9-f. The members are not entitled to receive any compensation or mileage for attending such meetings when county meetings are held at the state house in Concord on a legislative day.

2 Meetings; Official Business. Amend RSA 24:9-f to read as follows:

24:9-f Meetings of Committees; **Official Business**. Either the chairperson of the convention or the chairperson of the executive committee may call meetings of the executive committee to be held at any time either at the state house in Concord or at any place within the respective county. The members of the executive committee shall be entitled to the same compensation and travel expenses for actual attendance at such meetings as is provided for attendance at meetings of the convention of said county[; members of subcommittees, study committees and committees of investigation]. **In addition, any member of the convention may receive such compensation as determined by [their] his or her respective county [conventions] convention and appointed by the county convention chairperson for the discharge of [their] official business plus an allowance for travel expenses at the rate set for attendance at meetings of the convention of said county for travel to and from the place of meetings or official business; said sums to be paid from the county treasury, provided that no such compensation and expenses shall be allowed when such meeting or business is held at the state house in Concord.**

3 Repeal. RSA 24:9-ee, relative to compensation for county conventions, is repealed.

4 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill allows county convention members to receive compensation for attending to, discharging, or participating in county business, as approved by the county chair and authorized by the county convention.

HB 87, relative to the authority of the Carroll county public water system. **OUGHT TO PASS**

Rep. Robert W. Brundige for Municipal and County Government: The county of Carroll was authorized to have jurisdiction over, operate and maintain a public water system within the borders of the town of Ossipee and on their own land in 2002. There are 51 private users, besides the

county, which receive water from this public water system. In the process of setting up the accounting of this system, it was discovered that the county did not have the authority to keep the funds separate from the general funds of the county itself. This bill is the correction to that situation where the funds received from the collection of water rates shall be kept as a separate and distinct fund. The revenues and expenditures will still be a part of the county budget which shall be within the amounts appropriated by the county convention. Vote 18-0.

HB 122-FN-L, relative to airing general court sessions on local government access channels. **INEXPEDIENT TO LEGISLATE**

Rep. Harry Gale for Municipal and County Government: This bill would require municipalities operating a local government cable access channel to air sessions of the General Court provided to it on tapes delivered by State Representatives. During testimony, the committee was able to determine that this would amount to a sufficient cost to the cable access channels that would need to be absorbed by the local access channel. There was considerable question within the committee as to whether this was a Part I Article, 28-a of the NH Constitution issue due to the requiring of the transmission of the submitted tape. The only remedy to the situation would be to pass along the expense of the transmission to the state representative. Further testimony indicated that if time allowed, the airing of session tapes was presently allowed. Vote 18-0.

HB 163, establishing a committee to study the provision of education through the county government system. **INEXPEDIENT TO LEGISLATE**

Rep. Robert L. Theberge for Municipal and County Government: Since 1962 the legislature has undertaken 12 (twelve) separate School Administrative Unit (SAU) studies which indicated that the comprehensive studies of SAU's is almost as extensive as the structure itself. In order to establish a study committee that could entail shifting the control and funding of public education from the local communities to the ten counties, the duties of the study committee would need to be more specific than to "study the provision of education through the county government system and the committee may solicit advice and expertise which it deems necessary". There was also acknowledgement that current SAU boundaries cross county and, in some instances, state boundaries and there was no detailed charge to address that issue either. The committee also thought that this idea would be shifting the obligation of public education to the counties who are dealing with supplying costly services already. Vote 18-0.

HB 193, relative to efficient renewable energy programs. **INEXPEDIENT TO LEGISLATE**

Rep. Lee G. Slocum for Science, Technology and Energy: The committee has received three bills, including HB 185 relating to the use of renewable energy, and intends to combine them into one study bill which will make a comprehensive study of renewable energy sources for New Hampshire. The option to purchase renewable energy is available now as part of transition service. The committee does not support mandating use of a portion of the systems benefits charge for renewables. Sponsors can apply now to the PUC for this purpose. The purpose of the study would be to maximize incentives to use renewables without mandates. Vote 10-1

HB 194, establishing a study committee to examine regulatory practices pertaining to the telecommunications industry. **OUGHT TO PASS WITH AMENDMENT**

Rep. Jim Ryan for Science, Technology and Energy: The committee conducted a hearing on the bill and conducted a subcommittee review with the prime sponsor. The bill, as amended by committee action, creates a study committee to review regulatory or deregulatory action and makes recommendations to the PUC with a view towards allowing traditional phone service providers to become more competitive, while assuring affordable basic telephone service. Vote 11-0.

Amendment (0111h)

Amend the bill by replacing section 1 with the following:

I Committee Established. Since incumbent local exchange carriers face competition from services that are not regulated, a committee is established to study regulatory practices pertaining to the telecommunications industry.

Amend paragraph III of section 3 of the bill by replacing it with the following:

III. Innovative regulatory approaches, which have been implemented in other jurisdictions, which lessen business restrictions of the companies in return for price stability.

IV. The impact of competition and the potential for alternatives other than the typical rate of return regulation that will provide incentives for infrastructure investment and the offering of new and innovative services while preserving universal access to affordable basic telephone services.

HB 40, relative to inspection dates for certain vehicles. **OUGHT TO PASS**

Rep. Stephen H. Nedeau for Transportation: The committee felt that motor homes should be included in this bill, in order to protect the so called "snowbirds" who are either in the south or cover for the season. In reading the RSA, recreational vehicles as defined in RSA 259:84-a does cover this class of vehicles. This requirement of inspection shall be annually by July 1st for all motor homes without regard to the owner's birth date or registration month. Vote 9-0.

HB 93-FN, relative to farm plates for motor vehicles. **INEXPEDIENT TO LEGISLATE**

Rep. Brenda L. Ferland for Transportation: This bill, if passed, would have allowed vans to have farm plates so that any vehicle would be permitted to haul farm workers around. The Department of Safety receives more complaints on the abuse of farm and agricultural plates than any other plates. A van with these plates could end up being used to transport groceries, go to the movies, for teens dating and just about anything else that isn't farm related. This would be a loss of revenue for the local municipalities and the Department of Safety. Based on years of testimony, the committee chooses not to continue or help this abuse of plates and lost revenue. Vote 10-0.

HB 149-FN, prohibiting the use or installation of radar scrambler devices in motor vehicles. **INEXPEDIENT TO LEGISLATE**

Rep. Brenda L. Ferland for Transportation: This bill would prohibit the use of a radar scrambler device in motor vehicles. Unlike the bill we passed last year on traffic signal preemptive devices, this radar scrambler is not a hazard to the motoring public. As a matter of fact, the state police have only seen two of these devices and they were in the cars of the drivers who were stopped for speeding. Obviously they don't work. Buyer beware would be a better enforcement than this law. The committee expects that someone has found a way to sell another gadget to the motoring public. The only prohibiting here should be for the consumer not to purchase a radar scrambling device. Vote 10-0.

HB 166, relative to notice of driver's license suspension or revocation. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen H. Nedeau for Transportation: This bill would require the Department of Safety to send a letter by certified mail when a person's driver's license is going to be suspended. Currently the letter is sent by registered mail. Most people that have their licenses suspended either have had a court or motor vehicle hearing. The committee felt that you should be responsible to make sure that any ticket you receive is paid or contested in court. Vote 13-0.

HB 212, requiring any driver to have headlights on when continuously operating windshield wipers during inclement weather. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen H. Nedeau for Transportation: Current law states that your headlights shall be on thirty minutes after sunset to thirty minutes before sunrise and any time when rain, snow or fog shall interfere with the proper view of the road or visibility is under 1000 feet. With daytime running lights being offered as standard equipment on more new vehicles, the committee felt that this bill was unnecessary. Federal Law in 2008 will make this mandatory for all vehicles. Vote 14-0.

REGULAR CALENDAR

HB 145, relative to the healthy kids corporation. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Stephen B. Stepanek for the Majority of Commerce: The committee heard a great deal of testimony on this bill. Everyone was in unanimous agreement that the Healthy Kids program was one of the most successful programs of its kind in the country. In fact it is being held up as a national model on how to do it right. The Healthy Kids Corporation was created by the legislature. The Speaker of the House appoints a board member, the Senate President appoints a board member, the insurance department appoints a board member and the Governor appoints a board member. In total the state appoints approximately 40% of the Healthy Kids board. Currently, Healthy Kids puts out to bid, every 3 years, the contract for health insurance. In addition, they solicit both federal money and private donations all of which are used to provide health insurance

to uninsured kids. Healthy Kids has reduced the number of uninsured children in New Hampshire by over 50%. Health and Human Services has attempted to not only bid out the insurance for Healthy Kids but also the administrative services which Healthy Kids provides. Healthy Kids was created by the legislature and has legislative oversight through its appointments to the Board of Directors. By putting the administrative portion of Healthy Kids out to bid, Healthy Kids as it was created by the legislature would cease to exist. This bill insures that Healthy Kids continues as envisioned by the legislature, to be the highly successful model program it is today. Vote 19-2. Rep. Marshall Lee Quandt for the Minority of Commerce: The minority of the committee agrees with the majority that the Healthy Kids Program has done a good job at what they have done and what they do. The minority disagrees on two issues. This bill appears to be putting the legislature in the middle of a dogfight between Healthy Kids and Health and Human Services; we believe we do not belong there. The second issue is of sole source contracting where we are guaranteeing a contract with Healthy Kids to administer the program without putting the management of the program out to bid. We believe that competitive bidding is a good tool to insure a program continues to re-evaluate itself for the best service to our children and the taxpayers.

Majority committee report adopted.

Ordered to third reading.

Rep. Langlais declared a conflict of interest and did not participate.

HB 32, establishing a committee to study the feasibility of implementing the Second Chance drug rehabilitation program in the New Hampshire prison system. **OUGHT TO PASS WITH AMENDMENT**

Rep. Gene P. Charron for Criminal Justice and Public Safety: "Second Chance" is a prison based rehabilitation program that assists government in addressing criminal behavior and substance abuse. Four key modules are utilized: (1.) Drug Rehab Module, (2.) Education Module, (3.) Self-Respect Module and (4.) Life Skills Module. Currently the program has been implemented successfully in the prisons of Ensenada and Tijuana, Mexico and in Puerto Rico. The majority of the committee voted to study *HOW* and *IF* this program might assist our state in positively reducing recidivism. The amendment changes line 23 to read: Senate Clerk, the Governor and the State Library on or before November 1, 2006 The purpose of the extension of time was to be able to provide enough time to conduct research into the pros and cons of the program, and for those state agencies to provide their input into this progressive program. Vote 12-7.

Amendment (0029h)

Amend the bill by replacing section 5 with the following:

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the senate president, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2006.

Adopted.

Committee report adopted and ordered to third reading.

HB 49, establishing an independent legislative redistricting commission. **MAJORITY: INEXPE- DIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT**

Rep. Richard B. Drisko the Majority of for Election Law: This bill would establish an independent legislative redistricting commission to prepare a redistricting plan for both the house and senate which would then be considered by the legislature. This is the third time in as many years that this proposal has been considered. The majority believes once again that it is the responsibility of the legislature to develop and propose redistricting plans. The majority of the committee also believes that passage of this bill would add another layer to the already complicated process of redistricting and that it would be inappropriate for the legislature to bind a future legislature when redistricting will be considered. Vote 12-4.

Rep. Charles F. Weed for the Minority of Election Law: The minority of the committee believed that insulating the next decennial redistricting from partisan sitting legislators would serve to increase both the appearance and reality of fairness in the redistricting process. The advisory board would provide a carefully drafted model which could be adjusted by the legislature. The appearance of fairness is supremely important to democracy and maintaining the position of New Hampshire as an exemplar for the rest of the nation. The minority believes that the experience in the

previous two decennial redistricting efforts created unnecessary divisiveness and rancor between the major parties and an unfortunate Supreme Court intervention. This would be a better way. The question being adoption of the majority committee report.
 Rep. Weed spoke against.
 Rep. Drisko spoke in favor and did not yield.
 Rep. Weed requested a roll call; sufficiently seconded.
 The question being adoption of the majority committee report.

and the majority committee report was adopted.

Rep. Dickinson did not vote and notified the Clerk that he wished to be recorded in favor.

HB 82, relative to defining political committees of political parties. MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: OUGHT TO PASS.

Rep. William L. O'Brien for the Majority of Election Law: The bill expands the definition of "political committee of a political party" under the statute concerning political expenditures and contributions. The existing definition is limited to state, county, city, ward and town party committees. The sponsors sought to allow a single party committee to cover any combination of towns, cities or counties. By amendment, the definition of a political committee of a political party would be expanded to allow a contiguous area within a county so long as it does not include more than one city or include an area covered by a current political committee of a political party. Multi-county committees were found not to be desirable because they would be disruptive of the hierarchical organization of the parties. It was also found to be important that existing town and ward committees should not be superseded by regional committees unless the parties want a regional committee to take over. The amendment also accommodates a request of the secretary of state's office that each political committee of a political party be incorporated into the by-laws of the party as filed with the secretary of state and makes explicit a requirement that all political committees are required to make certain financial disclosure filings with the secretary of state. Vote 12-6.

Rep. James R. Splaine for the Minority of Election Law: The minority believes that by expanding the definition of a "political committee of a political party" in RSA 664:2 V, the sponsors of HB 82 clearly intended the bill to enable political parties to create regional committees made up of contiguous towns/cities with some commonality of interests whether within one or more counties. It is also the intent of the sponsors to maintain and reinforce existing town and county committees. Their purpose is to broaden citizen participation in the political process by offering multi-levels of political organization: town, regional, county and state. The amendment to the bill impedes these

objectives and inhibits the formation of new town committees. The amendment even implies that existing town committees would have to dissolve if they chose to participate in a multi-town group. This is clearly not in the interest of either state party nor is it the intent of the sponsors. The minority supports the original bill.

Amendment (0040h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to political committees of political parties.

Amend the bill by replacing all after the enacting clause with the following:

1 Political Expenditures and Contributions; Definitions; Political Committee of a Political Party.
Amend RSA 664:2, V to read as follows:

V. "Political committee of a political party" means:

(a) A [the] state, county, city, ward, or town committee of a political party *that has been approved by and incorporated into the by-laws of a political party, as filed with the secretary of state before the first Wednesday in June of that year; or*

(b) A committee that:

(1) Covers any contiguous area within a county which does not include more than one city and which does not include a city, ward, or town with its own political committee of a political party; and

(2) *Has been approved by and incorporated into the by-laws of a political party, as filed with the secretary of state before the first Wednesday in June of that year.*

2 Reporting by Political Committee. Amend RSA 664:6, II-III to read as follows:

II. A *political committee shall file* an itemized statement in the same form as in paragraph I [~~shall be filed~~] with the secretary of state not later than the Wednesday 3 weeks immediately preceding a primary and a general election, before 5 o'clock in the afternoon. The statement shall summarize the period under paragraph I if a statement is filed and shall itemize all receipts and expenditures since the cutoff of that statement up until the Monday preceding the filing of the statement under this paragraph.

II-a. A *political committee shall file a* statement in the same form as in paragraph I [~~shall be filed~~] with the secretary of state not later than the Wednesday immediately preceding a primary and a general election, before 5 o'clock in the afternoon. The statement shall summarize the statements under paragraphs I and II if such statements are filed and itemize all receipts and expenditures since the cutoff of the statement under paragraph II up until the Monday preceding the filing of the statement under this paragraph. In addition to the reporting requirements contained in this section, the secretary of state shall be notified by the fiscal agent within 24 hours of any contribution exceeding \$500 which is received after the statement under this paragraph is filed and prior to the day of election.

III. A *political committee shall file* an itemized statement in the same form as in paragraph I summarizing the previous statements if such statements are filed and itemizing all receipts and expenditures since the cutoff of the previous report and ending on the day of the primary or the general election [~~shall be filed~~] with the secretary of state not later than the second Wednesday after the election, before 5 o'clock in the afternoon.

3 Reporting by Political Committee; Reference Corrected. Amend RSA 664:6, VI to read as follows:

VI. Copies of the statements required by paragraphs [F] II through V of the state committee of a political party shall be filed with the secretary of state in sufficient numbers so as to provide a copy for the state committee of each party on the ballot, which they may obtain by application to the secretary of state.

4 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill changes the definition of "political committee of a political party" to include certain committees covering areas within a county. This bill also clarifies certain reporting requirements for political committees.

On a division vote, 234 members having voted in the affirmative and 127 in the negative, the majority committee amendment was adopted.

Majority committee report adopted and ordered to third reading.

HB 210-FN, relative to the determination of absence and return of contributions of members of the retirement system. **OUGHT TO PASS WITH AMENDMENT**

Rep. William R. Zolla for Executive Departments and Administration: This bill reduces the time a member can be absent from service from 7 years to 2 years. A majority of the committee felt two years was more than sufficient for maternity leave and/or education purposes. In addition the accumulated contributions of a member shall be returned after a 2 year period of absence rather than holding them for 7 years. After such a long period it is difficult to locate the member or in most cases his or her beneficiary. The member may request these contributions be returned any time within the two-year period. This change was an audit observation of the 2003 audit report. The amendment to this bill simply changes the time of implementation from passage to June 30, 2006 to give the system time to incorporate the change. Vote 12-6.

Amendment (0060h)

Amend the bill by replacing section 4 with the following:

4 Effective Date. This act shall take effect June 30, 2006.

Adopted.

Rep. Hawkins spoke against.

Rep. Zolla spoke in favor.

Committee report adopted.

Rep. Robert Johnson declared a conflict of interest and did not participate.

Referred to Finance.

HB 238-FN, relative to the use of marijuana for medicinal purposes. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Charles E. McMahon for the Majority of Health, Human Services and Elderly Affairs: This bill asks that the state of New Hampshire allow the use of marijuana in its plant form for personal use in the treatment of pain and other diseases once a patient obtains written certification from the patient's physician. Further, it specifies that an "adequate" supply of marijuana be allowed for this use by the patient, which includes 3 mature plants, 4 immature plants, and 1 ounce of useable marijuana per each plant. The committee heard testimony from citizens in support of the medical use of smoked marijuana for pain. However, it was significant that no physicians, of which there are over 4,000 in the state, testified in support of this bill and no evidence was offered to prove that smoked marijuana did in fact alleviate pain. In contrast however, the F.D.A. has approved the use of a component of marijuana called "T.H.C.", in synthetic form which is available as Marinol. Taken orally as a pill, it has been found effective for cancer and AIDS patients in the treatment of nausea and vomiting and stimulating weight gain. The position that smoking marijuana would reduce pain was offered via anecdotal testimony by those in support of the bill. However, upon review of the information provided for consideration, virtually no data via scientific studies or other empirical resources were provided to support this claim. Law enforcement also expressed deep concern with this measure on grounds of the inherent enforcement conflicts that would arise, documentation fraud, doctor shopping, and that it would clearly promote illegal drug use. As a Schedule 1 controlled drug, the use of herbal marijuana is placed in the category with the highest potential of abuse and with no accepted medical benefit. Its use remains prohibited under state and federal law and, as stated in information supplied to the committee in hearings, the advocacy of its use for medical purposes could be but a part of a larger strategy to win broader legalization. Information was also reviewed from organizations of the medical community such as the A.M.A., the New Hampshire Medical Society, and the Institute of Medicine. The consensus of the current research has shown that smoked marijuana is not helpful as medicine and in fact, by its use increases the chance of cancer, lung damage, and poor pregnancy outcomes. There is support for research on developing additional synthetic compounds for medical use from marijuana based on controlled studies in the treatment of disease and pain and it is here that efforts should be focused. The committee recognizes the need and has compassion for people searching for additional choices in the relief of pain. But, marijuana in its smoked form has never been shown in controlled scientific studies to be safe and effective. Therefore, it is the belief of the committee that responsible public policy relative to drugs and their effectiveness be based on demonstrated research to ensure the safety of all New Hampshire citizens. That is not the case here and the committee voted accordingly in a non-partisan manner. Vote 14-5.

Rep. Barbara C. French for Minority of Health, Human Services and Elderly Affairs: We support the medicinal use of marijuana for the purpose of relieving chronic, severe pain, critical or terminal medical conditions in order to insure that these individuals have the best possible quality of life. Ten states have already approved marijuana for this purpose; it was legal in the state of New Hampshire in the 1980's. The bill will ensure extremely tight procedures for its use.

The question being adoption of the majority committee report.

Reps. French, Donovan and Timothy Robertson spoke against.

Reps. C. McMahon, Miller and Rogers Johnson spoke in favor.

Rep. Miller requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

**HB 70, repealing the law requiring town selectmen to perambulate borders of towns. INEXPE-
DIENT TO LEGISLATE**

Rep. Peter Schmidt for Municipal and County Government: This bill would repeal RSA 51:2, relative to required perambulation of the town borders. The committee heard convincing testimony that the maintenance of communities' borders is a vital function, specifically by attending to the condition, position and visibility of marker monuments, with necessary repair or replacement of damaged or lost monuments. This requires perambulation by the selectmen or their designee, not merely some type of GPS involvement. Whether these functions are currently being faithfully executed or dishonored in the breach, elected officials can not neglect or disregard their sworn duty to protect and maintain their towns' borders Vote 14-2.

Committee report adopted.

**HB 89, relative to establishing non-amendable articles by voter petition. MAJORITY: INEXPE-
DIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Jessie L. Osborne for the Majority of Municipal and County Government: The majority feels that this bill will limit choice in the deliberative session by making petitioned warrant articles non-amendable in an official ballot referenda town or school district. Not allowing a petitioned warrant article to be amended limits the voter to only one choice thus not allowing for different solutions and full discussion of the subject by the participants in the deliberative session. This disenfranchises the voter who attends the deliberative session believing that changes could be made

to warrant articles and would actually prohibit corrections to petitioned warrant articles by the sponsor. Official ballot referenda towns and school districts were created to have a deliberative session which mirrors the traditional town meeting process that encourages discussion and possible amending of petitioned warrant articles. The ability to amend petition warrant articles is necessary because it fulfills the intention of the legislature. Vote 11-5.

Rep. David L. Buhlman for the Minority of Municipal and County Government: This bill is intended to prevent an abuse of the democratic process that has been occurring all over the state with petitioned articles presented to towns and school districts in an official ballot referenda jurisdiction. The first session meeting, also known as the deliberative session, is often controlled by the school board or the board of selectmen due to poor attendance by the electorate. As a result, petitioned articles are often amended to mean the exact opposite of the original petition in the first session. This bill creates a new class of petitioned articles which are non-amendable. It requires a minimum of 100 signatures or 5% of the voters in the previous election, whichever is less. Without this bill, the constitutional guarantee that citizens have to petition government is not available to citizens living in these jurisdictions. It does not replace the current petitioning mechanism, it simply adds to it in order to provide more enthusiastic and fruitful participation by citizens in their local government. The question being adoption of the majority committee report.

Reps. Slocum and Hopfgarten spoke against and yielded to questions.

Reps. Nancy Johnson and Stohl spoke in favor.

Rep. Slocum requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

HB 180, relative to appeals of decisions relating to current use taxation. **MAJORITY: INEXPEDIENT TO LEGISLATE MINORITY: OUGHT TO PASS.**

Rep. Dudley D. Dumaine for the Majority of Municipal and County Government: At the present time, statutes give a citizen the option of taking a current use appeal before the Superior Court or the Board of Tax and Land Appeals (BTLA). The majority agrees that the BTLA has knowledge and expertise when it comes to land and tax issues. There was testimony that approximately eighty percent of these types of appeals go before the BTLA and roughly twenty percent go before the Superior Court of jurisdiction. However, to remove the Superior Court option will limit the due process of those twenty percent, who for whatever reason, choose the Superior Court Vote 10-5. Rep. Peter B. Schmidt for the Minority of Municipal and County Government: In the view of the minority, this bill would produce a more uniform and expert handling of appeals of decisions relating to current use taxation. Under present statutes, aggrieved parties may elect to bring such appeals either before the Board of Tax and Land Appeals (BTLA) or before the Superior Court.

This bill would remove the Superior Court as an option. The minority strongly believes that aggrieved parties stand to receive substantially more experienced and consistent handling of their cases before the BTLA. An additional advantage arises from the fact that the BTLA is composed of five members, all bringing their expertise, their intellect and their insight to achieving a fair and accurate decision.

The question being adoption of the majority committee report.

Rep. Schmidt spoke against.

Majority committee report adopted.

HB 58, relative to the effective date for the elimination of certain substances from gasoline supplies. **OUGHT TO PASS WITH AMENDMENT**

Rep. Roy D. Maxfield for Science, Technology and Energy: This bill, as amended, establishes a date certain effective date (1-1-2007) for the elimination of certain substances, including methyl-tertiary-butyl ether (MtBE), from gasoline supplies and removes the requirement relative to opting out of the federal reformulated gasoline program. Vote 16-0.

Amendment (0048h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the effective date for the elimination of certain substances from gasoline supplies and removing a certain requirement relative to opting out of the reformulated gasoline program.

Amend the bill by replacing all after section 1 with the following:

2 Repeal. 2004, 175:1, II, relative to opting out of the reformulated gasoline program is repealed.

3 Construction. Nothing in this act shall abrogate, limit, or restrict any right to recover damages or other legal, equitable, or administrative relief under any theory of liability that the state or any other entity or person may have under federal or state statutes or common law with respect to methyl tertiary-butyl ether.

4 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill:

I. Deletes a contingency provision from 2004, 175 and requires the elimination of gasoline ethers and TBA from gasoline supplies.

II. Deletes the requirement that the department of environmental services seek federal approval to opt out of the reformulated gasoline program.

Adopted.

Committee report adopted and ordered to third reading.

HB 54, relative to responsibility for child passenger restraints. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen H. Nedeau for Transportation: This bill allows police to ticket 16 or 17-year-olds who are passengers in a motor vehicle, not just the operator, when they fail to wear a seat belt. The committee felt that this abrogated the responsibility of the operator of the vehicle and sends the wrong message about being responsible. We want to commend the "Youth to Youth" students from Dover for getting involved in the political process. The students' goals are to increase seat belt use among kids under 18 as required by law. The committee did not feel that telling the operator that he or she is no longer responsible for the actions of others in the vehicle was the right thing to do. Vote 11-3.

Rep. Knowles spoke against.

Rep. Packard spoke in favor and yielded to questions.

Rep. Packard requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted.

CACR 3, relating to state income tax revenue. Providing that all state income tax revenue shall be dedicated to the funding of public education. **INEXPEDIENT TO LEGISLATE**

Rep. Steve Vaillancourt for Ways and Means: The sponsor of this CACR acknowledged that he is a proponent of an income tax and this amendment is intended to make such a tax more palatable to the general public. In other words, if an income tax were limited to funding public education, people might be more willing to accept it. The sponsor, under questioning, further acknowledged that should an income tax pass in the wake of this amendment and should a future legislature decide the tax should be applied to things other than education an effort could be made to repeal the amendment. The majority of the committee holds our Constitution sacred and does not believe the amendment process should be used as a referendum or to push interests on any particular issue. Rather, our constitution is the basic law of the state and its formulations should stand the test of time. We should not change it today with the thought of removing the change tomorrow. The committee respects the sponsor's devotion to education funding but is convinced that funding in all areas of government is essential. If a future majority ever deems it wise to move for the implementation of an income tax, the committee believes a legislature should not be hamstrung by the Constitution to use that tax for any particular purpose. Vote 17-2.

Rep. Timothy Robertson spoke against and yielded to questions.

Rep. Vaillancourt spoke in favor.

Committee report adopted.

CACR 4, relating to taxation. Providing that a 3/5 vote is required to pass a new tax or to increase a tax after it is levied. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Shawn N. Jasper for the Majority of Ways and Means: The majority of the committee believes that the "one man one vote" rule should apply to the taxation policy of the state. Recommending a constitutional amendment such as this is tantamount to saying that we do not trust ourselves to be responsible with our tax policy. No evidence was presented which would show that the legislature has been reckless in setting tax rates. Quite to the contrary, evidence shows that New Hampshire has the lowest per capita taxes of any state, with the exception of Alaska, which pays royalties to its citizens from the sale of oil. Vote 16-3.

Rep. Kevin L. Camm for the Minority Ways and Means: This CACR, if ratified, would require 3/5 approval by members of the house and senate present and voting to institute or raise any tax, tariff or fee. This is a component of the taxpayer's bill of rights initiative (TABOR). Since the ability to tax is the ability to extract our hard earned money, the minority believes that the citizens should have the opportunity to require the legislature to do so by super majority.

The question being adoption of the majority committee report.

Rep. Camm spoke against.

Rep. Jasper spoke in favor and yielded to questions.

Rep. Camm requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

CACR 9, relating to taxation. Providing that a 2/3 vote is required to pass a new tax or to increase a tax after it is levied and that the maximum increase in any budget bill shall be limited by the rates of inflation and population growth. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Peyton B. Hinkle for the Majority of Ways and Means: The committee was told by the sponsor that the 2/3 vote is to be based on the total number of representatives. Thus, the number of representatives absent on the day a vote was taken, on a new tax or increase in the budget, would automatically represent a no vote. As a result, the requirement would be greater than 2/3 vote of those attending. This would make it even more difficult for the house to make changes as might be needed by circumstances. Setting the spending limit to the rates of inflation and population growth can easily be viewed as a standard. It makes it easier to justify an increase as long as it remains within the rate increases. Connecting any increases in spending to inflation could create another problem. A big increase in inflation would justify a corresponding increase in spending. At the same time, the increase in inflation would tend to depress business and state revenues, requiring a larger increase in taxes and creating an even bigger burden on businesses. Vote 17-2. Rep. John M. Gibson for the Minority Ways and Means: Since 1995 New Hampshire has witnessed a near doubling of state spending while population has increased by a factor of less than 12 percent. This legislation is a much needed tool in protecting the New Hampshire Advantage by getting state spending under control and requiring a super majority in passage of new taxes.

The question being adoption of the majority committee report.

Rep. Gibson spoke against.

Rep. Hinkle spoke in favor.

Rep. Gibson requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

BILLS REMOVED FROM CONSENT CALENDAR**HB 35, relative to bank reserve and lending procedures. INEXPEDIENT TO LEGISLATE**

Rep. Stephen B. Stepanek for Commerce: This bill would require that all state chartered banks maintain 100% reserves for all loans which means that for every dollar deposited in the bank, the bank would have to keep on hand that dollar. Therefore the only money available to loan would be the money invested by the stockholders. This would have a number of consequences. First, depositors would not be able to be paid interest on their deposits. Second, depositors for both savings and checking accounts would see their fees increase dramatically. Third, the banks would be forced to call in for immediate payment most of their mortgages, car loans, personal loans, business loans, etc. This legislation would not impact any of the federally chartered banks such as Bank of America, Citizens Bank of New Hampshire, Ocean National Bank, etc. The committee heard additional testimony that all state chartered banks would have to convert to federally chartered banks or go out of business. The committee heard no credible evidence as to any advantage to be gained for New Hampshire citizens. Vote 21-0.

Rep. Marple spoke against.

Rep. Sheila Francoeur spoke in favor.

Committee report adopted.

HB 67, prohibiting excessive overpricing of essential commodities during a declared state of emergency. INEXPEDIENT TO LEGISLATE

Rep. Stella Scamman for Commerce: The subcommittee met twice and reviewed the laws of several other states. The Attorney General's Office had received no complaints with regard to any price gouging. Only two states of emergency have been declared in the state of New Hampshire in limited areas since 1998, an ice storm in the higher elevations in 1998, and flooding in the western part. The Attorney General stated that New Hampshire businesses generally do not face such problems with respect to price gouging. Vote 18-3.

Rep. Osborne spoke against.

Rep. Charles Clark spoke in favor.

On a division vote, 241 members having voted in the affirmative and 90 in the negative, the committee report was adopted.

HB 154, relative to changes of party registration on primary day. OUGHT TO PASS WITH AMENDMENT

Rep. William L. O'Brien for Election Law: Under current law, previously undeclared voters voting in a primary and thereby affiliating with a party may return to undeclared status on primary day. Previously declared voters voting in a primary have no such right. In order to address this disparity and because the choice to participate in a party's primary should signify allegiance to a party (adherence to a party's philosophy), the original bill that would allow all primary voters to change registrations on primary day was amended to provide all primary voters will remain affiliated with his or her party of choice for at least 90 days following the primary. The period of 90 days is believed appropriate because it approximately relates to the period before primaries that declared voters are not allowed to change their party registrations. Vote 16-0.

Amendment (0149h)

Amend the bill by replacing all after the enacting clause with the following:

1 Elections; Voters and Checklists; Provisions for Primary Elections; Change of Registration.
Amend RSA 654:34, II-IV to read as follows:

II. Change of registration of a voter who has been registered as an undeclared voter.

(a) Any legal voter who has been registered as an undeclared voter may register as a member of the party of the voter's choice by appearing before the supervisors of the checklist for the voter's town or ward any time they meet, except as prohibited by paragraph IV, and stating to them,

under oath or affirmation, if required, that the voter intends to affiliate with and generally supports the candidates of the party with which the voter offers to register, in which case the voter shall be registered as a member of such party.

(b) A voter may also register as a member of a party at any primary by requesting to be registered as a member and voting the ballot of the party of the voter's choice. ~~[A voter may also register once again as an undeclared voter after voting in a primary as a registered member of a party by returning the card provided for in paragraph V to the person at the polls designated by the town or city clerk to accept the card. All such cards shall be in the possession of the supervisors of the checklist at the close of the polls on election day.]~~

III. Notwithstanding any provision of paragraphs I and II to the contrary, no person who has voted in a primary may thereafter on the day of said primary change the person's party registration[; unless, prior to voting in the primary, the person was registered as an undeclared voter, in which case the person may once again register as an undeclared voter, as provided in subparagraph H(b)].

IV. No person, who is already registered to vote, whether his *or her* party membership has been previously registered or not, shall affiliate with a party or disaffiliate from a party between the first Wednesday in June and the day before the state primary election. *No person shall disaffiliate from a party during the 90 days following a state or presidential primary election.*

2 Repeal. RSA 654:34, V, relative to change of registration cards for undeclared voters, is repealed.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

I. Eliminates the special provisions permitting undeclared voters to revert to undeclared status after voting in a primary election.

II. Requires undeclared voters to follow the same procedures for change of registration as voters whose party affiliations were declared prior to voting in the primary election.

III. Prohibits disaffiliation from a party during the 90 days following a state or presidential primary election.

Adopted.

Rep. Pratt spoke against.

Rep. O'Brien spoke in favor and yielded to questions.

Rep. Mirski requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

Ordered to third reading.

MOTION TO SPECIAL ORDER

Rep. O'Neil moved that **HB 142**, establishing a commission to study changing the local property tax abatement procedures, be made a Special Order for Tuesday, February 15, 2005 in Regular Calendar order.

Adopted.

HB 165, relative to cellular telephone use during motor vehicle operation. **INEXPEDIENT TO LEGISLATE**

Rep. Brenda L. Ferland for Transportation: Today's youth are just as responsible as today's adults when it comes to cell phone use while operating a motor vehicle. Law enforcement would prefer that people would just drive. Today's driving public has somehow gotten the mind set that it is okay

to do anything but drive. In the past the committee has dealt with the issue by passing the negligent driving law. The new statute went into effect on January 1, 2002 and has been working. People have to start driving and that is all they should be doing as they travel on the highways. Negligent driving addresses all kinds of distractions that cause a vehicle to be driven negligently, that endangers or is likely to endanger any person or property. Based on this law the committee voted to ITL this bill. There is no need to single out one group or one distraction at this time. Vote 11-2.

Rep. Scanlon spoke against.

Rep. Ferland spoke in favor and yielded to questions.

Rep. Scanlon requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

MOTION TO VACATE

Rep. Stephen L'Heureux moved that the House vacate the reference of **HB 695-FN**, requiring the university system of New Hampshire to make payments in lieu of taxes for purchased property, to the Committee on Education.

Motion adopted.

The Speaker referred **HB 695-FN**, to the Committee on Municipal and County Government.

RESOLUTION

Rep. O'Neil offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Tuesday, February 15, 2005 at 10:00 a.m.
Adopted.

LATE SESSION**Third reading and final passage**

HB 95, relative to delegates to state party conventions.

HB 171, relative to nicknames on ballots.

HB 33, relative to the study of state retainage practices.

HB 42, establishing a statutory joint committee to review and propose changes to state unclassified officers' salaries.

HB 168, relative to the licensure of electrologists and establishing an electrology advisory committee.

HB 181, establishing a committee to study the special account in the New Hampshire retirement system.

HB 239-FN, relative to registration of shampoo assistants by the board of barbering, cosmetology and esthetics.

HB 107, relative to the use of artificial light to view moose in Coos County.

HB 199, relative to fish and game department expenditures for marine fisheries.

HB 206, relative to alcohol education and abuse prevention and treatment programs.

HB 247, extending the law regarding receivership of care facilities for a certain length of time.

HB 269, establishing a statutory committee for the protection of human research subjects.

HB 41, relative to the right-to-know oversight commission.

HB 53, repealing a 1901 law relating to the apportionment of library funds in the town of Haverhill.

HB 84, relative to compensation of county convention members for county business.

HB 87, relative to the authority of the Carroll county public water system.

HB 194, establishing a study committee to examine regulatory practices pertaining to the telecommunications industry.

HB 40, relative to inspection dates for certain vehicles.

HB 145, relative to the healthy kids corporation.

HB 32, establishing a committee to study the feasibility of implementing the Second Chance drug rehabilitation program in the New Hampshire prison system.

HB 82, relative to political committees of political parties.

HB 58, relative to the effective date for the elimination of certain substances from gasoline supplies and removing a certain requirement relative to opting out of the reformulated gasoline program.

HB 154, relative to changes of party registration on primary day.

CONSIDERATION OF MEETING DAY

There being no rule specifying a meeting day, the Speaker offered the members the opportunity to choose the day on which House sessions would be scheduled whenever possible. On a division vote, 172 members voted in favor of Wednesday and 152 members in favor of Thursday. Session will usually be held on Wednesdays.

RECESS MOTION

Rep. O'Neil moved that the House stand in recess for the purpose of introduction of bills, enrolled bill amendments, enrolled bill reports and receiving Senate messages only.

Adopted.

The House recessed at 5:20 p.m.

RECESS

(Speaker Scamman in the Chair)

Rep. O'Neil moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 6

Tuesday, February 15, 2005

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by Guest Chaplain, The Reverend Jared Rardin from the South Congregational Church in Concord.

Today, O God, this body, together with Governor Lynch, takes up a new chapter in an old story. There is great eagerness to find ways of funding the many needs of this state, particularly the educational needs of our children. But as with all things, there are likewise old fears: fears that funding burdens will not feel fairly distributed.

Take away our fears of coming up short. Take away our territorial priorities. Help us not only to speak, but to listen, not only on behalf of the towns we represent, but the towns we do not represent. Infuse these, your servants here today, with willing spirit to seek new answers. This is not the first time in history when Your people have looked at what was on hand and made the mistake of thinking it wasn't enough. Turn our loaves and fishes into an abundance for everyone. For in the final analysis, we are not parents and children of Derry or Manchester, Bow or Berlin. We are parents and children of New Hampshire. We are Your children and as such we remember that everything we do for our neighbor, we do for You. Amen.

Rep. Paul A. Brassard led the Pledge of Allegiance.

The National Anthem was sung by Carly Champagne, an eighth grade student at Mountain View Middle School in Goffstown and stepdaughter of Rep. Stephen A. Baines.

LEAVES OF ABSENCE

Reps. Janet Allen, Callaghan, Cilley, Ferland, Foote, Headd, Keans, McRae, Palangas and Plifka, the day, illness.

Reps. Asselin, Bishop, Richard Cooney, Daniuk, Domingo, Stephanie Eaton, Donald Flanders, Gonzales, Bonnie Ham, Hebert, Hilliard, Hollinger, Irish, Irwin, Paula Johnson, Kelly, Klose, Manning, Mary Ellen Martin, Maybeck, Michon, Phinizy, Russell, Scanlon, Serlin, Tahir and Tholl, the day, important business.

Reps. Mark Clark, Gile, Hutchinson and Jean, the day, illness in the family.

INTRODUCTION OF GUESTS

Martin Bradie, guest of Rep. Gale. MaryAnn Baines, Al and Diane Baines, mother and grandparents of the day's singer, guests of the House. Participants in the Vesta Roy Excellence in Public Service Series, guests of Reps. Sheila Francoeur and Patten. Michael Swartz, guest of Rep. Langley. Debra Blore and Ann Heffernon, guests of Rep. Daniel Eaton.

RESOLUTION

Reps. O'Neil and Craig offered the following:

RESOLVED, that the House inform the honorable Senate it is ready to meet in Joint Convention for the purpose of hearing the Budget Address given by His Excellency, Governor John H. Lynch. Adopted.

SENATE MESSAGE

The Senate is now ready to meet with the honorable House of Representatives in Joint Convention for the purpose of hearing the Budget Address given by His Excellency, Governor John H. Lynch.

JOINT CONVENTION

(Speaker Scamman presiding)

The Sergeant-at-Arms introduced the Honorable Senate and Senate President, Thomas R. Eaton from Keene.

INTRODUCTION OF SPECIAL GUESTS

The Sergeant-at-Arms introduced Associate Justices of the Supreme Court and Chief Justice of the Supreme Court, Hon. John T. Broderick, Jr.

His Excellency, Governor John Lynch, addressed the Joint Convention.

Mr. Speaker, Mr. Senate President, Mr. Chief Justice, Honorable members of the House, Senate, Supreme Court, and Governor's Council, and my fellow citizens:

I promised the people of New Hampshire an honest and balanced budget that reflects our values and priorities. I promised not bigger government, but better government. The budget I present today keeps those promises. This budget is balanced. It is honest, fiscally conservative and responsible. I've said you can keep an eye on the bottom line and still look out for people. That is just what this budget does.

As you all know, we faced a large challenge. The loss of \$185 million in federal revenues. The loss of \$28 million in revenue from changes in the federal estate tax. Millions in regular maintenance costs were deferred during the last biennium—basic equipment, including snowplows and computers, was not replaced. We met this challenge by making tough choices and demanding accountability for every tax dollar. We zero-based state agency budgets—requiring agencies to justify every dollar they spend. We cut more than \$70 million from agency budget requests. We eliminated more than 150 vacant positions, but not front-line employees who directly serve our citizens. I made hard choices so we could invest in our priorities as a state. I made cuts and I made investments to improve efficiency and effectiveness—putting the needs of our citizens first.

This budget does not include a host of new programs. Instead I focused on making sure we are meeting our existing priorities and commitments. The growth in general fund spending in this budget is largely driven by non-discretionary spending including a 28 percent increase in state employees' health insurance costs; an increase in meals and rooms distribution to communities; and an increase in catastrophic and building aid to schools, which were not adequately funded in the last biennium.

This budget is helped by a growing economy. The revenue estimates in this budget are prudent and realistic, reflecting that revenues will be higher than first estimated last fall. Through zero-based budgeting, we identified a number of ways we could make state government work more effectively. For example: the Department of Resources and Economic Development had two separate marketing divisions—one for state parks and one for travel and tourism. We directed the department to combine those divisions and invest the savings in marketing our state. Another agency requested a \$500,000 database to track information that could just as easily be tracked on a spreadsheet. We cut that \$500,000 from their budget.

At the Department of Revenue Administration, we invested in auditors to investigate fraud and abuse, which will help increase revenues. As a state we own millions of dollars worth of surplus property, but we do not have a good system for tracking it. Do you all know that the state is the proud owner of a condo complex in Conway? This budget adds a real estate manager position to assess what we own, and sell those properties that we don't need and those properties we shouldn't own.

The rising cost of energy is one of the biggest cost drivers for state government. This budget funds the position of state energy manager to track all state energy costs, lower energy use, and save our taxpayers money.

Zero-based budgeting is an ongoing exercise because protecting taxpayer dollars is an ongoing responsibility, and we must continue to look for better ways to improve services and operate more efficiently to make the best use of every taxpayer dollar.

We've made smart choices with this budget. As a result, we can make some smart investments—in our economy, in our environment, and in our people. We know that business, not state government, creates jobs. But we also know that when the state partners wisely with the private sector we can grow our economy and attract good-paying jobs for our citizens. This budget continues support for the Small Business Development Centers and the Industrial Research Center. It invests in the International Trade Resource Center to help our businesses sell their products and services to countries around the world. We know that investing in tourism pays off, generating jobs for our people, and revenues for our businesses and for our government. That is why this budget increases funding for tourism advertising by \$100,000. And later this week, I will be announcing a new public-private partnership to help attract and create new jobs for New Hampshire.

A quality and safe transportation system is essential to our economic development. This budget includes the state match required to obtain all possible federal highway aid. It will help remove more bridges from the Red List and it supports critical projects to facilitate the widening of Interstate 93. Our state's beautiful natural environment is part of why we all love and live in New Hampshire. It is also one of our state's most important economic assets. New Hampshire's Land and Community Heritage Investment Program helps protect the natural and historic landmarks that make

New Hampshire special. Bringing together state, local and private resources, LCHIP is also a wonderful example of what we can accomplish working together. This budget provides \$4 million for LCHIP in 2006 and fully funds LCHIP at \$6 million in 2007.

One of the most important things we can do for our economy and our families is to invest in education. The demands of a changing economy require a highly skilled and educated workforce. Most new jobs require a college education. We must take steps to make college more affordable for our children and for families. With this budget, the University System has committed to keeping tuition increases low, and the community technical college system has committed to no tuition increases for the next two years. And I am proud to say that with this budget, for the very first time, New Hampshire students who receive the maximum Pell Grant will be able to attend UNH, Plymouth or Keene for no additional tuition cost in their first year.

We value our good schools, and we recognize as a state we have a responsibility to make sure our children receive a quality education. To do that, we must keep our promises to our communities and our children, and demand accountability. Last year, New Hampshire only funded 70 percent of its commitment to communities for special education students. This budget increases that aid by more than 50 percent over the next two years. This budget also increases building aid by \$11 million and funds student assessment tests.

This budget also funds a fair and lasting solution to school funding. I am proud that I have been joined by a bipartisan group of legislators – Deputy Speaker Ken Weyler, Rep. Liz Hager, Rep. Jim Craig, Rep. Sharon Nordgren, Sen. Bob Odell, Sen. John Gallus, Sen. Lou D’Allesandro, and Sen. Joe Foster – to present to you a new school funding plan. This bipartisan proposal meets our responsibility to ensure every child the opportunity for a quality education. It gives more aid to communities with the greatest need, provides stability and predictability, and allows us to at last focus on quality and accountability. And this plan eliminates the statewide property tax and donor towns once and for all.

The sponsors of this proposal have put partisanship aside to focus on what is best for our children and what is best for our state. As this plan moves through the legislature, I recognize there will be other ideas and I welcome an open and honest discussion. We all agree that it doesn’t matter who gets the credit. What matters is that we get it done. We have a responsibility to put in place a lasting school funding solution – and I ask you to join with us. We can and we must solve school funding this year.

To pay for education and for eliminating the statewide property tax, this budget includes a 28-cent increase in the tobacco tax. New Hampshire has never dedicated the revenue we need to responsibly grow state aid to education year to year. That is why this budget dedicates the revenue from the tobacco tax increase to the Education Trust Fund. This will help ensure that we have the revenues in place to meet our responsibility for education now and into the future. This proposal keeps the rate of our tobacco tax well below those of our neighboring states. It also allows us to accomplish an important public health goal – reducing the number of children who start smoking. I ask you to join me in supporting this common-sense proposal.

We have a responsibility as a state to protect our most vulnerable citizens: our children, our seniors, people with disabilities. That is our moral obligation. But there is an economic justification too – we all pay when the basic needs of our citizens are unmet. That is why this budget preserves and strengthens our commitment to those with the greatest needs.

Many of our seniors live on fixed incomes, struggling to make ends meet. We must do what we can to help them live their lives with dignity. That is why this budget funds Meals on Wheels, wheelchair van transportation, and gives more seniors the option to stay in their own homes and stay in their communities. People with disabilities should be given the opportunity to live their lives to the fullest. This budget cuts in half the waiting list for people with developmental disabilities.

Children with access to quality health care do better in school and better later on in life. As a state, we’ve recognized that investing in children’s health insurance is not just the right thing to do, it’s the smart thing to do. New Hampshire’s Healthy Kids Children’s Health Insurance Program is a unique public-private partnership – hailed as a national model. This budget invests in Healthy Kids and will allow us to provide health insurance to another 6,000 New Hampshire children.

With a growing and aging population, the demand on our Medicaid system is also growing. We must reform Medicaid to meet those demands, but thoughtfully, with full public involvement. My office has held three public conversations with our community partners and our citizens about their ideas for improving Medicaid. We must now take those ideas, along with the work done by the

staff of the Department of Health and Human Services, and develop new initiatives that make sense for our citizens. We should reform Medicaid, but we must take the time to do it right and to make sure it's right for New Hampshire. That is what I am committed to doing.

Our veterans sacrificed for all of us and we owe them a debt of gratitude. New veterans are now returning home from service in Iraq and Afghanistan, and I ask you to join with me in thanking them. This budget allows us to hire the staff necessary to open the new wing of the Veterans Home and to add a new staff member at the Veterans Council to help the veterans get the services they need.

The most fundamental duty of state government is to protect the safety of our citizens. In recent years, we've seen a reduction in the number of state troopers. At the same time, the number of fatal accidents is increasing. I've heard too many reports of insufficient backup for local police departments and large stretches of our highways with no trooper on duty. That's not safe for our troopers or for our citizens. That is why I've asked the Department of Safety to re-allocate its resources to strengthen our state police force, restoring 14 trooper positions by the end of the biennium.

As I travel across New Hampshire, I hear from the citizens of our great state a new sense optimism that together we can and we will address the challenges facing our state, from the budget to education funding to reducing health care costs. I've seen that same sense of optimism right here in this building.

I thank you so much for your willingness to work with me, and I look forward to continuing to work with you to make real progress for our state. Working together, Democrats and Republicans, we will enact an honest and balanced budget – a budget that invests in our future and a budget that puts the needs of our people first. Thank you.

Sen. Clegg and Rep. O'Neil moved that the Joint Convention arise.

Adopted.

The Joint Convention adjourned.

HOUSE SESSION

(Speaker Scamman in the Chair)

The Speaker reconvened the House session.

REMARKS

Rep. Weyler moved that the Speaker's remarks in remembrance of the Honorable Susan McLane and the Honorable Channing Brown be printed in the Permanent Journal.

Adopted.

Speaker Scamman: Over the past few days we have been saddened with the passing of two former long-time legislators and friends, Susan McLane of Concord and Channing Brown of Lebanon. Without question, these were two of the most influential legislators of our time. While you may not have always agreed with Susan and Channing on all issues, you always respected each of them as dedicated lawmakers who were passionate about their beliefs, and who cared deeply about the people of this state.

Channing Brown became a close personal friend over the years that we served together. Channing, his wife Barbara, and Stella and I would often vacation together. As many legislators do, we would both frequently stay in Concord during the busy House session and we often spent many hours together debating and discussing issues over a friendly game of cards. You always knew where Representative Brown stood on the issues – there was never any question with Channing. He was well-informed on the issues and always had the best interests of his constituents in mind. He was an extremely talented individual who chose to stay in his home town and raise his family after graduating from Lebanon High School and the University of New Hampshire. He easily could have left the state and brought his talents elsewhere, but he chose to dedicate his life to the people of New Hampshire, both through his service as Mayor of Lebanon and as a member of this body.

State Senator Susan McLane began her career as a legislator in this House. She and I were freshmen together and also good friends. She was a champion of tax reform and helped to reform the mental health care system in New Hampshire. Susan was a champion of the underprivileged. Through her dedicated service, she helped pave the way for women to take an active role in the New Hampshire legislature. In 1970, there were only 68 women serving in this House. Today there are 125. Susan McLane was a pioneer who led the way for others. She, too, became a close friend over the years – someone whom you could count on for a lively, yet respectful, debate.

We will miss Channing Brown and Susan McLane. They both left us as they served – with dignity. As Speaker, I would like to extend our heartfelt condolences to their spouses, Barbara Brown and Malcom McLane, and also to their families in their time of sorrow. Will you please join me for a moment of silence for these two respected New Hampshire citizens who did so much to help make this the great state that it is today. Thank you.

COMMITTEE REPORTS CONSENT CALENDAR

Rep. O'Neil moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 136-FN, removing increased penalties for crimes substantially motivated by hostility toward the victim's religion, race, creed, sexual orientation, national origin, or sex, removed by Rep. Bicknell

HB 290-FN, relative to participation in health savings accounts, removed by Rep. Wendelboe.

HB 158, relative to the Auburn District Court, removed by Rep. Dokmo.

Consent Calendar adopted.

HB 167, relative to mail-in rebates for merchandise purchased within the state. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen B. Stepanek for Commerce: Although well intentioned by the sponsor, the committee and subcommittee heard no testimony that any consumers had complained. Even the sponsor admitted there was no evidence that the consumer was not receiving rebates that were mailed in, or that the advertising did not notify consumers a mail-in rebate was required. The sole purpose of the bill was not to protect the consumer but to make it more convenient for consumers. The unintended consequences, however, would put undue costs on retailers, especially small retailers. By interfering in the manufacturer-retailer-consumer relationship, the committee heard testimony the retailers would, as is their right, refuse to participate in the rebate program and/or the manufacturer would refuse to offer the rebates in New Hampshire. There was no evidence of consumer complaints and the unintended consequences could be the loss of these money saving rebates to the New Hampshire consumer. The committee felt this bill was unnecessary. Vote 16-1.

HB 178, requiring disclosure of documents prior to a residential real estate closing. **INEXPEDIENT TO LEGISLATE**

Rep. Donald H. Flanders for Commerce: Ideally this is fine but not as a practical matter. More often than not changes are made and some information is not received until the very last minute before a closing. If the closing has to be delayed for three days after receipt of all the information and preparation of the documents, problems with rate lock commitments and rate increases may be created. Adequate information should be available from the lender/closing company when required. Vote 17-0.

HB 188-FN, restricting the amount of account information on credit card receipts. **INEXPEDIENT TO LEGISLATE**

Rep. Marshall Lee Quandt for Commerce: This bill prohibits sellers from printing more than the last 5 digits of the account number or the expiration date on credit card receipts. The prohibition does not apply to receipts that are handwritten or created by an imprint of the card. In 2003, the federal government passed legislation mandating that, in 2006, the electronically generated credit card receipts given to the purchaser only would have the last five credit card digits, while the business would keep a receipt that had the complete number. With the help of the bill's sponsor, a flaw was detected in this bill that should a "charge back" occur, the business that took the credit card in payment may not be able to justify the sale because of not having the full credit card number. It was felt this was a hindrance to businesses accepting credit cards. The issue of security of credit card receipts was addressed and the Attorney General's Office of Consumer Protection is providing education on this issue, as well as the New Hampshire Retailers Association, that will advise their members on better ways to protect their copies of credit card receipts. Vote 17-1.

HB 229, extending the committee to study the establishment of a farm viability program. **OUGHT TO PASS**

Rep. Burton W. Williams for Environment and Agriculture: The study of farm viability proved to be very complex. The committee traveled to four locations throughout the state holding hearings on farm viability. Many issues were discussed resulting in proposed legislation for this session. The study of farm viability was never completed. Therefore, extending this committee is necessary. Vote 18-0.

HB 153-FN, relative to the collection of debts owed to the state. OUGHT TO PASS WITH AMENDMENT

Rep. Ken Hawkins for Executive Departments and Administration: The committee heard testimony that the Attorney General's office will only go to court to collect fines, fees, etc. when they are in excess of \$10,000. In the past, state agencies could go to small claims court to recover these monies. In 2004, the Attorney General's office ruled that this could not be done anymore. This legislation enables state agencies to use a collection firm or law firm that has an approved contract with the Attorney General's office that was approved by the governor and executive council to collect monies owed. In the Department of Environmental Services alone, there is over \$160,000 overdue. Vote 19-0.

Amendment (0082h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; The State and its Government; Treasurer and Accounts; Collection of Debts Due the State. Amend RSA 6 by inserting after section 43 the following new subdivision:

Collection of Debts Due the State

6:44 Collection of Public Debts by Collection Agencies or Law Firms.

I.(a) State agencies may retain, by written contract, private collection agencies or law firms for the purpose of collecting debts owned to a state agency by any person. The department of justice shall be responsible for the collection function for all state agencies. There is established in the department of justice a separate, nonlapsing account to be known as the debt recovery fund, into which all debts collected under this section shall be deposited. The department of justice may use the account for expenses associated with managing the collection function. Annually, funds deposited in the account, after all costs have been deducted, shall be credited proportionately to the accounts for which they were collected.

(b) Unless otherwise provided for by law, the amount of the collection fee and the terms and conditions of retention shall be negotiated by the department of justice and the private collection agency or law firm, subject to governor and council approval, and the requirements of this subparagraph. The amount of the collection fee as negotiated between the department of justice and the private collection agency or law firm shall be added to the bill of costs to be paid by the debtor and shall not exceed 35 percent of the amount collected.

II. No debt may be assigned to a collection agency or law firm unless:

(a) There have been at least 3 documented attempts to notify the debtor of the existence of the debt and of the fact that the debt may be assigned to a collection agency or law firm for collection if it is not paid; and

(b) At least 30 days have elapsed from the last notice attempt.

III. Collection agencies or law firms assigned debts under this section shall have only those remedies and powers which would be available to them as assignees of private creditors. The collection agencies or law firms are likewise bound by applicable laws governing unfair collection practices.

IV. For purposes of this section, a private collection agency or law firm shall cease its efforts designed to collect the debt and inform the department of justice and the agency upon the occurrence of any of the following:

(a) Direction from the department of justice.

(b) Bankruptcy of the account debtor.

(c) Determination by the private collection agency or law firm that the debt is non-collectible.

(d) Upon order of a court having jurisdiction over the debtor in a criminal or civil matter.

V. The attorney general shall submit an annual report, on or before June 30, to the speaker of the house of representatives, the president of the senate, and the chairperson of the house standing committee on executive departments and administration, relative to collection activity under this section. The report shall include, for each account: the relevant agency; the amount to be collected; the amount collected and whether it was collected by a collection agency, law firm, or court action initiated by the department of justice; any expenses incurred; and any amount outstanding.

VI. For purposes of this section, the term "debt" shall include fines and other debts, including the fee required under subparagraph I(b) of this section.

2 New Subparagraph; Debt Recovery Fund. Amend RSA 6:12, I(b) by inserting after subparagraph (234) the following new subparagraph:

(235) Moneys deposited in the debt recovery fund, established under RSA 6:44.

3 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill permits state agencies to retain private collection agencies or law firms to collect debts owed to the state. The bill directs the department of justice to deposit funds collected in a dedicated fund, known as the debt management fund, from which recovered funds shall be distributed annually to the appropriate agency. The bill also requires the department to submit an annual report on the collection activity to the legislature.

HB 253, exempting certified financial planners from requirements for licensure under insurance laws. **INEXPEDIENT TO LEGISLATE**

Rep. Hector M. Velez for Executive Departments and Administration: This bill exempts certified financial planners from the license requirement for insurance producers provided the person does not sell or solicit insurance or receive a commission. Based on testimony, the committee believed that a fee-only certified financial planner had to consult their client on insurance matters. At the present moment, RSA 405:44-a has language regarding requirements for those who consult or advise relating to insurance matters. The same RSA references individuals to RSA 402-J which talks about producer licensing laws as it relates to being an insurance agent or broker. Therefore, the committee came to the conclusion that certified financial planners should meet full requirement for licensure under insurance law. Vote 14-2.

HB 281, requiring certain labels on bottled water. **INEXPEDIENT TO LEGISLATE**

Rep. James B. Coburn for Executive Departments and Administration: This bill would direct the commissioner of health and human services to adopt a rule that would require all bottled water sold in New Hampshire to list on its label the amount of any fluoride or compound of fluorine contained in the water. The labeling would raise consumer awareness of a potentially hazardous material in the water. After hearing testimony and discussion, the committee felt that existing state and federal laws regulating labeling of food products and the amounts of naturally occurring and added fluorine were sufficient. Vote 16-0.

HB 259, relative to medical assistance for home care for children with severe disabilities. **OUGHT TO PASS WITH AMENDMENT**

Rep. Rogers J. Johnson for Health, Human Services and Elderly Affairs: The legislature of 2004 passed legislation, which created a commission to study the medical assistance program for home care of children with severe disabilities (HC-CSD) also known as "Katie Beckett." This bill is the product of that commission. This bill will put into statute and thus protect the "Katie Beckett" program. It will also revamp the program to bring it into compliance with federal law as required. The amendment to the bill contains technical changes which do not affect the nature and purpose of the legislation. Vote 21-0.

Amendment (0187h)

Amend RSA 167:3-f as inserted by section 2 of the bill by replacing it with the following:

167:3-f Home Care for Children With Severe Disabilities; Recipient Eligibility.

I. In this section:

(a) "Active treatment program" means an aggressive, consistent implementation of specialized and generic training, treatment, health and related services directed toward:

(1) The acquisition of the behaviors necessary for the child to function with as much self-determination and independence as possible; and

(2) The prevention or slowing of deterioration of the ability to function.

(b) "Family centered community-based home care" means an organized network of integrated and coordinated services delivered at the local level which promotes normal patterns of living and which recognizes the pivotal role of families with respect to the provision of services for their children.

(c) "Cost effective" means the estimated medicaid cost of care outside an institution is no higher than the estimated medicaid cost of appropriate institutional care.

II. The purpose of family centered community-based home care shall be to support but not supplant the child's family as the primary caregiver.

III. To be eligible for medical assistance for home care of certain children with severe disabilities, the child shall, in addition to the eligibility criteria in RSA 167:3-e:

(a) Reside in a place maintained as the child's home community.

(b) Be able to receive services in the home as defined in 45 CFR 233.90(c)(1)(v)(B).

(c) Meet the program criteria as described in section 1902(e)(3) of the Social Security Act.

(d) Meet the recipient criteria of He-W 641.04, except that, pursuant to the prohibition in section 1614(f)(2)(B) of the Social Security Act, rules requiring the deeming of parental income shall not apply.

(e) Meet the following medical criteria:

(1) Is chronically ill or impaired, whose illness or disability does not require the level of care provided in an inpatient facility, but whose condition requires ongoing and regular medical monitoring and treatment; and

(2) Has a severe disability which includes at least one of the following:

(A) A developmental disability as defined in RSA 171-A:2, V.

(B) A chronic, degenerative, progressive, or life-threatening condition causing impairment of a vital organ function which requires ongoing and regular medical monitoring.

(C) A sensory impairment which is expected to continue indefinitely, including a hearing loss established by audiometry which functionally impacts the child.

(D) A mental illness, emotional disturbance or behavioral disorder which functionally impacts his or her psychosocial adjustment and the diagnosis for which is recognized by the American Psychiatric Association.

(E) An acquired childhood disease which functionally impacts the child.

(F) A genetic disorder or congenital anomaly requiring ongoing medical monitoring.

(f) Require the same degree of care that is typically provided in a hospital, psychiatric hospital, nursing facility, or intermediate care facility for the mentally retarded as specified in RSA 167:3-g.

IV. In addition to the eligibility requirements described in paragraph II, the services proposed for the child shall be:

(a) Medically appropriate, as determined by the joint medical review team in accordance with paragraphs V and VI; and

(b) Cost effective as determined by the department in accordance with RSA 167:3-e, IV.

V. The joint medical review team, upon certification by the child's physician, shall determine if it is medically appropriate, in accordance with paragraph VI, for the child to receive family centered community-based home care as opposed to institutional care.

VI. The joint medical review team shall determine that family centered community-based home care is medically appropriate if each of the following conditions are met:

(a) The care can be provided in the home without jeopardizing the medical needs of the child.

(b) Medical and psychological support services are available in the community.

(c) The child's treating physician recommends home care and certifies the safety of home placement.

(d) The child's family or guardian have expressed a willingness and desire to assume responsibility as the primary caregiver for the child in order to maintain the child at home.

(e) The family and household members have been trained to support the child's needs in the home and have the ability to be primary caregivers.

Amend RSA 167:3-g, IV(a) as inserted by section 2 of the bill by replacing it with the following:

(a) The child meets the definition of a child with a serious emotional disturbance established by Department of Health and Human Services Notice, dated May 20, 1993, 58 Federal Register 29422 (1993).

HB 321, requiring health care providers to furnish a patient with a copy of his or her medical complaint form. **INEXPEDIENT TO LEGISLATE**

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: This is a well intentioned bill that deals with the importance of patients' access to their medical records. The committee accepted that it is well established under professional practice acts that individuals have access to their medical records and can have copies made of those records. In addition, it is routine practice that practitioners forward copies of their records to new providers. The records would also include any letters or complaints registered by the patient. In this instance, the sponsor of this bill wanted to convey the importance of the symptomatic complaints being made part of the record. The intent was to provide a record that allows for the best patient treatment possible while protecting the provider. The committee unanimously agreed that the present system already provides the protections that this bill would require. Vote 21-0.

HB 514, establishing the New Hampshire health care quality assurance commission. **OUGHT TO PASS**
Rep. James R. MacKay for Health, Human Services and Elderly Affairs: This bill establishing the New Hampshire health care quality assurance commission is one very important step, among many,

that is directed at dealing with our ever increasing crisis in the delivery of health care. The quality assurance commission is the product of the work of a highly qualified task force considering remedies for medical errors. The new quality assurance commission provides a confidential opportunity for New Hampshire hospitals professional staff to review and analyze medical errors, unexpected outcomes and potential problems. Every acute care hospital and ambulatory surgical center will be represented on the commission; each member will be responsible to educate his or her institution on the confidential findings of the commission. This provides for a carefully controlled system operating confidentially to disseminate lessons learned about medical errors to help in their eradication and reduction. This bill, endorsed by the task force on medical errors has strong support including the New Hampshire Medical Society and the New Hampshire Trial Lawyers Association. Vote 18-0.

HB 112, relative to psychiatric evaluations in competency hearings. OUGHT TO PASS WITH AMENDMENT

Rep. Gregory M. Sorg for Judiciary: This bill addresses a perceived defect in the law governing the holding of competency hearings following a criminal defendant's commitment for treatment aimed at restoring his or her competency to stand trial. Under present law, the psychiatrist treating the patient is required to conduct the follow-up competency evaluation. This dual role creates a conflict of interest that both the mental health care professionals and the Attorney General's office wanted to eliminate. As amended, the bill requires that the psychiatrist conducting competency evaluations not be the treating psychiatrist. Vote 17-0.

Amendment (0221h)

Amend the bill by replacing all after the enacting clause with the following:

1 Competency Hearings; Psychiatric Evaluations. Amend RSA 135:17-a, III to read as follows:

III. *Except for good cause shown*, a further hearing to determine the defendant's competency shall be held no later than 12 months[~~except for good cause shown,~~] after the order committing the defendant for treatment. The hearing may be held earlier if the court is notified that the defendant has [~~regained~~] *been restored to* competency, or that there is no longer a reasonable likelihood of such restoration. Prior to the scheduled hearing, the [~~treating~~] psychiatrist *who conducted the initial competency evaluation* shall conduct a further [~~competency~~] evaluation [~~as set forth in~~] pursuant to RSA 135:17, and furnish *a copy of the report of* such evaluation to the court and the parties. *If that psychiatrist is unavailable or unable to conduct such further evaluation, the court may order that the evaluation be conducted by another qualified psychiatrist other than the treating psychiatrist.*

2 Competency Evaluations During Involuntary Commitment Period. RSA 135-C:17-a, VI is repealed and reenacted to read as follows:

VI. If the person is ordered to be involuntarily committed following proceedings pursuant to RSA 135-C or RSA 171-B, the court may, for good cause shown upon motion of the attorney general or county attorney at any time during the period of the involuntary commitment and before expiration of the limitations period applicable to the underlying criminal offense, order a further competency evaluation, to be conducted as prescribed in paragraph III.

3 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill permits a court to order a qualified psychiatrist other than the treating psychiatrist to conduct a psychiatric evaluation of a defendant for purposes of a subsequent hearing to determine competency to stand trial, if the psychiatrist who conducted the initial evaluation is unavailable.

The bill also permits the court, for good cause shown upon motion of the attorney general or county attorney at any time during the involuntary commitment period and before expiration of the limitations period applicable to the underlying offense, to order a further competency evaluation.

HB 376, establishing a statutory joint committee on legislative parking facilities. INEXPEDIENT TO LEGISLATE

Rep. Paul C. Smith for Public Works and Highways: The committee unanimously agreed that the issue in the bill is an important one, but one that is already being dealt with. In years past, several committees were established to study and determine what means could be taken with regard to the parking garage issue, and more often than not, the committee fell apart. However, due to increased staffing and business, the City of Concord and the State have come back together to work on the issue in a committee that includes members of the House, Senate, City of Concord and Adminis-

trative Services. The Public Works Committee was assured that not only is their status hopeful, but that we could potentially see a plan this legislative session. With that, the committee voted to ITL the bill because the issue is seemingly being resolved in a timely fashion. Vote 18-0.

HR 10, urging increased consideration and preservation of local authority in international trade and investment agreements. **INEXPEDIENT TO LEGISLATE**

Rep. James E. Twombly for State-Federal Relations and Veterans Affairs: While the concern for state and local sovereignty is noteworthy, the committee felt that this issue is too broad in scope and too comprehensive in nature and is beyond our level of responsibility. The federal government makes treaties and sets conditions. Also the committee felt that states and localities are protected by the Eleventh Amendment and that previous decision by international bodies has no teeth in the United States. Vote 14-0.

REGULAR CALENDAR

HB 117, requiring automobile insurance to register a vehicle. **INEXPEDIENT TO LEGISLATE**
Rep. Donald H. Flanders for Commerce: This type of bill has been before the legislature on numerous occasions in the past and always defeated because our New Hampshire system has proven to be very effective. We have one of the lowest rates of uninsured motorists in the country at 9%, and our New Hampshire policy includes uninsured motorist coverage which protects everyone who purchases auto insurance for injuries sustained by someone who is uninsured. In addition to this, New Hampshire law penalizes those uninsured drivers responsible for accidents by requiring them to reimburse the injured party and carry insurance in the future or their licenses will be suspended. Simply stated, our current requirements work. Vote 12-5.

Committee report adopted.

Rep. Infantine declared a conflict of interest and did not participate.

HB 60-FN-A, relative to reimbursement of legal fees of the commissioner of the department of administrative services and making an appropriation therefor. **OUGHT TO PASS WITH AMENDMENT**

Rep. Robert L. Wheeler for Finance: The committee felt that it was appropriate to reimburse the commissioner of administrative services for legal fees which he incurred as a result of his employment when the Attorney General's office could not represent him. Vote 20-0.

Amendment (0175h)

Amend the bill by replacing all after the enacting clause with the following:

1 Appropriation; Reimbursement of Legal Fees of the Commissioner of the Department of Administrative Services. The sum of \$16,932 is hereby appropriated for the fiscal year ending June 30, 2005, to the department of administrative services, for the purpose of reimbursing the commissioner of the department of administrative services for the legal fees he incurred in the AlphaDirections/Linda Pepin matter. These funds are in addition to any other funds appropriated to the department of administrative services. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

2 Effective Date. This act shall take effect upon its passage.

Adopted.

Rep. Wheeler yielded to questions.

Committee report adopted and ordered to third reading.

HB 71-FN-A-L, relative to funding of the school building aid program for the 2005 fiscal year and making an appropriation therefor. **OUGHT TO PASS WITH AMENDMENT**

Rep. Robert K. Dodge for Finance: As generally happens in the second year of each biennium, appropriations are only estimates and actions taken by town meetings and cities can exceed our estimates. Now that we have the actual amount needed, \$2,730,411.00, the committee recommends that we adjust the appropriation. Vote 21-0.

Amendment (0083h)

Amend the bill by replacing section 1 with the following:

1 School Building Aid; Fiscal Year 2005. The sum of \$2,730,411, for the fiscal year ending June 30, 2005, is hereby appropriated to the department of education for the purpose of providing full funding of all school building aid projects approved for the 2005 fiscal year. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

AMENDED ANALYSIS

This bill makes an appropriation of \$2,730,411 to the department of education for the purpose of fully funding all school building aid projects approved in the 2005 fiscal year.

Adopted.

Committee report adopted and ordered to third reading.

HB 102 FN-A, increasing the personal needs allowance of nursing home residents and certain other residents and making an appropriation therefor. **OUGHT TO PASS**

Rep. Lawrence A. Emerton. This bill will increase the personal needs allowance for all medicaid nursing home residents in NH by \$6.00 per month, from \$50.00 to \$56.00. Federal reimbursement will be 50%, counties 25% and the state 25% for \$1.50 per month. The last personal needs increase was over 5 years ago. In addition, this bill requires the commissioner of the Department of Health and Human Services to make adjustments for cost of living increases every 5 years to reflect social security increases. Vote 19-3.

Committee report adopted and ordered to third reading.

HB 240-FN, relative to psychotropic drugs and child protection. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Charles E. McMahon for the Majority of Health, Human Services and Elderly Affairs: This bill addresses the use of psychotropic drugs and how they are recommended to the states' school children. According to reliable governmental studies, New Hampshire, for the last six years, has led the nation on a per capita basis on the use of the drug Ritalin. The escalating use of these drugs continues to grow. It has become a major concern to the committee, especially as the testimony has been presented, that in some cases the recommended use of the drug Ritalin is done by school personnel. They do not have the background and or education in the field of medicine, they are on occasion making the recommendation that a child be put on Ritalin for behavioral issues. Any recommendations for the use of psychotropic drugs for our children must be the sole responsibility of those trained in medical care for evaluation, testing and prescribed treatment. No public school personnel without a medical degree shall suggest or recommend the use of psychotropic drugs and no public schools shall require a child to take psychotropic drugs as a condition of attending school. Public testimony indicated that these conditions have occurred and this bill will address that issue. The provisions included in this bill shall not prohibit school health professionals from recommending that a student be evaluated by an appropriate degreed health care professional nor shall it prohibit school health personnel from consulting with such degreed health practitioners with the consent of the child's parent or legal guardian. The committee, by a strong majority, felt that psychotropic drugs are good medications, but wants to ensure that only trained medical personnel are the ones making the recommendations for their use. This bill would also align with federal regulations and keep New Hampshire eligible for federal funding. Vote 17-4.

Rep. Barbara C. French for the Minority of Health, Human Services and Elderly Affairs: It is wrong and sad that school staff recommend medication such as Ritalin. However, it is not necessary to pass a law that possibly threatens the teacher, or other personnel with a lawsuit. School personnel are professionals who carry out specific duties which are regulated by licensure or certification. There are penalties for performing duties which are not included in their line of expertise. Prescribing medication is the job of a physician. Schools and staff have been adequately put on notice that recommending medication is wrong. There is a procedure now in place in which a parent can complain to the school principal, or use the complaint procedure under the New Hampshire Department of Education rules for the education of handicapped children, allowing the staff person to be dealt with appropriately.

Majority Amendment (0177h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Psychotropic Drugs and Schools. Amend RSA 200 by inserting after section 35 the following new section:

200:35-a Psychotropic Drugs and Schools.

1. Advice regarding the use of psychotropic drugs for any child is the sole responsibility of medical professionals following standard medical practice, testing, and evaluation of the child. No public school personnel shall suggest or recommend use of such medications.

II. No public school shall require a child to take psychotropic drugs as a condition of attending school.

III. The provisions of this section shall not prohibit school personnel from recommending that a child be evaluated by an appropriate health care practitioner, or prohibit school personnel from consulting with such practitioner with the consent of the child's parents or legal guardian.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill prohibits public school personnel from recommending or requiring that a child take a psychotropic medication.

Majority committee amendment adopted.

Majority committee report adopted and ordered to third reading.

HB 130, relative to limiting the length of involuntary commitment. **INEXPEDIENT TO LEGISLATE**
Rep. Bernard E. Buzzell for Judiciary: This bill reduces the maximum involuntary commitment from 5 years to 1 year. Testimony from state hospital administration discussed how this bill would negatively impact the mentally ill and would be detrimental to the state's ability to track those who had been committed as criminally insane. The Attorney General's office states that this measure would negatively impact their job and cause considerable hardship. Vote 16-1.
Adopted.

HB 231, establishing a commission to study issues relating to personal privacy. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Gregory M. Sorg for the Majority of Judiciary: This bill would establish a commission to "study issues relating to personal privacy," and to file a report of its findings and any recommendations for proposed legislation by November 1, 2005. While the entire committee is mindful of and concerned about the erosion of privacy resulting from, among other causes, national security concerns and expanding information technology, the majority concluded that establishment of a study commission is not the proper vehicle to address the problem. The proposed scope of the commission was considered too broad and open-ended; and because privacy erosion is an on-going problem, the majority believed that a more preferable vehicle would be to form an ad hoc committee on the subject. Vote 13-6.

Rep. Bette R. Lasky for the Minority of Judiciary: The minority feels that this is an issue that is too important to simply dismiss with the ITL of this bill. This bill is likely not the appropriate vehicle to study the issues assaulting our personal privacy and we want to be able to explore other options to, in fact, study the issue as it deserves.

Majority committee report adopted.

SPECIAL ORDER

HB 142, establishing a commission to study changing the local property tax abatement procedures. **INEXPEDIENT TO LEGISLATE**

Rep. Nancy K. Johnson for Municipal and County Government: The committee agreed that the form for an abatement may be confusing but the Board of Tax and Land Appeal entertains ideas to change forms. The committee agreed that a study commission is not necessary at this time. Vote 18-0.

Rep. Cady spoke against.

Rep. Patten spoke in favor.

Adopted.

REGULAR CALENDAR (CONT'D.)

HCR 1, urging Congress to withdraw the United States from the United Nations. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Kris E. Roberts for the Majority of State-Federal Relations and Veterans Affairs: This concurrent resolution requests that the United States withdraw from the United Nations and all related organizations. The right to enter or withdraw from treaties is a federal, not state, right. While it is understood that the UN has not lived up to the general goals of its founders, it has, through combined action, improved the lives of billions of people world-wide. If one has problems, those concerns should be addressed from within not from the outside. To withdraw from the UN would eliminate any chance of US input. Vote 8-6.

Rep. Russell A. Albert for the Minority of State-Federal Relations and Veterans Affairs: The responsibility of the United States as a member of the United Nations creates immense financial boundaries on the citizens of our country, even though the US provides the largest share of the burden. Many members are not friendly to the US issues and against our interests. By dissolving our membership, we will free the US of this financial burden. The outrageous corruption in the oil, food and medicine program should send a clear message, that the United Nations' only real concerns are in lining their pockets with money, to date \$26 billion dollars, the largest swindle in world history.

The question being adoption of the majority committee report.

Reps. Albert, Boyce, Ingbreton and Bettencourt spoke against.

Rep. Roberts spoke in favor.

Rep. Twombly spoke in favor and yielded to questions.

Rep. Mirski requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

BILLS REMOVED FROM CONSENT CALENDAR

HB 136-FN, removing increased penalties for crimes substantially motivated by hostility toward the victim's religion, race, creed, sexual orientation, national origin, or sex. **INEXPEDIENT TO LEGISLATE**

Rep. Laura C. Pantelakos for Criminal Justice and Public Safety: The bill, if enacted, would remove the enhanced penalty for crimes substantially motivated by hostility towards the victim's religion, race, creed, sexual orientation, national origin or gender. There was a five hour hearing conducted where 36 people testified. The four sponsors and three citizens were the only ones in favor of the bill. The governor's representative and attorney general were strongly opposed to this legislation. This great country of ours is a heterogeneous group of people. We have men and women from most countries around the world, representing numerous religious organizations, races and sexual orientations. We have always struggled with the rights of various minority groups. We have not always been as open to freedom of expression as our forefathers would have liked. Yet, even as we deplore hateful speech against minority groups, we protect and defend the freedom of expression of all people. Our Constitution provides freedom of expression for blacks and the Ku Klux Klan, gays and gay haters, women's groups and misogynists, Christians, Jews, Muslims and any other religious group. It is not the thought this statute seeks to punish, as testimony suggested. It is the actions of a few hateful people. This law punishes those who would seek to intimidate others in their freedom of expression; who seek to harm others because of the color of their skin, gender, sexual preference or

nationality. These individuals need to understand that as a free and democratic society, we thrive on an individual's freedom of expression. We need to encourage and protect this right so that any minority is free from harm or intimidation in the exercise of its rights. In those cases where hate motivates any individual to assault or murder another because of his or her minority status, we must hold these individuals to account for their behavior. Ultimately, we as a democratic society will be judged on our willingness and ability to protect any minority of our citizenry. This law was enacted in the early 90's because crosses were being burned on people's lawns, anti-semitic signs were being painted on synagogues and homes, people were being beaten because of their race, religion, or sexual preferences. This law is only used by a jury after all the facts have been put before them. The committee feels this law should be kept on the books. Vote 19-0.

Rep. Bicknell spoke against and yielded to questions.

Rep. DeJoie spoke in favor.

Rep. Peter Sullivan requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted.

HB 290-FN, relative to participation in health savings accounts. **INEXPEDIENT TO LEGISLATE**
 Rep. Maurice L. Pilotte for Executive Departments and Administration: The committee heard testimony reminding us that federal law already allows this type of health savings account provided they include a high deductible (\$1,000.00 minimum). The committee has further concerns about the ability of the State of New Hampshire to introduce these accounts absent their inclusion in the state employee negotiated contracts. Vote 16-0.

Rep. Bergin moved Recommit to committee.

Adopted and recommitted to the Committee on Executive Departments and Administration.

HB 158, relative to the Auburn District Court. **OUGHT TO PASS WITH AMENDMENT**

Rep. Donald R. Buxton for Judiciary: The committee feels that the time has come to solve the Auburn Court location problem. The issue comes up in every legislative session and will not go away until addressed. The unanimous feeling was that the court needs to be more centrally located so that access to justice is available to all. The burdens on the small towns, along with transportation for the poor, becomes unreasonable. This bill will provide the opportunity to locate a district court that is accessible to the citizens of the district. Vote 21-0.

Amendment (0113h)

Amend the bill by replacing all after the enacting clause with the following:

1 Auburn District Court. Amend RSA 502-A:1, IV to read as follows:

IV. AUBURN DISTRICT. The Auburn district shall consist of the towns of Auburn, Candia, ~~and Deerfield, [Nottingham, Raymond, and Northwood]~~. The district court for the district shall be located in Auburn, holding sessions regularly therein and elsewhere in the district as justice may require. The name of the court shall be Auburn District Court.

2 New Paragraph; Raymond District Court. Amend RSA 502-A:1 by inserting after paragraph IV the following new paragraph:

IV-a. RAYMOND DISTRICT. The Raymond district shall consist of the towns of Raymond, Nottingham, and Northwood. The district court for the district shall be located in Raymond, holding sessions regularly therein and elsewhere in the district as justice may require. The name of the court shall be Raymond District Court.

3 Contingency. If the department of administrative services and the towns of Raymond, Nottingham, and Northwood reach an agreement on an acceptable courthouse facility and funding for a courthouse facility for the Raymond district on or before June 30, 2008, sections 1 and 2 of this act shall take effect July 1, 2008. If the department of administrative services and the towns of Raymond, Nottingham, and Northwood cannot reach an agreement on an acceptable courthouse facility and funding for a courthouse facility for the Raymond district on or before June 30, 2008, sections 1 and 2 of this act shall not take effect.

4 Effective Date.

I. Sections 1 and 2 of this act shall take effect as provided in section 3 of this act.

II. The remainder of this act shall take effect upon its passage.

AMENDED ANALYSIS

This bill divides the Auburn district court district into 2 districts, the Auburn district and the Raymond district, if certain conditions are met regarding a court facility for the Raymond district. Rep. Dokmo moved Recommit to committee.

Adopted and recommitted to the Committee on Judiciary.

SUSPENSION OF RULES

Reps. O'Neil and Craig moved that Rules be so far suspended so March 24, 2005 shall be the deadline for reporting and March 30, 2005 shall be the deadline for acting on the following House Bills: **HB 606-FN-A-L**, revising the calculation and distribution of education funding and special education funding.

HB 614-FN-A-L, providing for state funding of the statewide average education cost per pupil.

HB 616, revising the calculation and distribution of adequate education grants.

HB 635-FN-L, relative to education funding.

HB 646-FN-L, proposing a definition of an adequate education.

HB 650-FN-L, revising education funding and distribution and establishing needs-based matching grants.

HB 684-FN-L, relative to education funding and the distribution of targeted aid and transition education grants.

HB 690-FN, relative to medical services for children and pregnant women.

HB 691-FN-L, relative to the medicaid program.

The Governor's education bill, which is still being drafted.

Adopted by the necessary two-thirds vote.

SENATE MESSAGE**CONCURRENCE**

HB 135-FN-A, establishing a committee to study funding sources for the state laboratories and extending the appropriation to the department of corrections for the prison automation system.

ENROLLED BILL REPORT

The Committee on Enrolled Bills has examined and found correctly enrolled House Bill numbered **HB 135-FN-A**, establishing a committee to study funding sources for the state laboratories and extending the appropriation to the department of corrections for the prison automation system.

Rep. Currier, Sen. D'Allesandro for the Committee

RESOLUTION

Rep. O'Neil offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, February 23, 2005 at 1:00 p.m. Adopted.

LATE SESSION**Third reading and final passage**

HB 229, extending the committee to study the establishment of a farm viability program.

HB 153-FN, relative to the collection of debts owed to the state.

HB 259, relative to medical assistance for home care for children with severe disabilities.

HB 514, establishing the New Hampshire health care quality assurance commission.

HB 112, relative to psychiatric evaluations in competency hearings.

HB 60-FN-A, relative to reimbursement of legal fees of the commissioner of the department of administrative services and making an appropriation therefore.

HB 71-FN-A-L, relative to funding of the school building aid program for the 2005 fiscal year and making an appropriation therefore.

HB 102 FN-A, increasing the personal needs allowance of nursing home residents and certain other residents and making an appropriation therefore.

HB 240-FN, relative to psychotropic drugs and child protection.

RECESS MOTION

Rep. O'Neil moved that the House stand in recess for the purpose of introduction of bills, enrolled bill amendments, enrolled bill reports and receiving Senate messages only.

Adopted.

The House recessed at 12:10 p.m.

RECESS

(Rep. Weyler in the Chair)

RESOLUTION

Rep. Cataldo offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, Senate Bills numbered 12, 21, 65, 68, 74, 75, 76, 83, 91, 98, 105, 201 and 203 shall be by this resolution read a first and second time by the therein listed titles, and referred to the therein designated committees.

Adopted.

INTRODUCTION OF SENATE BILLS**First, second reading and referral**

SB 12, relative to contracts with non-profit public academies. (Education)

SB 21, relative to voluntary mediated agreements in adoptions. (Children and Family Law)

SCR 1, endorsing a farm viability task force. (Environment and Agriculture)

SCR 3, relative to the Boy Scouts of America. (Legislative Administration)

RECESS**(Speaker Scamman in the Chair)**

Rep. O'Neil moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 7

Wednesday, February 23, 2005

The House assembled at 1:00 p.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by Guest Chaplain, Dr. Allen Tomlinson, Pastor of the First Congregational Church in Merrimack.

We come before You, the Almighty and Sovereign Creator, the living God who has made heaven and earth. With King Nebuchadnezzar of old let us bless You, the most high God, and praise and honor You who live and reign forever. For Your dominion is an everlasting dominion, and Your kingdom is from generation to generation. All the inhabitants of the earth are reputed as nothing before Your infinity. You do according to Your will in the army of heaven and among the inhabitants of the earth. No one can restrain Your hand or call You to an account. All Your works are truth and Your ways justice. And You are able to put down those who walk in pride. So help us to humble ourselves before You, asking for Your mercy, for Your help, and for Your guidance this day.

We pray for Your mercy, because we fall far short both in our personal lives and in our public service. We often fail to accomplish those good things we desire, and we many times have broken Your good command for us to love one another, to love our neighbors as ourselves, to do to others as we would have others do to us. We struggle with selfishness as we are tempted to concentrate more on what is for our good or our pleasure instead of what is most to Your glory and best for humankind as a whole. Forgive us our shortcomings we pray, for the sake of Your only begotten Son, and renew within us a right, humble and selfless spirit by which we may serve You and others.

We also pray for Your help and guidance, for our understanding is finite and very narrow. Our solutions so often seem to fall far short of what is really needed. Bring us a keen awareness of our weaknesses, so that we will look to Your omniscience and to Your infinite goodness for the wisdom that we need to accomplish those tasks assigned to us, so that we might do them well.

Heavenly Father, I thank You for these women and men in this room who have committed themselves to serving the people of the state of New Hampshire. Please pour out on each one of them Your mercy, Your help, Your wisdom, Your spirit of justice and truth. Guide them by the revelation of Yourself that You have made to us in the person and word of Your holy son, Jesus Christ in whose name I pray. Amen.

Rep. Roland P. Hofemann led the Pledge of Allegiance.

The National Anthem was sung by Julie Dubela, an eighth grade student at Exeter Cooperative Middle School in Stratham.

LEAVES OF ABSENCE

Reps. Barry, Butynski, Desmarais, Foote, Mary Ellen Martin, Maybeck, Palangas and Robert Williams the day, illness..

Reps. Aboshar, Berube, Bleyler, Dexter, Domingo, Essex, Donald Flanders, Forsing, Giuda, Greco, Hollinger, Introne, Irwin, Klose, Lessard, Mason, Charles, McMahon, Oliver, Reeves, Tholl and Twombly, the day, important business.

Rep. Lefebvre, the day, illness in the family.

INTRODUCTION OF GUESTS

Jim Dubela, father of singer, guest of the House. Thierry Vankerk-Hoven, Consul General for the Consulate of France in Boston, guest of the House. Hon. Alf E. Jacobson, former member from New London and wife Sonja, guests of the House. Ben Holley and Sarah Foster, guests of Rep. Foose. Lindsey Suprenard and Young McWhinnie, guests of Rep. Ryan. Matt Senerchia, guest of Rep. Hilliard.

RESOLUTION

Reps. O'Neil and Craig offered the following:

RESOLVED, that the House of Representatives inform the Honorable Senate it is ready to meet in Joint Convention for the purpose of attending to an address by Chief Justice John T. Broderick, Jr. on the state of the Judiciary.

Adopted.

SENATE MESSAGE

The Senate is ready to meet with the Honorable House of Representatives in Joint Convention for the purpose of attending an address by, New Hampshire Supreme Court Chief Justice John T. Broderick, Jr., on the state of the Judiciary.

JOINT CONVENTION

(Speaker Scamman presiding)

The Sergeant-at-Arms introduced the Senate and Senate President, Thomas R. Eaton; Administrative Judge John R. Maher of the Probate Courts, Justice John A. Korbey representing the District Courts, Chief Justice Robert J. Lynn of the Superior Courts and Senior Marital Master Stephanie Nute. Associate Justices Joseph P. Nadeau, Linda S. Dalianis, James E. Duggan and Richard Galway of the Supreme Court and Chief Justice John T. Broderick, Jr.

STATE OF THE JUDICIARY ADDRESS

The Honorable Chief Justice John T. Broderick, Jr. addressed the Joint Convention on the state of the Judiciary.

Mr. Speaker, Mr. President, Governor Lynch, distinguished members of the House and Senate, leadership of the state bar, special guests and my judicial colleagues, it is a distinct privilege to be here today in this historic chamber, the people's house, to address a joint session of the New Hampshire Legislature on the State of the Judiciary. Few citizens and few public officials are given this opportunity and I am both grateful and honored to be with you. I also know your schedules are busy so I will not overstay my welcome.

Through the confidence and trust of others, I have the privilege to appear here today as the first Chief Justice appointed in the 21st century. I am very proud to lead the Judiciary in New Hampshire. I am particularly pleased to report to all of you today that the State of the Judiciary in New Hampshire is sound and open to real change. My colleagues and I are committed to a new day of dialogue, cooperation and openness with all of you. In fact, we look forward to it. Although we serve the people of New Hampshire in separate branches of state government, we have much in common. We all took the same oath. We serve the very same people. We are all committed to public service or we wouldn't be here, and however long we serve, our tenure is temporary. I have long admired those who sacrifice to serve in public life, I can assure you of that and I look forward to working closely with all of you in the years ahead so that justice and access to justice can be a reality for all of our citizens.

During this past year I have traveled over two thousand miles throughout New Hampshire (if you need a map I can give you one) and I visited all 46 court locations in our state containing 66 different courts. The overwhelming number of those facilities are first-rate and I want to thank you for recognizing the need for dignified courthouses in New Hampshire. You deserve much credit and you have my sincere thanks.

Everyday throughout our State hundreds of New Hampshire citizens and their families use our courthouses and courtrooms and everyday someone's life is profoundly changed in those rooms. It is important that that occur in a respectful and appropriate environment. I must confess that in my travels, I have visited a few court facilities that are not appropriate for the serious and important work they do but I have appreciated working with local officials, members of the House and Senate, as well as Commissioner Hill and his assistant, Peter Goodwin, and we are making real progress on the few remaining sites that need progress.

More importantly, during my visits to those 46 court locations, I have talked one-on-one to virtually all 591 people who work behind the counter. I've talked to almost all 56 full-time judges, 56 part-time judges and 13 marital masters. I commend them for their outstanding service to the people of New Hampshire and particularly thank them for their generosity in helping me to better understand the day-to-day challenges confronting our justice system. With the help of those people, I have gained more insight into the real world needs of the thousands and thousands of people who use our courts each year – and I can report to you that population is more diverse as each day passes. As a result of my visits, I have come to realize in new ways that the world beyond the walls of our courthouses is changing dramatically and that the courts, with your full assistance, must also undergo change to ensure that they remain accessible, affordable and responsive. I am more persuaded than ever that the status quo is not our friend. Be assured that my colleagues and I have

a vision for the future for the court system. But I also know the critical importance, both practically and constitutionally, of working with all of you to craft a common vision for the courts. The courts belong to the people of New Hampshire and you are privileged to be the representative voice of those people. It is my responsibility, my duty, therefore, to listen respectfully to your concerns and ideas and to listen carefully. My colleagues and I intend to do that.

The single biggest challenge confronting our courts is to accommodate the rising number of people and small businesses that cannot afford a lawyer to represent their interests or choose not to hire one. Our judicial system, which has admirably stood the test of time, is well designed for situations where all parties have lawyers they can afford and plenty of time to wait for the result. Let me report to you today that those days are rapidly disappearing.

In the District Courts in New Hampshire, in 85% of the civil cases, at least one party represents himself. In the Superior Court that number is somewhere in the mid-40 percentile. In the Supreme Court in 40% of the cases filed in the year just passed, at least one party was self-represented.

In the years ahead we will need to redesign the way our courthouses work to accommodate the obvious needs this growing trend suggests. It is my goal that we re-examine how we do business in the court houses and to make our courts more user-friendly and understandable. It's 2005, I think it's time. I'm looking for your help and the public's help in doing that. Next month I will announce the formation of a Citizens Committee on Justice in the 21st Century to take a comprehensive look at the administration of justice in New Hampshire. I have asked the Governor, the Speaker and the Senate President to appoint some of its members, and I will ask a non-lawyer citizen to Chair it. The judicial system, which was masterfully designed to administer justice, needs to be restructured to reflect today's needs. I am searching for new ways to meaningfully address the needs of the self-represented. We must constantly ask, we in the judicial system and you in this great hall, how much procedure inside our courthouses is essential and how much just adds expense to the ultimate resolution of the dispute. We must not make it unnecessarily difficult or expensive for people to find justice or for lawyers to represent those in search of justice. We need to make maximum use of technology in this new age and we need to drain as much unnecessary cost from the litigation process as we can. In my judgment as Chief Justice, the long-term viability of the court system depends upon it.

I am in search and my colleagues are in search of a new design, which reflects modern needs and responds to today's concerns. As part of this new design, my colleagues and I are interested in creating alternatives to trial by combat. As an old trial lawyer, I like trial, but they are too expensive for most and becoming more expensive all the time. We need to infuse our court system with new ways in which parties can choose to resolve disputes more efficiently, at lower cost and without having to appear before a judge, if that's their choice.

Under the direction of Administrative Judge John Maher, who is here today, the Probate Court has been a leader in the effective use of low-cost, paid mediation using professional mediators and we need to incorporate this technique for dispute resolution as an additional option for our citizens throughout our system.

One of the great strengths of our justice system here in New Hampshire and around America, is that we treat all cases the same; that's also one of our biggest weaknesses. People who come to our courts want someone to listen to them, they want their concerns validated and they want a thoughtful and fair resolution of the dispute that brought them there. All that can occur in many instances without ever appearing before a judge. I do not believe for a minute that when people walk into our courthouses, they say to themselves, "I cannot wait until the Supreme Court hears my appeal." I don't think that is the world we live in. Alternative dispute resolution will not only allow those to our courts a new alternative, it will make the system more understandable, and less expensive. We are presently designing a mediation system for small claims cases in the busiest district courts. While it will require a \$5.00 increase in the filing fee, which we hope you will approve this legislative session, it will prove in my judgment to be a very valuable investment for the people of our state. Last year alone there were more than 17,000 small claims cases filed across New Hampshire.

In addition to focusing on the needs of the self-represented, I am anxious to re-examine how the judicial system deals with divorce itself and family-related issues. The needs of New Hampshire's families are growing and the courts will need to be more thoughtful, resourceful and timely in addressing them. The family docket in this State is the largest non-criminal component of the entire judicial system and it will grow larger.

As you know, the Legislature voted last year, with the unanimous approval of the Court, to expand the Family Division, which now exists in two of our ten counties. This will occur over the next few years, under the exceptional stewardship of Administrative Judge Edwin Kelly and with the cooperation of our staff, our judges and our masters. I also want to commend my colleague, Justice Dalianis, who is here today, for the outstanding leadership she has shown in designing the new footprint for family cases in New Hampshire — a design that was created with legislative input. We will, if this comes to pass, for the first time, gather under one roof all these family cases and bind them in a common vision and a common mission. The goal is to ensure that family disputes are resolved effectively, with less acrimony, at less cost so that families affected can have a better shot at a successful result.

The Family Division represents the single biggest change. The single biggest change in my professional life and the footprint of the court. I want to commend the marital masters for their very important and difficult work. It's a tough job what they do. I want to particularly recognize Master Stephanie Nute, who is here today, for her leadership and dedication and assistance to me, and, of course, I would be remiss if I did not acknowledge the judges of the Districts Court and Family Courts who work tirelessly in your communities to help the lives of the citizens who live there. Finally, I would like to commend all of you in this House and in this Senate for the energy and perseverance you have shown in making the Family Division a reality. It was an idea that originated here, not across the road. We will need you to continue to work closely on its future and make needed adjustments as we go.

In my judgment we also need to fundamentally rethink how divorce is handled in our courts. Taking spouses and children in stress and forcing them into an adversarial system, with no other meaningful alternative, is neither economically sound, nor affordable, nor in my judgment socially beneficial. Every divorce is finally over and the children remain. I am committed, as are my colleagues, and as I know you are, to doing more for New Hampshire's families throughout the court system. And I respectfully suggest the time is now.

I am particularly concerned about the needs of children across the board and whether the courts are meeting those needs. I have proposed a Joint Commission (the legislative, the executive and the judicial branches) to Study the Needs of Children in the Judicial System and to see whether we are fulfilling those needs. I've mentioned it to the Speaker, the Senate President and to Governor Lynch and I'm hopeful that it will happen. It will, in my judgment, pay dividends for the least powerful and the most in need.

In January of last year, Associate Justice Robert Lynn, who is here today, was appointed Chief Justice of the Superior Court. I can report to you that he is doing an outstanding job and I benefit each day from his counsel and his help. He is intent upon improving the operations of the Superior Court, which has a long and distinguished history and a very important future. He has introduced individualized docketing in the Superior Court so the cases when they are filed are aggregated and delivered to a single judge who is responsible for the welfare of those cases from start to finish. It increases service, management and accountability, which the people of this state have a right to expect. Chief Justice Lynn is also intent to establish uniformity of practice at all Superior Court locations. Indeed, a new case management system, which all of you made possible, will be introduced into every trial court beginning later this year, and with the additional help of our phenomenal staff, uniformity system-wide and increased services will be the watchwords system-wide.

As many of you may know, the Supreme Court has just completed its first year accepting virtually every case that's filed. Our staff has been extraordinary in helping us make the change from a 25-year-old system where we took many fewer cases. The change, in my judgment, has been worth the effort and the doors of the Supreme Court are open wider than they have been in a generation and I believe the public of our state has been well served.

Foremost among my goals when I was privileged to assume this job in June, was to unify the judicial system in fact, not just in name. It is essential for our business and for our communications with this legislature, that we speak with one voice whenever possible after examining different points of view. Because of the cooperation and collaboration of Judges Lynn, Maher and Kelly and the support of the judges and the masters throughout our system, and particularly my colleagues on the Supreme Court, we have made great progress. We're not there yet, but we are gaining on it. I am confident that the Judicial Branch of government is embracing change with enthusiasm and that we will make the necessary transition, with your help, to continue to meet the responsibilities we have, to have a justice system open enough, thoughtful enough and competent enough to deal responsibly, efficiently and fairly with the realities of a new century.

Over the past year my colleagues and I have spoken many times to the leadership of the House and Senate, Democrat and Republican alike. Those exchanges have been informal, respectful, open

and productive. Governor Lynch has also extended to me and to my colleagues and to the system of justice, an open hand and an open mind. My colleagues and I are committed to a new day and a new spirit of cooperation, trust and mutual respect. We are confident we can achieve it, and we have made a good beginning.

Courts, courts like mine, are rarely popular and never perfect, I know that – that's American history. But we, like you, are indispensable to our constitutional form of government. We cannot, however, continue to fulfill our duties without needed change in the system we oversee and strong legislative support.

While the courts should never surrender or compromise their constitutional obligations to gain favor, neither should we see openness, transparency and cooperation as inconsistent with our independence. I can assure you that my colleagues and I do not.

We long for a relationship with the other branches of government that transcends the perceived wisdom of our latest opinion and that allows all of you a renewed confidence in the administration of justice. I can assure you that we will continue to work tirelessly to achieve that but we will need your help and counsel. We will readily accept both.

I am privileged to sit each day at a desk occupied for many years by former Chief Justice Frank Kenison in a building rightly named in his memory. He served as Chief Justice of New Hampshire from 1952 to 1977. As many of you know he was a revered figure across our state and across our nation. He possessed a dignity, an ease and a balance that served the justice system and the people of New Hampshire well. He had good and trusted friends in this chamber and in this government and his word was bond.

My colleagues and I are in search of the path he so ably cut and we will need your help and your assistance to find it and tend it as we begin the 21st Century. I am confident we will have it. Thank you for the honor to be here. It's a very high privilege. Thank you very much.

Rep. O'Neil and Sen. Clegg moved that the Joint Convention arise.

Adopted.

The Joint Convention adjourned.

HOUSE SESSION

(Speaker Scamman in the Chair)

The Speaker reconvened the House.

MEMORIAL REMARKS

Rep. Craig moved that the remarks of Rep. John R. M. Alger and Speaker Scamman be printed in the Permanent Journal.

Adopted.

Rep. Alger: Mr. Speaker, honorable members, we heard this week the shocking news of the unfortunate skiing accident in which the Honorable Harold Melcher was killed. I have the honor and high privilege of speaking in support of his background as a state representative. Harold Melcher was a state representative for a number of years on the Environment and Agriculture Committee. When I first came to this House 1997-1998, I was assigned, as I requested, to that committee. Hal was an apple farmer and a teacher. I always got a kick out of that because an apple farmer, to make clean and good apples, has to use a spray on them. A lot of people don't like to use sprays, and he, of course, didn't like to any more than he had to. We had a lot of fun with that versus some others who wanted to go organic.

He was a strong proponent of agriculture. We had the right-to-farm bill, you know, "I built a farm 200 years ago and now people move in and they are trying to say the noise and smell, and so forth, you should leave." We had the hybrid tree bill in which they wanted us to treat trees as a farm crop. They only grew 10 years rather than as tree crops to avoid this tree tax and we had an interesting time with that.

We worked together on a number of bills. I grew to love the guy, except he was a Democrat. But he was a great Democrat. He was a Republican in Massachusetts and he told me, "John, you ought to love the income tax because nobody will come up here then, and it wouldn't fill up our places and make it so difficult with housing."

When I left E&A for Education, he called me up and said, "John, how can you do that? We have other things to work on together." I still feel badly about that.

I kept in touch with him from time to time. We talked about farm issues. All in all, he was an outstanding state representative, in my view. So, for his wife and his family I wish them the best and have the sincere and solid knowledge that Hal, father and husband, was a great and outstanding legislator for this House. Thank you very much.

MEMORIAL REMARKS

Speaker Scamman: This week we were also saddened with the news of the passing of another former House member, Bill Kidder from New London. I am particularly saddened because once again I have lost a close, personal friend. We served together in the 70's on the House Appropriations Committee where we got to know each other very well. His native wisdom and his gentle touch served us well and later contributed greatly to the crafting of the state budget after I was elected Speaker. Bill led by example and I can still hear him say, "We've got to do the right thing here." Whether he had stopped to pick up a piece of paper off the floor, or insisted on adequate funding for a needy cause, he led by example.

Bill was a charter member of our weekly legislative group who would hash over the issues of the day as they played their friendly game of cards. Again, his wisdom and wonderful sense of humor was appreciated.

He served in the European theater during World War II under General Patton and he loved his country. After the war, Bill returned home to New London where he served as Town Clerk for 40 years. He was a man who gave so much to his church, his community and his beloved University of New Hampshire. Bill lost a piece of his heart in 1994 when his wife of 57 years, Harriet, fondly known as "Petey," passed away. I am sure that they have been reunited once again.

Our thoughts and prayers go out to his family, his son, David who is a freshman legislator this year, to his four grandsons of whom he was so proud and his two daughters-in-law. Please join me for a moment of silence for former Representative. Bill Kidder, a great legislator and a true friend of New Hampshire.

COMMITTEE REPORTS CONSENT CALENDAR

Rep. O'Neil moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 227, relative to undeclared voters at primary elections, removed by Rep. Vaillancourt.

HB 277, relative to special elections for executive councilor, state senator, and state representative, removed by Rep. Whalley.

HB 260-FN, relative to motor vehicle equipment and registration, removed by Rep. Pepino.

HB 461-FN, establishing number plates supporting New Hampshire public higher education, removed by Rep. Francis Sullivan.

Consent Calendar adopted.

HB 313-FN, relative to registration of business entities. **OUGHT TO PASS**

Rep. Stephen B. Stepanek for Commerce: Last session a number of housekeeping measures were enacted related to registration of corporations. Also, fees were adjusted to properly cover the costs incurred by the Secretary of State in the registration of corporations. This bill makes the same changes and fee adjustments for limited liability corporations. Vote 18-0.

Referred to Ways and Means.

HB 128-FN, relative to reckless or negligent operation of a carnival or amusement ride. **OUGHT TO PASS WITH AMENDMENT**

Rep. George D. Winchell for Criminal Justice and Public Safety: This bill specifically deals with the negligent operation of a carnival, or amusement ride in a manner that places or may place a bystander or passenger in danger of bodily injury. The committee heard testimony of instances where ride operators became distracted while operating these rides and the committee was unanimous in its opinion that there need to be safeguards in place. There was no testimony in opposition to this bill. Vote 16-0.

Amendment (0247h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to negligent operation of a carnival or amusement ride.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Negligent Operation of a Carnival Ride or Amusement Ride. Amend RSA 631 by inserting after section 3-a the following new section:

631:3-b Negligent Operation of a Carnival Ride or Amusement Ride.

I. A person engages in negligent operation of a carnival ride or amusement ride if such person, or such person's employee or agent:

(a) Negligently operates such ride in a manner that places or may place a bystander or passenger in danger of bodily injury; or

(b) Negligently fails to enforce established manufacturers' guidelines for safe operation of such ride; or

I Operates such ride while impaired by intoxicating liquor or a controlled drug. A person operating such ride who is under the age of 21 with a blood alcohol content of .02 percent or more shall constitute prima facie evidence of impairment. A person operating such ride who is 21 years of age or older with a blood alcohol content of .04 percent or more shall constitute prima facie evidence of impairment.

II. Any person who refuses to submit to a blood or breath test, upon request of a law enforcement officer or an employee of the department of safety authorized to enforce carnival and amusement ride regulations who has reasonable suspicion that the operator is impaired, shall be guilty of a violation. Any person who violates any other provision of this section shall be guilty of a misdemeanor if no bodily injury results and guilty of a class B felony if bodily injury to any other person results.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes penalties for negligent operation of a carnival ride or amusement ride.

HB 204-FN, relative to unauthorized video surveillance. **OUGHT TO PASS WITH AMENDMENT**
Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill adds "the interior of one's dwelling" to RSA 644:9, II which deals with violation of privacy. Specifically, this adds the aforementioned words to the definition of "private place" as currently contained in the statute. Testimony was presented that some judges do not consider one's dwelling as being a private place because the legislature did not include it in the definition. This addition will clarify our intent that one's dwelling is a private place. Vote 13-3.

Amendment (0237h)

Amend RSA 644:9, II as inserted by section 1 of the bill by replacing it with the following:

II. As used in this section, "private place" means a place where one may reasonably expect to be safe from surveillance including public restrooms, locker rooms, *the interior of one's dwelling place*, or any place where a person's private body parts including genitalia, buttocks, or female breasts may be exposed.

HB 439, relative to registration requirements for criminal offenders. **OUGHT TO PASS WITH AMENDMENT**

Rep. William V. Knowles for Criminal Justice and Public Safety: During the last session, the House passed legislation requiring people charged with sex crimes who were found not guilty by reason of insanity to register as sex offenders. The Senate made a slight change in a definition which the House agreed to, but we were unaware the important text of the bill was eliminated. This bill is an attempt to get everything right this time. Vote 15-0.

Amendment (0286h)

Amend RSA 651-B:6, II as inserted by section 6 of the bill by replacing it with the following:

II. Any sexual offender [~~convicted~~] **required to register as a result** of a violation or attempted violation of RSA 632A:4, I(a) or RSA 645:1, II, and any offender against children [~~convicted~~] **required to register as a result** of a violation or attempted violation of RSA 633:3 or 645:2, I, or of an equivalent offense in an out-of-state jurisdiction, shall be registered for a 10-year period from the date of release [~~following conviction~~], provided that any such registration period shall not run concurrently with any registration period resulting from a subsequent [~~conviction~~] **violation or attempted violation of an offense for which the person is required to register.**

Amend RSA 651-B:7, II (a)(3) as inserted by section 7 of the bill by replacing it with the following:

(3) RSA 632-A:3, II, provided that the age difference between the convicted individual and the victim was more than 3 years at the time of the offense.

HB 127, establishing a committee to study the creation of a satellite campus of the regional community-technical college system in the city of Franklin. **INEXPEDIENT TO LEGISLATE**
Rep. Timothy E. Easson for Education: While the committee agrees that a satellite campus in Franklin is a laudable goal, the prime sponsor indicated that the intent of the bill can be achieved without legislation. Vote 20-0.

HB 150, defining truancy. **OUGHT TO PASS WITH AMENDMENT**

Rep. Clair A. Snyder for Education: This bill is a request from the Department of Education to create a uniform definition of truancy state wide, which is required in reporting under the No Child Left Behind Act. "Truancy" means unexcused absence from school or class and "unexcused absence" is an absence without parental or administrative permission. Vote 18-0.

Amendment (0052h)

Amend RSA 189:35-a, II as inserted by section I of the bill by replacing it with the following:

II. Twenty half days of unexcused absence during a school year shall constitute habitual truancy.

Amend the bill by replacing section 2 with the following:

2 Effective Date. This act shall take effect July 1, 2005.

HB 241-FN-L, relative to removal of political advertising. **INEXPEDIENT TO LEGISLATE**

Rep. Sandra J. Reeves for Election Law: The bill sought to amend RSA 664:17 regarding placement and removal of political advertising on public property so as to create certain rights to the abutters of such public property and further to assess a fine to the candidate or its fiscal agent provided affirmative notice is given in advance as to the illegal placement of political signs and further provided the enforcement officer has affirmative evidence as to the property boundaries. The committee felt the intent of the current RSA was already clear and that this amendment would create more controversy than it would eliminate. Additional burden to the state, city or town would not be in the public interest. Vote 14-0.

HB 402, relative to filling certain vacancies in multi-member representative districts. **INEXPEDIENT TO LEGISLATE**

Rep. Keith D. Hirschmann for Election Law: Elected representation remains the constant to delivering representation to our constituents. Special elections may impose a financial burden on the affected communities but this committee did not believe that filling a vacancy with the candidate receiving the next highest vote total would be appropriate. Elective representation won over cost savings. Vote 14-0.

HB 516, relative to general qualifications for elective office. **INEXPEDIENT TO LEGISLATE**

Rep. Keith D. Hirschmann for Election Law: This bill modifies the law requiring persons holding elective office in the state to be citizens of the United States. The committee felt that the existing RSA 655:1, dealing with citizenship is clean and concise without adding verbiage to state the obvious. U.S. citizenship requirements, by birth right or naturalization, to hold public office are clear. The sponsor added residency which is addressed in other sections of the law. Thus the conclusion of the committee is this change is unnecessary. Vote 14-0.

HB 319-FN-L, requiring the department of environmental services to arbitrate certain disputes between municipalities. **INEXPEDIENT TO LEGISLATE**

Rep. Judson K. Dexter for Executive Departments and Administration: While the committee understands the current problems with resolving disputes between municipalities, we do not believe this to be the right vehicle. Additionally, the Department of Environmental Services clearly stated that they are not trained in mediation/arbitration and question how effective this would be. The sponsor felt that since this is the first time this type of legislation has come forward, it was clear that additional study was needed to develop the final form. Vote 14-0.

HB 434-FN, requiring state agencies using automated answering systems to provide a method of access to a human being. **OUGHT TO PASS**

Rep. Hector M. Velez for Executive Departments and Administration: This bill requires state agencies that use automated answering systems to provide a method of access to a human being during the agency's business hours. The committee believes this bill allows residents of this state the right to access their government in a timely fashion without being on hold for a long period of time. Presently, there are several state agencies that do not have the capability to provide this service. However, this bill will require all state agencies to have a live person available to access phone calls. Vote 15-1.

HB 464, relative to the construction of a substance abuse treatment facility in Unity, New Hampshire. **INEXPEDIENT TO LEGISLATE**

Rep. Charlotte Houde-Quimby for Executive Departments and Administration: This bill seeks to preempt potential hurdles to the building of a "for-profit" substance treatment facility on county owned land. The committee felt that it is entirely within the purview of the county management to proceed with planning for such a facility with input from county commissioners and the county delegation and in collaboration with town officials. Vote 14-0.

HB 472, relative to the definition of recreational program. **OUGHT TO PASS WITH AMENDMENT**
Rep. Ken Hawkins for Executive Departments and Administration: The committee heard testimony that the Department of Health and Human Services was requiring day care licensing for some recreational programs in towns, churches, etc. that the department had to do under current RSA's. The committee felt that municipalities, YMCA's, Boys & Girls Clubs, churches, etc. should be able to offer programs without being licensed for day care. Vote 16-0.

Amendment (0298h)

Amend RSA 170-E:2, XI-a as inserted by section 1 of the bill by replacing it with the following:

XI-a. "Recreational program" means any before and/or after school, vacation, or summer youth program for children 6 years of age or older offered by:

(a) A municipality; or

(b) A school or church group, the Boys and Girls Clubs of America, Girls, Incorporated, the YMCA, or the YWCA, provided that the program does not operate in a private home, notifies parents or guardians that the program is not subject to licensure under RSA 170-E:4, has policies and procedures to address the filing of grievances by parents and guardians, and is a member in good standing and in compliance with the national organization's minimum standards and procedures.

HB 701-FN, establishing a citizen complaint review commission. **INEXPEDIENT TO LEGISLATE**
Rep. James B. Coburn for Executive Departments and Administration: This bill establishes a citizen complaint review commission to review and investigate citizen complaints regarding actions by agencies of the State of New Hampshire. Each county would elect a member of the commission at the general election beginning with the November, 2006 general election. While the committee appreciates the efforts of the sponsor to bring a solution forward, after hearing the testimony and discussion, the committee felt that resolution belongs at the agency level. Vote 18-0.

HB 474, establishing a commission to study the accessible housing needs and available financial assistance resources for individuals with disabilities. **INEXPEDIENT TO LEGISLATE**

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: The committee felt that the goals and duties of this bill are credible and timely. There was no opposition to the need for study of the housing needs for individuals with disabilities. The vast majority favored an approach that would allow for the study to begin now, rather than wait for the legislative process that could take several months. The committee recommended a study committee operating under the authority of the Oversight Committee on Health and Human Services. That would give the committee credibility based on the authority and resources of the Oversight Committee. The committee was nearly unanimous in its support for this approach. Vote 12-1.

HB 488, establishing a task force on mental health costs. **OUGHT TO PASS WITH AMENDMENT**
Rep. Fran Wendelboe for Health, Human Services and Elderly Affairs: This bill establishes a task force to study the costs incurred by mental illness as it relates to all areas of state services. The task force will study the cost impact of mental illness, including drug and alcohol addiction, on the budgets of health, corrections, law enforcement, prosecution, public defender, education, and alcohol and drug programs. The study will allow state agencies and other interested parties to talk with one another, compare costs, and find more effective ways to spend budget dollars. The task force report will provide valuable guidance for future legislation. Vote 16-0.

Amendment (0262h)

Amend the bill by replacing section 2 with the following:

2 Membership and Compensation.

1. The members of the task force shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

I The administrative justice of the district courts, or designee.

(d) A probation and parole officer, appointed by the commissioner of the department of corrections.

(e) An administrator of a nursing home, appointed by the governor.

(f) The commissioner of the department of education, or designee.

(g) The commissioner of the department of corrections, or designee.

(h) The commissioner of the department of health and human services, or designee.

(i) The attorney general, or designee.

(j) The executive director of the governor's commission on disability, or designee.

(k) The executive director of the governor's council on drug and alcohol abuse, or designee.

(l) A public defender, appointed by the judicial council.

(m) The President of the New Hampshire Association of Chiefs of Police, or designee.

II. The task force shall solicit information from any person or entity the task force deems relevant to its study.

III. Legislative members of the task force shall receive mileage at the legislative rate when attending to the duties of the task force.

HB 492, relative to health standards for food service handlers. **INEXPEDIENT TO LEGISLATE**
Rep. James R. MacKay for Health, Human Services and Elderly Affairs: No one spoke in support of this bill. This bill appears to contain an unfunded mandate under New Hampshire law. In addition, the bill was opposed by the New Hampshire Lodging and Restaurant Association. Specifically, the bill requires food service workers to be tested for hepatitis. New Hampshire generally has a low level of incidence of hepatitis. It was felt that a public health approach including education and training would be more appropriate. Vote 13-0.

HB 155, relative to bail conditions. **INEXPEDIENT TO LEGISLATE**

Rep. Richard W. Morris for Judiciary: A recent Supreme Court decision (*State v Kidder*) raised several issues relative to the ability of counsel for the defendant to directly contact a victim or opposing party in certain cases. There have been three bills filed with the legislature this year to address this issue. HB 155, which deals with conditions of bail, is one of these bills. The committee feels this issue should be addressed in other legislation on this matter which is currently before the committee on Criminal Justice and Public Safety. Vote 20-1.

HB 452, relative to champerty in actions to quiet title and to extinguish mineral rights. **INEXPEDIENT TO LEGISLATE**

Rep. Gregory M. Sorg for Judiciary: This bill would amend RSA 498:5-a by allowing a person with no claim of title to or interest in real or personal property, whose ownership is disputed, to aid in or carry on litigation to establish its ownership in exchange for a share of the property or its value. The class of persons authorized by the statute to litigate such claims is already broad. The committee saw no reason to enlarge this class by inviting strangers to initiate or carry on litigation on behalf of potential claimants who do not care to do so themselves. Vote 18-1.

HB 694-FN, relative to interference with service of process. **INEXPEDIENT TO LEGISLATE**

Rep. Gregory M. Sorg for Judiciary: This bill would subject persons having nothing to do with the litigation concerned to criminal contempt for failing to cooperate to the satisfaction of process servers in locating the persons to be served. It fails to define with specificity the elements of the offense of "interference with service of process". It places the burden upon the persons charged to prove their innocence. It punishes by contempt of court behavior that neither occurred in the presence of a judge nor violated a court order. The committee was not unsympathetic to the sponsor's objective of streamlining the administration of justice, but concluded that until these deficiencies could be overcome, process servers will have to continue to rely upon their resourcefulness in difficult cases. Vote 17-0.

HB 43, clarifying the penalty provision of the law relative to lobbyists. **OUGHT TO PASS WITH AMENDMENT**

Rep. Michael S. Rollo for Legislative Administration: This bill with its amendment repeals the penalties for state employees appearing and testifying before a legislative committee without wearing their name tags. The amendment moves the citation for this paragraph from RSA 15:5, relative to lobbyists, to RSA 98-F: 1, relative to state employees. Vote 10-0.

Amendment (0148h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to state employees appearing before the legislature.

Amend the bill by replacing all after the enacting clause with the following:

1 New Chapter; State Employee Appearances Before the Legislature. Amend RSA by inserting after chapter 98-E the following new chapter:

CHAPTER 98-F**STATE EMPLOYEE APPEARANCES BEFORE THE LEGISLATURE**

98-F:1 State employees appearing in their official capacity before any legislative meeting or hearing for the purpose of promoting or opposing directly or indirectly any legislation pending or proposed before the general court shall wear their employee identification badges.

2 Repeal. RSA 15:2-a, III, relative to state employees appearing before the legislature, is repealed.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill requires state employees who appear before the legislature to wear their employee identification badges.

HB 182, establishing a committee to study campaign contributions and lobbying practices. IN-EXPEDIENT TO LEGISLATE

Rep. Paul C. Smith for Legislative Administration: The bill attempted to create a study committee to study the issue of campaign contributions and lobbying. The question arose as to whether the topic was too broad. The sponsor expressed a willingness to have the issue studied with regard to other issues. Given the plethora of bills before other committees with more specific language, the committee felt that there are more prudent avenues we can follow to achieve the same goals. Vote 10-0.

HB 213, relative to nomination of officers in the house of representatives. INEXPEDIENT TO LEGISLATE

Rep. Elbert I. Bicknell for Legislative Administration: This bill would require that the nomination of a majority leader for the New Hampshire House be by the members of that majority party and then approved by the Speaker. The sponsor of this bill requested that the committee ITL as he will attempt to go through other channels to accomplish what is proposed in this bill. The committee as a whole complied with his request. Vote 10-0.

HB 45, relative to combining water department funds and sewer department funds. INEXPEDIENT TO LEGISLATE

Rep. Robert L. Theberge for Municipal and County Government: Current statute requires that water fees and sewer user fees are to be kept as separate and distinct funds to ensure the fiscal ability to independently operate, maintain and replace water and sewer infrastructure and to ensure that the funds are dedicated to their separate purposes. The statute also reflects the preferred standard industry practice so that either the water or sewer operations are allocated proportionate to service. Although enabling, the committee believes that if the practice was changed to allow the commingling of funds then some rates could become distorted relative to actual user costs by expenditures skewed towards one type of user. It was also noted that the proposed bill did not specify which governing body – water or sewer commission – would have final control of the commingled funds. There was a question about how federal grant money, if applied for, could be affected if the funds were commingled. The committee felt there were enough uncertainties about the proposal, even though enabling or possibly just for one town, that a change such as this was not appropriate. Vote 14-1.

HB 52, allowing municipalities to grant an additional exemption amount to disabled persons for their dependent children. INEXPEDIENT TO LEGISLATE

Rep. Harry Gale for Municipal and County Government: This bill is requesting an additional \$1000.00 exemption for the disabled taxpayer for each dependent child. The statutes regarding exemptions put the local community in charge of what income and asset levels will be allowed. The governing body in the municipalities also has the flexibility to give local property tax abatements for "just cause" determined by the governing body. The committee believes that the local community can already address this issue by voting to increase the income and asset level if they choose. Vote 13-0.

HB 144-L, relative to special elections for municipal charter amendments. **OUGHT TO PASS WITH AMENDMENT**

Rep. Paul R. Hopfgarten for Municipal and County Government: This bill extends the time period to place amendments to a municipal charter to no more than 365 days after the municipal officials order such placed on the ballot. This allows for charter amendments to be voted on at the next annual municipal election, thus preventing the necessity of a special election during the year. Special elections have historically smaller turnouts, thus not allowing for a greater number of the electorate to vote on these important changes to the charter. Additionally, there is a cost to the municipality in holding a special election. These costs can be avoided by having the amendment voted on at a regular municipal election. Vote 13-0.

Amendment (0022h)

Amend the bill by replacing section 1 with the following:

1 Municipal Charter Amendment Procedures. Amend RSA 49-B:5, IVI to read as follows:

1 Within 7 days after the hearing, the municipal officers shall order the proposed amendment to be placed on the ballot at the next regular municipal election or, in the case of municipalities with biennial elections, at the next regular municipal election or, in the case of municipalities with biennial elections, at the next regular state biennial election, if such election is held not less than 60 days nor more than ~~[+80]~~ 365 days thereafter. Otherwise, the municipal officers shall order a special election to be held not less than 60 days ~~[nor more than 90 days]~~ from the date of the order for the purpose of voting on the proposed amendments.

AMENDED ANALYSIS

This bill allows greater discretion for a chartered municipality to call a special election.

HB 198, allowing municipalities to adopt a property tax credit for persons aged 65 and older calculated by freezing their property assessments. **INEXPEDIENT TO LEGISLATE**

Rep. Eric G. Stohl for Municipal and County Government: Currently the present law allows municipalities to grant property tax exemptions up to and including 100% of their property tax based on income level and age. The committee heard testimony on this bill which wished to freeze an owner's property assessments if that person was 65 years old or older. A further stipulation in the bill required that the owner shall have resided for at least 20 years at that residence. Once the assessed value is frozen, there can not be any further increase in the assessed value passed on to the owner. The municipality is to continue to update and report the true assessed value, therefore creating a tax exemption to the property owner for the difference. The committee feels that this bill is not needed due to the fact that municipalities are allowed to grant an elderly exemption for this age class of taxpayers already. Vote 13-1.

HB 236, relative to the time for filing a motion to rehear a zoning decision. **OUGHT TO PASS**

Rep. Peter Schmidt for Municipal and County Government: This bill addresses the disparity between the treatment of motions to rehear a zoning decision and the general practices under state law. Specifically, the general rule of the state excludes the date of a decision from calculation of the period for filing a motion to rehear. This bill conforms zoning decision motions to the general state rule. Vote 13-0.

HB 265, relative to minutes of land use board meetings involving developments of regional impact. **OUGHT TO PASS**

Rep. Nancy K. Johnson for Municipal and County Government: This bill increases the amount of time from 72 hours to 144 hours following a decision on a development of regional impact to provide plans and minutes to the regional planning commission and other affected communities. This would make the minutes of land use board meetings of regional impact consistent with other land use times. Vote 17-0.

HB 266, relative to the procedure for dismissal or suspension of a police chief. **OUGHT TO PASS**

Rep. Eric G. Stohl for Municipal and County Government: This bill simply lengthens the period of time within which a police chief who is dismissed or suspended by a municipality may request a superior court hearing on the merits of the case. Presently, the law allows only 10 days for a police chief to petition the court for a hearing. This bill changes the time frame from 10 days to 45 days. Due to the limited number of attorneys that specialize in these issues, the 10 day period

created a hardship in obtaining legal counsel; especially due to the fact that a weekend is included within this time. An additional benefit to this expansion is allowing the superior court more time to move cases around to accommodate their busy schedules. The bill also provides language to make the law gender neutral. Vote 17-0.

HB 263, relative to the use of design build and construction management methods for state capital projects. **OUGHT TO PASS WITH AMENDMENT**

Rep. James B. Rausch for Public Works and Highways: This bill clarifies existing law by defining "design" build as a method of contracting utilizing the professional services of a single entity designer/builder who is responsible for the design and construction of a project. The bill further adds construction management to existing law and defines construction management as a method of contracting where the state engages the services of a contractor to work with an architect, or engineer. The contractor assumes risk for construction and is required to provide design consultation including valuation of costs, schedules, alternative design, systems and materials. The amendment allows for the statewide transportation improvement projects using the design build concept to be expanded from "not to exceed \$1,000,000" to "not to exceed \$5,000,000.00." Vote 14-0.

Amendment (0266h)

Amend the bill by inserting after section 2 the following and renumbering the original sections 3 and 4 to read as 4 and 5, respectively:

3 Major Capital Projects; Transportation Improvement Projects. Amend RSA 228:4, I(g) to read as follows:

(g) Statewide transportation improvement program projects with a cost not to exceed [~~\$1,000,000 and which are related to transportation enhancement, congestion mitigation and air quality, or intelligent transportation systems;~~] **\$5,000,000** may be developed and constructed utilizing the design build concept based on a request for proposal, provided that selection is based on an objective standard and measurable criteria for evaluation of the proposals. The commissioner shall report the results of any statewide transportation improvement program project using the design build concept to the capital budget overview committee within 90 days after the completion of the project.

AMENDED ANALYSIS

This bill defines the design build and construction management methods for state major capital projects and establishes procedures for their use. The bill also increases the cost amount for transportation improvement projects eligible for design build.

HB 528-FN-L, relative to acquisitions of state surplus real property by municipalities. **INEXPEDIENT TO LEGISLATE**

Rep. David B. Campbell for Public Works and Highways: The committee unanimously felt that the proposed legislation would unwisely reduce state highway and general funds by eliminating the state's ability to realize revenue through the fair market value sale of surplus property owned by the state of New Hampshire. Vote 17-0.

HB 559-FN, establishing a preference for New Hampshire vendors in state procurement contracts. **INEXPEDIENT TO LEGISLATE**

Rep. John R. Cloutier for Public Works and Highways: This bill would establish a state procurement preference for purchases of materials, equipment, supplies and services by the director of the division of plant and property management. At the request of both the bill's sponsors, the committee voted to recommend ITL because of concerns from the state Attorney General's office that its passage might interfere with a present court case. Also, there were parts of bill as now written that would be in violation of federal immigration laws. Other than the sponsors, there was no one else at the hearing to testify either for or against the bill. Vote 14-0.

HB 47, regulating the use of computer spyware. **OUGHT TO PASS WITH AMENDMENT**

Rep. James M. Garrity for Science, Technology and Energy: This bill provides that using spy ware or other similar computer programs to knowingly alter, take control of, or damage a consumer's computer or internet access, will be a violation of the Consumer Protection Act under the provisions of RSA 358-A and 359-G:2. Vote 15-0.

Amendment (0219h)

Amend the bill by replacing all after the enacting clause with the following:

I New Chapter; Computer Spyware. Amend RSA by inserting after chapter 359-F the following new chapter:

**CHAPTER 359-G
COMPUTER SPYWARE**

359-G:1 Definitions. In this chapter:

I. "Advertisement" means a communication, the primary purpose of which is the commercial promotion of a commercial product or service, including content on an Internet website operated for a commercial purpose.

II. "Authorized user" means a consumer who owns or is permitted to use a computer.

III. "Computer program" means a set of statements or instructions to be used directly or indirectly in a computer in order to bring about a certain result.

IV.(a) "Spyware" means software residing on a computer that:

(1) Employs a user's Internet connection in the background, via a backchannel, without his or her knowledge or explicit permission.

(2) Sends information about the computer's usage to a remote computer or server; or displays or causes to be displayed an advertisement in response to the computer's usage.

(3) Sends or causes to be sent personal information residing on the computer to a remote computer or server.

(b) Notwithstanding subparagraph (a), "spyware" does not include any of the following:

(1) Software designed and installed primarily to prevent, diagnose, or resolve technical difficulties, to protect the security of the user's computer, or to detect or prevent fraudulent activities.

(2) Software or data that solely report to an Internet website information previously stored by the Internet website on the user's computer, including cookies, HTML code, or Java Scripts.

(3) Software that provides the user with the capability to search the Internet.

(4) Software installed with the consent of an authorized user whose primary purpose is to prevent access to Internet content that is inappropriate for minors.

(5) An operating system.

V. "Usage" means:

(a) The Internet websites accessed by a user.

(b) The contents or characteristics of the Internet websites accessed by a user.

I A user's personal information, including:

(1) A first and last name of a user, whether given at birth or adoption, assumed, or legally changed.

(2) Any of the following with respect to a user's home or other physical address: the street name, the name of the city or town, or the zip code.

(3) An electronic mail address.

(4) A telephone number.

(5) A Social Security number.

(6) Any personal identification number.

(7) A credit card number.

(8) Any access code associated with a credit card.

(9) A date of birth, birth certificate number, or place of birth.

(10) A password or access code.

(d) A user's submission to forms or Internet websites.

359-G:2 Prohibited Conduct. A person or entity conducting business in this state, who is not an authorized user, shall not knowingly cause a computer program or spyware to be copied onto the computer of a consumer and use the program or spyware to do any of the following:

I. Take control, through intentionally deceptive means, of the consumer's computer by doing any of the following:

(a) Transmitting or relaying commercial electronic mail or a computer virus from the consumer's computer, where the transmission or relaying is initiated by a person other than an authorized user and without the authorization of an authorized user.

(b) Accessing or using the consumer's modem or Internet service for the purpose of causing damage to the consumer's computer or causing an authorized user to incur unauthorized financial charges.

I Using the consumer's computer as part of an activity performed by a group of computers for the purpose of causing damage to another computer, including launching a denial of service attack.

(d) Opening multiple, sequential, stand-alone advertisements in the consumer's Internet browser with knowledge that a reasonable computer user cannot close the advertisements without turning off the computer or closing the consumer's Internet browser.

II. Modifying, through intentionally deceptive means, any of the following settings related to the computer's access to, or use of, the Internet:

(a) The page that appears when an authorized user launches an Internet browser or similar program used to access and navigate the Internet.

(b) The default provider the authorized user uses to access or search the Internet.

I The authorized user's list of bookmarks used to access Web pages.

(d) An authorized user's security or other settings that protect information about the authorized user, for the purpose of stealing personal information of, or causing harm to, an authorized user.

(e) The security settings of the computer for the purpose of causing damage to one or more computers.

III. Collecting personal information through intentionally deceptive means, such as through the use of a keystroke logging function, and transferring that information from the computer to another person.

IV. Preventing, through intentionally deceptive means, an authorized user's reasonable efforts to block the installation of, or to disable, software by doing any of the following:

(a) Presenting an authorized user with an option to decline installation of software such that, when the option is selected, the installation nevertheless proceeds.

(b) Falsely representing that software has been disabled.

I Causing software that the authorized user has properly removed or disabled to automatically reinstall or reactivate on the computer without the authorization of an authorized user.

V. Intentionally misrepresenting that software will be uninstalled or disabled by an authorized user's action, with knowledge that the software will not be uninstalled or disabled.

VI. Inducing, through deceptive means, an authorized user to install a software component onto the computer, including deceptively misrepresenting that installing software is necessary for security or privacy reasons or in order to open, view, or play a particular type of content.

VII. Deceptively installing and executing on the computer one or more additional computer software components with the intent of causing an authorized user to use the components in a way that violates any other provision of this section.

VIII. Through intentionally deceptive means, removing, disabling, or rendering inoperative a security, antispyware, or antivirus technology installed on the computer.

359-G:3 Violations. A violation of RSA 359-G:2 shall constitute an unfair or deceptive act or practice within the meaning of RSA 358-A. Any right or remedy provided in RSA 358-A may be used to enforce this chapter. The consumer protection and antitrust bureau may coordinate with the appropriate federal agency to request assistance and federal enforcement.

359-G:4 Limitations on Actions. A person may not bring an action for a violation of this chapter against an Internet service provider for the routine transmission of security information or information that contains an advertisement violating this chapter. No person may bring a class action under this chapter.

359-G:5 Enforcement; Information Gathering. The consumer protection and antitrust bureau shall investigate complaints and make recommendations to the house standing committee responsible for science, technology, and energy issues if the bureau finds a need for additional provisions to this chapter.

359-G:6 Exemption. A provider of software or provider of interactive computer service shall not be held liable under this chapter for any action voluntarily taken in good faith, or any service provided in good faith, to remove or disable programs used to violate RSA 359-G:2 that reside on the consumer's computer if the consumer is a customer of the provider and if the provider notifies the consumer prior to undertaking the action or providing the service.

2 Effective Date.

I. RSA 359-G:3 as inserted by section 1 of this act shall take effect upon certification by the department of justice to the secretary of state and the office of legislative services that federal legislation has passed requiring state attorneys general to enforce federal anti-spyware legislation.

II. The remainder of this act shall take effect upon its passage.

AMENDED ANALYSIS

This bill provides that using spyware or similar computer programs to knowingly alter, take control of, or damage a consumer's computer or Internet access will be a violation of the consumer protection act if/when federal anti-spyware legislation takes effect.

HB 460-FN, relative to the reimbursement to certain providers by the bureau of emergency communications. **OUGHT TO PASS WITH AMENDMENT**

Rep. Roy D. Maxfield for Science, Technology and Energy: This bill limits reimbursement to providers of mobile phone services by the 911 emergency communications bureau for expenses incurred after April 1, 2005. Current law allows for reimbursement for phase 1 and phase 2 reasonable costs incurred by cellular telephone companies based on FCC guidelines. In 1996, the FCC required all cellular telephone companies to provide emergency 911 services in two phases. The FCC also allowed for reimbursement for part of these costs. In 2002, the FCC removed the requirement to reimburse companies for these 911 services. The committee determined that the minimal re-occurring costs associated with providing 911 services should be the responsibility of the mobile carriers and not all telephone subscribers including land line customers. The committee also added language in session law stressing the timely payment for outstanding expenses submitted by wireless carriers. Vote 15-0.

Amendment (0321h)

Amend the bill by replacing all after section 1 with the following:

2 Review of Claims. The enhanced 911 commission shall approve and the bureau, as defined in RSA 106-H:2, III, shall pay, in a timely fashion, all reimbursement claims filed under RSA 106-H:8 by providers of commercial mobile radio service for reasonable expenses incurred prior to April 1, 2005 to which the providers are entitled.

3 Effective Date. This act shall take effect upon its passage.

HB 146, establishing a commission to study health care delivery at the Veterans Administration Hospital. **INEXPEDIENT TO LEGISLATE**

Rep. James E. Twombly for State-Federal Relations and Veterans Affairs: The intent of the sponsors' bill is commendable. Over 20,000 veterans are enrolled in the Veterans Administration in New Hampshire and are provided care in facilities located in Manchester, Portsmouth, Tilton, Conway and Wolfeboro. The level of care provided to our veterans has been deemed excellent, not only by the sponsor of this bill but also by the awards given to the VA Medical Center in Manchester as proof of that quality care. For complaints about care by any veteran, a system is presently in place to field those complaints through the Director of the Veterans Administration in New Hampshire. Other issues or medical complaints can also be directed to the director or any of the staff at the NH Veterans Council. Furthermore, through our United States Senators or Congressmen are sounding boards for medical or any other complaints. The committee felt, therefore, that the veteran has a number of avenues that are presently in place to submit a complaint or gain a hearing. The Veterans Administration is a federal agency under federal jurisdiction spending federal funds. No state committee comprised of elected NH representatives can have a direct input over the VA that does not presently exist. The committee felt that the formation of this new committee would institute a duplication of services. Vote 12-2.

HB 189, establishing an international trade commission to investigate and report on the effects of international trade agreements on New Hampshire self-governance. **INEXPEDIENT TO LEGISLATE**
Rep. Lars T. Christiansen for State-Federal Relations and Veterans Affairs: The New Hampshire Legislature in 1991 established RSA 12-A:30 (Advisory Committee on International Trade) which addresses this issue. The committee felt that all international trade is controlled by Article VI Section 2 of the United States Constitution. Therefore this bill is not necessary. Vote 13-1.

HB 242, relative to falsification of motor vehicle applications filed with the department of safety. **OUGHT TO PASS**

Rep. Stephen H. Nedeau for Transportation: This bill adds to the suspension or revocation of a license or registration issued by the Division of Motor Vehicles based on an application made with any false statement or fraudulent document. The committee felt that this was a good change in the law. The bill also cleans up a couple of minor issues: one changes "him" to "him or her" and changes "motor vehicle laws" to "motor vehicles." Vote 12-0.

HB 268-FN, increasing certain motor vehicle fees. OUGHT TO PASS

Rep. Stephen H. Nedeau for Transportation: This bill increases the fees charged by the Department of Safety for replacement number plates, as well as validation stickers. The bill will increase the fee for replacement number plates by 50 cents, \$3.50 to \$4.00, and also establishes a new \$1.00 fee for the replacement of validation stickers that are lost or illegible. The committee felt that this was not an unreasonable request. Vote 12-0.

Referred to Ways and Means.

HB 286, prohibiting the operation of pocket bikes and motorized scooters upon ways. OUGHT TO PASS

Rep. Brenda L. Ferland for Transportation: This bill will prohibit the operation of pocket bikes and motorized scooters upon any way. These transporters are described as any 2 or 3 wheel motorized device that has handlebars and is designed to be stood or sat upon by the operator and is smaller than a conventional moped, motorcycle or motor-driven cycle, or any 2 or 3 wheeled motorized device, other than an antique motorcycle, that does not have a 17-character vehicle identification number. For registration purposes, any vehicle must meet the safety standards to the satisfaction of the federal government. Because these vehicles are small and low to the ground and are being operated by children, the committee feels they are a danger to the motoring public. Also, there is a concern that these vehicles are a seasonable use item and more along the lines of a recreational vehicle. Call them what you want, but the committee knows they don't belong on our highways. Vote 13-0.

HB 507, establishing a commission to study noise and hours of operation of motor vehicle race-tracks. INEXPEDIENT TO LEGISLATE

Rep. James W. Danforth for Transportation: This bill would have set up a commission, made up of one representative from each of the 10 racetracks in the state of New Hampshire. Members of the House and Senate would be included. The commissions' job would be to study noise at existing racetracks. As long as there are racetracks there will be noise that someone does not like. But local governing bodies, where these tracks are located, have control and have exercised it on noise, days of operation, lighting, traffic control, crowds and just about anything else that is involved in running a racetrack. Tracks are a permitted business; they follow the rules that are put before them. Vote 13-0.

REGULAR CALENDAR**HB 46-FN, relative to penalties for first-time DWI offenders. OUGHT TO PASS WITH AMENDMENT**

Rep. David A. Welch for Criminal Justice and Public Safety: During the 2004 Session, SB 478 passed the House with a vote of 211-119. During the floor debate, questions arose about a provision that would allow a person convicted of a Class B misdemeanor for driving while intoxicated who had successfully completed all alcohol and/or drug treatment and counseling programs and who had no other alcohol related offenses, to petition the court to reduce the conviction to a violation. The section read that "the court in which the person was convicted may reduce the conviction to a violation upon a motion filed by either party". It was discussed at that time that if all conditions had been met, the court should reduce the conviction and this bill changes "may" to "shall" so that those persons convicted for the first time of driving while intoxicated, who have successfully completed the above programs, will not have a criminal record. Vote 14-2.

Amendment (0183h)

Amend the bill by replacing section 1 with the following:

1 Penalties for Intoxication or Under Influence of Drug Offenses; Conviction Classification Reduction. Amend RSA 265:82-b, I(a)(6) to read as follows:

(6) The court in which the person was convicted ~~[may] shall~~ reduce the conviction to a violation upon a motion filed by either party at least one year after the date ~~[of the conviction. In deciding whether to reduce the conviction to a violation, the court may consider the person's subsequent driving record, any evidence of drug or alcohol treatment, the hardship that having a criminal record may cause for the person, and any other factors that the court deems relevant] that the person successfully completed all of the requirements of subparagraph I(a), provided that the person has not subsequently been arrested for any alcohol-related or drug-related offense. No person who was convicted under subparagraph I(a) because a second or subsequent offense was reduced to a first offense shall be eligible to have the conviction reduced to a violation.~~

Adopted.

Committee report adopted and ordered to third reading.

HB 76, revising the process of charter school approval by the state board of education. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Stephen R. L'Heureux for the Majority of Education: This bill makes two clarifications in the charter school funding law. The first clarification addresses the payment to be made for the student's fiscal year of attendance. The second clarification eliminates the reference to the Department of Education regarding payment of tuition to the charter school. The committee voted ought to pass 11-8. Vote 11-8.

Rep. Claire D. Clarke for the Minority of Education: Although public charter schools for specific education exist, the funding procedure in this bill is flawed. The state funds charter schools with adequacy money. There is a two year delay in adequacy aid and this bill requires the school district to immediately give the charter school an adequacy amount for students who may not have been in the school district's count. Some students may have been home schooled or in a private school and now choose to enroll in a charter school, thus the district never received state funds for these students. The minority therefore believes that public schools should not have to use their adequacy money to pay charter schools in advance.

Rep. Stephen L'Heureux moved recommit to committee.

Adopted.

Recommitted to the Committee on Education.

CACR 2, relating to the appointment of judges. Providing that judges shall be appointed to 5-year terms of office which may be renewed. **INEXPEDIENT TO LEGISLATE**

Rep. Gregory M. Sorg for Judiciary: Numerous objections to this resolution were expressed by witnesses that the committee found persuasive: A five-year term would barely be long enough for a judge to learn the craft and would be so short as to discourage many qualified lawyers from leaving private practice for judicial office. Judicial retirement benefits do not vest until a judge has served for ten years. A three-term governor could, in theory, appoint every judge in the state. The administrative task to vet, nominate and confirm judicial appointments would be burdensome to the governor, executive council and their staffs. High turnover would lead to trial scheduling problems and greatly increased training expenses. Worst of all, judgeships would become objects of a political spoils system, and judges would be subjected to the very temptation to avoid controversial issues and to subordinate their judgments to political pressure that it was the objective of the British Parliament to end, when, in 1689, it created the Anglo-American concept of judicial independence; that is, tenure in office during good behavior. Vote 17-1.

Reps. Cady and Kennedy spoke against.

Reps. Sorg and Hess spoke in favor.

Rep. Pratt spoke in favor and yielded to questions.

Rep. Kennedy requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted by the constitutionally required three-fifths vote.

Rep. Coughlin declared a conflict of interest and did not participate.

HB 427, repealing common law marriage. MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.

Rep. John B. Hunt for the Majority of Judiciary: New Hampshire does not recognize common law marriage, as that term is generally known. However, for the limited purpose of establishing inheritance rights, New Hampshire does have a Cohabitation statute that dates back to our original 1842 revised statutes. It reads: Persons cohabitating and acknowledging each other as husband and wife, and generally reputed to be such, for the period of 3 years, and until the decease of one of them, shall thereafter be deemed to have been legally married." To qualify as a spouse for purposes of inheritance, the survivor must prove all three elements set forth in the law. Clearly the requirements of this law ensure that it is rarely used today but its original intent is still applicable. No surviving spouse should be deprived of inheritance rights if his or her spouse were to die and they were not lawfully married. The committee heard no evidence that this ancient law was being abused. Vote 17-5.

Rep. Gregory M. Sorg for the Minority of Judiciary: When the original predecessor of RSA 457:39 was enacted in the nineteenth century, under the mores of the time cohabitation was relatively rare, and cohabitating couples overwhelmingly would wish to be, and would be, reputed as married. Now, however, that it is normal and accepted for couples to live together without benefit of marriage, the nature of a couple's commitment to each other can be ambiguous, not just to the community, but even to themselves and their families. This is an invitation to confusion and discord over the administration of the estate of the first one of them to die, with that first one no longer available to testify. The minority believes that the concept known as common law marriage has outlived its usefulness and should be abolished. If couples desire the advantages of marriage, they should get married.

Reps. Bickford and Sorg spoke against.

Rep Hunt spoke in favor.

Rep. Espieffs spoke and yielded to questions.

On a division vote, 270 members having voted in the affirmative and 81 in the negative, the committee report was adopted.

HB 83, repealing the obligation to provide persons applying for a marriage license with a list of family planning services and with brochures on fetal alcohol syndrome and the human immunodeficiency virus. MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: OUGHT TO PASS WITH AMENDMENT.

Rep. David L. Buhlman for the Majority of Municipal and County Government: Town clerks have been required to supply three Department of Health and Human Services brochures to couples applying for a marriage license: one on family planning, one on fetal alcohol syndrome, and one on HIV prevention. In addition to handing these brochures to the couples, the town clerks are required to get an affidavit, signed by the couple, acknowledging that they have received and discussed the information in the brochures. The Majority of the committee felt that this requirement puts an unnecessary burden on already busy town clerks, and that there are any number of other worthy brochures that could be handed out to marriage license applicants, such as prevention of various types of cancer, and financial planning. All such guidance-related information is readily available from sources other than town clerks so it's prudent to relieve our busy town clerks of this responsibility. Vote 14-4.

Rep. Jessie L. Osborne for the Minority of Municipal and County Government: The minority believes that this bill should be amended to only repeal the part of RSA 457:23 Section II which requires an affidavit to be signed and a discussion of the brochure for Fetal Alcohol Syndrome be affirmed before a marriage license is issued by the clerk of the municipality. The minority feels that important medical and prevention information regarding fetal alcohol syndrome and HIV should continue to be handed out to help prevent these diseases which harm infants and adults.

Fetal alcohol syndrome and HIV cause the state to expend large amount of funds to treat and take care of the victims of these diseases. Prevention through information and education is the best way to begin to eliminate these preventable diseases. The state provides these brochures in an envelope and the discussion and the signing of an affidavit are not necessary to ensure the dissemination of vital information to those of child bearing age who might not have had health education classes in school.

Majority Amendment (0152h)

Amend the bill by replacing all after the enacting clause with the following:

I Protection for Maternity and Infancy; Brochure on Fetal Alcohol Syndrome. Amend RSA 132:2, XI to read as follows:

XI. Prepare, in conjunction with the office of alcohol and drug abuse prevention, a brochure which provides information relative to fetal alcohol syndrome ~~[to persons applying for a marriage license and make such brochure available to town and city clerks for distribution under RSA 457:23, H].~~

2 Repeal. The following are repealed:

I. RSA 141-F:3, XIII, relative to the informational brochure concerning the human immunodeficiency virus, prepared by the department of health and human services, for persons applying for a marriage license.

II. RSA 457:23, II and III, relative to the requirement that persons applying for a marriage license receive a brochure concerning fetal alcohol syndrome and the human immunodeficiency virus.

III. RSA 457:28-a, relative to the list of family planning services provided by the town clerk to persons applying for a marriage license.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill repeals the requirement that the town clerk distribute family planning service lists and brochures on fetal alcohol syndrome and human immunodeficiency virus to marriage license recipients. Majority amendment adopted.

Majority committee report adopted and ordered to third reading.

HB 407-FN-L, relative to licensing of dogs. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Nancy K. Johnson for the Majority of Municipal and County Government: This bill increases dog licensing fees by \$2.00. This fee has not been increased in a number of years. In 1995, laws were changed to require veterinarians to notify the city/town clerk when a dog receives a rabies vaccination. The clerk then has to check records and keep track of who has and who has not got a license. The change has created a more labor intensive process for the clerk. The majority of the committee felt that this small fee increase was reasonable. Vote 12-4.

Rep. Andrew Renzullo for the Minority of Municipal and County Government: The minority believes that an increase in a license fee is a tax by another name. In addition, this increase is mandated by the state without a local option. Finally, this bill places the burden totally on dog owners. Presently, \$2.00 of the dog licensing fee goes to the spay/neutering program. Yet cats use the program at a 3 to 1 ratio. Thus dog owners are, in effect, forced to subsidize cat owners. Passage of this bill would only exacerbate this inequity.

Rep. Tahir requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

Referred to Ways and Means.

HB 304-FN-A, relative to federal highway grant anticipation bonds. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. James B. Rausch for the Majority of Public Works and Highways: This bill is enabling legislation that will allow the state to issue federal highway grant anticipation bonds, sometimes known as "Garvee Bonds", for the purpose of financing costs relating to the widening of I-93. The bonds are secured with federal transportation grants and allow the Department of Transportation to receive funds in anticipation of the federal grants. The bonds will be incrementally issued for the difference between the allocated dollars in the 10-Year Transportation Plan, as enacted into law in HB 2004, of the 2004 legislative session and the amount required to construct the project under an accelerated six year construction plan as recommended by the Department of Transportation. The aggregate bonding cannot exceed 195 million dollars. This bill further allows for the resale of surplus property, purchased for the widening of I-93, to pay for the 22 million dollar expense related to the issuance of the bonds. As a result, the ten-year highway plan will not be materially affected by the utilization of these grant anticipation bonds. The committee recognized the severe safety issue involved in delay of the I-93 project and passed the bill with strong bipartisan support. Vote 14-1.

Rep. Candace C.W. Bouchard for the Minority of Public Works and Highways: The minority respects the laudable goal to accelerate the construction time frame of I-93 from Salem to Manchester. However, Garvee Bonds is a significant change in the state transportation funding policy, from pay as you go bonding using federal transportation grant dollars to bonding against the future anticipated federal grant. The 10-Year Transportation Plan is currently under funded pushing projects out 14 - 16 years. The minority is concerned that the cost of the Garvee Bonds \$22 million interest due at maturity in 10 years could potentially delay other much needed transportation projects. Currently, NH DOT does not know how much the state will be receiving in Federal Transportation Grant Funds. The state will receive the grant, but it is unknown if the dollars received will be more, the same or less. Allowing Garvee Bonds to be used for this major construction project sets a precedent for future use of other transportation projects. The issuance of Garvee Bonds is a policy change to accept risk over the long term for short term gain from a major project, a shift from New Hampshire's conservative fiscally sound approach.

Majority committee report adopted.

Referred to Finance.

HB 603-FN-A, relative to the state's purchase of the Laconia district courthouse building and making an appropriation therefor. **OUGHT TO PASS WITH AMENDMENT**

Rep. Franklin T. Tilton for Public Works and Highways: This bill appropriates \$1 for the purchase of the Laconia District Courthouse building and associated land. This is an historic building first used as a high school. Since 1978, the state has leased the first floor and basement from the city for use as a district court. A renovation project is being considered in the capital budget. If the building is no longer used for state-related offices, the city has the right to purchase it for fair market value minus the fair market value as of July 1, 2005. Vote 11-2.

Amendment (0323h)

Amend the bill by replacing section 1 with the following:

1 Appropriation; Department of Administrative Services. The sum of \$1 is hereby appropriated to the department of administrative services for the fiscal year ending June 30, 2006, for the purpose of purchasing the Laconia district courthouse building and land appurtenant to the building, as identified on map 449, block 2, lot 26, on July 1, 2005. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated. If at any time after the purchase takes effect, the building is not used for state-related offices, the city of Laconia shall have the right to purchase the building and land appurtenant to the building for the fair market value less the fair market value of the building and land on July 1, 2005. In this section, "fair market value" means fair market value as determined by an appraisal conducted by the state of New Hampshire.

Adopted.

Committee report adopted and ordered to third reading.

Rep. Goughlin declared a conflict of interest and did not participate.

BILLS REMOVED FROM CONSENT CALENDAR

HB 227, relative to undeclared voters at primary elections. **INEXPEDIENT TO LEGISLATE**
 Rep. Jane A. Clemons for Election Law: This bill would eliminate the requirement that an undeclared voter must register as a member of a party to vote in a primary election. Our multi-party system encourages debate and criticism. Presently, both parties allow all undeclared voters to vote in primary elections. RSA 654:34 Change of Registration states in II-a, "Any legal voter who has been registered as an undeclared voter may register as the member of the party of the voter's choice by appearing before the supervisors of the checklist and stating to them under oath or affirmation, if required, that the voter intends to affiliate with and generally supports the candidates of the party with which he offers to register, in which case the voter shall be registered as a member of such party." With this protection in statute, the majority of the committee felt that there was no impediment to undeclared voters changing registration. Vote 14-1.

Rep. Vaillancourt spoke against.

Reps. Clemons, Splaine and Whalley spoke in favor.

On a division vote, 256 members having voted in the affirmative and 87 in the negative, the committee report was adopted.

HB 277, relative to special elections for executive councilor, state senator, and state representative. **INEXPEDIENT TO LEGISLATE**

Rep. Robert W. Forsing for Election Law: This bill would prohibit special elections for executive councilor, state senator and state representative after March 15 of the second year of the biennium. The time line governing special elections would preclude the newly elected person from providing effective representation for more than a brief period prior to the ensuing regular election cycle. Vote 14-0.

Rep. Whalley spoke against.

The committee report failed.

Rep. Whalley moved Ought to Pass.

Adopted and ordered to third reading.

HB 260-FN, relative to motor vehicle equipment and registration. **OUGHT TO PASS WITH AMENDMENT**

Rep. Sherman A. Packard for Transportation: This bill revises and updates certain motor vehicle laws. Changes RSA 21-P: 9 III to read "a financial responsibility supervisor" instead of "administrator." It allows eligible non-profit corporations operating transportation services for elderly or disabled persons to purchase from the state motor fuel inventory. It allows a non-profit corporation that uses the vehicles exclusively for the transportation of the elderly or disabled to a refund of any road tolls paid. It allows the Director of Motor Vehicles to issue a license for less than five years. It requires any car affixed with a dealer plate to have a current state inspection sticker. It allows for the use of white cab lights on pickup trucks. New Hampshire law allows trucks to carry loads up to 99,000 pounds on state roads. This amendment is needed to conform with federal law that allows trucks with loads up to 99,000 pounds to travel on our interstates. It bars the counterfeiting or duplication of number plates. Vote 11-0.

Amendment (0299h)

Amend the bill by replacing all after section 10 with the following:

11 New Paragraph; Weight on Interstate and Defense Highway System; Additional Weight.
 Amend RSA 266:18 by inserting after paragraph II the following new paragraph:

III. Notwithstanding paragraphs I and II, for as long as exemptions exist in 23 U.S.C. section 127 that allow maximum gross weights of up to 99,000 pounds on interstate routes 89, 93, and 95 of the interstate and defense highway system, the provisions of RSA 266:18-a regarding weight on the non-interstate and general highway system shall also apply to vehicles or combination vehicles while being operated on any sections of interstate routes 89, 93, or 95 not posted by the commissioner of transportation for lower weights. Such vehicles shall not exceed the weight limits in paragraphs I and II unless they have been certified pursuant to RSA 266:18-d for the higher weights and paid the required fee the same as vehicles operating on the non-interstate highways as provided in RSA 266:18-d, and police officers shall not be required to allow any tolerance above these limitations on such highways.

12 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill:

I. Changes the name of the financial responsibility administrator to the financial responsibility supervisor.

II. Permits certain nonprofit corporations to purchase motor fuel from the motor fuel inventory and to receive road toll refunds.

III. Prohibits counterfeiting or duplication of number plates.

IV. Authorizes drivers' licenses issued for less than 5 years.

V. Requires inspections for vehicles with dealer plates.

VI. Permits white identification lights on certain vehicles.

VII. Authorizes additional vehicle weights on certain highways consistent with federal law.

This bill is a request of the department of safety.

Adopted.

Rep. Pepino inquired if HB 260 was divisible and requested that Section 8 be divided from the bill.

The Speaker ruled the bill was divisible and, without objection, so ordered.

The question now being adoption of Section 8.

Rep. Pepino spoke against.

On a division vote 18 members having voted in the affirmative and 318 in the negative, the adoption of Section 8 failed.

The question now being adoption of the remainder of the bill.

Adopted.

Referred to Ways and Means.

HB 461-FN, establishing number plates supporting New Hampshire public higher education.
INEXPEDIENT TO LEGISLATE

Rep. James W. Danforth for Transportation: This bill does not ask for one plate but wants to create three new specialty license plates. One each for UNH, Keene and Plymouth universities. Going on the experience we have with the conservation plate and veteran plate, there would not be enough of these plates sold to make any money. If we were to allow issuance of these plates we would be compelled to allow the issuance of plates for any other college or university in the state. This would open the door to service clubs like the Lions, Kiwanis and Rotary to seek plates. License plates are for identification. Let us not go down the road that states like Florida have done and create a plate for every group that wants a plate. Vote 13-0.

Rep. Francis Sullivan spoke against.

Rep. Packard spoke in favor.

On a division vote, 250 members having voted in the affirmative and 78 in the negative, the committee report was adopted.

SUSPENSION OF RULES

Reps. O'Neil and Craig moved that the House Rules be so far suspended as to permit introduction after the deadline of **HB 719**, recodifying the Articles 1 and 7 of the Uniform Commercial Code, and **House Resolution 15**, affirming revenue estimates for fiscal years 2005, 2006 and 2007, and to permit consideration at the present time of **HR 15**, without the required referral to committee, printing, public hearing or report.

Adopted by the necessary two-thirds.

RESOLUTION

Reps. O'Neil and Craig offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, House Bill numbered 719, shall be by this resolution read a first and second time by the therein listed title, sent for printing and referred to the therein designated committee, and House Resolution numbered 15 shall be read a first and second time by its therein listed title. Adopted.

INTRODUCTION OF HOUSE BILL and HR 15

First, second reading and referral

HB 719-FN, recodifying the Articles 1 and 7 of the Uniform Commercial Code. (Hess, Merr 9; Dokmo, Hills 6; Kurk, Hills 7; Craig, Hills 9; Rowe, Hills 6; Foster, Dist 13; Flanders, Dist 7; Gottesman, Dist 12; Hassan, Dist 23: Commerce)

First, and second reading

HR 15, affirming revenue estimates for fiscal years 2005, 2006 and 2007. (Major, Rock 8)

HOUSE RESOLUTION 15

affirming revenue estimates for fiscal years 2005, 2006 and 2007.

Whereas, the House Ways and Means Committee has considered what the unrestricted revenue estimates should be for fiscal years 2005, 2006, and 2007 and has presented those estimates to the House of Representatives; now, therefore, be it

Resolved by the House of Representatives:

That the House wishes to go on record as affirming the following revenue estimates for fiscal years 2005, 2006, and 2007.

Committee estimates are based on current rates.

GEN'L & ED TRUST FUNDS: (Dollars in Millions)	(A)	(B)	(C)	(D)	(E)
	Official Estimate	FY 2005 Committee Estimate	Variance	FY 2006 Official Estimate	FY 2007 Committee Estimate

Rep. Major moved Ought To Pass and spoke in favor.
Adopted.

LAID ON THE TABLE

Rep. Major moved that *HR 15*, affirming revenue estimates for fiscal years 2005, 2006 and 2007, be laid on the table.
Adopted.

RESOLUTION

Rep. O'Neil offered the following: RESOLVED, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, March 9, 2005 at 10:00 a.m.
Adopted.

LATE SESSION

Third reading and final passage

- HB 128-FN*, relative to negligent operation of a carnival or amusement ride.
- HB 204-FN*, relative to unauthorized video surveillance.
- HB 439*, relative to registration requirements for criminal offenders.
- HB 150*, defining truancy.
- HB 434-FN*, requiring state agencies using automated answering systems to provide a method of access to a human being.
- HB 472*, relative to the definition of recreational program.
- HB 488*, establishing a task force on mental health costs.
- HB 43*, relative to state employees appearing before the legislature.
- HB 144-L*, relative to special elections for municipal charter amendments.
- HB 236*, relative to the time for filing a motion to rehear a zoning decision.
- HB 265*, relative to minutes of land use board meetings involving developments of regional impact.
- HB 266*, relative to the procedure for dismissal or suspension of a police chief.
- HB 263*, relative to the use of design build and construction management methods for state capital projects.
- HB 47*, regulating the use of computer spyware.
- HB 460-FN*, relative to the reimbursement to certain providers by the bureau of emergency communications.
- HB 242*, relative to falsification of motor vehicle applications filed with the department of safety.
- HB 286*, prohibiting the operation of pocket bikes and motorized scooters upon ways.
- HB 46-FN*, relative to penalties for first-time DWI offenders.

HB 83, repealing the obligation to provide persons applying for a marriage license with a list of family planning services and with brochures on fetal alcohol syndrome and the human immunodeficiency virus.

HB 603-FN-A, relative to the state's purchase of the Laconia district courthouse building and making an appropriation therefor.

HB 277, relative to special elections for executive councilor, state senator, and state representative.

UNANIMOUS CONSENT

The Speaker introduced former House member the Honorable Alf E. Jacobson of New London, and requested Unanimous Consent of the House to allow former Representative Jacobson to address the House.

Rep. Weyler moved that the remarks made by the Honorable Alf E. Jacobson be printed in the Permanent Journal.

Adopted.

Hon. Alf E. Jacobson: Thank you, Mr. Speaker. This year marks sixty years that have passed since we began the Battle of Iwo Jima. That battle, of course, was one of the fiercest battles of World War II. It was acknowledged as being the most fierce in the Pacific and I do not know where there is anything in the European phase that was as fierce. Twenty-five thousand casualties on this island of 8 ½ square miles, approximately 7,000 killed, and 18,000 wounded. I was one of the lucky ones who went from the fifth wave of the day of the assault to the very last day, and I received not even a scratch. That, to me, has been one of the great blessings that I have had in my life.

I had a very special role at Iwo that most members did not have. I ended up after boot camp one day, and if any of you are Marines, and I understand there are some marines here also, you will know that until that final day you don't know what's going to happen to you and you are assigned to the various outfits that serve the Corps, be it Artillery, or Infantry, or Quartermaster, whatever; and so they would read off the names. I was listening for my name and I didn't hear my name. And I thought, "What in the world is going on?" So, in fear and trembling, and I mean "in fear and trembling," I went up to the D. I. and said, "I'm sorry, sir, but I didn't hear my name." And of course, I immediately got a blast which really said, "You stupid kid, why don't you listen?" He couldn't find my name and he was getting more mad, and I was getting more scared. Finally, he sees my name: Alf Jacobson, Japanese language school. He looks at it and reads it again—Japanese language school, what the hell is that? And that's how I got to Japanese language school.

Forty-one of us started that class; five finished after nine months. The basic reason was not that one was smarter than the other, but that too many Marines were more anxious for liberty than they were for learning Japanese.

And so I did have this great opportunity. I was first sent to a prison camp on the island of Oahu where I came in contact with Japanese soldiers who I had the opportunity to interview. Now, we rarely got an officer, most of the prisoners that we caught were farm boys who knew very little, except possibly their own unit. You will recall, I'm sure, at least some of you, that the Japanese, rather than surrender, would commit suicide and the reason was that they were told by their officers that it would be better to commit suicide than to submit to the torture and die anyway. I remember two little Japanese soldiers, and I could see that they were very nervous, and I said, "What are you nervous about? What is the problem?" *Nani wo mondai* in Japanese. They said, "When does the torture begin?" I said, "What torture?" "We were told never to surrender because we would be tortured to death." I said, "You can relax. You're not going to be tortured." And then they told me whatever information that they had.

It was a great and wonderful experience and when the war was over I was sent to Japan for the occupation. I was appointed the American Marine for the distribution of Japanese labor in the Sasebo area. And for the first and only time in my life, I could order people around.

I thank you for this opportunity to again speak to you. And I want to congratulate all of the new members of the House. I spent 30 years; 20 years in this House and 10 years in the Senate and it was a wonderful experience. If I only could have gotten down quicker and easier, I might still be here. Thank you.

RECESS MOTION

Rep. O'Neil moved that the House stand in recess for the purpose of introduction of bills, enrolled bill amendments, enrolled bill reports and receiving Senate messages only.

Adopted.

The House recessed at 4:30 p.m.

RECESS

(Rep. Buco in the Chair)

RESOLUTION

Rep. Charles McMahon offered the following: **RESOLVED**, that the late drafting and introduction having been approved by the Rules Committee, in accordance with the list in the possession of the Clerk, House Bill numbered 720, shall be by this resolution read a first and second time by the therein listed title, sent for printing, and referred to the therein designated committee.

Adopted.

INTRODUCTION OF HOUSE BILL**First, second reading and referral**

HB 720-FN, relative to special number plates. (L. Elliott, Hills 1; Rollo, Straf 2; Gibson, Hills 19; O'Neil, Rock 15; P. Smith, Rock 3; Morris, Rock 14: Transportation)

RECESS

(Rep. Kennedy in the Chair)

RESOLUTION

Rep. Hirschmann offered the following: **RESOLVED**, that the late drafting and introduction having been approved by the Rules Committee, in accordance with the list in the possession of the Clerk, House Bill numbered 721 shall be by this resolution read a first and second time by the therein listed title, sent for printing, and referred to the therein designated committee.

Adopted.

INTRODUCTION OF HOUSE BILL**First, second reading and referral**

HB 721, prohibiting the department of education and the state board of education from adopting a definition of an adequate education. (Hess, Merr 9; O'Neil, Rock 15; Giuda, Graf 5; Patten, Carr 4: Education)

RECESS

(Rep. Price in the Chair)

RESOLUTION

Rep. O'Neil offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, Senate Bills numbered 20, 27, 36, 52, 55, 57, 87, 137, 153, 165 and 182 shall be by this resolution read a first and second time by the therein listed titles, and referred to the therein designated committees.

Adopted.

INTRODUCTION OF SENATE BILLS**First, second reading and referral**

SB 20-FN, relative to an increase in lottery ticket prices. (Ways and Means)

SB 27-FN, relative to an exemption from the annual inspection of health facilities. (Health, Human Services and Elderly Affairs)

SB 36-FN, assessing a fee on all dogs and cats sold at retail that are not sexually sterilized, to be deposited in the companion animal neutering fund. (Environment and Agriculture)

SB 52, establishing the state suggestion and extraordinary service award program. (Executive Departments and Administration)

SB 55, relative to the New Hampshire film and television commission and state promotional initiatives. (Executive Departments and Administration)

SB 57, establishing a commission to study ways to alleviate medical malpractice premiums for high risk specialties. (Health, Human Services and Elderly Affairs)

SB 87, relative to extension of tax liens by the department of revenue administration. (Ways and Means)

SB 137-FN-A, relative to the Conway Branch railroad. (Finance)

SB 153-FN, relative to the administration of certain programs by the department of environmental services. (Executive Departments and Administration)

SB 165-FN, relative to the collection of tax debts from out-of-state debtors. (Ways and Means)

SB 182-FN, relative to electronic issuance of warrants. (Judiciary)

RECESS

(Speaker Scamman in the Chair)

Rep. O'Neil moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 8

Wednesday, March 9, 2005

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by Guest Chaplain, The Reverend Douglas Domin, Pastor of the First Presbyterian Church of Concord.

Dear Almighty God of heaven and earth, we come to Your throne of grace and mercy to ask for help. Help to exalt You as the King of Glory. Help to consider others as being better than ourselves as our tendency is often to seek our own interests and not those of others. Help to endure challenging times. Help to persevere through the loss of loved ones.

We pray for Your blessing on this session today. We thank You for this great state in which we live and these who give of themselves to serve others. We pray for wisdom for the House today and ask that You would guide and direct all that goes on.

We pray for protection of our great nation. Please watch over our country and continue to use our nation as a defender of liberty. We also remember those on the front lines fighting for freedom and seeking to insure our defense. Protect them, we ask. Give our commanders wisdom and strength. We thank You for those troops who have given the ultimate sacrifice. We pray for their families that they would know Your comfort and grace. May we always remember that our freedom is not free but has come at great cost. Help us to use our freedom in ways that are honoring to You, knowing that one day we will give an account to You. In Jesus name we pray, Amen.

Rep. Harry S. Gale led the Pledge of Allegiance.

The National Anthem was sung by Miles Walter, a fourth grade student at Monadnock Waldorf School.

COMMUNICATION

The Honorable W. Douglas Scamman, Jr.

Speaker of the House

Dear Mr. Speaker:

It is with mixed emotions that today I submit my resignation for the consideration of the New Hampshire House effective Wednesday, March 9, 2005. I have served off and on in this magnificent body most of my adult life. My first exposure to the Legislature was when you appointed me back in 1987 to serve as a member of the House Sergeant of Arms staff and I was elected to my first term in the General Court in 1989. My time here has been interesting and I have found it inspiring both as a former staff member and as a current elected member of the body. I have had the opportunity to listen to and participate in many great debates on policy issues which will affect the citizens of our state for generations to come. I will carry, as some of my fondest memories, the speeches of some of the great orators of the House like, "It just ain't fair," by former Representative Henry Mock, and some of my legislative successes surround marital master issues and the passing of the Medical Parole Act last term. Perhaps my greatest memory of this great body will be the unique privilege that the voters provided me by electing both of my sisters last term allowing this body to make U.S. political history by having the distinction of three siblings serving at the same time in the same body. One of my greatest honors was to have been nominated by both parties to serve as their representative.

While I feel strongly that it is time for me to go, I certainly will miss the legislative process and look forward to watching your adventures in attempting to deal with education funding and the \$340 million budget deficit. I suspect tax increases are looming, but these issues are now for you to debate. As I tip my hat, I say good luck and Godspeed.

Respectfully submitted,

Rep. Larry G. Elliott, Hillsborough 1

The Speaker accepted the resignation with regret.

LEAVES OF ABSENCE

Reps. Albert, Mary Allen, Baroody, Barry, Danforth, Fesh, Donald Flanders, Foote, Forsing, Hunter, Hutchinson, Keans, Stephen L'Heureux, Moore, Morneau, Naro, Palangas, Marjorie Smith and Weldy, the day, illness.

Reps. Aboshar, Callaghan, Clayton, Dorsett, Easson, Egbers, Ginsburg, Golding, Grassie, Heon, Lawrence, Pepino, Powers, Reed, Stella Scamman, Sinclair, Stone and Twombly, the day, important business.

Reps. Julie Brown, Carlson, Dunlap, Stephanie Eaton, Lary, Moody, Rush, Snyder, Solomon, Stevens, and Wells, the day, inclement weather.

Rep. Manney, the day, illness in the family.

Rep. Kimberly Shaw, the day, death in the family.

INTRODUCTION OF GUESTS

Sandy Vandekauter, mother of the singer, guest of the House. Christian Andreica, guest of Rep. Heald. Greg Miller, son of Rep. Miller. Betty Hirschmann, guest of Rep. Hirschmann.

CLERK'S NOTE

When less than two-thirds of the elected membership is present, Part II, Article 20 of the state constitution requires the assent of two-thirds of those present and voting to render their acts and proceedings valid.

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. O'Neil moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 98, relative to law enforcement authority under the safe schools act, removed by Rep. James Wheeler.

HB 252, requiring bail hearings for persons arrested for probation violations, removed by Rep. Jasper.

HB 454, relative to carrying a concealed weapon without a license, removed by Rep. Marple.

HB 645-FN, relative to fire-safe cigarettes, removed by Rep. Buhlman.

HB 451-FN-L, requiring the separate preparation and approval process for the special education budget, removed by Rep. Mead.

HB 612-FN, establishing the New Hampshire volunteer elementary teachers and students program, removed by Rep. Field.

HB 624-FN, relative to penalties in certain health and health-related professions, removed by Rep. Hunt.

SB 39, relative to disinterment of dead bodies, removed by Rep. Rochette.

HB 682-FN, requiring an informational statement regarding the powers of district courts, removed by Rep. Marple.

HB 524, relative to outsourcing of jobs, removed by Rep. Weed.

HB 81, allowing municipalities to grant 2 veterans' tax credits in a single household, removed by Rep. Dickinson.

HB 414, relative to regulation of municipal waste combustors, removed by Rep. Phinizy. Consent Calendar adopted by the necessary two-thirds.

HB 61, extending the family law task force. **OUGHT TO PASS WITH AMENDMENT**

Rep. Carolyn M. Gargas for Children and Family Law: The committee unanimously supported the continuation of the Family Law Task Force with the proviso in the amendment that it could also make additional recommendations consistent with its original mandate. Vote 14-0.

Amendment (0289h)

Amend the bill by replacing section 1 with the following:

1 Extension of the Task Force on Family Law. Notwithstanding 2002, 250:17, II, as amended by 2004, 20:3, the task force on family law, established in 2002, 250:1-3, shall continue in effect until November 1, 2008, for the purpose of monitoring implementation of its report of November 1, 2004 and promoting the recommendations of this report. The task force may make additional recommendations consistent with its original legislative mandate. On or before November 1, 2006, the task force on family law shall issue a progress report, with specific reference to implementation of the 2004 recommendations and any further recommendations, and shall issue its final report on or before November 1, 2008.

HB 207-FN, relative to the appointment of a guardian ad litem in adoption proceedings. **INEXPEDIENT TO LEGISLATE**

Rep. Karen K. McRae for Children and Family Law: The concept of the bill is already being implemented in probate courts and by private adoption attorneys. Older children and DCYF adoptions are assigned an advocate during the adoption proceedings. Vote 13-3.

HB 223, relative to the procedure for assignment of juvenile probation and parole officers. **OUGHT TO PASS WITH AMENDMENT**

Rep. Daniel C. Itse for Children and Family Law: This bill as amended provides that the juvenile probation and parole officers be assigned to judicial districts based upon workload formulas established by the Dept. of Health and Human Services. This amended bill was done with the approval of the judicial branch of the Supreme Court. Vote 12-1.

Amendment (0102h)

Amend the bill by replacing section 1 with the following:

1 Services for Children, Youth and Families; Assignment of Juvenile Probation and Parole Officers. Amend RSA 170-G:15 to read as follows:

170-G:15 Assignment of Juvenile Probation and Parole Officers. The commissioner shall, through rules adopted pursuant to RSA 541-A, assign permanent juvenile probation and parole officers to each judicial district consistent with the workload formula established by the department [in consultation with the New Hampshire Judges Association, and subject to the approval of the presiding justice].

AMENDED ANALYSIS

This bill provides that juvenile probation and parole offices shall be assigned to judicial districts based on the workload formula established by the department of health and human services.

HB 280, relative to acceptance of service of process of divorce petitions and requests for modification. **OUGHT TO PASS WITH AMENDMENT**

Rep. David A. Bickford for Children and Family Law: This bill as amended provides an optional manner of service in divorce and child custody proceedings. The respondent or respondent's attorney may accept service at the court within 10 days, thereby making home service unnecessary. Vote 13-0.

Amendment (0297h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the manner of service in divorce and child custody proceedings.

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Annulment, Divorce and Separation; Optional Manner of Service of Petitions. Amend RSA 458:9 by inserting after paragraph II the following new paragraph:

II-a. In lieu of service as described in paragraph II, the court may, after issuing orders of notice, send notice to the respondent indicating that the petition has been filed and that the respondent or the respondent's attorney may accept service at the court within 10 days. If neither the respondent nor the attorney for the respondent accepts service at the court within 10 days as specified in the correspondence, the petition shall be forwarded to the petitioner for service in accordance with paragraph II.

AMENDED ANALYSIS

This bill permits the respondent in a divorce or child custody proceeding to accept service at the court.

HB 398, removing judicial discretion to include life insurance in a child support order. **INEXPEDIENT TO LEGISLATE**

Rep. David A. Bickford for Children and Family Law: This bill would remove the ability of a court to include life insurance costs on top of child support. The committee felt it should have more information and hopes the Child Support Commission will study the problem of how many insurances and financial "add ons" parents can afford over and above their child support obligation. Vote 16-0.

HB 456-FN, relative to admissions to the state hospital for certain substance abusers. **OUGHT TO PASS WITH AMENDMENT**

Rep. Karen K. McRae for Children and Family Law: This bill amends RSA 644: 5-a making it a violation to inhale the fumes of a toxic substance in order to get "high" or to aid another to get intoxicated by inhaling. The amendment removes the reference to a second offense by a minor because minors are already covered by CHINS. Vote 14-1.

Amendment (0413h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to inhaling toxic vapors.

Amend the bill by replacing section 1 with the following:

1 Inhaling Toxic Vapors for Effect; Substance Abuse Program. Amend RSA 644:5-a to read as follows:

644:5-a Inhaling Toxic Vapors for Effect. A person is guilty of a violation if he *or she* purposely smells or inhales the fumes of any substance having the property of releasing toxic vapors, for the purpose of causing a condition of intoxication, euphoria, excitement, exhilaration, stupefaction, or dulled senses of the nervous system, or possesses, buys or sells any such substance for the purpose of violating or aiding another to violate this section. This section does not apply to the inhalation of anesthesia for medical or dental purposes. ~~[Any court finding that a minor is guilty of a second offense under this section may order the minor to the nearest mental hygiene clinic for examination prior to sentencing. The clinic shall report any finding it makes to the court. The court may order commitment to a public institution, including the New Hampshire hospital for care and treatment as the findings warrant. The court may thereafter modify the order as justice requires.]~~

AMENDED ANALYSIS

This bill clarifies the law regarding inhaling toxic vapors.

HB 109, requiring notification of federal tax requirements in the sale of a principal residence and limiting the disclosure of social security numbers in real estate transfers. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen T. DeStefano for Commerce: This bill has two sections. The first requires the preparer of a deed for the sale of a principal residence to provide the seller with all the exemption amounts allowed by the Internal Revenue Service 10 days prior to the closing. The committee felt that this was not the deed preparer's responsibility and was unrealistic. Part two requires that no social security numbers be placed on real estate forms that can be viewed by others not party to the transaction. As of January 1, 2005 social security numbers have been removed from all National Association of Realtors forms, making this section unnecessary. Vote 19-0.

HB 133, establishing a committee to study single payer health care. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen B. Stepanek for Commerce: This bill and its sponsor were very specific in its intent. This bill would look at installing a state paid, state controlled health insurance plan similar to the Canadian system for the State of New Hampshire. The committee felt that the enormity of making such a dramatic shift in our whole philosophy of providing for and paying for health insurance was beyond what could be examined by a study committee over the summer. Vote 18-1.

HB 196, establishing a committee to study awarding of the bid for health insurance for state employees. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen B. Stepanek for Commerce: Although this proposed study committee has the best of intention, it is not necessary. The Joint Legislative Performance Audit and Oversight Committee (LPAOC) approved the topic of insurance brokers' fees for a performance audit. The fiscal committee concurred with the LPAOC regarding performance audit on this topic. Subsequently the LPAOC approved an expanded scope statement on June 24, 2004, and the fiscal committee approved the same scope on August 11, 2004. This audit will attempt to answer the following question: How efficient and effective were the state's insurance procurement practices during the audit period SFY 1998 through SFY 2005. The audit will focus on the following four issue areas: how the state manages insurance brokers and agents; how the state procures insurance-like coverage and related services; how the state controls the procurement of insurance and related services by agencies across government; and, is planning for self-insuring state employee health benefits and the acquisition of related services adequate according to best practices. This audit started in mid-January and is expected to be completed this fall. Given that this audit is covering the same subject matter and more as that proposed under this bill, the committee felt that this bill was not needed at this time. Vote 19-0.

HB 226-FN, relative to the provision of loss information to employers. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen B. Stepanek for Commerce: The Insurance Department testified that although this bill is well intentioned, the department has had no requests for this information from any members of the small

group. Additional testimony indicates that the insurance department collects this data in batch form. That is, they do not break down that information specific to each individual company. Breaking this information down for each small company presents two problems. The first is the logistical problem of reformatting all the data. The second, and more disturbing, problem is the privacy issue. Unlike a company with 50 or more people in their health insurance plan, a company with 2, 5 or 10 people could use this information to very easily determine who was generating the big insurance costs. This is information we do not want employers to have. Since there has been no request for this information and since the unintended consequence would be to increase costs to provide this information, and more importantly, there would be serious privacy concerns, the committee voted ITL. Vote 18-1.

HB 235, relative to age-based motor vehicle insurance premiums. **INEXPEDIENT TO LEGISLATE**
Rep. James R. Martin for Commerce: The bill takes age out as a factor in setting auto insurance rates. Age has proved to be a very reliable factor in insurance rating and age should be retained as a rating factor. As a result of this bill, teenagers and other youthful drivers would be rated the same as more mature drivers. Removing age as a rating factor will result in increasing auto insurance premiums for those who are not youthful drivers. Vote 19-0.

HB 237, relative to telephone rate disclosure. **INEXPEDIENT TO LEGISLATE**
Rep. Stephen B. Stepanek for Commerce: Although well intentioned, provisions of this bill are already being adhered to by the long-distance carriers. All of their rates are now publicly disclosed in long-distance carrier PUC filings, telephone books and on their internet sites, any of which would provide the information required by this bill. Since this bill is already being complied with by the industry, the committee felt it was unnecessary. Vote 18-1.

HB 303-FN, relative to the fire standards and training and emergency medical services commission. **OUGHT TO PASS WITH AMENDMENT**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill is a housekeeping bill for Fire Standards and Training. It clarifies the authority of the Fire Standards and Training Commission and clarifies the names of the various organizations that serve on the commission. This bill also permits the commission to waive the requirements for fire service personnel who are not first responders. The amendment added to the bill was to correct the incorrect title of the Fire Standards and Training and Emergency Medical Services Commission to its correct title of Fire Standards and Training Commission. Vote 14-0.

Amendment (0378h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the fire standards and training commission.

Amend the bill by replacing sections 1-2 with the following:

1 New Hampshire Fire Standards and Training Commission; Name of Commission and Reference to Firefighter Changed. Amend RSA 21-P:25 to read as follows:

21-P:25 Program Authorized; Definitions.

I. The New Hampshire fire standards and training [~~and emergency medical services~~] commission is hereby established and directed to establish minimum educational and training standards for employment as a full-time [~~firefighter~~] **fire service personnel**, establish minimum selection standards for full-time fire service personnel, establish and publish educational and training standards for fire service personnel, and certify fire service personnel as meeting the educational and training standard. This commission shall also act in an advisory capacity to the director of the division of fire standards and training and emergency medical services with reference to the instruction methods of determining and dealing with the causes of fire, the prevention of fire, techniques of firefighting and rescue, research techniques in firefighting and fire protection, and the administration and management of fire departments. The commission shall meet at least 4 times annually.

II. As used in this subdivision:

(a) "Commission" means the fire standards and training [~~and emergency medical services~~] commission; and

(b) "Director" means the director of the division of fire standards and training and emergency medical services.

(c) "Fire service personnel" means firefighters, fire officers, rescue personnel connected with fire departments, fire prevention officers, inspectors, investigators, fire instructors, public education specialists, fire alarm personnel, or any other personnel who are members of fire departments or fire-related state agencies, whether full or part-time.

2 Members of the Fire Standards and Training Commission. Amend RSA 21-P:26, I to read as follows:

I. There shall be a fire standards and training [~~and emergency medical services~~] commission consisting of 16 members, including the commissioner of safety or designee, the commissioner of education or designee, the attorney general or designee, the chief of the forest protection, the director of the division of fire standards and training and emergency medical services, and the state fire marshal, who shall each serve during his or her continuance in such office, and [~~one active member~~] *members* of each of the following associations or groups chosen by the governor, with the approval of the council, from a list of 3 qualified members submitted by each association or group:

(a) *Two representatives* of the New Hampshire [~~Fire Chiefs Association as represented by a full-time career fire chief;~~] *Association of Fire Chiefs, at least one of whom shall be a chief of a full-time fire department, and one a chief of a volunteer department.*

~~[(b) The New Hampshire Fire Chiefs Association as represented by a volunteer fire chief;~~

~~(c) [(b) One representative of the Professional Firefighters of New Hampshire-International Association of Firefighters[?].~~

~~[(d) [(c) One representative of the Fire Instructors and Officers Association of New Hampshire[?].~~

~~[(e) [(d) One representative of the Federation of Fire Mutual Aid Associations[?].~~

~~[(f) [(e) One representative of the New Hampshire State Firemen's Association[?].~~

~~[(g) [(f) One representative of the insurance industry of New Hampshire, which members shall be recommended by the New Hampshire Association of Domestic Insurance Companies[?].~~

~~[(h) [(g) One representative of the New Hampshire Municipal Association[?].~~

~~[(i) [(h) One representative of the New Hampshire Permanent Firemen's Association[?and].~~

~~[(j) [(i) One representative of the Fire Prevention Society.~~

I-a. The director of the division of fire standards and training and emergency medical services shall be a nonvoting member of the commission.

Amend the bill by inserting after section 3 the following and renumbering the original sections 4 and 5 to read as 6-7, respectively:

4 Organization of Department of Safety; Name of Commission Changed. Amend RSA 21-P:15, III to read as follows:

III. Any transfer involving the division of fire standards and training and emergency medical services undertaken pursuant to this section shall require consultation with the fire standards and training [~~and emergency medical services~~] commission, prior to the transfer being proposed to the governor and council.

5 Advisory Council on Emergency Preparedness and Security; Name of Commission Changed. Amend RSA 21-P:48, I(s) to read as follows:

(s) One member of the fire standards and training [~~and emergency medical services~~] commission, appointed by the chairman.

AMENDED ANALYSIS

This bill:

I. Clarifies the name of the fire standards and training commission and the names of various organizations that serve on the commission.

II. Clarifies the authority of the fire standards and training commission to establish educational and training standards for fire service personnel, not just firefighters.

III. Permits the commission to waive certain requirements for fire service personnel who are not first-responders.

IV. Deletes a statutory section relative to the commission's discretion to reimburse fees.

This bill is a request of the department of safety.

HB 382, establishing a commission to develop a strategic capital plan for department of corrections' facilities. **OUGHT TO PASS WITH AMENDMENT**

Rep. Karl I. Gilbert for Criminal Justice and Public Safety: This bill establishes a committee to develop a strategic capital plan for Department of Corrections facilities. The fourteen member committee will consider the suitability of structures and facilities for the incarceration and rehabilitation of offenders, the consolidation of certain facilities and services, whether the secure psychiatric unit should continue to be a part of the Department of Corrections responsibilities and whether the Department of Corrections should enter into a contract to house offenders from

other states. The Strategic Capital Plan Committee will sunset on November 1, 2017. The presumption is that a plan will have been formulated and prioritized and the Legislature should have begun implementation. Vote 18-0.

Amendment (0362h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to develop a strategic capital plan for department of corrections' facilities.

Amend the bill by replacing all after the enacting clause with the following:

I New Section; Department of Corrections; Strategic Capital Plan Committee. Amend RSA 21H by inserting after section 14 the following new section:

21-H:14-a Strategic Capital Plan Committee.

I. There is established a committee to develop a strategic capital plan for department of corrections' facilities.

II.(a) The members of the committee shall be as follows:

(1) Five members of the house of representatives, at least one of whom shall be a member of the criminal justice and public safety committee, at least one of whom shall be a member of the public works and highways committee, and at least one of whom shall be a member of the finance committee, appointed by the speaker of the house of representatives.

(2) Two members of the senate, appointed by the president of the senate.

(3) The commissioner of the department of corrections, or designee.

(4) The commissioner of the department of transportation, or designee.

(5) One representative from the department of health and human services with expertise in behavioral health, appointed by the commissioner of health and human services.

(6) One member of the state commission on the status of women, appointed by the governor.

(7) Three public members with corrections experience, appointed by the governor.

(b) Legislative members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

III. The committee shall develop a strategic capital plan for all department of corrections' facilities. The committee's duties shall include, but not be limited to, considering:

(a) The suitability of current structures and facilities used by the state for incarceration and rehabilitation of offenders.

(b) Acquiring a suitable site for a women's prison or a new prison complex. Such a complex would involve the centralization of resources and maximize efficiency in the coordination of services to women inmates. The committee should also consider the demographics of Goffstown's older population in particular and the lack of bed space. The committee should decide whether to provide the opportunity to partner with the counties and the federal government to accept their inmates in any new women's prison facility.

(c) Consolidation of certain facilities to create a more efficient delivery of services.

(d) Whether the secure psychiatric unit should continue to be a part of the department of corrections' responsibilities.

(e) The addition of 500 beds in the northern correctional facility and what effect that might have on the corrections system.

(f) Whether the department of corrections should enter into a contract to house offenders from other states.

IV. The members of the committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Eight members of the committee shall constitute a quorum.

V. The commission shall make reports on or before November 1 of each year beginning with November 1, 2005 of its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library.

2 Repeal. RSA 21-H:14-a, relative to the strategic capital plan committee, is repealed.

3 Effective Date.

I. Section 2 of this act shall take effect November 1, 2017.

II. The remainder of this act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a committee to develop a strategic capital plan for department of corrections' facilities.

HB 443, relative to the statute of limitations for fire code violations. **OUGHT TO PASS**

Rep. Jordan G. Ulery for Criminal Justice and Public Safety: This bill establishes that the statute of limitations for a fire code violation begins to run only upon the actual discovery of the violation. The committee listened to the report of the Fire Marshall as to how the addition of one paragraph would close a loophole that allows fraud and deliberate safety violations that may lead to health and safety violations to be prosecuted. Vote 15-0.

HB 556-FN, requiring registration of drug offenders. **INEXPEDIENT TO LEGISLATE**

Rep. Patricia A. Dowling for Criminal Justice and Public Safety: While the committee believes that offenses relative to drugs are indeed serious, testimony revealed that we should not interweave drug convictions within our sex offender registry. In addition, this bill was silent relative to length of time the offenders' names would remain on the registry list. An issue was raised with regard to Part I, Article 28-a of the New Hampshire Constitution relative to unfunded mandates. The Department of Safety indicated that more personnel would be required to input and maintain the database. Testimony suggested that thousands of names would be added to the registry, thus rendering our database of sex offenders cumbersome and less effective. Vote 15-0.

HB 692-FN-L, relative to the county department of corrections. **OUGHT TO PASS WITH AMENDMENT**

Rep. Gene P. Charron for Criminal Justice and Public Safety: By statute, county correctional facilities can hold sentenced inmates for up to one year. This addresses a trend of creative sentencing by sentencing inmates to serve consecutive one year sentences and certainly does not provide the type of programming the state has available for longer sentencing. A two or three year sentence serves no purpose on the county level. This bill provides that for anyone sentenced for greater than one year on the county level, the first year will be charged to the county. Any time beyond that year will be borne by the state. Vote 15-0.

Amendment (0387h)

Amend the bill by replacing section 1 with the following:

1 Place of Commitment; Expenses of Protective Custody. Amend RSA 30-B:15, II to read as follows:

II. *For any person sentenced to a single term of imprisonment of up to one year*, the expense of lodging persons in a county correctional facility under the protective custody of a peace officer under RSA 172:15 or RSA 172-B:3 shall be a charge upon the county. *For persons sentenced to consecutive one-year terms, the expense of lodging under this paragraph for any period of time greater than one year shall be a charge upon the state.*

AMENDED ANALYSIS

This bill requires the state to pay expenses of lodging persons in county department of corrections facilities for any time period greater than one year for persons who are sentenced to consecutive one-year terms.

HB 191-FN, relative to using school building aid for leased classrooms. **OUGHT TO PASS WITH AMENDMENT**

Rep. Timothy E. Easson for Education: This bill was requested by the Department of Education to modify current law to cover the issue of lease-purchase of space in a building or buildings not owned by the school district. The bill enables school building aid for annual grants for leased space. Portable classrooms would still not be eligible for school building aid. Vote 16-0.

Amendment (0018h)

Amend RSA 198:15-b, IV(g) as inserted by section 2 of the bill by replacing it with the following:

(g) Purchase or lease-purchase of mechanical, structural, or electrical equipment, including the cost of installation of such equipment, which is designed to improve energy efficiency or indoor air quality in school buildings. All grant amounts awarded under this subparagraph shall be returned to the state if such equipment is removed from the school building *by the vendor due to the school district's failure to meet the terms of the lease-purchase agreement*. Lease-purchase agreements shall be subject to the requirements of RSA 33:7-e.

Referred to the Committee on Finance.

HB 308, relative to the special education payment distribution schedule and relative to alternative dispute resolution proceedings in special education. **OUGHT TO PASS**

Rep. Claire D. Clarke for Education: This bill was requested by the Department of Education to clarify RSA 186-C:19-b II(c) and RSA 186-C:23 III. In audits conducted in 2000 and 2002, it was noted that the current RSA states that the payment for court ordered placements will be made once a year on or before January 1st. The DOE is requesting to change the RSA, since the department pays the vendor invoice for services within 60 days after receipt of the invoice. The second part of the bill eliminates the word "nonbinding" and replaces it with "confidential" and adds at the end of that paragraph: "The authority of the department of education in alternative dispute resolution proceedings initiated to the provisions of paragraphs I and II." Vote 14-0.

HB 320-FN-A-L, relative to educational scholarship grants to qualifying private educational institutions. **INEXPEDIENT TO LEGISLATE**

Rep. Mark S. Carter for Education: The committee listened to the testimony of the sponsors and understood their concerns. This bill, however, includes no source of revenue to finance the scholarships it offers. Further, the committee felt that property tax relief was needed by certain other New Hampshire residents as a higher priority, should funding ever become available, and one of the sponsors agreed. Vote 16-0.

HB 448-FN, relative to the collection of certain fees by the postsecondary education commission. **OUGHT TO PASS**

Rep. Stephen R. L'Heureux for Education: This bill authorizes the postsecondary education commission, an appointed body of higher leadership in our state, to establish a user-fee structure to collect fees for expenses related to degree-granting, research and study functions and establishes a non-lapsing fund for the deposit of such fees. While the work of the postsecondary education commission comes with an extensive statutory obligation, without this legislation the commission will find itself in a challenging position as it attempts to meet these obligations without this minimal financial assistance. Vote 13-0.

CACR 10, relating to apportionment of representatives. Providing that the legislature apportion representative districts according to certain fixed standards. **INEXPEDIENT TO LEGISLATE**

Rep. Richard B. Drisko for Election Law: This constitutional amendment concurrent resolution would establish new standards by which the legislature would apportion representative districts in future redistricting efforts. In departing from established redistricting practices, CACR 10 exceeds the parameters for deviation. The committee felt that this was such a fatal flaw that it could not recommend the bill. Vote 16-0.

HB 88, establishing a committee to study voter registration affidavits. **INEXPEDIENT TO LEGISLATE**

Rep. Charles F. Weed for Election Law: The committee believes that since we will be hearing and deliberating on a number of bills related to potential voter fraud, including same day registration and voter identification requirements, the issue of registration affidavits will be subjected to close committee scrutiny this term. Therefore, a study committee was not necessary at this time. Vote 14-0.

HB 232, establishing a commission to recodify the election laws. **INEXPEDIENT TO LEGISLATE**

Rep. Richard E. Kennedy for Election Law: This well intended bill would establish a study of many areas of our election laws. After much deliberation, the committee unanimously felt that the questions raised could and should be answered by the review of over 50 bills before the committee. Vote 14-0.

HB 361, relative to filling vacancies on a party ticket in cases of disqualification or death. **INEXPEDIENT TO LEGISLATE**

Rep. Michael G. Biundo for Election Law: The committee unanimously agreed that this bill, enabling political parties to fill vacancies on a party ticket due to the death, disability or change of domicile of a nominated candidate, goes against the intent of the founding fathers. Our representative republic, and its rights and privileges, is sometimes at odds with those that crave efficiency. In the case of a vacancy for the above mentioned reasons, the committee believes that a special election that allows the people to choose who should represent them would be the appropriate thing to do. Vote 16-0.

HB 483, relative to instructions to be placed on the general election ballot. **OUGHT TO PASS**

Rep. Ralph G. Boehm for Election Law: This bill clarifies the general election ballot instructions regarding the number of persons to be voted for. RSA 656:6 was amended in the last session but a

phrase needs to be edited back in. For each office the words "Vote for any ____" needs to be changed to "Vote for not more than ____" This change will make it clearer that the voter should only vote up to a certain number of candidates, but does not need to vote for the maximum number. This returns the text back to the traditional instructions with which the voter is familiar. Vote 15-0.

HB 477-FN, increasing registration fees for pesticides and commercial feeds. OUGHT TO PASS WITH AMENDMENT

Rep. Sheldon S. Sawyer for Environment and Agriculture: This bill was requested by the Commissioner of the Department of Agriculture, Markets and Foods. The committee felt that since the fees had not been increased in 13 years, and surrounding states had fees that were considerably higher, the request was warranted. 10% of the increased pesticide fees will go toward implementing the Integrated Pest Management Fund and 50% of the commercial fees will go to the Agricultural Product and Scale Testing Fund. The remainder will be returned to the general fund. Vote 14-0.

Amendment (0419h)

Amend the bill by inserting after section 2 the following and renumbering the original section 3 to read as 4:

3 Pesticide Control Board; Membership. Amend RSA 430:30, I(j) to read as follows:

(j) One person from a slate of 3 persons presented by the New Hampshire Horticultural [Society] *Industries Council*.

AMENDED ANALYSIS

This bill increases registration fees for pesticides and commercial feeds, and changes the name of a member to the pesticides control board.

This bill is a request from the department of agriculture, markets, and food.
Referred to the Committee on Ways and Means.

HB 234-FN, relative to the development of a closed state municipal information network by the office of information technology. OUGHT TO PASS WITH AMENDMENT

Rep. James B. Coburn for Executive Departments and Administration: This bill defines the responsibilities of the Office of Information Technology (OIT) to include development of a state municipal network and support infrastructure that connects cities, towns, county and state information systems. The amendment removed the term "closed" network, and ensured voluntary participation by the municipalities. The Information Technology Council will also advise the OIT on the implementation of a state municipal network. The committee felt that this is a good step toward improving communication between the state and municipalities. Vote 17-0.

Amendment (0438h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the development of a state municipal information network by the office of information technology.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraphs; Office of Information Technology; Development of State Municipal Network. Amend RSA 4-D:2 by inserting after paragraph XV the following new paragraphs:

XVI. Developing a state municipal network and support infrastructure that connects city, town, county, and state information systems, and permits voluntary participation by municipalities.

XVII. Developing strategies that enable municipal and county agencies to consolidate information technology services and utilize the state municipal network.

2 New Subparagraph; Duties of Information Technology Council; State Municipal Network Added. Amend RSA 4-D:4, I by inserting after subparagraph (g) the following new subparagraph:

(h) Implementation of a state municipal network.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill requires the office of information technology to develop a state municipal information network.

Referred to the Committee on Finance.

HB 545-FN, allowing retired police officers to become teachers without rejoining the state retirement system. **INEXPEDIENT TO LEGISLATE**

Rep. William R. Zolla for Executive Departments and Administration: The fact that this bill applies only to retired police officers and not all members of the system would jeopardize the tax exempt status of the system. To allow all retired members to continue in state or political subdivision full-time positions while still collecting their retirement and making no contribution to the system would seriously drain or jeopardize the system. The system is presently funded at 79% of the liabilities and on a 30 year recovery to full funding. This program would seriously jeopardize that recovery. Once this was explained to the prime sponsor, he requested that the bill be deemed inexpedient to legislate. Vote 16-0.

HB 597-FN-A, relative to the natural heritage inventory program. **OUGHT TO PASS WITH AMENDMENT**

Rep. Maurice L. Pilotte for Executive Departments and Administration: This bill, as amended: (1) changes the name of the Natural Heritage Inventory Program to the Natural Heritage Bureau administered within the Division of Forests and Land of the Department of Resources and Economic Development; (2) updates the organization names of mandated members of the Natural Areas Council, and (3) provides for the establishment of a non-lapsing Natural Heritage Bureau dedicated fund. The fund is to be used exclusively to cover the costs of conducting environmental reviews for known occurrences of rare or endangered species on lands being considered for development (housing, subdivisions, roads) in New Hampshire and to prepare and distribute publications and/or reports of analyzed data on the status, location and distribution of rare and endangered native plants. Fees for the environmental reviews and requests for publication are to be deposited in the dedicated fund. Vote 16-0.

Amendment (0430h)

Amend the bill by replacing section 3 with the following:

3 Rulemaking. Amend RSA 217-A:8, II(g) to read as follows:

(g) ~~[Fees to be charged and collected to cover the costs of services rendered under this act, which shall be deposited into the general fund as unrestricted revenue]~~ *Administration of the fund established in RSA 217-A:7-a.*

Amend the bill by replacing all after section 6 with the following:

7 New Section; Natural Heritage Bureau Fund Established. Amend RSA 217-A by inserting after section 7 the following new section:

217-A:7-a Natural Heritage Bureau Fund Established.

I. The commissioner may charge a fee of \$25 for requests for environmental reviews and a fee not to exceed \$25 to offset the costs of providing publications and/or reports to the public. The fees charged under this paragraph shall be deposited in the fund established in paragraph II.

II. There is hereby established in the office of the state treasurer a fund to be known as the natural heritage bureau fund. Moneys collected under paragraph I shall be deposited in this fund. The fund shall be nonlapsing and continually appropriated to the commissioner for the purposes of providing environmental reviews and for the costs of providing publications and/or reports to the public.

8 New Subparagraph; Natural Heritage Bureau Fund. Amend RSA 6:12, I(b) by inserting after subparagraph (234) the following new subparagraph:

(235) Moneys deposited in the natural heritage bureau fund established in RSA 217A:7a.

9 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

- I. Changes the name of the natural heritage inventory program to the natural heritage bureau.
- II. Updates the organization names of mandated members of the natural areas council.
- III. Changes the destination of the fees charged by the natural heritage bureau.
- IV. Establishes a special fund.

Referred to the Committee on Ways and Means.

HB 605-FN, relative to the funding of the modular building standards program. **INEXPEDIENT TO LEGISLATE**

Rep. Ken Hawkins for Executive Departments and Administration: This bill would add to the Division of Fire Safety and put into statute the positions of an administrator and inspector for

modular building housing standards. Currently under RSA 205-C:6 there is an interim funding provision that says, "until such time as an appropriation is provided in the operating budget of the state, the commissioner, with approval of the fiscal committee of the general court and governor and council is authorized to transfer sufficient funds as are deemed necessary for personnel and expense of administering the modular building standards program." The committee felt that we should not override that budget process by adding, through statute, new employees. Vote 16-3.

HB 629-FN, relative to licensing requirements for certain regulated professions. **INEXPEDIENT TO LEGISLATE**

Rep. Alida I. Millham for Executive Departments and Administration: The intent of this bill is to make the penalties for practicing without a license consistent across certain regulated professions such as: private detectives, professional engineers, architects, land surveyors, natural scientists, foresters and geologists. Upon study, it appeared that a penalty that would work for one profession would not necessary work for another. Also there was no evidence presented that the penalty clause in each of the certain regulated professions practice laws was not working and it was determined that any problems with the clause could be dealt with on a case by case basis. Therefore, the committee recommends inexpedient to legislate. Vote 17-1.

HB 644-FN, transferring certain responsibilities from the department of transportation and the department of health and human services to the department of administrative services. **OUGHT TO PASS WITH AMENDMENT**

Rep. Nelson S. Allan for Executive Departments and Administration: This bill is a remnant of the massive reorganization bill of the last session to improve efficiencies in state government. In an effort to consolidate similar activities to one management chain, this bill transfers responsibility for public works administration and state lease administration from the department of transportation and the department of health and human services, respectively, to the department of administrative services. A reorganization of divisions, bureaus, sections and function within the department of administrative services to integrate the responsibilities is also included. Vote 18-1.

Amendment (0391h)

Amend the bill by replacing section 18 with the following:

18 Compliance With Contracts. Amend RSA 228:5-a to read as follows:

228:5-a Compliance With Contracts.

[E] The performance of contracts for all state *transportation* projects [~~costing over \$25,000~~] shall be inspected to assure compliance with the plans and specifications. The department shall require inspection service by one of the following methods: (a) by the registered architect or professional engineer or his representative, (b) by qualified personnel of [~~the state agency, institution or department concerned~~] *a professional construction inspection company*, or (c) by personnel of the department of transportation. [~~Prior to the execution of a contract for a state project, the department shall notify the state agency, institution or department concerned which method of inspection shall be followed.~~]

H. The department or its agent shall periodically give to the using agency or institution signed statements that the contract is being executed according to specifications including a final statement that the project has been completed in accordance with the specifications.

III. Manifests for such payments shall be made and signed by the using agency, department, or institution. Manifests for final payment shall certify that inspections have been carried out, that the project has been completed in accordance with the specifications and contract, and that it has been accepted. Such manifest shall be certified by the department that the progress reports furnished by the department are correct and that inspections have been made and the provisions of the plans and specifications have been carried out.]

Referred to the Committee on Finance.

HB 668-FN, relative to appeals of decisions by boards, commissions, and agencies regulating professional occupations. **INEXPEDIENT TO LEGISLATE**

Rep. Ken Hawkins for Executive Departments and Administration: This bill was a result of a study committee from the last session. The committee heard testimony from a variety of boards, commissions, agencies, and the attorney general's office. After listening to all of the testimony, we learned that there are over 130,000 licensees that would be covered under this bill. We also learned

that over the last five years there have been only 45 instances where an appeal has been heard. Of these 45, only 5 went to court. The committee did not think that we should be spending over \$100,000 that this bill would cost to address the few appeals that have taken place. Vote 16-2.

HB 674-FN-A, establishing fees for construction plan reviews by the state fire marshal and establishing the position of fire protection engineer in the division of fire safety. **INEXPEDIENT TO LEGISLATE**

Rep. Ken Hawkins for Executive Departments and Administration: Under current statute, the fire marshal's office must review all plans of all state, school and other municipal buildings. However, because of budget cuts in the past, it does not have a fire protection engineer. Now the fire marshal's office is coming to the legislature to reinstate this position. After hearing testimony, the committee believes that the fire marshal's office is still able to comply with the current statute and the fire safety of the New Hampshire citizens is not jeopardized. There is also the problem that it became an unfunded mandate under Part I Article 28-a of the New Hampshire Constitution, in that counties and municipalities may have to appropriate monies to pay for these fees. Vote 13-4.

HB 708-FN, establishing a new state defined contribution retirement plan for new state employees and establishing a committee to study the transition of current employees into the new plan and administration of the new plan. **INEXPEDIENT TO LEGISLATE**

Rep. William R. Zolla for Executive Departments and Administration: This bill establishes a state retirement plan for new employees which is structured as a defined contribution plan. All new employees of the State of New Hampshire after the effective date of the bill would be required to be in the new retirement plan. The bill would also establish a committee to study the transition of current and other employees into the plan and examine issues in the administration of the plan. The committee reviewed the plan and with the help of the system's actuaries determined that the state would have to pay the system an additional \$32.0 million dollars in the first year alone to stabilize the existing plan and maintain the current strategy to bring the system from the 79% liability funding to the required 115% over a 30 year period. In addition, the plan would be for state employees only. The political subdivisions would be mandated to pay in violation of Part I Article 28-a of the constitution. States that have instituted a defined contribution plan, in the past have been returning to the defined benefit plan because their retired employees had been retiring with close to \$5,000 less per year on average than those on a defined benefit plan. In addition, the new defined contribution plan would not have medical, disability or death benefits. The employees in the new plan could not belong to the existing plan and therefore could not share in the benefits of the existing plan. Additional benefits at additional expense would have to be set up for the new plan. The new defined contribution plan would not encourage employees to continue state service in that they could pull out of it at anytime. The existing plan encourages employees to stay with the state until they reach retirement age. This bill would set up a plan that would not be in the best interest of the employees or the state. Vote 18-0.

HB 211, relative to the sale of lead fishing sinkers and jigs and establishing a study committee on New Hampshire's loon population. **INEXPEDIENT TO LEGISLATE**

Rep. Mark S. Clark for Fish and Game: This bill would have postponed the ban on the sale of lead sinkers in New Hampshire from January 2006 to January 2007 and establish a committee to study the loon population in New Hampshire. In 1998, New Hampshire was the first state in the nation to ban the use of small lead sinkers in all lakes and ponds. In 2005, this ban was extended to all fresh water bodies in the state. As a compromise to the legislation passed in 2004, the ban on sales was extended to 2006. It was the consensus of the committee that passing this legislation would be taking a step backward on environmentally friendly legislation. Furthermore, since 13 loon studies have been conducted in the past 15 years and this was an on-going project, the committee felt that another loon study committee was not required. Vote 11-1.

HB 353, relative to consent to inspect lobster and crab gear of license holders. **OUGHT TO PASS WITH AMENDMENT**

Rep. Stephanie Eaton for Fish and Game: The Fish and Game Department requested this bill, and obstermen supported this bill in committee. Statutory authority now exists for random inspection of lobster and crab gear. The problem is that a seacoast district court judge recently ruled that more than implied consent would be needed for a specific gear search. This bill increases Fish and Game's authority to legally haul and examine lobster gear. Vote 11-0.

Amendment (0444h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to consent to haul lobster and crab gear of license holders.

Amend RSA 211:18, I-a as inserted by section 1 of the bill by replacing it with the following:

I-a. Any person who purchases a license to take lobster and crabs in waters of the state of New Hampshire pursuant to this section shall be deemed to have given consent to law enforcement officers to haul lobster and crab gear set for the purpose of taking or keeping lobsters and crabs within the jurisdiction of the state of New Hampshire.

AMENDED ANALYSIS

This bill allows law enforcement personnel to haul lobster and crab gear of persons holding licenses for taking lobster and crabs in the jurisdiction of the state.

HB 409, requiring identification on tree stands, pit blinds, and observation blinds used for hunting. **INEXPEDIENT TO LEGISLATE**

Rep. Paul Mirski for Fish and Game: The bill, as written infers to the land owner upon whose land a fixed or portable tree stand may be found, the potential responsibility for having to notify either law enforcement or the owner of said tree stand of his possession. It also would infer the responsibility for storage of same. Access to lands for the purpose of hunting is tentative at best. Inferring any sort of obligation to landowners who permit access to those licensed by the state for the purpose of hunting ought to be avoided wherever and whenever possible. Vote 13-0.

HB 430-FN-A, establishing a one-day resident fishing license. **OUGHT TO PASS**

Rep. David L. Smith for Fish and Game: The bill will enable a New Hampshire resident to fish in New Hampshire waters for one day. The purpose is to provide a means for someone to try the sport. The Fish and Game Department will realize new revenues immediately, and hopefully will sell more season licenses in the future. All testimony was in favor, and the bill was a request of the Fish and Game Department. The total cost to the licensee is to be \$10.00. Vote 12-0. Referred to the Committee on Ways and Means.

HB 444, relative to the surrender of diseased or injured game animals to the fish and game department. **OUGHT TO PASS WITH AMENDMENT**

Rep. Mark S. Clark for Fish and Game: The committee heard testimony on this bill and there was no opposition. The committee felt that the Fish and Game Director, upon request of a licensee may declare an animal unfit for human consumption. After the surrender and condemnation of the game animal, the animal shall be surrendered to the department. Vote 12-0.

Amendment (0455h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the surrender and condemnation of game animals to the fish and game department.

Amend the bill by replacing section 1 with the following:

1 New Subdivision; Disposition of Condemned Game Animal. Amend RSA 208 by inserting after section 24 the following new subdivision:

Disposition of Condemned Game Animal

208:25 Disposition of Condemned Game Animal. The executive director may condemn, upon request of a licensee, the carcass of a lawfully taken and possessed game animal that is determined unfit for human consumption, provided the condition was not created by the actions of the person who took the animal. The entire game animal shall be surrendered to the department and repossessed. After surrender and condemnation of the game animal the licensee shall be given written notice by the department employee indicating that the department repossessed the animal and that the hunter's privilege to continue to hunt that species has not been jeopardized.

AMENDED ANALYSIS

This bill allows the fish and game department to condemn a game animal taken by a licensed hunter which is determined to be unfit for human consumption.

HB 445, relative to the taking of certain game birds and fur-bearing animals. **OUGHT TO PASS**

Rep. Renney E. Morneau for Fish and Game: This bill adds coyote and opossum to the list of species defined as fur-bearing animals. The bill also removes European partridge from RSA 209:4. The European partridge is also referred to as the Hungarian partridge. This bill was a request from the Fish and Game Department. Vote 13-0.

HB 446, relative to applications for resident hunting or fishing licenses. **OUGHT TO PASS**
Rep. David L. Smith for Fish and Game: This bill removes "Resident Tax Receipt" from the title of RSA 214:11-a; and adds the word "resident" to clarify the type of license cited in the text of the law. The bill clarifies this RSA and does not change any practices currently in place in the Fish and Game Department. No costs are associated with this bill. The bill was presented at the request of the Fish and Game Department. Vote 13-0.

HB 484, allowing deer hunting with a primitive flintlock muzzleloader. **INEXPEDIENT TO LEGISLATE**

Rep. Donald Carlson for Fish and Game: This bill would require the Fish and Game Department to establish, in addition to the present deer hunting season, a new season for primitive flintlock hunting of deer. This is the same bill we have voted down in past years. These weapons can be used in the current muzzle loader season and the committee saw no need for a dedicated season. Vote 10-1.

HB 257, relative to emergency medical and trauma service protocols and quality assurance program. **OUGHT TO PASS WITH AMENDMENT**

Rep. Fran Wendelboe for Health, Human Services and Elderly Affairs: The original bill provides that the medical control board shall, by rules adopted by the department of safety, establish protocols for standards of care and licensing requirements for emergency medical and training service providers. There were a number of local and state entities that worked on the provision that removed the local option to establish more stringent requirements than the state. The bill also would establish a quality assurance program which the amendment changes to a quality management program. The amendment did have a section that would make the protocol changes exempt from RSA 541:A. The committee agreed to pass this bill with the understanding that this bill would then be sent to the Executive Departments and Administration Committee to address the issue of exempting this issue from rules. Vote 17-0.

Amendment (0226h)

Amend the bill by replacing all after the enacting clause with the following:

1 Emergency Medical and Trauma Services; Definition of Off-Line Medical Control. Amend RSA 153-A:2, XV(a) to read as follows:

(a) ~~"Off-line" medical control which includes [education, protocol development, critique, leadership, advice, and quality control]~~ *collaborative oversight of education, advice, critiques, medications, treatment modalities, and performance improvement with the head of the unit.*

2 New Paragraph; Emergency Medical and Trauma Services; Definition of Prerequisites Added. Amend RSA 153-A by inserting after paragraph XVI the following new paragraph:

XVI-a. "Prerequisite" means the education or demonstrated proficiency required as a prior condition to performing select skills or procedures contained in the standardized protocols issued by the emergency medical services medical control board.

3 Emergency Medical Services Medical Control Board; Adoption of Protocols Concerning Patient Care. RSA 153-A:5, III(d) is repealed and reenacted to read as follows:

(d) Submitting to the commissioner standardized protocols concerning patient care to consider for adoption as rules, which shall address prerequisites within protocols governing their use by providers, living wills established under RSA 137-H, durable powers of attorney for health care established under RSA 137-J, and patient-requested, physician generated orders relative to resuscitation.

4 Emergency Medical and Trauma Services; Duties of Commissioner; Rules Relative to Emergency Medical Services Protocols and Ambulance Equipment and Staffing. Amend RSA 153A:7, II to read as follows:

II. The commissioner shall:

(a) Adopt rules, *under RSA 541-A*, with the advice and assistance of the coordinating board, the emergency medical services medical control board, and the trauma medical review committee, in accordance with RSA 153-A:20.

(b) *Adopt rules, which shall be exempt from RSA 541-A, with the advice and assistance of the emergency medical services medical control board, in accordance with RSA 153-A:5, III(d). Before any protocol relative to patient care shall be sent to the commissioner to consider for adoption as rule under this subparagraph, the division shall:*

(1) *Provide notice of the proposed protocol to emergency medical care providers and emergency medical service units.*

(2) *Allow a 60-day period for the receipt of written comments on the proposal.*

(3) Hold public hearings, one in the daytime hours and another during the evening hours, in such a way as to maximize input from emergency medical care providers.

~~[(b)]~~ (c) Oversee the administration of the division by the director.

5 New Paragraph; Rulemaking; Quality Management Program. Amend RSA 153-A:20 by inserting after paragraph XXII the following new paragraph:

XXIII. The administration of the quality management program established under RSA 153-A:34.

6 New Subdivision; Quality Management Program. Amend RSA 153-A by inserting after section 33 the following new subdivision:

Quality Management Program

153-A:34 Quality Management Program

I. In this section:

(a) "Quality management program" means a comprehensive, continuous, and organization-wide evaluation and measurement system established in accordance with the rules and definitions adopted by the division of fire standards and training and emergency medical services. The system shall be used to evaluate and monitor the quality and appropriateness of system operation and the care provided to patients in order to identify sentinel events and trends so that corrective action may be taken by the local provider agency.

(b) "Records" means records of interviews, internal review and investigations, and all reports, statements, minutes, memoranda, charts, statistics, and other documentation generated during the activities of a quality management program. "Records" shall not mean original medical records or other records kept relative to any patient in the course of the business of operating as an emergency medical services unit.

II. Records of a quality management program shall be confidential and privileged and shall be protected from direct or indirect means of discovery, subpoena, or admission into evidence in any judicial or administrative proceeding. However, information, documents, or records otherwise available from original sources are not to be construed as immune from discovery or use in any such civil or administrative action merely because they were presented to a quality management program, and any person who supplies information or testifies as part of a quality management program, or who is a member of a quality management program committee, may not be prevented from testifying as to matters within his or her knowledge, but such witness may not be asked about his or her testimony before such program, or opinions formed by him or her, as a result of committee participation. Further, a program's records shall be discoverable in either of the following cases:

(a) A judicial or administrative proceeding brought by the commissioner to revoke or restrict the license or certification of an emergency medical care provider or other person licensed under this chapter; or

(b) A proceeding alleging repetitive malicious action and personal injury brought against an emergency medical care provider or other person licensed under this chapter.

III. No person or entity shall be held liable in any action for damages or other relief arising from their good faith participation in a quality management program, or from the providing of information to a quality management program or in any judicial or administrative proceeding.

7 New Subparagraph; Exemption from Administrative Rulemaking Requirement. Amend RSA 541-A:21, I by inserting after subparagraph (y) the following new subparagraph:

(z) RSA 153-A:7, II (b), relative to emergency medical services protocols.

8 Repeal. The following are repealed:

I. RSA 153-A:2, XII relative to the definition of a local option.

II. RSA 153-A:20, II, relative to rulemaking governing emergency medical services protocols.

9 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill:

I. Directs the commissioner of the department of safety to adopt rules, in consultation with the emergency medical services medical control board, and exempt from RSA 541-A, relative to protocols concerning patient care, and any prerequisites within the protocols. The bill removes the reference in current law to the provision of local options under medical control and repeals the definition of "local option."

II. Establishes a quality management program for emergency and trauma service providers.

This bill is a request of the department of safety.

Referred to the Committee Executive Departments and Administration.

HB 494, establishing a commission to study creating a controlled substance prescription monitoring program. **INEXPEDIENT TO LEGISLATE**

Rep. Fran Wendelboe for Health, Human Services and Elderly Affairs: The purpose of this bill is to devise a system to monitor the dispensing of class 2 and 3 narcotics. Many members of the committee recognized the benefit of having a system of tracking controlled substance prescriptions to prevent physician shopping and multiple prescriptions. A desire was expressed to not have a commission, but to actually establish such a program now. However, the subcommittee and interested parties clearly realized that more planning was needed. There is a \$50,000 grant application for planning that the Attorney General's office has submitted. The recommendation of the subcommittee was to continue to work internally on the issue during this session and be ready to move forward with a new bill for January 2006 with their recommendation for establishment of a program rather than a commission. The committee will move forward on an ad hoc basis with members of the Boards of Pharmacy, Medicine, and Nursing, the Department of Health and Human Services, the Attorney General's office, the Medical Society, and the chairman of the ad hoc committee on electronic prescription monitoring. Vote 15-0.

HB 681-FN, relative to training, quality assurance, and licensing of assisted living facilities. **OUGHT TO PASS WITH AMENDMENT**

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: The committee unanimously supported the policy positions contained in this bill. The bill gives the DHHS the authority to train residential care professional staff in assessment techniques concerning quality care and treatment services provided by the facility. Once the department has trained the staff members they, in turn, can provide the training to new staff members. In addition, this training reinforces quality assurance programs. These facilities could be providing services to increasing numbers of residents under medicaid reform. Those facilities that qualify under a stringent set of criteria are granted a two-year waiver from inspection. As amended, this bill provides the waiver only if that residential facility has successfully been inspected over a two year period and was "deficiency-free". A one-year waiver will be allowed if there were no "founded" complaints, and if the facility administrator continues in office as well as the director of nursing. The committee supports the work of the New Hampshire Association of Residential Care Homes and the New Hampshire Health Care Association who support the bill. Vote 17-0.

Amendment (0284h)

Amend RSA 151:6-a as inserted by section 3 of the bill by replacing it with the following:

151:6-a Annual Inspection. The department of health and human services shall make at least one annual unannounced inspection of every facility licensed under this chapter. For residential care facilities, defined in RSA 151:2, I(e), the inspection shall include a review of the programs and services offered in the facility to assure that the facility is in compliance with its current level of licensure, and a survey of the most recent individual resident needs determinations where such surveys are not done under the survey and certification process for Titles XVIII and XIX of the Social Security Act, as amended, to assure that the facility and its programs and services are appropriate to the needs of the residents. Inspection results shall be provided as a written report which distinguishes between those findings that do, and those which do not, indicate a pattern of care, or which demonstrate over the period of at least 2 inspections, a trend in the care of residents or management of the facility which has the potential for adversely affecting the health of the residents. The results of this inspection and any later inspection shall be posted in a conspicuous place in the facility in the manner determined by the commissioner of the department of health and human services. The results so posted shall indicate the facilities and services inspected and the results for each such facility or service. This section shall not apply to acute care general hospitals when the department and the joint committee for accreditation of hospitals have agreed on joint inspection standards. *If a residential care facility has been inspected and is found to be deficiency-free for 2 consecutive years it shall be granted a one-year waiver from the provisions of this section; provided, that the facility is not the subject of a founded complaint investigation under RSA 151:6, the facility remains under the same administrator who is responsible for the day-to-day operation of the facility, and the facility remains under the same director of nursing if there is a director of nursing.*

AMENDED ANALYSIS

This bill allows residential care facilities to establish proceedings for a quality assurance program. The bill authorizes the department of health and human services to provide training for persons who own or work in a residential care facility. This bill also grants a one-year waiver from annual inspections to certain facilities under certain conditions.

HB 697-FN, establishing a commission to study medicaid reimbursement rates for pharmacy providers and exempting pharmacy providers from certain requirements of the department of health and human services relative to reimbursement rates. **OUGHT TO PASS WITH AMENDMENT**
Rep. Fran Wendelboe for Health, Human Services and Elderly Affairs: Determining a methodology to establish pharmacy reimbursements has been a long-standing problem and one that has yet to be addressed. New Hampshire law requires that all medicaid providers give the state the lowest price they offer to any other consumer. The law RSA 126-A: 3, III allows the commissioner to waive this requirement for pharmacy providers. Waiver had been the approach taken up to 2004. Pharmaceutical prices are a moving target. The Department of Health and Human Services would be unable to pay each pharmacy at a different rate for the same drug, and so one rate has been established through waiver and paid to all pharmacies. This bill creates a commission charged with coming up with a methodology that makes sense. Taking a serious look at this issue is long overdue. The bill, as amended, was supported at the hearing by independent and chain pharmacies as well as the Department of Health and Human Services. There was no opposition. Vote 18-0.

Amendment (0355h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study medicaid reimbursement rates for pharmacy providers.

Amend the bill by replacing section 4 with the following:

4 Chairperson; Quorum. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named house member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Six members of the commission shall constitute a quorum.

Amend the bill by replacing all after section 5 with the following:

6 Effective Date. This act shall take effect upon its passage.

This bill establishes a commission to study medicaid reimbursement rates for pharmacy providers.

HB 324-FN, relative to requirements for legal marriages. **INEXPEDIENT TO LEGISLATE**
Rep. Bette R. Lasky for Judiciary: As the analysis of this bill states, it is "intended to create a distinction between a lawful marriage which is solemnized by a minister without further state involvement, and a legal marriage, which has certain state procedural requirements and which may or not be solemnized by a religious officiant." Upon testimony and questioning of the sponsors it became apparent that there was no clear consensus or vision as to what they wanted this bill to do. The committee became equally confused. An amendment was submitted that would repeal RSA 457:35 relative to the penalty for solemnization without a valid certificate of marriage. While some members of the committee felt that might have some merit, all in all, we hope if the sponsors want to clarify the "lawful marriage" section of Chapter 457, the Marriage Statutes, that they try to make their message clearer and bring the matter forth again. Vote 18-1.

HB 375, relative to right-to-know requirements when interviewing applicants for certain public positions. **INEXPEDIENT TO LEGISLATE**

Rep. Gregory M. Sorg for Judiciary: This bill would add to the exemptions to the right-to-know law, RSA 91-A, by allowing interviews with prospective candidates for vacancies on municipal boards and commissions to be held entirely in non-public sessions. The committee was not unsympathetic to the sponsor's concern about the clumsiness and potentially invasive consequences of having to recess public hearings and go into non-public session each time personal matters are raised, and that these could discourage qualified persons from applying for these important voluntary, mostly unpaid positions. In view, however, of the important public purposes of the statute and the availability under it of adjournment into non-public session, the committee concluded unanimously that it would be unwise to carve out an additional exemption for positions of such authority as municipal boards and commissions. Vote 18-0

HB 543, establishing a commission to study probate court processes and probate law. INEXPEDIENT TO LEGISLATE

Rep. Peter S. Espieffs for Judiciary: After hearing testimony from the sponsor of this bill, the committee determined there was no need to establish a commission to study the probate court process and probate law. Vote 18-0.

HB 680-FN, relative to witness tampering. INEXPEDIENT TO LEGISLATE

Rep. Gregory M. Sorg for Judiciary: The bill would expand the crime of witness tampering under RSA 641:5 to include inducing or otherwise causing a person to refuse to grant an interview to "any criminal investigative official" unless the refusal "comes as a result of the person's personal decision." The committee was unable to understand how the refusal of a competent adult to grant an interview could be the result of anything other than the person's personal decision. Moreover, there already exist sufficient ways in which to require a reluctant person to disclose relevant information pretrial, including issuing, or simply threatening to issue, a notice of deposition or subpoena to appear before the grand jury. In light of these alternatives, the committee did not believe it necessary or desirable to impose a criminal sanction upon third parties. This bill would also criminalize inducing or otherwise causing a person to answer any questions in a criminal investigation "if such person is under 16 years of age and is a suspect in said criminal investigation." Again, current law provides a sufficient remedy, a motion to suppress, if it is believed that a minor's immaturity has been taken advantage of by an investigator for the state to produce an unknowing or uninformed waiver of his constitutional right not to give evidence against himself, or if the methods used by an investigator for a defendant or potential defendant to obtain answers make their reliability suspect. Vote 18-0.

HB 384, prohibiting mandatory overtime. INEXPEDIENT TO LEGISLATE

Rep. Jarvis M. Adams for Labor, Industrial and Rehabilitative Services: There was much opposition to this bill during the hearing. There is no language in the bill to allow for emergencies, creating potential problems for everyone from the Department of Transportation, the State Police, PSNH, as well as all hospitals. Employees and employers who enjoy the benefit of twelve hour shifts may lose that option unless they become collective bargaining units. For this and other reasons the majority of the committee supported ITL. Vote 13-2.

HB 288-FN, establishing a commission to effect the process for the town of Killington, Vermont to become part of the state of New Hampshire. OUGHT TO PASS

Rep. Michael S. Rollo for Legislative Administration: This bill quite simply establishes a commission to effect the process of annexing the Town of Killington, Vermont to the State of New Hampshire. This bill does not annex the town immediately, but depends on the condition that the State of Vermont establishes a similar commission. The committee believes that in fairness to the Town of Killington, passing this bill at this time will enable Killington more options in negotiating with the State of Vermont. From a fiscal point of view the State of New Hampshire will incur no costs unless the State of Vermont actually does establish a similar commission. Vote 14-0.

HB 630-FN, relative to computer spam and cyber-security. INEXPEDIENT TO LEGISLATE

Rep. David P. Currier for Legislative Administration: A subcommittee was appointed to delve into the issue contained in this bill. The sponsor brought an amendment that significantly changed the bill but didn't necessarily improve it. HB 47, which appeared on the consent calendar on February 23, dealt with a similar issue, with more specific language. Finally, RSA 638 already has penalties regarding damage that may ensue from this type of situation, specifically-damage over \$1000 constitutes a Class A felony and anything under \$500 is a class B felony, so this bill essentially would lessen the penalty regarding computer/cyber damage. The committee voted unanimously to protect the consumer. Vote 13-0.

HB 73, allowing recipients of the National Defense Service Medal to be eligible for the veterans' property tax credit. INEXPEDIENT TO LEGISLATE

Rep. Robert W. Brundige for Municipal and County Government: This bill would extend the Veterans Property Tax credit to recipients of the National Defense Service Medal. There are additional thousands of veterans who would be eligible for the optional veteran's tax credit if this bill became law. Last term the optional veteran's tax credit for eligible honorably discharged was greatly expanded from one hundred dollars up to five hundred dollars and the optional disabled

veteran's tax credit from \$1400 to \$2000 with no set parameters on income and assets. Many towns voted the increase last year and it is on the ballot in many more towns. Whenever a tax credit is given to one group of taxpayers, it shifts the burden to the other taxpayers at this point. The effect of the new tax credit on the taxpayers is unknown. Though the committee feels it would be great if all veterans could be granted the tax credit, it is prudent to observe the effect of last year's increases before authorizing additional tax credits. The committee honors all veterans for their service to our country. However, we feel this bill is premature. Vote 17-1.

HB 110, extending the veterans' property tax credit to all honorably discharged veterans. INEXPEDIENT TO LEGISLATE

Rep. Robert W. Brundige for Municipal and County Government: This bill would extend the veterans property tax credit to all honorably discharged veterans. There are additional thousands of veterans who would be eligible for the veteran's tax credit if this bill becomes law. Last term, the optional veteran's tax credit for eligible honorably discharged veterans was greatly expanded from one hundred dollars up to five hundred dollars and the optional disabled veteran's tax credit from \$1400 to \$2000 with no set parameters on either income or assets. Many towns voted the increase last year and it is on the ballot in many more towns. Whenever a tax credit is given to one group of taxpayers, it shifts the burden to the other taxpayers at this point. The effect of the new tax credit on the taxpayers is unknown. Though the committee feels it would be great if all veterans could be granted the tax credit, it is prudent to observe the effect of last years increases before authorizing additional tax credits. The committee honors all veterans for their service to our country. However we feel this bill is premature. Vote 17-1.

HB 187, allowing municipalities to adopt a property tax cap for persons 80 years of age and older. INEXPEDIENT TO LEGISLATE

Rep. Christopher L. Doyle for Municipal and County Government: The options given the elderly who may be at risk of losing their homes in New Hampshire is a subject of much work in committee. Last session there was extensive work and changes to the elderly exemptions – which would be a decision of the local legislative body. This bill would give an optional tax cap for persons 80 years of age and older without consideration of their income, assets or need. The only criteria are age and length of residency in New Hampshire. Also, the tax cap would be credit, not an amount taken off the property assessment. There was no mention in the bill of whether this tax cap could be used along with the elderly exemption already in place. The committee has to weigh the balance between giving relief from property taxes to certain segments of the population and the shifting of responsibility of that cost to the other taxpayers in the community. The decision is never easy; however the committee feels strongly that income and assets have to be part of the calculation. Vote 14-0.

HB 271, relative to petitions submitted to town meetings. INEXPEDIENT TO LEGISLATE

Rep. Peter B. Schmidt for Municipal and County Government: When a petition for a warrant article is circulated in the local community, there usually are a number of separate pieces of paper going around. This bill requested that the originator of the petition be the first named on each of the circulated petitions. The committee felt that this was not advisable since a petition should only be signed once by each registered voter. The sponsor also agreed that this bill should not move forward and the committee agreed with his sentiment. Vote 19-0.

HB 512, establishing a commission to study the feasibility of empowering the New Hampshire housing finance authority to give reverse mortgage loans. OUGHT TO PASS WITH AMENDMENT

Rep. Peter B. Schmidt for Municipal and County Government: The committee believes such a study is advisable but rather than establishing a separate commission to accomplish this, the committee recommends adding this study to the tasks of the already existing property tax relief study committee under Chapter 88:1 of the laws of 2004. In addition, a representative of the housing finance authority is added to the said property tax relief study committee. The property tax relief study committee that was established in 2004 deals with basically the same issue: property tax relief. The idea of reverse mortgage loans to assist property owners in paying their property taxes definitely warrants additional study. The feasibility of allowing the New Hampshire Housing Finance Authority to perform this task also has merit and deserves to be further examined. The Housing Finance Authority should be allowed representation on this commission for its valuable input. Vote 18-0.

Amendment (0318h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study property tax relief and reverse mortgages.

Amend the bill by replacing all after the enacting clause with the following:

I Committee to Study Property Tax Relief; Changed to Commission; Reverse Mortgages Added.
Amend 2004, 88:1-5 to read as follows:

88:1 [Committee] *Commission* Established. There is established a [committee] *commission* to study property tax relief, without implementing any new broad-based tax.

88:2 Membership and Compensation.

I. The members of the [committee] *commission* shall be as follows:

(a) Five members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

(c) *One member from the New Hampshire housing finance authority, appointed by the governor.*

II. *Legislative* members of the [committee] *commission* shall receive mileage at the legislative rate when attending to the duties of the [committee] *commission*.

88:3 Duties. The [committee] *commission* shall study any and all existing and proposed state and local property tax relief proposals including, but not limited to, abatements, credits, exemptions, [and] reimbursements, *and reverse mortgages*. The commission may seek testimony from people with experience in one or more of the following categories – mortgage banking, credit lending, home equity financing, deferred payment lending, debt resolution consulting, bankruptcy law, bond banking, and the sale and placement of state and local bond issues.

88:4 Chairperson; Quorum. The members of the study [committee] *commission* shall elect a chairperson from among the members. The first meeting of the [committee] *commission* shall be called by the first-named house member. The first meeting of the [committee] *commission* shall be held within 45 days of the effective date of this section. Four members of the [committee] *commission* shall constitute a quorum.

88:5 Report. The [committee] *commission* shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the senate president, the house clerk, the senate clerk, the governor, and the state library in an interim report on or before November 1, 2004 and in a final report on or before November 1, 2005.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill amends the property tax study committee established by 2004, 88 to be a commission to study property tax relief and reverse mortgages.

HB 551-FN-L, relative to the timing of security or assessment in subdivision plat approval. **IN-EXPEDIENT TO LEGISLATE**

Rep. Eric G. Stohl for Municipal and County Government: This bill would allow a developer to delay the posting of a bond or another type of security for road construction and utility installations within a subdivision prior to the issuance of building permits. Presently, the contractor shall provide the security prior to the final approval of the plot. There was testimony stating that obtaining bonds was difficult. The committee feels allowing an applicant to delay the posting of security until the time of building permit issuance, rather than requiring security as a condition of final subdivision approval, would increase the risk that roads and utilities needed for a subdivision would never be completed or that the work would be done poorly. Leaving the law the way it is presently written will afford the most protection for the consumer and the municipality so that the infrastructure for the subdivision will be completed properly. Vote 14-0.

HB 699-FN-A-L, relative to fines for parking violations. **INEXPEDIENT TO LEGISLATE**

Rep. Harry S. Gale for Municipal and County Government: Automobile parking controls are a local responsibility under RSA 47:17, XVIII. Parking ordinances and violations are enacted by municipalities for two primary purposes: 1) to protect the public from unsafe parking activities; and 2) to provide turnover of parking spaces to ensure the economic vitality of downtown areas. This bill would have established within the office of the state treasurer a special off-street fund which would

be funded by the fines collected by the municipalities, minus \$1 that would stay with the local community. By diverting all but \$1 of every parking violation to the state coffers, this bill would bankrupt municipal parking programs designed to foster downtown business growth and fund new off-street parking. Municipalities would then be left with insufficient funding not only to fund new parking garages and surface parking, but also to fund parking enforcement activities. The committee wants to continue allowing local communities to manage their parking affairs. Vote 19-0.

HB 157, establishing a study committee to review contracting practices for public works. OUGHT TO PASS WITH AMENDMENT

Rep. Saghir A. Tahir for Public Works and Highways: This bill establishes a commission to study procurement methods for public works projects by state and local government agencies. This bill is the culmination of two years consideration by the committee, which began last session with SB 429 (2004) which was the subject of Interim Study. This bill involves issues related to labor policy, local control and constitutional implications in New Hampshire. The committee felt that this study will address these very important issues in a comprehensive manner and include participation by all groups affected. Vote 14-0.

Amendment (0209h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study procurement methods for public works projects by state and local government agencies.

Amend the bill by replacing all after the enacting clause with the following:

1 Commission Established. There is established a commission to study procurement methods for public works projects by state agencies, municipalities, counties, school districts, and all other political subdivisions.

2 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Two members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Two members of the senate, appointed by the president of the senate.

(c) The commissioner of the department of labor, or designee.

(d) One member representing unionized labor, appointed by the governor.

(e) One member representing non-unionized labor, appointed by the governor.

(f) One member representing unionized contractors, appointed by the governor.

(g) One member representing non-unionized contractors, appointed by the governor.

(h) One employee of county government, familiar with county procurement practices, appointed by the governor.

(i) One employee of city or town government, familiar with local procurement practices, appointed by the governor.

(j) One employee of a school district, familiar with school procurement procedures, appointed by the governor.

(k) One member of the New Hampshire State Apprenticeship Council, appointed by that organization.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

3 Duties. The commission shall study contracting practices for public works projects by state agencies, municipalities, counties, school districts, and all other political subdivisions. The study shall recommend the public procurement policies that promote the best economic and work quality value from public construction and infrastructure investment. The commission shall base its recommendation on consideration of the following: labor law enforcement, workplace safety compliance, worker's compensation compliance, access to workforce and apprenticeship training, in-state job creation and community economic development, communities' uncompensated care burdens and other social welfare costs, and such additional criteria as the commission deems appropriate.

4 Chairperson; Quorum. Members of the commission appointed pursuant to subparagraphs I(a)-(e) of section 2 of this act shall be voting members of the commission; the remainder shall be non-voting members of the commission. The voting members of the commission shall elect a

chairperson from among the members. The first meeting of the commission shall be called by the first-named house member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Seven members of the commission shall constitute a quorum.

5 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2006.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

The bill establishes a commission to study procurement methods for public works projects by state and local government.

HB 340, renaming Jones Brook Wildlife Management Area in Strafford County for former commissioner of fish and game Ellis Hatch, Jr., and naming a building at the Sandy Point Discovery Center in Stratham for former governor Hugh Gregg. **OUGHT TO PASS WITH AMENDMENT**
Rep. Paul C. Smith for Public Works and Highways: This bill, as amended, names a building under construction after the late Governor Hugh Gregg, for his long time endeavors regarding conservation in New Hampshire. It also names a wildlife management area after the former Chairman of the Fish and Game Commission, Ellis Hatch, who was instrumental in the purchase of the land and its expansion. Mr. Hatch has spent countless hours not only helping establish this wildlife area, but encouraging use of the area and teaching children and adults alike the benefits of fly fishing and use of the area. The Fish and Game Department supports this bill as does the NH Wildlife Federation, the NH Fish & Game Commission and the Moose Mountain Regional Greenway Organization, a land conservation organization in the area of the wildlife management area. In fact, there was only one opponent to the bill testifying in committee and since the bill does not rename Jones Brook or the pond, merely naming the wildlife management area, that testimony is invalid. The amendment added the provision that signage for the two locations would not come from state funds. Vote 14-3.

Amendment (0312h)

Amend the title of the bill by replacing it with the following:

AN ACT renaming Jones Brook Wildlife Management Area in Strafford County for former chairman of the fish and game commission, Ellis Hatch, Jr., and naming a building at the Sandy Point Discovery Center in Stratham for former governor Hugh Gregg.

Amend the bill by replacing all after the enacting clause with the following:

1 Renaming Jones Brook Wildlife Management Area. The Jones Brook Wildlife Management Area, located in the county of Strafford, shall be renamed as Ellis Hatch, Jr. Wildlife Management Area in honor of former chairman of the fish and game commission, Ellis Hatch, Jr.

2 Naming of a Certain Building at Sandy Point Discovery Center. A certain building that shall be constructed at the Sandy Point Discovery Center in the town of Stratham shall be named the Hugh Gregg Coastal Conservation Center in honor of former governor Hugh Gregg.

3 Signage. The cost of design, construction, maintenance, and installation of any signage, replacement signage, or other markers required under sections 1 and 2 of this act shall not be a charge to the state. However, the design, construction, and installation of any signage or other markers required under this act shall be approved by the fish and game department.

4 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill renames Jones Brook Wildlife Management Area in Strafford County for former chairman of the fish and game commission, Ellis Hatch, Jr., and names a building at the Sandy Point Discovery Center in Stratham for former governor Hugh Gregg.

HB 540-FN, relative to the disposal of real property purchased with highway or turnpike funds. **OUGHT TO PASS**

Rep. James B. Rausch for Public Works and Highways: The Long Range Capital Planning and Utilization Committee requested this legislation to ensure our highway and turnpike funds are reimbursed to the fullest extent from the resale of surplus property. The Council on Resources and Development (CORD) process was also a cause for improper reimbursement of funds, potentially

in violation of federal law. The bill removes the requirement for approval from the CORD before the disposal of property purchased with state or federal highway funds, or with turnpike funds. The bill further mandates that the sale of real property shall be at not less than current market value and the proceeds from the sale shall be credited to either the highway fund or turnpike fund, whichever fund provided money for the original purchase. Vote 16-1.

HB 59-FN-L, relative to municipal responsibility for septage disposal. **OUGHT TO PASS WITH AMENDMENT**

Rep. Harry C. Merrow for Resources, Recreation and Development: Currently, RSA 485-A:5b requires that each municipality must insure that an approved septage facility is available for its residents for a period of five years but lacks requirements for design guidelines. This bill requires a written agreement with the recipient facility and a method of determining the annual capacity needed. It also requires the Department of Environmental Services to report compliance status each year to the legislature. Vote 15-0.

Amendment (0371h)

Amend the bill by replacing all after the enacting clause with the following:

1 Purpose. The general court acknowledges that providing for the proper disposal of domestic septage at New Hampshire facilities is becoming increasingly difficult for septage haulers serving residents who rely on septic systems. It is clear that additional in-state disposal capacity is needed to handle existing and future septage volumes. Further, the municipal responsibility provisions of RSA 485-A:5-b do not clearly articulate what is intended by the terms "shall provide, or assure access to" a department of environmental services approved facility. This act is intended to clarify terms of compliance.

2 Water Pollution and Waste Disposal; Municipal Responsibility for Septage. RSA 485-A:5-b is repealed and reenacted to read as follows:

485-A:5-b Municipal Responsibility.

I. Each municipality shall either provide, or assure access to, a department of environmental services approved septage facility or a department approved alternative option for its residents.

II. For the purposes of paragraph I, "provide, or assure access to" shall mean a written agreement with a recipient facility, or department approved alternative option, indicating that the recipient facility agrees to accept septage generated in that municipality. The municipality shall consider providing sufficient annual capacity equal to the number of households with septic multiplied by the average septic tank capacity of 1,000 gallons divided by the average septage pumpout frequency of 5 years.

3 Report. The commissioner of the department of environmental services shall report to the legislature on the current compliance status of all municipalities under the revised terms of RSA 485-A:5-b, on November 1, 2006 and November 1 each year thereafter through 2010.

4 Effective Date.

I. RSA 485-A:5-b, II as inserted by section 2 of this act shall take effect January 1, 2006.

II. The remainder of this act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill clarifies a definition of access to a septage facility.
Referred to the Committee on Finance.

HB 134, relative to certain restrictions on the Piscataquog River. **INEXPEDIENT TO LEGISLATE**

Rep. Dennis F. Abbott for Resources, Recreation and Development: This bill attempts to cure a local problem on the Piscataquog River in Goffstown and Manchester. Currently RSA 270:121 limits speed on the river to 40 MPH during daylight hours and to headway speed after dark. This bill adds a further restriction which prohibits power boats with engines in excess of 55 horsepower and jet skis (personal watercraft). The committee believes that problems created by personal watercraft can be best minimized by enforcement of present boating laws by the Division of Safety Services and local law enforcement. Prohibiting certain types of watercraft would be discriminatory. Vote 14-1.

HB 279, relative to the classification of Spofford Lake in Chesterfield, New Hampshire. **OUGHT TO PASS WITH AMENDMENT**

Rep. John M. Gibson for Resources, Recreation and Development: This bill, as amended, reclassified Spofford Lake and its tributaries from Class "B" to Class "A", the highest Classification

for water bodies in the state. We take this action upon the recommendation of representatives of the Department of Environmental Services, who testified that the classification of Spofford Lake needed to be upgraded. The amendment adds the tributaries to Spofford Lake to this "A" classification. Vote 15-0.

Amendment (0234h)

Amend the bill by replacing section 1 with the following:

1 Spofford Lake in Chesterfield, New Hampshire; Classification Changed to Class A. On and after the effective date of this act, the surface waters of Spofford Lake and its tributaries in Chesterfield, New Hampshire shall be classified in accordance with the provisions of RSA 485A:8, as Class A waters.

AMENDED ANALYSIS

This bill changes the classification of Spofford Lake and its tributaries in Chesterfield, New Hampshire to Class A.

HB 433-FN-A, relative to planning for public access, recreation, and road management in the Connecticut Lakes headwaters working forest and making an appropriation therefor. **OUGHT TO PASS** Rep. Frank A. Tupper for Resources, Recreation and Development: When the state purchased a conservation easement on 142,000 acres in Pittsburg, Stewartstown and Clarksville in 2003, the requirements of the agreement included the development of a public access and recreation management plan and a road management plan. These plans must dovetail with the landowners forest stewardship plan to provide a comprehensive management strategy for the whole property. The committee unanimously supports this concept and hopes that the House Finance Committee will support \$175,000 to the division of Parks and Recreation (DRED) for this purpose. Vote 17-0. Referred to the Committee on Finance.

HB 185, establishing a committee to study the unique nature of geothermal properties capable of supporting energy for production. **OUGHT TO PASS WITH AMENDMENT**

Rep. Lawrence C. Ross for Science, Technology and Energy: This bill would establish a study committee to maximize incentives for the voluntary use of renewable energy in New Hampshire, as defined in RSA 374-F:3. The amendment combines two bills (HB 185 that related only to geothermal energy and HB 194 that addressed solar energy) into one bill that addresses all forms of renewable energy as defined in the statutes such as geothermal, wind, solar, and biomass fuels and hydro. Vote 13-0.

Amendment (0437h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study maximizing the incentives for the voluntary use of renewable energy in New Hampshire as defined in RSA 374-F:3.

Amend the bill by replacing all after the enacting clause with the following:

1 Committee Established. There is established a committee to study maximizing the incentives for the voluntary use of renewable energy in New Hampshire as defined in RSA 374-F:3.

2 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Two members of the senate, appointed by the president of the senate.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties. The committee shall:

I. Identify the benefits of renewable energy in New Hampshire, principally focusing on geothermal, wind, solar, and hydro energy. The committee should consult prior studies relating to the use of renewables to facilitate this purpose.

II. Determine incentives for utilizing renewable energy in New Hampshire without additional taxes or fees on citizens.

III. Assess the current state of technology relating to harvesting geothermal, wind, solar, and hydro energy in New Hampshire. The committee shall compile information, including:

(a) The location of known and potential geothermal deep sites and their characteristics, e.g., steam, hot water, temperature, and deleterious materials that limit use.

(b) Methodology and practicality for use of geoexchange heating and cooling on single unit commercial, industrial, or residential buildings.

(c) The location of past, existing, or potential wind farms and the commercial viability of wind power.

(d) Practicality of solar technology for individual dwelling units and for public utility solar-based electricity production.

(e) Policies which address the preservation of existing small scale hydroelectric generation facilities, as well as the development of new facilities.

(f) Policies which encourage the continued and expanded use of biomass products for the production of electric energy.

(g) Other considerations that may allow New Hampshire to optimize use of renewable energy.

IV. Solicit input from at least one member of the New Hampshire geological survey, from public utilities with expertise on renewable energy, and from any other persons with information or expertise relevant to the committee's objectives.

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Four members of the committee shall constitute a quorum.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2005.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a committee to study maximizing the incentives for the voluntary use of renewable energy in New Hampshire as defined in RSA 374-F:3.

HB 330, establishing a commission to study the feasibility of establishing a statewide non-emergency 311 telephone system. **INEXPEDIENT TO LEGISLATE**

Rep. Roy D. Maxfield for Science, Technology and Energy: This bill would create a study committee to explore the feasibility of establishing a statewide non-emergency 311-telephone system. This proposal reoccurs annually either studying or establishing such a service. The committee appreciates the sponsors' concerns but our previous deliberations have determined that the costs to phone subscribers far outweigh the advantages for this service in our rural state. Existing services currently provided by chambers of commerce and non-profits in the state adequately supply non-emergency information to interested parties. Vote 13-1.

HB 568, establishing the greater Derry-Salem cooperative alliance for regional transportation. **OUGHT TO PASS**

Rep. George N. Katsakiores for Transportation: This bill starts the process of establishing a regional transit agency to serve the communities of Derry, Salem, Londonderry, Plaistow, Windham, Pelham, Sandown, Danville, Hampstead, Chester, and Atkinson. The 11 town region mentioned above remains the only urbanized area of New Hampshire that lacks regular transportation service. Focus by three regional planning commissions, 11 municipalities, and more than 30 health and human services providers under the New Hampshire D.O.T. effort looked at a broad range of options for coordinating existing demand-response human transportation service in the region. The agencies studied opportunities to expand services by securing new non-state funding. The plan is to put in place a regional transit agency recognized by the FTA to manage the funds. This bill is enabling legislation that would establish the regional transit agency known as the Greater Derry-Salem Cooperative Alliance for Regional Transportation (CART). Vote 13-0.

HB 291-FN-A, establishing a research and development tax credit against the business profits tax. **INEXPEDIENT TO LEGISLATE**

Rep. Priscilla P. Lockwood for Ways and Means: At the request of the sponsor, this bill was voted ITL. HB 466 covers the same subject and will be discussed later. Vote 20-0.

HB 462, prohibiting road toll refunds for idling time. **OUGHT TO PASS**

Rep. Kevin L. Camm for Ways and Means: This bill prohibits road toll refunds for idling time. A few years ago we changed the way diesel fuel was taxed. Instead of the "miles over the road" approach, we tax fuel at the pump, per gallon. The Department of Safety has had more and more requests for "off road" refunds such as idling time for warming up engines and cabs. This will end that practice and hopefully conserve both fuel and the environment. Vote 20-0.

HB 503-FN-A-L, relative to distribution of tobacco settlement funds. **INEXPEDIENT TO LEGISLATE**

Rep. Shawn N. Jasper for Ways and Means: The bill would have distributed the first \$3 million dollars of the tobacco settlement fund to the tobacco use prevention fund. Under current law this will automatically happen, beginning July 1, 2005. The bill would have then shared any monies over \$43 million dollars equally between the state general fund and the counties. As the revenues projected to be received by the state will be less than \$40 million dollars in FY06 and in future years, the entire bill becomes moot. Vote 20-0.

HB 523-FN-L, increasing the marriage license fee. **INEXPEDIENT TO LEGISLATE**

Rep. Kevin L. Camm for Ways and Means: This bill would increase the marriage license fee from \$45 to \$90. Of that increase, \$37 would go to the Domestic Violence Grant Program and \$8 would go to the clerks. Testimony from those familiar with that program requested that this revenue source not be utilized at this time. The committee agreed. Vote 18-0.

HB 693-FN, making the low and moderate income homeowners property tax relief program a tax cap and applicable to current year tax liability. **INEXPEDIENT TO LEGISLATE**

Rep. Susan W. Almy for Ways and Means: The bill was drafted to reduce the statewide property tax for low-income payers, but the author wanted to provide relief for the whole property tax at the local level. The sponsor agreed to ITL the bill in order to submit a correct version next year. Vote 20-0.

REGULAR CALENDAR**HB 450-FN-A** extending the commission to study child support and related child custody issues and relative to hiring economists to assist in revising the child support guidelines and making an appropriation therefor. **OUGHT TO PASS WITH AMENDMENT**

Rep. David J. Bettencourt for Children and Family Law: This bill extends the commission to study child support and related child custody issues that was established in 2003. Additionally, this bill makes an appropriation to the Department of Health and Human Services for the purpose of hiring an economist to establish models to assist the commission, which is required to review guidelines at least every four years. Vote 14-3.

Amendment (0394h)

Amend the bill by replacing section 1 with the following:

1 Extension of Commission to Study Child Support and Related Child Custody Issues. The commission to study child support and related child custody issues, established in 2003, 277 (HB 310), shall be extended for the purpose of serving as a continuing resource to the general court and the department of health and human services in revising the child support guidelines. The incumbent house members of the commission shall call the meeting to reconvene the commission. Upon reconvening, the commission shall elect a chairperson and vice chairperson from among the members and shall meet with such frequency as the commission deems appropriate. A vacancy on the commission shall be filed by the original appointing authority. If a legislative member of the commission is unable to serve on the commission in his or her original capacity, the commission may invite the member to continue to participate as a public member, with all the rights and responsibilities of other members of the commission. The commission shall submit a final report relative to implementation of its recommendations on or before December 1, 2006, to the speaker of the house of representatives, the senate president, the governor, the house clerk, the senate clerk, and the state library.

Adopted.

Committee report adopted by the necessary two-thirds.

Ordered to third reading.

HB 470-FN-A, relative to the annual funding of placement costs for juvenile diversion and alternative disposition programs and relative to an effectiveness study of such programs. **OUGHT TO PASS**
Rep. Mary Stuart Gile for Children and Family Law: The Incentive Fund Program allocates funds to every county to encourage cities, towns and counties to develop and maintain prevention programs, court diversion and alternative dispositions for juveniles. Prevention programs are defined in statute as programs and activities to prevent child abuse and neglect. This bill raises the amount from 6% to 6-1/2% of funds allocated for foster care, adoption subsidies and residential care, excluding YDC, and adds a requirement for an evaluation report on the effectiveness of all programs receiving funds. Vote 16-1.

Committee report adopted by the necessary two-thirds.

Referred to the Committee on Finance.

HB 662-FN-A, making an appropriation to the department of health and human services for family mutual support services. **OUGHT TO PASS WITH AMENDMENT**

Rep. Anthony P. Matarazzo for Children and Family Law: This bill makes an appropriation to the Department of Health and Human Services to maintain the customary funding for family mutual support services for the mentally ill. Testimony in favor of the bill was unanimous. The amendment ensures that DHHS has adequate latitude to exercise its best judgment in contracting for these support services. The committee wishes to ensure the level of these services through adequate funding. Vote 12-5.

Amendment (0414h)

Amend the bill by replacing sections 1 and 2 with the following:

1 Appropriation for Family Support Services. The sum of \$210,000 is hereby appropriated for the fiscal year ending June 30, 2006, and the sum of \$210,000 is hereby appropriated for the fiscal year ending June 30, 2007, to the department of health and human services for the purposes of the family mutual support system under RSA 126-P. Specifically the funds shall be used for programs that provide some or all of the following services: education of family members; education of the public; education designed to reduce stigma related to mental illness; an information and referral line; a resource library; or a website. The governor is authorized to draw a warrant for said sums out of any money in the treasury not otherwise appropriated.

2 New Paragraph; Family Mutual Support Organizations; Definition Added. Amend RSA 126P:1 by inserting after paragraph II the following new paragraph:

II-a. "Family mutual support organization" means a nonprofit corporation which provides family to family education and support to families of individuals with mental illness and to the individuals themselves and the provision of public education to reduce the stigma associated with mental illness and other family mutual support services enumerated in RSA 126-P.

Adopted.

Committee report adopted by the necessary two-thirds.

Referred to the Committee on Finance.

HB 623-FN, relative to licensing requirements in the insurance and financial services industries. **OUGHT TO PASS WITH AMENDMENT**

Rep. Stephen B. Stepanek for Commerce: The intent of this bill is to strengthen and more clearly define licensing requirements and penalties against a person who shall practice or attempt to practice as an insurance producer within the State of New Hampshire. This bill will specifically make one guilty of a Class A misdemeanor if a natural person, or a felony if any other person, if they practice as an insurance producer within the state. Vote 13-6.

Amendment (0370h)

Amend the bill by inserting after section 10 the following and renumbering the original section 11 to read as 12:

11 Section Reference Added. Amend RSA 402-J:1, II to read as follows:

II. This chapter applies to all persons required to be a licensed producer pursuant to the provisions of RSA 402:15; RSA 405:15; RSA 405:24; ~~RSA 405:44-a~~; RSA 405:44-b; RSA 406-C:3; RSA 407-C:3; RSA 408:42; RSA 416-A:15; RSA 418:5-a; RSA 420-A:7; RSA 420-B:18; RSA 420-F:3; and New Hampshire code of administrative rules Ins 2501.03.

Adopted.

Committee report adopted by the necessary two-thirds.

Referred to the Committee on Criminal Justice and Public Safety.

HB 339, relative to electioneering at polling places. **OUGHT TO PASS WITH AMENDMENT**
 Rep. Richard B. Drisko for Election Law: This bill, as amended, requires the moderator, prior to election day, to post a description of the areas where electioneering is permitted and prohibited at the polling place. The amendment extends the posting time to three days and clarifies the moderator as the responsible person. The committee felt that applying uniformity to the rules surrounding electioneering locations would simplify the election process. The moderator would still maintain control of the process. Vote 12-4.

Amendment (0411h)

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Preparation of Polling Place; Arrangement; Electioneering. Amend RSA 658:9 by inserting after paragraph III the following new paragraph:

IV. By 5:00 p.m. 3 business days before any election, the moderator shall post at each polling place a description of areas where electioneering activities are permitted and prohibited, pursuant to RSA 659:43, at that polling place.

AMENDED ANALYSIS

This bill requires the moderator to post a description of areas where electioneering is permitted and prohibited at polling places.

Adopted.

Committee report adopted by the necessary two-thirds.

Ordered to third reading.

CLERK'S NOTE

The constitutionally required two-thirds of the membership for action by majority vote was declared present.

REGULAR CALENDAR (CONT'D.)

HB 669-FN, setting the laboratory fee schedule for certain environmental samples. **OUGHT TO PASS**

Rep. Pamela V. Manney for Executive Departments and Administration: This bill updates the fee schedule for certain services offered by the Department of Environmental Services laboratory. Since the lab's fee schedule was reviewed in 1999, many changes have occurred with the net result of increased laboratory operating costs brought on by the following: the increased cost of laboratory consumables; the increased cost of salaries, especially benefits which have increased substantially, although lab staffing levels have remained at 1999 levels or below; the 50% rent increase expected in FY 2006; the increased request to undertake new projects in response to federal, state or department program initiatives, often with no associated funding source; the costs incurred to meet the quality assurance requirement for accreditation by the National Environmental Laboratory Accreditation Conference (NELAC). The committee supports this bill as it addresses the needs of the DES laboratory to cover its increased operational costs while still maintaining its low fees, and enabling private citizens to continue using the DES laboratory at a cost savings over private industry. Vote 12-6.

Committee report adopted.

Referred to the Committee on Ways and Means.

HB 103-FN-A, making an appropriation to the department of education for charter schools. **IN-EXPEDIENT TO LEGISLATE**

Rep. Kenneth H. Gould for Finance: State funding for charter schools will be considered in the state operating budget. There is a line in the budget for charter schools and the appropriation on that line for 2006/2007 will be part of the budget deliberation. Vote 21-0.

Adopted.

HB 686-FN, relative to the judicial branch family division. **OUGHT TO PASS WITH AMENDMENT**

Rep. Frances D. Potter for Judiciary: This bill establishes a Family Court Division which will operate in all ten counties of the state. The bill is the result of a twelve-year process initiated by the legislature which included successful pilot programs in two counties. The goal of this legisla-

tion is to consolidate all family matters into the jurisdiction of one court to better serve our citizens. The Family Court Pilot Program has proven itself over a period of twelve years in two counties, one rural, one urban (Grafton & Rockingham), winning strong support from legislators, the families it serves, and the court system. About half the cases in family courts start with divorce actions. Family Court judges are compassionate and become skilled in working with these petitioners. The Family Court will assume jurisdiction over family matters, scattered around the Superior, District and Probate courts, which at times have been unevenly considered. Related matters from the present docket of the Superior Court, including divorce, nullification of marriage, alimony, paternity, custody and support, will be heard in this new court. In addition, the Family Court cases transferred from District to Family Court will include child neglect and abuse, juvenile delinquency, children in need of services and domestic violence. Cases transferred from Probate Court will include adoption, guardianship of minors, changes of name and termination of parental rights. The administrative judges of the Probate, District and Superior courts expressed enthusiasm about the proposal. They, and committee members, believe that this system will be user-friendly, offering a less adversarial proceeding, use of mediation and referees when deemed desirable and be efficient and cost-effective. The concentration of all records in one place will streamline the process with minimal increased costs. An additional advantage to this concept is that the state will be eligible for twice the amount it is currently receiving in federal 4-D funds. This bill is the result of years of study, discussion and collaboration among the legislature, the court system, and the people that we serve. Each element of this legislation has been carefully thought out, from jurisdictional matters to personnel placement and court locations. Using existing resources, this court will be able to best serve our families in crisis by providing a compassionate, efficient and less adversarial system. Vote 14-3.

Amendment (0386h)

Amend the bill by replacing all after the enacting clause with the following:

I New Chapter: Judicial Branch Family Division. Amend RSA by inserting after chapter 490-C the following new chapter:

CHAPTER 490-D JUDICIAL BRANCH FAMILY DIVISION

490-D:1 Judicial Branch Family Division Established. The general court hereby organizes, constitutes, and establishes the judicial branch family division. The goals of the family division are the respectful treatment of all citizens by justices, marital masters and other family division staff, the prompt and fair resolution of family issues by justices and marital masters specially selected and trained to deal effectively with such issues, the use of alternative dispute resolution to reduce the adversarial nature of proceedings involving families, and the assignment of all family matters of a single family to one family division justice or marital master located in a family division court that is geographically accessible to the family.

490-D:2 Jurisdiction. Notwithstanding any law to the contrary and except for the limited need to allow an existing case to proceed with the same judge who had presided over it before the implementation of the judicial branch family division, following implementation of the division at a division site in accordance with RSA 490-D:5, jurisdiction over the following matters shall be exclusively exercised through the judicial branch family division as procedurally jurisdiction was previously exercised in the superior, district, and probate courts:

I. Petitions for divorce, nullity of marriage, alimony, custody of children, support, and to establish paternity.

II. Actions for support or custody for children of unwed parties.

III. Actions under RSA 169-B, relating to delinquent children except for concurrent jurisdiction with the district court to enter temporary detention orders under RSA 169-B:11, III and 169-B:12, IV(b).

IV. Actions under RSA 169-C, relating to abused and neglected children except for concurrent jurisdiction with the district court to enter orders under RSA 169-C:6, VI and RSA 169C:6-a.

V. Actions under RSA 169-D, relating to children in need of services except for concurrent jurisdiction with the district court to enter orders under RSA 169-D:8, I, RSA 169-D:9-a, and RSA 169-D:10.

VI. Actions under RSA 173-B, relating to protection of persons from domestic violence except for concurrent jurisdiction with the superior and district courts to enter temporary protective orders under RSA 173-B:4.

VII. The adoption of children in abuse and neglect cases pursuant to RSA 169-C, termination of parental rights cases pursuant to RSA 170-C, and guardianships of the person of minors pursuant to paragraph VIII. Jurisdiction over private, agency, and international adoptions shall remain with the probate court.

VIII. The guardianship of the person of minors. In cases involving the guardianship of both the person of a minor and the estate of the same minor, jurisdiction shall remain with the probate court.

IX. The termination of parental rights.

X. The change of names of persons who apply therefor in matters relating to jurisdiction in paragraphs I-IX.

490-D:3 Equity Jurisdiction. Notwithstanding any law to the contrary, the judicial branch family division shall have the powers of a court of equity in cases where subject matter jurisdiction lies with the judicial branch family division. Suits in equity where subject matter jurisdiction lies with the judicial branch family division including, but not limited to, petitions for divorce, nullity of marriage, alimony, custody of children, support, and other similar proceedings may be heard upon oral testimony or depositions, or both, or when both parties consent, or service having been made and a notice of the time and place of the hearing having been given, when both parties appear. Such suits may be heard by any justice of the judicial branch family division at any time, but nothing contained in this section shall be construed as limiting the power of the judicial branch family division to have issues of fact framed and tried by a jury, according to the rules in equity, or the course of such proceedings at common law.

490-D:4 Sites. The judicial branch family division shall operate at the following sites and such other sites as the supreme court, from time to time, determines, covering the following districts as delineated in RSA 502-A:1, except as otherwise indicated:

Grafton County

I. The courthouses in Grafton county which will house the judicial branch family division shall be the court facility in North Haverhill, the Plymouth District Court, the Littleton District Court, and the Lebanon District Court.

II.(a) Matters arising in municipalities located within the Haverhill district shall be heard in the court facility in North Haverhill.

(b) Matters arising in municipalities located within the Plymouth-Lincoln district shall be heard in the Plymouth District Court.

(c) Matters arising in municipalities located within the Littleton district shall be heard in the Littleton District Court.

(d) Matters arising in municipalities located within the Lebanon-Hanover district shall be heard in the Lebanon District Court.

Rockingham County

III. The courthouses in Rockingham county which will house the judicial branch family division shall be the court facility in Brentwood, the Portsmouth District Court, the Salem District Court, and the Derry District Court.

IV.(a) Matters arising in municipalities located within the Portsmouth district, the Hampton district, and the towns of Newfields, Newmarket, and Stratham shall be heard in the Portsmouth District Court.

(b) Matters arising in municipalities located within the Salem district shall be heard in the Salem District Court.

(c) Matters arising in municipalities located within the Auburn district (except for the towns of Deerfield, Northwood, Nottingham, and Raymond) and the Derry district shall be heard in the Derry District Court.

(d) Matters arising in municipalities located within the Exeter district (except for the towns of Newfields, Newmarket, and Stratham), the Plaistow district, and the towns of Deerfield, Northwood, Nottingham, and Raymond shall be heard in the court facility in Brentwood.

Coos County

V. The courthouses in Coos county which will house the judicial branch family division shall be the Colebrook District Court, the Berlin District Court, and the court facility in Lancaster.

VI.(a) Matters arising in municipalities located within the Colebrook district shall be heard in the Colebrook District Court.

(b) Matters arising in municipalities located within the Berlin-Gorham district shall be heard in the Berlin District Court.

(c) Matters arising in municipalities located within the Lancaster district shall be heard in the court facility in Lancaster.

Carroll County

VII. The courthouses in Carroll county which will house the judicial branch family division shall be the court facility in Ossipee and the District Court for northern Carroll County.

VIII.(a) Matters arising in municipalities located within the district for southern Carroll county shall be heard in the court facility in Ossipee.

(b) Matters arising in municipalities located within the district for northern Carroll county shall be heard in the District Court for northern Carroll County.

Sullivan County

IX. The courthouses in Sullivan county which will house the judicial branch family division shall be the Newport District Court and the Claremont District Court.

X.(a) Matters arising in municipalities located within the Newport district and the New London district in Merrimack county shall be heard in the Newport District Court.

(b) Matters arising in municipalities located within the Claremont district shall be heard in the Claremont District Court.

Strafford County

XI. The courthouses in Strafford county which will house the judicial branch family division shall be the Dover District Court and the Strafford county court facility in Dover.

XII.(a) Matters arising in municipalities located within the Dover-Somersworth-Durham district shall be heard in the Dover District Court.

(b) Matters arising in municipalities located within the Rochester district shall be heard in the Strafford county court facility in Dover.

Belknap County

XIII. The courthouse in Belknap county which will house the judicial branch family division shall be a facility located in Laconia, provided, however, that the facility meets the minimum standard prescribed by the New Hampshire court accreditation commission pursuant to RSA 490:5-c.

XIV.(a) Matters arising in municipalities located within the Laconia district shall be heard in the judicial branch family division facility in Laconia.

(b) Matters arising in the towns of Sanbornton and Tilton shall be heard in the Franklin District Court in Merrimack county.

Hillsborough County

XV. The courthouses in Hillsborough county which will house the judicial branch family division shall be the Hillsborough County Superior Court for the northern judicial district, the Goffstown District Court, the Hillsborough County Superior Court for the southern judicial district, the Milford District Court, and the Merrimack District Court.

XVI.(a) Matters arising in municipalities located within the Manchester district shall be heard in the Hillsborough County Superior Court for the northern judicial district.

(b) Matters arising in municipalities located within the Goffstown district shall be heard in the Goffstown District Court.

(c) Matters arising in municipalities located within the Nashua district shall be heard in the Hillsborough County Superior Court for the southern judicial district.

(d) Matters arising in municipalities located within the Milford district shall be heard in the Milford District Court.

(e) Matters arising in municipalities located within the Merrimack district shall be heard in the Merrimack District Court.

(f) Matters arising in Hillsborough county municipalities located within the Jaffrey-Peterborough district shall be heard in the Jaffrey-Peterborough District Court in Cheshire county.

(g) Matters arising in municipalities located within the Hillsborough district shall be heard in the Concord District Court in Merrimack county.

Merrimack County

XVII. The courthouses in Merrimack county which will house the judicial branch family division shall be the Franklin District Court, the Hooksett District Court, and a facility located in Concord, provided, however, that the facility meets the minimum standard prescribed by the New Hampshire court accreditation commission pursuant to RSA 490:5-c.

XVIII.(a) Matters arising in municipalities located within the Franklin district shall be heard in the Franklin District Court.

(b) Matters arising in municipalities located within the Hooksett district shall be heard in the Hooksett District Court.

(c) Matters arising in municipalities located within the Concord district, the Henniker district, and the Hillsborough district shall be heard in the judicial branch family division facility in Concord.

(d) Matters arising in municipalities located within the New London district shall be heard in the Newport District Court in Sullivan county.

Cheshire County

XIX. The courthouses in Cheshire county which will house the judicial branch family division shall be the Jaffrey-Peterborough District Court and a facility located in Keene, provided, however, that the facility meets the minimum standard prescribed by the New Hampshire court accreditation commission pursuant to RSA 490:5-c.

XX.(a) Matters arising in municipalities located within the Jaffrey-Peterborough district shall be heard in the Jaffrey-Peterborough District Court

(b) Matters arising in municipalities located within the Keene district shall be heard in the judicial branch family division facility in Keene.

490-D:5 Implementation Plan. On the effective date of this chapter, the judicial branch family division shall be operational in Grafton and Rockingham counties. For the remaining counties, the judicial branch family division shall be made operational by order of the supreme court, generally in the order listed in RSA 490-D:4.

490-D:6 Judges and Marital Masters. The supreme court shall select and designate certain district and probate court judges as judicial branch family division judges and certain superior court marital masters as judicial branch family division marital masters. The designation of judges shall be based upon the judge's knowledge of, commitment to, and expertise in family law matters. The number of judicial branch family division judges and marital masters shall be based upon a review of anticipated caseload, population, judicial time and efficiency, available judicial resources, and other relevant criteria, including information from the weighted caseload system. When the judicial branch family division is fully implemented, all superior court marital masters shall be designated as judicial branch family division marital masters.

490-D:7 Nominations and Appointments of Marital Masters.

I. The administrative judge of the judicial branch family division shall recommend persons to the governor and council for initial appointment as marital masters. In recommending candidates for initial appointment as marital masters under this chapter, the division shall utilize the procedures and standards described in superior court rules in effect as of July 1, 2004, except as otherwise provided in this chapter.

II. For appointments of new marital masters, the administrative judge of the judicial branch family division shall submit to the governor the name of a nominee. The governor may accept the candidate nominated by the administrative judge and submit the candidate to the council for confirmation or may reject the candidate submitted by the administrative judge, and request a new nominee. If the council rejects a candidate for confirmation, the governor shall request a new nominee.

III. Marital masters shall serve an initial term of 3 years. Subsequent reappointments shall be made in accordance with judicial branch family division rules. During appointment terms, the authority and responsibility to conduct annual performance reviews, and termination, if necessary, shall be with the administrative judge of the judicial branch family division.

490-D:8 Qualifications of Marital Masters.

I. Marital masters shall possess the following qualifications:

(a) Professional experience in family law matters.

(b) Legal and personal qualities including, but not limited to:

(1) Knowledge of family matters, including related matters such as tax and pension law;

(2) Personal maturity so as to understand and make decisions on matters before the court; and

(3) Personal qualities of patience and understanding of the difficult personal matters which are the subject of divorce and a willingness to deal with complex family matters in a non-adversarial manner.

II. Each marital master shall complete a course in court process and procedures and mediation and negotiation.

490-D:9 Recommendations of Marital Masters. All recommendations of marital masters shall be signed by a judge.

490-D:10 Referee. The judicial branch family division, with the consent of the parties shall, and without the consent of the parties may, commit to one or more referees any cause at law or in equity, or the determination of any question of fact pending in the court wherein the parties are not, as matter of right, entitled to a trial by jury; and with the consent of the parties shall so commit any other cause or the determination of any other question of fact.

490-D:11 Staff. The supreme court shall identify a mechanism by which to assign and transfer such existing staff in the superior, district, and probate courts as is necessary to operate the judicial branch family division. Where possible, staff performing functions related to the jurisdiction of the judicial branch family division shall be transferred into similar positions in the division. The number of judicial branch family division staff shall be based upon a review of anticipated caseload, population, available staff resources, and other relevant criteria, including information from any weighted caseload system.

490-D:12 Judicial Branch Family Division Clerks. The administrative judge of the judicial branch family division shall appoint a clerk with responsibility for each judicial branch family division site. In the interest of the effective administration of justice, any such clerk may have responsibility for one or more judicial branch family division sites. Judicial branch family division clerks shall have the same duties as clerks of the superior and district courts and as registers of probate with respect to the judicial branch family division jurisdiction which was previously within the superior, district, and probate courts. Judicial branch family division clerks shall hold office during the pleasure of the administrative judge of the judicial branch family division.

490-D:13 Alternative Dispute Resolution. In implementing the judicial branch family division, the supreme court shall utilize alternative dispute resolution to reduce the adversarial nature of proceedings involving families. RSA 458:15-a shall be applicable to cases in the judicial branch family division.

490-D:14 Statutory References. During the implementation of the judicial branch family division, references in statutes involving the jurisdiction of the division to the superior, district, or probate courts shall be deemed to include the judicial branch family division. Following the full implementation of the division, those references shall be deemed to be to the judicial branch family division where it has exclusive jurisdiction of a subject matter and to the superior, district, or probate court and the judicial branch family division where the judicial branch family division has concurrent jurisdiction with one or more of those courts.

2 Designation of Part-time District Court Justice as Full-time District Court Justice. Amend RSA 491-A:3, IV to read as follows:

IV. The supreme court, after reviewing population, caseload, judicial time and efficiency, available judicial resources, *the needs of the judicial branch family division*, and other relevant criteria may request the governor and council to designate a sitting part-time justice as a full-time justice. The court may recommend certain justices; however, the governor and council shall not be bound by that recommendation. Upon designation, that justice shall become full-time. Prior to making its request, the supreme court shall receive the approval of the fiscal committee and there shall be funds in the court's budget specifically appropriated for the salary and benefits of an additional full-time district court justice.

3 Designation of Part-time Probate Court Judge as Full-time Judge. RSA 491-A:4, IV is repealed and reenacted to read as follows:

IV. The supreme court, after reviewing population, caseload, judicial time and efficiency, available judicial resources, the needs of the judicial branch family division, and other relevant criteria, may request the governor and council to designate a sitting part-time probate judge as a full-time judge. The court may recommend certain judges; however, the governor and council shall not be bound by that recommendation. Upon designation, that judge shall become full-time. Prior to making its request, the supreme court shall receive the approval of the fiscal committee and there shall be funds in the court's budget specifically appropriated for the salary and benefits of an additional full-time probate judge.

4 New Paragraph; Venue; Notice; Optional Manner of Service of Petitions. Amend RSA 458:9 by inserting after paragraph II the following new paragraph:

II-a. In lieu of service as described in paragraph II, the court may, after issuing orders of notice, send notice to the respondent indicating that the petition has been filed and that the respondent or

the respondent's attorney may accept service at the court within 10 days. If neither the respondent nor the attorney for the respondent accepts service at the court within 10 days as specified in the correspondence, the petition shall be forwarded to the petitioner for service in accordance with paragraph II.

5 Repeal. The following are repealed:

- I. RSA 490:33 – 490:35, relative to the family division.
- II. RSA 491:20-a – 491:20-c, relative to marital masters.

6 Effective Date.

I. Paragraph II of section 5 of this act shall take effect July 1, 2005 at 12:01 a.m.

II. The remainder of this act shall take effect July 1, 2005.

Adopted.

Committee report adopted.

Referred to the Committee on Finance.

HB 698-FN, relative to the penalty assessments. **OUGHT TO PASS WITH AMENDMENT**

Rep. Stephen J. Shurtleff for Judiciary: Current law provides funding for NH Police Standards and Training Council training fund using the existing statutory method without causing any financial burden to local communities or taking money from the state's general fund. Since 1971, NH Police Standards and Training Council has provided quality training to New Hampshire's law enforcement community without cost to our municipalities. To meet the growing demands placed on law enforcement officers in this changing world and to maintain New Hampshire's high professional standards, the committee recommends passage of this bill. Vote 15-4.

Amendment (0360h)

Amend RSA 188-F:31, III(b) as inserted by section 1 of the bill by replacing it with the following:

(b) If, pursuant to a negotiated plea, a case as described in paragraph I is placed on file with a finding of guilty, the amount of \$50 per offense shall be collected and shall be divided and designated as follows: 75 percent of the amount collected to the police standards and training council training fund and 25 percent to the victims' assistance fund as provided in paragraph IV unless the judge finds that the provisions of paragraph V apply.

AMENDED ANALYSIS

This bill changes the assessment method for the penalty assessment when a judge suspends all or all or part of the fine to apply the penalty assessment to the original fine amount.

The bill also establishes a new \$50 penalty assessment on certain cases which are placed on file with a finding of guilty, pursuant to a negotiated plea.

Adopted.

Committee report adopted.

Referred to the Committee on Finance.

HB 604-FN, relative to discounts in electronic toll collection and discontinuing the use of tokens. **OUGHT TO PASS WITH AMENDMENT**

Rep. John A. Graham for Public Works and Highways: This bill eliminates the use of tokens on the turnpike system on January 1, 2006. With the advent of E-Z Pass over the next few months the committee felt the time has come to do away with tokens. The Department of Transportation estimates that this action will save approximately \$750,000 a year in the purchase and handling of tokens. The amendment eliminates the mandate that a toll discount for E-Z Pass users be offered to New Hampshire residents due to a recent federal court ruling that found such discounts, based on residency only, to be in violation of the commerce clause of the U.S. Constitution. However, discounts can be offered to all who acquire their E-Z Pass transponders from the State of New Hampshire. The committee strongly urges the Governor and Executive Council to expeditiously establish the discount that will be offered to E-Z Pass users. The committee further recommends that the Governor and Council consider whether there should be different discount rates for the main turnpike system as opposed to the on-off ramp plazas (i.e. Merrimack). All other states on the eastern seaboard have done away with tokens save New Jersey, which is still allowing their use until the existing supply runs out. If we are to keep our turnpike system a financially sound and effective operation, we need to move ahead with E-Z Pass and eliminate the costly use of tokens. The NH Department of Transportation will make recommendations for the appropriate E-Z Pass discounts to the Executive Council. Vote 14-0.

Amendment (0249h)

Amend the title of the bill by replacing it with the following:

AN ACT discontinuing the use of tokens.

Amend the bill by deleting section 2 and renumbering the original sections 3 and 4 to read as 2 and 3, respectively

AMENDED ANALYSIS

This bill discontinues the use of tokens on the state turnpike system.

Adopted.

Rep. Mooney requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

Franklin, Peter

Phinizy, James

HB 625-FN-L, relative to bonding limits for the Winnepesaukee river basin project. OUGHT TO PASS WITH AMENDMENT

Rep. Franklin T. Tilton for Public Works and Highways: The intent of this bill was to remove a bonding limit of \$3,000,000 for the Winnepesaukee River Basin Project (WRBP), a regional authority which has constructed and operated public sewage disposal facilities for 10 Winnepesaukee river basin municipalities. The cost for operating and administering the WRBP is borne by the member communities. As the highly successful program has completed 25 years in operation, capital improvements exceeding that limit for renovation and modernization are needed. Subsequently, it was recognized that existing legislation allows the WRBP to borrow funds at appropriate levels from the State Revolving Fund (SRF) program. The amendment includes language that states this authority clearly and directly. Because of this, the amendment does not change the bonding limit. Vote 14-0.

Amendment (0365h)

Amend the title of the bill by replacing it with the following:

AN ACT authorizing borrowing from the state revolving loan fund for the Winnepesaukee river basin project.

Amend the bill by replacing section 1 with the following:

1 Winnepesaukee River Basin Control; Expenditures; State Revolving Fund Borrowing Added.
Amend RSA 485-A:49, 1 to read as follows:

I. With the approval of the governor and council, the department may use state, federal or other funds accruing to the department *and funds borrowed from the state water pollution control and drinking water revolving loan fund established under RSA 486:14* for the acquisition of existing sewage or waste treatment facilities, design and construction of new sewage or waste treatment facilities, alteration, improvement or additions to existing sewage or waste treatment facilities, pumping stations and intercepting sewers, inclusive of operation and maintenance of same; the terms operation and maintenance of treatment facilities shall include maintenance of all buildings, equipment, supplies, and administrative costs associated with the management of the treatment facilities, and for such other purposes as may be involved in the operation of an effective regional pollution control program. The department may purchase, take and hold for the state such materials, lands, easements and rights-of-way as may be required for the purposes of this subdivision. If the department is unable to purchase lands, easements or rights-of-way at what is deemed reasonable compensation, the department shall request the governor and council to appoint a commission to assess the damages sustained by the owner, and thereupon proceedings shall be conducted in the same manner and in accordance with provisions of RSA 230.

AMENDED ANALYSIS

This bill authorizes borrowing from the state water pollution control and drinking water revolving loan fund for the Winnepesaukee river basin sewage treatment project.

Adopted.

Committee report adopted and ordered to third reading.

HB 655-FN-A, increasing the boat registration fee for public boat access and exotic aquatic weed control. **INEXPEDIENT TO LEGISLATE**

Rep. Judith T. Spang for Resources, Recreation and Development: This bill proposes a fee increase on the boat registration surcharge by adding 60% for the statewide boat access fund, 40% for the control of exotic aquatic weeds and 40% for the lake restoration and preservation fund. These surcharges were last increased in 2002 by more than 100%. The committee considers it premature to request further increases until we receive a report from the statutory committee established to study the best approach for controlling exotic weeds. Vote 13-4.

Adopted.

HB 622-FN-A, establishing an income tax. **INEXPEDIENT TO LEGISLATE**

Rep. Mary E. Griffin for Ways and Means: This bill would establish an income tax at the rate of 4 percent with certain exemptions. As income tax is paid first to the state in which you work, New Hampshire would receive no tax from those residents who work out of state, leaving the burden of this tax to fall only on those New Hampshire residents who work here. Even most of the proponents of an income tax found this to be a fatally flawed bill and could not support it. Vote 16-3.

Rep. Soltani requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted.

Reps. Stepanek, Hebert, Hamm and Lund voted Nay and intended to vote Aye.

HB 219, relative to permitting audio and video recording on school buses. MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. Stephen R. L'Heureux for the Majority of Education: This bill seeks to allow audio recording in conjunction with video recording in the interior of a school bus. Overwhelming testimony indicated that video recording is currently utilized on buses where the bus driver or a student has documented a safety concern. When this occurs, jointly, the school district or school and the bus company place a video recorder in the bus to record the actions of students on that bus. If an incident occurs, the tapes are reviewed for a disciplinary proceeding. The committee heard testimony of a variety of inappropriate actions and violence that have placed the students at risk. It is currently illegal to audio record these actions. When a local school district contracts with a bus company, they jointly, at the local level, will determine the policies to utilize recording, the time frame to keep such a recording and who retains ownership of the tapes. The amendment addresses these contractual issues. Vote 13-3.

Rep. Clifford A. Newton for the Minority of Education: The right to privacy is so special that violations of it are, in most cases, a class B felony. This bill allows conversations of 5-year olds to be recorded and examined by people other than their parents, with said conversation now allowable for purposes of prosecution. This bill offers no opt-out plan for parents whose children have no choice but to ride a bus where all of their conversations and family references will be taped. There was no testimony of criminal acts where audio would have made a difference. Thorough examination and debate of all the legal aspects concerning something so important as privacy should have taken place.

Majority Amendment (0364h)

Amend RSA 570-A:2, II(k) as inserted by section 1 of the bill by replacing it with the following:

(k) The owner or operator of a school bus, as defined in RSA 259:96, to make an audio recording in conjunction with a video recording in the interior of the school bus while students are being transported to and from school or school activities provided that the school district authorizes such recording, the school bus company or school district provides notification of such recording to the parents and students, and there is a sign informing the occupants of such recording prominently displayed on the school bus. The length of time which the recording is retained

and the ownership of the recording shall be determined by the school district or subject to agreement between the school district and the school bus company. In no event, however, shall the recording be retained for longer than 60 days unless the school district determines that the recording is relevant to a disciplinary proceeding, or a court orders that it be retained for a longer period of time.

Majority amendment adopted.

Reps. Balboni and Ingbertson spoke against.

Rep. Packard spoke in favor.

Reps. Soltani and Newton spoke against and yielded to questions.

Rep. Hess spoke in favor and yielded to questions.

LAIID ON THE TABLE

Rep. Kurk moved that **HB 219**, relative to permitting audio and video recording on school buses, be laid on the table.

Rep. Balboni requested a roll call; sufficiently seconded.

The question being to lay HB 219 on the table.

and HB 219 was laid on the table.

Rep. Hirschmann declared a conflict of interest and did not participate.

REGULAR CALENDAR (CONT'D.)**(Deputy Speaker Weyler in the Chair)**

HB 276, relative to nominations by nomination papers. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Michael G. Biundo for the Majority of Election Law: This bill would reduce the number of nomination papers needed to run for certain offices. Although well intended by the sponsor, it is the opinion of the majority of the committee that this bill sets an unreasonably low number of nomination papers needed to run for certain state offices. The committee believes every person should have ballot access but that reasonable requirements must be met. Vote 11-4.

Rep. Charles F. Weed for the Minority of Election Law: Right now, a candidate can attain "ballot access," in other words, run as a candidate on the ballot in the November general election, by winning the Republican or Democratic primary in September and securing that party's nomination. A candidate can also get on the ballot by petition of a certain number of registered voters. This bill reduces the number of required petitions by a substantial amount, thus allowing, in the view of the minority of the committee, a better and fairer election process. Part I, Article 11 of the NH Constitution points out that, "Every inhabitant of the state, having the proper qualifications, has equal right to be elected into office." Constitutional qualifications do not include membership in either of the two major parties.

Rep. Weed requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

HB 399-FN, relative to the Informed Consent for Abortion Act. MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.

Rep. Bonnie G. Mitchell for the Majority of Health, Human Services and Elderly Affairs: This bill interferes with the physician/patient relationship. There are already generally accepted medical and ethical procedures which exist between patient and physician that require a patient to be given materials which would lead to an informed consent. The requirement of a 24 hour waiting period is also objectionable. There is no other medical procedure that requires a reflection period. The waiting period represents unequal access to care for the poor, the young and those living in rural areas. The use of "unborn child" terminology is not medical terminology. This bill also forces physicians to give inaccurate medical information under threat of imprisonment. Finally, this bill is an attempt to clearly limit access to abortion for a population with already limited access. Vote 9-7.

Rep. Fran Wendelboe for the Minority of Health, Human Services and Elderly Affairs: In *Roe v. Wade*, the U.S. Supreme Court established a right to choose to terminate or continue pregnancy, but as Justices O'Connor, Kennedy, and Souter opined in plurality in *Casey*, "it does not at all follow that the State is prohibited from taking steps to ensure that this choice is thoughtful and informed." The U.S. Supreme Court in *Casey v. Planned Parenthood* clarified a state's interest on the very issues contained in this bill. There are two main purposes of this bill: 1) that a woman considering an abortion be given unbiased material on risks and alternatives at least 24 hours before an abortion; and 2) adopting the construction of "Medical Emergency" accepted by the U.S. Supreme Court in *Casey*. A synopsis of the informed consent section of this bill would be that at least 24 hours before an abortion, a woman shall be provided: 1) the name of the physician who will perform the abortion; 2) medically accurate information that a reasonable patient would consider in the decision, a description of the proposed abortion method, the immediate and long term medical risks, alternatives to abortion; 3) The probable gestational age of the unborn child at the time the abortion is to be performed and the anatomical and physiological characteristics of the unborn child at the time the abortion would be performed; 4) The medical risks to carrying a child to term. Additionally, information regarding the liability of the father for support, a list of public and private agencies able to assist a woman throughout her pregnancy, upon childbirth, and after - including adoption. All of these provisions were upheld in *Casey* and deemed by the court not to be an undue burden on a woman considering abortion. Specific mention in the decision held that it does not interfere with a patient/physician relationship, that a 24 hour period does not represent an undue burden on any class of society when weighed against the interest of the state as enumerated in *Roe* and further explained in *Casey*. The majority had an opportunity to change provisions it considered to be objectionable with an amendment and chose to not support the amendment. The minority asks that the ITL be overturned, so that an amendment addressing every area of substance the majority objected to may be brought forward.

Reps. Hagan, Bettencourt and Field spoke against.

Reps. Mitchell and Miller spoke in favor.

Rep. Wendelboe spoke against and yielded to questions.

Rep. Hunt spoke in favor and yielded to questions.

Rep. Hagan requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.
Rep. Phyllis Katsakiores voted Yea and intended to vote Nay.
The House recessed at 12:40 p.m.

RECESS**(Speaker Scamman in the Chair)**

The House reconvened at 1:40 p.m.

REGULAR CALENDAR (CONT'D.)

HB 574-FN, requiring the reporting of burn injuries. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Rogers J. Johnson for the Majority of Health, Human Services and Elderly Affairs: As first introduced, this bill required health professionals to report every burn injury to the State Fire Marshall's Office. A subcommittee found that issue to be onerous, as did the New Hampshire Hospital Association and the New Hampshire Medical Society. The amendment requires health professionals to report burn injuries only if they believe the injuries resulted from the commission of a crime or the handling of explosives. The amended version has the support of the Hospital Association, the Medical Society, and the Fire Marshall's Office. The fiscal note will also be amended and, if this bill is passed by the House, it will be removed. Vote 16-1.

Rep. Bonnie G. Mitchell for the Minority of Health, Human Services and Elderly Affairs: While the reporting of burn injuries could be valuable data for gathering information for the commission of crimes it appears to single out the explosives industry. If the intent of this bill is intended to gather information to support legislation to point to the explosives industry, it should state so.

Majority Amendment (0464h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Reporting of Burn Injuries. Amend RSA 153 by inserting after section 11 the following new section:

153:11-a Reporting of Burn Injuries.

I. In any case where a health care professional is called upon to examine or treat a person for a burn injury and has reasonable cause to suspect that the burn injury was sustained in connection with the commission of a crime, or in the handling of explosives, or if a burn injury requires impatient admission to a hospital, the health care professional shall report such burn injury to the state fire marshal immediately by telephone or electronic means and followed within 48 hours by a report in writing, if so requested by the state fire marshal.

II. A health care practitioner who, acting in good faith in reporting under this section or participating in a related investigation or proceeding, makes a report pursuant to paragraph I, shall be immune from civil or criminal liability for the act of reporting or participating in a related investigation or proceeding.

III. The state fire marshal shall adopt rules, pursuant to RSA 541-A, relative to the reporting of burn injuries required under paragraph I of this section.

IV. The bureau of emergency medical services shall provide notification to the state fire marshal of burn injury reports which it receives from emergency medical services providers. In the event that a patient receives emergency medical treatment for a burn injury described under this section before being treated in a hospital or a physician's office, the health care practitioner shall not be required to report the burn injury as provided under this section.

2 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill requires health care professionals to report burn injuries to the state fire marshal in certain circumstances. The bill grants rulemaking authority to the state fire marshal for the purposes of the bill.

Majority amendment adopted.

Majority committee report adopted and ordered to third reading.

HB 79, relative to protective orders in domestic violence cases. MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.

Rep. Donald R. Buxton for the Majority of Judiciary: The committee considered the testimony of many professionals, including the NH Chiefs of Police Association and domestic violence advocacy groups, as well as others, all of whom were opposed to this bill. We heard that domestic violence is all about power and that the present law establishes a balance between protecting the safety and rights of victims and those of the defendants. The overwhelming sense of the committee was that we should not weaken the current procedure for handling domestic violence and upset this delicate balance. Some of the assertions made by the proponents of the bill, such as sixth amendment rights for the defendant and lack of avenues of pursuit for resolving issues involved, proved to be hyperbole. Domestic violence orders can be modified to permit contact. Assault, harassment, trespass and other statutes are still available to the defendant for any remedy for perceived misconduct by the victim. Vote 16-3.

Rep. James E. Wheeler for the Minority of Judiciary: While the minority admits there were some significant problems with the original bill, it believes there is a serious issue that needs to be addressed. It is unjust to allow a person to be convicted of violating a protective order that prohibits contact with the person who sought the order, when the person who sought the order initiates the contact that causes a violation of that order. The minority amendment throws out the original bill and simply states that a defendant shall not be held criminally liable for violating a protective order if the alleged victim initiated the contact. It still allows for prosecution of other crimes, such as criminal threatening or assault, if those crimes are committed during the contact. This bill, with the minority amendment, will give some protection to the defendants to prevent them from being entrapped, either accidentally or intentionally, by the alleged victims, into violating a no-contact provision of a protective order. This bill, with the proposed amendment, will restore a little fairness to our state's system for dealing with domestic violence.

Majority committee report adopted.

HB 302, establishing a county mileage surcharge for service of documents by county sheriffs. MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. John B. Hunt for the Majority of Judiciary: The original bill proposed that each county may charge a flat fee for mileage that was an average cost for delivery. The committee, however, did not believe there was a problem with the current per mile charge. The amendment corrects the statute to reflect current practice wherein the fee is assessed using the sheriff's office as the starting point rather than the "residence of the officer" which is currently in the law. The amendment also will allow the correct mileage charge of 45 cents per mile to increase when the Internal Revenue reimbursement rate goes above the current 45 cent rate. Vote 16-2.

Rep. Robert H. Rowe for the Minority of Judiciary: This legislation changes the statutory fee for sheriffs serving any writ, notice, subpoena, process or execution. There is an existing statute that exempts service charges for domestic violence matters. The minority is greatly concerned that this bill will void the statute exempting domestic violence matters. The minority's concern has not been negated.

Majority Amendment (0327h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the mileage rate for service of documents by county sheriffs.

Amend the bill by replacing all after the enacting clause with the following:

1 Sheriffs; Fees; Mileage. Amend RSA 104:31, IV to read as follows:

IV. In every county for actual travel to serve any writ, notice, subpoena, process, or execution, to be reckoned from the place of service to the ~~[residence of the officer]~~ *sheriff's office*, and for travel to attend any court by the order thereof, to be reckoned from the ~~[residence of the officer]~~ *sheriff's office* to the court, each mile, each way, *either \$.45 or the maximum rate per mile allowed by the Internal Revenue Code and regulations, whichever is greater.*

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill allows the mileage reimbursement rate for service of any writ, notice, subpoena, process, or execution by county sheriffs to be the greater of \$.45 or the rate allowed by the Internal Revenue Service.

Majority amendment adopted.

Rep. Rowe spoke against.

Rep. Hunt spoke in favor.

Majority committee report adopted.

Referred to the Committee on Ways and Means.

HB 633-FN-A, relative to companies which do not provide health insurance to their employees and continually appropriating a special fund. **INEXPEDIENT TO LEGISLATE**

Rep. William J. Infantine for Labor, Industrial and Rehabilitative Services: The intent of this bill is to increase the number of employers who provide health insurance for their employees by mandating the employer pay a \$.50 per hour fee for each full time employee not covered by a health plan. These fees would be held by the state under a so-called employee health insurance fund and expended for health insurance costs for employees who do not have health insurance through their employers. The committee felt that it would be more cost effective for an employer to pay \$.50/hour than to offer and pay for a health insurance plan and that this bill may result in fewer employers offering health insurance. The bill offered no specifics on how the program would be administered and left the rule-making responsibilities to the Labor Commissioner. The bill also did not define what "providing health insurance" meant, i.e. employer offers a plan and fee cost to employee, percent participation by employer, what benefits to be covered, what deductibles, etc. Vote 10-5.

Rep. Weed spoke against.

Rep. Infantine spoke in favor.

Committee report adopted.

HB 218-FN-L, relative to the apportionment of county taxes to municipalities. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Harry S. Gale for the Majority of Municipal and County Government: This bill would require a whole new structure to determine tax liabilities of the county taxpayers. Each county could determine its own formula for apportionment. The bill was too open ended as it would have allowed "other factors" to be used in the formula setting. Another concern was that the towns within each county are not on the same assessment schedule and that perhaps there should be just one county assessor doing all the towns within the county on the same schedule. The majority of the committee believes that substantial study is required to determine a more equitable method to determine distribution of the county tax burden. Vote 8-7.

Rep. Eric G. Stohl for the Minority of Municipal and County Government: This bill simply allows the delegates to the county convention within any county to determine the apportionment costs among its municipalities. What this means is that the county convention could, if it wished, adopt a formula for the apportioning of county taxes other than strictly equalized valuation. As it is today, the only way an individual's county tax is levied is solely on property values. This bill allows for the potential of using other factors such as population in determining the tax within a municipality. County government basically provides services to the citizens within its borders. The costs of these services are what create the county tax. The minority believes that because people, not property, are the users of these services, population should be allowed to be part of the formula for the apportionment of the county tax. This bill is totally enabling.

Majority committee report adopted.

HB 370, establishing a committee to study the Land Sales Full Disclosure Act and the Condominium Act. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. David L. Buhlman for the Majority of Municipal and County Government: The sponsor's intent in bringing this legislation forward is commendable, and it was done at the behest of the Attorney General's Office. After considering the testimony, the majority of the committee was concerned about the potential loss of consumer protection for home buyers associated with transferring some responsibility under the Land Sales Full Disclosure Act (RSA 356-A) and the Condo-

minium Act (RSA 356-B) from the Attorney General's Office, where there is permanent expertise in those matters, to the local level, where expertise in those intricate matters can vary depending on, for example, the makeup of the local planning board. Vote 13-4.

Rep. Nancy K. Johnson for the Minority of Municipal and County Government: This bill was requested by the Attorney General's Office. The Land Sales Full Disclosure Act is an important law in consumer protection. However, we heard testimony that the act was enacted in the late 1960s and this bill would create a study committee that could lead to lessen state oversight, increase local control and continue to protect consumers.

Majority committee report adopted.

HB 651-FN-L, relative to federal lien registration. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Peter B. Schmidt for the Majority of Municipal and County Government: Currently there are three situations that require the filing of federal liens upon personal property, tangible or intangible, with the Secretary of State. In all other cases, the federal liens are filed in the office of the clerk of the town or city in which the person owning the personal property resides. This bill does four things: 1) removes the requirement of filing the federal lien with the town or city clerk; 2) puts a \$30 filing fee in statute which is split equally between the Secretary of State and the clerks; 3) sets up a federal lien registration fund for the administration of RSA 454-B; and 4) sets up a retention schedule for the municipalities until June 30, 2017 when all remaining records relating to the financial statements may be destroyed. These changes will start removing the filing duties from the city and town clerks but will not remove the funding source for processing those liens, which is now available to the local community. The amendment specifies that the funds collected by the Secretary of State are to be used for the purposes specified in RSA 454-B. Also the method of communication is to be in accordance with RSA 382-A:9 Secured Transactions under the Uniform Commercial Code laws. The committee recognizes the need for streamlined filing and sharing of funds. Vote 12-5.

Rep. David L. Buhlman for the Minority of Municipal and County Government: The practice now is for the IRS to file liens on personal property with over 200 municipal clerks. Some of those liens are done electronically, while most are done using hard-copy documents. This bill changes the procedure dramatically by allowing the IRS to file liens on personal property, all with the Secretary of States Office, and all electronically. As is fairly widely known, the IRS makes errors that can have a significant negative impact on people's lives. Thus making this process more efficient, as this bill does, can result in even more errors. We should not help this very powerful government agency become more efficient.

Majority Amendment (0356h)

Amend RSA 454-B:5, II(b) as inserted by section 5 of the bill by replacing it with the following:

(b) \$15 of each fee collected under this section for any notice of lien or certificate or notice affecting the lien, to the secretary of state for the purposes specified in this chapter.

Amend the bill by inserting after section 6 the following and renumbering the original sections 7-10 to read as 8-11, respectively:

7 New Section; Transition; Method of Communication. Amend RSA 454-B by inserting after section 8 the following new section:

454-B:9 Method of Communication. The filing officer shall accept liens described in this chapter in the method or medium authorized by the filing office in accordance with RSA 382-A:9-501-529, inclusive.

Majority amendment adopted.

Rep. Buhlman spoke against.

Rep. Patten spoke in favor.

On a division vote, 201 members having voted in the affirmative and 125 in the negative, the majority committee report was adopted.

Referred to the Committee on Ways and Means.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Balboni moved that the House reconsider its action whereby it voted **HB 302**, establishing a county mileage surcharge for service of documents by county sheriffs, Ought to Pass as Amended.

Reconsideration failed.

REGULAR CALENDAR (CONT'D.)**(Deputy Speaker Weyler in the Chair)**

HB 670-FN-A, relative to a surcharge on recording documents with the register of deeds to fund the land and community heritage investment program. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Harry S. Gale for the Majority of Municipal and County Government: The Land and Community Heritage Program (LCHIP) has broad support in the committee. The concept of dedicated funds does not enjoy the same support. The committee believes LCHIP has wide spread support among the majority of our house members and also our current governor. Our action is intended to send a strong message that we desire to have LCHIP in the budget as a line item from year to year in order to enhance its chances for ongoing support and funding. Vote 15-1.

Rep. David L. Buhlman for the Minority of Municipal and County Government: This bill, as amended, is a reasonable compromise to provide funding for LCHIP, and represents a distinct improvement over the reliance on dedicated funds, as contained in the original bill. However, although LCHIP is a popular state program, the minority feels that it is prudent to reconsider funding LCHIP, especially considering the current deficit in the state budget.

Majority Amendment (0314h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the land and community heritage investment program.

Amend the bill by replacing section 1 with the following:

1 Appropriation; Land And Community Heritage Investment Program. The sum of \$4,000,000 for the fiscal year ending June 30, 2006, and the sum of \$6,000,000 for the fiscal year ending June 30, 2007, are hereby appropriated to the trust fund for the New Hampshire land and community heritage investment program established in RSA 227-M:7. These appropriations are in addition to any other funds appropriated to the land and community heritage investment program. The governor is authorized to draw a warrant for said sums out of any money in the treasury not otherwise appropriated.

AMENDED ANALYSIS

This bill appropriates \$4,000,000 for the fiscal year ending June 30, 2006 and \$6,000,000 for the fiscal year ending June 30, 2007 to the trust fund for the New Hampshire land and community heritage investment program. This bill also allows loans to be made to eligible applicants for financial assistance under the land and community heritage investment trust program.

On a division vote, 246 members having voted in the affirmative and 76 in the negative, the majority amendment was adopted.

Rep. Newton spoke against.

Rep. Gale spoke in favor.

Rep. Hager requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

HB 78-FN-L, relative to state funding of regional vocational education centers. OUGHT TO PASS WITH AMENDMENT

Rep. Paul C. Smith for Public Works and Highways: This bill, as amended, clarifies the procedures for the funding of the renovation and expansion of our existing regional vocational education centers. The amendment clarifies existing law on exactly what criteria the Department of Education will use to determine if the project will be included in its capital budget request. Currently, the criteria for defining qualified projects exists in administrative rules and the committee felt that they should be incorporated into the statutes. The bill sets a range for the state's contribution for these projects between 50% and 75%. The current law says that the state will fund not less than 75% of the costs. The intent of the change is to ensure that all of the regional centers are afforded the opportunity to upgrade their facilities on a periodic basis. Finally, the effective date was set to occur after this year's capital budget is finalized, but before school systems begin their budget planning for the next year. Vote 15-3.

Amendment (0151h)

Amend the bill by replacing all after the enacting clause with the following:

1 Regional Vocational Education; Funding. Amend RSA 188-E:10, I to read as follows:

1. The department of education is responsible for maintaining a statewide system of regional vocational education centers to provide and allow for a variety of career and technical education programs funded within state budget appropriations. The treasurer of the state of New Hampshire is hereby authorized to make funds available to the department of education for the renovation and expansion of ***qualified*** regional vocational education centers or regional vocational education programs ***authorized in the capital budget***, provided that:

(a) The commissioner of the department of education shall ensure that all requests submitted are both educationally and financially appropriate ***within the state capital project authorization process***;

(b) The commissioner of the department of education submits on a biennial basis in a capital budget request a priority list of facilities and programs eligible for renovation and expansion, provided that priority shall be given to programs that have been certified by an approved standard or that need additional funds to become certified by an approved standard;

(c) Each request for funding follows the capital budget procedure pursuant to RSA 9:3-a, ***provided that no qualified project funded in a state capital budget as required in this section shall have additional funds for the same project included in a subsequent proposal for capital appropriation under RSA 9:3-a unless directed by the priority list of the department of education***;

(d) Each school district requesting funds from the department of education establishes and funds a renovation and expansion reserve fund, which shall be used by the school district to pay renovation and expansion costs not funded by the state, and which may include funding for the replacement of equipment; and

(e) The state shall fund not less than ***50 percent nor more than 75 percent*** of the cost of a ***qualified*** project approved pursuant to this section.

(f) In this section, "qualified" means the project:

(1) Demonstrates need connected to the labor market.

(2) Accepts students from sending schools.

(3) Demonstrates adequate numbers of students through enrollment figures based on 3-year averages.

(4) Demonstrates alignment with program competencies and academic competencies required by the department of education.

(5) Allows for matriculation into a postsecondary venue.

(6) Meets all industry and building standards.

(7) Meets the procedural requirements for requests under this section and any other requirements in rules of the department of education.

(8) Is a regional vocational education center within the state of New Hampshire.

2 Effective Date. This act shall take effect July 1, 2005.

AMENDED ANALYSIS

This bill clarifies the capital appropriation requirements for funding regional vocational education projects, provides that the state shall fund a maximum of 75 percent of the cost of renovation or expansion of a regional vocational education center, and adds a definition of a qualified project. Adopted.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Benn moved that the House reconsider its action whereby it adopted the committee amendment to **HB 78-FN-L**, relative to state funding of regional vocational education centers.

Reconsideration failed.

Rep. Benn offered floor amendment (0530h).

Floor Amendment (0530h)

Amend the bill by replacing all after the enacting clause with the following:

1 Regional Vocational Education; Funding. Amend RSA 188-E:10, I to read as follows:

1. *The department of education is responsible for maintaining a statewide system of regional vocational education centers to provide and allow for a variety of career and technical education programs funded within state budget appropriations.* The treasurer of the state of New Hampshire is hereby authorized to make funds available to the department of education for the renovation and expansion of *qualified* regional vocational education centers or regional vocational education programs *authorized in the capital budget*, provided that:

(a) The commissioner of the department of education shall ensure that all requests submitted are both educationally and financially appropriate *within the state capital project authorization process*;

(b) The commissioner of the department of education submits on a biennial basis in a capital budget request a priority list of facilities and programs eligible for renovation and expansion, provided that priority shall be given to programs that have been certified by an approved standard or that need additional funds to become certified by an approved standard;

(c) Each request for funding follows the capital budget procedure pursuant to RSA 9:3-a, *provided that no qualified project funded in a state capital budget as required in this section shall have additional funds for the same project included in a subsequent proposal for capital appropriation under RSA 9:3-a unless directed by the priority list of the department of education*;

(d) Each school district requesting funds from the department of education establishes and funds a renovation and expansion reserve fund, which shall be used by the school district to pay renovation and expansion costs not funded by the state, and which may include funding for the replacement of equipment; and

(e) The state shall fund ~~not less than~~ 75 percent of the cost of a *qualified* project approved pursuant to this section.

(f) *In this section, "qualified" means the project:*

(1) *Demonstrates need connected to the labor market.*

(2) *Accepts students from sending schools.*

(3) *Demonstrates adequate numbers of students through enrollment figures based on 3-year averages.*

(4) *Demonstrates alignment with program competencies and academic competencies required by the department of education.*

(5) *Allows for matriculation into a postsecondary venue.*

(6) *Meets all industry and building standards.*

(7) *Meets the procedural requirements for requests under this section and any other requirements in rules of the department of education.*

(8) *Is a regional vocational education center within the state of New Hampshire.*

2 Effective Date. This act shall take effect July 1, 2005.

AMENDED ANALYSIS

This bill clarifies the capital appropriation requirements for funding regional vocational education projects, provides that the state shall fund 75 percent of the cost of renovation or expansion of a regional vocational education center, and adds a definition of a qualified project.

Rep. Benn spoke in favor and yielded to questions.

Reps. Graham and Bouchard spoke against.

On a division vote, 98 members having voted in the affirmative and 189 in the negative, floor amendment (0530h) failed.

Committee report adopted.

Referred to the Committee on Finance.

INTRODUCTION OF GUESTS

Colonel Yuri Vasilievich Sushkov, Deputy Chief, Department of Civil Defense Forces and Troops, and delegates of the Russian Ministry of Emergencies and Ministry of Finance, and former Ambassador George Bruno, all representing Partners for Peace – NH 2005, were introduced as guests of the House.

REGULAR CALENDAR (CONT'D.)**(Speaker Scamman in the Chair)**

HB 57, relative to the burning of construction and demolition debris. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY; OUGHT TO PASS.**

Rep. Roy D. Maxfield for the Majority of Science, Technology and Energy: This bill is one of several dealing with construction and demolition debris currently under review in the house and senate. It would prohibit incineration of C&D material including wood products that have been sorted and washed at recycling centers. If passed, this would then require landfill disposal of this material. The committee is working on another bill that would qualify acceptable wood products for incineration and apply best available control technology during incineration. This process will reduce environmental impact well below current standards. The existing policy in New Hampshire is to close our landfills except for ash residue left over from incineration. Forty-two (42) per cent of construction debris is wood and fourteen (14) per cent of demolition debris is wood. Relegating this amount of debris to landfills would have a serious impact on existing landfill sites. The Department of Environmental Services recommends land fill as last resort (sixth of six in waste management hierarchy) and they support HB 315 as the best solution for dealing with this material. Mixing this material with virgin wood and using the combination to fuel our wood to energy facilities makes economic and environmental sense. This policy is consistent with neighboring states and the committee voted 11 to 4 in support of the current state waste management hierarchy. Vote 11-4.

Rep. Jim Ryan for the Minority of Science, Technology and Energy: This bill operates as a complete ban on the incineration of construction and demolition (C&D) material. While simple in tone and judicious in the use of words: it would effectively preclude the incineration of C&D materials by banning incineration outright. Testimony received at the hearing indicated other states had followed this approach, particularly states seeking to avoid the difficulty of having out-of-state materials trucked in and imperiling the local air quality. The bill was received with satisfaction by the overwhelming number of citizens who attended hearings on the matter and urged the committee to enact the legislation that would prevent the emission of harmful materials into the environment and into their homes. HB 57 is a legitimate exercise of legislative discretion and should not be disposed of, if at all, until the legislature answers with a public policy position on C&D, an issue of vital interest to numerous citizens of the state. The minority urge that the majority recommendation of ITL be denied and that HB 57 be voted ought to pass.

Rep. Owen spoke against and yielded to questions

Rep. Alger spoke in favor and yielded to questions.

Rep. Kaen moved recommit to committee and spoke in favor.

Reps. Pitts and Alger spoke against.

Rep. Owen requested a roll call; sufficiently seconded.

The question being adoption of the motion to recommit.

and the majority committee report was adopted.

Rep. Plifka voted Yea and intended to vote Nay.

(Deputy Speaker Weyler in the Chair)

HB 190, relative to the installation of continuous emission monitoring systems on stationary air pollution sources and devices. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Roy D. Maxfield for the Majority of Science, Technology and Energy: This bill proposes adding Continuous Monitoring Devices (CEMs) on stationary air pollution sources and installing new source monitors as they become available. The committee heard extensive testimony from the Department of Environmental Services (DES). They currently have authority to require CEMs on any source they deem necessary. DES estimates that there are 450 state air permits and that 300 of these would be required to install four (4) CEMs each to comply with this legislation. Currently there are 120 CEMs operating in the state at 20 sites. This bill would mandate CEMs well beyond anything determined necessary by the Department of Environmental services. The costs associated with this mandate would be a significant burden on businesses, especially small and mid-sized businesses in the state. There would also be significant impact on state owned sources requiring expenditures in excess of ten million dollars. The majority concluded that the Department of Environmental Services has the authority now to require monitors and that this bill is not necessary. Vote 10-3.

Rep. Jim Ryan for the Minority of Science, Technology and Energy: A majority of the committee seems to think that at the conclusion of the session another bill will provide the legislative response to the difficult environmental and public health dilemma posed by the incineration of construction and demolition debris (C&D). While the opinion of the majority regarding those bills may come to pass, there is no urgent need to discard the other approaches to establishing public policy on C&D, including this bill which provides that continuing emission monitoring devices (CEM) be required of all permitted emitters. The law includes a 24-month compliance period as new CEM technology is introduced. The plain purpose, as duly noted at the public hearing, was to create a statutory system that required the inclusion of CEM as it became available to permitted emitters or in the permit renewal process. The supposition was that as technology advanced so too would the ability to monitor pollutants. Overwhelming support for the bill was noted at the public hearing. One official of the DES noted that passage of HB 190 would place New Hampshire in the forefront of protecting citizens from the harms of C&D emissions. Accordingly, the minority urges that the House decline the majority report of ITL, and recommend that HB 190 ought to pass and in so doing place New Hampshire in the forefront of protecting the air of all our citizens.

Rep. Ryan spoke against and yielded to questions.

Rep. Maxfield spoke in favor.

Rep. Ryan requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

(Speaker Scamman in the Chair)

HB 438, relative to emissions requirements for municipal waste combustion units.

MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.

Rep. Roy D. Maxfield for the Majority of Science, Technology and Energy: This bill is a duplicate of HB 414 recommended ought to pass with amendment on the consent calendar. Both bills require improved environmental standards for small incinerator comparable with the large Penacook facility, with two exceptions. The first exception deals with the sulfur testing cycle. HB 414 requires a monthly cycle and HB 438 a 24-hour cycle measurement. The sponsor of this bill agrees with the monthly measurement in HB 414. The other requirement in this bill would reduce the permitted emission level if the facility produced results below the permitted level then the lower more stringent result would become the permitted standard. The majority of the committee feels that the facility would be encouraged to run the plant at the higher permitted level to avoid added retrofits associated with lower emission levels. Member cities and towns of the facility would end up paying half of the costs for additional controls. The committee considered an incentive for a facility operating below permitted levels instead of the sanctions recommended by the sponsor but could not reach a consensus. Vote 9-6.

Rep. Jim Ryan for the Minority of Science, Technology and Energy: This bill and HB 414 are nearly identical, with the exception of Section IX of HB 438 that provides: "If, at the next scheduled test for any permitted emission at a small municipal waste combustor, the facility achieves a result lower than the existing permitted standard for that particular emission, the lower, more stringent result shall become the permitted standard. This paragraph shall apply to all small municipal waste combustors." The majority fears that inclusion of this section will encourage emitters to produce more pollution and have no incentive to reduce emissions. The minority believes that regulated emitters consistent with requirements of law and the notion of good corporate citizenship would actually seek to reduce emissions over the course of time. The quoted section envisions a progressively improving standard that would allow for regular decreases in emissions. Accordingly, the minority recommends that HB 438 ought to pass.

Rep. Donovan spoke against and yielded to questions.

Rep. Phinizy spoke against.

Reps. Maxfield and Alger spoke in favor.

Rep. Phinizy requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

Rep. O'Neil moved that the House stand in recess until tomorrow at 10:00 a.m.

The House recessed at 4:10 p.m.

RECESS

(Deputy Speaker Weyler in the Chair)

The House was called to order at 10:00 a.m.

REGULAR CALENDAR (CONT'D.)

CACR 13, relating to prohibiting an income tax. Providing that no tax on personal income shall be levied by the state of New Hampshire. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Steve Vaillancourt for the Majority of Ways and Means. This Constitutional Amendment Concurrent Resolution would enshrine in the state constitution the provision that an income tax may not be adopted in New Hampshire. The majority of the committee, even many who oppose the implementation of an income tax, do not believe future legislators should be so hamstrung. Were this to pass, and should 65 percent of citizens and/or legislators at some point in the future determine an income tax would be a good idea, it would be impossible to implement since the amendment would first have to be repealed (by a 60 percent vote of a future House and Senate to put the matter on the ballot and then by two-thirds of citizens voting at the polls). Thus, this amendment could remove the options of a future substantial majority. As with past amendments which the committee has considered and defeated, the majority of Ways and Means does not believe our constitution should be used as a referendum or for measures which may not stand the test of time. Certainly, a CACR should not be used as an opinion poll. Some published polls show that 35-40 percent of New Hampshire citizens support an income tax, not enough to pass one but certainly enough to block this amendment. They would certainly be joined by others, like many on the committee, who opposed an income tax but oppose prohibiting one constitutionally. Thus, while it might be fun to see what percentage this CACR would receive, it would serve no other purpose than to use the basic law of New Hampshire for purposes our forefathers would not condone. Out of respect to the CACR sponsors, the committee took a vote on reconsideration in light of a potential amendment which stipulated both earned and unearned income would not be taxable. The precise wording was, "no new tax shall be levied, directly or indirectly, upon a person's income, from whatever source it is derived." The vote on reconsideration failed 7-12 with some members noting that the amendment was even more restrictive than the original CACR. Vote 17-1.

Rep. Peyton B. Hinkle for the Minority of Ways and Means: Part Two, Articles 6 and 6-a of the New Hampshire Constitution identify the specific taxes, fees and tolls that may be used to pay for the public cost of government, but nowhere is taxation of personal income authorized. CACR 13 is designed to lay to rest the idea of an income tax and clearly declare that it is not to be used as a source of state revenue. Those testifying in favor of the resolution pointed out that people with portable incomes who are free to locate anywhere in the country would, with the passage of this resolution, be able to move to New Hampshire and know with confidence what taxes they would be responsible for in the future. These are the same people who invest in businesses in the state and help create jobs. This resolution would act as an incentive to people to move to New Hampshire and invest their economic resources in the state. Our present method of taxation provides a more stable revenue stream, whereas an income tax is more prone to rise and fall with the fluctuations in the economy. States having an income tax, such as Colorado, experience wide swings in revenues. Past experience has shown that governments have a propensity to tax and spend, and instituting a new tax does not guarantee that other taxes would be eliminated. Retired people living off their savings would be harmed by an income tax. Finally, CACR 13 would provide the people the opportunity, once and for all, to resolve the prospect of any new tax being levied on their income.

Reps. Mirski and Itse spoke against and yielded to questions.

Reps. Hirschmann and Camm spoke against.

Reps. Jasper spoke in favor and yielded to questions.

Rep. Vaillancourt spoke in favor.

Rep. O'Neil moved recommit to committee.

Reps. Major and Mirski spoke in favor

On a division vote, 101 members having voted in the affirmative and 221 in the negative, the motion to recommit failed.

Rep. Mirski requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

Rep. Donald B. Campbell did not vote and notified the Clerk that he wished to be recorded in favor.

DEBATE ON CACR 13

Rep. Newton moved that the debate on *CACR 13*, relating to prohibiting an income tax. Providing that no tax on personal income shall be levied by the state of New Hampshire, be printed in the Permanent Journal.

Adopted.

Rep. Mirski: Thank you, Mr. Speaker. This proposed CACR gives me great pleasure of having the opportunity to address the members this morning. This is the best chance you are ever going to have to tell your constituents about how you feel about an income tax. We know from recent surveys that seven out of ten individuals in the state of New Hampshire oppose an income tax. Seven out of ten. That's staggering. The question will be how many of us agree with our constituents. Now the interesting thing about this income tax business is that most of us, our memory is only about 25 years old, we remember that Meldrim Thomson's an old guy who forced all subsequent governors to take the pledge to veto broadbased taxes, sales, income, whatever. We haven't had a gubernatorial race in the last 25 years where a candidate was initially elected without having taken the pledge. If that doesn't tell you something about the disposition of our constituents, really nothing will. Another interesting thing is, if you go back another 25 years, just outside the door is a portrait of a guy, you're not supposed to mention the name, but he's not here, Dan Healy from Manchester, who I'm told was the deciding vote back around 1948, a Democrat from Manchester – a deciding vote to kill an income tax in this House. Now we know that many of our friends on this side of the aisle, that many of their constituents support an income tax. We can't get the kind of votes we get on gubernatorial elections without Democrats and Republicans hating the idea of an income tax. That's the history.

Now you wonder, why would this be? I think from the very moment of creation, we were formed with this hatred in our constituency. The shots that were fired back in 1774 were all about taxes. And incidentally, as opposed to Concord and Lexington, it was an assault on the Crown. Those folks were all subject to treason. Back in 1774, they put their lives and fortunes on the block against taxes. Sometime if you are perusing your little black book and want to look at the constitution, read Article 28. That will tell you how much we hate taxes. So voting for CACR 13 puts you in good stead with about 70 percent of the folks according to current polls.

I'm sure some of the speakers who will speak against this idea for the committee report will like to tell you that prohibition on income tax should not be put in the constitution. In 1783, actually in the Constitutional Convention, the thirteen colonies got together and they prohibited all taxes, the federal government from collecting taxes from any sources, except excise, duties, tolls and fees. You couldn't have an income tax under the United States Constitution except by amendment which we passed in 1913, the 16th amendment. So to say you can't write this into a constitution just makes no sense to me. There's nothing wrong with prohibiting an income tax in our constitution, absolutely nothing at all.

Someone else might say this is putting politics in the constitution. This is not putting politics in the constitution. This is placing an administrative constraint on government. That's what the constitution is supposed to do. It sets constraints on government so that they don't take your house, your property, your family, abuse you. It's all about restraint on government. So, it's not politics getting a prohibition on an income tax in our state constitution, the politics comes afterwards. It will come from April to November of 2006 when this issue gets debated. That's the politics. And

those who want an income tax will argue against the adoption of this constitutional amendment, and those who don't will support it. That's the politics. That's what we deal with from signing up on primary day on through the November election.

Now, with respect to language. Someone is going to say, "Oh, this means we are not going to have a BET, and an interest and dividends tax, and that sort of stuff." Those taxes presently exist in statute and historically when we adopt amendments where we have statutory provisions, they remain until they are repealed. Now if you decide to repeal the BET or you decide to repeal the interest and dividends tax, well, then you are not going to get them back. But when was the last time we repealed a tax? The likelihood of that is next to nowhere, next to nothing. So you can't fear in that context.

Finally, for those of you who still may have the "woolies" you can take a look at page 391 in your calendar and there's an amendment. It just simply adds the word "new." So for those of you who worry about the BET or the BPT, which I think is no worry at all in the present language, we have an opportunity to amend the proposal to add that word and take that fear away.

I would say for those of us assembled here, we have a great opportunity to get in step with 70% of the folks in the state, seven out of ten voters and I think we ought to take advantage of it, so I encourage you to oppose the committee report of ITL, to vote against it, and if we can overturn the report we will offer the amendment on page 391 and get on with the business of letting the folks in this state decide once and for all whether we're ever going to have an income tax imposed. Thank you very much.

Rep. Alger: Thank you, Mr. Speaker. Thank you, Representative, for taking my question. Would you agree with me that for the length of time certainly that I've been here and you've been here that this has been an issue, that it's appropriate whether you're for the income tax or opposed to the income tax, to move it forward, have the debate and get it on the ballot and then if you're right about the 70%, it will pass. If you're wrong, it won't pass and it will kill the question and solve how we will proceed from there on. Do you agree with me that's a good idea? Thank you.

Rep. Mirski: Well, obviously I absolutely do agree with you and I think that the people really ought to have the opportunity to restrict their legislature in this way. They've been doing it by vote after vote, after vote, after vote for more than 50 years. That's the memory of most of the folks in this House and I just think we need to affirm it. Thank you.

Rep. Robert Wheeler: Thank you, Mr. Speaker. In New Hampshire I live a great deal south of you and perhaps the knowledge is more profound in the North Country. What gives you the confidence that an income tax ought to be outlawed now and forever?

Rep. Mirski: One of my, little things I kind of do, I like to watch votes, and I like to see where people come from and how they vote on matters of taxes. I used to believe that all the hardcore tax votes were somewhere up in Coos and Grafton and Carroll Counties, and one day I did an assessment, and I looked at how representatives from the North Country were voting on taxes and then how the representatives from all the towns pretty much along the Mass border were voting. I want to tell you the votes against taxes were all right along the border and the folks way up north are thinking they are in the last century. The folks around you folks in all these southern towns are the ones who really, really, really, really, really, hate income taxes. So, it's sort of counterintuitive. It turns out to be just upside down, the more liberal votes are up north, the really anti-tax votes are down south.

Rep. Hirschmann: Thank you, Speaker Pro Tem Weyler, good morning. Good morning, fellow legislators, it's an honor to be here. Why would a guy like Keith Hirschmann run for the House of Representatives? For one solemn reason. To protect the New Hampshire advantage, to solemnly come here today and say to you, "Put this question on the ballot before the people of New Hampshire. Let the question be answered by the people that would pay the tax."

It's an honor for me to follow a scholar of the constitution, someone as the Representative from the North Country, Mr. Mirski. He's far well versed in this issue than I am, but I tell you today, there is a difference in an income tax. An income tax is an affront to the middle class and the lower class of our state. There is something called the "business class" in our state. The business class can expense their way out of an income tax. It's quite easy to buy a vehicle, to buy furniture, to expense a business. This would be an affront to people in unions that pay dues, that would pay an income tax, that should not see a tax come out of their pay check when their health costs are rising and other things in our state. There are a lot of people who can barely afford to live in the state of New Hampshire and we're the most affordable state to live in. That's quite ironic.

I will leave you with one ditty from someone that we all love, our New England Patriots. At the Super Bowl you saw a commercial a hundred times saying, "Not today, not tomorrow, not in our House." Let's get this on the ballot for the right people, for the lower class, for the middle class, for all the citizens of New Hampshire, for the seniors, people are paying enough taxes. They don't need an income tax. Let the people have a solemn voice in what would effect them the most – an income tax in the State of New Hampshire. Thank you.

Rep. Vaillancourt: Thank you, Mr. Deputy Speaker, I rise in support of the committee's recommendation of ITL. Since it's a constitutional amendment, I brought the constitution with me once again today and thought we would talk a little bit about that. Harold Burns has never looked better, I guess this is an old book. The constitution has not changed since 1995. In fact, it hasn't changed since a lot longer before that, so this book is still valid and it talks very little about taxation. Because the founders of the constitution were wise enough to realize that they could not foresee the future, they could not determine what type of tax would be valid or best or most appropriate for a future generation. These were very wise men, and I suggest that we should attempt to be just as wise as they are in what we subscribe to and put in the constitution.

When I talked to you about CACRs a couple of weeks ago, I talked about the basic principle and how they have to be approved by an overwhelming majority in order to pass. We've had several CACRs since then and I did a little more thinking about my general philosophy of how I view these constitutional amendments. I want to just quickly separate, before I talk about the income tax, three constitutional amendment ideas that might come before us that I would treat separately. One is a CACR that I not only would like to put on the ballot for the people to consider, but think that they should vote for and I would vote for. It's an election law CACR that talks about redistricting, a favorite subject of mine, so that every city or town with 3,089 people would have at least one representative. I think that's what the founders intended, that would be a CACR that I would vote for not only to put it on the ballot but when it gets to the ballot. There's another CACR that I think is very legitimate to go to the people because it deals with how we function. The constitution is our basic law, it spells out how we govern ourselves and our basic rights. This other CACR is something I would give to the people to decide, because it is legitimate, but then I would not vote for as a person. It is to increase the governor's term from two to four years. I don't think it's a good idea, but I think the people could well be given that to decide. Now this is a third type of CACR. This is one I don't think even meets the minimum requirements of putting on the ballot to the people because I do not believe we should be putting this kind of thing in the constitution. Now, my friend who is a distinguished scholar on the constitution, that's why I take so much surprise that I disagree with him so strongly on certain issues, my friend from Enfield referred to people who are for an income tax being against some people who are against an income tax before this. But that's clearly not true, Mr. Speaker. The vote in the Ways and Means Committee was 17 to 1. Now you're not going to tell me that all those Republicans on the Ways and Means Committee are for an income tax, that's why they voted against this. No, they're not at all. Most of the people in that committee, including myself that voted against this CACR are also adamantly against an income tax. When in one of the most august moments of this House in 1999, the income tax passed 194 to 190 on the illustrious day, when Donna Sytek welded the gavel, I was one of seven Democrats to vote against it. Two of them are currently dead. I was thinking of them last night, they used to sit in front of me, so I remember them very well. But I voted against that, my party put pressure on me, and I still voted against it. Now before our committee some people were saying, "Oh, this is a Republican position in their platform that we're against an income tax." I agree, that is a Republican position, but there's no Republican position that I can find that we are for mandating that in the constitution.

The best way to maintain the New Hampshire advantage that my colleague from Manchester speaks of, is to do as we are doing right now. Continue sending representatives here who are against an income tax. This little pink sheet that was sent out by the Republicans, one of their coalitions, yesterday, it says, "This bill is your best opportunity to show your constituents how you feel about an income tax." I disagree. The best bill to do that was one we voted on yesterday, early in the day, which was the bill that would have mandated an income tax for this year, House Bill 622. You know what, it failed 246 to 45, a margin of about 83%.

The last two candidates we had for governor that favored an income tax, I actually went into the Secretary of State's office on my way over, Arnie Arnesen in 1992 got about 40%, Mark Fernald

got less than that in 2002. However, they got more than the one-third that would be necessary to block this CACR from passing. So if we would put this on the ballot, what we are doing is basically saying, "Let's have an opinion poll to see how many people, in fact, want to get rid of an income tax in the constitution."

Well, I say to you my fellow legislators that the constitution is too sacred to be used as a referendum as we talked about a couple weeks ago and it's certainly too sacred to be used as an opinion poll. We have those who can do calls for that regard, but for this effect, I ask you to do what the majority of the Ways and Means Committee did, realize that although we are against an income tax, it's not the kind of thing that should be legislated in our constitution. Thank you very much. Rep. Camm: Thank you, Mr. Speaker. Honorable members of the House. Being on Ways and Means has its certain advantages. At the beginning of this session, we were briefed for days on national, regional, state and local economies. And I can tell you that New Hampshire ranks highest or very high regionally in numerous economic classifications. Percent of increase of personal and business income and or growth, percent of increase of real estate appreciation, our employment rate, our lowest overall tax burden. When it comes to recessions, we're the last one in and the first one out, etc. etc. These are some components of what is known as "the New Hampshire advantage." The duty of the Ways and Means Committee, I'll be brief, "It shall be the duty of the Committee on Ways and Means to examine and consider the state of the treasury; to consider and report on all bills resolutions relating to raising money by a state tax and the apportionment of same, state fees, and all methods of raising revenue for the state; and such other matters as may be referred to it." Now what do you suppose the chances are of a constitutional amendment limiting revenues coming out of Ways and Means with a favorable recommendation? Maybe somewhere around 1 to 17. Heck, with my Ways and Means cap on I was one of the seventeen.

At one of the very first meetings I attended with the new Speaker, he suggested that we consider going back to the old constitutional and statutory reform committee. That committee existed during my first term. All constitutional questions went to that committee. I'm beginning to see the wisdom of that suggestion. After listening to my colleagues, constituents and others, with my Republican and anti-income tax cap on, I believe we should allow our citizens to vote on this important issue. Think of what this would do. It would energize the debate on both sides of the issue. It would provide a vehicle of getting an awful lot of people to the polls to participate in the process, perhaps even a record turnout for a non-presidential election.

Let's settle the income tax issue for the immediate future, and if passed, would certainly catapult the New Hampshire advantage like no one has ever envisioned. Let's enhance the New Hampshire advantage. Remember that our ultimate responsibility is to our constituents. Please vote against the ITL recommendation. Thank you, Mr. Speaker.

Rep. Itse: Thank you, Mr. Speaker. Honorable members of the General Court. A few moments ago Rep. Vaillancourt said that we don't have much about taxes in our constitution. But in the first part, The Bill of Rights, we do specify that all taxes must be uniform and proportional, a protection for the people. Most of what he considers to be appropriate amendments to the constitution deal with our form of government, how we do business. But what have we done in the last half century? Part I, Article 2, we amended it to provide equality before the law based on race, religion, sexual orientation. Part 1, 2A, when the federal government started diminishing our right to bear arms, we put the right to bear arms in our constitution, Part I, Article 6, we changed the language when defining what we considered high morality. No, we make a number of constitutional changes that are not dealing with the form of government.

So what is our constitution. Part I, Article 1 of our constitution says, "All men are born equally free and independent; therefore, all government of right originates from the people, is founded in consent, and instituted for the general good." Our government is founded with and only continues with the consent of the people. The constitution is the expression of that consent. James Madison put it this way, "Government is instituted to protect property of every sort; as well that which lies in the various rights of individuals, as that which the term particularly expresses. This being the end of government, that alone is a just government, which impartially secures to every man, whatever is his own." What is more his own than the fruit of his labor? His income. A tax on income is not mentioned anywhere in any founding American document. It does however appear in Karl Marx's "Communist Manifesto" right after abolishing private property and before eliminating inheritance. When the government tell you how much of your income they can take, they control your entire income. You will conform your behavior to their dictates in order to maximize what

you can retain. You are in effect a slave. The constitution is the people's constraint upon the government. It is their mechanism to restrain the ambitions and greed of those who make up their government – us. It is written down so that we have a known set of rules referenceable, less easily corrupted.

Every one of you who has an "R" next to your name was a delegate to the Republican state convention at which the platform was unanimously adopted. Article IV of the New Hampshire GOP platform states that we will preserve and protect freedom from broadbased sales and income taxes. What better way to maintain that freedom than to prohibit income taxes in the constitution.

Some of you have stated that you don't want to constrain future legislatures. But American government at all levels has demonstrated an insatiable appetite for the wealth of the people. What if the people want to constrain us in future legislatures? Ought they be able to? Don't they have the right to? And don't we have the obligation to give them the opportunity to? This isn't about us constraining future legislatures, it is about the people constraining future legislatures.

When New Hampshire elections have been about an income tax, the people of New Hampshire have turned out in record numbers and voted against the pro-income tax candidates. Yesterday 60% of this House voted against an income tax. In my opinion, every person in this room who is a true representative of the people is obligated to vote against the committee recommendation. Allow the people to express their will on this matter which is most important to their future prosperity.

When people see my license plate, they ask me if I work for the government. I tell them, "No, I work for the people." So tell me now, who do you work for? The government or the people?

Rep. Dodge: Thank you, Mr. Speaker. And thank you for taking my question my fellow representative from Fremont. I sit here listening to the arguments about the constitution and what we should put in it and what we shouldn't put in it. Is it alright for the federal government to put, in 1913 they passed the one for, 16 I think it was, Article 16, if they could do it why can't we?

Rep. Itse: That's absolutely correct.

Rep. Jasper: Thank you, Mr. Speaker. I believe that I do represent my constituents and I think that's why they've elected me to this House six times over the last 20 years. And during those six terms I have always opposed an income tax and I will always oppose an income tax. I've heard people say that it's a fair tax. Well, the fact is that because you are a New Hampshire resident, if you work out of state you won't pay a dime, only New Hampshire residents who live in this state and work in this state pay that tax, to me makes it one of the least fair taxes.

So why wouldn't I be in favor of putting this into the constitution and prohibiting it? We've heard a lot of good arguments, I think on both sides so I'm not going to go over those again. My reasons are a little bit different, and they are that I believe that it is important for us to have this debate each and every session. I believe that we will, as we have in the past, if it's not in the constitution because I believe it is very important for our constituents to know how the people in this chamber feel about the issue of taxation. I was against Tabor I spoke against that for essentially the same reason. I don't like taxes, I don't want to increase them, I don't like spending. I was one of 39 who voted against the budget last time. But I think it's important for our constituents, if they care, to be able to pull out the roll call from each session and look and see how we stand on a myriad of issues. Every time we lock something into the constitution, we take that debate away from our constituents. We take that record that we should be running on away from our constituents. The people who are elected here, their vision for what New Hampshire should be, becomes a little bit more clouded because the really important issues on how they feel may, in fact, not be in the public view. I think we need to have this debate. I think we need to stand here and go on the record as we did yesterday on the income tax, and on spending and let the people decide then, otherwise we may end up with a chamber full of people who no one really understands how they vote and when push comes to shove they may not like it. I stand here proudly against this bill and ask you to join with me in making sure this House continually goes on the record because I think what happened in 1999 had happened and the governor had signed the income tax into law, this chamber would have been cleaned out the next session and we would have had a lot of new people in here. I don't think the people of this state want an income tax. I think they would have reacted to what we did and I think that is very important for our form of government. Thank you very much, Mr. Speaker.

Rep. Giuda: Thank you, Mr. Deputy Speaker. To the representative from Hudson, would it be reasonable to say that if an income tax was instituted by this chamber, that regardless of whether the voters removed it in its entirety, that the legacy would remain. That the taxation would stay in place regardless of who came in the next term and that that is what we are trying to avoid?

Rep. Jasper: I absolutely disagree with you. We put laws on the books all the time and the legislature repeals them or not based on the membership in this House. I think if we enacted an income tax and this chamber were cleared out, the people coming in here would see that as a clear mandate and that income tax would probably never even have the opportunity to actually go into effect.

Rep. Kurk. Thank you, Mr. Speaker. For those of us who oppose an income tax isn't the most important reason to vote inexpedient on this, is so that we continue to have a wonderful issue to beat up our opponents?

Rep. Jasper: That is certainly one way of looking at it and I wouldn't disagree with you, Rep. Kurk.

BILLS REMOVED FROM CONSENT CALENDAR

HB 98, relative to law enforcement authority under the safe schools act. OUGHT TO PASS WITH AMENDMENT

Rep. Elbert I. Bicknell for Criminal Justice and Public Safety: This bill is simple in its structure. It is about giving authority to license pistols and revolvers to just one level of government instead of retaining it in several levels. The bill invests that authority in the chief law enforcement officer of a town or city, the chief of police, or his designee, or in cases of unincorporated towns and towns with no fulltime police department, the county sheriffs. This also removes the possibility of an individual who may or may not have a political agenda from denying or approving a license to carry a concealed firearm. The majority of the committee felt that since law enforcement personnel are the only ones that can perform background checks, they know from experience the times they were called to a given place for any sort of complaint. In essence, law enforcement officers are the ones who are in contact with individuals who at some point in time may request a license to carry. Succinctly, they are the ones who know the background of individuals in their towns the best, and whether or not that citizen is a "suitable person" under NH Law. Vote 12-1.

Amendment (0374h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to law enforcement authority to issue permits to carry firearms.

Amend the bill by replacing all after the enacting clause with the following:

I Pistols and Revolvers; License to Carry. Amend RSA 159:6 to read as follows:

159:6 License to Carry.

I. The ~~[selectmen]~~ **chief law enforcement officer, or designee**, of a town or ~~[the mayor or chief of police of]~~ a city ~~[or some full-time police officer designated by them respectively]~~, **or the county sheriff in areas without a chief law enforcement officer**, upon application of any resident of such town or city, or the director of state police, or some person designated by such director, upon application of a nonresident, shall issue a license to such applicant authorizing the applicant to carry a loaded pistol or revolver in this state for not less than 4 years from the date of issue, if it appears that the applicant has good reason to fear injury to the applicant's person or property or has any proper purpose, and that the applicant is a suitable person to be licensed. Hunting, target shooting, or self-defense shall be considered a proper purpose. The license shall be valid for all allowable purposes regardless of the purpose for which it was originally issued. The license shall be in duplicate and shall bear the name, address, description, and signature of the licensee. The original shall be delivered to the licensee and the duplicate shall be preserved by the people issuing the same for 4 years. When required, license renewal shall take place within the month of the fourth anniversary of the license holder's date of birth following the date of issuance. The license shall be issued within 14 days after application, and, if such application is denied, the reason for such denial shall be stated in writing, the original of which such writing shall be delivered to the applicant, and a copy kept in the office of the person to whom the application was made. The fee for licenses issued to residents of the state shall be \$10, which fee shall be for the use of the law enforcement department of the town granting said licenses; the fee for licenses granted to out-of-state residents shall be \$20, which fee shall be for the use of the state. The director of state police is hereby authorized and directed to prepare forms for the licenses required under this chapter and forms for the application for such licenses and to supply the same to officials of the cities and towns authorized to issue the licenses. No other forms shall be used by officials of cities and towns. The cost of the forms shall be paid out of the fees received from nonresident licenses.

II. No photograph or fingerprint shall be required or used as a basis to grant, deny, or renew a license to carry for a resident or nonresident, unless requested by the applicant.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill allows only law enforcement officers to issue permits to carry firearms. Rep. James Wheeler spoke against the amendment.

LAID ON THE TABLE

Rep. Bicknell moved that **HB 98**, relative to law enforcement authority under the safe schools act, be laid on the table.

Adopted.

BILLS REMOVED FROM CONSENT CALENDAR (CONT'D.)

HB 252, requiring bail hearings for persons arrested for probation violations. **OUGHT TO PASS WITH AMENDMENT**

Rep. Lee M. Hammond for Criminal Justice and Public Safety: This bill would Ensure that individuals apprehended for technical violations of their probation do not remain in jail at taxpayer expense for excessive periods of time while awaiting judicial review, as is currently the case in some of our counties. The courts, probation, parole, the Attorney General and the New Hampshire Civil Liberties Union are all firmly behind this legislation. Vote 14-0.

Amendment 0450h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Release of Person Detained for Probation Violation. Amend RSA 597:2 by inserting after paragraph I the following new paragraph:

I-a. Except as provided in RSA 597:I-d, upon the appearance before the court of a person charged with a probation violation, the court shall issue an order that, pending a probation violation hearing, the person be:

(a) Released on his or her personal recognizance or upon execution of an unsecured appearance bond, pursuant to the provisions of paragraph II;

(b) Released on a condition or combination of conditions pursuant to the provisions of paragraph III; or

(c) Detained.

2 New Section; Bail and Recognizances for Person Detained for Probation Violation. Amend RSA 597 by inserting after section 5 the following new section:

597:5-a When Required; Bail and Recognizances for Person Detained for Probation Violation. Every court may, when a person is accused of an offense or a probation violation in which said court is authorized to receive bail, release said person on personal recognizance or require him or her to recognize, with sureties, to appear at a future time before the court or any other competent tribunal.

3 Effective Date. This act shall take effect January 1, 2006.

Adopted.

Committee report adopted and ordered to third reading.

HB 454, relative to carrying a concealed weapon without a license. **INEXPEDIENT TO LEGISLATE**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill repeals certain statutes that require a license to carry a pistol or revolver. It further provides that under the Full Faith and Credit clause of the United States Constitution, New Hampshire residents shall not be required to obtain a license to carry a concealed weapon in any other state or territory of the United States. The first part of the bill that establishes a Full Faith and Credit clause would mean that New Hampshire is requiring all other states and territories to allow our residents to carry a concealed weapon in such other state or territory regardless of their laws. The committee unanimously rejected the concept that we should be able to void laws of other states as much as we would resist the attempt of other states to void our laws. The second part of this bill is identical to that presented in HB 285, which was also rejected by this committee. Reiterating in part what we said with regard to HB 285, we have heard, and rejected, several versions of this bill that have been brought forth in every session over the last several years. New Hampshire already has some of the most permissive firearms laws in the United States. A person can already carry a loaded firearm as long as it is not concealed or in a vehicle. The current law works well and should remain in place. Vote 17-0.

Rep. Marple spoke against and yielded to questions.

Rep. Tholl spoke in favor.

Adopted.

HB 645-FN, relative to fire-safe cigarettes. **OUGHT TO PASS**

Rep. E. Albert Weare for Criminal Justice and Public Safety: This bill will require that all cigarettes sold or offered for sale in the State of New Hampshire be certified by the manufacturer in writing to meet the standards of "Fire Safe Cigarettes." "Fire Safe Cigarettes" are manufactured in such a way that a cigarette left unattended will not stay lit, thus reducing many fires started by careless smokers. The results of many studies were presented in a workshop for fire service professionals and legislators on February 16, 2005. Testimony was overwhelming in favor of passage. The bill further directs the Commissioner of Safety in consultation with the State Fire Marshall to adopt rules under RSA 541-A that establish fire safety standards for cigarettes that are sold or offered for sale in the state. These standards will be modeled after the standards used in other jurisdictions that have imposed such standards. This law will contribute greatly to the reduction of lives and property lost in those incidents of fires directly related to smoking material. Vote 15-0.

Rep. Buhlman spoke against and yielded to questions.

Rep. Weare spoke in favor and yielded to questions.

Rep. Wendelboe spoke against.

MOTION TO LAY ON THE TABLE

Rep. Rodeschin moved that **HB 645-FN**, relative to fire-safe cigarettes, be laid on the table.

On a division vote, 161 members having voted in the affirmative and 172 in the negative, the motion failed.

The question now being adoption of the committee report.

Rep. Welch spoke in favor.

Rep. Bulhman requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

SULLIVAN

Converse, Larry
and the committee report was adopted.

Irish, Christopher

Rodeschin, Beverly

Rep. David B. Campbell did not vote and notified the Clerk that he wished to be recorded in favor.
Referred to the Committee on Ways and Means.

HB 451-FN-L, requiring the separate preparation and approval process for the special education budget. **INEXPEDIENT TO LEGISLATE**

Rep. Barbara J. Hagan for Education: The committee overwhelmingly agrees the bill is unnecessary and conveys a false sense of control over special education costs. Communities already have the power and opportunity to break out any and all costs with respect to budgetary items. The legislation does not relieve any community from meeting special education costs. Vote 16-0.
Committee report adopted.

HB 612-FN, establishing the New Hampshire volunteer elementary teachers and students program. **INEXPEDIENT TO LEGISLATE**

Rep. Claire D. Clarke for Education: The committee appreciates the concept brought forward by the sponsor. However, we feel this bill is not needed. We need qualified teachers in the classroom.

Credit would be earned at the expense of the taxpayers and school districts. Volunteer teachers would be the primary educator in classrooms and this bill is not in keeping with No Child Left Behind (NCLB). It would also raise issues in the educational process. Vote 16-0.

Rep. Field spoke against and yielded to questions.

Rep. Claire Clarke spoke in favor.

Rep. Field requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted.

WITHOUT OBJECTION

Without objection, the Chair ordered that since the House was technically still in the March 9, 2005 session, any leave of absence requests received by the Clerk today will be granted, unless otherwise ordered by the House.

LEAVES OF ABSENCE

Reps. Albert, Baroody, Fesh, Donald Flanders, Foote, Hutchinson, Stephen L'Heureux, Morneau, Nedeau, Packard, Palangas, Palazzo, Stevens, and Weldy, the day, illness.

Reps. Charles Clark, Dexter, Donahue, Dowling, Foose, Ginsburg, Greco, Hagan, Hebert, Lawrence, Lund, Michon, Miller, Pepino, Powers, Rausch, Reed, Rochette, Stella Scamman, W. Douglas Scamman, Scanlon, Serlin, Tobin, Twombly, and Velez, the day, important business.

Rep. Manney, the day, illness in the family.

Reps. Kimberly Shaw and Rolston, the day, death in the family.

The House recessed at 12:00 p.m.

RECESS

(Deputy Speaker Weyler in the Chair)

The House reconvened at 1:40 p.m.

BILLS REMOVED FROM THE CONSENT CALENDAR

HB 624-FN, relative to penalties in certain health and health-related professions. **INEXPEDIENT TO LEGISLATE**

Rep. Alida I. Millham for Executive Departments and Administration: The intent of this bill is to make the penalties for practicing without a license consistent across all the health and health related professions. Upon study, it appeared that a penalty that would work for one profession would not necessarily work for another. Also, there was no evidence that the penalty clause in each of the health and health care professions practice laws was not working and it was determined that any problems with the clause could be dealt with on a case by case basis. On the initial vote in executive session the committee voted 16-2 inexpedient to legislate. The sponsor requested, reconsideration because of new information that was not given during the initial hearing and a subcommittee hearing. Upon review, the committee once again voted inexpedient to legislate by the same vote. Vote 16-2.

Rep. Bergin moved recommit to committee and spoke in favor.

Adopted.

Recommitted to the Committee on Executive Departments and Administration.

SB 39, relative to disinterment of dead bodies. **OUGHT TO PASS**

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: The committee recognized the sensitive issue involved in this bill. The main purpose of this bill is to clarify notification to surviving family members that a request for disinterment permit has been requested. The bill requires written notice of the request and sufficient time to object to the disinterment before the permit is issued. Therefore, the trustees of cemeteries are not allowing a disinterment without appropriate notice. This bill would not affect an order by a county attorney or the attorney general who disinters a body for autopsy purposes. Vote 17-0.

Rep. MacKay offered floor amendment (0509h).

Floor Amendment (0509h)

Amend RSA 290:5 as inserted by section 1 of the bill by replacing it with the following:

290:5 Burial Permit Required. No interment of the dead body of a human being, nor disposition of the body in a tomb or vault, shall be made without a permit, and only in accordance with it. No disinterment, except as otherwise provided in this chapter, of the dead body of a human being shall be made without a permit from the department of health and human services, countersigned by the local health officer, and only in accordance with such permit. *Before a disinterment permit is granted, the surviving spouse, parents, and children, who are 18 years of age or older, of the deceased human being shall be given written notice by certified mail of the disinterment request and shall be afforded 10 days from the written notice to object to the disinterment before the permit is issued.* Such disinterment permit shall not be required for removal of such dead body from a tomb or vault for the purpose of burial, for reinterment of dead bodies after discontinuance of a public cemetery, as provided in RSA 289:15 and 289:16, if a body is to be removed within the geographic boundaries of the same cemetery, nor in a case where an autopsy has been ordered by a county attorney or the attorney general. No person shall assist in, assent to, or allow an interment or disinterment to be made until a permit has been obtained under this section. Any person who violates the provisions of this section shall be guilty of a misdemeanor.

Rep. MacKay spoke in favor and yielded to questions.

Floor amendment (0509h) adopted.

Committee report adopted and ordered to third reading.

HB 682-FN, requiring an informational statement regarding the powers of district courts. **INEXPEDIENT TO LEGISLATE**

Rep. Cynthia J. Dokmo for Judiciary: This bill would require the District Court to include, with every summons, a written statement that participants in the court proceedings have no constitutional rights. This is simply not accurate. District Courts were created by the legislature pursuant to Part II, Article 72-a of the New Hampshire Constitution. The justices are constitutional officers, who take the oath of office swearing to uphold the constitution. All participants in district court proceedings enjoy the same constitutional rights and protections as do participants in so-called "constitutional courts." For these reasons, the committee voted unanimously to recommend ITL. Vote 15-0.

Rep. Marple spoke against and yielded to questions.

Rep. Dokmo spoke in favor.

Committee report adopted.

HB 524, relative to outsourcing of jobs. **INEXPEDIENT TO LEGISLATE**

Rep. Robert J. Giuda for Labor, Industrial and Rehabilitative Services: While the intent of the bill is laudable, as proposed it would in fact be grossly punitive and contrary to the accepted reality of globalization which in fact can result in substantial cost savings and job savings if offshore outsourcing is managed rather than repudiated. This bill's provisions would not prevent large companies from dropping New Hampshire as a market, and could cause greater loss of jobs if passed. Vote 14-0.

Rep. Bridle moved recommit to committee.

Adopted.

Recommitted to Labor, Industrial and Rehabilitative Services.

HB 81, allowing municipalities to grant 2 veterans' tax credits in a single household. **INEXPEDIENT TO LEGISLATE**

Rep. Eric G Stohl for Municipal and County Government: This bill was an attempt to expand the veteran's credit against property taxes to an additional qualifying person residing in the same

household. The committee heard testimony as to the complexities involved in attempting to administer this tax credit. Some of the difficulties that the committee heard ranged from documenting residency in the household to researching whether or not the additional person's name was actually on the deed that was recorded at the county registry of deeds. Although the intent of the sponsors is admirable, the committee feels that this bill would create more problems than value. There was testimony that this bill would apply to very limited, if any, current situations. Vote 15-0. Rep. Hawkins spoke against.

Rep. Dickinson spoke against and yielded to questions.

Reps. Gillick and Stohl spoke in favor.

Rep. Hawkins requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

-----------------	-----------------	--------------------	----------------

and the committee report was adopted.

HB 414, relative to regulation of municipal waste combustors. OUGHT TO PASS WITH AMENDMENT

Rep. Lee G. Slocum for Science, Technology and Energy: This bill changes the environmental operating requirements for small incinerators so that they are the same as large incinerators, that is, the constraints on what can be emitted in the way of toxic chemicals are made more severe. The effective date for the bill is January 1, 2006 which leaves sufficient time for the only incinerator affected to be upgraded. This is a significant improvement for the residents of the Claremont region and they should be quite happy about it. Vote 15-0.

Amendment (0406h)

Amend the introductory paragraph of RSA 125-C:10-a as inserted by section 1 of the bill by replacing it with the following:

Any municipal waste combustor, as defined in RSA 125-M:2, XI, with a design capacity of at least 35 tons per day but no more than 250 tons per day of municipal solid waste, as defined in RSA 125-M:2, X, shall be limited to the following levels of emissions, unless otherwise provided for by a more stringent federal regulation, or by other state statute:

Amend the bill by replacing section 2 with the following:

2 Effective Date. This act shall take effect January 1, 2006.

Adopted.

Rep. Phinizy spoke against.

Rep. Slocum spoke in favor.

Committee report adopted and ordered to third reading.

RESOLUTION

Rep. O'Neil offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, March 23, 2005. Adopted.

LATE SESSION**Third reading and final passage**

HB 61, extending the family law task force.

HB 223, relative to the procedure for assignment of juvenile probation and parole officers.

HB 280, relative to the manner of service in divorce and child custody proceedings.

HB 456-FN, relative to inhaling toxic vapors.

HB 303-FN, relative to the fire standards and training commission.

HB 382, establishing a committee to develop a strategic capital plan for department of corrections' facilities.

HB 443, relative to the statute of limitations for fire code violations.

HB 692-FN-L, relative to the county department of corrections.

HB 308, relative to the special education payment distribution schedule and relative to alternative dispute resolution proceedings in special education.

HB 448-FN, relative to the collection of certain fees by the postsecondary education commission.

HB 483, relative to instructions to be placed on the general election ballot.

HB 353, relative to consent to haul lobster and crab gear of license holders.

HB 444, relative to the surrender and condemnation of game animals to the fish and game department.

HB 445, relative to the taking of certain game birds and fur-bearing animals.

HB 446, relative to applications for resident hunting or fishing licenses.

HB 681-FN, relative to training, quality assurance, and licensing of assisted living facilities.

HB 697-FN, establishing a commission to study medicaid reimbursement rates for pharmacy providers.

HB 288-FN, establishing a commission to effect the process for the town of Killington, Vermont to become part of the state of New Hampshire.

HB 512, establishing a commission to study property tax relief and reverse mortgages.

HB 157, establishing a commission to study procurement methods for public works projects by state and local government agencies.

HB 340, renaming Jones Brook Wildlife Management Area in Strafford County for former chairman of the fish and game commission, Ellis Hatch, Jr., and naming a building at the Sandy Point Discovery Center in Stratham for former governor Hugh Gregg.

HB 540-FN, relative to the disposal of real property purchased with highway or turnpike funds.

HB 279, relative to the classification of Spofford Lake in Chesterfield, New Hampshire.

HB 185, establishing a committee to study maximizing the incentives for the voluntary use of renewable energy in New Hampshire as defined in RSA 374-F:3.

HB 568, establishing the greater Derry-Salem cooperative alliance for regional transportation.

HB 462, prohibiting road toll refunds for idling time.

HB 450-FN-A extending the commission to study child support and related child custody issues and relative to hiring economists to assist in revising the child support guidelines and making an appropriation therefor.

HB 339, relative to electioneering at polling places.

HB 604-FN, discontinuing the use of tokens.

HB 625-FN-L, authorizing borrowing from the state revolving loan fund for the Winnepesaukee river basin project

HB 574-FN, requiring the reporting of burn injuries

HB 252, requiring bail hearings for persons arrested for probation violations.

SB 39, relative to disinterment of dead bodies.

HB 414, relative to regulation of municipal waste combustors.

UNANIMOUS CONSENT

Reps. Cady, Patten and Theberge addressed the House.

INTRODUCTION OF GUESTS

A delegation from Albania sponsored by the World Affairs Council and the United States State Department, guests of the House.

RECESS MOTION

Rep. O'Neil moved that the House stand in recess for the purpose of introduction of bills and receiving Senate messages only.

Adopted.

The House recessed at 2:35 p.m.

RECESS

(Rep. Jasper in the Chair)**RESOLUTION**

Rep. Franklin offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, Senate Bills numbered 5, 18, 40, 58, 63, 66, 70, 72, 77, 78, 99, 104, 117, 140, 150, 152, 172, 192, 211, 219 and 222, Senate Concurrent Resolution 4, Senate Joint Resolution 2, shall be by this resolution read a first and second time by the therein listed titles, and referred to the therein designated committees.

Adopted.

INTRODUCTION OF SENATE BILLS, SCR and SJR**First, second reading and referral**

SB 5, establishing a commission to study the state park system. (Resources, Recreation and Development)

SB 18, relative to sales of tickets for pure lotteries by those not employed by the lottery commission. (Ways and Means)

SB 40, permitting special school district meetings to be held in conjunction with the biennial election in certain school districts. (Education)

SB 58-FN, making certain changes in the workers' compensation law. (Labor, Industrial and Rehabilitative Services)

SB 63-FN-A, establishing a court mediation fund to pay the costs of a mediation program in the district courts. (Judiciary)

SB 66, establishing a committee to study the creation of a northern New England purchasing alliance for small business health insurance. (Commerce)

SB 70, relative to the powers of special corporations. (Executive Departments and Administration)

SB 72, relative to the licensing of public adjusters. (Executive Departments and Administration)

SB 77, relative to the review of proposed health care provider contracts. (Commerce)

SB 78, relative to payment of health care providers by health carriers. (Commerce)

SB 99-FN, relative to the penalty for failure to file a property inventory form. (Municipal and County Government)

SB 104-FN, relative to the tax exemption for water and air pollution control facilities. (Municipal and County Government)

SB 117-FN, relative to utility property tax appeals. (Municipal and County Government)

SB 140, relative to the acceptance of in-lieu payments for the restoration or creation of wetlands and the preservation of upland areas adjacent to wetland areas. (Environment and Agriculture)

SB 150-FN, relative to application fees for certain bank incorporations. (Commerce)

SB 152-FN, relative to audits by the department of revenue administration of enhanced 911 charges and relative to the confidentiality of information collected by the department of safety regarding the surcharge for the enhanced 911 system. (Science, Technology and Energy)

SB 172, establishing a committee to study a medical fee schedule for workers' compensation. (Labor, Industrial and Rehabilitative Services)

SB 192, relative to service in a war or conflict qualifying for the veterans' tax credit. (Municipal and County Government)

SB 219-FN, relative to examinations under workers' compensation. (Labor, Industrial and Rehabilitative Services)

SB 222-FN, relative to cumulative trauma under workers' compensation. (Labor, Industrial and Rehabilitative Services)

SCR 4, supporting federal funding for Lyme disease research. (Health, Human Services and Elderly Affairs)

SJR 2, urging Congress to reject the Streamlined Sales Tax Project. (State-Federal Relations and Veterans Affairs)

RECESS**COMMITTEE ASSIGNMENT****(Speaker Scamman in the Chair)**

Rep. Kenneth L. Weyler on Finance.

RECESS

(Rep. Easson in the Chair)

RESOLUTION

Rep. Carter offered the following: **RESOLVED**, that the late drafting and introduction having been approved by the Rules Committee, in accordance with the list in the possession of the Clerk, House Bills numbered 25 and 722, shall be by this resolution read a first and second time by the therein listed titles, sent for printing, and referred to the therein designated committees.
Adopted.

INTRODUCTION OF HOUSE BILLS

First, second reading and referral

HB 25-FN-A, making appropriations for capital improvements. (Chandler, Carr 1: Public Works and Highways)

HB 722, relative to the spreading of biosolids in certain designated areas. (Babson, Carr 3: Environment and Agriculture)

RECESS

(Deputy Speaker Weyler in the Chair)

RESOLUTION

Rep. Craig offered the following: **RESOLVED**, that the late drafting and introduction having been approved by the Rules Committee, in accordance with the list in the possession of the Clerk, House Bill numbered 1, shall be by this resolution read a first and second time by the therein listed title, sent for printing, and referred to the therein designated committee.
Adopted.

INTRODUCTION OF HOUSE BILL

First, second reading and referral

HB 1-A, making appropriations for the expenses of certain departments of the state for fiscal years ending June 30, 2006 and June 30, 2007. (King, Coos 1: Finance)

RECESS

(Speaker Scamman in the Chair)

Rep. O'Neal moved that the House adjourn.
Adopted.

HOUSE JOURNAL No. 9

Wednesday, March 23, 2005

The House assembled at 1:00 p.m., the hour to which it stood adjourned, and was called to order by the Speaker.

His Excellency, Governor John H. Lynch, joined the Speaker on the rostrum for the day's opening ceremonies.

Prayer was offered by Guest Chaplain Reverend Karen Maleri, Director of Pastoral Care, Heritage Heights in Concord.

O precious God of many names and faces, as we struggle against the weight of doubt lead us to the altar of confidence that we may find community wellness gathered there amidst our own agendas and sense of success.

As we confront the sting of failure, lead us to the altar of Your unfailing love that we may kneel and call out beyond ourselves for guidance and that sense of WE, not I; and as we struggle against the reproach of complacency, lead us to the altar of humility that we may find faith, grace, success and confidence as the prevailing commandments for us to follow as we live and serve the state of New Hampshire. Shalom. Amen. And blessed be.

Rep. Mary Stuart Gile led the Pledge of Allegiance.

The National Anthem was sung by Elizabeth Potter, accompanied by violinist, Amanda Laprise, students from Manchester West High School.

COMMUNICATION

March 23, 2005

Karen Wadsworth, Clerk of the House

Please be advised that the following representatives-elect were sworn into office by the Governor and Council on this day:

Strafford County District No. 3, Lawrence Brown, d, Milton (1362 White Mountain Highway) 03851

Sullivan County District No. 4, Philip Osgood, r, Claremont (19 Whitcomb Lane) 03743

William M. Gardner, Secretary of State

LEAVES OF ABSENCE

Reps. Mary Allen, Carolyn Brown, Langley, Palangas, Palazzo and Philbrick, the day, illness.

Reps. Bicknell, William Chase, Grassie, Hagan, Hall, Hollinger, Lawrence, Mirski, Mitchell, Price, Reed and Rosenwald, the day, important business.

Rep. Mark Clark, the day, illness in the family.

Rep. Kennedy, the day, death in the family.

INTRODUCTION OF GUESTS

Sydni, Michael, Ashley, Franklin and Katelin Garrity, wife and children of Rep. James M. Garrity. Morgan Baumann, granddaughter of Rep. Barry. Roger Goode, guest of Rep. Essex. Susan Foster Brown, guest of Rep. Larry Brown.

INTRODUCTION OF SPECIAL GUESTS

Members of the New Hampshire Association of the National Honor Society who recently were awarded the 2004 Ardis Kyker Service Award for their work in providing 50,000 books for "America Reads" program, providing emergency 911 cellular phone access to the elderly, and the contribution of formal dresses for the Cinderella Project. Courtney Chisholm, Andrew Czyzowski, Jake Dembow, Kaity Funk, Maureen Kenney, Cindy Lambert, Amanda Laprise, Lindsey Levesque, Isaak Poirer, Jr., Elizabeth Potter, Alexa Rogers, Kristen Sapowicz, President Melissa Kohari, and advisor, James P. McGeough, were guests of the House.

MEMORIAL REMARKS

Rep. O'Neil moved that the remarks of Rep. Patten be printed in the Permanent Journal. Adopted.

Rep. Patten: Thank you, Mr. Speaker. Today I rise to give you in loving memory, Earle W. Chandler. Earle was born at the Chandler farm in Bartlett, New Hampshire, on September 6, 1913, the son of Walter and Helen Archibald Chandler. Earle died in New London, New Hampshire, on March 12, 2005. Earle was community spirited and devoted 12 years to the town of Bartlett and later 27 years to the town of Wilmot as selectman. His father and grandfather served as selectmen in previous years. He also served in the New Hampshire House as representative from Bartlett in 1955-1961, as Majority Leader and Chairman of the Ways and Means Committee, and later served four terms from Wilmot on the Finance Committee.

I was honored to serve with Representative Earle Chandler. As a rookie that has grown to love and honor the House of Representatives, I watched Rep. Chandler being assisted by our former Mr. Speaker, Gene Chandler. I saw the caring that the Chandler family had for each other, but higher than that for the tradition of New Hampshire, for their family, for their constituents, for their House and then for themselves.

It is with sadness that we say goodbye to Representative Earle Chandler and for me, I want to give you a large, warm hug for what he gave and what he taught to us. God bless you, Representative Chandler.

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. O'Neil moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 38, relative to credit card theft, removed by Rep. Welch.

HB 636-FN, requiring the electronic recording of statements by persons subject to custodial interrogation, removed by Rep. Timothy Robertson.

HB 151, requiring school districts to develop a school age nutrition and physical activity committee, removed by Rep. Boehm.

CACR 19, relating to representation in cities and towns whose population is equal to, or greater than, the minimum number of persons per house district. Providing that a city or town shall have at least one representative from the city or town if its population is equal to or greater than the apportionment figure for house districts, removed by Rep. Vaillancourt.

HB 521, relative to medical insurance coverage for members of the Manchester employees' contributory retirement system, removed by Rep. Infantine.

CACR 1, relating to taxation. Providing that the maximum increase in any budget bill in the state or its political subdivisions shall be limited by the rates of inflation and population growth unless overridden, removed by Rep. Camm.

HB 323-FN, relative to excluding social security numbers and other information from documents filed with registries of deeds, removed by Rep. Kurk.

HB 679-FN-L, authorizing the electronic enforcement of traffic signal violations, removed by Rep. Kurk.

HB 601-FN, allowing businesses to apply the investment tax credit to contributions made to scholarship funding organizations, removed by Rep. Slocum.

HB 613-FN, exempting prepared take-out food items sold in supermarkets from the meals and rooms tax, removed by Rep. Field.

Consent Calendar adopted.

HB 138-FN, requiring medical examiners to inventory and account for property taken from decedents. **OUGHT TO PASS**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill establishes a requirement requiring the state medical examiner to inventory and account for any property taken from a decedent and to provide a copy of the inventory to the next of kin. No one appeared in opposition to this bill and at the subcommittee meeting the state medical examiner and a representative of the Attorney General's office appeared and agreed that the bill would codify a procedure already being developed and implemented by the medical examiner's office. Vote 16-1.

HB 228-FN, prohibiting cellular telephone directories in New Hampshire. **INEXPEDIENT TO LEGISLATE**

Rep. Laura C. Pantelakos for Criminal Justice and Public Safety: The committee felt that the federal laws that are in place now would take care of any problems that might occur in the future.

The directory that the cell phone companies plan to put in place will not be a phone book. The only way you can get a cell phone number is through the 411 number which costs the person who asks for the number. The only way you can have your cell phone number listed is by you asking to have your number listed. Vote 13-4.

HB 332, relative to harassment by telephone. OUGHT TO PASS

Rep. Jordan G. Ulery for Criminal Justice and Public Safety: Following testimony by the Attorney General's office and NH Chapter of the ACLU, the committee felt a minor modification to the current telephone harassment law was in order. The current law was effectively nullified by a recent Supreme Court decision as lacking specificity regarding the purpose of a call made by a "harasser." The new wording requires that telephonic communication be for a "legitimate communicative purpose." The intent of the language was to prohibit hang-up type calls, threatening calls, heavy breathing into the phone, anonymous vague threats and the like, but to allow personal, professional and business telephone calls, regardless of source. The Attorney General's office assisted in crafting the language of the bill. Vote 14-0.

HB 372, relative to notification of interested parties in medical parole cases. OUGHT TO PASS

Rep. Jordan G. Ulery for Criminal Justice and Public Safety: The committee listened to the data relative to rapid humanitarian medical parole. This bill establishes requirements for notifying interested parties of a medical parole hearing and release. The process saves money and transfers medical costs to private insurance where appropriate. Vote 14-2.

HB 379, establishing a committee to study funding for the multiple offender program. INEXPEDIENT TO LEGISLATE

Rep. Lee M. Hammond for Criminal Justice and Public Safety: The Multiple Offender Program (MOP) is currently functioning and is highly endorsed by the committee. It is funded by participant fees with waivers granted for those unable to pay. The program should be continued and funded as per current procedure. There is no need to establish a committee to study its funding. Vote 16-0.

HB 475, relative to access to certain criminal records. INEXPEDIENT TO LEGISLATE

Rep. Maurice Villeneuve for Criminal Justice and Public Safety: This bill would allow any person hired by an attorney for the defense in any criminal case access to any and all criminal records and current addresses of any person who is a defendant, complainant or potential witness in the case. This bill clearly is a violation of privacy issue and could lead to unforeseen problems. Vote 15-1.

HB 497, relative to stolen checks. INEXPEDIENT TO LEGISLATE

Rep. George D. Winchell for Criminal Justice and Public Safety: This bill is very similar to HB 38 which was voted OTP by this committee. The language in HB 38 satisfies the intent of the sponsor of HB 497. Vote 14-0.

HB 498, establishing a study committee relative to the sale of fire-safe cigarettes. OUGHT TO PASS WITH AMENDMENT

Rep. E. Albert Weare for Criminal Justice and Public Safety: The use of fire-safe cigarettes has been shown by national fire prevention organizations to greatly reduce the loss of life and property damage by fires due to the improper disposal of cigarettes. This bill will establish a study committee to develop the standards for fire-safe cigarettes to be sold in New Hampshire. The study will examine the feasibility, regulatory, and enforcement mechanisms for the state to require the sale of fire-safe cigarettes. The amendment extends the reporting requirement to November 1, 2006. The outcome of HB 645 that was recently passed by the House is unknown at this time, but the sale and use of fire-safe cigarettes is already known to be a big deterrent in saving lives and protecting property from loss by fire caused by the improper disposal of smoking material and therefore should be explored to its fullest extent. Vote 15-0.

Amendment (0579h)

Amend the bill by replacing section 5 with the following:

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2006.

HB 526, relative to temporary hearings on domestic violence petitions. **INEXPEDIENT TO LEGISLATE**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill would provide that a temporary hearing on a domestic violence petition shall not serve as the final hearing. The language of the bill says, "The court shall hear the matter de novo and shall not be bound by any prior findings, or determinations made in granting temporary relief under RSA 173-B:4." The current statute already creates a de novo hearing and is separate and distinct from the temporary relief that is granted under RSA 173-B:4. This bill is unnecessary. Vote 16-0.

HB 609-FN, establishing the protection of liberty act. **INEXPEDIENT TO LEGISLATE**

Rep. Lori A. Movsesian for Criminal Justice and Public Safety: This bill would establish the protection of liberty act. The bill replicates HB 1385 from 2004 which was voted Inexpedient to Legislate. The assistant commissioner of safety and the Assistant Attorney General testified in opposition. The bill presents significant constitutional problems. It criminalizes acts undertaken by law enforcement officials and it appears to do away with the legal concept of absolute or qualified immunity for acts undertaken by a government official in good faith belief of their legality. For these reasons, the committee unanimously found the bill Inexpedient to Legislate. Vote 13-0.

HB 620-FN, relative to the accountability of public officials and interference with constitutional and legal rights. **INEXPEDIENT TO LEGISLATE**

Rep. Peter M. Sullivan for Criminal Justice and Public Safety: The sponsors of this bill have identified a very real problem. Too often, public officials, be they elected or appointed, are unresponsive to the needs of their constituents. Such indifference reflects poorly on all of us in the public arena. Unfortunately, this legislation uses "overkill" to solve the problem. Under this bill, public officials who fail to respond to a poorly-defined "affidavit" within 30 days would be subject to criminal prosecution and removal from office. It is easy to foresee a situation where a band of disgruntled individuals bring government to a screeching halt by burying an official with a blizzard of affidavits. The folks who volunteer their time as members of the local planning board, conservation commission, or library board of trustees should not be subject to such abuse. In addition, this bill makes reference to "violations of criminal and legal rights," yet leaves such rights largely undefined. To impose criminal penalties when the public can not determine the letter of the law is not only unconscionable, it is unconstitutional. The committee hopes that the sponsors will revisit this issue in a different manner in the future and looks forward to crafting a reasonable and constitutional solution to a very real problem. Vote 16-0.

HB 628-FN, relative to the authority of law enforcement officers to close an area for the purpose of abating a threat to public health or safety. **OUGHT TO PASS**

Rep. Karl I. Gilbert for Criminal Justice and Public Safety: This bill was introduced at the request of the Attorney General's office. This bill would allow a peace officer who has grounds to believe that a serious threat to the public health or safety is created by a flood, storm, fire, earthquake, explosion, imminent riot, ongoing criminal activity that poses a risk of bodily injury, or other disaster to close the area where the threat exists and the adjacent area necessary to control the threat, or to prevent its spread, for the duration of the threat, until related law enforcement operations are complete. Vote 10-4.

HB 696-FN, relative to enhanced penalties for crimes against the elderly and persons with disabilities. **OUGHT TO PASS WITH AMENDMENT**

Rep. William V. Knowles for Criminal Justice and Public Safety: The amendment approved by the committee replaced the entire bill and adds a new paragraph (L) to RSA 651:6 (extended term of imprisonment) to protect the elderly and those persons who have a physical or mental condition that impairs the victim's ability to manage his/her property or financial resources, or to protect his/her rights or interests. Vote 14-0.

Amendment (0658h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to enhanced penalties for certain crimes against the elderly and persons with disabilities.

Amend the bill by replacing section 1 with the following:

1 New Subparagraph; Enhanced Penalties for Certain Crimes Against the Elderly or Persons With Disabilities. Amend RSA 651:6, I by inserting after subparagraph (k) the following new subparagraph:

(l) Has committed or attempted to commit any of the crimes defined in RSA 637 or RSA 638 against a victim who is 65 years of age or older or who has a physical or mental condition that impairs the victim's ability to manage his or her property or financial resources or to protect his or her rights or interests.

AMENDED ANALYSIS

This bill imposes enhanced penalties for certain crimes against the elderly and persons with disabilities.

HB 129-FN-L, establishing a high performance school incentive. **OUGHT TO PASS**

Rep. Deanna P. Rush for Education: This bill establishes an incentive for towns to build environmentally sound, quality schools. A high performance building is healthy and productive for students and teachers. It provides high levels of acoustic, thermal, and visual comfort and also has superior air quality. These buildings are cost effective to operate and maintain. The bill overwhelmingly passed the Education Committee, the Finance Committee, and the New Hampshire House last year, but was killed in the Senate. Vote 11-3.

HB 351, relative to the time for counting absentee ballots. **OUGHT TO PASS WITH AMENDMENT**
Rep. Michael D. Whalley for Election Law: This bill, as amended, would change the time from 1:00 P.M. to 11:00 A.M. on the day of the election as the time when the processing of absentee ballots may begin. This change would provide more time for the processing of absentee ballots and would be consistent throughout the state. Vote 14-2.

Amendment (0653h)

Amend the bill by replacing section 1 with the following:

1 Processing Absentee Ballots. Amend RSA 659:49 to read as follows:

659:49 Processing Absentee Ballots.

I. Processing of previously received absentee ballots shall begin at ~~[1:00 p.m.]~~ **11:00 a.m.** The processing of the absentee ballots shall not unnecessarily interfere with normal voting procedures, nor shall the polls be closed at any time during the processing of such ballots. Absentee ballots which are received after ~~[1:00 p.m.]~~ **11:00 a.m.** and prior to 5:00 p.m. shall be processed as soon after receipt as possible. Under no circumstances shall absentee ballots be counted prior to the closing of the polls.

II. Notwithstanding the provisions of paragraph I, upon the written challenges of 10 or more voters who are present at the polls no later than ~~[1:00 p.m.]~~ **11:00 a.m.**, the moderator shall postpone the processing of all absentee ballots until after the polls close and prior to the counting of all ballots cast in the election.

AMENDED ANALYSIS

This bill changes the time for beginning the processing of absentee ballots from 1:00 p.m. to 11:00 a.m.

HB 362, relative to statutes to be posted at polling places. **OUGHT TO PASS**

Rep. Thomas J. Langlais for Election Law: This bill modifies the list of statutes that must be posted outside the guardrail in the polling places that define the laws more pertinent to the voting process. This bill adds existing statutes and further defines and clarifies laws already in place. These statutes shall be posted at each polling place. This bill removes statutes which address rights not typically exercised at the polls on election day and adds statutes which do address election day polling place activity. This bill is supported by the secretary of state and attorney general. Vote 15-1.

HB 195, establishing a committee to study the department of insurance and whether it should be combined with any other agency. **OUGHT TO PASS WITH AMENDMENT**

Rep. Nelson S. Allan for Executive Departments and Administration: This bill establishes a study committee for consideration of changes to the insurance department. The committee heard testimony on the need to improve responsiveness to consumer complaints and the need to improve inter-department communications with other financial departments. The committee amendment names membership from the Commerce and Executive Departments and Administration Committees as well as two others appointed by the speaker of the house and three appointed by the senate president. Vote 16-0.

Amendment (0467h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study the department of insurance.

Amend the bill by replacing section 1 with the following:

1 Committee Established. There is established a committee to study the department of insurance.

Amend subparagraph I(a) of section 2 of the bill by replacing it with the following:

(a) Four members of the house of representatives, one of whom shall be from the house executive departments and administration committee and one of whom shall be from the house commerce committee, appointed by the speaker of the house of representatives.

Amend the bill by replacing section 3 with the following:

3 Duties. The committee shall study the department of insurance, including whether it should be combined with any other agency, consumer issues, and efficiency of operation.

AMENDED ANALYSIS

This bill establishes a committee to study the department of insurance, including whether it should be combined with any other agency.

HB 335, relative to the review of final proposed rules by the joint legislative committee on administrative rules. **INEXPEDIENT TO LEGISLATE**

Rep. Pamela V. Manney for Executive Departments and Administration: This committee has a more comprehensive bill that includes this area of concern. Therefore, it was the decision of the committee that it would be prudent to combine both bills into one. Vote 13-0.

HB 388, establishing a commission to study the retirement system medical benefits subsidy for retired teachers. **INEXPEDIENT TO LEGISLATE**

Rep. Francis B. Sullivan for Executive Departments and Administration: It is the feeling of the committee that the intent of this bill is redundant to HB 181 which was passed unanimously by this committee and by the house on the consent calendar. It is believed that HB 181, establishing a committee to study the special account in the New Hampshire Retirement System, will pass the senate and be signed by the Governor and as a result, resolve all of the issues in this bill. Vote 17-1.

HB 415, excepting installation of fuel gas equipment from regulation by the electrician's board. **OUGHT TO PASS WITH AMENDMENT**

Rep. Ken Hawkins for Executive Departments and Administration: This bill will allow heating technicians to install and hook up the wires to a heating system. Current law allows them to do this for fuel oil, not for other forms of energy such as natural gas, propane, methane, etc. This bill will now legalize what many technicians have been doing. Vote 18-0.

Amendment (0678h)

Amend the title of the bill by replacing it with the following:

AN ACT excepting installation of heating equipment from regulation by the electrician's board.

Amend the bill by replacing section 1 with the following:

1 Electricians; Exception Added. Amend RSA 319-C:3, IX to read as follows:

IX. Installation of ~~[fuel oil]~~ **heating** equipment and controls connected thereto.

AMENDED ANALYSIS

This bill adds heating equipment installation to the exceptions to the regulatory authority of the electrician's board.

HB 499, relative to participation in and administration of the Manchester employees' contributory retirement system. **OUGHT TO PASS**

Rep. William R. Zolla for Executive Departments and Administration: In that the Manchester retirement system was authorized by the state legislature all changes thereto must also be approved by the state legislature. This bill was presented to the committee as a housekeeping bill to rectify some areas of the Manchester system and was presented by it's director as such with no additional expense to the city. Vote 16-0.

HB 546, relative to the status of the board of trustees of the retirement system. **OUGHT TO PASS**

Rep. William R. Zolla for Executive Departments and Administration: This bill provides that the board of trustees has the powers, privileges, and immunity of a corporation in managing the re-

tirement system. This bill would alleviate the need for the retirement system to purchase insurance for the board's trustees presently costing \$125,000.00 per year for 13 million in liability protection for individual members should the board of trustees be penetrated by litigation and involve the individual members. This protection was originally in the trust documents and was omitted by mistake when they were re-written several years ago. Vote 14-0.

HB 552, proclaiming March as New Hampshire Irish American Month. **INEXPEDIENT TO LEGISLATE**

Rep. Patricia M. McMahon for Executive Departments and Administration: Consistent with prior deliberations, the committee believes that while the contribution of the Irish to our state have been numerous, meritorious and renowned, this legislation is not recommended and cannot enhance the admirable accomplishments that are duly acknowledged and appreciated by the populace. Vote 19-1.

HB 582, relative to the policy for records management. **OUGHT TO PASS**

Rep. James B. Coburn for Executive Departments and Administration: This bill specifies that the state record management program is intended, in part, to promote integrity in the day to day record keeping activities of state and local government. The committee discussed the definition of integrity as being the accuracy and reliability of the archive process and that adding the word integrity provided support for the archive department to properly fulfill its mission. Vote 17-2.

HB 596-FN, relative to the salary of the state veterinarian. **INEXPEDIENT TO LEGISLATE**

Rep. Ken Hawkins for Executive Departments and Administration: The committee heard testimony that the state veterinarian is retiring and that the salary currently being paid could be an impediment to hiring a replacement. We were asked to change the salary group range so that the new state veterinarian could move from group FF step 5 to group II step 5 which would result in a salary increase of 24.7%. There is currently a pay schedule for all positions in all state agencies that was derived from the Hay Study. This study looked at every job description and recommended a classification level. It also allowed for a review of the position if the duties changed. We felt that this change should go through the Hay Study review to see if the job description has changed enough to warrant the change in classification. Vote 15-0.

HB 647-FN, relative to restructuring the department of revenue administration. **OUGHT TO PASS WITH AMENDMENT**

Rep. James M. Fitzgerald for Executive Departments and Administration: This bill is the result of a summer study of the Department of Revenue Administration. The bill makes technical corrections, creates a central tax service unit and reorganizes the Department of Revenue Administration into two former operating divisions: the Division of Property Appraisal and the Municipal Services Division. This bill also deletes the Community Services Division which was created in 2001 to handle the certification of all the municipalities' assessments. The legislature changed the certification process into a review process so continuing a new division was not necessary. These changes will better serve the taxpayers and municipalities and will enhance the internal control and efficiency of the department and will save the state money. Vote 14-1.

Amendment (0680h)

Amend RSA 21-J:6-c as inserted by section 3 of the bill by replacing it with the following:

21-J:6-c Central Tax Services Unit. There is hereby established within the department of revenue administration a central tax services unit, under the supervision of an unclassified taxpayer advocate who shall be responsible for the following functions, in accordance with applicable laws:

I. Providing general assistance to the public for all taxes administered by the department.

II. Internal control of all tax receivables for the department.

III. Taxpayer advocacy.

HB 652-FN, relative to the retirement system classification for the director of juvenile justice services, department of health and human services. **INEXPEDIENT TO LEGISLATE**

Rep. William R. Zolla for Executive Departments and Administration: The present classification for this position is Group I. This bill asks that it be redefined so that Group II personnel could serve in the position without giving up the individual's current Group II standing. The committee felt that as a Group I position, it should be manned by Group I personnel. Vote 13-0.

HJR 2, declaring February 12 to be Thaddeus Andrzej Bonawentura Kosciuszko day. **INEXPEDIENT TO LEGISLATE**

Rep. Anne-Marie Irwin for Executive Departments and Administration: The sponsor presented a compelling history of the contributions of Thaddeus Andrzej Bonawentura Kosciuszko. Presently, in Manchester, a monument, park and street exist to honor this Polish Revolutionary War hero. The committee, while respectful of the contributions of all ethnic groups, decided not to put in statute this commemoration. Vote 13-0.

HB 306, relative to mandatory education for crossbow hunters. **OUGHT TO PASS WITH AMENDMENT**

Rep. Robert J. L'Heureux for Fish and Game: This bill as amended requires all applicants for a crossbow hunting permit to have successfully completed a crossbow or archery safety course before receiving such a permit. The amendment simply clarifies the wording and intent of the legislation. Vote 10-0.

Amendment (0277h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Crossbow Permit; Education. Amend RSA 214:23-a by inserting after paragraph II the following new paragraph:

II-a. Except as provided in RSA 207:10-c, no permit for hunting by crossbow shall be issued to any resident or nonresident person unless the applicant presents to the agent authorized to issue such permit either:

(a) A certificate of completion from a specialized crossbow education program in this state, or any other state, province, or country, which is equivalent to the program provided in this state;

(b) Satisfactory proof that the applicant has successfully completed a bowhunter education program in this state, or any other state, province, or country, which is equivalent to the program provided for by this chapter; or

(c) Satisfactory proof that the applicant has previously had a crossbow permit or equivalent, as determined by the executive director, issued in this state, or any other state, province, or country.

2 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill requires a person issued a crossbow permit to have completed a crossbow or bowhunter education program or equivalent.

HB 310, relative to requirements of the fish and game department before a coastal area may be closed to fishing of marine species. **INEXPEDIENT TO LEGISLATE**

Rep. Stephanie Eaton for Fish and Game: Only one third of the sponsors supported this bill in committee. Another sponsor withdrew his support in committee. Last session, the identical bill came before Fish and Game and was voted ITL. Also the Advisory Committee on Marine Fisheries, which has legislative authority to hold hearings on marine species, opposed the bill. They deem this bill "redundant and unnecessary" procedurally. Vote 10-0.

HB 447-FN, relative to black bear license and tag fees. **OUGHT TO PASS**

Rep. Robert R. Barker for Fish and Game: This bill increases the fee for a license and tag to hunt bear under the black bear management program, and clarifies the uses of the funds in the bear management fund. It requires that all money collected by the Fish and Game Department shall be used exclusively for the implementation of a comprehensive black bear management program. The committee heard no opposition to this bill and determined that the fees to hunt black bear, a state resource, should be revised. Vote 11-0.

HB 449-FN, relative to special wild turkey seasons and permits. **OUGHT TO PASS**

Rep. Robert J. Barker for Fish and Game: This bill allows the Executive Director of the Fish and Game Department to establish a special wild turkey hunting season, issue permits and establish a lottery for the permits. All money collected by the Fish and Game Department shall be used exclusively for the implementation of a comprehensive wild turkey management program. The committee determined that the increasingly larger wild turkey population warranted the implementation of a special hunting season. Vote 13-0.

SB 27-FN, relative to an exemption from the annual inspection of health facilities. INEXPEDIENT TO LEGISLATE

Rep. Fran Wendelboe for Health, Human Services and Elderly Affairs: This bill would have exempted certain health care facilities from the state inspection if they were inspected by an independent inspection process done by an industry accreditation entity, such as J.C.A.H.O. (Joint Commission on Accreditation for Health Care Organizations). The committee, however, felt that the language was too broad and left most of the "meat" of the issue to rule making with very little concrete information as to what accreditation groups would be acceptable and with what conditions. While the committee appreciates the intent to have our health care facilities avoid duplicate inspection processes, we felt this needed too much clarification at this time. Vote 19-0.

SB 42, establishing a pharmaceutical study committee to study direct purchasing of prescription medication by the state. INEXPEDIENT TO LEGISLATE

Rep. Peter L. Batula for Health, Human Services and Elderly Affairs: This was a good bill to study direct purchasing of prescription drugs by the state. The committee was in favor of this type of study committee. After a lengthy discussion on the bill, it was decided to incorporate the substance of this bill into HB 704, which is a like bill that the committee will retain for study in the months ahead. The prime sponsor was agreeable to include SB 42 with the HB 704 study. Vote 18-0.

SB 57, establishing a commission to study ways to alleviate medical malpractice premiums for high risk specialties. OUGHT TO PASS WITH AMENDMENT

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: The committee unanimously supported this study relating to the alleviation of medical malpractice premiums. This study will not be duplicative of prior studies as this bill specifically rules out review of "the civil justice system specific to medical malpractice claims." The committee felt that the duties outlined allowed for an in-depth consideration of the role of the insurance industries in the increasing cost of medical malpractice insurance. In addition, emphasis will be placed on high risk specialties, such as neurosurgeons and obstetricians. It is felt that this study is timely considering the current crisis in the delivery of health care services. Vote 19-0.

Amendment (0656h)

Amend paragraph I of section 2 of the bill by inserting after subparagraph (i) the following new subparagraph:

(j) A representative of the New Hampshire chapter of the American College of Obstetricians and Gynecologists (ACOG), appointed by such association.

HB 192, establishing a committee to study medical malpractice. INEXPEDIENT TO LEGISLATE

Rep. Gregory M. Sorg for Judiciary: This bill would establish a joint House and Senate committee to study medical malpractice tort reform efforts that have been enacted in the other states and Canada. Since the public hearing on this bill in January, numerous tort reform bills, together with supporting documentation, have come before the committee, most, if not all of which, will be referred to a subcommittee. The majority of Judiciary believes that the committee has the information necessary to address the issue through the subcommittee, and that creation of a study committee is not necessary. Vote 11-7.

HB 251, relative to the family division of the courts. INEXPEDIENT TO LEGISLATE

Rep. Gregory M. Sorg for Judiciary: This bill would amend RSA 490:33 by specifying that the newly-created family division of the courts shall be a division of the Superior Court, rather than an independent system. The committee preferred to leave the present arrangement in place, whereby the Family and Superior Court are parallel systems both reporting directly to the Supreme Court, rather than having one trial-based court reporting to another trial-based court. The committee's position is supported by both the Supreme Court and the Chief Justice of the Superior Court. Vote 14-3.

HB 267, relative to requests for services other than counsel for indigent defendants. OUGHT TO PASS

Rep. Gregory M. Sorg for Judiciary: This bill would incorporate into RSA 604-A:6 and make uniform in the courts a practice already followed by many judges. Counsel for indigent defendants in criminal cases would be expressly entitled to seek funds for services other than counsel by applying to the court on an ex parte basis; that is, without having to give prior notice to the prosecution. This would protect the secrecy of defense strategy and focus, thereby placing indigent defendants on the same footing as defendants able to use their own funds for investigative and other purposes. Vote 17-0.

HB 421, establishing a committee to study effective dates on legislation. OUGHT TO PASS WITH AMENDMENT

Rep. Paul C. Smith for Legislative Administration: This bill attempted to fix the problem of effective date changes by legislators with regard to LSR's. This left the Office of Legislative Services in a difficult position in dealing with legislators who sought changes in the effective dates without consulting RSA 14:9-a. The committee amendment clarified that any changes in any effective date has to be done through amendment. Vote 10-0.

Amendment (0475h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to effective dates.

Amend the bill by replacing all after the enacting clause with the following:

1 Effective Dates. RSA 14:9-a is repealed and reenacted to read as follows:

14:9-a Effective Dates.

I. Except as provided in paragraphs II and III, each law passed by the general court shall take effect 60 calendar days following passage, excluding the date on which it is signed by the governor, or the last date on which the general court acts on the matter, as the case may be.

II. The office of legislative services shall include a section in each bill drafted for introduction specifying the act's effective date, if passed. The effective date section shall indicate either that the law shall take effect 60 days after the bill's passage or that the law shall take effect according to one of the following exceptions to the 60-day requirement:

(a) If the law is a resolution, it shall take effect upon its passage.

(b) Each law affecting judicial practice and procedure, or establishing or eliminating criminal prohibitions, civil causes of action or remedies, or limitations of actions, shall take effect on the January 1 following passage.

(c) Each law affecting local property taxes shall take effect on the April 1 following passage.

(d) Each law affecting state tax laws and statutory fees shall take effect on the July 1 following passage.

(e) If the law affects only one particular person, town, city, or political subdivision, it shall take effect upon its passage.

(f) Each law making appropriations shall take effect on the July 1 following passage.

(g) Each law establishing a legislative committee shall take effect upon its passage.

(h) A law may be repealed in the bill enacting the law, with the repeal taking effect at a prospective date specified in the bill.

III. The general court may amend the effective date section of a bill to indicate that a law shall take effect when specified in the amendment.

IV. Unless specifically provided otherwise, each law enacted by the general court shall take effect at midnight, 12:00 a.m., on the date the law becomes effective.

V. The secretary of state shall record the date each law was enacted and its effective date on all enrolled and printed copies of such law, and such record shall be conclusive.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill clarifies the applicability of the effective date statute.

HB 141-L, relative to the planning board's authority to limit building permits. OUGHT TO PASS WITH AMENDMENT

Rep. Nancy K. Johnson for Municipal and County Government: There are some perceptions that planning boards may be abusing their power when it comes to limiting the number of building permits that can be issued within a given year in a municipality. This bill clarifies that planning boards cannot arbitrarily limit this number unless it is in accordance with applicable statutes such as emergency zoning, interim zoning and growth management ordinances. This bill does not change the powers of planning boards; rather it clarifies what is already illegal. Vote 15-0.

Amendment (0347h)

Amend the bill by replacing section I with the following:

1 New Paragraph; Power to Regulate Subdivisions; Building Permit Limits Restricted. Amend RSA 674:35 by inserting after paragraph II the following new paragraph:

III. The planning board shall not limit the number of building permits that may be issued except in accordance with an innovative land use control ordinance addressing timing incentives and phased development under RSA 674:21 and adopted under RSA 674:16; or an ordinance to regulate and control the timing of development, adopted under RSA 674:22; or an ordinance to regulate growth via interim regulation, adopted under RSA 674:23. This paragraph shall not be construed to limit the planning board's authority to deny a subdivision application on the basis that it is scattered or premature.

AMENDED ANALYSIS

This bill prohibits a planning board from limiting the number of building permits issued unless the town has adopted certain growth management ordinances.

HB 230-L, relative to default budgets. OUGHT TO PASS WITH AMENDMENT

Rep. Paul R. Hopfgarten for Municipal and County Government: This bill as amended provides clarity as to what costs can be included in the default budget in so-called "SB-2" (RSA 40:13) towns and school districts. This bill seeks to strike a balance by defining continuing costs that must be funded as opposed to those costs desired to be added by the town school district but not voted on by the legislative body. It is hoped by the committee that this amendment will mitigate the contentious nature involved in attempting to determine default budgets. Vote 16-0.

Amendment (0396h)

Amend the bill by replacing section 1 with the following:

1 Default Budget; Definition. RSA 40:13, IX(b) is repealed and reenacted to read as follows:

(b) "Default budget" as used in this subdivision means the amount of the same appropriations as contained in the operating budget authorized for the previous year, adjusted by:

- (1) Debt service.
- (2) Obligations required by contracts entered into before the previous year.
- (3) Obligations incurred by approved warrant articles.
- (4) Obligations mandated by law.

(5) One-time expenditures contained in the previous year's operating budget. One-time expenditures shall be appropriations not likely to recur in the succeeding budget, as determined by the governing body, unless the provisions of RSA 40:14-b are adopted by the local political subdivision.

AMENDED ANALYSIS

This bill includes, in the calculation of a default budget amount, obligations incurred by approved warrant articles and contractual obligations made before the previous year.

HB 284, excluding the value of a view from property tax assessments. INEXPEDIENT TO LEGISLATE

Rep. Eric G. Stohl for Municipal and County Government: This bill would prohibit the appraisal of property from using the value of the view from that property. When an assessor places a value on a property, he or she must consider the many types of value that the property has. Some examples of these values may be waterfront, road frontage and terrain. The committee heard testimony on another bill that dealt with the view component as well. HB 245 establishes a committee to study property appraisals of features of land and the view from residential property and unimproved land. The committee feels the best way to address the view issue in this bill would be to roll it into the subject matter of HB 245. Vote 16-0.

HB 338, allowing municipalities to adopt a low income property tax credit. INEXPEDIENT TO LEGISLATE

Rep. Robert W. Brundige for Municipal and County Government: This bill sets up a mechanism for the local community to adopt a low income property tax credit by the vote of the legislative body. There are parameters for the income and the percentage amount of tax credit to be received. No resident with an income over \$47,000 would be eligible for the credit and the credit could not exceed \$1,500 in any year. The legislature recodified property tax exemptions, credits and deferrals during the 2003-2004 session and made many changes that need to be dealt with at the local level. It is important to realize that if there is an exemption or credit on one parcel of property in a municipality the difference has to be made up by another taxpayer, which is cost shifting. The local municipalities already have the ability to grant property tax relief that is voted on by their legislative bodies. Vote 18-0.

HB 358, establishing a committee to study the efficacy of the municipal budget committee and cooperative school district budget committee processes. **INEXPEDIENT TO LEGISLATE**
Rep. Eric G. Stohl for Municipal and County Government: RSA 32:14 allows for the adoption of a municipal or school district budget committee and RSA 195:12-a allows for the adoption of a cooperative school district budget committee. All budget committees have the authority and duty to prepare a budget for submission, conduct public hearings with respect to budget preparation, and forward copies of the final budgets to the town or district clerk, commissioner of revenue administration and also to the governing body or bodies. The committee feels that the current budget committee process is effective and can be rescinded by voters if they choose to do so. Vote 17-0.

HB 377, relative to property assessment records posted on the Internet. **INEXPEDIENT TO LEGISLATE**

Rep. John P. Dowd for Municipal and County Government: The committee appreciates the concern of the sponsor for removing personal information from records posted on the internet. As testified by town assessors, there are already suppression mechanisms in place. Having this information readily accessible for elderly and handicapped individuals is important so they can make sure their information on assessment cards is correct. An additional benefit to having information available is less congestion in the assessor offices, freeing up workers and reducing assessing budgets in communities. Vote 13-3.

HB 408, relative to the sale of town-owned land. **OUGHT TO PASS**

Rep. David L. Buhlman for Municipal and County Government: This bill reduces the time between a second public hearing on the sale of town-owned land and the selectmen's vote on the sale from 10 days to 7 days. This is beneficial because the 7 days conforms to the weekly selectmen's meeting. Vote 14-0.

HB 411, relative to the North Conway water precinct. **OUGHT TO PASS**

Rep. Eric G. Stohl for Municipal and County Government: This bill amends chapter law 1905 170:1 as amended by 1987 417:1 by authorizing the North Conway Water Precinct to raise and appropriate money for the establishment of capital reserve and expandable trust funds. This first part of the bill re-affirms the authority previously granted that the voters acting as the legal body politic of the North Conway Water Precinct voted to establish and fund capital reserve trust funds. The second part of the bill simply ratifies the votes and the proceedings of the annual meeting of the North Conway Water Precinct of March 31, 2004. The committee heard testimony that the Commissioners of the North Conway Water Precinct unanimously supported this bill. Vote 16-0.

HB 416, relative to billing for the semi-annual collection of property taxes. **INEXPEDIENT TO LEGISLATE**

Rep. David L. Buhlman for Municipal and County Government: This bill allows municipalities to choose a percentage for the first tax bill in the semi-annual collection of taxes which is different than the current formula of 1/2 of the previous year's property tax bill in order to even out the semi-annual tax bills. Although the sponsor's intentions with this bill are laudable, the committee felt that there was potential to create confusion on the local level by having to estimate the adjustments for half year tax bills. Vote 15-2.

HB 418, allowing towns with town charters to have wards. **INEXPEDIENT TO LEGISLATE**

Rep. Eric G. Stohl for Municipal and County Government: This bill attempts to do two things. First of all, it proposes to amend RSA 44:4 to allow a town to be able to divide into wards just as a city does. Secondly, it addresses allowing towns with town charters to be able to divide themselves into wards. RSA 44:4 mandates that each ward shall be treated as a town for the purpose of the election of governor, councilor, state senator, representative to the general court, all county officers, senator and representative in congress, and electors of president and vice-president of the United States, and all matters relating to jurors. RSA 44:12 takes the issue a step further by mandating that each ward shall elect three selectmen, a moderator and a clerk and that they shall have the powers, perform the duties, and be subject to the liabilities, of those officers in towns in relation to the warning of meetings, conducting elections, counting and declaring votes, recording the votes, certifying the elections, and all other matters relating to elections. The committee feels the added expense of this expansion of government was unnecessary in any town, whether it is by charter or not. Vote 16-1.

HB 425-FN-L, increasing fees paid to municipalities for registering current model year vehicles. **INEXPEDIENT TO LEGISLATE**

Rep. David L. Buhlman for Municipal and County Government: This bill would increase the motor vehicle registration mil rate by either 20-25% depending on the model year of the motor vehicle. According to the fiscal note, this bill would increase fees for motor vehicle registration by \$20 million each year. The bill limits this increase to "current model year vehicles" in order to single out this segment of the population that can afford to buy new cars. Though the increased revenue was tempting, the committee could not see any compelling reason to change the current fee that our constituents now pay. Vote 16-1.

HB 431-FN-L, requiring run-offs in certain local elections. **OUGHT TO PASS WITH AMENDMENT**

Rep. Eric G. Stohl for Municipal and County Government: The intent of this bill is to provide a mechanism for determining which competing warrant article on the ballot in an official ballot referendum (SB2) town or school district actually prevails. The competing articles could be ones that require a 2/3 or 3/5 percentage vote to pass or some could be ones that require only a simple majority. The bill came to the committee with what we thought was excessive language. With the assistance of the sponsors, we were able to develop a bill that we feel deserves passage. This bill states in the event that there are 2 or more competing articles on the ballot and 2 or more of such articles receive the requisite vote to pass, the article that receives the greatest number of votes shall prevail. Vote 14-0.

Amendment (0478h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to competing articles and official ballot voting.

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Competing Articles. Amend RSA 40:13 by inserting after paragraph XVI the following new paragraph:

XVII. In the event that there are 2 or more competing articles on the ballot and 2 or more of such articles receive the requisite vote to pass, the article that receives the greatest number of votes shall prevail.

AMENDED ANALYSIS

This bill provides that when 2 competing articles in an official ballot proceeding receive the minimum number of votes to pass, the article with the most votes shall prevail.

HB 467, relative to naming private roads. **OUGHT TO PASS**

Rep. Suzanne Harvey for Municipal and County Government: The governing body has the authority to change the names of roads and streets that are under the control of the town. However, there is no authority for it to change the name of private roads. The committee heard testimony describing the potential confusion and crucial time lost by fire and EMS teams when answering a call to a road that has a name similar to another road in the same area. This bill would enable governing bodies to change the name of a private street or highway when necessary to conform to the requirements of the enhanced 911 telecommunications system. The committee unanimously agreed that passing this bill can save property and lives. Vote 16-0.

HB 504, relative to the assessment or refund of real estate transfer taxes, and the recording of plans with the register of deeds. **OUGHT TO PASS WITH AMENDMENT**

Rep. Laurie J. Boyce for Municipal and County Government: When the department of revenue administration (DRA) performs a financial audit that involves a parcel of land an additional amount of taxes or refunds usually is the outcome of the audit. Currently there is a cumbersome mechanism for the registrars of deeds to collect or refund those taxes. This bill creates a new procedure that is user friendly to the registrars and the department. When the results of an audit are known – both for assessment of additional taxes or a refund- the commissioner shall issue a notice of the results to the registrars and then upon receipt of that notice the registrars shall record the notice. This leaves a paper trail for the payment or refund of taxes for the property owner, the registrars and the department. In addition, the DRA shall certify the amount of 4 percent of the additional tax assessed and collected to the state treasurer so that such amount will be paid the registrars within one month of the audit results. The amendment adds the "location" of the property to the information given to the registrars in the notice. The bill also changes a statutory reference regarding the filing of floor plans (RSA 479-A: 12). Vote 15-0.

Amendment (0352h)

Amend RSA 78-B:9-a, II(a) as inserted by section 1 of the bill by inserting after subparagraph (4) the following new subparagraph:

(5) The location of the property.

Amend RSA 78-B:9-a, III(a) as inserted by section 1 of the bill by inserting after subparagraph (4) the following new subparagraph:

(5) The location of the property.

HB 505, relative to recording mailing addresses on property deeds. OUGHT TO PASS WITH AMENDMENT

Rep. Andrew L. Dorsett for Municipal and County Government: When a parcel of land is sold, the information put in the new deed is not always specific enough so that the new owner's mailing address may not appear on the deed. If the correct mailing address of the new owner is not known, then the tax bill cannot be sent to the proper owner and delay and perhaps late charges may occur. This legislation inserts the words "complete address" into the required form on quit claim and warranty deeds. The amendment adds the mailing address of the new property owner to mortgage, fiduciary, foreclosure and manufactured housing deeds. The committee knows that the information on any deed is the starting point of all correct information concerning the parcel of land. Vote 15-0.

Amendment (0361h)

Amend the bill by replacing all after the enacting clause with the following:

1 Statutory Form of Warranty and Quitclaim Deeds; Mailing Address Included. Amend RSA 477:27-28 to read as follows:

477:27 Statutory Form of Warranty Deed. A deed in substance following the form appended to this section shall, when duly executed and delivered, have the force and effect of a deed in fee simple to the grantee, heirs, successors and assigns, to [~~his and~~] their own use, with covenant on the part of the grantor, for himself *or herself*, [~~his~~] heirs, executors and administrators, that, at the time of the delivery of such deed, [~~he~~] *the grantor* was lawfully seized in fee simple of the granted premises, that the said premises were free from all incumbrances, except as stated, that [~~he~~] *the grantor* had good right to sell and convey the same to the grantee, [~~his~~] heirs, successors and assigns, and that [~~he~~] *the grantor* will, and [~~his~~] *the* heirs, executors, and administrators shall, warrant and defend the same to the grantee and [~~his~~] heirs, successors and assigns, against the lawful claims and demands of all persons.

(Form for warranty deed)

_____, of _____ County, State of _____, for consideration paid, grant to _____, (*complete mailing address*) _____, of _____ Street, Town (City) of _____, _____ County, State of _____, with warranty covenants, the _____ (Description of land or interest being conveyed: incumbrances, exceptions, reservations, if any) _____, (wife) (husband) of said grantor, release to said grantee all rights of homestead and other interests therein.

(Here add acknowledgment)

477:28 Statutory Form of Quitclaim Deed. A deed in substance following the form appended to this section shall, when duly executed and delivered, have the force and effect of a deed in fee simple to the grantee, heirs, successors and assigns, to [~~his and~~] their own use, with covenants on the part of the grantor, for himself, [~~his~~] *or herself*, heirs, executors and administrators with the grantee, [~~his~~] heirs, successors and assigns, that at the time of the delivery of such deed the premises were free from all incumbrances made by the grantor, except as stated, and that [~~he~~] *the grantor* will, and [~~his~~] *the* heirs, executors and administrators shall, warrant and defend the same to the grantee and [~~his~~] heirs, successors and assigns forever against the lawful claims and demands of all persons claiming, by, through or under the grantor, but against none other.

(Form for quitclaim deed)

_____, of _____ County, State of _____, for consideration paid, grant to _____, (*complete mailing address*) _____, of _____ Street, Town (City) of _____ County, State of _____, with quitclaim covenants, the _____ (Description of land or interest therein being conveyed: incumbrances, exceptions, reservations, if any) _____, (wife) (husband) of said grantor, release to said grantee all rights of homestead and other interests therein.

(Here add acknowledgment)

2 Statutory Form of Power of Sale Mortgage; Mailing Address Included. Amend RSA 477:29, III to read as follows:

III. The words "statutory power of sale" shall be understood as giving the mortgagee and [his] executors, administrators, successors and assigns the right, upon any default of the performance of the statutory condition as defined in paragraph II, or any other condition contained in the mortgage, to foreclose by sale under the provisions of RSA 479:25-27-a inclusive.

(Form for mortgage deed, with power of sale)

_____ of _____ County, State of _____, for consideration paid, grant to _____, (*complete mailing address*) _____, of _____ Street, Town (City) of _____, _____ County, State of _____ with mortgage covenants, to secure the payments of _____ dollars, with _____ percent interest payable semiannually and also perform all the agreements and conditions as provided in note _____ of even date, the _____ (Description of land or interest therein being conveyed: incumbrances, reservations, exceptions, if any) _____ This mortgage is upon the statutory conditions, for any breach of which the mortgagee shall have the statutory power of sale. _____ (Wife) (husband) of said mortgagor, release all rights of homestead and other interests in the mortgage premises.

(Here add acknowledgment)

3 Statutory Form of Fiduciary Deed and Foreclosure Deed Under Power of Sale; Mailing Address Included. Amend RSA 477:30-31 to read as follows:

477:30 Statutory Form of Fiduciary Deed. A deed in substance following the form appended to this section shall, when duly executed and delivered, have the force and effect of a deed in fee simple to the grantee, [his] heirs, successors and assigns, to [his and] their own use, with covenants on the part of the grantor, for himself *or herself*, that, at the time of the delivery of such deed, [he] *the grantor* was duly authorized to make the sale of the premises; that in all of [his] *the grantor's* proceedings in the sale thereof, [he] *the grantor* has complied with the requirements of the statute in such case provided; and that [he] *the grantor* will warrant and defend the same to the grantee, [his] heirs, successors and assigns, against the lawful claims of all persons claiming by, from or under him *or her* in the capacity aforesaid.

(Form for fiduciary deed)

_____ of _____ County, State of _____, executor under the will (administrator of the _____ estate) (trustee under the will) (guardian) (conservator) (receiver of the estate) (commissioner) of _____ of _____, by the power conferred by _____ and every other power, for _____ dollars paid, grant to _____, (*complete mailing address*) _____, of _____ Street, Town (City) of _____, _____ County, State of _____ the _____ (Insert description of land or interest therein being conveyed: incumbrances, reservations, exceptions.)

(Here add acknowledgment)

477:31 Statutory Form for Foreclosure Deed Under Power of Sale. Where a mortgage is foreclosed under a statutory power of sale, the mortgagee may give a deed to the purchaser, whether the purchaser be a stranger or the mortgagee, in the following form:

_____ of _____ County, _____ State of _____, holder of a mortgage from _____ to _____ dated _____, recorded in _____ Registry of Deeds, Vol. _____, page _____, by the power conferred by said mortgage and every other power, for _____ dollars paid, grant to _____, (*complete mailing address*) _____, of _____ Street, Town (City) of _____, _____ County, State of _____, the premises conveyed by said mortgage.

(Here add acknowledgment)

A deed in substance in that form shall, when duly executed and delivered, have the force and effect of a deed in fee simple to the grantee, [his] heirs, successors and assigns, to [his and] their own use, with covenants on the part of the grantor, for himself *or herself*, that, at the time of the delivery of such deed, [he] *the grantor* was duly authorized to make sale of the premises; that in all of [his] *the grantor's* proceedings in the sale thereof, [he] *the grantor* has complied with the requirements of the statute in such case provided; and that [he] *the grantor* will warrant and defend the same to the grantee, [his] heirs, successors and assigns, against the lawful claims of all persons claiming by, from or under him *or her*.

4 Form of Manufactured Housing Warranty Deed, Quitclaim Deed, and Out-of-State Transfer Statement; Mailing Address Included. Amend RSA 477:44, II to read as follows:

II. MANUFACTURED HOUSING. Manufactured housing, as defined by RSA 674:31, shall be deemed a building for the purpose of paragraph I when such manufactured housing is placed on a site and tied into required utilities. Any deed conveying manufactured housing or evidencing its relocation within this state shall be substantially in the form provided in subparagraphs (a) and (b). If a deed for any manufactured housing is recorded in the registry of deeds of one county of this state and if such manufactured housing is relocated to another site in that county or to a site in another county of this state, a deed evidencing the change of location shall be recorded in the registry of deeds of the county in which it was originally located and a duplicate original shall also be recorded in the registry of deeds of the county to which it was relocated. If such manufactured housing is relocated to a site outside of this state, a statement evidencing the change of location substantially in the form provided in subparagraph (c) shall be recorded in the registry of deeds of the county in this state in which it was previously located. An attachment, lien or other encumbrance on manufactured housing, when properly created and recorded as required by law, shall continue to be enforceable until released or discharged notwithstanding the relocation of the manufactured housing within or outside of this state.

(a) A deed in substance following the form provided in this subparagraph shall, when duly executed and delivered, have the force and effect of a deed in fee simple to the grantee, heirs, successors and assigns, to their own use, with covenant on the part of the grantor, for the grantor, the grantor's heirs, executors and administrators that, at the time of the delivery of such deed, the grantor was lawfully seized in fee simple of the manufactured housing; that such manufactured housing was free from all incumbrances, except as stated; that the grantor had good right to sell and convey the same to the grantee, the grantee's heirs, successors and assigns; and that the grantor and the grantor's heirs, executors and administrators shall warrant and defend the same to the grantee and the grantee's heirs, successors and assigns, against the lawful claims and demands of all persons. No owner of land shall unreasonably withhold the consent required by this statutory form.

Form for Manufactured Housing Warranty Deed

_____, of _____, _____ County, State of _____, for consideration paid, grant to _____, (*complete mailing address*) _____, of _____ Street, Town (City) of _____, _____ County, State of _____, with warranty covenants, the _____ (Description of manufactured housing being conveyed: name of manufacturer, model and serial number and incumbrances, exceptions, reservations, if any) which manufactured housing is situated, or is to be situated, at _____ (state name of park, if any, and street address), Town (City) of _____, _____ County, State of New Hampshire.

The tract or parcel of land upon which the manufactured housing is situated, or is to be situated, is owned by _____ by deed dated _____ and recorded at Book _____, Page in the _____ County Registry of Deeds. _____ (wife) (husband) of said grantor, release to said grantee all rights and other interests therein.

Signed this _____ day of _____, _____.

(Here add acknowledgment)

_____, owner of the tract or parcel of land upon which the aforesaid manufactured housing is situated, or is to be situated, hereby consents to the conveyance of the manufactured housing.

Signed this _____ day of _____, _____.

(Here add acknowledgment)

[] Check box if the manufactured housing has been relocated from one site to another within New Hampshire. The manufactured housing was previously located at _____ (state name of park, if any, and street address), Town (City) of _____, _____ County, State of New Hampshire and title, if any, to the same was recorded at Book _____, Page _____, in the _____ County Registry of Deeds. If the relocation is to a county of the State of New Hampshire other than the county in which the deed to the grantor was recorded, a duplicate original of the deed must be recorded in the registry of deeds of that county at the same time this deed is recorded.

(b) A deed in substance following the form provided in this paragraph shall, when duly executed and delivered, have the force and effect of a deed in fee simple to the grantee, heirs, successors and assigns, to their own use, with covenants on the part of the grantor, for the grantor, the grantor's heirs, executors and administrators with the grantee, the grantee's heirs, successors and assigns that at the time of the delivery of such deed the manufactured housing was free from

all incumbrances made by the grantor, except as stated, and that the grantor and the grantor's heirs, executors and administrators shall warrant and defend the same to the grantee and the grantee's heirs, successors and assigns forever against the lawful claims and demands of all persons claiming, by, through or under the grantor, but against none other. No owner of land shall unreasonably withhold the consent required by this statutory form.

Form for Manufactured Housing Quitclaim Deed

_____, of _____, _____ County, State of _____, for consideration paid, grant to _____, (**complete mailing address**) _____, of _____ Street, Town (City) of _____, _____ County, State of _____, with quitclaim covenants, the (Description of manufactured housing being conveyed: name of manufacturer, model and serial number and incumbrances, exceptions, reservations, if any) which manufactured housing is situated, or is to be situated, at _____ (state name of park, if any, and street address), Town (City) of _____, _____ County, State of New Hampshire.

The tract or parcel of land upon which the manufactured housing is situated, or is to be situated, is owned by _____ by deed dated _____ and recorded at Book _____, Page _____, in the _____ County Registry of Deeds. _____ (wife) (husband) of said grantor, release to said grantee all rights and other interest therein.

Signed this _____ day of _____, _____.

(Here add acknowledgment)

_____, owner of the tract or parcel of land upon which the aforesaid manufactured housing is situated, or is to be situated, hereby consents to the conveyance of the manufactured housing.

Signed this _____ day of _____, _____.

(Here add acknowledgment)

☐ Check box if the manufactured housing has been relocated from one site to another within New Hampshire. The manufactured housing was previously located at _____ (state name of park, if any, and street address), Town (City) of _____, _____ County, State of New Hampshire and title, if any, to the same was recorded at Book _____, Page _____, in the _____ County Registry of Deeds. If the relocation is to a county of the State of New Hampshire other than the county in which the deed to the grantor was recorded, a duplicate original of the deed must be recorded in the registry of deeds of that county at the same time this deed is recorded.

(c) An out-of-state transfer statement in substance following the form appended to this paragraph shall, when duly executed and recorded in the registry of deeds of the county in which the manufactured housing was previously located, have the force and effect of transferring title of the manufactured housing to the grantee, the grantee's heirs, successors and assigns and terminating the record title of the manufactured housing in such registry of deeds under circumstances by which the manufactured housing is relocated to a site outside of this state. No owner of land shall unreasonably withhold the consent required by this statutory form. No manufactured housing may be relocated to a site outside of this state unless all holders of liens, attachments or incumbrances, if any, consent thereto in writing on the transfer statement.

Form for Out-of-State Transfer Statement

_____, of _____, _____ County, State of _____, for consideration paid, grant to _____, (**complete mailing address**) _____, of _____ Street, Town (City) of _____, _____ County, State of _____, the _____ (Description of manufactured housing being conveyed: name of manufacturer, model and serial number and incumbrances, exceptions, reservations, if any) which manufactured housing, was situated at _____ (state name of park, if any, and street address), Town (City) _____ of _____ County, State of New Hampshire.

The tract or parcel of land upon which the manufactured housing was situated is owned by _____ by deed _____ dated _____ and recorded at Book _____, Page _____ in the _____ County Registry of Deeds. _____ (wife) (husband) of said grantor, release to said grantee all rights and other interest therein.

Signed this _____ day of _____, _____.

(Here add acknowledgment)

_____, owner of the tract or parcel of land upon which the aforesaid manufactured housing was situated, hereby consents to the conveyance of the manufactured housing.

Signed this _____ day of _____, _____.

(Here add acknowledgment)

_____, holder of (lien, attachment or encumbrance) hereby consent to the conveyance of the aforesaid manufactured housing, subject to condition that the aforesaid (lien, attachment or encumbrance) shall remain in force and effect thereon.

Signed this _____ day of _____, _____.

(Here add acknowledgment)

5 Effective Date. This act shall take effect 60 days after its passage.

HB 509, relative to election of police chiefs. INEXPEDIENT TO LEGISLATE

Rep. David L. Buhlman for Municipal and County Government: A town may vote to elect a police chief at an annual town meeting by putting a warrant article forth for said meeting. If a town chooses to do so, the election of the police chief occurs at the next succeeding annual meeting. The committee heard testimony that there were no qualifications for a police chief and anyone – of good or bad character – could be elected. Current law now requires any elected police chief to be certified (RSA 188-F: 27) and if the elected person could not be certified the governing body shall appoint a police chief until a certifiable chief is elected. This bill would have allowed any certified New Hampshire law enforcement officer in the state to seek this office. The police chief serves an important role in a community. In municipalities that choose to elect their police chiefs, it is important that a resident serve in this role because residents have more at stake in their own community. The committee also felt that if non-residency were allowed for this position then why not the road agent, selectmen or any other town official. The committee did not want to open the gateway. Vote 12-0.

HB 519-L, relative to the authority to accept dedicated streets and to subdivision roads. INEXPEDIENT TO LEGISLATE

Rep. Nancy K. Johnson for Municipal and County Government: This bill gives the local governing body exclusive authority to accept dedicated streets and prohibits a planning board from requiring private roads as a condition of subdivision approval. The committee unanimously agreed that the legislative body is the place where the ultimate authority needs to be, since now it can delegate that authority to the governing body if it wants to make that decision. Vote 16-0.

HB 169-FN-A, relative to completion of a sidewalk on Hazen Drive in the city of Concord and making an appropriation therefore. INEXPEDIENT TO LEGISLATE

Rep. John A. Graham for Public Works and Highways: The sponsor is working with the Department of Transportation to improve pedestrian safety along Hazen Drive and requested the legislature to find the bill Inexpedient to legislate. Vote 15-0.

HB 565-FN-A, relative to the demolition of a certain building to provide access for a public boat ramp for Winnisquam Lake and making an appropriation therefor. INEXPEDIENT TO LEGISLATE

Rep. Bernard L. Benn for Public Works and Highways: This bill would appropriate \$350,000 to the Department of Environmental Services for the demolition of a large brick structure for the purpose of providing unencumbered public access to the Winnepesaukee River and Winnisquam Lake. The committee supports the construction of a public boat ramp, but found that proper access to the proposed ramp site was possible without the demolition. The net advantage of the demolition would only be an additional nine parking spaces. At a cost of approximately \$39,000 per space, the committee could not support such an appropriation. Vote 14-0.

HB 457, relative to excavating and dredging permit exemptions for water conveyance systems. OUGHT TO PASS WITH AMENDMENT

Rep. Donald A. Brueggemann for Resources, Recreation and Development: This bill amends RSA 482-A:IV(b) which currently allows non-tidal drainage ditches, culverts, catch basins fire ponds and other man-made ponds that have been legally constructed to collect and convey storm water and spring run-off or to store water to be cleared without a permit from the Department of Environmental Services (DES) so long as such structures are not enlarged. The bill adds to this exemption man-made water conveyance systems used for the commercial or industrial purposes of collecting, conveying, storing or recycling water. These include various industrial processes such as stone cutting and gravel cleaning which require the installation of retention ponds to settle out the fine materials suspended in the water. Wetland vegetation becomes established in these water systems, which must be cleaned from time to time in order to function as designed. The committee unanimously supports This bill which exempts these types of water systems from the need to obtain dredge and fill permits from DES. The amendment clarifies the intention of the original bill. Vote 17-0.

Amendment (0368h)

Amend the bill by replacing all after the enacting clause with the following:

1 Excavating and Dredging Permit; Certain Exemptions; Water Conveyance Systems for Commercial or Industrial Purposes Added. Amend RSA 482-A:3, IV(b) to read as follows:

(b) **Man-made** nontidal drainage ditches, culverts, catch basins, and ~~[man-made detention]~~ ponds that have been legally constructed to collect ~~[and]~~ **or** convey storm water and spring run-off, ~~[and that have been maintained so that wetlands vegetation has not become dominant, or]~~ fire ponds and intake areas of dry hydrants that have been legally constructed to provide water for municipal firefighting purposes as approved by a local fire chief, **and man-made water conveyance systems that are used for the commercial or industrial purpose of collecting, conveying, storing, and recycling water**, may be cleaned out when necessary to preserve their usefulness without a permit from the department. Such drainage facilities, fire ponds, ~~[or]~~ intake areas of any hydrants, **or man-made water conveyance systems** may be cleaned out by hand or machine; provided, that the facility is neither enlarged nor extended into any area of wetlands jurisdiction of the department of environmental services, dredged spoils are deposited in areas outside wetlands jurisdiction of the department of environmental services, and wetlands or surface waters outside the limits of the constructed drainage facility, fire pond, ~~[or]~~ intake area of a dry hydrant, **or man-made water conveyance system** are neither disturbed nor degraded.

2 Effective Date. This act shall take effect upon its passage.

HB 571-FN, relative to moorings on Bow Lake. INEXPEDIENT TO LEGISLATE

Rep. Duncan D. Chaplin for Resources, Recreation and Development: This bill would add Bow Lake in Strafford and Northwood to the list of six lakes (Winnepesaukee, Winnisquam, Squam, Newfound, Ossipee, and Sunapee) which are already under control of the New Hampshire mooring control program (RSA 270:61). Furthermore, all present mooring on Bow Lake would be grandfathered, a concept which is contrary to our mooring program. A similar bill was filed in 2004 (HB 1164), which was sent to Interim Study and reported out late last year as "Inexpedient to Legislate" by this committee. Nothing has changed in the past six months. Vote 17-0.

HB 152-FN, requiring heating oil sellers to purchase biodiesel. OUGHT TO PASS WITH AMENDMENT

Rep. Gene F. Andersen for Science, Technology & Energy: This bill establishes a commission to study the uses of biodiesel in both heating oil and motor transport. The original bill required the use of biodiesel in heating oil. Testimony indicated that New Hampshire's fuel delivery infrastructure is not developed to meet the requirements of the original bill. The bill's amendment provides a study commission to determine the use of biodiesel and removes any requirement for use at this time. Other states are requiring biodiesel use in fuel stocks and biodiesel is currently in use in neighboring states. Biodiesel is a renewable energy fuel processed from a variety of vegetative stock including stock and other vegetation available or grown in New Hampshire. Testimony of both citizens and industry indicates biodiesel will provide a renewable domestic fuel source with environmental benefits. Testimony by industry showed their willingness to work on a commission to study and promote biodiesel. Vote 12-0.

Amendment (0404h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study the uses of biodiesel for home heating and vehicular transportation.

Amend the bill by replacing all after the enacting clause with the following:

1 Commission Established. There is established a commission to study the uses of biodiesel for home heating and vehicular transportation.

2 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

(c) The commissioner of the department of environmental services, or designee.

(d) The commissioner of transportation, or designee.

(e) The commissioner of agriculture, markets, and food, or designee.

(f) Three public members, appointed by the governor, one of whom shall represent the interests of the home heating industry, one of whom shall represent the interests of the motorized transportation industry, and one of whom shall represent the interests of the general business community.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

3 Duties. The commission shall study the uses of biodiesel as a renewable source of energy for home heating and vehicular transportation.

4 Chairperson; Quorum. The members of the commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named house member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Seven members of the commission shall constitute a quorum.

5 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2005.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a commission to study the uses of biodiesel for home heating and vehicular transportation.

HB 202, establishing a commission to study options for reducing the impact of exhaust emissions from mobile diesel engines. **OUGHT TO PASS WITH AMENDMENT**

Rep. Jacqueline Cali-Pitts for Science, Technology and Energy: This bill is a very simple and straightforward bill instructing the Department of Environmental Services (DES) to coordinate and compile a report on all existing state and federal regulations regarding diesel exhaust emissions. DES is further instructed to make recommendations concerning these programs and submit a report to the air pollution advisory committee. Vote 12-3.

Amendment (0603h)

Amend the title of the bill by replacing it with the following:

AN ACT directing the commissioner of the department of environmental services to review options for reducing diesel engine exhaust emissions.

Amend the bill by replacing all after the enacting clause with the following:

1 Diesel Engine Exhaust Emissions; Review and Report.

I. The commissioner of the department of environmental services is hereby directed to conduct a thorough and comprehensive review of current state and federal laws, regulations, policies, rules, and programs that relate to the reduction of diesel engine exhaust emissions.

II. Upon completion of the review, the commissioner, or designated representative, shall report the findings of the review and the commissioner's recommendations. The commissioner shall submit the report to the chairperson of the air pollution advisory committee established in 125-J:11 no later than September 1, 2005. The report shall include:

(a)(1) Identification of existing applicable state and federal laws, regulations, policies, rules, and programs.

(2) Identification of costs associated with each program, and in total.

(3) Identification of all public benefits that derive from each program and collectively.

(4) Recommended prioritization of current efforts to reduce diesel engine exhaust emissions in terms of results achieved, public benefit derived, and costs required to achieve these benefits.

(5) Identification of current funding sources available to reduce diesel engine exhaust emissions in the state.

(b)(1) An overall assessment of the current efforts to reduce diesel engine exhaust emissions.

(2) Deficiencies that exist in current programs that inhibit or restrict full or improved effectiveness.

(3) Recommendations to integrate various related programs in order to achieve maximum effectiveness and public benefit.

(4) Costs associated with such integration recommendations, and costs associated with eliminating deficiencies in current programs.

(5) Identification of potential funding sources that may be applied to reducing diesel engine exhaust emissions.

(6) An assessment of state legislation needed to enhance current programs or to implement any new programs.

(7) Funding requirements for implementation of any proposed legislation.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill directs the commissioner of the department of environmental services to review options for reducing diesel engine exhaust emissions and to report findings and recommendations to the chairperson of the air pollution advisory committee.

HB 261, relative to title to salvage vehicles. OUGHT TO PASS WITH AMENDMENT

Rep. Brenda L. Ferland for Transportation: The bill and the amendment clarify when a vehicle that is five years old or newer sustains damage in an accident of 75 percent or greater has a salvage title issued to it. The committee felt that this is a consumer protection issue. This will ensure that when someone buys a used car that has sustained damage of 75 percent or more they will be informed of what they are buying. Vote 14-0.

Amendment (0578h)

Amend RSA 261:22, VI as inserted by section 1 of the bill by replacing it with the following:

VI. For purposes of this section, a total loss vehicle shall mean either an unrecovered stolen vehicle or ~~[one which has sustained damage or injury so extensive that it is]~~ **a damaged vehicle:**

(a) That is determined to be physically or economically impractical to repair in connection with an insurance claim settlement; or

(b) For which the cost of repairing the vehicle is 75 percent or more of its fair market value prior to the vehicle being damaged, if the damage occurs during its model year or the 4 subsequent calendar years. The total cost of repairing the vehicle shall not include the cost of repairing, replacing, or reinstalling inflatable safety restraints, tires, or entertainment systems.

HB 326, relative to motorcycle noise levels. OUGHT TO PASS WITH AMENDMENT

Rep. Stephen H. Nedeau for Transportation: This bill clarifies what are considered unmuffled exhaust pipes and sets fines for the use of such pipes. The fine for using what are considered straight pipes will be \$200 not to exceed \$500. The fine for exceeding RSA 266:59A which is the motorcycle noise statute and testing procedure will be \$100 not to exceed \$300. This agreement was worked out with the representatives of the Portsmouth, Rye and Seabrook police departments, and the representatives of the motorcycling organizations. We hope this will solve most of the problems associated with loud motorcycles. Vote 14-0.

Amendment (0577h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to motorcycle noise levels and mufflers.

Amend the bill by replacing sections 1 and 2 with the following:

1 New Paragraph; Equipment of Vehicles; Prevention of Noise; Motorcycle Exhaust Modifications. Amend RSA 266:59 by inserting after paragraph III the following new paragraph:

IV. No person shall operate a motorcycle with a straight pipe exhaust system; "straight pipe exhaust system" means any straight-through muffler that does not contain baffles, including, but not limited to, glass packs, steel packs, and straight pipes. Any person who violates the provisions of this paragraph shall be guilty of a violation and shall be fined not less than \$200 nor more than \$500.

2 Motorcycle Noise Levels; Fines. Amend RSA 266:59-a, III to read as follows:

III. Any person who violates the provisions of this section shall be guilty of a violation **and shall be fined not less than \$100 nor more than \$300.**

AMENDED ANALYSIS

This bill clarifies that a person may not operate a motorcycle with a straight pipe exhaust system. This bill also establishes fines for operating a motorcycle with a straight pipe exhaust system and for exceeding permissible motorcycle noise levels.

HB 352, relative to speed limits. INEXPEDIENT TO LEGISLATE

Rep. Stephen H. Nedeau for Transportation: This bill would have permitted local authorities to decrease speed limits in urban districts. After discussions with the Department of Transportation it was decided that we would let the department resolve this issue. The committee felt that this was dealing with one special area and could be handled in a different way. Vote 14-0.

HB 357, relative to negligent driving. OUGHT TO PASS WITH AMENDMENT

Rep. Brenda L. Ferland for Transportation: This bill came to the committee as a fine for negligent driving with a minor in the vehicle. The committee wants to get the message out that people must take the job of driving carefully. Therefore, we amended the bill to include the offense to cover negligent driving with anyone in the vehicle and have set the fine at not less than \$250 nor more than \$500 for a first offense and not less than \$500 nor more than \$1,000 for a second or subsequent offense. Vote 12-0.

Amendment (0250h)

Amend the bill by replacing section 1 with the following:

1 Negligent Driving; Fines. Amend RSA 265:79-b to read as follows:

265:79-b Negligent Driving. Whoever upon any way drives a vehicle negligently or causes a vehicle to be driven negligently, as defined in RSA 626:2, I(d), or in a manner that endangers or is likely to endanger any person or property shall be guilty of a violation *and shall be fined not less than \$250 nor more than \$500 for a first offense and not less than \$500 nor more than \$1,000 for a second or subsequent offense.*

HB 550-FN, requiring placards in vehicles operated by persons learning to drive. INEXPEDIENT TO LEGISLATE

Rep. Stephen H. Nedeau for Transportation: This bill would have required placards in driver training automobiles. Operators teaching someone to drive would be required to have some type of placard attached to the automobile that would make it visible to other drivers. We understand that other drivers being too close or right on their bumper causes concerns for the driving instructors. The committee feels there are ample laws on the books now for driver training schools. Vote 13-0.

HB 243, relative to boat registration fees. INEXPEDIENT TO LEGISLATE

Rep. Priscilla P. Lockwood for Ways and Means: This bill would raise boat registration fees by \$1, which would be retained by the agent registering the boat. The committee was reluctant to raise boat fees again. We raised them last session. The boat registration fee structure is diverse and involves compensation to different marine funds. We should first examine how the existing fee structure is divided up and the committee felt that this topic would be better served first in a policy committee. Vote 15-0.

HB 260-FN, relative to motor vehicle equipment and registration. OUGHT TO PASS

Rep. Susan W. Almy for Ways and Means: This bill was amended by the House to remove the fiscally significant portion (drivers' license less than five years). The only other item that relates to Ways and Means is an ongoing practice which the auditors pointed out had no legislative authority behind it. The House has voted for this authority, and there is no change in existing revenues that results. Vote 16-0.

HB 268-FN, increasing certain motor vehicle fees. OUGHT TO PASS

Rep. Peyton B. Hinkle for Ways and Means: This bill increases the fee for the replacement of each motor vehicle plate which has been lost, mutilated or made illegible from \$3.50 to \$4.00, and it charges a fee for replacement of a lost or illegible validation sticker of \$1.00. This is a housekeeping item that places current practice into law and charges for plates and stickers based on the cost to produce them. Vote 16-0.

HB 344, relative to the consensus revenue estimating panel. INEXPEDIENT TO LEGISLATE

Rep. Catherine Mulholland for Ways and Means: This legislation, while laudable in its objective to reach a consensus estimate of external economic fluctuations which may affect the various revenues and expenses of the state, was deemed both redundant and unaffordable by the majority of the committee. This task is undertaken and monitored throughout each biennium both for the purposes of building a budget and tracking its course. A permanent panel would require an appropriation to compensate its members for their services. In spite of our limited means it is doubtful that such a panel would enhance the ways in which we currently gain access to the appropriate information. Vote 14-1.

HB 554-FN-A, establishing a state property tax relief program for seniors and the disabled. **IN-EXPEDIENT TO LEGISLATE**

Rep. Shawn N. Jasper for Ways and Means: The issue of property tax relief is already being studied by a committee which will issue its final report on November 1, 2005. Rather than duplicate the work already ongoing, the Ways and Means Committee recommends that the concept contained within this bill be considered by the Property Tax Relief Study Committee. Vote 15-0.

HB 602-FN-A, relative to the unbundling of communications services for purposes of the application of the communications services tax. **OUGHT TO PASS WITH AMENDMENT**

Rep. Susan W. Almy for Ways and Means: Three years ago, the legislature enacted a bill for wireless companies allowing them to present a package of services to the consumer for a discount price and only charge tax for the taxable services portion of the package. Wireline (traditional phone) companies are in a different section of the statute. They are anticipating packaging (bundling) services in the future. If they did, under existing statute the consumer would be charged tax on nontaxable services. This bill prevents that. The amendment corrects a typo and retains in statute the duplicate wireless section for purposes of clarity. This is a consumer protection bill. Vote 16-0.

Amendment (0604h)

Amend the bill by replacing all after the enacting clause with the following:

1 Communications Services Tax; Definition of "Gross Charge;" Non-Taxable Charges. Amend RSA 82-A:2, V(e) to read as follows:

(e) Charges for services which are not provided in connection with originating or receiving communications services and which are not necessary for or directly related to the provision of communications services, to the extent that the charges for such services are disaggregated and separately identified from other charges on the customer's bill. *In instances where the retailer does not separately list charges for taxable and non-taxable communications services, such charges shall be subject to the taxes imposed by this chapter, unless the retailer can reasonably identify charges not subject to such tax from its books and records kept in the ordinary course of business. A taxpayer may not rely upon the nontaxability of charges for communications services unless the taxpayer's retailer separately states the charges for nontaxable communications services from taxable charges or the retailer elects, after receiving written notice from the taxpayer in the form required by the provider, to provide verifiable data based upon the retailer's books and records that are kept in the regular course of business that reasonably identify the nontaxable charges.*

2 Effective Date. This act shall take effect July 1, 2005.

AMENDED ANALYSIS

This bill permits the exclusion of nontaxable components of bundled communications services packages from the communications services tax if the retailer can identify the charges not subject to the tax from its books and records kept in the ordinary course of business.

HB 675-FN, exempting agricultural tower silos from the education property tax. **INEXPEDIENT TO LEGISLATE**

Rep. Christine C. Hamm for Ways and Means: While committee members sympathized with the sponsors' intent to preserve tower silos as a symbol of the state's agricultural heritage and understood many owners' reluctance to pay taxes on a structure that no longer provides economic benefit, the committee rejected the proposed legislation. As with HB 676-FN, committee members would have been more inclined to support this bill had it provided enabling legislation to seek tax relief from a more appropriate source. Vote 16-0.

HB 676-FN, exempting agricultural buildings from the education property tax. **INEXPEDIENT TO LEGISLATE**

Rep. Christine C. Hamm for Ways and Means: The committee voted not to pass this bill because it was not structured properly to accomplish its objectives. While many committee members expressed support for the bill's intent to preserve the viability of the state's farming industry, all agreed that exemption from the education property tax was not the appropriate way to provide relief. An amendment, proposed by one of the committee members to resolve this concern, resulted in additional questions. Some members suggested the sponsors consider submitting an alternative bill with enabling legislation at a later date. Vote 16-0.

HB 707-FN-A, establishing a credit against the business enterprise tax for certain borrowed and invested money. **INEXPEDIENT TO LEGISLATE**

Rep. Kevin L. Camm for Ways and Means: This bill would provide tax credits for new businesses that commence operations in the state for five years. As interesting as the concept sounds, the committee was not swayed for several reasons. The bill created special circumstances for some businesses to begin operations, while other businesses that have to invest in similar aspects would not be similarly rewarded. This creates an unfair and unequal taxing situation. Realizing the state needs all the revenue it can generate at this time, such treatment is not warranted. We revised the Net Operating Loss (NOL) statute for all businesses a few years ago, the results (and costs) for which are still unknown. Some members had reservations that the preferential treatment given this select group of businesses may not be constitutional. The committee felt it best to leave the business taxes as they are. Vote 16-0.

REGULAR CALENDAR

HB 147, relative to the death penalty. **OUGHT TO PASS**

Rep. Lee M. Hammond for Criminal Justice and Public Safety: This bill which simply states that no one under the age of 18 at the time the offense was committed may be culpable of a capital murder was passed by both House and Senate last session, only to be vetoed by the governor. Since then, further scientific evidence has emerged reinforcing our awareness that the 17 year old human brain has not fully developed and is not capable of consistent responsible adult behavior. Impulsivity and lack of judgment are commonplace, resulting in irresponsible actions, horrendous behaviors – even murder. But a child in an adult body should not be held culpable of capital murder, and New Hampshire should join the rest of the civilized world in refraining from executing any person who has yet to reach the age of majority. Vote 9-6.

Rep. Welch spoke in favor.

Rep. James Wheeler requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted.
Ordered to third reading.

HB 363, relative to parking at polling places. OUGHT TO PASS WITH AMENDMENT

Rep. Richard B. Drisko for Election Law: This bill authorizes the moderator to provide parking in the immediate area of the polling places and establish time limitations on said parking. If the

moderator decides time limitations are necessary, he must notify the governing body and the chief of police at least seven days prior to an election. The RSAs specify that the moderator be the governing official at the polling place. The majority felt that this was a "parking" issue and that if it were necessary to better clarify the role of the moderator or the role of the city clerk, relative to elections, it should be addressed in separate legislation. Vote 13-4.

Amendment (0651h)

Amend the bill by replacing section 1 with the following:

1 New Section; Preparation of Polling Place; Parking. Amend RSA 658 by inserting after section 9-a the following new section:

658:9-b Parking. The governing body of each town and ward shall ensure that there is parking available in the immediate area of the polling place. The moderator may establish time limitations on the use of parking spaces in the immediate area of the polling place, if he or she determines that doing so is necessary to ensure the availability of convenient parking for voters. The time limitations may be applied to any areas where a motorist may lawfully park on public property and to any private property suitable for parking made available for the use of the town or ward for the purpose of conducting the election. The moderator may determine the time limitation based on the character of the election, the anticipated voter turnout, and the number of offices or questions to be voted. If the moderator determines that time limitations are necessary, the moderator shall notify the governing body and the chief of police no later than 7 days prior to the date of the election. The governing body or the chief of police shall ensure that appropriate temporary signs are installed prior to election day or prior to the time for the opening of the polls on election day. The moderator shall cause signs to be posted inside the polling place giving voters notice of the time limitations. If a waiting line for voting or for election day registration forms that causes voters to wait for a period of time longer than the established time limitations, the moderator shall suspend enforcement of the time limitations on parking. Once the waiting period for voting or registering has been reduced so that a voter has a reasonable opportunity to register and vote within the time limitations, the moderator may reinstate enforcement of the time limitations. The moderator shall give immediate notice to the law enforcement officer on duty at the polls, or, if none, to the chief of police, of any suspension or reinstatement of the time limitations on parking. Any person parking in violation of a properly-posted time limitation shall be guilty of a violation.

AMENDED ANALYSIS

This bill requires parking at polling places. This bill also authorizes the moderator to establish time limitations on parking in the immediate area of the polling place.

Adopted.

Committee report adopted and ordered to third reading.

HB 365, relative to recount fees. OUGHT TO PASS

Rep. Richard B. Drisko for Election Law: This bill clarifies the fee requirements for state general election recounts. If the difference in the total vote is greater than 3%, then the candidate applying for the recount must file application and pay the estimated cost to the secretary of state five days prior to the start of the recount. The majority felt with that difference, the state should receive the payment in advance. If the amount charged is greater than the actual cost, then a refund will be made to the applicant. Vote 11-4.

Committee report adopted and ordered to third reading.

HB 55-FN-A, relative to industrial hemp and establishing an industrial hemp special program fund. MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. J. Lisbeth Olimpio for the Majority of Environment and Agriculture: This bill offers New Hampshire farmers the opportunity for diversity in their crops. Industrial hemp with too low a THC content (Tetrahydrocannabinis) is not to be confused with marijuana. Hemp has been raised for fiber (textiles and paper) and food for at least 12,000 years. Raising it was required in the American colonies. Only one individual testified against this bill. A manufacturer in Washington, D.C. is currently spending \$800,000 in Canada on hemp seeds for his soaps, lotions, and snack foods and would much prefer to buy in America. Another manufacturer's agent in Portsmouth purchases hemp fiber for Flex Form, which makes bio composite body panels for cars and trucks. They buy six million tons of hemp fiber from China annually. This is our opportunity to promote a program of sustainable agriculture. Vote 15-5.

Rep. Ryan N. Hansen for the Minority of Environment and Agriculture: The Minority of the committee felt two major points raised in our hearings on this bill warranted a recommendation of ITL. First, the state of New Hampshire does not have the existing infrastructure required to produce a viable and marketable hemp crop. Second, law enforcement does not support this legislation and current federal law will curtail the licensing of the growing of hemp even with this bill's passage. Until the Drug Enforcement Agency acts to loosen its rules and permitting process in regard to hemp, none can be grown for commercial use in the United States. The minority of the committee feels the bill is premature and not a viable long-term solution for New Hampshire's farmers.

Majority Amendment (0333h)

Amend RSA 433-C:2, III as inserted by section 1 of the bill by replacing it with the following:

III. "Process" means to produce a product from harvested industrial hemp that may be transported off a licensed site which shall consist only of mature stalks, fiber produced from such stalks, oil or cake made from the seeds, any other compound, manufacture, salt, derivative, mixture, or preparation of such mature stalks except the resin extracted therefrom, fiber, oil or cake, or the sterilized seeds which are incapable of germination.

Amend RSA 433-C:3 as inserted by section 1 of the bill by replacing it with the following:

433-C:3 Industrial Hemp an Agricultural Crop. Industrial hemp is recognized as an agricultural crop.

Amend RSA 433-C:4, I as inserted by section 1 of the bill by replacing it with the following:

I. A license from the commissioner shall authorize the holder to legally plant grow, harvest, and process industrial hemp only at a site or sites as specified by the license. A license shall also allow the holder to transport industrial hemp seeds obtained from the commissioner to such sites.

Amend RSA 433-C:7, I as inserted by section 1 of the bill by replacing it with the following:

I. The commissioner shall deny, suspend, revoke, or refuse to renew a license in the following cases:

(a) If false or misleading information, statements, misrepresentation, or false or falsified documents have been submitted on or with an application or renewal for a license.

(b) If the licensee fails to take any action required by the commissioner under the provisions of this chapter.

(c) If the license holder or applicant, or in the case of a corporation, cooperative, partnership, LLC or trust, any of its officers, directors or partners, has a record that includes within the previous 10 years:

(1) Any designated drug offense as provided in RSA 318-B:26; or

(2) If he or she ordinarily resides in a country other than the United States, an offense that if committed in the United States would constitute a designated drug offense.

Amend RSA 433-C:8, II as inserted by section 1 of the bill by replacing it with the following:

II. The commissioner shall establish hemp seed prices to be charged growers equivalent to the cost of acquiring the seed as provided in RSA 433-C:5. The establishment of hemp seed prices shall be exempt from RSA 541-A. All proceeds, if any, of seed sales shall be deposited in the industrial hemp special program fund established in paragraph III.

Majority amendment adopted.

Rep. Hansen spoke against and yielded to questions.

Rep. Batula spoke against.

Reps. Olimpio and Owen spoke in favor and yielded to questions.

Rep. Hansen requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.
Ordered to third reading.

HB 386, relative to agricultural best management practices. **OUGHT TO PASS**

Rep. Timothy D. O'Connell for Environment and Agriculture: This bill clarifies the definition of agricultural composting and commercial fertilizer. In addition, it directs the commissioner of the Department of Agriculture, Markets and Food to identify and publish best management practices for handling manure, agricultural compost and commercial fertilizer. Vote 17-1.
Committee report adopted and ordered to third reading.

HB 283, relative to the commission to examine all aspects of same sex civil marriage and its legal equivalents. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. James E. Wheeler for the Majority of Judiciary: The majority of the committee believes this bill is unnecessary, the commission is in place, the vacancies are in the process of being filled, and the commission has been informally gathering information and has scheduled a public hearing. The chairman of the commission believes that they can finish their task by the deadline, that new members and a mandate to meet monthly are not needed and if they cannot finish their task they can request a reenactment of the commission in their final report. Vote 12-6.

Rep. Gail C Morrison for the Minority of Judiciary: Last May, after hearings at which hundreds testified indicating interest in the subject, this legislature established a commission to study all aspects of same sex marriage and its equivalents. The commission has met just once in eleven months. When the legislature creates a commission, it does so with certain expectations. This bill assures that regular meetings and hearings will be held in preparation for the report date of December 1, 2005. It amends membership categories, adds members and requires that vacancies be filled. The bill is intended to activate this commission of the legislature.

Rep. Morrison spoke against.

Rep. Soltani requested a roll call; sufficiently seconded.

The question being adoption: of the majority committee report.

and the majority committee report was adopted.

Reps. Dickinson and DiFruscia did not vote and wished to be recorded against.

Rep. Pepino did not vote and wished to be recorded in favor.

HB 318-FN-L, relative to providing municipal water supply services. **INEXPEDIENT TO LEGISLATE**

Rep. David L. Buhlman for Municipal and County Government: This bill would require a municipal water company to hook up any person within its established area no matter what the situation. There was a request for water hookup in an elderly housing complex in Northfield. Federal funds were obtained to build the senior housing. However, a moratorium on new hookups was established in September 2002 due to possible MTBE contamination created by the increased draw on the aquifer. Within 60 days after the end of the moratorium, those hookups can be made. The moratorium will end when DES and the water companies complete studies of the situation. If the legislature steps in on this, there can be unintended consequences for other water companies. Vote 15-3. Rep. Cady spoke against.

Rep. Patten spoke in favor.

Committee report adopted.

Rep. Biundo declared a conflict of interest and did not participate.

HB 367, allowing municipalities to adopt a homestead exemption for property tax assessments on a person's principal place of residence. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Laurie J. Boyce for the Majority of Municipal and County Government: This bill would allow a municipality to adopt a homestead exemption in the amount of \$5,000 by a vote of the legislative body, or if the resident was 65 years of age or older, the exemption would be \$10,000. The bill is well intended but there is already a procedure in place for property tax relief by applying for low and moderate income property tax relief from the state or by applying for an elderly exemption at the local level. This committee went through the property tax exemptions, credits and deferrals during the 2003-2004 session and the legislature made many changes that need to be dealt with at the local level. It is important to realize that if there is an exemption or credit on one parcel of property in a municipality the difference has to be made up by another taxpayer, which is cost shifting. The local municipalities already have the ability to grant property tax relief that is voted on by their legislative bodies. Vote 11-6.

Rep. Nancy L. Johnson for the Minority of Municipal and County Government: The minority of the committee understands that this bill has a number of flaws. However, the concept of allowing municipalities to adopt a homestead exemption on a person's principal place of residence would significantly reduce a resident's property tax. The reduction of property taxes for residence is a goal that has merit and needs to be pursued now and in the future.

Majority committee report adopted.

HB 661-FN, relative to radiological monitoring in nuclear emergency planning zones. **INEXPEDIENT TO LEGISLATE**

Rep. Lee G. Slocum for Science, Technology and Energy: This bill would add real time radiological monitoring devices in New Hampshire communities surrounding Seabrook. The committee feels this bill is unnecessary. The Bureau of Emergency Management testified that the monitoring capabilities at Seabrook are appropriate and in compliance with regulations. The bureau has daily contact with the plant and would be aware of a problem even before any release might occur. In addition, in the opinion of the bureau, if we waited for the radioactive material to travel off site, we would be too late. Seabrook representatives testified that they had over 100 real time monitor-

ing devices on the property and numerous non-real time devices already in the surrounding communities. There has never been a radiological incident at Seabrook and many of the plant families live in the surrounding neighborhoods. Vote 13-1.
Committee report adopted.

HB 118, relative to bicycle helmet use by certain minors. **WITHOUT RECOMMENDATION**
Rep. Scanlon moved Ought to Pass, spoke in favor and yielded to questions.
Rep. Ferland spoke against.
Reps. Cilley and Jennifer Brown spoke in favor.

MOTION TO LAY ON THE TABLE

Rep. Danforth moved that **HB 118**, relative to bicycle helmet use by certain minors, be laid on the table, and the motion failed.
Rep. Scanlon requested a roll call; sufficiently seconded.
The question being adoption of the motion of Ought to Pass.

and the motion of Ought to Pass was adopted.

Ordered to third reading.

Rep. Morneau voted Nay and intended to vote Yea.

HB 593, requiring motor vehicle drivers' schools to post bonds. **INEXPEDIENT TO LEGISLATE**
Rep. James W. Danforth for Transportation: This bill would have required driving schools and independent instructors to post a \$25,000 bond or cash equivalent to cover the cost of instruction should they be unable to complete a course for which they had already been paid. Although the Department of Safety supported this bill, the committee felt that this would impose an unfair burden on smaller independent driving instructors. The testimony did not justify passage of this bill. Vote 11-2. Committee report adopted.

CACR 15, relating to the use of certain revenues. Providing that revenues raised by a statewide property tax, income tax, or general sales tax be used exclusively to support local public schools.

INEXPEDIENT TO LEGISLATE

Rep. Steve Vaillancourt for Ways and Means: This is another in a series of constitutional amendments which would impose restrictions on how future legislatures could either raise or spend

monies. This CACR is even more restrictive than CACR 3, which was killed by the House earlier this year. That CACR mandated that revenues raised from any future income tax would be earmarked exclusively for education funding. This adds a future sales tax and the current statewide property tax to revenue streams which would be limited to education funding. Once again, the committee does not believe such restrictions should be made part of the Constitution. We are asked to restrict use of tax revenue from taxes which do not even exist and may never exist. We are asked to handcuff future legislatures. Beyond that, it becomes clearer all the time that education funding is inextricably linked with the general fund, so such restrictions, even if wise, might prove ineffective. Vote 15-0.

Committee report adopted.

HB 466-FN-A, establishing a research and development tax credit against the business profits tax and the business enterprise tax. **INEXPEDIENT TO LEGISLATE**

Rep. John M. Pratt for Ways and Means: With the prospect of major cuts in the next biennial budget looming, the committee concluded that now was not the time to reduce state revenues, however laudatory the motive. Vote 17-1.

Rep. Hinkle spoke to the bill and yielded to questions.

Rep. Paul Smith requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

-----------------	--------------------	-------------------

and the committee report was adopted.

Rep. Claudia Chase declared a conflict of interest and did not participate.

HB 522, establishing a committee to study gaming options for New Hampshire. OUGHT TO PASS WITH AMENDMENT

Rep. Susan W. Almy for Ways and Means: The majority of the committee, including those in favor and opposed to bringing slots into our state, agreed that it was time to do a thorough study of the huge amount of conflicting information on the costs and benefits of slot-machine and other casino gambling developed in the last decade, as it applies to New Hampshire. The amendment adds to the duties a requirement to study the economic and social costs, and the estimation of revenue ranges and revenue losses due to expected competition were our state to legalize slot machines. It also requests the speaker and senate president to appoint a balance of opponents and proponents to the study committee. Vote 14-4.

Amendment (0421h)

Amend subparagraphs I(a) and I(b) of section 2 of the bill by replacing them with the following:

(a) Five members of the house of representatives, appointed by the speaker of the house of representatives, two of which shall be proponents of casino gambling, two of which shall be opponents of casino gambling, and the remaining member shall be initially undecided.

(b) Five members of the senate, appointed by the president of the senate, two of which shall be proponents of casino gambling, two of which shall be opponents of casino gambling, and the remaining member shall be initially undecided.

Amend paragraph IV of section 3 of the bill by inserting after subparagraph (f) the following new subparagraph:

(g) Recognized experts on the subject of the economic and social effects of casino operations.

Amend section 3 of the bill by inserting after paragraph IV the following new paragraphs:

V. Evaluate the total revenues attainable by the state given existing market conditions and assuming projections of additional casinos and casino expansion in adjacent states.

VI. Determine and quantify, to the extent possible, the social and economic affects of casinos in various sites around the state on the state, county, and local governments, and on tourism and other industries, including but not limited to:

(a) Property crimes.

(b) Crimes against persons.

(c) Social welfare costs.

(d) Competition for entertainment market share.

Adopted.

Committee report adopted and ordered to third reading.

HB 563-FN-A, increasing the tobacco tax. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Kevin L. Camm for the Majority of Ways and Means: This bill would require the commissioner of revenue administration to set the tobacco tax rate annually, on July 1, at a rate that is 25 percent below the lowest tax rate of our three neighboring states. A majority of the committee had many problems with such a scheme. It enables an executive branch official to raise taxes without approval of a future legislative body. It allows our tax policy on tobacco to be controlled by out of state legislators who are not elected by New Hampshire citizens. It removes those affected by the tobacco tax from due process that all the other taxpayer interests enjoy. It erodes the governor's power to veto tax increases. It makes the legislature faceless and nameless in regards to raising taxes. The majority of the committee felt it best to leave the procedure for raising all taxes as they are. Vote 10-8.

Rep. William Butynski for the Minority of Ways and Means: Passage of this bill would provide increased revenue to New Hampshire of approximately \$52.9 million during fiscal year 2006, and likely more in future years. We have a budget deficit which cannot be solved without tax increases. This bill protects the New Hampshire tax advantage for our retailers by annually raising the tobacco tax to a level that is 25 percent below the combined tobacco and sales tax of the state on New Hampshire's border which has the lowest total tax. Under this formula, New Hampshire's cigarette taxes would increase by 36 cents per pack (from 52 cents to 88 cents) as of July 1, 2005 – well below our largest neighbor. Finally, this increase in the cigarette tax would reduce youth initiation of tobacco use, encourage some current smokers to quit, and thus result in a long term reduction in New Hampshire's Medicaid costs.

Rep. Butynski spoke against and yielded to questions.

Rep. Camm spoke in favor.

(Deputy Speaker Weyler in the Chair)

LAID ON THE TABLE

Reps. Major and Pratt moved that **HB 563-FN-A**, increasing the tobacco tax, be laid on the table. Adopted.

REGULAR CALENDAR (CONT'D.)

HB 576, establishing a New Hampshire advantage commission. **INEXPEDIENT TO LEGISLATE**
Rep. Shawn N. Jasper for Ways and Means: The idea of a commission to study tax incentives offered within and outside of the United States has some real appeal, but without a substantial appropriation to support such a mammoth undertaking, it is beyond the practical ability of a group of already busy individuals to accomplish by November 1, 2006. Vote 15-0.
Committee report adopted.

BILLS REMOVED FROM CONSENT CALENDAR**HB 38, relative to credit card theft. OUGHT TO PASS WITH AMENDMENT**

Rep. George D. Winchell for Criminal Justice and Public Safety: This amended bill includes personal checks and credit cards in the Theft: Definitions statute, RSA 637:2, V, and places a value of \$250.00 on each stolen check or credit card in one's possession. Under current statute, checks and credit cards have no value until they are tendered for goods or services. The committee heard testimony of cases where individuals were caught in possession of stolen checks and credit cards and could not be charged under current law. The committee voted to fix this problem. Vote 16-1.

Amendment (0097h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the value of a stolen credit card or stolen blank check.

Amend the bill by replacing section 1 with the following:

1 New Subparagraph; Theft; Definitions. Amend RSA 637:2, V by inserting after subparagraph (b) the following new subparagraph:

(c) For the purposes of this chapter, the value of a credit card shall be the unused amount of credit at the time the actor obtained such credit card, and the value of a blank check shall be the amount of funds in the account at the time the actor obtained such check.

AMENDED ANALYSIS

This bill clarifies the value of a stolen credit card or check for the purposes of the theft statute. Rep. Welch spoke against.

Amendment failed.

Rep. Welch offered floor amendment (0817h) and spoke in favor.

Floor Amendment (0817h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to theft of personal checks and credit cards.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subparagraph; Theft; Definitions. Amend RSA 637:2, V by inserting after subparagraph (b) the following new subparagraph:

(c) Each personal check or credit card shall have a value of \$250.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill clarifies the applicability of the theft statute to personal checks and credit cards and assigns a value to each for the purpose of determining penalties.

Floor amendment (0817h) adopted.

Committee report adopted and ordered to third reading.

HB 636-FN, requiring the electronic recording of statements by persons subject to custodial interrogation. INEXPEDIENT TO LEGISLATE

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill attempts to create a solution to a problem that does not seem to exist. Credibility of witnesses is the province of the jury and it attempts to create a right that the Supreme Court has already ruled does not exist. It mandates what the Court would not. Vote 12-3.

Rep. Timothy Robertson spoke against.

Rep. Stevens spoke in favor.

Committee report adopted.

HB 151, requiring school districts to develop a school age nutrition and physical activity committee. OUGHT TO PASS WITH AMENDMENT

Rep. Nancy F. Stiles for Education: This bill requires local school districts to develop an advisory committee or use an existing committee, to develop a policy on nutrition and physical activity during the school day. The amendment removes a restriction on committee membership and eliminates a mandate in the bill. There was overwhelming support for the bill from many health organizations. Vote 12-3.

Amendment (0559h)

Amend RSA 189:11-a, VII(a) as inserted by section 1 of the bill by replacing it with the following:

VII.(a) Each school board shall establish, maintain, or utilize existing committees to form a school age nutrition and physical activity advisory committee which shall develop school district policy on nutrition and physical activity during the school day. The committee may include food service directors, health education and physical education faculty, school nurses, parents, pupils, nutritionists, health care professionals, a school administration representative, and community members, in such proportions as deemed appropriate and available by the school board. The committee shall submit its policies, recommendations, or reports annually to the school board. A summary of the policy shall be made available in print or electronic form to the community no later than July 1, 2006. When aggregate data on the height, weight, and fitness scores for New Hampshire's school children is made available to the department of education, the department shall provide a link to such data on its website.

Amend RSA 189:11-a, VII(b)(1) as inserted by section 1 of the bill by replacing it with the following:

(1) Food quality and choices.

Amend RSA 189:11-a, VII (b)(5) as inserted by section 1 of the bill by replacing it with the following:

(5) Addressing physical activity of all pupils and recommending that all pupils engage in physical activity throughout the school day.

Amendment adopted.

Reps. Boehm and Ober spoke against.

Rep. Hess yielded to questions.

Reps. Stiles and French spoke in favor.

(Speaker Scamman in the Chair)

Rep. Danforth requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

Osgood, Philip Sr
and the committee report was adopted.
Ordered to third reading.

Rep. Solomon did not vote and wished to be recorded in favor.

CACR 19, relating to representation in cities and towns whose population is equal to, or greater than, the minimum number of persons per house district. Providing that a city or town shall have at least one representative from the city or town if its population is equal to or greater than the apportionment figure for house districts. **INEXPEDIENT TO LEGISLATE**

Rep. William L. O'Brien for Election Law: This proposed constitutional amendment concurrent resolution would require that each town or city that has a population with a minimum number of

people to elect one representative to the general court shall elect at least one such representative without combining such representation with any other town or city. The majority disagreed with this approach because the only way to implement it would be to use floterial districts that would provide certain small towns with diluted representation and therefore are, or likely may be, held unconstitutional. The solution to this legitimate concern addressed by this CACR cannot be implemented. Vote 14-1.

Rep. Vaillancourt spoke against and yielded to questions.

Reps. Itse and Chaplin spoke against.

Rep. Whalley spoke in favor.

Rep. John Flanders moved the previous question.

Adopted.

Rep. Vaillancourt requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

Osgood, Philip Sr

and the committee report was adopted.

Rep. Bergin did not vote and wished to be recorded in favor.

HB 521, relative to medical insurance coverage for members of the Manchester employees' contributory retirement system. **OUGHT TO PASS WITH AMENDMENT**

Rep. Maurice L. Pilote for Executive Departments and Administration: The Manchester system originated in the state legislature and as such all changes thereto must also originate in the state legislature. This bill increases the medical subsidy for retired employees and as such will go before the voters of Manchester in a city wide referendum once approved by the state. The amendment to this bill simply reschedules employee payments and benefits to facilitate implementation. Vote 18-0.

Amendment (0719h)

Amend the bill by replacing section 3 with the following:

3 Effective Date. Section 2 of this act, relative to the referendum, shall take effect upon its passage. If the provisions of section 1 of this act shall be adopted as provided in section 2, said provisions shall be declared adopted and shall become effective as follows:

I. Creation of the 401(h) subtrust pursuant to 218:28 as inserted by section 1 of this act and contributions by the member shall commence 90 days after the date of the election.

II. Contributions by the employer shall commence with payrolls paid after July 1, 2006.

III. Commencement of benefits to retirees in the form of subsidies paid to their former employer shall commence with remittances made after July 1, 2006 for group health insurance purposes.

Adopted.

Reps. Infantine and Hirschmann spoke against.

Reps. Baroody and Zolla spoke in favor.

Rep. Adams requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted.
Ordered to third reading.

CACR 1, relating to taxation. Providing that the maximum increase in any budget bill in the state or its political subdivisions shall be limited by the rates of inflation and population growth unless overridden. **INEXPEDIENT TO LEGISLATE**

Rep. Elizabeth S. Hager for Finance: No evidence or third party testimony was presented to the committee in support of any benefits to be derived from this legislation. The majority of the committee concluded that this proposed constitutional amendment would unduly restrict the legislature's ability to fully consider and respond to future revenue and spending requirements and thus it would not serve the best interests of all of the state's citizens. The committee also considered commentary from several of its members that the only other state that has enacted a similar constitutional provision, Colorado, has experienced a serious fiscal crisis that is still unresolved. Vote 22-1.

Rep. Camm spoke against.

Rep. Hager spoke in favor and yielded to questions.

Rep. Soltani requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

Osgood, Philip Sr

HB 323-FN, relative to excluding social security numbers and other information from documents filed with registries of deeds. **INEXPEDIENT TO LEGISLATE**
Rep. Stephen G. Prichard for Municipal and County Government:

While the committee strongly agrees with the bill's intent to protect our privacy and avoid misuse of our social security numbers, the real "fix" needs to come on a larger scale. Several committees in Congress are studying the issue and it is being debated nationally on television almost daily. Because it is such a complex problem with the possibility of many unintended consequences, it is

the better part of wisdom to see how the issue sorts itself out and then act accordingly. The cost and trouble of redacting all old deeds to remove social security numbers, and the problems created for banks and assessors by having some deeds withheld from internet access raises a number of new issues. Putting your finger in just one hole in the dike while leaving dozens still open doesn't solve the problem. A more inclusive solution for protecting our privacy needs to be found without imposing the burden only on the Registry of Deeds. Vote 18-0.

Rep. Kurk spoke against and yielded to questions.

Rep. Patten spoke in favor.

Rep. Giuda requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted.

MOTION TO SPECIAL ORDER

Rep. O'Neil moved that **HB 679-FN-L**, authorizing the electronic enforcement of traffic signal violations, **HB 601-FN**, allowing businesses to apply the investment tax credit to contributions made to scholarship funding organizations, and **HB 613-FN**, exempting prepared take-out food items sold in supermarkets from the meals and rooms tax, be made Special Orders for Wednesday, March 30, 2005 in the Regular Calendar order.

Adopted.

RESOLUTION

Rep. O'Neil offered the following: **RESOLVED**, that the late drafting and introduction having been approved by the Rules Committee, in accordance with the list in the possession of the Clerk, House Bill numbered 2, shall be by this resolution read a first and second time by the therein listed title, sent for printing, and referred to the therein designated committee.

Adopted.

INTRODUCTION OF HOUSE BILL**First, second reading and referral**

HB 2-FN-A, relative to state fees, funds, revenue, and expenditures. (King, Coos 1: Finance)

RESOLUTION

Rep. O'Neil offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, March 30, 2005 at 10:00 a.m.

Adopted.

LATE SESSION**Third reading and final passage**

HB 138-FN, requiring medical examiners to inventory and account for property taken from decedents.

HB 332, relative to harassment by telephone.

HB 372, relative to notification of interested parties in medical parole cases.

HB 498, establishing a study committee relative to the sale of fire-safe cigarettes.

HB 628-FN, relative to the authority of law enforcement officers to close an area for the purpose of abating a threat to public health or safety.

- HB 696-FN**, relative to enhanced penalties for certain crimes against the elderly and persons with disabilities.
- HB 129-FN-L**, establishing a high performance school incentive.
- HB 351**, relative to the time for counting absentee ballots.
- HB 362**, relative to statutes to be posted at polling places.
- HB 195**, establishing a committee to study the department of insurance.
- HB 415**, excepting installation of heating equipment from regulation by the electrician's board.
- HB 499**, relative to participation in and administration of the Manchester employees' contributory retirement system.
- HB 546**, relative to the status of the board of trustees of the retirement system.
- HB 582**, relative to the policy for records management.
- HB 647-FN**, relative to restructuring the department of revenue administration.
- HB 306**, relative to mandatory education for crossbow hunters.
- HB 447-FN**, relative to black bear license and tag fees.
- HB 449-FN**, relative to special wild turkey seasons and permits.
- SB 57**, establishing a commission to study ways to alleviate medical malpractice premiums for high risk specialties.
- HB 267**, relative to requests for services other than counsel for indigent defendants.
- HB 421**, relative to effective dates.
- HB 141-L**, relative to the planning board's authority to limit building permits.
- HB 230-L**, relative to default budgets.
- HB 408**, relative to the sale of town-owned land.
- HB 411**, relative to the North Conway water precinct.
- HB 431-FN-L**, relative to competing articles and official ballot voting.
- HB 467**, relative to naming private roads.
- HB 504**, relative to the assessment or refund of real estate transfer taxes, and the recording of plans with the register of deeds.
- HB 505**, relative to recording mailing addresses on property deeds.
- HB 457**, relative to excavating and dredging permit exemptions for water conveyance systems.
- HB 152-FN**, establishing a commission to study the uses of biodiesel for home heating and vehicular transportation.
- HB 202**, directing the commissioner of the department of environmental services to review options for reducing diesel engine exhaust emissions.
- HB 261**, relative to title to salvage vehicles.
- HB 326**, relative to motorcycle noise levels and mufflers.
- HB 357**, relative to negligent driving.
- HB 260-FN**, relative to motor vehicle equipment and registration.
- HB 268-FN**, increasing certain motor vehicle fees.
- HB 602-FN-A**, relative to the unbundling of communications services for purposes of the application of the communications services tax.
- HB 147**, relative to the death penalty.
- HB 363**, relative to parking at polling places.
- HB 365**, relative to recount fees.
- HB 55-FN-A**, relative to industrial hemp and establishing an industrial hemp special program fund.
- HB 386**, relative to agricultural best management practices.
- HB 118**, relative to bicycle helmet use by certain minors.
- HB 522**, establishing a committee to study gaming options for New Hampshire.
- HB 38**, relative to theft of personal checks and credit cards.
- HB 151**, requiring school districts to develop a school age nutrition and physical activity committee.
- HB 521**, relative to medical insurance coverage for members of the Manchester employees' contributory retirement system.

RECONSIDERATION

Having voted with the prevailing side, Rep. Babson moved that the House reconsider its action whereby it passed on third reading, **HB 55-FN-A**, relative to industrial hemp and establishing an industrial hemp special program fund.

On a division vote, 107 members having voted in the affirmative and 209 in the negative, the reconsideration motion failed.

UNANIMOUS CONSENT

Rep. Flockhart addressed the House.

RECESS MOTION

Rep. O'Neil moved that the House stand in recess for the purpose of introduction of bills, enrolled bill amendments, enrolled bill reports and receiving Senate messages only.

Adopted.

The House recessed at 5:40 p.m.

RECESS

(Speaker Scamman in the Chair)

SB 223-FN, relative to licensing nondepository mortgage bankers and brokers. (Executive Departments and Administration)

SB 224, relative to the committee on judicial conduct. (Judiciary)

RECESS

(Speaker Scamman in the Chair)

Rep. O'Neil moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 10

Wednesday, March 30, 2005

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

His Excellency, Governor John H. Lynch, joined the Speaker on the rostrum for the day's opening ceremonies.

Prayer was offered by Guest Chaplain Gayle Murphy, Pastor of the Northwood Congregational Church in Northwood.

As this morning dawns with hope for spring and new beginnings, we gather in this place of power, of honor and of service. Be with these women and men. Guide them in the hard work of governing. Keep them focused on the needs of the least among us. Help them fight for justice so that the common good can be done.

We acknowledge in prayerful trust how difficult the work done here is. The long days require the gift of Your patience. The budget to balance with conflicting needs and limited funding calls upon the promise that You continue to work in miraculous ways. The health of some of these men and women call for Your healing touch. The promise of the good that can be done calls us to cling to hope in You.

Bless these good people. Guide in the good work they do. We pray this through our faith in You. Amen.

Rep. David L. Babson, Jr. led the Pledge of Allegiance.

The National Anthem was sung by Kaleb Wells, 7th grade student at Hampstead Middle School and grandson of Rep. Roger Wells.

LEAVES OF ABSENCE

Reps. Albert, Alger, Claire Clarke, Peter Cote, Dyer, Egbers, Hall, Oliver, Palangas, Palazzo and Ulery, the day, illness.

Reps. Bicknell, Bridle, William Chase, Clayton, Gonzalez, Hellwig, Hilliard, Hollinger, Millham and Burton Williams, the day, important business.

Reps. Hagan and Hutchinson, the day, illness in the family.

Rep. Paula Johnson, the day, death in the family.

INTRODUCTION OF GUESTS

Daniel and Erika, Jameson and Trevor, and Lois Wells, parents, brothers and great-grandmother of today's singer, guests of the House. John and Brenda Davis, and Kelsea Goulden, guests of Rep. Headd. Glen, Anne-Marie and Michelle Morse, guests of Reps. DeJoie and Infantine. Henry and Carrie Klementowicz, Jane Flegal and Olga Usyck, children and guests of Rep. Rosenwald. Rick Zeller, son-in-law of Rep. Lockwood.

TARTAN DAY RECOGNITION PROGRAM

Reps. John Hunt and Paul Smith introduced special guests who performed for the House in honor of New Hampshire Tartan Day:

Pipers Tammy Pratt, Elliott Smith and Campbell Webster played "Scotland the Brave" as the Highland Dancers from the New Hampshire School of Scottish Arts, Marielle Webster, Ashley Gilmour, Bonnie Heplar, Shona MacWhirter, Victoria Leeming, Isabel Leeming, Natalie Maynard, Jillian Peters, Hannah Marcel and Rachel Matheson danced the Highland Fling. Tammy Pratt piped "Flowers of the Forest" in honor of the United States troops in Afghanistan and Iraq and "Amazing Grace" at the close of the program.

MOTION TO VACATE

Rep. Babson moved that the House vacate the reference of **SB 140**, relative to the acceptance of in-lieu payments for the restoration or creation of wetlands and the preservation of upland areas adjacent to wetland areas, to the Committee on Environment and Agriculture.

Motion adopted.

The Speaker referred SB 140 to the Committee on Resources, Recreation and Development.

SUSPENSION OF RULES

Reps O'Neil and Craig moved that the Rules deadlines be so far suspended as to permit referral to a second committee of the following House Bills:

HB 643-FN, establishing an integrated criminal justice information system.

HB 718-FN-A, relative to group life insurance for New Hampshire citizens serving in the military reserves or national guard and making an appropriation therefor.

HB 25-FN-A, making appropriations for capital improvements.

HB 687-FN, relative to tuition waivers for children and spouses of members of the armed forces who die while on active duty.

HB 137-FN, relative to unemployment benefit eligibility.

HB 209-FN, relative to unborn victims of violence.

Adopted by the necessary two-thirds.

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. O'Neil moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 717, prohibiting cancellation of property and liability insurance on the basis of certain political activities, removed by Rep. DeJoie.

HB 635-FN-L, relative to education funding, removed by Rep. Hughes.

HB 270, relative to procedures of the legislative ethics committee, removed by Rep. Jasper.

HB 371, relative to mercury reduction, removed by Rep. Maxfield.

HB 158, relative to the Auburn District Court, removed by Rep. Paul Smith.

HB 536, relative to excluding deductions from compensation from all elected state, county, and local officials, removed by Rep. Marple.

HCR 9, commending the New Hampshire Fisher Cats on their championship, removed by Rep. Vaillancourt.

HB 537, relative to liens filed with public servants, removed by Rep. Marple.

HB 710-FN, establishing property appraisals for the taxation of property based upon its current use as a residence for persons over 65, removed by Rep. Patten.

SB 23, relative to membership on the public water access advisory board, removed by Rep. Currier.

HCR 3, urging Congress to require the Department of Justice to conduct a review and release information to the public regarding mistreatment and restrictions placed on Italian-American citizens of the United States during World War II, removed by Rep. Pepino

HCR 5, recognizing New Hampshire's ratification of the original Thirteenth Amendment to the United States Constitution, removed by Rep. Marple.

HCR 6, urging Congress to enact legislation to make English the official language of the United States, removed by Rep. Pillotte.

HCR 7, urging the United States Congress to establish and revise the current drug policy, removed by Rep. Pillotte.

HB 720-FN, relative to special number plates, removed by Rep. Gibson.

Consent Calendar adopted.

HB 120, relative to the definition of child abuse and the identity of a person filing a report of suspected child abuse. **INEXPEDIENT TO LEGISLATE**

Rep. Mary Stuart Gile for Children and Family Law: This bill defines the circumstances that indicate or threaten physical harm to a child's life, health or welfare and requires that the person reporting/filing a report provide their name and address. The committee appreciates the sponsor's intent to clarify child abuse and neglect reporting laws, however, the committee decided to support current law which guarantees anonymity to persons reporting because it is in the best interest of the child. Vote 13-1.

HB 214, permitting the parents or legal guardian of a sexual assault victim to remain with the victim during the legal proceedings. **OUGHT TO PASS**

Rep. Harriet E. Cady for Children and Family Law: This bill provides that a sexual assault victim age 16 or younger at the child's request and with the prosecutor's approval shall be allowed to have the parents or legal guardians to remain with the victim during the entire court proceedings. This bill gives the necessary support to a child during the court process. Vote 13-1.

HB 220, establishing a committee to study the ability of homeless youth in New Hampshire to make a successful transition to adulthood. **OUGHT TO PASS WITH AMENDMENT**
 Rep. Mary Stuart Gile for Children and Family Law: This bill establishes a committee to study the ability of homeless youth in New Hampshire to make a successful transition to adulthood. Testimony confirmed that the numbers of homeless teens in New Hampshire are increasing for a variety of reasons. The study committee will investigate the accuracy of reports (data), consolidate various studies on teen homelessness, and request evaluations of existing programs and report findings and recommendations for future legislation by November 1, 2005. Vote 14-0.

Amendment (0495h)

Amend the bill by replacing section 3 with the following:

3 Duties. The committee shall:

I. Investigate the number of homeless youth in the state and the extent of any current or prior relationship to the division of children, youth and families or the division for juvenile justice services.

II. Investigate the needs of homeless youth for employment, education, transportation, housing, nutrition, mental health services, medical and dental care, legal services, and other support services from adults, including the current availability and accessibility of such services.

III. Solicit testimony from youth and young adults who are or have been homeless, and from agencies and organizations that provide services to homeless youth and young adults, including school assistance and other educational programs, runaway and homeless youth programs, health, mental health and substance abuse prevention and treatment programs, and from other sources as deemed helpful by the committee.

IV. Seek information relative to the needs of adolescents, as they transition to adulthood, from the following organizations: the Adolescence Resource Center of the university of New Hampshire, the New Hampshire Medical Society, the New Hampshire Coalition Against Domestic and Sexual Violence, the department of education, the department of health and human services office of homeless, housing, and transportation services, New Hampshire Legal Assistance, and others as may be appropriate.

V. Study the effect that homeless teens have on society, including the social and financial costs associated with inadequate transitional services for teens who leave the foster care system and special education system without the necessary skills or supports to become self-sufficient. Amend the bill by replacing section 6 with the following:

6 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2005. The report shall include, to the extent practicable, the estimated cost of both implementing and not implementing the committee's recommendations.

HB 405, relative to discovery depositions in criminal cases of persons under 16 years of age. **INEXPEDIENT TO LEGISLATE**

Rep. Edward P. Moran for Children and Family Law: This bill would permit children under the age of 16 to be deposed in criminal cases. Children would be subject to a wide array of questions under oath without a judge present. Unless they hire private counsel, the child would be forced to respond without the protection afforded by legal representation. There already are existing means for obtaining information from a child witness. Current law provides for video taped depositions with both a judge and parent present. After review by a judge, confidential documents may be given to the defense. Court rules require that all witness statements made by children be given to the defense. And, of course, a child may be required to testify and be subject to cross examination at trial. This bill is unnecessary and has potential to cause great harm to children. The Attorney General opposes this bill. Vote 12-2.

HB 476, revising the definition of adultery. **INEXPEDIENT TO LEGISLATE**

Rep. Anne C. Grassie for Children and Family Law: This bill was initiated pursuant to a Supreme Court decision which rested on the majority interpretation of adultery as defined in RSA 645:3. The committee felt the alternative definition proposed, the language of RSA 649-A:2,III, was inappropriately broad. The committee majority decided, given the options, it concurred with the Supreme Court majority. Vote 14-1.

HB 510, relative to financial affidavits in domestic relations cases. **OUGHT TO PASS**

Rep. Barbara Hull Richardson for Children and Family Law: This bill was introduced at the request of the Department of Health and Human Services to correct an unintended consequence of HB 384 which was passed last year. This bill provides that in divorce and custody cases otherwise confidential financial affidavits are accessible to those employees responsible for the administration and enforcement of child support obligations. It is basically housekeeping legislation. Vote 14-1.

HB 511, relative to the confidentiality of records pertaining to the support of dependent children. **OUGHT TO PASS**

Rep. Barbara Hull Richardson for Children and Family Law: This bill was requested by the Department of Health and Human Services and the courts. This bill permits the court and its authorized personnel limited access to child support records maintained by the Department for the administration of cases where an application for child support services has been received and accepted by the Department for Social Security Act, Title IV-D services. Currently New Hampshire is failing to maximize on capturing available IV-D funding largely because of limitations in ability to identify IV-D cases for federal reimbursement. Vote 14-1.

HB 585, relative to grounds for termination of parental rights. **OUGHT TO PASS WITH AMENDMENT**

Rep. Anthony P. Matarazzo, Sr. for Children and Family Law: This bill adds to the grounds for termination of parental rights, namely, conviction for felony assault of a sibling. The amendment simply says the bill shall take effect upon passage rather than 1 January 2006. Vote 14-0.

Amendment (0833h)

Amend the bill by replacing section 3 with the following:

3 Effective Date. This act shall take effect upon its passage

HB 586, relative to the periodic review of child support guidelines. **OUGHT TO PASS**

Rep. Harriet E. Cady for Children and Family Law: This bill clarifies that child support guidelines be reviewed by the Department of Health and Human Services not less than once every four years in order to determine appropriate child support awards. It also requests that the department use the review by the commission on child support and related child custody issue to meet state and federal law requirements. HB 586 meets the request of the commission on child support and related child custody issues. Vote 14-0.

HB 640-FN, relative to parental rights and responsibilities. **OUGHT TO PASS WITH AMENDMENT**

Rep. David A. Bickford for Children and Family Law: This bill places laws governing custody of children under a separate chapter. The term custody changes to "rights and responsibilities" and requires parents to file "parenting plans" with the court and allows the court to order a session of mediation. Vote 16-0.

Amendment (0896h)

Amend RSA 461-A:4, II as inserted by section 1 of the bill by replacing it with the following:

II. A parenting plan may include provisions relative to:

- (a) Decision-making responsibility and residential responsibility.
- (b) Information sharing and access, including telephone and electronic access.
- (c) Legal residence of a child for school attendance.
- (d) Parenting schedule, including:

- (1) Holiday, birthday, and vacation planning.

- (2) Weekends, including holidays, and school in-service days preceding or following weekends.

- (e) Transportation and exchange of the child.

- (f) Relocation of parents.

- (g) Procedure for review and adjustment of the plan.

- (h) Methods for resolving disputes.

Amend RSA 461-A:6, III as inserted by section 1 of the bill by replacing it with the following:

III. In determining parental rights and responsibilities under this section, including residential responsibility, the court shall not apply a preference for one parent over the other because of the sex of the child, the sex of a parent, or the financial resources of a parent.

Amend RSA 461-A:7, IV as inserted by section 1 of the bill by replacing it with the following:

IV. Reasons the court may choose not to order mediation include, but are not limited to, the following:

- (a) A showing of undue hardship to a party.
- (b) An agreement between the parties for alternate dispute resolution procedures.
- (c) An allegation of abuse or neglect of the minor child.
- (d) A finding of alcoholism, drug abuse, or domestic abuse as defined in RSA 173-B:1, unless all parties agree to mediation.
- (e) An allegation of serious psychological or emotional abuse.
- (f) Lack of an available, suitable mediator within a reasonable time period.

Amend the bill by inserting after section 19 the following and renumbering the original sections 2021 to read as 21-22, respectively:

20 Legal Residence Required; Residential Responsibility. Amend RSA 193:12, II(a)(2) to read as follows:

(2) In a divorce decree where parents are awarded *joint decision making responsibility* or joint legal custody, the legal residence of a minor child is the residence of the parent with whom the child resides. If a parent is awarded sole or primary *residential responsibility* or physical custody by a court of competent jurisdiction in this or any other state, legal residence of a minor child is the residence of the parent who has sole or primary *residential responsibility* or physical custody. If the parent with sole or primary physical custody lives outside the state of New Hampshire, the pupil does not have residence in New Hampshire. *If the court order is for equal or approximately equal periods of residential responsibility, the child's* legal residence for school attendance purposes shall be as stated in the order.

Amend the bill by replacing section 22 with the following:

22 Effective Date. This act shall take effect upon its passage.

HB 104, requiring insurance coverage for infertility treatments. **INEXPEDIENT TO LEGISLATE**
Rep. Stephen B. Stepanek for Commerce: The committee has had this issue several times in the past. Testimony was presented that this mandate would increase the cost of health insurance for everyone in the small group market. Although we are very sensitive to the situation of infertile couples, our concern is that the out of control cost of health care is having a devastating impact on our small businesses and their employees. It has reached a crisis situation where companies and/or their employees are being forced to decisions to continue health coverage or not based upon their ability to pay for it. An additional increase will simply push more people out of the insurance market. We should be looking for ways to stabilize the cost of good basic health insurance. This bill has the opposite effect at a time when our small businesses can ill afford another mandate. Vote 17-1.

HB 262, creating a cause of action relative to the discharge of mortgages. **INEXPEDIENT TO LEGISLATE**

Rep. Tara G. Reardon for Commerce: The committee reviewed the existing New Hampshire law with regard to mortgage discharge and found that the mechanism created by the Commerce Committee in a past session is sufficient to remedy this situation. New Hampshire law provides for a discharge by affidavit to clear titles encumbered by mortgages that have been satisfied. Vote 19-0.

HB 274, relative to notice of the availability of automobile gap insurance. **INEXPEDIENT TO LEGISLATE**

Rep. Donald H. Flanders for Commerce: This type of insurance, although available through insurance agents, is usually offered by automobile dealers and financial institutions that are aware of the personal financial situation of the buyer. Normally, insurance agents, brokers and salespeople are not aware of the amount being financed by their clients. Although they can and do offer the coverage, it is rarely purchased by their clients and requiring a mandatory written offer and signoff for this type of coverage where such is not required on other perils would be cost prohibitive and unreasonable. Vote 20-0.

HB 296, relative to bonding requirements for private detectives. **INEXPEDIENT TO LEGISLATE**

Rep. Matthew J. Quandt for Commerce: The State of New Hampshire requires that private detectives have a \$50,000 surety bond. This legislation allows a private detective to purchase and maintain liability insurance in lieu of a surety bond. Although the sponsor was well intentioned, the committee felt that liability insurance does not have the same protection as a surety bond. Vote 19-0.

HB 299, relative to mechanics' liens. OUGHT TO PASS WITH AMENDMENT

Rep. Tara G. Reardon for Commerce: The bill as introduced sought to make several improvements to RSA 447 regarding mechanics' liens. The testimony at both the public hearing and subcommittee indicated there was not only disagreement about the provisions in the bill, but also other parts of RSA 447. All parties agree that a broader look is necessary and a study committee is the best approach. Vote 17-0.

Amendment (0843h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study state laws governing liens for labor and materials.

Amend the bill by replacing all after the enacting clause with the following:

1 Committee Established. There is established a committee to study state laws governing liens for labor and materials.

2 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties. The committee shall study the need to revise RSA 447, relative to liens for labor and materials. The review shall include, but shall not be limited to: including equipment in addition to labor and materials in a lien filed pursuant to RSA 447:2, the treatment of leasehold interests, and the bonding of liens. The committee shall solicit information and testimony from such organizations and individuals as may assist the committee in the performance of its duties, including: the Home Builders and Remodelers' Association of New Hampshire, the Association of Builders and Contractors, the Association of General Contractors of New Hampshire, and the Bankers' Association.

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Four members of the committee shall constitute a quorum.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2005.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a committee to study the laws relative to liens for labor and materials.

HB 337, establishing a committee to study small group health insurance and the small brokerage health insurance community. INEXPEDIENT TO LEGISLATE

Rep. Donald H. Flanders for Commerce: The committee felt that this bill was unspecific as to its objectives. Testimony provided at the hearing concentrated on areas relating to rebating and unfair trade practices. These areas were addressed in the last session under SB 42 which completely updated both regulations to reflect current practices, and, according to the insurance department, are working well. In addition to this, anything that may need further study can be addressed under other bills currently being considered. Vote 13-5.

HB 348, relative to mortgages held by parties to a divorce. OUGHT TO PASS WITH AMENDMENT

Rep. Tara G. Reardon for Commerce: This bill was amended to provide clarification of a bill passed by this house last session. The Commerce Committee added a requirement to durable powers of attorney that required a disclosure of the grantor of the power that he/she was granting broad powers to the agent named in that document. As an unintended consequence, special limited powers of attorney, used mainly in real estate transactions, were caught up in the change because they contain durable language. This bill corrects that by clarifying the language for those transactions done since the effective date of the change and in the future. Vote 18-0.

Amendment (0660h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to real and personal property conveyances made under powers of attorney.

Amend the bill by replacing all after the enacting clause with the following:

1 Powers of Attorney; Clarification of Legislative Intent.

I. The general court declares that its intent in enacting and amending RSA 506:6, VI, VII, and VIII(b), and RSA 506:7, IV(b), under 2001, 257, and 2003, 312, was not to impose the requirements of principal disclosure statement and agent acknowledgment on powers of attorney that are by their terms limited to a specified transaction or series of transactions such as representing a principal in a sale of a parcel of real estate or lots in a subdivision, but rather to impose the new requirements on durable powers of attorney that are general in nature, and thus more vulnerable to possible misuse.

II. The general court further declares that its intent in enacting and amending the statutes referred to in paragraph I was not to invalidate conveyances made to bona fide purchasers under powers of attorney that fail to comply with RSA 506:6, VI or VII, or both, where reasonable consideration is paid and the purchaser has no actual knowledge or reason to believe that the agent is misusing the power of attorney.

III. This act clarifies the original legislative intent of the above-referenced statutes, and effectuates such intent in regard to conveyances that have occurred prior to the effective date of this act.

2 Powers of Attorney; Disability or Incompetence of Principal; Disclosure Statement. Amend RSA 506:6, VI(a) to read as follows:

VI.(a) A disclosure statement, signed by the principal, in substantially the following form, shall be affixed to a durable *general* power of attorney:

INFORMATION CONCERNING THE DURABLE POWER OF ATTORNEY

THIS IS AN IMPORTANT LEGAL DOCUMENT. BEFORE SIGNING

THIS DOCUMENT YOU SHOULD KNOW THESE IMPORTANT FACTS:

Notice to the Principal: As the "Principal," you are using this Durable Power of Attorney to grant power to another person (called the "Agent" or "Attorney in Fact") to make decisions, including, but not limited to, decisions concerning your money, property, or both, and to use your money, property, or both on your behalf. If this written Durable Power of Attorney does not limit the powers that you give to your Agent, your Agent will have broad and sweeping powers to sell or otherwise dispose of your property, and to spend your money without advance notice to you or approval by you. Under this document, your agent will continue to have these powers after you become incapacitated, and unless otherwise indicated your Agent will have these powers before you become incapacitated. You have the right to retain this Power and not to release this Power until you instruct your attorney or any other person who may hold this Power of Attorney to so release it to your Agent pursuant to written instructions. You have the right to revoke or take back this Durable Power of Attorney at any time, so long as you are of sound mind. If there is anything about this Durable Power of Attorney that you do not understand, you should seek professional advice.

Principal

3 Powers of Attorney; Disability or Incompetence of Principal; Acknowledgment. Amend RSA 506:6, VII(a) to read as follows:

VII.(a) An agent shall have no authority to act as agent under [the] *a durable general* power of attorney unless the agent has first executed and affixed to the power of attorney an acknowledgment in substantially the following form:

I, _____, have read the attached power of attorney and am the person identified as the Agent for the Principal. I hereby acknowledge that when I act as Agent or "attorney in fact," I am given power under this Durable Power of Attorney to make decisions about money, property, or both belonging to the Principal, and to spend the Principal's money, property, or both on the Principal's behalf, in accordance with the terms of this Durable Power of Attorney. This Durable Power of Attorney is valid only if the Principal is of sound mind when the Principal signs it. When acting in the capacity of Agent, I am under a duty (called a "fiduciary duty") to observe the standards observed by a prudent person, which means the use of those powers that is reasonable in view of the interests of the Principal and in view of the way in which a person of ordinary judgment would act in carrying out that person's own affairs. If the exercise of my acts is called into question, the burden will be upon me to prove that I acted under the standards of a fiduciary. As the Agent, I am not entitled to use the money or property for my own benefit or to make gifts to myself or others unless the Durable Power of Attorney speci-

cally gives me the authority to do so. As the Agent, my authority under this Durable Power of Attorney will end when the Principal dies and I will not have authority to manage or dispose of any property or administer the estate unless I am authorized to do so by a New Hampshire Probate Court. If I violate my fiduciary duty under this Durable Power of Attorney, I may be liable for damages and may be subject to criminal prosecution. If there is anything about this Durable Power of Attorney, or my duties under it, that I do not understand, I understand that I should seek professional advice.

Agent

4 Powers of Attorney; Disability or Incompetence of Principal; Validity. Amend RSA 506:6, VIII(b) to read as follows:

(b) Failure to comply with paragraph VI *or* VII shall not invalidate an otherwise valid durable *general* power of attorney, subject to the provisions of RSA 506:7, IV(b).

5 New Subparagraph; Powers of Attorney; Disability or Incompetence of Principal; Validity of Conveyances to Bona Fide Purchasers. Amend RSA 506:6, VIII by inserting after subparagraph (b) the following new subparagraph:

(c) Notwithstanding the provisions of paragraph VI or VII or RSA 506:7, IV(b), a conveyance of real or personal property to a bona fide purchaser for reasonable consideration under an otherwise valid durable general power of attorney that failed to comply with RSA 506:6, VI or VII, or both, shall not be set aside on account of such failure unless the purchaser had actual knowledge or good reason to believe that the agent was misusing the power of attorney in making the conveyance. This subparagraph shall apply to every conveyance made on or after January 1, 2004, unless an action to set aside such conveyance has been filed prior to the effective date of this subparagraph.

6 New Paragraphs; Powers of Attorney; Disability or Incompetence of Principal; Definitions; Validity Amend RSA 506:6 by inserting after paragraph IX the following new paragraphs:

X.(a) "Durable power of attorney" as used in this chapter means a power of attorney described in paragraph I.

(b) "Durable general power of attorney" as used in this chapter means a durable power of attorney that is not limited by its terms to a specified transaction or series of transactions.

XI. Any durable power of attorney limited by its terms to a specified transaction or series of transactions and executed before the effective date of this paragraph shall not be deemed invalid or affected in any way because it does not comply with paragraph VI or VII.

7 Powers of Attorney; Limitations on the Agent; Presumption of Lawfulness. Amend RSA 506:7, IV(b) to read as follows:

(b) When a gift or transfer made by an agent *under a durable general power of attorney* is challenged in a petition filed under paragraph III of this section, the gift or transfer shall be presumed to be lawful if the durable power of attorney is accompanied by the disclosure statement and acknowledgement drafted in accordance with RSA 506:6, VI and VII, and explicitly authorizes such gifts or transfers as set forth in RSA 506:6, V. However, if the petitioner establishes that the agent made a transfer for less than adequate consideration, and the transfer is not explicitly authorized by a durable power of attorney drafted in accordance with RSA 506:6, VI and VII, the agent shall be required to prove by a preponderance of evidence that the transfer was authorized and was not a result of undue influence, fraud, or misrepresentation.

8 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill:

I. Declares the legislative intent concerning the disclosure statement required under a durable general power of attorney and the acknowledgement required under a durable general power of attorney.

II Clarifies that certain conveyances of real and personal property are not invalid because of failure to follow the technical form prescribed in statute.

HB 364, establishing a committee to study adopting the uniform securities act. INEXPEDIENT TO LEGISLATE

Rep. Stephen B. Stepanek for Commerce: The committee has retained HB 716 which deals with the review and restructuring of the Uniform Securities Act. Therefore the committee felt that HB 364 dealing with the same issue would be redundant and not necessary at this time. Vote 20-0.

HB 422, relative to exemptions from the consumer protection act. **INEXPEDIENT TO LEGISLATE**
 Rep. James R. Martin for Commerce: This bill would exempt from the Consumer Protection Act any business that is in compliance with the rules and regulations of the Bank Commissioner, Director of Securities Regulation, Insurance Commissioner, Public Utilities Commission and similar regulators of other states or the federal government. The bill changes existing law which exempts only those businesses that are subject to the jurisdiction of those regulators. This bill would exempt any business not subject to regulations by any of the named regulators. Thus, under this bill, any business not subject to regulation would be exempt from the Consumer Protection Act. Vote 16-4.

HB 423, relative to insurance premiums for medical malpractice liability insurance. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen B. Stepanek for Commerce: This bill requires malpractice insurance rates in New Hampshire to be based only on New Hampshire malpractice statistics. The committee heard testimony that due to its small size there would be little or no malpractice statistics in many areas of medical practice. It would therefore be impossible to rate these areas for insurance purposes. Although well intended, this bill would have the unintended effect of further restricting the availability of malpractice insurance and of also increasing its cost. Vote 18-2.

HB 469, regulating disputes between homeowners and contractors relative to residential construction defects. **OUGHT TO PASS WITH AMENDMENT**

Rep. Matthew J. Quandt for Commerce: This bill is the product of many hours of work by a subcommittee, the Attorney General's Office of Consumer Protection and the homebuilder industry, and was introduced to address the concerns of the numerous contractor scams that New Hampshire homeowners have experienced in the recent past. The legislation mandates a written contract between a homeowner and contractor outlining basic terms of their agreement. The law also provides the Attorney General's Office with the enforcement tools they need to prosecute those contractors that prey on consumers. The final version addresses the desire of the homebuilders to protect the reputation of the majority of the good contractors working in New Hampshire, while also allowing the attorney general to pursue those whose intent are to defraud. Vote 20-0.

Amendment (0670h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Chapter; Residential Construction Defects; Dispute Resolution. Amend RSA by inserting after chapter 359-F the following new chapter:

CHAPTER 359-G

RESIDENTIAL CONSTRUCTION DEFECTS; DISPUTE RESOLUTION

359-G:1 Purpose. In order to encourage the out-of-court resolution of disputes between homeowners and contractors relative to residential construction defects, this chapter provides a framework for discussion about an alleged defect. As part of this process, RSA 359-G:5, IV allows a homeowner to provide access to the residence for an inspection. Since an inspection is likely to lead to the timely resolution of the problem, homeowners are encouraged, but not required, to provide access for an inspection.

359-G:2 Definitions. In this chapter:

I. "Action" means any civil lawsuit, judicial action, or arbitration proceeding asserting a claim, in whole or in part, for damages or other relief in connection with a residence caused by an alleged construction defect.

II. "Homeowner" means any person, company, firm, partnership, corporation, or association who contracts with a contractor for the construction, sale, substantial remodel or repair, or construction and sale of a residence. Homeowner includes, but is not limited to, an authorized assignee, agent, or subsequent purchaser of a residence from any homeowner.

III. "Construction defect" has the meaning assigned by a written, express warranty either provided by the contractor or required by applicable statutory law. If no written, express warranty or applicable statutory warranty provides a definition, then "construction defect" means a matter concerning the design, construction, modification, or repair of a residence on which a person has a complaint against a contractor. The term may include any physical damage to the residence, any appurtenance, or the real property on which the residence or appurtenance are affixed, proximately caused by a construction defect.

IV. "Contractor" means any person, firm, partnership, corporation, association or other organization that is engaged in the business of designing, developing, or constructing a residence, modification, repair of a new or existing residence, or construction, alteration, addition, or repair of an appurtenance to a new or existing residence.

V. "Residence" means a single-family house, duplex, or multifamily unit designed for residential use in which title to each individual unit is transferred to the owner under a condominium or cooperative system and shall include common areas and improvements that are owned or maintained by an association or by members of an association. A residence includes the systems, other components, improvements, other structures, or recreational facilities that are appurtenant to the house, duplex, or multifamily unit at the time of its initial sale, but not necessarily a part of the house, duplex, or multifamily unit.

VI. "Serve" or "Service" means delivery by certified mail, return receipt requested, or in-hand service, to the last known address or place of business of the addressee.

359-G:3 Action; Stay Without Prejudice. If a homeowner files an action without first complying with the requirements of this chapter, on application by a party to the action, the court or arbitrator shall stay the action, without prejudice, until the homeowner has complied with the requirements of this chapter. The stay shall not exceed the 60 day period set forth in RSA 359-G:4, I, and no attachments against the contractor shall be granted until the stay expires.

359-G:4 Notice and Opportunity to Repair.

I. In every action subject to this chapter, the homeowner shall, no later than 60 days before initiating an action against a contractor, provide service of written notice of claim on that contractor. The notice of claim shall state that the homeowner asserts a construction defect claim and is providing notice of the claim pursuant to the requirements of this chapter. The notice of claim shall describe the claim in detail sufficient to explain the nature of the alleged construction defect and the result of the defect. In addition, the homeowner shall provide to the contractor any evidence in possession of the homeowner that depicts the nature and cause of the construction defect.

II. Within 30 days after service of the notice of claim by the homeowner required in paragraph I, each contractor that has received the notice of claim shall serve on the homeowner, and on any other contractor that has received the notice of claim, a written response to the claim or claims, which discloses any evidence in the possession of the contractor that depicts the nature and cause of the construction defect, and:

(a) Offers to settle the claim by monetary payment, the making of repairs, or a combination of both, without inspection;

(b) Proposes to inspect the residence that is the subject of the claim; or

(c) Wholly rejects the claim.

III. Notwithstanding any other provision of this chapter, if the contractor fails to respond to the homeowner under paragraph II, wholly rejects the claim, or will neither remedy the alleged construction defect nor settle the claim, the homeowner may immediately bring an action against the contractor for the claims described in the notice of claim without further notice except as otherwise provided under applicable law.

IV. If a proposal for inspection is made pursuant to subparagraph II(b), the homeowner may, within 15 days of receiving contractor's proposal, provide the contractor and its subcontractors, agents, experts, and consultants prompt and complete access to the residence to inspect the residence, document any alleged construction defect, and, if authorized in writing by the homeowner, perform any destructive or non-destructive testing required to fully and completely evaluate the nature, extent, and cause of the claimed defect and the nature and extent of any repairs or replacements that may be necessary to remedy the alleged defect. If destructive testing is authorized in writing by the homeowner, the contractor shall give the homeowner advance notice of such tests and shall, after completion of the testing, return the residence to as close as reasonably practicable to its pre-testing condition. If any inspection or testing reveals a condition that requires additional testing to allow the contractor to fully and completely evaluate the nature, cause, and extent of the construction defect, the contractor shall provide notice to the homeowner of the need for such additional testing and, if the homeowner consents in writing to such additional testing, the homeowner shall provide access as provided under this section. If a claim is asserted on behalf of owners of multiple residences, or multiple owners of units within a multi-family complex, then the contractor shall be entitled to inspect each of the residences or units, with the written consent of the unit owner.

V. Within 15 days following completion of the inspection and testing under paragraph IV, the contractor shall serve on the homeowner a response disclosing any inspection or testing records in the possession of the contractor that depict the nature and cause of the construction defect, and:

(a) A written offer to fully or partially remedy the construction defect at no cost to the homeowner. Such offer shall include a description of any additional construction necessary to remedy the defect described in the claim, and an anticipated timetable for the completion of such construction;

(b) A written offer to settle the claim by monetary payment;

(c) A written offer including a combination of repairs and monetary payment; or

(d) A written statement that the contractor will not proceed further to remedy the defect.

VI. If a homeowner accepts a contractor's offer made pursuant to subparagraph VI(a), (b), or (c) and the contractor does not proceed to make the monetary payment or remedy the construction defect within the agreed timetable, the homeowner may bring an action against the contractor for the claim described in the notice of claim without further notice except as otherwise provided by applicable law. In such situation, the homeowner may also file the contractor's offer and homeowner's acceptance, and such offer and acceptance will create a rebuttable presumption that a binding and valid settlement agreement has been created and should be enforced by the court or arbitrator.

VII. If a homeowner receives a written statement that the contractor will not proceed further to remedy the defect, the homeowner may bring an action against the contractor for the claim described in the notice of claim without further notice except as otherwise provided by applicable law.

VIII. If the homeowner rejects the offer made by the contractor to remedy the construction defect or to settle the claim by monetary payment or a combination of each, the homeowner may serve written notice of the homeowner's rejection on the contractor.

IX. If the value of the offer that the homeowner rejects under this section is greater than any judgment awarded in an ensuing civil proceeding, then the contractor shall be deemed the prevailing party for the purpose of determining the taxation of costs in the proceeding.

X. Any homeowner accepting the offer of the contractor to remedy a construction defect shall do so by serving the contractor with a written notice of acceptance within a reasonable period of time after receipt of the contractor's settlement offer, but no later than 30 days after receipt of the offer. If no response is served upon contractor within the 30-day period, then the offer shall be deemed rejected.

XI. If a homeowner accepts a contractor's offer to repair a construction defect described in a notice of claim, the homeowner shall provide the contractor and its subcontractors, agents, experts, and consultants prompt and reasonable access to the residence to perform and complete the construction by the timetable stated in the settlement offer.

XII. Service of a written notice of claim pursuant to this chapter shall automatically toll the expiration of an applicable limitations period for a period of 60 days. This paragraph shall not be construed to:

(a) Extend any tolling of expiration beyond 60 days;

(b) Revive any statute of limitation that expired prior to service of a notice of claim; or

(c) Extend any applicable statute of repose.

XIII. A homeowner and a contractor may alter, by written mutual agreement, the procedure for the notice of claim process described in this section. The altered process may follow customer dispute resolution guidelines outlined by recognized third party insured warranty programs licensed or approved by the state of New Hampshire.

XIV. In an action relating to a residence involving a construction defect, a contractor shall not be liable for any portion of a homeowner's damages caused by:

(a) Normal shrinkage due to drying or settlement of construction components within the tolerance of normally accepted building industry standards or standards agreed upon in the contract between the homeowner and the contractor.

(b) The contractor's reasonable reliance on written information relating to the residence that was obtained from official government records or provided by a government entity.

(c) The contractor's reasonable reliance on applicable building codes in effect at the start of the construction, except to the extent the homeowner and the contractor had agreed in writing to exceed the construction standards set forth in the applicable building codes.

(d) Any construction defect that was known by or disclosed to a homeowner in writing prior to the homeowner's purchase of the residence, and that was not caused to worsen or otherwise exacerbated by acts or omissions of the contractor.

(e) If the homeowner is not the first owner of the residence, any construction defect known by the homeowner or that could have been discovered by the homeowner through the exercise of reasonable diligence prior the homeowner's purchase of the residence, and that was not caused to worsen or otherwise exacerbated by acts or omissions of the contractor.

(f) Refusal of the homeowner or homeowner's agent to allow the contractor or contractor's agents to perform their warranty service work.

(g) Normal wear, tear, and deterioration of building components.

(h) Comparative negligence or failure to perform normal and reasonable maintenance of the residence on the part of the homeowner.

(i) Alteration of contractor's work by homeowner without contractor's written consent.

359-G:5 Additional Construction Defects; Additional Notice and Opportunity to Repair Required. A construction defect that is discovered after a homeowner has provided a contractor with the initial claim notice and is substantially related to the factual circumstances, acts or omissions giving rise to the construction defects alleged in the initial notice may be alleged in an action involving the claims alleged in the initial notice without following the notice of claim procedure provided in RSA 359-G:4.

359-G:6 Release; Insurance. If a homeowner accepts an offer made in compliance with this act and the contractor fulfills the offer in compliance with this act, the homeowner shall thereafter be barred from bringing an action for the claim.

359-G:7 Contract of Sale.

I. Upon entering into a purchase agreement or contract for the construction or improvement of a residence in which the contract amount exceeds \$5,000, the contractor shall provide written notice to the owner of the residence of the contractor's right to resolve alleged construction defects before a homeowner may commence litigation against the contractor. Such notice shall be conspicuous and may be included as part of the contract.

II. Contracts providing third party insured warranty programs must provide homeowners with warranty documents and claim procedures at or before closing or first occupancy.

III. The notice required by paragraph I shall be in substantially the following form:

NEW HAMPSHIRE LAW, RSA 359-G, CONTAINS IMPORTANT REQUIREMENTS YOU MUST FOLLOW BEFORE YOU MAY FILE A LAWSUIT OR OTHER ACTION FOR DEFECTIVE CONSTRUCTION AGAINST THE CONTRACTOR WHO CONSTRUCTED, REMODELED, OR REPAIRED YOUR HOME. SIXTY DAYS BEFORE YOU FILE YOUR LAWSUIT OR OTHER ACTION, YOU MUST SERVE ON THE CONTRACTOR A WRITTEN NOTICE OF ANY CONSTRUCTION CONDITIONS YOU ALLEGE ARE DEFECTIVE. UNDER THE LAW, A CONTRACTOR HAS THE OPPORTUNITY TO MAKE AN OFFER TO REPAIR AND/OR PAY FOR THE DEFECTS. THERE ARE STRICT DEADLINES AND PROCEDURES UNDER STATE LAW, AND FAILURE TO FOLLOW THEM MAY AFFECT YOUR ABILITY TO FILE A LAWSUIT OR OTHER ACTION.

359-G:8 Miscellaneous; Applicability of Chapter.

I. Nothing in this chapter shall create any cause of action on behalf of any homeowner or contractor.

II. This chapter shall not apply to a contractor's right to seek contribution, indemnity, or recovery against a subcontractor, supplier, or design professional for any claim made against a contractor by a homeowner.

III. Nothing in this chapter shall prohibit a homeowner from taking such actions as necessary to prevent unsafe conditions or further deterioration of a residence.

2 Applicability. This act shall apply to all contracts entered after the effective date.

3 Effective Date. This act shall take effect January 1, 2006.

HB 490, relative to law enforcement access to financial records under the New Hampshire right to privacy act. **OUGHT TO PASS WITH AMENDMENT**

Rep. Fran M. Egbers for Commerce: This bill clarifies law enforcement access to financial records under the New Hampshire Right to Privacy Act. The amendment removes Sections 2 and 3 from the bill. The committee believed the subpoena powers in these sections were reaching too far into the financial privacy of individuals. Vote 20-0.

Amendment (0820h)

Amend the bill by deleting sections 2 and 3 and renumbering the original section 4 to read as 2.

AMENDED ANALYSIS

This bill clarifies law enforcement access to financial records under the New Hampshire right to privacy act.

HB 575, establishing a committee to examine a restructuring of the state health insurance programs. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen B. Stepanek for Commerce: In the public hearing on HB 575 the sponsor wanted to accomplish a number of things. It appeared from the testimony that the sponsor needed to take several additional steps before this study committee would be needed and could be effective. As the old saying goes, this bill would be putting the cart before the horse. Vote 20-0.

HB 577, relative to requirements for debt collection by telephone. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen B. Stepanek for Commerce: Although this bill was well intentioned, there are already a significant number of laws on the book regulating collection companies. Many, if not all, of the complaints we heard concerned activities that violate existing laws. The real issue is about the enforcement of existing laws not the creation of new ones. In addition, this law would have the same enforcement problem current laws have; that is, they only cover those collection companies located within the State of New Hampshire. As we all know most collection companies are located outside of New Hampshire and increasingly outside of the United States. The committee felt this law was unnecessary. Vote 19-0.

HB 583, establishing an oversight committee to study medical malpractice insurance rates in this state. **OUGHT TO PASS WITH AMENDMENT**

Rep. Stephen B. Stepanek for Commerce: The amendment to this bill more clearly defines how the Medical Malpractice Insurance Oversight Committee would be formed and more clearly defines what its charge would be. This amendment addresses a concern about the committee's ability to collect all of the data. Under this amendment the insurance department would collect the data. This amendment is supported by both the sponsor and the insurance department. Everyone is in agreement that we need a legislative committee to study the information and determine what legislation might be needed to correct the situation. Vote 20-0.

Amendment (0808h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Medical Malpractice Insurance Oversight Committee. Amend RSA 519-A by inserting after section 10 the following new subdivision:

Medical Malpractice Insurance Oversight Committee

519-A:11 Medical Malpractice Insurance Oversight Committee.

I. There is established a committee to study medical malpractice insurance rates in this state.

II. The committee shall consist of 4 members of the house of representatives, appointed by the speaker of the house of representatives and 3 members of the senate, appointed by the president of the senate.

III. The members of the committee shall elect a chairperson from among the members. Five members of the committee shall constitute a quorum.

IV. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

V. The committee shall review and analyze detailed information provided by the administrative office of the courts and the insurance department related to medical injury liability claim activity, the condition of the medical malpractice insurance market and current rate levels and pricing of medical malpractice insurance products.

VI.(a) The committee shall analyze the information it receives under paragraph V and from the insurance commissioner and report it annually to the speaker of the house of representatives, the senate president, the house clerk, and the senate clerk.

(b) The committee shall make an interim report of its findings about medical insurance rates and any recommendations for proposed legislation to the speaker of the house of representatives, the senate president, the house clerk, the senate clerk, the governor, and the state library on or before December 1, 2007.

(c) The committee shall make a final report of its findings about medical insurance rates and any recommendations for proposed legislation to the speaker of the house of representatives, the senate president, the house clerk, the senate clerk, the governor, and the state library on or before December 1, 2009.

519-A:12 Reports.

I.(a) The administrative office of the courts shall collect data on medical injury claims and submit a report to the committee established in RSA 519-A:11 and to the insurance commissioner on or before September 30 of each year.

(b) The report shall include the number of medical injury cases filed, pending, and resolved during the fiscal year ending on the June 30 preceding the report date.

(c) The report shall also include, for medical injury cases resolved during the fiscal year:

(1) The mean and median lengths of time from initial filing to final resolution.

(2) The number and average settlement amount of cases that were resolved prior to trial.

(3) The number and average settlement amount of cases that were resolved by or after a jury verdict.

(d) To the extent possible, the report shall include comparative data from the previous 5 years.

II.(a) The insurance commissioner shall report to the committee, established in RSA 519A:11, annually, on or before November 1 of each year, on the medical malpractice market and the current rate levels and pricing of medical malpractice insurance products. Such reports shall include, but not be limited to, average rate comparisons of medical liability insurance for categories of medical providers and specialties identified by the insurance commissioner, the frequency and severity of medical injury claims, the time for resolution of medical injury claims from first notice to final resolution, and other factors influencing the pricing of medical malpractice insurance products.

(b) The insurance commissioner may adopt rules to collect the data from insurers necessary to prepare the report required by this section. To the extent the commissioner collects information from insurers regarding individual claims, loss adjustment and other expenses, reserves, indemnity payments, or other financial information that is not otherwise reported to the commissioner and available to the public, such information shall be treated as examination materials, kept confidential and not be subject to RSA 91-A.

2 First Meeting of Committee. The first meeting of the committee established in section 1 of this act shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section.

3 Effective Date. This act shall take effect 60 days after its passage.

HB 615-FN, relative to insurance coverage for court-ordered counseling services. INEXPEDIENT TO LEGISLATE

Rep. Charles L. Clark for Commerce: This bill would prohibit carriers from denying coverage for mental health services on the basis that there is a court order for counseling or a psychiatric evaluation as part of a divorce or custody proceeding. In order to be covered, these services still must meet medical necessity criteria. The committee notes that in many instances psychiatric evaluations ordered as part of custody proceedings would not meet medical necessity criteria. For example, in order for psychological testing to be considered a medical necessity, it must be intended to move an individual's medical treatment forward in some way, as opposed to only meeting some other need to help a court determine custody issues. Vote 18-2.

HB 631-FN, relative to the time after which certain unclaimed property is presumed abandoned. INEXPEDIENT TO LEGISLATE

Rep. James F. Headd for Commerce: The committee met with a representative of the consumer protection division of the attorney general's office, and with the state treasurer. Both indicated their objections to reducing the holding period of securities to one year, but would not object to a three year holding period which would bring it in line with federal statutes. Otherwise, they saw no benefit to the general public to change existing rules. There is no statute of limitation on claiming unclaimed property so heirs, successors or assignees of the property can claim it at any time. Vote 20-0.

HB 714-FN, adopting the Uniform Partnership Act (1997). INEXPEDIENT TO LEGISLATE

Rep. Tara G. Reardon for Commerce: This bill attempts to update our current version of the Uniform Partnership Act to reflect the most recent version of the model act promulgated by the Commissioners on Uniform Law. Our current statute includes many changes made to the prior

version of the Uniform Law. The updated Uniform Law presented did not include these New Hampshire nuances. The Secretary of State Corporate Division stated the bill as presented required extensive review and revision to adapt it suitably for New Hampshire, and this currently is a low priority for them. The committee expects an improved version of this bill will be filed in an upcoming session. Vote 20-0.

HB 68, relative to the enforcement of disorderly conduct by reason of noise. **OUGHT TO PASS WITH AMENDMENT**

Rep. John E. Tholl for Criminal Justice and Public Safety: This bill as amended by the committee provides for the enforcement of loud or unreasonable noise when observed by a law enforcement officer. Prior to these amendments, a person other than a law enforcement officer had to be the complainant and this resulted in an often unenforceable situation due to the fear that some form of retribution would result. The complainant might not be willing to go forward due to the fear that some action would be taken against him or her. The bill holds responsible the person who has control of the place where the loud, or unreasonable noise originates or the actual person creating the disturbance. Vote 17-1.

Amendment (0065h)

Amend the bill by replacing sections 1 and 2 with the following:

1 Disorderly Conduct; Noise. Amend RSA 644:2, III(a) to read as follows:

(a) Making *or allowing to be made* loud or unreasonable noises in a public place, or making *or allowing to be made* loud or unreasonable noises in a private place which can be heard in a public place or other private places, which noises would disturb a person of average sensibilities; or

2 New Subparagraph; Disorderly Conduct; Noise. Amend RSA 644:2, IV by inserting after subparagraph (b) the following new subparagraph:

(c) When noise under subparagraph II(f) or III(a) is emanating from a residence or its curtilage, or from a vehicle or its sound system, and can be plainly heard from a distance of 50 feet or more, a law enforcement officer shall be considered a person of average sensibilities for purposes of determining whether there is a breach of the peace, public inconvenience, annoyance, or alarm, and the officer may take enforcement action to abate such noise upon detecting the noise, or upon receiving a complaint from another person.

Amend the bill by inserting after section 2 the following and renumbering the original section 3 to read as 5:

3 Disorderly Conduct; Gender Neutral Language Added. Amend the introductory paragraph of RSA 644:2, II to read as follows:

II. He *or she*:

4 New Subparagraph; Disorderly Conduct; Noise; Knowingly Causing. Amend RSA 644:2, II by inserting after subparagraph (e) the following new subparagraph:

(f) Knowingly causes a breach of the peace, public inconvenience, annoyance, or alarm by allowing loud or unreasonable noises to be made in a private place under his or her control, which can be heard in a public place or other private places, which noises would disturb a person of average sensibilities.

AMENDED ANALYSIS

This bill allows a law enforcement officer to take enforcement action to abate loud or unreasonable noises with or without a complaint from another person.

HB 125, requiring ignition interlock devices for certain persons who drive after suspension or revocation. **OUGHT TO PASS WITH AMENDMENT**

Rep. John E. Tholl for Criminal Justice and Public Safety: This bill requires in the case of that any person who has been convicted of the offense of driving after suspension or revocation, resulting from a conviction for DWI, the court shall order the installation of an ignition interlock on the vehicle registered to or primarily used by that person. The court may order such installation as a condition of bail. It further reinforces that a person ordered by the court to install an interlock device shall not drive any other vehicle not so equipped. Vote 16-2.

Amendment (0031h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to ignition interlock devices.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph: Alcohol Ignition Interlock Program; Driving After Revocation or Suspension.

Amend RSA 265:93-a by inserting after paragraph I the following new paragraph:

I-a. Any person who is convicted of driving while under suspension or revocation resulting from a DWI offense shall be required by the court to install an ignition interlock device in any vehicle registered to that person or used by that person on a regular basis, for the remaining period of suspension or revocation plus an additional period not less than 6 months nor more than 2 years. The court may order such installation on a temporary basis prior to conviction as a condition of bail.

2 Alcohol Ignition Interlock Circumvention. Amend RSA 265:93-b, I to read as follows:

I. Any person required by the court to ~~(drive only a motor vehicle equipped with)~~ **install** an ignition interlock device shall not drive any motor vehicle not equipped with this device.

3 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill requires an ignition interlock device on any vehicle registered to or regularly used by a person who drives after a suspension or revocation resulting from a DWI offense. This bill also prohibits persons required to install an ignition interlock device from driving a motor vehicle not equipped with this device.

HB 294, relative to criminal records and evidence. **OUGHT TO PASS WITH AMENDMENT**
Rep. William V. Knowles for Criminal Justice and Public Safety: The current statute requires a person whose arrest has resulted in a finding of not guilty to file a petition for annulment of the arrest record by paying a fee of \$100.00 and waiting for the Department of Corrections to investigate the facts of the case to make a recommendation to the court whether the arrest records should be annulled or not. The majority of the committee felt that a charge resulting in a verdict of not guilty by a jury or judge should be immediately annulled by the court without requiring a petition or payment of a fee. The remainder of the statute RSA 651:5, II has been changed to RSA 651:5, II-a. The wording in this section has not been changed and states that any person whose case was dismissed or not prosecuted may petition for annulment of the arrest record at any time in accordance with the provisions of this section. Vote 10-5.

Amendment (0663h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to annulment of arrest records.

Amend the bill by replacing all after the enacting clause with the following:

1 Annulment of Arrest Records. Amend RSA 651:5, II to read as follows:

II. *The arrest record of a person whose arrest has resulted in a verdict of not guilty by a jury or judge shall be immediately annulled by the court without requiring a petition.*

II-a. Any person whose ~~[arrest has resulted in a finding of not guilty, or whose]~~ case was dismissed or not prosecuted, may petition for annulment of the arrest record at any time in accordance with the provisions of this section.

2 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill requires the court to automatically annul the arrest record upon acquittal of any defendant.

HB 440, relative to hearing ear dogs, guide dogs, and service dogs. **OUGHT TO PASS WITH AMENDMENT**

Rep. George D. Winchell for Criminal Justice and Public Safety: This bill is long overdue and provides that those who interfere, or attempt to interfere, with a service dog, as defined in RSA 167-D: 1, IX, will now be guilty of a misdemeanor. Those who willfully torture, beat, kick, strike, mutilate, injure, disable, or otherwise mistreat a service dog shall be guilty of a class B felony. There was no testimony opposed to this bill. Those who use service dogs, gave testimony of how these dogs are their eyes and ears and in some cases they are helpless without their dogs. The

amendment takes out the provision in the original bill of a defendant having to make full restitution of a service dog, which included the value of the service dog to the service animals user, any and all veterinary expenses and compensation for wages, or earned income lost by the animal user, which the committee felt was not reasonable. Vote 14-0.

Amendment (0645h)

Amend the bill by replacing all after the enacting clause with the following:

I New Paragraph; Prohibited Acts. Amend RSA 167-D:7 by inserting after paragraph II the following new paragraph:

III. It is unlawful for any person to willfully interfere or attempt to interfere with a service dog, as defined in RSA 167-D:1, IX.

2 Penalty. Amend RSA 167-D:9 to read as follows:

167-D:9 Penalty.

I. Any person violating any provision of this chapter shall be guilty of a misdemeanor.

II. Any person who willfully tortures, beats, kicks, strikes, mutilates, injures, disables, or otherwise mistreats a service dog, or who willfully causes the death of a service dog shall be guilty of a class B felony.

3 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill clarifies the penalty for interference with a service dog and for mistreating such dogs.

HB 468, relative to provisions for permissible contact between the agent of the defendant subject to a protective order and a plaintiff. **OUGHT TO PASS WITH AMENDMENT**

Rep. William V. Knowles for Criminal Justice and Public Safety: This legislation is proposed to clarify legislative intent after a Supreme Court decision *State v. Kidder* outlining guidelines which must be adhered to by attorneys, or any person on an attorney's behalf, who is representing the defendant in an action brought under the domestic violence statute RSA 173-B, or the stalking statute RSA 633:3-a, where a protective order is in force, and contact by such authorized individual with the plaintiff for a legitimate purpose is desired. Any person who knowingly fails to comply with the requirements of this section when making contact with the plaintiff shall be guilty of a violation of a protective order. Vote 16-0.

Amendment (0583h)

Amend RSA 173-B:5-a as inserted by section 1 of the bill by replacing it with the following:

173-B:5-a Permissible Contact.

I. A protective order issued pursuant to RSA 173-B:4 or RSA 173B:5 shall not be construed to prohibit an attorney, or any person acting on the attorney's behalf, who is representing the defendant in an action brought under this chapter, or in any criminal proceeding concerning the abuse alleged under this chapter, from contacting the plaintiff for a legitimate purpose within the scope of the civil or criminal proceeding; provided, that the attorney or person acting on behalf of the attorney: identifies himself or herself as a representative of the defendant; acknowledges the existence of the protective order and informs the plaintiff that he or she has no obligation to speak; terminates contact with the plaintiff if the plaintiff expresses an unwillingness to talk; ensures that any personal contact with the plaintiff occurs outside of the defendant's presence, unless the court has modified the protective order to permit such contact; and, if an attorney, acts in accordance with the Rules of Professional Conduct.

II. Any person who knowingly fails to comply with the requirements of this section when making contact with the plaintiff shall be guilty of a violation of a protective order under RSA 173-B:9.

Amend RSA 633:3-a, III-c, as inserted by section 1 of the bill by replacing it with the following:

III-c.(a) A protective order issued pursuant to this section, RSA 173-B:4, or RSA 173-B:5 shall not be construed to prohibit an attorney, or any person acting on the attorney's behalf, who is representing the defendant in an action brought under this chapter, or in any criminal proceeding concerning the abuse alleged under this chapter, from contacting the plaintiff for a legitimate purpose within the scope of the civil or criminal proceeding; provided, that the attorney or person acting on behalf of the attorney: identifies himself or herself as a representative of the defendant; acknowledges the existence of the protective order and informs the plaintiff that he or she has no obligation to speak; terminates contact with the plaintiff if the plaintiff expresses an unwilling-

ness to talk; ensures that any personal contact with the plaintiff occurs outside of the defendant's presence, unless the court has modified the protective order to permit such contact; and, if an attorney, acts in accordance with the Rules of Professional Conduct.

(b) Any person who knowingly fails to comply with the requirements of this paragraph when making contact with the plaintiff shall be guilty of a violation of a protective order under RSA 173-B:9.

AMENDED ANALYSIS

This bill sets forth conditions under which permissible contact may occur between the agent of a defendant subject to a protective order and the plaintiff.

HB 486, establishing a committee to study firearms confiscation practices in domestic violence matters. **INEXPEDIENT TO LEGISLATE**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill would establish a committee to study firearms confiscation practices in domestic violence matters. The current law is the end result of two years of work where these issues were studied in depth. There was strong testimony from several groups that had participated in the earlier studies that the concerns expressed by the sponsor had been addressed already and that this bill is unnecessary. Vote 15-1.

HB 527, relative to protective orders and possession of firearms. **INEXPEDIENT TO LEGISLATE**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill makes several major changes to the domestic violence statute as it currently exists. These changes would seriously dilute the protection provided in RSA 173-B in particular as it pertains to the confiscation of the defendant's firearms. The law as written provides a showing of immediate and present danger of abuse. The proposed bill would allow confiscation only after a hearing and a finding by clear and convincing evidence that failure to relinquish the weapons places the plaintiff in immediate physical danger. The purpose of a temporary order is to protect the plaintiff from further abuse. Removing weapons as part of a temporary order is both reasonable and prudent. The defendant has opportunity at the final hearing to put forth arguments as to why his or her weapons should be returned. Vote 16-0.

HB 531, relative to application for a writ of habeas corpus. **INEXPEDIENT TO LEGISLATE**

Rep. Gene P. Charron for Criminal Justice and Public Safety: This bill wishes to further provide definition as to who may apply for a writ of habeas corpus by using the term "human being" as opposed to "person" in RSA 534:3. Testimony from the Attorney General's office indicated that the bill is unnecessary. The committee felt that since Black's Law Dictionary defines person as a "Human Being" and the possibility that allowing anyone to file writs on behalf of a person could result in a flood of Habeas Corpus writs being filed unnecessarily, that the current statute should not be changed. Vote 15-0.

HB 533-FN, relative to penalties for aggravated felonious sexual assault. **OUGHT TO PASS**

Rep. William V. Knowles for Criminal Justice and Public Safety: This legislation was proposed by the Department of Justice. In 1992 the penalties for aggravated felonious sexual assault (AFSA) were revised. The legislature was troubled by the high incidence of repeat offenders, noting that on average, convicted rapists have committed seven other rapes for which they were not arrested or prosecuted. In RSA 632-A: 10-a, III we provided that if the court finds that a defendant has previously been convicted of two or more offenses under RSA 632-A: 2, the defendant shall be sentenced to life imprisonment and shall not be eligible for parole at any time. We defined "previously convicted" as any conviction obtained by trial on the merits, or negotiated plea with the assistance of counsel and evidencing a knowing and voluntary waiver of the defendant's rights, provided, however, that previous imprisonment is not required. The case of State of New Hampshire v. Melvin was heard in the Supreme Court. In 1986, Mr. Melvin pled guilty to two counts of aggravated felonious sexual assault. He was sentenced to four to twelve years for one charge and received a suspended sentence of seven and one-half to fifteen years on the other charge. The offenses occurred on February 13 and April 4 of 1985 charging he sexually penetrated the same eight year old victim. In 2001 he pled guilty to fifteen counts of A.F.S.A. and one count for felony exposure. Based upon the two convictions in 1986, the Superior Court sentenced him to life imprisonment without parole. The 2001 charges involved three different victims between September 1999 and August 2000. The sentence was upheld. The court ruled that when two offenses occurring at

different times are consolidated, upon conviction of both, one of the convictions may be used as the prior conviction for the other. A hypothetical question was posed to the court asking the consequences if a defendant assaulted three different victims six separate times in one episode. The court pointed out that if this defendant were convicted of a "single criminal episode," such conviction would only constitute a single conviction for sentencing purposes. This bill should clarify legislative intent. It reads as follows: If the court finds that a defendant has been previously convicted of 2 or more offenses under RSA 632-A:2 or any other statute prohibiting the same conduct in another state, territory or possession of the United States, and at last 2 offenses of which were committed against different victims, neither of whom was the victim of the offense for which the defendant is being sentenced, the defendant shall be sentenced to life imprisonment and shall not be eligible for parole at any time. If the court finds that a defendant has been previously convicted of 2 or more offenses under RSA 632-A: 2 or any other statute prohibiting the same conduct in another state, territory, or possession of the United States, and the prior convictions do not satisfy the requirements of this paragraph, the court may impose a sentence of up to life without parole, but shall impose a minimum sentence of not less than 25 years. Vote 16-0.

HB 558, relative to the circumstances constituting sexual assault. OUGHT TO PASS WITH AMENDMENT

Rep. William V. Knowles for Criminal Justice and Public Safety: The current statute, RSA 632-A: 4 on sexual assault, has a loophole that this bill attempts to solve. The statute applies to cases of sexual contact. Current law does not allow prosecution of a case of a victim who is 13 years of age and under 16 years of age, unless by force or coercion. The age of consent is 16. There have been numerous cases we have been told, that if the juvenile permits someone to touch his or her genitalia, no chargeable crime has been committed. The majority of the committee feels that this should be corrected. This bill accomplishes that end. There is a provision in the bill pertaining to sexual contact between the actor and the person who is age 13 or older and under 16 years of age, and the age difference between the actor and the other person is 3 years or less. If charges are brought forth, it shall be a class B misdemeanor which provides for no jail time. Without this provision, it would be a class A misdemeanor which could require jail time. If there was no penalty at all for this age group, it might lead to abuse of the statute. Vote 14-2.

Amendment (0584h)

Amend RSA 632-A:4, II as inserted by section 1 of the bill by replacing it with the following:

II. A person found guilty under subparagraph ~~I(b)~~ *I(c) or paragraph I-a* of this section shall not be required to register as a sexual offender under RSA 651-B.

Amend the bill by inserting after section 1 the following and renumbering the original sections 2-3 to read as 3-4, respectively:

2 New Paragraph; Sexual Assault; Class B Misdemeanor Offense. Amend RSA 632-A:4 by inserting after paragraph I the following new paragraph:

I-a. When the actor subjects another person, other than the actor's legal spouse who is 13 years of age or older and under 16 years of age, to sexual contact and the age difference between the actor and the other person is 3 years or less, the actor shall be guilty of a class B misdemeanor.

HB 643-FN, establishing an integrated criminal justice information system. OUGHT TO PASS WITH AMENDMENT

Rep. Karl I. Gilbert for Criminal Justice and Public Safety: This bill creates the "one network environment for justice," an integrated criminal justice information system known as J-One, for the following purposes: To promote the efficiency of state government by reducing the cost of collecting, retrieving, and disseminating criminal justice information by criminal justice agencies; improving public safety and domestic security by allowing criminal justice agencies to record, share and retrieve criminal justice information in a timely fashion and providing criminal justice agencies, legislators and the public with statistical information about the criminal justice system for analysis and development of public policy initiatives. The bill further promotes the administration of justice for all citizens by increasing efficiency in the collection and maintenance of criminal justice information and by improving the accuracy, timeliness and transmission of information among criminal justice agencies. The bill will enhance the public's understanding of the criminal justice system and the development of sound public policy in the area of criminal justice by making available comprehensive statistical information on the arrest, prosecution and disposition of

individuals charged with crimes in the state of New Hampshire. The bill specifically strives to protect personal privacy by restricting access to the database. The amendment requires that on a monthly basis any name in the master index that has had no activity for five years be expunged from the database further protecting personal privacy. Vote 14-0.

Amendment (0520h)

Amend RSA 106-J:3, VI(e) as inserted by section 2 of the bill by replacing it with the following:

(e) J-One shall, on a monthly basis, expunge from the master name index any name that has had no activity for 5 years. For purposes of this subparagraph, "activity" means any submission of additional information or query on the name with a new agency case number.

Referred to the Committee on Finance.

HB 667-FN, relative to reckless conduct. INEXPEDIENT TO LEGISLATE

Rep. James H. Oliver for Criminal Justice and Public Safety: This bill is intended to expand Reckless Conduct with use of a vehicle as a deadly weapon in DWI, pursuit, or as a weapon. Though well intended to enhance penalties to help law enforcement, the committee feels RSA 631:3 and RSA 625:11 are adequate to meet this need. Vote 15-0.

HB 706-FN, relative to the cost of storage of firearms which are voluntarily surrendered to local law enforcement agencies. INEXPEDIENT TO LEGISLATE

Rep. Jordan G. Ulery for Criminal Justice and Public Safety: The committee reviewed existing procedures and found that current practice was what the bill attempted to do. Local police have the ability to sell confiscated weapons in their possession, or turn them over to the New Hampshire State Police. If voluntarily surrendered to the State Police, the local agency does not participate in the proceeds. The local police have the option of undertaking the sale themselves. This bill does not appear to be necessary. Vote 14-0.

SB 76, relative to the extension of restraining orders under the domestic violence protection act. OUGHT TO PASS WITH AMENDMENT

Rep. Lee M. Hammond for Criminal Justice and Public Safety: Persons suffering from domestic violence currently have to return to court annually to petition renewal of court orders protecting them from continued stalking. They are forced to face their persecutors at that time which is both emotionally devastating and financially draining for the victim and psychologically stimulating to the perpetrator, frequently resulting in an increase of the harassment. This bill would give a judge the discretion to renew the no contact order for a period of up to five years without a face-to-face court appearance having to occur every year. Vote 16-0.

Amendment (0635h)

Amend the bill by replacing section 3 with the following:

3 Effective Date. This act shall take effect upon its passage.

HB 248, authorizing semi-annual payments of school building aid. OUGHT TO PASS

Rep. Mark S. Carter for Education: This bill comes at the request of the Department of Education. The current method of distribution of school building aid is not working well. HB 248 returns distribution regulation to prior law and is more flexible and more accurate. The education committee unanimously agreed. Vote 20-0.

HB 301-L, relative to parent advisory councils for pupils with educational disabilities. OUGHT TO PASS WITH AMENDMENT

Rep. Debra A. Naro for Education: The amended version of HB 301 allows school districts to establish parent advisory councils to advise school boards on matters pertaining to the education of students with disabilities. The committee heard compelling testimony that an active and effective special education advisory council can be a true asset to a school district by providing meaningful parent involvement and input on special education issues. The Parent Advisory Council also provides a mechanism for parent education that can make a positive difference in student achievement outcomes. One study, conducted over a seven year period, found a strong correlation between improved reading achievement and the presence of an active and strong local school council. This is especially significant as the 2004 NHEIAP assessments identified several New Hampshire schools as "in need of improvement," based on the test scores of students with disabilities. While

the confidentiality of children and their families is protected by the provisions of FERP, the practices and policies of the school district need transparency to ensure efficiencies and the delivery of a Free and Appropriate Public Education, as required by federal law. The Education Committee believes encouraging districts to establish parent advisory councils will promote dialogue and collaboration among stakeholders, and much needed accountability by the system. The committee voted OTP/A. Vote 20-1.

Amendment (0810h)

Amend the bill by replacing section 1 with the following:

I New Subdivision; Parent Advisory Councils. Amend RSA 186-C by inserting after section 28 the following new subdivision:

Parent Advisory Councils

186-C:29 Parent Advisory Councils.

I. Every school board may establish a parent advisory council to advise the school board on matters pertaining to the education and safety of educationally disabled children.

II. The membership in the council shall be open to any parent or legal guardian of an educationally disabled child, as defined in RSA 186-C:2, I, and any other interested party appointed by the school board.

III. The council shall have no fewer than 5 members, and the school board may establish a maximum number of members on the council, provided that parents or legal guardians of educationally disabled children constitute a majority of the council's membership.

IV. A parent advisory council:

(a) Shall advise the school district on matters pertaining to the education and safety of educationally disabled children.

(b) Shall meet with school district officials provide input in the planning, development, and evaluation of the school district's education programs and services and recommend improvements or adjustments to such programs and services as deemed necessary.

(c) Shall establish bylaws for the conduct of internal operation and procedure.

(d) May report, in writing, non-binding recommendations for legislation and rules, to the school board, the school administrative unit, the department of education, and the state advisory council under RSA 186-C:3-b.

V. A school district shall:

(a) Work with its schools to ensure that all school-level parental involvement policies meet the requirements of the Elementary and Secondary Education Act of 1965 (ESEA), as reauthorized by the No Child Left Behind Act of 2001, and that each school includes, as a component, a school-parent compact consistent with the ESEA.

(b) Cooperate with the parent advisory council, which may conduct at least one workshop per year concerning the educational rights of educationally disabled children and their parents or legal guardians under federal and state education laws.

(c) Provide a parent with notification of the existence of the parent advisory council when the child is referred to special education.

VI. The school district shall provide meeting space and may provide administrative support to its parent advisory council.

AMENDED ANALYSIS

This bill requires a school district to establish a parent advisory council to advise the school district on matters pertaining to the education and safety of educationally disabled children.

HB 341, establishing a committee to study the curriculum content of an adequate education. IN-EXPEDIENT TO LEGISLATE

Rep. Clifford A. Newton for Education: This bill has many ambiguities and seeming inconsistencies, such as being composed of only six members, but has three subcommittees of three to five members. There is a statutory commission on adequate education that can study curriculum content and the committee has retained a bill to define an adequate education. Therefore, this bill, as written, is not necessary and the committee recommends inexpedient to legislate. Vote 18-0.

HB 389, relative to the duties of the postsecondary education commission. OUGHT TO PASS
Rep. Stephen R. L'Heureux for Education: This bill requires the postsecondary education commission to distribute financial aid to certain individuals based on residency in New Hampshire.

Testimony revealed that during a Joint Legislative Committee on Administrative Rules hearing, it was unclear if the commission could determine residency. This bill allows the commission to adopt rules regarding residency and defines residency in New Hampshire as the previous 12 months prior to the distribution of financial aid. Vote 15-0.

HB 390, relative to the review and approval of individualized education plans. **INEXPEDIENT TO LEGISLATE**

Rep. Debra A. Naro for Education: This bill requires that an Individual Education Plan be reviewed by a school board or a sub-committee of a school board and shall be approved by a school board. This bill was motivated by a desire to involve local policymakers in individual special education decisions and in controlling costs. However, the requirements of this bill spotlighting individual students are in direct violation of state and federal special education laws. The review of Individual Education Plans (IEPs) and decision-making authority about a student's program and education placement are the exclusive responsibility of the IEP team (34 CFR 300.16 and 34 CFR 300.344) which includes a regular educator, special educator, administrator, and the child's parents or guardian. Others with pertinent knowledge or special expertise about the child may be invited by the parents or the Local Education Agency (LEA), however, the process does not extend beyond the team. The confidentiality of children and their families is also protected by the provisions of FERPA. Furthermore, it is imperative that school board members remain neutral in the event of an appeal on disciplinary hearings. The involvement required by HB 390 in individual cases would prevent the necessary impartiality. Vote 17-0.

HB 395, relative to the adoption of a long-term contract by a school district. **INEXPEDIENT TO LEGISLATE**

Rep. Timothy E. Easson for Education: The prime sponsor gave a letter to the chair requesting that the bill and HB 396 be tabled or found inexpedient to legislate because the actions of the voters in Bedford made this piece of legislation unnecessary. Vote 17-0.

HB 396, relative to tuition contracts between schools. **INEXPEDIENT TO LEGISLATE**

Rep. Timothy E. Easson for Education: The prime sponsor gave a letter to the chair requesting that this bill and HB 395 be tabled or found expedient to legislate because the actions of the voters in Bedford made this piece of legislation unnecessary. Vote 16-0.

HB 435, establishing a separate high school civics graduation requirement. **OUGHT TO PASS**

Rep. Timothy E. Easson for Education: The sponsors of the bill highlighted the lagging level of civics education in our schools. The committee believes that there needs to be a greater emphasis on civics education in the classroom. The committee also agrees with the prime sponsor when he said, "This country was founded on the classic liberal beliefs that those who would eventually lead the country must understand it and its workings ... we must make sure that we leave the trusteeship of government in capable, understanding and willing hands. The best way to ensure that is to make sure that they know the basic tenets, liberties, freedoms, and workings of our government, constitutions, and way of life." Although the committee heard testimony that these enhanced standards were likely to be included in the new proposed minimum standards by the state board of education, the committee believes that the high importance of civics education is worthy of being in statute. Vote 18-0.

HB 441, relative to the publication of honor rolls and academic awards. **INEXPEDIENT TO LEGISLATE**

Rep. Paul C. Ingbretonson for Education: This bill is unnecessary because the Federal FERPA laws already cover all aspects of this issue. Vote 13-0.

HB 442, establishing a committee to study the feasibility and need for a vocational technical education program at Mascoma Valley regional high school. **INEXPEDIENT TO LEGISLATE**

Rep. Michael A. Balboni for Education: The committee believes that the goal of this bill can be accomplished locally without a legislative study committee. In addition, there is an existing statutory committee that can assist the community in determining the feasibility and need for a vocational technical education program at Mascoma Valley Regional High School. Vote 15-1.

HB 557, relative to the submission of data to the department of education. **OUGHT TO PASS**

Rep. J. Timothy Dunn for Education: This bill aligns and clarifies the language in current statutes to prevent confusion by bodies submitting reports to the departments, (section 189:28). It does the same for section 198:44-45. Language was added to cover maintenance and charter schools. Additionally, this repeals rules for department of education to define adequacy. Vote 17-0.

HR 12, proclaiming the first week of each school year as "Dictionary Week." **OUGHT TO PASS**
Rep. Timothy E. Easson for Education: This resolution seeks to encourage greater use of dictionaries in schools. The committee heard testimony that verbal and written skills have lagged among students at all levels and that knowledge of the correct definitions of words is essential to success in society. The committee believes that use of dictionaries and phonics enhances vocabularies and students who use dictionaries are more self-confident and empowered to take active roles in their education. Vote 10-5.

HB 366, relative to maintenance of voter checklists. **OUGHT TO PASS WITH AMENDMENT**
Rep. William L. O'Brien for Election Law: Under the Help America Vote Act (HAVA), each state will be required to implement a statewide database of voters and to update it at least three times a year. For the reason that the secretary of state will then be able to sell the checklist, this enabling legislation is needed to set the terms and fees associated with that service. The bill, as amended, limits the secretary of state to providing electronic copies of the list to political committees of political parties and registered or nominated candidates in order to address privacy concerns. In addition, the secretary of state would not be allowed to sell less than a list of the full state in order to avoid loss of revenue to the towns and cities. Finally, the fee has been set in the bill at \$25 for lists up to 2500 names and one-twentieth of a cent for each name after 2500, which is an amount that the committee determined would cover costs but not result in a surplus. Vote 11-4.

Amendment (0871h)

Amend the bill by replacing section 1 with the following:

1 Reports of Transfer. Amend RSA 654:36 to read as follows:

654:36 Reports of Transfer. If the supervisors of the checklist have received a notice of transfer from another board of supervisors of the checklist in the state of New Hampshire that a voter whose name is on the checklist has been added to the checklist of some other town or city, they shall strike that name from the checklist at the next session for the correction of the checklist. ~~[They shall retain the notice as proof of their reasoning in striking the name from the checklist.]~~ *If the secretary of state receives notice from the election officials of any other state that a voter whose name is on the checklist of any town or ward in New Hampshire has been added to the checklist of any voting jurisdiction in any other state, the secretary of state shall cause that voter's name to be removed from the checklist of the town or ward where the voter had been registered as maintained in the centralized voter registration database established pursuant to RSA 654:45.*

Amend the bill by inserting after section 3 the following and renumbering the original section 4 to read as 9:

4 Availability of Checklist. Amend RSA 654:31 to read as follows:

654:31 Availability of Checklist.

I. The checklist as corrected by the supervisors shall be open for the examination of any person at all times before the opening of a meeting or election at which the list is to be used. The secretary of state or the supervisors of the checklist shall furnish one or more copies of the most recent checklist to any person requesting such copies. [If the supervisors maintain or have access to the checklist or information from which the checklist was derived in more than one form, the person requesting copies shall be furnished copies in any of those forms according to his preference. The supervisors may charge a reasonable fee for copies that is based on the actual costs incurred when reproducing an existing checklist, except that in no event shall the fee for paper copies of any single town or ward checklist be less than \$5 nor more than \$25 per checklist. The fee charged for checklists on computer disk or tape, or in any form other than paper, shall be based solely on the additional costs incurred to provide such checklist to the individual requesting it. The fee shall be for the use of the town or city.] Only the supervisors of the checklist may provide checklists of less than the entire state. The supervisors of the checklist may charge a fee of up to \$25 for each copy of the checklist for a town or ward. For checklists containing more than 2,500 names, the secretary of state or the supervisors of the checklist may charge a fee of up to \$25, plus \$0.0005 per name for each name in excess of 2,500, plus any shipping costs.

II. The secretary of state may provide checklist information on computer disk, computer tape, electronic transfer, or any form other than paper only to a political committee of a political party as defined in RSA 664:2, V, or a candidate who has filed for consideration for any office in any primary or general election or who has been nominated for any office in a general election. The fee charged for checklists provided by the secretary of state or supervisors of the checklist in any form other than paper shall be based solely on the additional costs incurred to provide such checklists.

III. Fees collected by the secretary of state under this section shall be deposited in the election fund established pursuant to RSA 5:6-d. Fees collected by a town or city under this section shall be for the use of the town or city.

5 Right to Know Exemption. Amend RSA 654:31-a to read as follows:

654:31-a Right to Know Exemption. The ~~[information contained on the]~~ checklist **information** of a town or city, specifically, the name, street address, **mailing address**, town or city, **voter identification number**, **voter history**, and party affiliation, if any, of registered voters, except as otherwise provided by statute, is public information subject to RSA 91-A, **if such information is available in the statewide centralized voter registration database. Any person may obtain a copy of any affidavit used by an applicant for registration as a voter; provided; that the applicant's place of birth is redacted.** All other information on the voter registration form, absentee registration affidavit, and application for absentee ballot shall be treated as confidential information and the records containing this information shall be exempt from the public disclosure provisions of RSA 91-A, except as provided by statutes other than RSA 91-A. Election officials and law enforcement personnel in furtherance of their official duties may access and may disclose information from the voter registration form, absentee registration affidavits, and applications for absentee ballots, if necessary to resolve a challenge to an individual registering to vote or voting, or if necessary to investigate or prosecute election law violations or any crime. Law enforcement access and use of such records for the investigation or prosecution of crimes unrelated to election law violations shall be limited to the records of the specific individuals who are the subject of the investigation or prosecution. **In this section, "voter history" means the elections at which the voter voted.**

6 Verification Every 4 Years. Amend RSA 654:39 to read as follows:

654:39 Verification Every 10 Years.

I. In addition to any verification carried out under the provisions of RSA 654:38, the supervisors shall verify the checklist in [1981] **2007, 2009**, and once every [~~+0~~] **4** years thereafter.

II. Between April 1 and August 1 of [~~+98+~~] **2007 and 2009** and thereafter in each year ending [~~with a one~~] **after a presidential election**, the supervisors shall advertise and post notice of their sessions at least twice in a newspaper of general circulation and at the office of the town or city clerk or at the town hall and hold sufficient sessions for verification of the checklist as in their opinion will enable all eligible voters in said town or ward to appear before them and register or reregister as the case may be. Whenever a person is reregistered, his **or her** party designation, if any, on the checklist undergoing revision shall not be changed except as provided in RSA 654:34.

III. Beginning June 1 of such year, the supervisors shall review the checklist and shall strike therefrom the names of all persons who have not registered or reregistered under paragraphs I and IV; provided, that there shall not be stricken from said checklist the name of any person duly qualified to vote unless such person, not less than 30 days prior to such action, shall have been sent notice by the supervisors at his **or her** last known address of his **or her** failure to reregister stating the procedure to be followed in order to reregister and have his **or her** name retained on said checklist nor unless such person shall have been given a reasonable opportunity to follow said procedure.

IV. For the purpose of this section, a person shall be deemed reregistered and need not appear before the supervisors if[-

(a)] the person voted in [~~either of the 2 previous state general elections immediately preceding a 10-year verification; or~~

(b) ~~The person voted in the annual town election in the year of a 10-year verification or, if in a city, the most recent regular city election held prior to the verification]~~ **the town or ward where he or she is registered at any election held within the previous 4 years.**

V. Upon completion of verification of the checklist, but in no event later than [~~September~~] **December 1**, the supervisors shall file with the secretary of state the following certificate: We, the supervisors of the checklist (or registrars of voters) of the town (or ward _____) of _____, do hereby certify that we have verified the checklist of registered voters in the town (or ward _____ of the city) of _____, pursuant to the provisions of RSA 654:39.

VI. In verifying the checklist in accordance with this section, the provisions of RSA 654:38, IV and V shall apply.

7 Centralized Voter Registration Database; Voter Identification Numbers. Amend RSA 654:45, I to read as follows:

I. The secretary of state is authorized to plan, develop, equip, establish, site, and maintain a statewide centralized voter registration database and communications system, hereinafter referred

to as the voter database, connecting users throughout the state. The voter database shall include the information on the voter registration form and the voter checklists maintained by each city, ward, and town in the state. *The secretary of state is authorized to assign unique voter identification numbers to registered voters in the voter database.*

8 Sending Absentee Ballots. Amend RSA 657:15 to read as follows:

657:15 Sending Absentee Ballots. When the verification required by RSA 657:12 or 657:13 has been made, the clerk shall retain the application and, without delay, personally deliver or mail to the applicant the appropriate ballot and materials as described in RSA 657:7 through 657:9 or designate an assistant to deliver such materials to the applicant. The clerk may not designate as an assistant any person who is a candidate for nomination or office or who is working for such a candidate. Any ballots sent pursuant to the provisions of this section shall be mailed or delivered only by officials from the city or town clerk's office and delivered only to the applicant. If the address to which the absent voter's ballot is sent is outside the United States or Canada, such papers shall be sent by air mail. Said clerks shall keep lists of the names and addresses, arranged by voting places, of all applicants to whom official absent voting ballots have been sent, and shall identify those official absent voting ballots which have been returned to the clerk. Candidates whose names appear on the ballot and persons bearing notarized requests or copies of notarized requests from candidates whose names appear on the ballot may obtain copies of such lists; the lists shall not be available for public inspection at any time without a court order. *The clerk shall charge a fee for copies of such lists of \$3 plus \$1 for every 50 names or portion thereof, plus any shipping costs.*

AMENDED ANALYSIS

This bill:

- I. Establishes requirements for the secretary of state to cause the removal of certain names from voter checklists.
- II. Modifies fees and procedures for obtaining copies of voter checklist information.
- III. Changes the 10-year checklist verification to a 4-year checklist verification.
- IV. Authorizes the secretary of state to assign voter identification numbers.
- V. Establishes fees for absentee voter lists.

HB 381-FN, relative to special elections, voter lists, and conduct of elections. OUGHT TO PASS WITH AMENDMENT

Rep. Richard B. Drisko for Election Law: This bill clarifies four functions of the secretary of state's office. First, it permits the secretary of state to make the state data base available to assist in the preparation of master jury lists pursuant to RSA 500-A and also to the U.S. District Court of New Hampshire to assist in the preparation of federal court jury lists. Further the bill addresses special elections and the desire to have them coincide with regular elections rather than standing alone at additional cost. The bill recommends timing for governor and council declaration of special election dates. The remaining two issues spoke to forbidding electioneering at polling places by election officers and electioneering by public employees. It contains a clear definition of "public employee." Vote 13-1.

Amendment (0733h)

Amend the bill by replacing section 2 with the following:

2 Centralized Voter Registration Database; Jury Lists. Amend RSA 654:45, VI to read as follows:

VI. The voter database shall be private and confidential and shall not be subject to RSA 91-A and RSA 654:31. *The secretary of state is authorized to provide voter database record data to the administrative office of the courts to assist in the preparation of master jury lists pursuant to RSA 500-A and to the clerk of the District Court of the United States for the District of New Hampshire to assist in the preparation of federal court jury lists.* The voter checklist for a town or city shall be available pursuant to RSA 654:31. Any person who discloses information from the voter database in any manner not authorized by this section shall be guilty of a misdemeanor.

AMENDED ANALYSIS

This bill:

- I. Permits the secretary of state to make voter database record data available to assist in the preparation of jury lists.
- II. Permits certain special elections to coincide with regularly-scheduled elections.
- III. Modifies state electioneering prohibitions.
- IV. Makes technical changes to certain election laws.

HB 712-FN, relative to electioneering. INEXPEDIENT TO LEGISLATE

Rep. Richard B. Drisko for Election Law: This bill would broaden the applicability of the statute prohibiting certain electioneering by public employees. A new definition of public employee is contained in this bill. The unanimous opinion of the committee is that HB 381 covered the same ground in more detail with the necessary definitions. Vote 14-0.

HB 293, establishing a commission to study the development of a materials resource and recovery facility in Sullivan County. OUGHT TO PASS WITH AMENDMENT

Rep. Burton W. Williams for Environment and Agriculture: A state commission to study the development of a materials resource and recovery facility in Sullivan County has become necessary. Most municipalities in Sullivan County are currently involved in a cooperative incineration facility for which the contract is due to expire in 2007. A state commission would provide more credibility in helping them solve their problems. Vote 13-0.

Amendment (0807h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study the feasibility of developing a materials resource and recovery facility in Sullivan county.

Amend the bill by replacing section 1 with the following:

1 Commission Established. There is established a commission to study the feasibility of developing a materials resource and recovery facility in Sullivan county.

Amend the bill by replacing section 3 with the following:

3 Duties. The commission shall:

I. Determine the feasibility of developing a materials resource and recovery facility in Sullivan county.

II. If feasible, determine a site for the facility. Candidate sites shall include but not be limited to, brownfield sites within Sullivan county as well as the current Wheelabrator site in Claremont.

III. Study and identify disposal options.

IV. Explore all funding options for the construction and operation of a county-wide facility and the feasibility of a county-wide landfill.

Amend the bill by replacing section 5 with the following:

5 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, the state library, and the municipalities located in Sullivan county on or before September 1, 2006.

AMENDED ANALYSIS

This bill establishes a commission to study the feasibility of developing a materials resource and recovery facility in Sullivan county.

HB 479, relative to tax bills for land use change taxes. INEXPEDIENT TO LEGISLATE

Rep. Jane E. Beaulieu for Environment and Agriculture: The committee felt that 60 days was not sufficient time to assess, record and mail current use change of use tax bills. Vote 13-0.

HB 560, relative to timber harvesting. OUGHT TO PASS WITH AMENDMENT

Rep. James F. Powers for Environment and Agriculture: This bill improves compliance with environmental rules by including procedures in the best management practices involving erosion control. It also allows the division of forest and lands to write cease and desist orders against a timber operation in violation of such procedures, where previously a warden had to work through the Department of Environmental Services. Vote 13-0.

Amendment (0786h)

Amend the bill by replacing all after the enacting clause with the following:

1 Timber Harvesting; Terrain Alteration Permits. Amend RSA 485-A:17, III to read as follows:

III. Normal agricultural operations shall be exempt from the provisions of this section. The department may exempt other state agencies from the permit and fee provisions of this section provided that each such agency has incorporated appropriate protective practices in its projects which are substantially equivalent to the requirements established by the department under this chapter.

IV. Timber harvesting operations shall be exempt from the fee provisions of this section. ~~[Permits shall be granted for timber harvesting operations provided that the department of revenue administration's intent to cut form is completed.] Timber harvesting operations shall be considered in compliance with this section and shall be issued a permit by rule provided such operations are in accordance with procedures prescribed in the Best Management Practices for Erosion Control on Timber Harvesting operations in New Hampshire, published by the department of resources and economic development, and provided that the department of revenue administration's intent to cut form is signed.~~

2 Prosecution Authority. RSA 485-A:22-a is repealed and reenacted to read as follows:

485-A:22-a Cease and Desist Orders; Penalty. The director of the division of forests and lands, department of resources and economic development, or his *or her* authorized agents, may:

I. Issue a written cease and desist order against any timber operation in violation of this chapter. Any such violation may be enjoined by the superior court, upon application of the attorney general. A person failing to comply with the cease and desist order shall be guilty of a violation.

II. Prosecute any violation of this chapter as a violation. This provision shall not limit the state's enforcement authority under this chapter.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill exempts certain timber harvesting operations from certain environmental laws.

This bill also grants the director of the division of forest and lands the ability prosecute certain violations of law.

HB 562, relative to eliminating certain mercury-added products. **OUGHT TO PASS**

Rep. Suzanne S. Butcher for Environment and Agriculture: This bill is a continuation of the state's mercury reduction policy. It creates a two-step program which will phase out sale or distribution of products containing more than 1,000 mg of mercury in 2007 and more than 100 mg in 2009. Pharmaceuticals, biological products, and certain specialty lamps are exempted. Button cell batteries and fluorescent tubes contain less than 100 mg of mercury and therefore would not be subject to the ban. Many products such as thermometers, pressure measuring devices, switches, relays, and thermostats already have economical, functional equivalents on the market. There is an exemption for devices for which there is not a suitable, economical alternative. In conjunction with HB 371, this is a further step toward eliminating man-made mercury releases as called for by New Hampshire's Mercury Reduction Strategy and the Regional Mercury Action Plan. It is supported by the Department of Environmental Services. Vote 13-0.

HB 573, establishing a committee to study automobile disposal fees. **OUGHT TO PASS WITH AMENDMENT**

Rep. Burton W. Williams for Environment and Agriculture: Due to the complexities of our modern automobiles, and the many parts both hazardous and otherwise involved in the recycling process it has become necessary to establish a commission to study automobile disposal fees. Vote 18-0.

Amendment (0771h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study automobile recycling issues, including disposal fees.

Amend the bill by replacing all after the enacting clause with the following:

1 Commission Established. There is established a commission to study automobile recycling issues, including disposal fees.

2 Membership and Compensation.

1. The members of the commission shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

(c) The commissioner of the department of environmental services, or designee.

(d) The commissioner of the department of safety, or designee.

(e) The commissioner of the department of transportation, or designee.

(f) One representative from the Auto Recyclers Association of New Hampshire, appointed by said association.

(g) One representative from the scrap processors industry, appointed by the speaker of the house of representatives.

(h) One representative from the Alliance of Automobile Manufacturers, appointed by the speaker of the house of representatives.

(i) One representative from the New Hampshire Auto Dealers Association, appointed by said association.

(j) One representative from the New Hampshire Municipal Association, appointed by said association.

(k) One representative from New Hampshire the Beautiful, Inc., appointed by said corporation.

(l) One representative from the insurance industry, appointed by the speaker of the house of representatives.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

3 Duties. The commission shall study automobile disposal or recycling fees, and whether said fees should be assessed at the time of purchase or at the time of disposal, and what department or entity should receive the fees and administer the program.

4 Chairperson; Quorum. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named house member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Nine members of the commission shall constitute a quorum.

5 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2005.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a commission to study automobile recycling issues, including disposal fees.

HB 580, establishing a commission to study the procedures for the formation and dissolution of solid waste management districts under RSA 53-B and the procedures for the dissolution of an interstate waste compact under RSA 53-D, and providing joint and several liability on all municipalities from a dissolved solid waste management district. **OUGHT TO PASS WITH AMENDMENT**

Rep. Burton W. Williams for Environment and Agriculture: Over the years many solid waste management districts and interstate waste compacts have been formed. A commission to study the formation and dissolution of solid waste management districts under RSA 53-B and the procedures for the dissolution of an interstate waste compacts under RSA 53-D has become necessary. Vote 13-0.

Amendment (0808h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study the procedures for the formation and dissolution of solid waste management districts under RSA 53-B and the procedures for the dissolution of an interstate waste compact under RSA 53-D.

Amend paragraph III of section 3 of the bill by replacing it with the following:

III. The effect of withdrawal of a majority of the members from a solid waste management district on the continuing environmental liabilities of the remaining district members.

Amend the bill by replacing section 5 with the following:

5 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, all member municipalities of the New Hampshire/Vermont solid waste district, and the state library on or before November 1, 2005.

Amend the bill by deleting section 6 and renumbering the original section 7 to read as 6.

AMENDED ANALYSIS

This bill establishes a commission to study the procedures for the formation and dissolution of solid waste management districts under RSA 53-B and the procedures for the dissolution of an interstate waste compact under RSA 53-D.

HB 114, relative to the regulation of pharmacists and pharmacy technicians by the pharmacy board. **OUGHT TO PASS WITH AMENDMENT**

Rep. Charlotte Houde-Quimby for Executive Departments and Administration: This bill makes changes to the pharmacy bill to allow electronically transmitted prescriptions and seeks to list categories of personnel responsible for various aspects of issuing prescriptions. The bill also adds podiatrists under the sale of hypodermic syringes. The committee strongly urges the pharmacy board to present the legislature with an extensive list of definitions next time they come before the legislature for any reason. Vote 16-0.

Amendment (0864h)

Amend the bill by replacing section 13 with the following:

13 Flunitrazepam; Controlled Drug Act; GHB and Ketamine Hydrochloride Removed. RSA 318-B:1-c is repealed and reenacted to read as follows:

318-B:1-c Flunitrazepam.

I. The legislature intends that the provisions of paragraph III of this section shall remain in effect until such time as flunitrazepam is scheduled by the commissioner of the department of human services in accordance with and pursuant to RSA 318-B.

II. The legislature finds that flunitrazepam, marketed under the trade name rohypnol, which has a sedative, hypnotic, and amnesiac effect, has no acceptable medical uses in the United States and carries a high potential for abuse. Therefore, flunitrazepam meets the criteria for placement on schedule I of controlled drugs.

III. Notwithstanding the provisions of RSA 318-B:1-a, relative to scheduling by rulemaking of the commissioner of the department of health and human services, flunitrazepam shall be scheduled as a schedule I controlled drug:

HB 290-FN, relative to participation in health savings accounts. **INEXPEDIENT TO LEGISLATE**

Rep. Maurice L. Pilote for Executive Departments and Administration: The committee heard testimony reminding us that federal law already allows this type of health savings account provided they include a high deductible (\$1,000.00 minimum). The committee has further concerns about the ability of the State of New Hampshire to introduce these accounts absent their inclusion in the state employee negotiated contract. Vote 16-0.

HB 354, relative to the review, approval, and adoption of agency rules. **OUGHT TO PASS**

Rep. Nelson S. Allan for Executive Departments and Administration: This bill allows house and senate policy committees to vote for a joint resolution on final agency rules, makes various changes to the adoption procedure for rules, and extends the study committee on improving the rule making process. This legislation was the output of a study committee and was well received by the Executive Departments and Administration Committee. It provides for more involvement of the policy committees in final approval process of agency rules, the primary issue identified by the study committee. Vote 19-0.

HB 383, relative to vital records administration. **OUGHT TO PASS WITH AMENDMENT**

Rep. A. Laurie Harding for Executive Departments and Administration: This bill was a result of the transfer of the vital records from Health and Human Services to the Secretary of State. During this past summer, this committee rewrote rules into statutes. This bill will accomplish this task. This bill was amended to further clarify how the two departments will work together. The amendment is the result of subcommittee meetings which included representatives from the secretary of state's office as well as representatives from Health and Human Services. The amendment covers the process of handling requests for data for health related research as well as the process for adding or deleting data fields. Also included is a new section which requires a memorandum of understanding (MOU). This memorandum addresses the role of each agency in maintaining the state's vital record system. The purpose of the MOU is to facilitate a working relationship between the two agencies. The MOU will be reviewed annually at the request of the advisory committee on the quality of vital records information. The bill was further amended to change the retention of a natural fetal death record from one year to permanently. Vote 20-0.

Amendment (0905h)

Amend RSA 5-C:3, II as inserted by section 1 of the bill by replacing it with the following:

II. The division shall:

(a) Provide access to vital records and vital records data while assuring the privacy of all New Hampshire citizens.

(b) Outline the confidentiality requirements for vital records.

(c) Set forth the procedures, conditions, and criteria for release of information regarding vital records data and statistics.

(d) Enforce the provisions of this chapter in regard to the collection, maintenance, and dissemination of vital records information.

(e) Provide guidance to data collectors pursuant to this chapter.

(f) Describe the informational requirements of the forms used by the division of vital records for the collection of vital records information.

(g) Establish, in conjunction with the department of health and human services, the procedures, conditions, and criteria for release of information regarding vital records data and statistics for health-related research pursuant to RSA 126:24-d.

Amend RSA 5-C:5 as inserted by section 1 of the bill by inserting after paragraph II the following new paragraph:

III. The secretary of state shall not remove or add any data fields used for purposes of protecting the public health or to conduct health-related research without prior notice and agreement of the department of health and human services.

Amend RSA 5-C:9, V as inserted by section 1 of the bill by replacing it with the following:

V. Disclosure of certain information and statistical data to federal, state, or local agencies and research for legitimate purposes other than requests for vital records information for the purposes of health-related research under RSA 126:24-c may be authorized by the registrar under RSA 5-C:102-111.

Amend RSA 5-C:96, II(m) as inserted by section 1 of the bill by replacing it with the following:

(m) Fetal death report: retained permanently.

Amend RSA 5-C:102, III as inserted by section 1 of the bill by replacing it with the following:

III. In this chapter, the following persons shall be deemed to have a direct and tangible interest with regard to access to a vital record: the registrant; a member of the registrant's immediate family; the registrant's legal guardian; the registrant's legal representative; persons demonstrating a need for information for the determination or protection of a personal or property right; members of the press, radio, television, and other news media when the information requested by such media sources is of a public nature; persons authorized by the immediate family to conduct genealogical research; and the spouse of a divorced or legally separated person whose former marriage has been legally dissolved who is requesting certified copies of such divorce, legal separation, or civil annulment record.

Amend RSA 5-C:108 as inserted by section 1 of the bill by replacing it with the following:

5-C:108 Procedures for Requesting Vital Records Data for Health-Related Research. Vital records data or copies of vital records that directly or indirectly identify individuals shall be made available for health-related research purposes upon receipt of a written application and approval of the state's institutional review board pursuant to RSA 126:24-d.

Amend RSA 5-C as inserted by section 1 of the bill by deleting RSA 5-C:109 and renumbering the original RSA 5-C:110-112 to read as RSA 5-C:109-111, respectively.

Amend RSA 5-C:110 as inserted by section 1 of the bill by replacing it with the following:

5-C:110 Public Use Statistical File. The department shall make available a public use statistical file containing vital record information of all New Hampshire residents. The public use statistical file shall not contain any identifying personal information or information to constructively identify an individual.

Amend the bill by inserting after section 10 the following and renumbering the original section 11 to read as 12:

11 New Section; Vital Records and Health Statistics; Memorandum of Understanding. Amend RSA126 by inserting after section 24-c the following new section:

126:24-cc Memorandum of Understanding. The commissioner and secretary of state shall enter into a memorandum of understanding to address the role of each agency in maintaining the state's vital record system. The memorandum shall facilitate a working relationship between the 2 agen-

cies in meeting their respective responsibilities under this chapter and RSA 5-C. The memorandum shall be reviewed annually and may be modified at the request of either agency or at the request of the advisory committee on quality of vital records information under RSA 126:24-h.

AMENDED ANALYSIS

This bill repeals and reenacts RSA 5-C, relative to vital records administration. The bill removes the rulemaking authority of the secretary of state, division of vital records and codifies existing rules relative to vital records administration with certain technical changes, including that fetal death reports be retained permanently and that government agencies may make special arrangements to receive copies of vital records at a reduced cost. The bill also requires the secretary of state and the commissioner of the department of health and human services to enter into a memorandum of understanding relative to the state's vital record system.

HB 420, relative to licensing by the board of mental health practice. OUGHT TO PASS WITH AMENDMENT

Rep. James B. Coburn for Executive Departments and Administration: This bill adds language for procedures for receiving and addressing complaints against licensees who have had a personal or professional relationship with a board member, including guidelines for recusal and replacement of recused board members. The amendment has language proposed by the subcommittee and agreement by the board and others providing testimony. Vote 17-0.

Amendment (0881h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to receiving and addressing complaints against licensees by the board of mental health practice.

Amend the bill by replacing all after section 1 with the following:

2 Mental Health Practice; Disciplinary Action; Agent of the Board. Amend RSA 330-A:27, IV to read as follows:

IV. No civil action shall be maintained against the board or any member of the board or its agents or employees with regard to any action or activity taken in the performance of any duty or authority established by this chapter. No civil action shall be maintained against any organization or its members or against any other person for or by reason of any good faith statement, report, communication, or testimony to the board or determination by the board in relation to proceedings under this chapter. *Agents of the board granted immunity from civil action shall include persons assigned by the board to supervise disciplined licensees under board-imposed disciplinary requirements. Agents granted civil immunity shall not include supervisors of candidates for licensure. Any member of the board, employee, or agent shall comply with the ethical standards of his or her profession.*

3 New Paragraph; Mental Health Practice; Investigations and Complaints. Amend RSA 330-A:28 by inserting after paragraph I the following new paragraph:

I-a. Any board member who has had a personal relationship or has worked in a professional capacity with a complainant or with a licensee against whom a complaint has been filed or whose personal or professional views regarding the licensee or the complainant could prevent the board member from being impartial in considering the complaint shall recuse himself or herself from any investigation or disciplinary action against such licensee. If the chairman of the board is recused, the remaining board members shall elect an acting chairperson from among the board. The chairperson or acting chairperson shall appoint a former board member or a member from the appropriate advisory committee to replace the recused board member during the investigation and proceedings against the licensee. The replacement board member shall be from the same mental health discipline as the recused member.

4 Mental Health Practice; License Expirations. Amend RSA 330-A:31 to read as follows:

330-A:31 Expirations and Renewals. Licenses shall be valid for a period of 2 years and shall become invalid on the expiration date unless renewed. It shall be the duty of the board to notify every person licensed by the board under this chapter of the date of expiration of the license and the amount of the fee that shall be required for its renewal for 2 years. Such notice shall be mailed at least ~~one month~~ **2 months** in advance of the date of expiration of such license. Renewal shall be conditional upon filing a timely and complete renewal application and payment of the fee as set by the board.

5 Effective Date. This act shall take effect July 1, 2005.

HB 465-FN, authorizing the board of medicine to take non-disciplinary remedial action against physicians. **OUGHT TO PASS**

Rep. Ken Hawkins for Executive Departments and Administration: This bill allows the board of medicine to take non-disciplinary action against physicians. This would allow the board to have more options when dealing with a physician who has a physical or mental disability, disease or disorder. Currently, the only option is revocation. This bill gives the board of medicine four other options of actions, such as suspension, revocation, treatment care or practicing under the direction of another physician or a public or private health care program. Vote 13-0.

HB 481, establishing a commission to study the location of the secure psychiatric unit and places to which persons are committed under RSA 651:8-b, RSA 135-C, and RSA 171-B. **OUGHT TO PASS WITH AMENDMENT**

Rep. Alida I. Millham for Executive Departments and Administration: This bill was requested by the Department of Health and Human Services for the purpose of establishing a commission to study the location of the secure psychiatric unit (SPU) and places where persons are committed under RSA 651:8-b (Persons Acquitted by Reason of Insanity); RSA 135-C (Mental Health Services System); RSA 171-B (Involuntary Admission for Persons Found not Competent to Stand Trial); RSA 623:1 (Correctional Facility Transfers). The SPU is currently located within the state prison. The study will examine locations that will enable medical reimbursement. Vote 13-0.

Amendment (0743h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study the location of the secure psychiatric unit and places to which persons are committed under RSA 651:8-b, RSA 135-C, RSA 171B, and RSA 623:1.

Amend the bill by replacing section 1 with the following:

1 Commission Established. There is established a commission to study the location of the secure psychiatric unit and places to which persons are committed under RSA 651:8-b, RSA 135-C, RSA 171-B, and RSA 623:1.

Amend paragraph I of section 2 of the bill by inserting the following new subparagraph after subparagraph (d):

(e) A representative of the New Hampshire Association of Counties, correctional affiliate, appointed by the association.

Amend the bill by replacing section 3 with the following:

3 Duties. The commission shall study the location of the secure psychiatric unit and places to which persons are committed under RSA 651:8-b, RSA 135-C, RSA 171-B, and RSA 623:1. The commission shall also examine the issue of federal reimbursement for the secure psychiatric unit.

AMENDED ANALYSIS

This bill establishes a commission to study the location of the secure psychiatric unit and places to which persons are committed under RSA 651:8-b, RSA 135-C, RSA 171-B, and RSA 623:1.

HB 532, relative to the licensure of dentists by the board of dental examiners. **OUGHT TO PASS WITH AMENDMENT**

Rep. Charlotte Houde-Quimby for Executive Departments and Administration: This bill makes changes in the language for licensure of dentists requiring that an applicant for temporary licensure as a dentist in New Hampshire must be an active, inactive or former licensee in New Hampshire or in another state or Canadian province as determined by the board. Vote 14-0.

Amendment (0767h)

Amend the bill by replacing section 3 with the following:

3 Practice of Dentistry. Amend RSA 317-A:20, I(c)-(h) to read as follows:

(c) Directly or indirectly informs the public in any language, orally, in writing, or in print-ing, or by drawings, demonstrations, specimens, signs, or pictures that the person can perform or will attempt to perform dental operations of any kind; ~~or~~

(d) Undertakes, by any means or method, *including by use of electronic media*, gratuitously or for a salary, fee, money, or other reward paid or granted directly or indirectly to that person or to any other person, to diagnose or profess to diagnose, to treat or profess to treat, or prescribe for or profess to prescribe for any of the lesions, diseases, disorders, or deficiencies of the human oral cavity, teeth, gums, maxilla, or mandible or adjacent associated structures;

(e) [~~Extracts human teeth or corrects malpositions thereof or of the jaws~~] *Supervises a dentist within the scope of the practice of dentistry*;

(f) Except on the written prescription of a duly licensed dentist and by the use of impressions or casts made by a duly licensed and practicing dentist, directly or indirectly by mail, carrier, personal agent, or by any other method, furnishes, supplies, constructs, reproduces, or repairs prosthetic dentures, bridges, appliances, or other structures to be used and worn as substitutes for natural teeth, or adjusts the same; *or*

(g) Administers dental anesthetics, either general or local[~~;~~*or*

(h) ~~Engages in any of the practices included in the curricula of recognized dental colleges~~].

HB 595-FN, establishing the position of state meat inspector. **OUGHT TO PASS WITH AMENDMENT**

Rep. Peter F. Bergin for Executive Departments and Administration: The committee on Environment and Agriculture worked on reestablishing the position of state meat inspector as a classified state employee. The Executive Departments and Administration Committee listened to testimony and agreed with the Environment and Agriculture Committee that the position was needed. The said position shall be funded entirely through federal, state and private grants. Vote 19-0.

Amendment (0698h)

Amend the bill by replacing section 1 with the following:

1 Position Established. There is established in the department of agriculture, markets, and food, the position of state meat inspector who shall be a classified state employee. The state meat inspector shall enforce the provisions of RSA 427:1 through RSA 427:37. Said position shall be funded entirely through federal, state, and private grants.

AMENDED ANALYSIS

This bill establishes the position of state meat inspector. The position is funded by government and private grants.

HB 637-FN, relative to licensure of alcohol and drug abuse professionals. **OUGHT TO PASS WITH AMENDMENT**

Rep. Laurie A. Harding for Executive Departments and Administration: This bill amends RSA 330-C:9II(a), licensing requirements for alcohol and drug abuse professionals. The bill allows individuals who have gone through a masters degree program and who have had 2000 hours of supervised work experience sit for the licensing exam for alcohol and drug abuse professionals. Alcohol and drug abuse counselors have been licensed in New Hampshire since 1997. Prior to HB 637, all licensees including those that have a masters degree, were required to have 6000 hours of supervised work experience prior to taking the exam. HB 637 allows for another way to meet the licensing requirements. The amendment amends the original bill so that masters prepared individuals must take all the written and oral exams required of those individuals who get their licenses through 6000 hours of supervised work experience. Vote 14-0.

Amendment (0736h)

Amend the bill by replacing section 2 with the following:

2 Licensure as an Alcohol and Drug Counselor. RSA 330-C:9, II(a) is repealed and reenacted to read as follows:

(a) For licensure as an alcohol and drug counselor (LADC):

(1) Experience and competence-based licensure:

(A) 6,000 hours of supervised alcohol and drug abuse work experience;

(B) 270 hours of alcohol and drug abuse training and education;

(C) 300 hours of supervised practical training, which may be included as part of the requirements under subparagraph (a)(1)(A);

(D) Passing of the written ICRC test for alcohol and drug counselors; and

(E) Passing of the oral ICRC test for alcohol and drug counselors; or

(2) Master's degree licensure:

(A) A master's degree in clinically-based behavioral sciences or addiction counseling or a related field from an accredited college or university;

(B) 2,000 hours of supervised alcohol and drug abuse work experience, 1,000 of which shall be earned post-masters and 1,000 of which may be earned concurrent with the masters course of study.

(C) 270 hours of alcohol and drug abuse training and education;

(D) 300 hours of supervised practical training, which may be included as part of the requirements under (a)(2)(B);

(E) Passing of the written ICRC test for alcohol and drug counselors; and

(F) Passing of the oral ICRC test for alcohol and drug counselors.

HB 31-FN-A, relative to state matching funds for Federal Emergency Management Agency disaster assistance grants and making an appropriation therefor. **INEXPEDIENT TO LEGISLATE**
Rep. Robert L. Wheeler for Finance: The committee felt the frustration shared by the bill's sponsor in regard to timely re-imbursement of disaster expenses however there was little desire to use interest as a catalyst for payment. Vote 24-0.

HB 172, relative to periodic review of state contracts by the legislative fiscal committee. **INEXPEDIENT TO LEGISLATE**

Rep. Peter E. Franklin for Finance: The Finance Committee believes that the Fiscal Committee and the Governor and Executive Council have sufficient means to review state contracts, and therefore the bill is not needed. Vote 24-0.

HB 272-FN-A, making an appropriation to the barn preservation fund. **OUGHT TO PASS WITH AMENDMENT**

Rep. Robert L. Wheeler for Finance: The committee recognized the current financial circumstances of the State and desiring to keep the discussion going we submit the bill as Ought to Pass with Amendment with \$1 in it and ask for your support. Vote 22-2.

Amendment (0608h)

Amend the bill by replacing section 1 with the following:

1 Barn Preservation Fund; Appropriation. The sum of \$1 for the fiscal year ending June 30, 2006 is hereby appropriated to the barn preservation fund established in RSA 227-C:28, for the purpose of preserving historic barns and agricultural structures in New Hampshire. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

AMENDED ANALYSIS

This bill makes an appropriation of \$1 for the 2006 fiscal year to the barn preservation fund.

HB 547-FN, changing the funding limit for on-premise-use fuel oil storage facilities. **OUGHT TO PASS WITH AMENDMENT**

Rep. Kenneth L. Weyler for Finance: A tax on all heating oil entering New Hampshire is sent to a dedicated fund. There are three sub-funds, and this bill affects the Fuel Oil Discharge Cleanup Fund (FODCF). The board managing these funds felt that an increase in the disbursements to eligible private citizens was called for to conform with actual costs. Low income single family home-owners may apply for up to \$1,500 (increased from \$1,000) for upgrade replacement costs for heating oil storage tanks and related plumbing. Eligible recipients may also receive reimbursement for underground storage tank abandonment and removal. This program protects our ground water. The amendment corrects a typo and adds \$500 to make the \$2500. Vote 23-0.

Amendment (0541h)

Amend RSA 146-E:6, II as inserted by section 1 of the bill by replacing it with the following:

II. Owners of facilities or land eligible under this chapter may apply for reimbursement of court-ordered damages to third parties for bodily injury or property damage, and for the costs of on-site and off-site cleanup of fuel oil discharges in amounts not to exceed a total of \$500,000, incurred on or after October 1, 1992. Owners of on-premise-use facilities or land eligible under this chapter who have demonstrated financial need, may apply for reimbursement of costs to meet the requirements of RSA 146-E:4, I and II in amounts not to exceed a total of ~~[\$1,000]~~ **\$1,500 and may apply for reimbursement of underground storage tank abandonment or removal costs in amounts not to exceed a total of \$2,500**, incurred on or after ~~[July 1, 1999]~~ **the effective date of this paragraph**.

HB 711-FN-A-L, making an appropriation for kindergarten in the town of Merrimack. **INEXPEDIENT TO LEGISLATE**

Rep. Linda T. Foster for Finance: Rather than approving a "legislative special", the committee believes that the monies for Merrimack's Kindergarten program are better placed in HB 2. Consequently, the committee voted HB 711-FN-A-L Inexpedient to Legislate and appropriated \$275,000. as an amendment to HB 2. Vote 21-1.

HB 140, prohibiting the use of drugs and poisons in hunting. **INEXPEDIENT TO LEGISLATE**
Rep. Robert J. L'Heureux for Fish and Game: This bill would have prohibited the use of any kind of poison or tranquilizer for the taking of wildlife. The committee felt that the bill had merit and good intent. However, testimony during the hearing indicated that there were sufficient RSA's to address the sponsors' concerns. The Fish and Game Department indicated it would like to review and analyze this issue before pursuing any further legislation. The committee unanimously agreed with the Department's proposal. Vote 10-0.

HB 225, relative to liability for the use of municipal ski jump facilities. **INEXPEDIENT TO LEGISLATE**

Rep. Bette R. Lasky for Judiciary: This bill was introduced to limit a municipality's liability for personal injury on property damage from using a municipal ski jump hoping that this would ease their liability insurance premiums. The committee found that granting immunity to the municipality in the absence of gross or wanton negligence when the ski jump is used for the purpose of ski jumping, and total immunity when used for any other purpose, would not adequately protect the public and would act as a disincentive to providing proper maintenance, supervision and security. Moreover, the testimony indicated strongly that the pool of ski jumps is too small for this bill to have more than a negligible effect upon liability insurance premiums. Vote 15-4.

HB 295, relative to access to certain motor vehicle records. **INEXPEDIENT TO LEGISLATE**
Rep. Peter Espieffs for Judiciary: Presently, under RSA 260:14 III-a, motor vehicle records, with some exceptions, may be made available to the Department of Transportation for enforcement of its toll collection responsibilities. The proposed bill seeks to add a new section authorizing release of motor vehicle records to a defense attorney of record in a criminal case, to his staff acting under his direction or to any private licensed investigator hired by the attorney. The bill gives defense counsel, his staff and investigators blanket access to the motor vehicle records of any defendant, complainant or any potential witness in a criminal case, whether or not the case is related to a motor vehicle enforcement purpose or incident. Such sweeping records access could lead to incidental disclosure of personal information about such persons, their families, and activities. As to potential witnesses, it is particularly troubling since personal life details would be at risk of exposure under the auspices of a legislated fishing expedition. It is submitted that courts already provide adequate and protective processes for obtaining the information and evidence needed for a proper criminal defense. Vote 17-2.

HB 368, relative to limiting the sworn testimony of witnesses. **INEXPEDIENT TO LEGISLATE**
Rep. James E. Wheeler for Judiciary: The committee appreciates the sponsor's intent in bringing this bill forward. He has a legitimate concern, but one that the committee believes is without legislative remedy. While instructing a witness to limit his or her testimony can be unnerving to the witness, telling the jury that a witness's testimony has been limited will not solve the problem and might cause inappropriate speculation on the part of the jury. It is up to the judge in a case to tell the jury that if evidence is excluded, they are not to speculate as to what it was; the possible situations in a courtroom are extremely fluid and volatile and one rule for all cases would not work. It needs to be up to the judge's discretion to decide what is appropriate in each case. When the sponsor was made aware of these problems, he agreed to the ITL. Vote 15-0.

HB 495, relative to court records in civil cases involving taxpayer money. **INEXPEDIENT TO LEGISLATE**

Rep. James E. Wheeler for Judiciary: The committee believes this bill is unnecessary. We passed a bill in the last session that accomplished a similar result to this bill, requiring any settlement made by a governmental unit be kept and available for public inspection for at least ten years. Vote 18-0.

HB 542, making technical corrections to the uniform trust code. **OUGHT TO PASS**

Rep. John B. Hunt for Judiciary: This bill is making technical changes to the new law past last year. The law, modeled after The Uniform Trust Code, provides New Hampshire with a compre-

hensive and consistent framework of trust laws. The bill is a result of an intense yearlong study by representatives of the legal community, banking industry, the Attorney General's Office-Charitable Trust Division and the Probate Court. The statutory framework of case law will continue to help reduce legal fees and address questions of interpretation when a trust has missing instructions. Having this law makes New Hampshire an appealing domicile for trusts to be located. This bill helps to further clarify issues that may arise when a trust is implemented. Vote 18-3.

HB 617-FN, allowing current court stenographers to retain their positions in the New Hampshire courts. OUGHT TO PASS WITH AMENDMENT

Rep. Stephen J. Shurtleff for Judiciary: The committee heard how the conversion to monitoring devices in the courts in some instances resulted in incomplete court records. Information was given to the committee that microphones in court rooms do not always pick up the testimony of witnesses, thereby causing an incomplete record of court proceedings. When important decisions hang in the balance, it is imperative that the court records are accurately recorded and transcribed. Court reporters are certified professionals who most effectively and accurately provide this service, even providing real time transcriptions for the court which can benefit those who are hearing impaired as well. The commission established in HB 617 will study the current methods being used to record court proceedings, assess the role of court reporters and court monitors used in the court system and review procedures for maintaining the integrity of the court record keeping. Vote 18-1.

Amendment (0080h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study the future role of court reporters in New Hampshire's court system.

Amend the bill by replacing all after the enacting clause with the following:

1 Findings and Purpose. The general court finds that the New Hampshire courts have used live court reporters for many years and recognize their importance in maintaining the most accurate court record available for the citizens of this state. The general court further finds that there is an important role for court reporters to accommodate deaf and hearing-impaired litigants, defendants, jurors, attorneys, and witnesses, and to comply with the Americans with Disabilities Act, as well as to avoid the costs associated with poor transcription of court recordings from the use of recording machines only.

2 Commission Established. There is established a commission to study the future role of court reporters in New Hampshire's court system.

3 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Two members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Two members of the senate, appointed by the president of the senate.

(c) The chief justice of the supreme court, or designee.

(d) The attorney general, or designee.

(e) A member nominated by the New Hampshire Defense Lawyers Association and appointed by the governor.

(f) A member nominated by the New Hampshire Bar Association and appointed by the governor.

(g) A member nominated by the New Hampshire Trial Lawyers Association and appointed by the governor.

(h) A member nominated by the New Hampshire Court Reporters Association and appointed by the governor.

(i) Two public members, appointed by the governor.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

4 Duties. The commission shall:

I. Study the current methods being used to record court proceedings and assess the impact they have on obtaining the best form of justice for the citizens of New Hampshire.

II. Assess the role of court reporters and court monitors as used in the court system.

III. Review possible procedures for reporting for injustices relating to inaccurate or incomplete transcripts.

5 Chairperson; Quorum. The members of the commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named house member. The first meeting of the commission shall be held within 30 days of the effective date of this section.

6 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the senate president, the house clerk, the senate clerk, the governor, and the state library on or before November 30, 2005.

7 Effective Date. This act shall take effect upon its passage.

This bill establishes a commission to study the future role of court reporters in New Hampshire's court system.

HB 672-FN, relative to notaries public and adopting the Uniform Law on Notarial Acts. OUGHT TO PASS WITH AMENDMENT

Rep. John B. Hunt for Judiciary: This bill adds commissioners of deeds to the law on notaries public and commissioners. The bill also adds penalties for misconduct by notaries and justices of the peace, adopts the Uniform Law on Notarial Acts, and repeals the Uniform Acknowledgment Act and the Uniform Recognition of Acknowledgements Acts. The amendment lowers the penalties from \$5,000 to \$1,000, lowers the registration fee from \$100 to \$75, and creates a due process for assessing the penalty. Vote 17-0.

Amendment (0906h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to notaries public, justices of the peace, and adopting the Uniform Law on Notarial Acts.

Amend RSA 455:16 as inserted by section 6 of the bill by replacing it with the following:

455:16 Misconduct, Penalties.

I. A person shall be subject to a civil penalty not to exceed \$1,000 if such person:

(a) When applying for a commission as a notary public, negligently or recklessly makes a material false representation on the application form;

(b) Holding a commission as a notary public or justice of the peace, negligently or recklessly makes a notarial act that is false;

(c) Holding a commission as a notary public or justice of the peace, negligently or recklessly makes a notarial act for a person not personally known by the notary without first requiring the person to establish his or her identity; or

(d) Holding a commission as a notary public or justice of the peace, negligently or recklessly makes a notarial act purporting to have witnessed the maker's signing of the document or purporting to have received the oath or affirmation of the person, when the notary did not actually witness the maker's signing of the document or did not actually receive the oath or affirmation of the person.

II. A person shall be guilty of a class A misdemeanor if such person purposefully or knowingly commits any of the acts listed in paragraph I.

III.(a) The court, upon petition of the attorney general, may levy upon any person who violates the provisions of paragraph I a civil penalty in an amount not to exceed \$1,000 per violation. All penalties assessed under this paragraph shall be paid to the secretary of state for deposit into the general fund.

(b) The attorney general shall have authority to notify suspected violators of this section of the state's intention to seek a civil penalty, to negotiate, and to settle with such suspected violators without court action, provided any civil penalty paid as settlement shall be paid to the secretary of state for deposit into the general fund.

Amend RSA 5:10 as inserted by section 7 of the bill by replacing it with the following:

5:10 Office Fees. Except as otherwise provided, the following fees shall be paid to the secretary of state for the use of the state: For every commission issued to a justice of the peace or to a notary public, ~~[\$50]~~ **\$75, \$25 of which shall be deposited into the fund established by RSA 660:31 for the use of the secretary of state and the attorney general as provided by RSA 455:17;** for every certificate pertaining to the existence of a corporation, trade name, or other business entity, or writ served on the same, \$5; for every such certificate in long form, \$10; for every apostille provided under the Hague Convention of 1961 and for every certificate for a notary public or justice of the peace, \$10; for every other certificate under seal of the state, \$5; for engrossing private acts, \$1 for each page of 240 words; for expedited service of every 10 documents or any part thereof, \$25.

Amend the bill by inserting after section 11 the following and renumbering the original sections 12 and 13 to read as 13 and 14, respectively:

12 Application; Penalty for False Representation Added. Amend RSA 455-A:2 to read as follows: 455-A:2 Application.

I. Any person applying to be a justice of the peace shall indicate on the application whether he or she has been a registered voter in this state for at least 3 years immediately preceding the date of application. The applicant must sign a written statement under oath stating ~~[as to]~~ whether the applicant has ever been convicted of a crime that has not been annulled by a court, other than minor traffic violations. The applicant shall be endorsed for appointment by 2 justices of the peace and a registered voter of this state.

II. *A person shall be subject to a civil penalty not to exceed \$1,000 if he or she negligently or recklessly makes a material false representation on the application form when applying for a commission as a justice of the peace. A person is guilty of a class A misdemeanor if he or she purposefully or knowingly makes a material false representation on the application form when applying for a commission as a justice of the peace. The civil penalty shall be imposed in the same manner as set forth in RSA 455:16.*

AMENDED ANALYSIS

This bill:

I. Adds commissioners of deeds to the law on notaries public and commissioners.

II. Adds penalties for misconduct by notaries and justices of the peace.

III. Adopts the Uniform Law on Notarial Acts.

IV. Repeals the Uniform Acknowledgment Act and the Uniform Recognition of Acknowledgments Acts.

HB 126, relative to grounds for termination of employment. OUGHT TO PASS WITH AMENDMENT

Rep. Herbert D. Richardson for Labor, Industrial and Rehabilitative Services: This bill strengthens the Whistleblowers Protection Act for employees while still including provisions protecting the employer. The committee felt that an employee should not be retaliated against for exercising the first amendment. The committee heard testimony from numerous people including the Department of Labor all in support of the bill. Vote 16-0.

Amendment (0850h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to a public employee right of free speech.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Public Employee Right of Free Speech. Amend RSA 275-E by inserting after section 7 the following new subdivision:

Protection of Public Employee's Right of Free Speech

275-E:8 Definitions. In this subdivision:

I. "Employee" means any person employed by a public employer except:

(a) Persons elected by popular vote.

(b) Persons whose duties imply a confidential relationship to the public employer.

II. "Employer" means the state and any political subdivision thereof, the judicial branch of the state, any quasi-public corporation, council, commission, agency or authority, and the state university system.

275-E:9 Right to Speak Protected.

I. No employer shall discharge, threaten, or otherwise discriminate against any employee regarding such employee's compensation, terms, conditions, location, or privileges of employment because the employee has exercised the right of free speech including the public discussion of issues of public interest concerning his or her employment.

II. Without in any way limiting the rights and protections afforded to employees under RSA 275-E or any other law, the right of protected speech under this subdivision shall not extend to fiduciary relationships, the divulgence of confidential financial information, trade secrets, patents, or the personal or medical records of patients, clients, or other employees without the prior consent of the patient, client, or employee.

2 Rights and Remedies; Public Employee Right of Free Speech Added. Amend RSA 275-E:4, I to read as follows:

1. Any employee who alleges a violation of rights under RSA 275-E:2 [or], 3, or 9 and who has first made a reasonable effort to maintain or restore such employee's rights through any grievance procedure or similar process available at such employee's place of employment, may obtain a hearing with the commissioner of labor or a designee appointed by the commissioner. Following such hearing, the labor commissioner or the designee appointed by such commissioner shall render a judgment on such matter, and shall order, as the commissioner or his designee considers appropriate, reinstatement of the employee, the payment of back pay, fringe benefits and seniority rights, any appropriate injunctive relief, or any combination of these remedies.

3 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill protects a public employee from discharge or discrimination when the public employee has spoken about a matter that is of public interest concerning his or her employment. Protected speech does not include speech that divulges trade secrets, patents, or certain other confidential information, or information from a fiduciary relationship.

HB 170, relative to unemployment compensation. **OUGHT TO PASS WITH AMENDMENT**
Rep. William J. Infantino for Labor, Industrial and Rehabilitative Services: This bill has two distinct parts. The first part is a cleanup bill that adds rules and regulations required by the federal government. These changes must be implemented into law in order for the state to receive unemployment funds from the government after June 30, 2006. The second part of the bill provides unemployment benefits to certain part-time workers who are unable to meet the criteria of working full time, any time, in order to qualify for unemployment benefits, as a result of dependant child care. Vote 14-0.

Amendment (0828h)

Amend RSA 282-A:45-a, I as inserted by section 3 of the bill by replacing it with the following:

I. An employing unit or employer shall file a mass layoff notice with the department if the employer lays off or expects to lay off 25 or more individuals:

- (a) In the same calendar week;
- (b) For an expected duration of 7 days or more; and
- (c) For either of the following reasons:
 - (1) Vacation or holiday shutdown; or
 - (2) Company Closure.

Amend RSA 282-A:45-a as inserted by section 3 of the bill by inserting after paragraph III the following new paragraph:

IV. An employing unit or employer may be granted a waiver from filing the mass layoff notice required in paragraph I if the commissioner determines, in accordance with such rules as the commissioner shall adopt, that it is unlikely that 25 or more of the individuals laid off will file an initial claim, as defined in RSA 282-A:42, II(a), due to the expected receipt of wages, as defined in RSA 282-A:14, III. Any such waiver shall become void if in fact 25 or more of the individuals laid off claim benefits.

Amend RSA 282-A:91-a, I(c) – I(h) as inserted by section 6 of the bill by replacing them with the following:

(c) In determining whether there is any common ownership, management, or control of 2 employers, the commissioner shall use objective factors which may include the extent of commonality or similarity of: ownership; any familial relationships; principals or corporate officers; organizational structure; day-to-day operations; assets and liabilities; and stated business purposes. Ownership of publicly traded mutual funds, publicly traded stocks, and similar publicly traded investments shall not be indicative of common ownership, management, or control.

(d) In determining whether a substantial purpose of the transfer of trade or business was to obtain a reduced liability for contributions, the commissioner shall use objective standards which may include the cost of acquiring the business to which the experience was transferred; how long such business enterprise was continued after the transfer; the extent to which such business enterprise reduced its workforce following the transfer; the size of each employer's workforce before and after the transfer; and the business activity conducted by each employer prior to, and after, the transfer.

(e) In determining whether the business was acquired solely or primarily for the purpose of obtaining a lower rate of contributions, the commissioner shall use objective factors which may include the cost of acquiring the business, whether the person continued the business enterprise of the acquired business, how long such business enterprise was continued, or whether a substantial number of new employees were hired for performance of duties unrelated to the business activity conducted prior to acquisition.

(f)(I) If a person knowingly violates or attempts to violate subparagraph (a), (b), or (g) or any other provision of this chapter related to determining the assignment of a contribution rate, or if a person knowingly advises another person in a way that results in a violation of such provision, the person shall be subject to the following penalties:

(A) If the person is an employer, such employer shall be assigned the highest rate assignable under this chapter for the rate year during which such violation or attempted violation occurred and the 3 rate years immediately following this rate year. However, if the person's business is already at such highest rate for any year, or if the amount of increase in the person's rate would be less than 2 percent for such year, then a penalty rate of contributions of 2 percent of taxable wages shall be imposed for such year.

(B) If the person is not an employer, such person shall be subject to a civil fine of not more than \$5,000. Any such fine shall be deposited in the fund established by RSA 282-A:140. Such person shall also be jointly and severally liable with any liable employer for additional contributions and all related penalties, fees, interest, and costs owed as a result of the application of this section. Such person shall be subject to civil action for such liability in any manner provided for collection of contributions in RSA 282-A:141-156.

(2) In addition to other penalties imposed in this paragraph, any violation of this section may be prosecuted under RSA 282-A:166 or any other appropriate statute.

(g) The commissioner shall establish procedures to identify the transfer or acquisition of a business for purposes of this section.

(h) For purposes of this section:

(1) "Knowingly" means having actual knowledge of or acting with deliberate ignorance or reckless disregard for the prohibition involved.

(2) "Person" means "person" as defined in section 7701(a)(1) of the Internal Revenue Code of 1986.

(3) "Trade or business" includes the employer's workforce.

(4) "Violates" or "attempts to violate" includes, but is not limited to, intent to evade, misrepresentation, and willful nondisclosure.

(i) The reporting by an employer of its payroll under the account of another employer with which there is no common ownership, management, or control, is prohibited unless the reporting employer is an employee leasing company lawfully making such report.

(j) A management company which contracts with any employer to report wages of managed employees shall be considered, in accordance with such rules as the commissioner may adopt, to have common management or control with such employer, and with any other management company with which the employer may contract for the same purpose in the future.

Amend the bill by inserting after section 9 the following and renumbering the original section 10 to read as 13:

10 Partial Unemployment. Amend RSA 282-A:14, I to read as follows:

1.(a) An individual shall be deemed "totally unemployed" in any week with respect to which no wages are payable to him and during which he performs no services. An individual who is not entitled to vacation pay from his employer shall be deemed to be in "total unemployment" during the entire period of any general closing of his employer's place of business for vacation purposes, notwithstanding his prior assent, direct or indirect, to the establishment of such vacation period by his employer.

(b) An individual who meets the requirements of RSA 282-A:31,V and who is seeking only part-time work shall be deemed to be partially unemployed only in any week during which the individual was employed fewer than 20 hours.

11 New Paragraph; Unemployment Compensation; Benefit Eligibility Conditions. Amend RSA 282-A:31 by inserting after paragraph IV the following new paragraph:

V. Subparagraphs I(c) and I(d) of this section shall not apply to individuals who are seeking solely part-time work if the individual establishes that:

(a) The individual is the only available adult to care for the individual's natural, adopted, step, or foster child under the age of 16;

(b) The individual's last 6 months in employment as defined in RSA 282-A:9, except RSA 282-A:9, IV(f), or wages earned in a like manner in another state, usually consisted of 30 or fewer hours each week throughout such 6 month period;

(c) The individual is ready, willing, and able to accept and perform suitable work at least 20 hours per week for which there is a market for the services the individual offers, and that the individual has exposed himself or herself to employment to the extent commensurate with the economic conditions and the efforts of a reasonable prudent person seeking work; and

(d) There exists in the individual's labor market area sufficient suitable work during the hours or shifts to which the individual is restricted.

12 Unemployment Benefits; Disqualification of Benefits. Amend RSA 282-A:32, 1(d)(2)(D) – (E) to read as follows:

(D) If ~~[he]~~ *the individual* is unable to apply for or accept work during the hours of the third shift, so-called, because he *or she* is the only adult available ~~[for the care of his children under the age of 15 during said hours or]~~ for the care of an ill or infirm elderly person who is dependent on him for support.

(E) *If the individual is unable to apply for or accept work during the hours of a particular shift because he or she is the only adult available for the care of a natural, adopted, step or foster child under the age of 16; or*

(F) If the individual is permanently physically and/or mentally disabled, full-time work for such individual shall be deemed to be the hours and shifts the individual is physically able to work as certified by a licensed physician provided there is a market for the services the individual offers during such hours and shifts.

AMENDED ANALYSIS

This bill makes various changes to laws on unemployment compensation administered by the department of employment security including mass layoff, appeals of benefits determinations, and transfers of businesses by employers.

This bill also makes changes to unemployment compensation eligibility requirements for individuals seeking part-time work.

This bill is a request of the department of employment security.

HB 246, establishing a committee to study the classification of employees as independent contractors. **OUGHT TO PASS**

Rep. William J. Infantine for Labor, Industrial and Rehabilitative Services: This bill establishes a study committee to investigate the common belief that many so called independent contractors are misclassified and should be considered employees. The committee heard testimony from a number of interested parties from various business interests and there was no testimony against the study committee. The result of the misclassified employees are numerous including loss of benefits including workers compensation, loss of revenue to the state and federal government and incurred insurance costs. These issues need to be studied to examine the possible need for corrective legislation. Vote 16-0.

HB 329, establishing the crime victim employment leave act. **OUGHT TO PASS WITH AMENDMENT**

Rep. Randolph N.S. Holden for Labor, Industrial and Rehabilitative Services: This bill allows a victim of a crime to be involved in the process of prosecuting the criminal without fear of job loss. The committee felt this bill only strengthens the authority's ability to fight crime. During the hearing, the committee heard no opposition to the bill. The sponsor of the bill worked with the subcommittee to remedy any concern it had. Vote 15-1.

Amendment (0823h)

Amend RSA 275:61 as inserted by section 1 of the bill by replacing it with the following:

275:61 Definitions. In this subdivision:

I. "Crime" means an offense designated by law as a felony or a misdemeanor.

II. "Employee" means employee as defined in RSA 275:4.

III. "Employer" means employer as defined in RSA 275:4, provided that for the purposes of this subdivision, an employer shall have 25 or more employees for each working day in each of 20 or more calendar weeks during any calendar year.

IV. "Immediate family" means the father, mother, stepparent, child, stepchild, sibling, spouse, grandparent, or legal guardian of the victim; or any person involved in an intimate relationship and residing in the same household with the victim.

V. "Victim" means any person who suffers direct or threatened physical, emotional, psychological, or financial harm as a result of the commission or the attempted commission of a crime. "Victim" also includes the immediate family of any victim who is a minor or who is incompetent, or the immediate family of a homicide victim.

Amend RSA 275:62, I as inserted by section 1 of the bill by replacing it with the following:

I. An employer shall permit an employee who is a victim of a crime to leave work so that the employee may attend court or other legal or investigative proceedings associated with the prosecution of the crime.

Amend RSA 275:65 as inserted by section 1 of the bill by replacing it with the following:

275:65 Penalty. Any employer violating any provision of this subdivision shall be subject to a civil penalty, to be imposed by the labor commissioner in accordance with the procedures established in RSA 273:11-a. An employer aggrieved by the commissioner's assessment of such penalty may appeal in accordance with RSA 273:11-b.

AMENDED ANALYSIS

This bill establishes the crime victim employment leave act which requires that employers allow employees who are victims of certain crimes to leave work to attend court or other legal or investigative proceedings associated with the prosecution of the crime, or to attend counseling sessions necessitated by the crime.

HB 393, establishing a committee to study methods for requiring employers to permit volunteer firefighters to respond to calls. **OUGHT TO PASS WITH AMENDMENT**

Rep. Mary J. Gorman for Labor, Industrial and Rehabilitative Services: This bill creates a study committee to examine methods for allowing employers to permit voluntary and paid on-call emergency first responders to answer calls. The committee felt this is very much in the public's interest. Vote 15-0.

Amendment (0392h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study methods for requiring employers to permit voluntary and paid on-call emergency first responders to respond to calls.

Amend the bill by replacing section 1 with the following:

1 Committee Established. There is established a committee to study methods for requiring employers to permit voluntary and paid on-call emergency first responders to respond to calls.

Amend the bill by replacing section 3 with the following:

3 Duties. The committee shall study methods for requiring employers to permit voluntary and paid on-call emergency first responders to respond to calls. The committee shall also examine the feasibility of protecting firefighters from employment discrimination in a manner similar to protections afforded members of the national guard under RSA 110-B:65.

AMENDED ANALYSIS

This bill establishes a committee to study methods for requiring employers to permit voluntary and paid on-call emergency first responders to respond to calls.

HB 404, permitting public sector employees to request a wage deduction for contributions to a political action committee. **OUGHT TO PASS WITH AMENDMENT**

Rep. Robert J. Guida for Labor, Industrial and Rehabilitative Services: This bill enables employees to request wage deductions for political action committees, just as they can now request deductions for charities and other causes. Vote 15-0.

Amendment (0681h)

Amend the title of the bill by replacing it with the following:

AN ACT permitting employees to request a wage deduction for contributions to a political action committee.

Amend the bill by replacing section 1 with the following:

1 New Subparagraph; Withholding of Wages; Contributions to Political Action Committees. Amend RSA 275:48, 1 by inserting after subparagraph (d) the following new subparagraph:

(e) The employee requests in writing that deductions may be made for contributions to a political action committee from the employee's wages.

AMENDED ANALYSIS

This bill allows an employee to have contributions to a political action committee deducted from his or her wages.

HB 561, relative to reasonable accommodation by employers under the state law against discrimination. **OUGHT TO PASS**

Rep. Mary J. Gorman for Labor, Industrial and Rehabilitative Services: The committee views this bill as straightforward and aligned with the federal statutes regarding employment discrimination and reasonable accommodation. Vote 15-0.

HB 618-FN-L, relative to persons acting as volunteers to a state agency. **OUGHT TO PASS WITH AMENDMENT**

Rep. Robert J. Giuda for Labor, Industrial and Rehabilitative Services: This bill brings volunteers under protection of the state's workers' compensation coverage, when those volunteers are designated by name in writing by the commissioners of health and human services or safety, after either has declared an incident (not a declared state of emergency by the governor) and notified the governor. Volunteers will only be specialists not currently in the employ of the state of New Hampshire, and will serve until the authorization and need for their services lapses. Vote 15-0.

Amendment (0524h)

Amend RSA 281-A:2, VII(a)(6) as inserted by section 1 of the bill by replacing it with the following:

(6) In the absence of any mutual aid agreement or other similar written agreement that specifically addresses the issue of workers' compensation benefits, any person who acts as an agent to the department of health and human services or the department of safety by providing assistance in response to a specific public health or public safety incident. Such person shall be deemed an employee of the state for the purposes of this chapter. In order to be eligible for workers' compensation benefits under this chapter the person shall have been specifically designated in writing as an agent by the commissioner of the department of health and human services or the commissioner of the department of safety, or their respective designees, in accordance with the provisions of RSA 508:17-a. This subparagraph applies only to such designated agents who are not receiving compensation from either the department of health and human services or the department of safety, other than possible reimbursement for expenses actually incurred for such services, such as travel expenses, but who may be receiving compensation from his or her regular employer or from any other source.

Amend the bill by replacing section 3 with the following:

3 New Section; Agents Assisting the Departments of Health and Human Services and Safety; Liability Limited. Amend RSA 508 by inserting after section 17 the following new section: 508:17-a Agents Assisting Certain State Departments; Liability Limited.

I. Any person who acts as an agent to the department of health and human services or the department of safety by providing assistance in response to a specific public health or public safety incident shall be protected from claims and civil actions arising from acts committed within the scope of his or her official duty as an agent to such departments to the same extent as state officers, trustees, officials, employees, and members of the general court under RSA 99-D, provided that:

(a) The commissioner of the department of health and human services or the commissioner of the department of safety has declared in writing to the governor that a public health or public safety incident exists;

(b) The department of health and human services or the department of safety has designated the person to act as its agent to assist in responding to the public health or public safety incident;

(c) The agent was acting in good faith and within the scope of his or her official functions and duties as an agent to the department of health and human services or the department of safety; and

(d) The damage or injury was not caused by willful, wanton, or grossly negligent misconduct by the agent.

II. In this section:

(a) "Agent" means any person who acts as an agent to the department of health and human services or the department of safety by providing assistance in response to a specific public health or public safety incident and the person does not receive compensation from either department, other than possible reimbursement for expenses actually incurred for such services, but who may be receiving compensation from his or her employer or from any other source.

(b) "Damage or injury" includes physical, nonphysical, economic and noneconomic damage, and property damage.

(c) "Public health or public safety incident" means a specific incident that the commissioner of the department of health and human services or the commissioner of the department of safety has declared in writing poses a threat to the health and safety of the public and demands a response that will require the assistance of agents from outside the state system, but which does not rise to the level that would necessitate the declaration of a state of emergency by the governor under RSA 4:45.

III. Notwithstanding any other provision of law, no person shall be considered an agent of the department of health and human services or the department of safety for the purposes of this section unless the commissioner of one of those 2 departments has declared in writing to the governor that a public health or public safety incident exists and the appropriate department acknowledges in writing the person's status as an agent. Such written acknowledgment shall identify the person, indicate the department of the state for which the person will be acting as an agent, indicate the duration for which the person will be acting as an agent, indicate the functions that the person will be performing for the appropriate department, and specifically indicate that the provisions of this section apply to the person's status as an agent to the appropriate department.

IV. Any licensed health care provider who acts as an agent to the department of health and human services by providing health care or services in response to a public health incident shall work under the oversight of a department physician.

V. No disciplinary action shall be taken by a licensing board against a licensed health care provider who acted as an agent or a volunteer to the department of health and human services or the department of safety. This paragraph shall apply only to a health care provider who was designated by either the department of health and human services or the department of safety to act as an agent in accordance with paragraph III and who acted in good faith within the scope of his or her official functions and duties as an agent, and who did not engage in willful, wanton, or grossly negligent conduct in the course of carrying out his or her official functions and duties.

AMENDED ANALYSIS

This bill provides workers' compensation coverage to persons acting as volunteers for the department of health and human services and the department of safety in the event of a public health or a public safety incident. This bill also limits liability for such volunteers.

This bill is a request of the department of health and human services.

CACR 5, relating to the size of the house of representatives and compensation of the legislature. Providing that the number of representatives be reduced to 100 and that compensation shall be an average daily wage of the citizens of the state. **INEXPEDIENT TO LEGISLATE**

Rep. Betsy McKinney for Legislative Administration: This CACR proposed reducing the size of the House and paying legislators "an average daily wage." The committee is retaining CACR 11 for further study as it seemed to have a more practical approach. Vote 9-1.

CACR 18, relating to compensation for members of the general court. Providing that members of the general court shall receive \$4,000 per biennium. **INEXPEDIENT TO LEGISLATE**

Rep. Betsy McKinney for Legislative Administration: We had four bills dealing with legislative compensation this year. In deference to the many concerns, the committee has retained CACR 11 to look at all these proposals in depth. Vote 12-0.

HCR 2, declaring October 27 to be Boston Red Sox Day. **OUGHT TO PASS**

Rep. Michael S. Rollo for Legislative Administration: This bill honors the tremendous comeback of the Boston Red Sox to beat the New York Yankees for the American League Pennant, and for beating the St. Louis Cardinals in the World Series. After waiting 86 years, the General Court of New Hampshire wants to extend its appreciation and wish them continued success in the upcoming season. Vote 10-2.

SJR 1, declaring the month of April 2005 to be Boston Red Sox Month. **OUGHT TO PASS**
Rep. Carlos E. Gonzalez for Legislative Administration: In the spirit of reciprocity with the Senate, we in New Hampshire want to honor the Red Sox for years of pleasure and the delight we all share with their World Series Championship at last! Vote 9-2.

HB 34, relative to certain land sales in towns with planning boards. **INEXPEDIENT TO LEGISLATE**

Rep. Harry S. Gale for Municipal and County Government: In 1970, the Land Sales Full Disclosure Act was created to protect consumers under RSA 356-A under the Consumer Protection and Antitrust Bureau of the Attorney General's office by proving that the developer is financially capable of completing the promised improvement. This bill proposed to exempt all subdivisions in a municipality that had a planning board. However, the committee still had concerns that the removal of the oversight of the AG's office would add a burden and liability on the municipalities that does not now exist. In light of possible unintended consequences and added expenditure at the local level, the committee recommended that the bill be Inexpedient to Legislate. Vote 18-0.

HB 287, ratifying the purchase of a certain property by the town of Canaan. **INEXPEDIENT TO LEGISLATE**

Rep. Eric G. Stohl for Municipal and County Government: This bill is a result of a purchase of land in the town of Canaan to give road access to the town landfill. The Board of Selectmen bought the parcel of land in August of 2004 for \$3200 without authorization from the legislative body. The town administrator told the committee that the Selectmen chose not to put a warrant article on the ballot for this year. The committee felt that if we ratified this purchase without having any technicality, other than a decision not to put the question on the ballot, it would be setting a horrible precedent. The committee unanimously voted to recommend Inexpedient to Legislate. Vote 14-0.

HB 311-L, enabling towns to establish revolving funds for certain purposes. **OUGHT TO PASS WITH AMENDMENT**

Rep. Peter B. Schmidt for Municipal and County Government: This bill enables towns to establish revolving funds for recycling, ambulance service, or safety services. Such activities are difficult to anticipate up to one year in advance. The committee heard compelling testimony that a revolving fund permits a much more rational and effective method of handling certain specific revenues and expenditures, while maintaining oversight, control and approval by the legislative body. Vote 16-0.

Amendment (0634h)

Amend the bill by replacing all after the enacting clause with the following:

I New Section; Revolving Funds. Amend RSA 31 by inserting after section 95-g the following new section:

31:95-h Revolving Funds.

I. A town may, by vote of the legislative body, establish a revolving fund. Each revolving fund shall be limited to one of the following purposes:

- (a) Facilitating or encouraging recycling as defined in RSA 149-M:4;
- (b) Providing ambulance services; or

(c) Providing public safety services by municipal employees or volunteers outside of the ordinary detail of such persons, including but not limited to public safety services in connection with special events, highway construction, and other construction projects.

II. If a town establishes a revolving fund for any of the purposes listed in paragraph 1, it may deposit into the fund all or any part of the revenues from fees, charges, or other income derived from the activities or services supported by the fund, and any other revenues approved by the legislative body for deposit into the fund. The money in the fund shall be allowed to accumulate from year to year, and shall not be considered part of the town's general surplus. The town treasurer shall have custody of all moneys in the fund, and shall pay out the same only upon order of the governing body, or other board or body designated by the local legislative body at the time the fund is created; provided, that no further approval of the legislative body, if different from the governing body, shall be required. Such funds may be expended only for the purposes for which the fund was created.

III. The legislative body may, at the time it establishes a revolving fund or at any time thereafter, place limitations on expenditures from the fund including, but not limited to, restrictions on the types of items or services that may be purchased from the fund, limitations on the amount of

any single expenditure, and limitations on the total amount of expenditures to be made in a year. No amount may be expended from a revolving fund established hereunder for any item or service for which an appropriation has been specifically rejected by the legislative body during the same year.

IV. The provisions of this section shall not preclude the establishment of a revolving fund for any other purpose authorized by law.

2 Effective Date. This act shall take effect 60 days after its passage.

HB 336, relative to the use of secret ballots at town meetings. **INEXPEDIENT TO LEGISLATE**
Rep. Stephen G. Prichard for Municipal and County Government: This bill would establish a new procedure for the use of secret ballots on questions seeking the appropriation of \$100,000 or more at town meetings. The sponsors asked the committee to find the bill 'Inexpedient to Legislate' so they can rework it and present it at a later time. Vote 17-0

HB 359, relative to hardship variances. **OUGHT TO PASS WITH AMENDMENT**
Rep. Eric G. Stohl for Municipal and County Government: The purpose of this bill is to reverse some recent decisions of the New Hampshire Supreme Court that have created unnecessary complexity in the law of zoning variances, and have made zoning area requirements all but impossible to enforce. The court created a brand new test for "unnecessary hardship" in the case of area variances different than is the case for use variances. In order to grant a variance using the "unnecessary hardship" criteria has to be based on the unique and particular characteristics of the property, the board has to find the property cannot be reasonably used in strict conformity with the ordinance, and a variance is thus necessary in order to establish a reasonable and economically viable use of the property, or there is no fair and substantial relationship exists between the general public purposes of the ordinance provision involved and the specific application of that provision to the particular property, and the proposed use is otherwise a reasonable one. This meaning of "unnecessary hardship" shall apply to both use variances and area variances. The committee agrees that it is necessary to have the legislature make land use policy instead of the courts. Vote 17-0.

Amendment (0735h)

Amend the title of the bill by replacing it with the following:

AN ACT defining "unnecessary hardship" for purposes of zoning variances.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subparagraph; Powers of Zoning Board of Adjustment; Variance; Unnecessary Hardship. Amend RSA 674:33, I by inserting after subparagraph (b) the following new subparagraph:

(c)(1) For purposes of this subparagraph "unnecessary hardship" shall mean that because of the unique and particular characteristics of a property, its setting, and environment, the board finds that:

(A) The property cannot be reasonably used in strict conformance with the ordinance and a variance is necessary to enable a reasonable and economically viable use of it; or

(B) No fair and substantial relationship exists between the general public purposes of the ordinance provision and the specific application of the provision to the property and the proposed use is a reasonable one.

(C) The variance will not injure the public or private rights of others.

(2) "Unnecessary hardship" as defined in subparagraph (c)(1) shall apply to both use variances and area variances.

2 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill defines an unnecessary hardship for a zoning variance as an application of the ordinance that denies the landowner a reasonable and economically viable use of a property or one that has no fair and substantial relationship between the public purposes of the ordinance and its application to the property. This bill also provides that a variance shall not injure the rights of others.

HB 360, relative to the amendability of warrant articles requesting appropriations in official ballot towns. **INEXPEDIENT TO LEGISLATE**

Rep. Nancy K. Johnson for Municipal and County Government: This bill restricts the amount of the appropriation in an amended official ballot warrant article from deviating more than 10% from the original warrant article amount. The committee felt that this limits the voters at the deliberative session to amend appropriation warrant articles when it is necessary to do so for good reasons. Vote 15-0.

HB 369, relative to notice requirements for public hearings on zoning amendments. **INEXPEDIENT TO LEGISLATE**

Rep. Eric G. Stohl for Municipal and County Government: What this bill seeks to do is require planning boards to notify the owners of all parcels and all abutting parcels affected by proposed zoning change before holding a hearing on the change. The sponsor's reason for the bill was because in charter towns, citizens cannot vote on zoning changes. RSA 672:2 and RSA 675:3 allow the citizens of cities and towns not operating under a charter form of government to be able to vote on the establishment or amendment of a zoning ordinance. The committee feels that charter towns can change their charter to mirror either of these laws if they wish to. The committee further feels that there are unfunded mandated issues in reference to the costs incurred by the municipalities in the research of all parcel owners that the zoning change may affect as well the cost involved in the mailing of the notices. Vote 14-1.

HB 394, relative to real estate tax lien procedures for tax collectors. **OUGHT TO PASS WITH AMENDMENT**

Rep. Eric G. Stohl for Municipal and County Government: This bill attempts to do two things. First of all, it addresses a difference in language between two laws that apply to tax liens. It changes the language in RSA 80:64 to mirror the language that is in RSA 80:60. This change was a recommendation of the New Hampshire Tax Collectors Association. The committee feels this change would assist the tax collector in performing their job more effectively. The second thing this bill wishes to do is extend the timeframe in which the tax collector has to notify the register of deeds. The amendment removes the extended time frame because the committee felt that an additional delay in this notification may delay any actions that the owner may have for the property in question, such as jeopardizing the possible sale. Vote 12-1.

Amendment (0858h)

Amend the bill by deleting section 2 and renumbering the original section 3 to read as 2.

AMENDED ANALYSIS

This bill requires tax collectors to report the names of current owners of property subject to a tax lien.

HB 412, relative to the authority of zoning boards of adjustment to grant variances. **INEXPEDIENT TO LEGISLATE**

Rep. David L. Buhlman for Municipal and County Government: There have been recent Supreme Court decisions that have dramatically changed the way the local zoning boards look at way they grant variances to the zoning ordinances. This bill proposed one solution by clarifying the "unnecessary hardship" finding that the board must find to grant a variance. The committee also heard HB 359 which discussed the same issue. Both bills addressed clarification to the unnecessary hardship finding but the committee agreed that the solution in HB 359 was the best way to address the courts' changing of the variance procedure. Vote 16-0.

HB 429, relative to representation by nonattorneys before the board of tax and land appeals. **OUGHT TO PASS WITH AMENDMENT**

Rep. David L. Buhlman for Municipal and County Government: As introduced, HB 429 was to allow nonattorneys to represent taxpayers who have utilized tax-related appeals before the Board of Tax and Land Appeal (BTLA). Nonattorneys are now allowed to represent taxpayers before the BTLA in land tax disputes. The chairman of the BTLA supported this change, and the committee agreed unanimously. The amendment clarifies the legislative intent regarding the filing of a declaration of taking so that if the board determines that a more specific declaration of taking is required there is adequate authority for the BTLA to request more information. This recommendation originated at the suggestion of the Attorney General's office, and the committee agreed that reinforcing this authority in legislation was beneficial. Vote 15-0.

Amendment (0510h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to representation by nonattorneys before the board of tax and land appeals and relative to condemnation proceedings conducted by the board of tax and land appeals.

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 4:

2 Condemnation; Passage of Title; Declaration of Taking. Amend RSA 498-A:5, I-II to read as follows:

I. Condemnation, under the power of condemnation given by law to a condemnor, which shall not be enlarged or diminished hereby, shall be effected only by the filing in the board of a declaration of taking, with sufficient copies for giving notice as required by RSA 498-A:8[~~together with such~~]. *The declaration shall be considered filed after receipt by the board and review by the board for compliance with paragraph II. If the board finds the declaration of taking is not compliant with paragraph II, the board may direct the filing of a more specific declaration of taking. After the giving of any bond and security as may be required under RSA 498-A:6, [and thereupon]* the title which the condemnor seeks in the property condemned shall pass to the condemnor on the date of such filing, and the condemnor shall be entitled to possession as provided in RSA 498-A:11. A declaration may include more than one parcel and multiple condemnees so long as the identity of the property taken of each condemnee [is] *and the nature of their interests* are readily ascertainable.

II. The declaration of taking shall be in writing and executed by the condemnor, shall be captioned as a proceeding in rem and shall contain the following:

(a) The name and address of the condemnor;

(b) *The name and address of each condemnee and the nature of each condemnee's interest;*

[~~(b)~~] (c) A specific reference to the statute, chapter and section thereof, under which the condemnation is authorized;

[~~(c)~~] (d) A specific reference to the action, whether by ordinance, resolution or otherwise, by which the declaration of taking was authorized, including the date when such action was taken, and the place where the record thereof may be examined;

[~~(d)~~] (e) A brief description of the purpose of the condemnation and the need therefor;

[~~(e)~~] (f) A description and plan of the property taken sufficient for the identification thereof, specifying the town, city and county wherein the property taken is located; and

[~~(f)~~] (g) A statement of the nature of the property being taken.

3 Board Action. Amend RSA 498-A:24 to read as follows:

498-A:24 Board Action. Upon receipt of the filing of a declaration of taking, *and after any preliminary objections under RSA 498-A:9-a have been concluded*, the board shall forthwith fix a time for hearing the parties on the issue of just compensation, and shall give notice thereof to all persons named in the declaration of taking as condemnor and as condemnee, and otherwise as justice may require. Such service shall be made in the manner prescribed in RSA 498-A:4, and shall be given at least 30 days prior to the date set for the hearing. The board may, after notice to all parties, upon its own motion or motion of any party, make such order for consolidation of any of the cases pending before it as justice and convenience requires.

AMENDED ANALYSIS

This bill permits nonattorneys to represent taxpayers in utility property tax appeals before the board of tax and land appeals.

The bill also clarifies requirements for certain condemnation proceedings conducted by the board of tax and land appeals.

HB 436, relative to the appointment of representatives to the regional planning commissions. **INEXPEDIENT TO LEGISLATE**

Rep. Nancy K. Johnson for Municipal and County Government: This bill would permit the appointment of municipal employees to regional planning commissions. Currently, only residents of a community can become a commissioner. The resident can be an elected or an appointed person, but not an employee. The majority of the committee felt that an employee's position and potential relationship to his or her employer may be jeopardized by passing this bill. Vote 15-1.

HB 437, relative to the disposition of municipal records. **OUGHT TO PASS WITH AMENDMENT**
Rep. Harry S. Gale for Municipal and County Government: The Municipal Records Board (MRB) was created in 1977 to establish standards for determining what municipal records should be retained or destroyed. The established standards provided a retention time frame for those retained records. This bill also sets up a time frame for records that are created in an electronic format. In

doing so it requires any electronically-created record to be transferred to paper, microfilm, or both if it is to be retained for more than ten years. The retention schedule was then published as administrative rules in 1981, 1984 and 1995. Due to the fact that the responsibility for these municipal records is being transferred to the office of the Secretary of State, there was a need to remove them from administrative rules and place them into statute. The reason for this is that the Secretary of State does not function under administrative rules. The committee voted unanimously to support the concept and work of the ad hoc committee. Vote 16-0.

Amendment (0372h)

Amend the bill by replacing all after section 2 with the following:

3 New Section; Disposition and Retention Schedule. Amend RSA 33-A by inserting after section 3 the following new section:

33-A:3-a Disposition and Retention Schedule. The municipal records identified below shall be retained, at a minimum, as follows:

I. Abatements: 5 years.

II. Accounts receivable: until audited plus one year.

III. Aerial photographs: permanently.

IV. Airport inspections-annual: 3 years.

V. Airport inspections-daily, including fuel storage and vehicles: 6 months.

VI. Annual audit report: 10 years.

VII. Annual reports, town warrants, meeting and deliberative session minutes in towns that have adopted official ballot voting: permanently.

VIII. Archives: permanently.

IX. Articles of agreement or incorporation: permanently.

X. Bank deposit slips and statements: 6 years.

XI. Blueprints-architectural: life of building.

XII. Bonds and continuation certificates: expiration of bond plus 2 years.

XIII. Budget committee-drafts: until superseded.

XIV. Budgets: permanently.

XV. Building permits-applications and approvals: permanently.

XVI. Building permits-lapsed: permanently.

XVII. Building permits-withdrawn, or denied: one year.

XVIII. Capital projects and fixed assets that require accountability after completion: life of project or purchase.

XIX. Cash receipt and disbursement book: 6 years after last entry, or until audited.

XX. Checks: 6 years.

XXI. Code enforcement specifications: permanently.

XXII. Complaint log: expiration of appeal period.

XXIII. Contracts-completed awards, including request for purchase, bids, and awards: life of project or purchase.

XXIV. Contracts-unsuccessful bids: completion of project plus one year.

XXV. Correspondence by and to municipality-administrative records: minimum of one year.

XXVI. Correspondence by and to municipality-policy and program records: follow retention requirement for the record to which it refers.

XXVII. Correspondence by and to municipality-transitory: retain as needed for reference.

XXVIII. Current use applications and maps: until removed from current use plus 3 years.

XXIX. Current use card: until removed from current use plus 3 years.

XXX. Deed grantee/grantor listing from registry, or copies of deeds: discard after being updated and replaced with a new document.

XXXI. Deferred compensation plans: 7 years.

XXXII. Dig safe forms: 4 years.

XXXIII. Dredge and fill permits: 4 years.

XXXIV. Driveway permits and plans: permanently.

XXXV. Easements awarded to municipality: permanently.

XXXVI. Elections-federal elections ballots: 22 months after election.

XXXVII. Elections-not federal, all other ballots: 60 days after election.

XXXVIII. Elections-challenge affidavits: one year after election.

- XXXIX. Elections-ward maps: until revised plus 1 year.
 - XL. Emergency medical services run reports: 10 years.
 - XLI. Equipment maintenance: life of equipment.
 - XLII. Excavation tax warrant and book or list: permanently.
 - XLIII. Federal form 1099s and W-2s: 7 years.
 - XLIV. Federal form 941: 7 years.
 - XLV. Federal form W-1: 4 years.
 - XLVI. Fire calls/incident reports: 10 years.
 - XLVII. Grants, supporting documentation: follow grantor's requirements.
 - XLVIII. Grievances: expiration of appeal period.
 - XLIX. Health-complaints: expiration of appeal period.
 - L. Health-inspections: 3 years.
 - LI. Health-service agreements with state agencies: term plus 7 years.
 - LII. Health and human services case records: active plus 7 years.
 - LIII. Inspections-bridges and dams: permanently.
 - LIV. Insurance policies: permanently.
 - LV. Intent to cut trees or bushes: 3 years.
 - LVI. Intergovernmental agreements: end of agreement plus 3 years.
 - LVII. Investigations-fire: permanently.
 - LVIII. Invoice, assessors: permanently.
 - LIX. Invoices and bills: until audited plus one year.
 - LX. Job applications-successful: retirement or termination plus 50 years.
 - LXI. Job applications-unsuccessful: current year plus 3 years.
 - LXII. Labor-public employees labor relations board actions and decisions: permanently.
 - LXIII. Labor union negotiations: permanently or until contract is replaced with a new contract.
 - LXIV. Ledger and journal entry records: until audited plus one year.
 - LXV. Legal actions against the municipality: permanently.
 - LXVI. Library:
 - (a) Registration cards: current year plus one year.
 - (b) User records: not retained; confidential pursuant to RSA 201-D:11.
 - LXVII. Licenses-all other except dog, marriage, health, and vital records: duration plus 1 year.
 - LXVIII. Licenses-dog: current year plus one year.
 - LXIX. Licenses-dog, rabies certificates: disposal once recorded.
 - LXX. Licenses-health: current year plus 6 years.
 - LXXI. Liens-federal liens upon personal property, other than IRS liens: permanently.
 - LXXII. Liens-hospital liens: 6 years.
 - LXXIII. Liens-IRS liens: one year after discharge.
 - LXXIV. Liens-tax liens, state liens for support of children: until court order is lifted plus one year.
 - LXXV. Liens-tax liens, state meals and rooms tax: until release plus one year.
 - LXXVI. Liens-tax sale and record of lien: permanently.
 - LXXVII. Liens-tax sales/liens redeemed report: permanently.
 - LXXVIII. Liens-Uniform Commercial Code leases: lease term plus 4 years; purge all July 1, 2007.
 - LXXIX. Liens-Uniform Commercial Code security agreements: 6 years; purge all July 1, 2007.
 - LXXX. Meeting minutes, tape recordings: keep until written record is approved at meeting.
- As soon as minutes are approved, either reuse the tape or dispose of the tape.
- LXXXI. Minutes of boards and committees: permanently.
 - LXXXII. Minutes of town meeting/council: permanently.
 - LXXXIII. Minutes, selectmen's: permanently.
 - LXXXIV. Motor vehicle-application for title: until audited plus one year.
 - LXXXV. Motor vehicle-titles and voided titles: sent to state division of motor vehicles.
 - LXXXVI. Motor vehicle permits-void and unused: until audited plus one year.
 - LXXXVII. Motor vehicle permits and registrations-used: current year plus 3 years.
 - LXXXVIII. Municipal agent daily log: until audited plus one year.
 - LXXXIX. Notes, bonds, and municipal bond coupons-cancelled: until paid and audited plus one year.
 - XC. Notes, bonds and municipal bond coupon register: permanently.
 - XCI. Oaths of office: term of office plus 3 years.

- XCII. Ordinances: permanently.
- XCIII. Payrolls: until audited plus one year.
- XCIV. Perambulations of town lines-copy kept by town and copy sent to secretary of state: permanently.
- XCV. Permits or licenses, pole: permanently.
- XCVI. Personnel files: retirement or termination plus 50 years.
- XCVII. Police, accident files-fatalities: 10 years.
- XCVIII. Police, accident files-hit and run: statute of limitations plus 5 years.
- XCIX. Police, accident files-injury: 6 years.
- C. Police, accident files-involving arrests: 6 years.
- CI. Police, accident files-involving municipality: 6 years.
- CII. Police, accident files-property damage: 6 years.
- CIII. Police, arrest reports: permanently.
- CIV. Police, calls for service/general service reports: 5 years.
- CV. Police, criminal-closed cases: statute of limitations plus 5 years.
- CVI. Police, criminal-open cases: statute of limitations plus 5 years.
- CVII. Police, motor vehicle violation paperwork: 3 years.
- CVIII. Police, non-criminal-internal affairs investigations: as required by attorney general and union contract and town personnel rules.
- CIX. Police, non-criminal-all other files: closure plus 3 years.
- CX. Police, pistol permit applications: expiration of permit plus one year.
- CXI. Property inventory: 5 years.
- CXII. Property record card: permanently.
- CXIII. Property record map, assessors: until superceded.
- CXIV. Property tax exemption applications: transfer of property plus one year.
- CXV. Records management forms for transfer of records to storage: permanently.
- CXVI. Road and bridge construction and reconstruction, including highway complaint slips: 6 years.
- CXVII. Road layouts and discontinuances: permanently.
- CXVIII. Scenic roads: permanently.
- CXIX. School records: retained as provided under RSA 189:29-a.
- CXX. Septic plan approvals and plans: until replaced or removed.
- CXXI. Sewer system filtration study: permanently.
- CXXII. Sign inventory: 7 years.
- CXXIII. Site plan review: life of improvement plus 3 years.
- CXXIV. Site plan review-lapsed: until notified that planning board action and appeal time has expired plus one year.
- CXXV. Site plan review-withdrawn or not approved: appeal period plus one year.
- CXXVI. Special assessment (betterment of property): 20 years.
- CXXVII. Street acceptances: permanently.
- CXXVIII. Street signs, street lights and traffic lights-maintenance records: 10 years.
- CXXIX. Subdivision applications-lapsed: until notified that planning board action and appeal period has expired plus one year.
- CXXX. Subdivision applications-successful and final plan: permanently.
- CXXXI. Subdivision applications-withdrawn, or not approved: expiration of appeal period plus one year.
- CXXXII. Subdivision applications-working drafts prior to approval: expiration of appeal period.
- CXXXIII. Summary inventory of valuation of property: one year.
- CXXXIV. Tax maps: permanently.
- CXXXV. Tax receipts paid, including taxes on land use change, property, resident, sewer, special assessment, and yield tax on timber: 6 years.
- CXXXVI. Tax-deeded property file (including registered or certified receipts for notifying owners and mortgagees of intent to deed property): permanently.
- CXXXVII. Time cards: 4 years.
- CXXXVIII. Trust fund minutes, quarterly reports, and bank statements: permanently.
- CXXXIX. Vehicle maintenance records: life of vehicle plus 2 years.
- CXL. Voter checklist-marked copy kept by town pursuant to RSA 659:102: 5 years.

CXLI. Voter registration:

(a) Purged record cards: 5 years.

(b) Same day, returned to undeclared status: 5 years.

CXLII. Vouchers and treasurers receipts: until audited plus one year.

CXLIII. Warrants-land use change, and book or list: permanently.

CXLIV. Warrants-property tax, and lists: permanently.

CXLV. Warrants-resident tax, and book or list: permanently.

CXLVI. Warrants-town meeting: permanently.

CXLVII. Warrants-treasurer: until audited plus one year.

CXLVIII. Warrants-utility and betterment tax: permanently.

CXLIX. Warrants-yield tax, and book or list: permanently.

CL. Welfare department vouchers: 4 years.

CLl. Work program files: current year plus 6 years.

CLII. Writs: expiration of appeal period plus one year.

CLIII. Zoning board of adjustment applications, decisions, and permits-unsuccessful: expiration of appeal period.

4 Powers and Duties of Municipal Records Board; Reference to Rulemaking Deleted. Amend RSA 33-A:4-b to read as follows:

33-A:4-b Powers and Duties of Board. The board shall ~~[by rule establish]~~ *advise the secretary of state on standards[;] and procedures[; and regulations]* for the effective and efficient management of municipal records. Such standards[;] ~~and procedures[; and regulations]~~ shall govern the retention, preservation and disposition of municipal records. ~~[The statutory standards for retention, preservation and disposition of municipal records in effect at the time of passage of this section shall remain effective until superseded by rules promulgated by the board.]~~ The board shall oversee the local government records management improvement program as provided in RSA 5:47-5:51.

5 New Section; Disposition of Municipal Records; Electronic Records. Amend RSA 33-A by inserting after section 5 the following new section:

33-A:5-a Electronic Records. Records created in electronic format and designated on the disposition schedule under RSA 33-A:3-a to be retained for more than 10 years shall be transferred to paper, microfilm, or both. Electronically-created records designated on the disposition schedule to be retained for less than 10 years may be retained solely electronically if so approved by the record committee of the municipality responsible for the records. The municipality is responsible for assuring the accessibility of the records for the mandated period.

6 Effective Date. This act shall take effect 60 days after its passage.

HB 480, relative to innovative land use controls. OUGHT TO PASS WITH AMENDMENT

Rep. Laurie J. Boyce for Municipal and County Government: The Village Plan Alternative was added to the innovative land use controls in 2002 which allowed a town to adopt this land use procedure under its zoning powers. The bill adds clarity to RSA 674:21, V by removing the requirement for an expedited process, making section (c) paragraph easier to understand by splitting it into sections and adding that the setbacks to new construction within a village plan alternative may be increased by up to two times the distance required by the current regulations. The Village Plan Alternative has to be adopted by the local legislative body which makes this innovative land use control enabling. Vote 16-0.

Amendment (0585h)

Amend RSA 674:21, VI(e) as inserted by section 2 of the bill by replacing it with the following:

(e) The approving authority may increase, at existing property lines, the setback to new construction within a village plan alternative subdivision by up to 2 times the distance required by current zoning or subdivision regulations, subject to the provisions of subparagraph (c).

HB 534, relative to requirements of property appraisal companies. INEXPEDIENT TO LEGISLATE

Rep. Laurie J. Boyce for Municipal and County Government: There is great anxiety about the process of making appraisals in the State of New Hampshire. This bill would require any person, firm or corporation, which includes any municipal assessor, to do three things: implement procedures to answer questions and complaints; make marketing information available about setting values; and send a draft copy to each taxpayer of the property record card prior to adoption by the governing body. The committee realizes that two of these issues are al-

ready possible at the local level by including them in the contract, if an outside firm is used, or by having the governing body implement the procedures. The last requirement of sending out draft copies is viewed by the committee as an unfunded mandate Vote 16-0.

HB 548, allowing municipalities to include in property tax inventory the value of new construction assessed as of July 1. **INEXPEDIENT TO LEGISLATE**

Rep. Eric G. Stohl for Municipal and County Government: This bill would allow municipalities to include in the property tax inventory the values of any new construction that is completed as of July 1 of any year. Present law states that April 1st will be the date that property values are determined and assessed. Due to the fact that most construction in New Hampshire occurs from April to November, the sponsor testified that maybe if the state set values July 1st rather than April 1st municipalities would gain more taxable property. The committee received further testimony that first of all, this "earlier" tax money would only be a benefit for the first year and developers could circumvent the system by simply waiting until after July 1st in those municipalities that wish to enact this proposed legislation. The committee further feels the changing of numerous statutes from April 1st to July 1st would not be worth the limited additional funding that some municipalities may receive. Vote 15-1.

HB 549, modifying notice requirements for the acceptance of unanticipated funds by a school district. **OUGHT TO PASS WITH AMENDMENT**

Rep. Stephen G. Prichard for Municipal and County Government: This bill establishes provisions for the acceptance of unanticipated funds in school districts, cities and towns. The amendment simply adds libraries to the list of those who can receive gifts under \$5,000 without having to put an official notice in the local newspaper for a public hearing. While notification and public hearings will still be needed to allow residents to know about and speak to the nature and use of gifts this notification can now be done by listing 'gift hearings' on posted agendas at town meetings and designated public sites around town. Some cities and municipalities receive hundreds of small gifts and donations each year ranging from \$20 to several hundred dollars. To pay \$100 to a local newspaper to announce a public hearing on a \$50 gift seems unreasonable. Gifts over \$5000 will still have to have a newspaper announced public hearings. Vote 15-1.

Amendment (0671h)

Amend the title of the bill by replacing it with the following:

AN ACT modifying notice requirements for the acceptance of unanticipated funds by a school district, city, town, or public library.

Amend the bill by inserting after section 2 the following and renumbering the original section 3 to read as 4:

3 Public Libraries; Trustees' Authority to Accept and Expend Gifts. Amend RSA 202-A:4-c, III to read as follows:

III. (a) *For unanticipated moneys in the amount of \$5,000 or more*, the public library trustees shall hold a prior public hearing on the action to be taken. Notice of the time, place, and subject of such hearing shall be published in a newspaper of general circulation in the relevant municipality at least 7 days before the hearing is held.

(b) *For unanticipated moneys of less than \$5,000, the public library trustees shall post notice of the moneys in the public library trustees agenda, if any, and shall include notice in the minutes of the public library trustees meeting in which such moneys are discussed. The acceptance of unanticipated moneys under this subparagraph shall be made in public session of any regular public library trustees meeting.*

AMENDED ANALYSIS

This bill establishes provisions for the acceptance of unanticipated funds in school districts, cities, towns, or public libraries.

HB 569, allowing municipalities to adopt low and moderate income homeowner's property tax relief for local education property taxes. **INEXPEDIENT TO LEGISLATE**

Rep. Nancy K. Johnson for Municipal and County Government: This bill allows municipalities to adopt low and moderate income homeowner's property tax relief for local education property taxes. The proposed program mirrors programs we currently have as a result of the state-wide education property tax. The committee recognized a number of problems, including that it shifts the tax burden and it is premature, given we still have a statewide education property tax. Vote 14-0.

HB 570, relative to site plan review and the definition of inclusionary zoning. **OUGHT TO PASS WITH AMENDMENT**

Rep. Mary R. Cooney for Municipal and County Government: This bill would enable municipalities to require applicants for the development or change of use for non-residential users or multi-family dwelling units to present a conceptual preliminary review to the planning board at a public hearing. Because there has been some confusion regarding the procedures when using the words "preliminary" and "preapplication" the committee agreed that "preliminary" is the more appropriate word to use when dealing with the local planning board's procedures on site plan review. The committee agreed that the board should be able to require review prior to accepting the submitted application. In order to be clear the amendment changed the word "preapplication" to "preliminary" in RSA 676:4 which deals with the planning board's procedure on subdivision. This would be advantageous to both the developer and the municipality in making sound judgment. Vote 16-0.

Amendment (0781h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to preliminary site plan review and the definition of inclusionary zoning.

Amend the bill by replacing section 3 with the following:

3 Board's Procedures on Plats.; Preliminary Review. Amend the introductory paragraph of RSA 676:4, II to read as follows:

II. A planning board may provide for [~~preapplication~~] *preliminary* review of applications and plats by specific regulations subject to the following:

Amend the bill by inserting after section 3 the following and renumbering the original section 4 to read as 5:

4 Board's Procedures on Plats; Preapplication Changed to Preliminary. Amend RSA 676:4, II(c) to read as follows:

(c) [~~Preapplication~~] *Preliminary* review shall be separate and apart from formal consideration under paragraph I, and the time limits for acting under subparagraph I(c) shall not apply until formal application is submitted under subparagraph I(b).

AMENDED ANALYSIS

This bill allows a planning board to require preliminary review of a site plan.

HB 572, granting regional water districts the power of eminent domain. **INEXPEDIENT TO LEGISLATE**

Rep. Stephen G. Prichard for Municipal and County Government: This bill would grant to a regional water district the right of eminent domain. While the committee was sympathetic to any water district's need to acquire good water for its residents, this bill is a "minefield of mischief." It would give enormous power to a water district, for good and for evil. The committee was most concerned about the possible misuse of this power. While it might make it easier for a water district to acquire land for wells and watersheds, it would also make it possible to take over a private well or even a local water company without much accountability. The municipalities in which water districts exist already have the power of eminent domain. And while it is more difficult for a water district to go through the municipal process of convincing the town leaders and residents through hearings, studies and finally votes to take the necessary property for the production of good water, that process does provide constraint on possible abuse and better assures that property owners rights and voters preferences will be respected. So the committee was primarily concerned about two matters: preserving local control and making sure that water districts were held accountable to the municipalities they serve. Vote 16-0.

HB 641-FN, establishing a statewide homestead exemption against property taxes for seniors. **INEXPEDIENT TO LEGISLATE**

Rep. Laurie J. Boyce for Municipal and County Government: This bill established a statewide homestead exemption for residential property of persons 65 years of age or older. It further states that the person seeking the exemption must own the property for at least 10 years. Municipalities may assist their citizens that are 65 years of age or older now without this legislation. This bill is not enabling; it mandates this exemption. This bill increases administrative costs for the municipalities therefore raising unfunded mandate issues. In addition, the bill would shift the tax burden to other taxpayers within the municipality. Vote 14-0.

HB 660-FN-L, relative to taxation in a cooperative school district. **INEXPEDIENT TO LEGISLATE**
Rep. Paul R. Hopfgarten for Municipal and County Government: This bill would dramatically change the way in which property taxes are collected in cooperative school districts. Student numbers attending from the various towns within a district would no longer be a consideration, and the equalized tax rate for each town would be identical, regardless of total assessed value or student population sent from a sending town. The committee believes that since all cooperative school districts established at the time of this bill had done so with the understanding of the conditions of each district, that passage of this legislation could place all currently established cooperative school districts in turmoil. Vote 12-1.

HB 666-FN-L, prohibiting taxation of a village district by a municipality for certain municipal services. **INEXPEDIENT TO LEGISLATE**

Rep. Robert W. Brundige for Municipal and County Government: A village district is created for specific purposes and is not always contained within one town. Examples of these purposes may be fire suppression, sewer and waste treatment plants or water supply. In municipalities that do not have village districts these services and many others are supported through property taxation equally. This bill would have prohibited a town or towns that have a village district within their region from taxing a village district for those types of municipal services. It would be difficult for a given municipality to determine the appropriate basis for discounting taxes payable by residents of a village district due to the discontinuance of services by that municipality. Depending on the purpose for which the village district is formed, there may not be a complete separation between services divided by the municipality and by the village district. Vote 14-0.

HB 709-FN-L, relative to records of assessment information available for inspection. **INEXPEDIENT TO LEGISLATE**

Rep. Nancy K. Johnson for Municipal and County Government: This bill would require property assessment cards to include an explanation of the terms and annotations used and to identify changes in red with the date the change was made. Virtually all valuation cards are computer generated, and this requirement would require extensive re-programming to even make it possible to print changes in red. Further, the cards currently do not have space for such changes for each element, and would require re-drafting of the cards. All of this would mandate extra expenses to municipalities and therefore creates an unfunded mandate. Vote 14-1.

HB 428, relative to clarifying the authority of the Pease development authority and the division of ports and harbors. **OUGHT TO PASS**

Rep. James B. Rausch for Public Works and Highways: This legislation was requested to clarify multiple issues involving the authority of the Pease Development Authority (PDA). The bill defines state owned commercial pier, associated facilities, business use pier, recreational use pier, and further clarifies these terms. It clarifies references in RSA 12-G to piers, wharves and docks and to the foreign trade zone. It clarifies the scope of the existing exemption from the payment of slip fees. It clarifies the PDA authority to establish permit programs for vessels and for vehicle parking at state owned piers and associated facilities. Lastly, it gives the PDA authority to remove abandoned, or illegally parked vehicles. This legislation received unanimous support from the committee. Vote 16-0.

HB 658-FN-A, requiring the department of transportation to make certain improvements to New Hampshire Route 3 in the town of Tilton and making an appropriation therefor. **INEXPEDIENT TO LEGISLATE**

Rep. John A. Graham for Public Works and Highways: This bill mandated that the Department of Transportation make highway improvements and add traffic lights in the town of Tilton. The committee does not support mandating highway projects outside of the ten year transportation planning process. To assist the citizens and officials in Tilton in trying to resolve the highway issues, the Department of Transportation will hold public informational sessions in the area. If the department finds that changes and improvements are warranted, they have the wherewithal in the budget to accomplish same. The issue with the traffic lights needs to be handled as part of the regular ten-year highway planning process. Vote 15-0.

HB 215-FN, relative to water management. **OUGHT TO PASS WITH AMENDMENT**

Rep. Donald A. Brueggemann for Resources, Recreation and Development: This bill, as amended, will strengthen the Department of Environmental Services authority to collect water use data from

users that withdraw, discharge or transfer more than 20,000 gallons of water a day on average. It provides explicit authority to require water use registration and reporting, specifies criteria for water use measurement and includes an enforcement component. This bill is unanimously supported by the ground water commission established in 2003. It is a modest and necessary first step in the effort to gain a better understanding of New Hampshire's water resources and how that resource is being used. Vote 17-1.

Amendment (0369h)

Amend RSA 488:2, VI-VIII as inserted by section 1 of the bill by replacing them with the following:

VI. "Surface waters" means any lake, pond, river, stream, wetland, or tidal waters.

VII. "Transfer" means any conveyance of water from one real property or place of business to another or incorporation into a product for subsequent distribution.

VIII. "Withdrawal" means the removal or collection of water by pumping or gravity from surface water or groundwater.

Amend RSA 488:3, I as inserted by section 1 of the bill by replacing it with the following:

I. No person shall withdraw or discharge a cumulative amount of more than 20,000 gallons of water per day, averaged over any 7-day period, or more than 600,000 gallons of water over any 30-day period, at a single real property or place of business without registering the withdrawal or discharge with the department. Transfers of such volume of water shall also be registered. Registration shall be in addition to any required permits.

Amend RSA 488:4 as inserted by section 1 of the bill by replacing it with the following:

488:4 Measurement Required. Each withdrawal, discharge, or transfer required to be registered under this chapter shall be metered or measured by a technically appropriate and verifiable method approved by the commissioner. Withdrawals and discharges shall be measured at the point of withdrawal or discharge, respectively. Transfers shall be measured at a technically appropriate point approved by the commissioner.

Amend RSA 488:8 as inserted by section 1 of the bill by replacing it with the following:

488:8 Administrative Fines.

I. The commissioner, after notice and hearing pursuant to RSA 541-A, may impose an administrative fine not to exceed \$2,000 for each offense upon any person who knowingly:

- (a) Violates any provision of this chapter or any rule or order adopted or issued under it.
- (b) Makes any material false statement in any document required to be filed or maintained.
- (c) Renders inaccurate, falsifies, or tampers with any monitoring device or method.

II. Rehearings and appeals from a decision of the commissioner under this section shall be in accordance with RSA 541.

III. Any administrative fine imposed under this section shall not preclude the imposition of further penalties under this chapter. The commissioner may assess additional fines upon any person who has received written notification from the department regarding violations of the provisions of this chapter or rule adopted pursuant to this chapter, if the violations have not been mitigated within: 30 days of receipt of notification.

Amend RSA 488:9, I and II as inserted by section 1 of the bill by replacing them with the following:

I. The content and structure of all forms pertaining to registrations to be received or issued by the department, including information and other materials to be submitted with the registration.

II. The form, content, structure, and frequency of filing of the records required under this chapter. The commissioner shall balance resource management objectives with the economic impact of filings when determining the substance of this rule and shall also give consideration to proprietary and confidentiality concerns.

Amend RSA 488:9 as inserted by section 1 of the bill by inserting after paragraph III the following and renumbering the existing paragraphs IV and V to read as V and VI:

IV. Criteria to identify actions that constitute withdrawals, transfers, or discharges required to be registered pursuant to this chapter.

Amend RSA 488:10 as inserted by section 1 of the bill by replacing it with the following:

488:10 Appeals. Unless otherwise specified, actions of the department may be appealed in accordance with RSA 21-O:14.

Amend the bill by replacing section 3 with the following:

3 Effective Date.

I. Section RSA 488:8 as inserted by section 1 of this act shall take effect January 1, 2007.

II. The remainder of this act shall take effect January 1, 2006.

HB 342, establishing a commission to study the barriers to the establishment of all-terrain vehicle trails. **OUGHT TO PASS WITH AMENDMENT**

Rep. Christopher R. Irish for Resources, Recreation and Development: There are approximately 23,000 ATVs registered in the state with a 15% annual growth rate which bring in about \$318 million annually to the State. The committee understands the use of ATVs as a recreational activity is increasing rapidly on both public and private lands. There is a need to bring all interested parties into a discussion on the best ways to move forward with any plans to incorporate ATVs into an acceptable and manageable use of the state's public and private trails. Clearly, if the State continues to receive registration fees from ATVs, we are obliged to attempt to resolve conflicting interests and provide opportunity for ATV use throughout the State. For these reasons, the Resources Committee strongly supports the establishment of this commission to study the building of trails, enforcement of regulations and policies, and the means of addressing problems facing users, abutters and municipalities. Vote 18-1.

Amendment (0416h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study the barriers to the establishment of all-terrain vehicle trails on public and private lands.

Amend section 2 of the bill by inserting after subparagraph I(j) the following new subparagraph:

(k) One representative of New Hampshire landowners, appointed by mutual agreement of the New Hampshire Farm Bureau Federation and the New Hampshire Timberland Owners Association.

Amend paragraph V of section 3 of the bill by replacing it with the following:

V. Adequacy and enforcement of ATV regulations and policies, and means of addressing environmental impact and the problems of users, abutters, and municipalities.

AMENDED ANALYSIS

This bill establishes a commission to study the barriers to the establishment of all-terrain vehicle trails on public and private lands.

HB 343, establishing a commission to study accessibility for New Hampshire citizens to the water bodies in the state. **OUGHT TO PASS WITH AMENDMENT**

Rep. Marcia G. Moody for Resources, Recreation and Development: The commission shall study current access for public use of water bodies including, but not limited to, the need for different types of non-motorized recreational opportunities, the geographical distribution of such opportunities, approaches for determining the optimal recreational use of a particular water body including environmental concerns, available funding for creation of access, and the adequacy of recreational opportunities for citizens of all income levels. The amendment provides two additional members to the commission who shall be the commissioner of the department of environmental services, or designee, and the director of the office of energy and planning, or designee. Vote 18-0.

Amendment (0837h)

Amend the bill by replacing sections 2 and 3 with the following:

2 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Two members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Two members of the senate, appointed by the president of the senate.

(c) A representative from the New Hampshire Lakes Association, nominated by the association and appointed by the governor.

(d) A representative from the New Hampshire Rivers Council, nominated by the council and appointed by the governor.

(e) The director of the fish and game department, or designee.

(f) A representative from the public water access advisory board, nominated by the chairperson and appointed by the governor.

(g) A representative from a conservation organization, appointed by the governor.

(h) A representative from the Appalachian Mountain Club, nominated by the club president and appointed by the governor.

- (i) The commissioner of the department of resources and economic development, or designee.
- (j) The commissioner of the department of environmental services, or designee.
- (k) The director of the office of energy and planning, or designee.

3 Duties. The commission shall study current access for non-motorized public use of water bodies including, but not limited to, the need for different types of non-motorized recreational opportunities, the geographical distribution of such opportunities, approaches for determining the optimal recreational use of a particular water body including environmental concerns, available funding for creation of access, and the adequacy of recreational opportunities for citizens of all income levels.

HB 355, establishing a committee to study the environmental impact and damage mitigation of ATV use on public and private trails. **INEXPEDIENT TO LEGISLATE**

Rep. Christopher R. Irish for Resources, Recreation and Development: HB 555 is similar in purpose to HB 342. The committee incorporated the main intent of HB 355 "to study the environmental impact on public and private trails" into the amendment of HB 342. The only issue left to be addressed by this bill is the possible acquisition of land in Berlin for a possible multi-use State park which would include ATV access. The project is in its very early stages and no master plan has been developed to date. The committee suggests that it is best to let the process take its course. The committee heard testimony that there are statutory requirements that any plan to move forward with such a park will have to go through a very public process including public hearings. Therefore, no legislative action is necessary at this time. Vote 18-0.

HB 487-FN, establishing a volunteer lake assessment program in the department of environmental services. **OUGHT TO PASS WITH AMENDMENT**

Rep. David P. Currier for Resources, Recreation and Development: The New Hampshire Volunteer Lake Assessment Program (VLAP) was initiated in 1985 in response to an expressed desire of lake associations to be involved in lake protection and watershed management. Today approximately 500 volunteers from 154 lakes and ponds located throughout the state participate in VLAP. 2005 marks the 20th anniversary of this popular program. VLAP volunteer monitors play an integral role in protecting the quality of New Hampshire's lakes and ponds. HB 487-FN codifies this cooperative program's effort between volunteer monitors and the Department of Environmental Service into state law. The amendment establishes the position of Volunteer Lake Assessment Program Coordinator within the Department of Environmental Services. Vote 19-0.

Amendment (0451h)

Amend RSA 487:32 as inserted by section I of the bill by replacing it with the following:

487:32 Volunteer Lake Assessment Program Coordinator. There is established in the office of the commissioner, department of environmental services, a state volunteer lake assessment program coordinator, who shall be a classified employee qualified by reason of education and experience, and who shall administer the New Hampshire volunteer lake assessment program.

487:33 Acceptance and Expenditure of Funds.

I. The commissioner may apply for and accept gifts, donations of money, federal, municipal, or private grants, or other funds or incentives from any source for the purposes of this subdivision. The funds accepted under this paragraph shall be paid into the lake restoration and preservation fund established under RSA 487:25. All funds received shall be continually appropriated to the department for the purposes of this subdivision.

II. The commissioner may expend any funds received under paragraph I for the purposes of this subdivision.

Amend the bill by replacing section 3 with the following:

2 Effective Date. This act shall take effect 60 days after its passage.

HB 491, relative to the inherent dangers of OHRV operation and limiting landowner liability for certain fish and game related land uses. **OUGHT TO PASS**

Rep. Dennis F. Abbott for Resources, Recreation and Development: This bill adds a new paragraph to RSA 212:34, Duty of Care, that places into statute that the owner, occupant or leasee of a property being utilized for OHRV operation shall not be liable for any injury sustained while on the property except as provided for in other sections of this RSA. The bill also makes a technical correction by removing the second paragraph of RSA 215-A:34 and placing it in RSA 215-A:5-c that specifically deals with OHRV operation. This bill was the request of the Fish and Game Department, supported by the Bureau of Trails and was unopposed in committee. Vote 19-0.

HB 315, relative to best available technology for air pollution control. OUGHT TO PASS WITH AMENDMENT

Rep. Lee G. Slocum for Science, Technology and Energy: This bill requires the use of Best Available Control Technology (BACT) for controlling emissions from plants burning construction and demolition (C&D) debris. Emission limits are established by the Department of Environmental Services (DES) which will strive for the maximum degree of reduction achievable for each air contaminant that would be emitted from any plant. In establishing these limits, DES will take into account energy, environmental, health based considerations and economic impacts in determining techniques for control of such air contaminants. The original bill is a result of HB 1421 that was studied last session. The committee held two public hearings and two subcommittee sessions on this bill making several amendments, including certifying the fuel source for construction and demolition wood chips. DES will not issue any permits until its rules for the implementation of BACT have been established through the normal process, resulting in an implicit moratorium in C&D burning of not less than 8 months. The result of this legislation will allow strictly controlled incineration of construction and demolition debris that will generate electricity and save up to 300,000 tons of "wood" per year potentially going to landfills. While DES rules are not yet established, it is likely that a C&D plant with BACT should not emit pollutants in excess of the approximate level emitted by plants burning pure wood without BACT. Vote 15-0.

Amendment (0667h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Air Pollution Control; Definitions. Amend RSA 125-C:2 by inserting after paragraph VI the following new paragraph:

VI-a. "Dioxin" means a group of chemical compounds that share certain similar chemical structures and mode-of-action biological characteristics, including a total of 17 dioxin-like compounds that are members of 2 closely related families: chlorinated dibenzo-p-dioxins (CDDs) and chlorinated dibenzofurans (CDFs).

2 New Paragraph; Air Pollution Control; Definitions. Amend RSA 125-C:2 by inserting after paragraph IX-e the following new paragraph:

IX-f. "Particulate matter" means any material, including lead, but not uncombined water, which is or has been suspended in air or other gases and which exists in a finely divided form as a liquid or solid at standard conditions.

3 New Subparagraphs; Air Pollution Control Act; Rulemaking Authority. Amend RSA 125-C:4, I by inserting after subparagraph (n) the following new subparagraphs:

(o) Applicability thresholds for emissions of particulate matter, mercury, and dioxin as provided in RSA 125-C:10-a, VII(f).

(p) The duration of time during which no additional best available control technology determination is required as provided in RSA 125-C:10-a, IV and VI.

(q) Procedures for establishing standards for and certification of any material, that is not an exempt fuel, to be combusted in a device at an affected source subject to RSA 125-C:10-a.

4 New Section; Air Pollution Control Act; Best Available Control Technology. Amend 125-C by inserting the following new section:

125-C:10-a Best Available Control Technology Required.

I. For the purposes of this section:

(a) "Best available control technology" means an emission limitation based on the maximum degree of reduction for each air contaminant that would be emitted from any device that the department, on a case-by-case basis, taking into account energy, environmental, public health, and economic impacts and other costs, determines is achievable for such device through application of production processes or available equipment, methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of such air contaminant.

(b) "Exempt fuel" means coal, natural gas, landfill gas, digester or bio gas, untreated wood, virgin petroleum products, or any mixture thereof.

II. Except as provided in paragraph VII, the construction, installation, operation, or material modification of any device located at an affected source that will combust any material shall be prohibited without first applying for and obtaining a permit from the department that establishes emission limitations for such device based on best available control technology for controlling any particulate matter, mercury, or dioxin emissions from such device. Any material to be combusted

in such device that is not an exempt fuel shall be certified as complying with standards established by the department. As part of the application for a permit, the affected source shall demonstrate that such standards and certification shall be complied with during facility operation. The permit shall contain inspection, testing, and reporting requirements to ensure such standards are met. The permit shall establish procedures for sampling and testing appropriate to the material to be combusted using US EPA SW-846, Test Methods for Evaluating Solid Waste, Physical/Chemical Methods, and applicable American Society for Testing and Materials sampling methods or alternate sampling and testing methods approved by the department.

III. If stack testing results show that emissions from a device are less than but within 10 percent of the emission limitation for a specific air contaminant established under paragraph II for the device, the affected source shall install a department approved continuous emission monitor (CEM) for that air contaminant. If a department approved CEM is not available for that air contaminant, the affected source shall submit a plan, including monitoring and stack testing requirements, for ensuring that the emissions limitation for that air contaminant is not exceeded until such time as a department approved CEM for that air contaminant becomes available. Once a department approved CEM is available, the affected source shall install that CEM within 24 months of department approval of the CEM.

IV. Once the department has established an emission limitation for one or more air contaminants under paragraph II for a device based on best available control technology, no further best available control technology determination for the emission of such air contaminant or air contaminants from such device shall be required for such period of time as specified in rules of the department, unless there is a material modification of the device.

V. Any determination by the department pursuant to paragraph II, shall be subject to the following:

(a) In no event shall application of best available control technology result in:

(1) Emission of any air contaminant that would exceed the emissions allowed by any applicable standard under RSA 125-C or RSA 125-I or rules adopted pursuant to either chapter; and

(2) Emission of any air contaminant specified in paragraph II in an amount disproportionate to the emissions of such air contaminant from other similar air pollution control devices for that air contaminant at facilities using similar combustion technology and similar fuels.

(b) If the department determines that a device emits more than one of the air contaminants specified in paragraph II, or that the affected source has more than one device that emits such air contaminants, the department shall determine best available control technology emission limitations for all such devices and all such air contaminants emitted.

VI. If, prior to the effective date of this section, the department made under other authority a best available control technology determination for any air contaminant specified in paragraph II for any existing device and established in a permit issued pursuant to this chapter an emission limitation for such air contaminant, then no determination of best available control technology pursuant to paragraph II for such air contaminant from such device shall be required for such period of time as specified in rules of the department, unless there is a material modification of the device.

VII. This section shall not apply to:

(a) A municipal waste combustor that is subject to RSA 125-M;

(b) Chemical recovery combustion sources at pulp and paper mills subject to 40 CFR 63, Subpart MM;

(c) A device at an affected source that combusts material of which at least 90 percent by weight is exempt fuel;

(d) An affected source that is within a listed source category and subject to a performance standard or emission guidelines established by the United States Environmental Protection Agency pursuant to either section 111 or section 112 or section 129 of the Clean Air Act, provided that these standards and guidelines are at least as stringent as those achieved by applying best available control technology as specified under paragraph II;

(e) A device at an affected source that, on the effective date of this section, routinely combusts any material other than a material specified in subparagraph (c) under a permit issued by the department, unless there is later a material modification of such device; or

(f) A device at an affected source with emissions of particulate matter, mercury, or dioxin below threshold levels established by rules of the department.

5 Rules Required. No permits shall be issued under RSA 125-C:10-a until final adoption of all rules required by this act.

6 Effective Date. This act shall take effect upon its passage.

HB 328, relative to jurisdiction over land occupied by or ceded to the United States. **INEXPEDIENT TO LEGISLATE**

Rep. Kris E. Roberts for State-Federal Relations and Veterans Affairs: The federal government has a detailed system of disposing of excess properties. In most situations, state and local government has priority for such properties, usually at little to no cost. However, this bill would require the federal government to turn over all excess government property to the state. It is not in the best interest of the state to become property owners for excess property. The cost of such hardship could result in serious fiscal demands on the state. Vote 12-1.

HB 387, authorizing the state treasurer to make a lawful money requisition order. **INEXPEDIENT TO LEGISLATE**

Rep. James G. Rolston for State-Federal Relations and Veterans Affairs: This bill would have directed the Attorney General to file for the involuntary bankruptcy of the Federal Reserve Bank of Boston and the sale of its assets at a sheriff's sale. The majority of the committee believed this was not in the best interest of New Hampshire citizens. Vote 12-1.

HB 718-FN-A, relative to group life insurance for New Hampshire citizens serving in the military reserves or national guard and making an appropriation therefor. **OUGHT TO PASS**

Rep. James G. Rolston for State-Federal Relations and Veterans Affairs: The state shall pay for group life insurance in the coverage amount of \$250,000 for each New Hampshire citizen serving in the military reserves or national guard and activated. The state's obligation shall be for each period of activated duty up to 24 months each. The sum of \$100,000 for the fiscal year ending June 30, 2006 and the sum of \$100,000 for the fiscal year ending June 30, 2007 are hereby appropriated to the adjutant general, for the purposes of this act. The governor is authorized to draw a warrant for said sums out of any money in the treasury not otherwise appropriated. Vote 13-0. Referred to the Committee on Finance.

HCR 4, urging Congress to find that the Piscataqua River and Portsmouth Harbor lie within the state of New Hampshire. **OUGHT TO PASS**

Rep. Richard F. Heon for State-Federal Relations and Veterans Affairs: Extensive research and study has been done going as far back as the 1600's including, but not limited to, the 1740 decree, the original County of Rockingham boundary of 1769, and the resolution of the 1828 Boundary Commission. The Boundary as described by the 1828 Boundary Commission as the boundary line between New Hampshire and Maine "Shall pass up through the mouth of the Piscataquis harbor, and up the middle of the River Newichwannock part of which is now called Salmon Falls, and through the middle of the same of the farthest head thereof." The study commission concluded that New Hampshire has historically owned the Piscataqua River and inland harbor. This resolution requests our congressional representatives to introduce legislation to once and for all resolve the issue of the actual location of the boundary between New Hampshire and Maine in the inner Piscataqua harbor and river area. Vote 13-0.

HCR 8, urging the Congress of the United States to place a moratorium on new free trade agreements, to investigate and review current free trade agreements and policies of the United States, to investigate and review participation of the United States with international trade organizations and to ensure that such agreements, policies, and participation are in the best interests of the citizens of the state of New Hampshire and the United States. **OUGHT TO PASS**

Rep. James E. Twombly for State-Federal Relations and Veterans Affairs: The only concern the committee had on this resolution was placing a moratorium on new trade agreements but after considerable discussion it was felt that Congress should not pass any new agreements until it fully understands the implications of policies and agreements that are already in place. Vote 12-1.

HR 11, urging the department of defense to establish a military presence on the New Hampshire sea-coast to ensure a rapid response to any threat to domestic security. **INEXPEDIENT TO LEGISLATE**

Rep. James E. Twombly for State-Federal Relations and Veterans Affairs: The State of New Hampshire and its communities presently have a rapid response to isolated threats that might threaten her citizens through numerous police and fire departments as well as the State Police and Office of Emergency Management. For greater threats to the state and for issues of national security such as what occurred on 9/11, the Federal Division of Homeland Security was formed to better coor-

dinate various agencies including the military forces of all the state governments to counter the threat. The NH Adjutant General is the military Chief of Staff to the Governor and oversees the assets of the New Hampshire Army and Air National Guard. The mission of the Adjutant General's department is to provide the state with operationally ready units and personnel to protect life and property and to preserve the internal security of the state when ordered by the governor. Therefore, the Governor of the State of New Hampshire is the person with the responsibility of making sure that the Adjutant General is given the support necessary to carry out his mission. To suggest that a legislative body of a state can urge a federal agency, namely the Department of Defense, to allocate valuable military assets with all the associated costs in personnel and material to cover any and all perceived threats whether real or imagined is not feasible or within the jurisdiction of the General Court. Vote 12-1.

HB 205, relative to licensing requirements for certain drivers. **OUGHT TO PASS**

Rep. Stephen H. Nedeau for Transportation: This bill is related to licensing requirements for certain drivers. It is intended to crack down on persons who drive without a license or after their license has been suspended or revoked, the holder of a youth operator's license who is convicted of a DWI (RSA 265:80, RSA 265:82 or RSA 265:82-a) shall not be eligible for re-issuance of a license prior to the age of 21. This bill was a request of Department of Safety. Vote 11-0.

HB 244-FN, relative to statutory liens by the department of safety. **OUGHT TO PASS**

Rep. Brenda L. Ferland for Transportation: This bill addresses a loophole and deficiency in the present law. The International Fuel Tax Agreement and The International Registration Plan are compacts entered into among most of the states and some of the Canadian provinces. For years, the road toll law has contained a provision that if a New Hampshire trucker fails to pay his fuel tax or fees, the Department of Safety can record a lien against all the vehicles in his fleet until the State has been paid. However, with the passage of the International Fuel Tax Agreement, the law did not catch up with the agreement, and there exists no authority to place a similar lien against out-of-state trucks under the Fuel Tax Agreement. There is also no provision under the International Registration Plan to collect delinquent registration plan fees by the placement of a lien. This bill corrects that oversight and establishes such mechanisms. It also modernizes the statutory lien law by making such a lien valid not only against the registered owner of the truck, but also against any bank or finance company that has an installment loan on the truck. Vote 13-0.

HB 378, relative to indicating citizenship on drivers' licenses. **INEXPEDIENT TO LEGISLATE**

Rep. James W. Danforth for Transportation: At this time federal legislation has been passed and more is pending on design and information requirements for state driver's licenses. The committee feels that it would be fiscally prudent to wait until next session to deal with this issue, to avoid changing the driving license design twice in a short period of time. The committee is monitoring relevant federal legislation. Vote 13-1.

HB 493, relative to noncommercial antique motor vehicle restoration activities. **INEXPEDIENT TO LEGISLATE**

Rep. James W. Danforth for Transportation: This bill would preempt local building and zoning ordinances to allow construction of a temporary building to facilitate vehicle restoration. It would also usurp local authority in limiting the number of such buildings. The committee feels that this bill would infringe on local authority, could be easily abused and is a local issue. Vote 13-0.

HB 518-FN, relative to eligibility for youth operators' licenses. **INEXPEDIENT TO LEGISLATE**

Rep. Brenda L. Ferland for Transportation: This bill would have required a youth operator to furnish proof of current school attendance, receipt of home education or a high school diploma to obtain an operators license. Although we all want our children to get a good education there are good reasons why some kids do not finish their schooling. They can be good, productive members of society without a diploma and shouldn't be punished for a life style that is beyond their control. Vote 13-0.

HB 566, relative to eligibility for public benefits and drivers' licenses. **INEXPEDIENT TO LEGISLATE**

Rep. James W. Danforth for Transportation: This bill seeks to prevent the Department of Motor Vehicles from issuing drivers licenses to persons who are not legally in the United States, as

a means of preventing them from obtaining public benefits. Current law already prevents this and the Department of Motor Vehicles does not issue drivers licenses to illegal aliens. Furthermore, there is a pending federal measure that will establish new, rigid license standards. There is not enough evidence to establish what state or federal benefits are if at all being abused. Vote 14-0.

HB 599-FN, requiring disclosure to consumers of the presence of event data recording devices in new motor vehicles. **OUGHT TO PASS WITH AMENDMENT**

Rep. Brenda L. Ferland for Transportation: This bill requires that a vehicle dealer of new cars shall disclose in writing that a vehicle they sell is equipped with an event data recorder (EDR) or a sensing diagnostic modules (SDM). A person other than the registered vehicle owner authorized to download the data may not release that data, except to share the data among the motor vehicle safety and medical research communities to advance motor vehicle safety and only if the identity of the registered owner or driver is not disclosed. Violators of this section of the bill shall constitute an unfair or deceptive act under the consumer protection act. Vote 9-0.

Amendment (0855h)

Amend the bill by replacing section 1 with the following:

1 New Chapter; Event Data Recording Devices in Motor Vehicles. Amend RSA by inserting after chapter 357-F the following new chapter:

CHAPTER 357-G

EVENT DATA RECORDING DEVICES IN MOTOR VEHICLES

357-G:1 Event Data Recorders.

I. As used in this section, "recording device" means a device that is installed by the manufacturer of the vehicle and does one or more of the following, for the purpose of retrieving data after an accident:

- (a) Records how fast and in which direction the motor vehicle is traveling.
- (b) Records a history of where the motor vehicle travels.
- (c) Records steering performance.
- (d) Records brake performance, including, but not limited to, whether brakes were applied before an accident.
- (e) Records the driver's seatbelt status.
- (f) Has the ability to transmit information concerning an accident in which the motor vehicle has been involved to a central communications system or other external device when an accident occurs.

II. A motor vehicle dealer of a new motor vehicle sold in this state that is equipped with one or more recording devices, commonly referred to as "event data recorders (EDR)" or "sensing and diagnostic modules (SDM)," shall disclose that fact in writing to the consumer prior to the sale.

III. A person other than the registered vehicle owner authorized to download or otherwise retrieve data from a recording device, may not release that data, except to share the data among the motor vehicle safety and medical research communities to advance motor vehicle safety, and only if the identity of the registered owner or driver is not disclosed.

IV. Violations of this section shall constitute an unfair or deceptive act or practice under RSA 358-A:2.

V. This section applies to all motor vehicles manufactured on or after July 1, 2006.

AMENDED ANALYSIS

This bill requires disclosure to consumers of the presence of event data recording devices in new motor vehicles. This bill also limits the use of data recorded by event data recording devices.

HB 683-FN, relative to reporting of motor vehicle offenses by driver education instructors and drivers' school licensees. **OUGHT TO PASS**

Rep. James W. Danforth for Transportation: This bill requires driver education instructors to have a certificate issued by the Department of Safety. It also requires any instructor to notify the department if their license has been suspended or revoked in this or any other jurisdiction. It allows for the department to suspend the license of a driving school or instructor after a hearing, if committing any offense that results in loss of driving privileges. Vote 14-0.

REGULAR CALENDAR – PART I

HB 209-FN, relative to unborn victims of violence. **INEXPEDIENT TO LEGISLATE**
 Rep. Timothy N. Robertson for Criminal Justice and Public Safety: This bill establishes a separate offense for causing the death of, or injury to, an unborn child. If passed as written, the bill, in effect, establishes life at conception, a concept not currently accepted. The sponsor has presented us with a bill that the legislature has failed to resolve in the past and we have failed to resolve in this committee. Vote 12-3.

Reps. Paul Smith, Giuda and Wendelboe spoke against.

Rep. W. Packy Campbell spoke against and yielded to questions.

Rep. Welch spoke to the bill.

Rep. Langlais requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

HB 616-FN-L, revising the calculation and distribution of adequate education grants. OUGHT TO PASS WITH AMENDMENT

Rep. David W. Hess for Education: This bill as it comes to the floor is a consensus, compromise bill in every sense of those words. First, it merges specific provisions from three of the ten education funding bills into a logical, consistent whole, and it merges provisions from bills that were distinct, and in some ways, disparate from each other. Second, HB 616 as amended embodies concepts and approaches contained in all ten of those formulations. Third, HB 616 as amended is the definition of a compromise, because no one legislator, no one interest group, gets all that he, she, or it wanted. No one is completely happy with the result. Everyone had and has to give up something. And there is probably no major provision of this bill that, standing alone, has the unanimous support of the committee majority, which voted 16-4 to send this bill to the House. Finally, it is a consensus compromise because of the process by which it was reached. After literally, two solid weeks of public hearings on the eight bills and various amendments introduced on education funding, the standing subcommittee spent three grueling, seemingly interminable weeks sifting through the bills, collecting additional information, and weighing the merits and demerits of each bill. That exercise narrowed consideration to three specific bills: HB 100, The Weyler Bill; HB 606 as revised by the Asselin amendment; and HB 616, The King Bill. On the next to last possible day for action, the subcommittee deadlocked 4-4 on both the Weyler Bill and the Asselin amendment. Looking over the brink into the abyss, the subcommittee came together and crafted the consensus compromise before you. This bill has five significant components. First, it adopts from the King Bill the concept of a base, per pupil cost for education, using a formula which had been the law for the first four years following Claremont II, and arrives at a uniform property tax which would be needed to raise that amount of money for all students in the state. Then, it multiplies the total equalized assessed valuation ("EAV") of real property in each town by that hypothetical tax rate. If the resulting number is greater than the dollars needed to pay the base per pupil cost for all of the pupils in that town, the towns gets no grant. If that number is less, however, then the town receives a grant for the difference. Under this targeting formula, \$154 million is distributed to our towns and cities which qualify for grants. A second targeting formula, the so-called Education Equity Index ("EEI") contained in HB 100, is used to distribute an additional \$300 million using seven criteria, including equalized assessed valuation per pupil, median household income, children on free and reduced lunches, children with English as a second language, and three measurements of school performance. These, combined, result in a second round of grants to those towns and cities deemed in need of additional funding because their EEI scoring is below 120% of the statewide average. Thus, this bill targets 100% of these grants using those two formulas, as opposed to only targeting about 25% under current law. Third, to provide our towns and cities some stability and predictability in their education funding, and to give them time to plan and prepare for the reduction in state aid which they will experience as the new funding proposal succeeds the old, transition grants totaling \$44 million in FY 2006 are made to 82 middle-tier towns so that no town or city will experience a grant reduction of more than 10% a year. These transition grants will decrease significantly year over year until they are totally phased out. These transition grants are in addition to the aid grants and are not paid for by reducing the aid grants made under the bill. Fourth, to expand our very successful low and moderate income tax relief law, and to grant greater property tax relief to those least able to pay in all of our towns and cities, that program is expanded to grant property tax relief for up to \$7 per 1,000 in local education property tax payments, a 220% increase over the current law. This is expected to send an estimated \$20 million more back to those taxpayers in our towns and cities. Finally, and for the first time, this bill funds our Performance Improvement Fund with \$1 million to assist those towns and cities with sub par education performance in bootstrapping themselves up to and above the state norms. But if, after three years, they do not succeed, then they will experience the "stick" of receiving only 95% of the state education grants to which they are otherwise would be entitled. In conclusion, this bill is greater than the sum of its parts. It is now a pure statement of education policy. It contains no funding or revenue projections. No one will like everything in it, and no one provision will gain unanimous or near unanimous support. But it targets more money than ever before to our poorer towns; it eliminates donor towns; it transitions our middle-tier towns so they can plan and prepare for lower state grants; and it increases property tax relief 300%. It isn't perfect, but as a whole, with all parts taken together and interconnected; this bill received an 80% consensus vote for passage in the committee. Vote 16-4.

Amendment (0877h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the education property tax and the education equity index.

Amend the bill by replacing all after the enacting clause with the following:

1 Persons and Property Taxable. RSA 76:3 is repealed and reenacted to read as follows:

76:3 Education Taxes.

I. Beginning July 1, 2005, and every fiscal year thereafter, the commissioner of the department of revenue administration shall determine an average tax rate that is sufficient to fund average per pupil cost of all municipalities pursuant to RSA 198:40 multiplied by the statewide average daily membership in residence. The rate calculated shall be uniform on each \$1,000 of the value of taxable property of all persons and property taxable pursuant to RSA 72 and RSA 73, and except property subject to tax under RSA 82 and RSA 83-F.

II. Municipalities may assess local property taxes necessary to fund school district appropriations not funded by the state education base grants, transition grants, and state education assistance grants, paid from the education trust fund under RSA 198:39, or by other revenue sources.

III. The commissioner of the department of revenue administration shall use the most recent available equalized property tax assessment data in calculating the tax rate under paragraph I.

2 Persons and Property Taxable; Commissioner's Warrant. RSA 76:8 is repealed and reenacted to read as follows:

76:8 Commissioner's Warrant.

I. The commissioner of revenue administration shall annually calculate the cost of education in a municipality pursuant to RSA 198:40.

II. Municipalities are authorized to assess local property taxes necessary to fund school district appropriations in excess of base grants, education assistance grants, and transition grants.

3 School Money; Determination of Average Per Pupil Cost. Amend RSA 198:40, I(b) to read as follows:

(b) The department shall identify those school districts where ~~[40 to] 60 to 80~~ percent of the elementary pupils enrolled in the grades tested on the day testing began, achieved a scaled score, in the statewide educational improvement and assessment program administered pursuant to RSA 193-C, in all areas tested, equivalent to performance at the basic level or above. From these school districts, the department shall then identify those school districts that have the lowest cost per pupil as calculated pursuant to subparagraph I(a) and which represent, as nearly as possible, 50 percent of the average daily membership in attendance at the elementary level of the school districts identified.

4 New Sections; Education Equity Index. Amend RSA 198 by inserting after section 40 the following new sections:

198:40-a Education Equity Index.

I. Beginning July 1, 2005, and every fiscal year thereafter, the department shall determine an education equity index (EEI) for each municipality that had any resident pupils during the applicable determination year as follows:

(a) Each municipality's education equity index shall be computed by dividing one by the sum of:

(1) 0.4 times the statewide average equalized valuation per pupil divided by the equalized valuation per pupil for the municipality;

(2) 0.2 times the statewide median income divided by the municipality's median income;

(3) 0.095 times the percentage of the municipality's pupils in grades 1-12 eligible to receive a free or reduced price meal during the determination year as reported to the department divided by the statewide percentage of pupils in grades 1-12 eligible to receive a free or reduced price meal during the determination year as reported to the department;

(4) 0.005 times the percentage of the municipality's pupils in grade one through grade 8 identified as having limited English proficiency and receiving at least 5 hours per week of special instruction in English during the determination year as reported to the department divided by the statewide percentage of pupils in grades one through 8 identified as having limited English proficiency and receiving at least 5 hours per week of special instruction in English during the determination year;

(5) 0.15 times the statewide average test score divided by the municipality's average test score;

(6) 0.075 times the statewide graduation rate for the determination year as reported by the department divided by the municipality's graduation rate for the determination year as reported to the department, where each municipality's graduation rate shall be equal to the graduation rate for the particular high school attended by the municipality's resident pupils that attend high school; and

(7) 0.075 times the statewide percentage of high school graduates that entered directly into postsecondary education in the determination year as reported by the department divided by the percentage of the municipality's high school graduates that entered directly into postsecondary education in the determination year as reported to the department, where each municipality's percentage of high school graduates that entered directly into postsecondary education in the determination year rate shall be equal to the percentage of such high school graduates for the particular high school attended by the municipality's resident pupils that attend high school.

(b) For the fiscal years beginning July 1, 2005 and July 1, 2006, the department shall determine the education equity index for each municipality within 15 days after the effective date of this section.

(c) Beginning July 1, 2007, and every fiscal year thereafter, the department shall determine the education equity index for each municipality not later than October 1 in the calendar year preceding the beginning of the fiscal year for which the education equity index is calculated.

II. In determining the education equity index for any municipality that sends pupils to more than one school or school district, the department shall consider only data from schools or school districts within this state attended by 5 percent or more of the municipality's resident pupils, and the department shall determine each value necessary to calculate the education equity index for such municipality by weighting the corresponding values for each school or school district to which the municipality sends pupils by the number of resident pupils from the municipality that attend such school or school district. If a municipality sends all of its resident pupils that are relevant to the determination of any value necessary to calculate the education equity index for such municipality to one or more schools not operated by any school district, then the municipality shall be assigned the statewide value for such value.

198:40-b State Education Assistance.

I. For the fiscal year beginning July 1, 2005, and for the first year of each biennium thereafter, the department shall determine the amount of state education assistance under this section, if any, for a municipality, except for municipalities where all school districts therein provide education to all of their pupils by paying tuition to other institutions, as follows:

(a) The state shall distribute state education assistance to municipalities pursuant to RSA 198:42 in an aggregate amount equal to the total amount of state education assistance grants determined for the fiscal year pursuant to subparagraph (b).

(b) The annual amount of state education assistance shall be distributed among the municipalities as state education assistance grants as follows:

(1) For each municipality with an education equity index for the applicable biennium year less than 1.2, the department shall determine a number of education equity units equal to the number of resident pupils in the municipality during the applicable determination year multiplied by the excess of 1.2 over the municipality's education equity index for such biennium. Each other municipality shall be assigned zero education equity units for such biennium.

(2) Each municipality shall receive a state education grant for such fiscal year equal to the total amount of state education grants for the fiscal year multiplied by a fraction, the numerator of which is the number of education equity units determined for such municipality for the applicable biennium, and the denominator of which is the total number of education equity units determined for all municipalities for such biennium.

II. For the fiscal year beginning July 1, 2006, and for the second year of each biennium thereafter, the department shall determine the amount of state education assistance under this section, if any, for a municipality, except for municipalities where all school districts therein provide education to all of their pupils by paying tuition to other institutions, as follows:

(a) The state shall distribute state education assistance to municipalities pursuant to RSA 198:42 in an aggregate amount equal to the total amount of state education assistance grants determined for the fiscal year pursuant to subparagraph (b).

(b) Each municipality shall receive a state education assistance grant for such fiscal year equal to the total amount of state education assistance grants for the fiscal year as determined pursuant to paragraph III below multiplied by a fraction, the numerator of which is the number of education equity units determined for such municipality for the applicable biennium, and the denominator of which is the total number of education equity units determined for all municipalities for such biennium.

III. For the fiscal year beginning July 1, 2005, and for each fiscal year thereafter, the department shall determine the amount of state education assistance under this section as follows:

(a) For the fiscal year beginning July 1, 2005, the amount of state education assistance shall be \$300,000,000, to be distributed as determined in this section using the education equity index in RSA 198:40-a.

(b) For the fiscal year beginning July 1, 2006, the amount of state education assistance shall be the amount of assistance under this paragraph for such fiscal year multiplied by the sum of one plus the percentage change in the state average daily membership in attendance plus the average annual percentage rate of inflation for the immediately preceding 4 calendar years based on the northeast region consumer price index for all urban consumers, as published by the Bureau of Labor Statistics, United States Department of Labor.

IV. For municipalities where all school districts therein provide education to all of their pupils by paying tuition to other institutions, the amount of state education assistance for each such municipality shall be the lesser of the following:

(a) The amount calculated in accordance with paragraph I or paragraph II of this section, as applicable; or

(b) The total amount paid for education expense as determined by the department.

5 School Money; Calculation of Base Education Cost. RSA 198:41 is repealed and reenacted to read as follows:

198:41 Base Education Cost; Base Grant; Transition Grant.

I. A municipality's base education cost shall be determined by multiplying the municipality's average per pupil cost, pursuant to RSA 198:40, by the average daily membership in residence in the municipality.

II. A municipality which cannot raise sufficient revenue at the average rate established under RSA 76:3 to fund its base education cost shall receive a base grant from the education trust fund established in RSA 198:39, in an amount sufficient to fund its base education cost.

III. Transition grants shall be paid from the education trust fund and shall be determined as follows:

(a) For the 2006 and 2007 fiscal years, a municipality shall receive a transition grant for the amount that the state base grant and the state education assistance grant under RSA 198:40-b is less than 90 percent of the amount received in the 2005 fiscal year.

(b) For the 2008 fiscal year, and every fiscal year thereafter, a municipality shall receive a transition grant which is not less than 90 percent of the amount received in the preceding fiscal year. Provided, however, that after fiscal year 2008, if for a municipality the transition grant is equal to or less than \$100 per pupil, then the transition grant shall terminate.

6 School Money; Distribution Schedule. Amend the section heading of RSA 198:42 and RSA 198:42, I-II to read as follows:

198:42 **Funding** Distribution Schedule [~~of Adequate Education Grant~~]; Appropriation.

I. The [~~adequate education grant~~] **base grants** determined in RSA 198:41, **state educational assistance grants under RSA 198:40-b, and transition grants under RSA 198:41, V** shall be distributed to each municipality's school district or districts legally responsible for the education of the pupils who attend approved public schools within the district or in other districts or who attend approved programs for educationally disabled children, as the case may be, from the education trust fund in 4 payments of 20 percent on September 1, 20 percent on November 1, 30 percent on January 1, and 30 percent on April 1 of each school year; provided that for a dependent school district, the [~~grant~~] **base grants** determined in RSA 198:41 shall be distributed to the municipality, which shall appropriate and transfer the grant funds to its dependent school department.

II. For the fiscal year beginning July 1, 2004, and every fiscal year thereafter the amount necessary to fund the grants under RSA 198:41 is hereby appropriated from the education trust fund created under RSA 198:39 to the department. The governor is authorized to draw a warrant from the education trust fund to satisfy the state's obligation under this section. Such warrant for payment shall be issued regardless of the balance of funds available in the education trust fund. If the balance in the education trust fund, after the issuance of any such warrant, is less than zero, the commissioner of the department of administrative services shall inform the fiscal committee and the governor and council of such balance. This reporting shall not in any way prohibit or delay the distribution of [~~adequate~~] education grants.

7 Additional Education Expenditures. Amend RSA 198:43 to read as follows:

198:43 Additional Education Expenditures. School districts are authorized to develop *additional* educational programs [~~beyond those required for an adequate education~~] and to raise and appropriate amounts necessary for such programs.

8 School Money; Maintenance of Local Control. Amend RSA 198:48 to read as follows:

198:48 Maintenance of Local Control. Distributions under RSA 198:42 are based on [~~adequate~~] education costs determined in RSA 198:40 and are independent of how the municipalities decide to spend the distributions or other funds they may raise for education. Notwithstanding any other provision of law, nothing in this subdivision is intended in any way to limit or control how school districts operate or spend their budgets except that [~~adequate~~] education grants must be expended for educational purposes. [~~Adequate~~] *State* education grants [~~and hardship grants~~] shall not be considered unanticipated funds under RSA 198:20-b.

9 State Treasurer; Application of Receipts. Amend RSA 6:12, I(b)(65) to read as follows:

(65) Money received under RSA 77-A, RSA 77-E, RSA 78, RSA 78-A, RSA 78-B, RSA 83-F, [~~RSA 198:46~~] and from the sweepstakes fund, which shall be credited to the education trust fund under RSA 198:39.

10 School Attendance; Duty of Parent; Compulsory Attendance. Amend RSA 193:1, I(c) to read as follows:

(c) The relevant school district superintendent has excused a child from attendance because the child is physically or mentally unable to attend school, or has been temporarily excused upon the request of the parent for purposes agreed upon by the school authorities and the parent. Such excused absences shall not be permitted if they cause a serious adverse effect upon the student's educational progress. Students excused for such temporary absences may be claimed as full-time pupils for purposes of calculating state aid under RSA 186-C:18 and [~~adequate education~~] grants under RSA 198:41.

11 Subdivision Heading Amended. Amend the subdivision heading preceding RSA 198:38 to read as follows:

State Aid for [~~Educational Adequacy~~] *Education*; Education Trust Fund

12 School Money; Education Trust Fund. Amend the introductory paragraph of RSA 198:39, I to read as follows:

I. The state treasurer shall establish an education trust fund in the treasury. Moneys in such fund shall not be used for any purpose other than to distribute [~~adequate~~] *base, education assistance, and transition* education grants to municipalities' school districts pursuant to RSA 198:42, [~~and~~] to provide low and moderate income homeowners property tax relief under RSA 198:56-198:61, *and to fund the performance improvement fund established in RSA 193-H:4-a*. The state treasurer shall deposit into this fund immediately upon receipt:

13 Charter and Open Enrollment Schools; Funding. Amend RSA 194-B:11, I to read as follows:

I. There shall be no tuition charge for any pupil attending an open enrollment or charter conversion school located in that pupil's resident district. Funding limitations in this chapter shall not be applicable to charter conversion or open enrollment schools located in a pupil's resident district. For any other charter or open enrollment school authorized by the school district, the pupil's resident district shall pay to such school an amount equal to not less than 80 percent of that district's average cost per pupil as determined by the department of education using the most recent available data as reported by the district to the department. For any charter school authorized by the state board of education, the pupil's resident district shall pay tuition beginning July 1, 2004 and every fiscal year thereafter, in an amount per pupil equal to the amount determined in RSA 198:40, I. Tuition amounts shall be prorated on a per diem basis for pupils attending a school for less than a full school year. To the extent permitted by law, tuition payments shall coincide with the distribution of [~~adequacy~~] grants under RSA 198:42 or on such other terms as are mutually acceptable.

14 School Performance and Accountability; Local Education Improvement Plan. Amend RSA 193-H:4, I (b) to read as follows:

(b) If a school or school district has been designated as in need of improvement, then the school or school district may request assistance from the department [~~of education~~] *and may request funding from the performance improvement fund established in RSA 193-H:4-a*. The department shall provide technical assistance to those schools that request assistance under this section.

15 New Paragraph; School Performance and Accountability; Local Education Improvement Plan. Amend RSA 193-H:4 by inserting after paragraph IV the following new paragraph:

V. Three years following the designation, a school or school district which is still not making satisfactory progress in implementing the plan required under subparagraph I(a) shall receive, in the next fiscal year, 95 percent of the education grant to which it is entitled under RSA 198:41. For each year thereafter in which such designation persists, a school or school district shall receive, in the next fiscal year, 95 percent of the education grant to which it is entitled under RSA 198:41.

16 New Section; School Performance and Accountability; Performance Improvement Fund. Amend RSA 193-H by inserting after section 4 the following new section:

193-H:4-a Performance Improvement Fund.

I. There is hereby established in the department a performance improvement fund which shall be administered by the commissioner. The purpose of the fund is to provide funding for approved improvement plans required under RSA 193-H:4, I. Approved improvement plans shall be funded to the extent of available funds in a fiscal year.

II. Beginning July 1, 2005, and every fiscal year thereafter, the sum of \$1,000,000 is hereby appropriated to this fund from the education trust fund established in RSA 198:39. Any unused funds remaining at the end of the fiscal year shall lapse to the general fund.

17 Low and Moderate Income Homeowners' Relief. Amend RSA 198:57, IV to read as follows:

IV. All or a portion of an eligible tax relief claimant's [state] education property taxes, RSA 76:3, shall be rebated as follows:

(a) Multiply the total local assessed value of the claimant's property by the percentage of such property that qualifies as the claimant's homestead;

(b) ~~Multiply \$100,000 by the most current local equalization ratio as determined by the department of revenue administration;~~

~~(c)~~ Multiply the [lesser of the] amount determined in subparagraph (a) ~~[or (b)]~~ by the current state *and local* education property tax rate as shown on the tax bill under RSA 76:11-a *up to a maximum equalized rate of \$7.60 per \$1,000 of the value of taxable property*;

~~[(d)]~~ (c) Multiply the product of the calculation in subparagraph [(c)](b) by the following percentage as applicable to determine the amount of tax relief available to the claimant:

(1) If a single person and total household income is:

(A) less than \$12,500, 100 percent;

(B) \$12,500 but less than \$15,000, 60 percent;

(C) \$15,000 but less than \$17,500, 40 percent; or

(D) \$17,500 but less than or equal to \$20,000, 20 percent.

(2) If a head of a New Hampshire household or a married person and total household income is:

(A) less than \$25,000, 100 percent;

(B) \$25,000 but less than \$30,000, 60 percent;

(C) \$30,000 but less than \$35,000, 40 percent; or

(D) \$35,000 but less than or equal to \$40,000, 20 percent.

~~[(e)]~~ (d) The amount determined by subparagraph [(d)](c) is the allowable tax relief in any year.

18 Repeals. The following are repealed:

I. 2004, 195:3 and 2004, 200:27, relative to the education property tax.

II. 2004, 200:16-200:23, relative to contingent applicability.

III. 2004, 200:25-200:28, relative to prospective versions of the education property tax and contingent applicability.

IV. RSA 198:38, VII, relative to the definition of adequate education costs.

V. RSA 198:44, relative to duties of the department of education and the board of education.

VI. RSA 198:46-47, relative to excess education property tax payment and forms.

VII. RSA 198:49, relative to the adequate education and education financing commission.

VIII. RSA 198:39, I(g), relative to excess education property tax payments.

19 Nonseverability. If the New Hampshire supreme court declares any provision of sections 118 of this act to be unconstitutional under either the New Hampshire constitution or the United States Constitution, then sections 1-18 of this act are hereby repealed on the date such unconstitutionality is declared.

20 Effective Date. This act shall take effect July 1, 2005 at 12:02 a.m.

AMENDED ANALYSIS

This bill:

I. Replaces the education property tax with a provision requiring the commissioner of the department of revenue administration to establish a tax rate sufficient to fund state education assistance payments.

II. Distributes state education assistance in the form of state education grants, which are determined on a municipality-by-municipality basis under a formula that calculates a municipality's need for assistance based on a broad range of factors, including fiscal capacity, resource challenges, performance, and student population, with the state education grants being adjusted in future years by the consumer price index and changes in statewide pupil population.

III. Provides that for the 2006 and 2007 fiscal years, a municipality shall receive a total grant which is not less than 90 percent of the total grant received in the 2005 fiscal year, and for the 2008 fiscal year, and every fiscal year thereafter, a municipality shall receive a total grant which is not less than 90 percent of the total grant received in the preceding fiscal year.

IV. Repeals the statutory provisions authorizing excess education property tax payments.
Amendment adopted.

Rep. Hess spoke in favor and yielded to questions.

Rep. Vaillancourt spoke against and yielded to questions.

Rep. Graham offered floor amendment (0941h).

Floor Amendment (0941h)

Amend the bill by replacing section 20 with the following:

20 Effective Date. This act shall take effect July 1, 2006.

Rep. Graham spoke in favor and yielded to questions.

Rep. Ober spoke in favor.

Rep. Hess spoke against.

Rep. Mirski requested a roll call; sufficiently seconded.

The question being adoption of floor amendment (0941h).

and the committee report was adopted.

Referred to the Committee on Finance.

HB 691-FN-L, relative to the medicaid program. MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. Peter L. Batula for the Majority of Health, Human Services and Elderly Affairs: Medicaid was initiated to assist the elderly poor, the handicapped, unwed mothers, seriously mentally ill and many others. What once was nine percent of the state's budget recently surpassed the cost of education and is now at an alarming 23% of the state's budget. With the "baby boomers" generation upon us Medicaid, left alone, would simply become a bankrupt system of care for those who need it. The federal government currently matches 50% of Medicaid costs; it has cautioned the states to anticipate major cut backs requiring immediate curtailment of the spiraling increase of state Medicaid costs. This bill takes a first step to modernize the Medicaid program of health care for the indigent elderly and disabled. Nursing home care is expensive and is not needed or wanted by many who are Medicaid eligible. Under this bill choice is emphasized, including opportunity for home health care, assisted living and intermediate care, as well as nursing home care. The assessment of eligibility for long term care has been sharpened and will be administered by a registered nurse. It is not intended that it will make it more difficult to receive nursing home care; rather it provides for selection among a continuum of health care services. HB 691 intends to close all loopholes in current law that allow for individuals to impoverish themselves to qualify for Medicaid. This tends to bleed off assets that are needed by those who require Medicaid services. Those who have transferred assets or formed trusts who are now Medicaid eligible are grandfathered. However, that grandfather clause ends under this bill. The look back that is currently 3-5 years is extended to 5-10 years. All waivers granted by Center for Medicaid, Medicare Services will be reviewed by the Health and Welfare Oversight Committee which will report its findings to the legislative fiscal committee who will have final approval authority. In addition, the Health and Welfare Oversight Committee will have oversight of all activities relating to Medicaid reform. In furtherance of the Medicaid reform effort, a mental health commission is established regarding the delivery of community mental health services and the current status of New Hampshire Hospital. This bill does not now, nor will it, seek to commence recoveries when an individual is survived by a spouse, minor children or disabled children. A non-partisan subcommittee held over 35 hours of hearings and concluded that the bill was fair, workable, and sustainable. The essence of this bill is that the Medicaid system be saved for those it was intended to serve and provides a dignified, strong and viable Medicaid system. Vote 16-3.

Rep. Barbara C. French for the Minority of Health, Human Services and Elderly Affairs: We recognize and support the need for Medicaid modernization. Although the amended bill is vastly improved, the inclusion of an extended "look back" period for asset transfer from 3 to 5 years to 10 years is too severe. The Internal Revenue Service presently uses a 1-3 year "look back," and 3-6 year "look back" when extreme fraud is questioned. Encouraging purchase of Long Term Care (LTC) insurance may be a good idea, but for those who cannot even afford health insurance, LTC insurance is out of the question. Developing support services for mid-level and home care, in lieu of more expensive 24/7 nursing home care, needs to be recognized and incorporated in the bill.

Majority Amendment (0742h)

Amend the bill by replacing all after the enacting clause with the following:

I Purpose and Intent.

I. The general court recognizes that the demand upon the medicaid system will increase sharply in the near future due to the rapid aging of the population and the increasing numbers

of citizens 85 years of age and older. These facts coupled with an anticipated federal reduction in medicaid funding requires a more cost-effective system to ensure that the state has the ability to meet the needs of its citizens while providing quality care to medicaid recipients.

II. The purpose of this act is to carry out the proposals contained in the plan for the modernization of the medicaid program, called Granite Care, administered by the department of health and human services as it relates to the provision of long-term care. This act is written to strengthen the commitment of the state to its people, for the provision of long-term care within an established continuum of care of home and community-based care, intermediate or mid-level care, and nursing facility care. The plan provides for a basic health care system for elderly or disabled persons who are poor, are without the means for obtaining long-term care services, and who are in need of transitional or long-term support in order to achieve or maintain an identified degree of independence, self-sufficiency, health, or quality of life. The plan also provides a new emphasis on maintaining our elderly in home and community-based care through the empowerment of consumer choice. A basic intent underlying this proposal is that medicaid funding is reserved for those qualified individuals who need it and those who are not eligible are excluded.

2 Long-Term Care; Eligibility for Nursing Facility Services. Amend RSA 151-E:3, I(a) to read as follows:

(a) Clinically eligible for nursing facility care because the person requires 24-hour care for one or more of the following purposes, as determined by ~~the department~~ *registered nurses employed by the department using an assessment tool*:

(1) Medical monitoring and nursing care *when the skills of a licensed medical professional are needed to provide safe and effective services*;

(2) Restorative nursing or rehabilitative care *with patientspecific goals*;

(3) Medication administration ~~[or instruction and supervision of self-medication for discharge purposes only]~~ *by oral, topical, intravenous, intramuscular, or subcutaneous injection, or intravenous feeding for treatment of recent or unstable conditions requiring medical or nursing intervention*; or

(4) Assistance with 2 or more activities of daily living *involving eating, toileting, transferring, bathing, dressing, and continence*; and

3 Long-Term Care; Nursing Facility Services. Amend RSA 151-E:4 to read as follows:

151-E:4 Consumer Choice. A person who has been determined to be medicaid eligible for nursing facility services in accordance with RSA 151-E:3 shall have the right to receive nursing facility services; however, the person *shall be offered and* may choose to receive services in a less restrictive setting if such services are available and do not result in costs to the state and counties in excess of the limitations set forth in RSA 151-E:11, II. Such choice shall be ~~[subject to limitations imposed by federal and state laws and regulations]~~ *offered in accordance with state laws and federal regulations. The department shall take into consideration the family and community supports available to the person, the family's desire and ability to care for the person, and shall ensure that all consideration and support is offered to the family to maintain the person in home and community-based care. Nothing in this section is intended to require the provision of financial assistance or supports by a family member.*

4 Eligibility for Assistance; Asset Transfers. Amend RSA 167:4, I(b) to read as follows:

(b) In the case of an applicant for public assistance or medical assistance who has made an assignment or transfer of ~~[property]~~ *assets to an individual* for less than fair market value within ~~[36]~~ *60* months or in the case of ~~[payments from]~~ *transfers of real estate, or transfers of assets to a trust or portions of a trust that are treated as assets disposed of by the individual within [60] 120* months immediately preceding the date of application or while the application is pending, or in the case of a recipient of public assistance or medical assistance who makes such an assignment or transfer while in receipt of the assistance, the assistance sought shall only be granted or continue to be granted in accordance with rules establishing restrictions and eligibility criteria for such cases as adopted by the commissioner of the department of health and human services under RSA 541-A, subject to applicable federal regulations *and waiver approval, if any, and review by the oversight committee on health and human services, established in RSA 126-A:13. The oversight committee on health and human services shall make a report to the legislative fiscal committee which shall have final approval authority.*

5 Eligibility for Assistance; Medicaid. Amend RSA 167:4, IV(c) to read as follows:

(c) *Notwithstanding any provision of law to the contrary, for purposes of medicaid eligibility, investment in life insurance policies with cash surrender value in excess of \$1,500 shall be limited to policies that ensure payment to the state of New Hampshire of all the proceeds of the policy in excess of amounts spent on burial up to the total of medicaid expenditures made on behalf of the individual.*

(d) Contingent upon federal approval, the commissioner shall establish a program to eliminate the resource ceiling for applicants and recipients of medical assistance at the institutional level of care if the applicant or recipient benefits from or will benefit from a conforming long-term care insurance policy. The commissioner shall establish criteria for conforming long-term care insurance policies which, at a minimum, shall provide benefits for at least 36 months of nursing home payments at the average private pay rate for county nursing home facilities, an annual benefit inflation factor of at least 5 percent compounded annually, and coverage for home and community-based care equivalent to the benefit provided in a nursing facility. The estates of recipients of medical assistance for institutional level of care for whom the resource ceiling has been eliminated, shall be exempt from recoveries pursuant to RSA 167:13 and RSA 167:14.

(e) The commissioner of the department of health and human services shall adopt rules, pursuant to RSA 541-A, relative to the proper administration of this paragraph.

6 Recovery for Assistance Furnished. Amend RSA 167:13, I to read as follows:

I. Except as provided in paragraph II, if at any time during the continuance of assistance, the recipient or the husband or wife of the recipient becomes possessed of any property or income in excess of the amount stated in the application, it shall be the duty of the recipient within 10 calendar days to notify the commissioner of the department of health and human services of the receipt or possession of such property or income. On the death of a recipient of old age assistance, *aid to the needy blind, medicaid for employed adults with disabilities*, or aid to the permanently and totally disabled, the total amount of assistance paid under this chapter or RSA 161 shall be allowed as a claim against the estate of such person after payment of the charges in the priority set forth in RSA 554:19. No lien filed in accordance with RSA 167:14 shall be extended to enforce recovery nor shall any sale be forced against the real estate of a recipient of old age assistance, *aid to the needy blind, medicaid for employed adults with disabilities*, or aid to the permanently and totally disabled while it is occupied as a home by a surviving spouse. The federal government shall be entitled, as long as required as a condition to federal financial participation, to such proportion of the net amount collected from the estate of a recipient of old age assistance, *aid to the needy blind, medicaid for employed adults with disabilities*, or aid to the permanently and totally disabled as the federal participation bears to the total amount of assistance granted said recipient.

7 Assistance; Claims and Liens. Amend RSA 167:14, I to read as follows:

I. The estate of every recipient and the estate of a recipient's spouse, if any, owned severally or as joint tenants, shall be liable for all financial old age assistance, *aid to the needy blind*, or aid to the permanently and totally disabled granted to the recipient; provided, however, that the estate of a recipient's spouse shall be liable only for such financial assistance as was granted to the recipient during the time that the recipient and the recipient's spouse were neither legally separated nor divorced. After providing all owners of the real property known to the department with prior notice and an opportunity for a hearing, the commissioner of the department of health and human services shall file with the register of deeds of the county in which the recipient, or the spouse of the recipient, if any, owns real property, notice of the lien. Such notice of lien shall contain the names of the recipient and the recipient's spouse, if any. All such liens shall continue during the lifetime of the recipient and of the spouse of the recipient, if any, and until enforced as provided in this section, unless sooner released by the commissioner of the department of health and human services.

8 Recovery of Assistance. Amend RSA 167:14-a, I and II to read as follows:

I. Any person who is a recipient of financial assistance, medical assistance, old age assistance, *aid to the needy blind, medicaid for employed adults with disabilities*, or aid to the permanently and totally disabled shall, by his acceptance of such assistance, be deemed to have assigned any claim or right of action against any person or party to the commissioner of health and human services, to the extent that such assistance is furnished.

II. Whenever a recipient of financial assistance, medical assistance, old age assistance, *aid to the needy blind, medicaid for employed adults with disabilities*, or aid to the permanently and totally disabled shall have a legally cognizable claim against any person or party for expenses or

support and the department of health and human services has already furnished assistance to such recipient, the amount of assistance furnished may be recovered in an action brought in the name of the state from such person or party against whom the recipient has a legally cognizable claim for expenses or support.

9 New Paragraph; Recovery of Assistance; Estates of Recipients. Amend RSA 167:14-a by inserting after paragraph V the following new paragraph:

VI. Notwithstanding any provision of law to the contrary, for purposes of recovering the costs of medical assistance, the estate of a recipient shall include all property, real or personal, which at the time of a recipient's death was held by the recipient in joint tenancy with rights of survivorship, tenancy in common, life estate, living trust or other arrangement, without regard to the date that such title or interest was established. No sooner than 45 days from the death of the recipient, the department shall provide the other joint owner or owners notice of the department's claim. Within 30 days of the receipt of notification of the department's claim, the joint owner or owners shall acknowledge receipt of the department's claim and either tender an amount equal to the deceased recipient's interest in the identified property and/or financial instrument to the state of New Hampshire toward the deceased's medical assistance bill, but such amount shall not exceed the total amount of medical assistance provided to the deceased recipient, or enter into a binding agreement to make such payment as soon as is practicable. If the joint owner or owners refuse to acknowledge receipt of the department's claim or to tender payment or fail to fulfill the agreement to pay without good cause, as required by this paragraph, the commissioner may bring an action in superior court to compel such payment. Nothing in this paragraph shall be interpreted or applied so as to violate RSA 167:16-a, IV or 42 U.S.C. section 1396p(b)(2)(A) prohibiting recovery when the recipient is survived by a spouse, minor children, or disabled children.

10 Prescription Drugs; Organization of Drugs. Amend RSA 318:42, XIII to read as follows:

XIII. A nurse licensed under RSA 326-B, who is an employee of a ~~home health care or hospice agency~~ **health facility** licensed pursuant to RSA 151:2 and is acting in the course of employment, from organizing the prescription and nonprescription drugs of clients into containers designed to aid clients in carrying out a prescriber's directions, provided that the organizing of drugs is documented in the client's nursing record and that the original prescription containers remain in the client's possession.

11 New Subparagraph; Confidentiality of Records; Disclosure to Department of Health and Human Services. Amend RSA 21-J:14, V(d) by inserting after subparagraph (7) the following new subparagraph:

(8) An officer or employee of the department of health and human services in the performance of duties under RSA 167:14-a, V, which disclosure shall be limited to the report of the trust and a copy of the trust document, including any list of beneficiaries, filed in accordance with RSA 87:20.

12 New Paragraph; Duties of the Department of Health and Human Services; Medicaid Waivers. Amend RSA 126-A:4 by inserting after paragraph V the following new paragraph:

VI. The department of health and human services shall enter into medicaid waivers from the federal Centers for Medicare and Medicaid Services, subject in each case to a review by the oversight committee on health and human services, established in RSA 126-A:13, which shall make a report to the legislative fiscal committee which shall have final approval authority.

(a) Allow the department to begin the penalty period of ineligibility for medicaid services due to transfers of assets for less than fair market value as of the date of application for medical assistance or as of the date that the applicant, but for the transfer of assets for less than fair market value, meets all of the criteria for eligibility for medical assistance, whichever is later.

(b) Allow the department to eliminate the resource ceiling for applicants for medical assistance and to exempt them from actions for recovery against their estates for the cost of medical assistance they receive when they have a long-term care insurance policy that meets the standards established by the legislature and the department.

13 Long-Term Care; Cost Controls; Limitation on Waiver Slots. Amend RSA 151-E:11 to read as follows:

151-E:11 Program Management and Cost Controls.

I. The department shall designate in its operating budget requests specific class lines for nursing facility, mid-level, and home-based care provided for in this chapter. These class lines shall reflect, and the requesting documentation shall include, the anticipated number of persons to re-

ceive services. The department *with prior review of the county-state finance commission and with the approval of the legislative fiscal committee, may make transfers between these class lines, but shall not increase expenditures in the total approved budgets for* ~~[care] these class lines for the number of persons to receive mid-level or home care services without the approval of the legislative fiscal committee, and the prior review of the county-state finance commission~~.

II. For the fiscal year beginning July 1, 2003, and each fiscal year thereafter the average annual cost for the provision of services to persons in the mid-level of care shall not exceed 60 percent of the average annual cost for the provision of services in a nursing facility. The average annual cost for the provision of services in home-based care shall not exceed 50 percent of the average annual cost for the provision of services to persons in a nursing facility. Average annual costs shall be the net medicaid costs exclusive of provider payments. *No person whose costs would be in excess of 80 percent of the average annual cost for the provision of services to a person in a nursing facility shall be approved for home-based or mid-level services without the prior approval of the commissioner of health and human services.* The department shall provide a report semi-annually on the utilization of non-nursing home services to the county-state finance commission and the legislative fiscal committee.

14 Applicability. Pending federal Centers for Medicare and Medicaid Services approval required under section 4 of this act and notwithstanding RSA 167:4, I(b) or any other provision of law to the contrary, any applicant for public assistance or medical assistance who has made an assignment or transfer of assets to an individual for less than fair market value or who has transferred real estate or transferred assets to a trust relying on the 3-year or 5-year look back provision under RSA 167:4 and which is in existence on March 14, 2005 shall be grandfathered.

15 Commission Established. Pursuant to the goals of the Granite Care plan, there is established a commission to develop a comprehensive state mental health plan as recommended by the President's New Freedom Commission on Mental Health. The purpose of the commission is to create a 5-year strategy to deliver mental health services that are founded on the principles of resiliency and recovery, evidence - based practice, effectiveness and efficiency. The plan shall also focus on the integration of the mental health system with other systems of care, including the developmental services system and the elder care system.

16 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Three members of the house of representatives, 2 of whom shall be members of the house committee on health, human services and elderly affairs, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

(c) Two members representing community mental health centers, one of whom shall be a board member, appointed by the Community Behavioral Health Association.

(d) The commissioner of the department of health and human services, or designee.

(e) The director of the division of community-based care services of the department of health and human services, or designee.

(f) The superintendent of New Hampshire hospital.

(g) The superintendent of the Glenclyff home for the elderly.

(h) The chief of the bureau of behavioral health, department of health and human services.

(i) The director of the office of consumer affairs, department of health and human services.

(j) The executive director of the National Alliance for the Mentally Ill (NAMI).

(k) The executive director of the governor's commission on disability, or designee.

(l) Two members representing consumers utilizing mental health services, appointed by the governor.

(m) Two members representing families utilizing mental health services, appointed by the governor.

(n) The director, office of alcohol and drug policy, department of health and human services.

(o) A psychiatrist, appointed by the New Hampshire Psychiatric Society.

(p) The medical director, bureau of behavioral health, department of health and human services.

(q) Two members representing peer support agencies, one of whom shall be a board member, appointed by the Consumer Council.

- (r) The commissioner of the department of corrections, or designee.
- (s) The superintendent of a county house of corrections, appointed by the governor.
- (t) A member of the West Institute, appointed by the Dartmouth Psychiatric Research Center.
- (u) The dean of the university of New Hampshire, school of health sciences.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

III. The commission may seek grant funding support to carry out its duties.

17 Duties. The commission shall review and study the mental health service delivery system and make recommendations regarding:

I. The role and mission of New Hampshire hospital and Glencliff home for the elderly.

II. The role and mission of community mental health centers as providers of comprehensive behavioral health services and supports, including a range of residential services.

III. The role and mission of peer support programs.

IV. The role and mission of family mutual support organizations.

V. The integration of services for persons who have both mental illness and problems with substance abuse.

VI. The implementation of evidence based standards of care and treatment.

VII. The promotion of research to improve the treatment of mental illness.

VIII. The utilization of local community hospitals to provide short-term stabilization of mental health crises.

IX. The development of regional transitional housing.

X. The availability of mental health treatment in prisons and jails.

XI. The integration of mental and physical health care.

XII. Other matters related to the delivery of mental health services.

18 Chairperson; Quorum. The members of the commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named house member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Twelve members of the commission shall constitute a quorum. The bureau of behavioral health shall provide administrative support to the commission.

19 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, senate president, the house clerk, the senate clerk, the governor, and the state library in an interim report on or before December 1, 2005 and in a final report on or before December 1, 2006.

20 Oversight Committee on Health and Human Services; Duty Added. Amend RSA 126-A:15, I to read as follows:

I. The committee shall provide legislative oversight of and informational meetings on the programs, policies, and rules of the department of health and human services as brought to its attention by committee members, legislators, department personnel, or others. The committee's work may include, but is not limited to, analyzing the efficacy of selected programs, studying the characteristics of target populations, researching trends affecting program costs and participation, and reviewing alternate approaches to programmatic and administrative concerns. ***The committee shall monitor the on-going medicaid modernization plan.*** The committee shall provide informational meetings on such topics to the general court. The committee shall maintain communications with the department of health and human services, and any other departments, as necessary to accomplish its work.

21 Effective Date.

I. Section 2 of this act shall take effect January 1, 2006.

II. Sections 15-19 of this act shall take effect upon its passage.

III. The remainder of this act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill revises the medicaid program. Specifically some of the changes include:

I. Clarifying the law regarding eligibility for nursing facility services.

II. Clarifying entitlement to nursing facility care.

III. Revising the law regarding asset transfers preceding application for public assistance.

IV. Adding the category of aid to the needy blind for purposes of recovery of assistance.

V. Requiring the department of health and human services to seek certain medicaid waivers.

VI. Establishing a commission to develop a comprehensive state mental health plan.
 Majority amendment adopted.
 Rep. Craig spoke against.
 Reps. MacKay, Donovan and Batula spoke in favor.
 Rep. Boyce requested a roll call; sufficiently seconded.
 The question being adoption of the majority committee report.

and the motion to reconsider failed.

Rep. Irwin declared a conflict of interest and did not participate.

HB 25-FN-A, making appropriations for capital improvements. OUGHT TO PASS WITH AMENDMENT

Rep. Gene G. Chandler for Public Works and Highways: This bill represents the capital budget for the next biennium. In keeping with past tradition, the Public Works and Highways Committee invited the Treasurer to appear before the committee for a status report on our bonded debt position and his recommendations in order that New Hampshire maintain its excellent credit position as it relates to capital expenses. Keeping in line with the Treasurer's recommendation to stick closely to an 80 million dollar limit in general fund obligations, the committee crafted a budget with \$80,722,177 in general fund obligations. In developing this capital budget the committee relied on a number of funding mechanisms, including: general funds; federal funds; highway funds where appropriate, use of lapsed funds and payments from other funds, such as the Mt. Washington fund; student fees; the navigation safety fund; etc. The careful use of all of these sources enabled approval of a wide variety of projects for the next biennium. Highlights of projects included in this capital budget include: 1.) All projects requested by the Adjutant General, involving Armory renovations and kitchen expansions. 2.) A number of court related renovations and repairs and numerous repair projects requested by Administrative Services. 3.) 4,565,000 dollars in critical maintenance for the Community Technical College System, plus a Library Resource Center for the Claremont branch; a Health Education and Technical Center for the Manchester branch; dining hall renovations for the Concord branch and residence hall suites for the Concord branch. 4.) The Department of Corrections will see fire and security upgrades along with a major roof repair project. 5.) The Department of Education budget provides for Regional Career and Technical Centers in Concord and Conway. 6.) Department of Environmental Services received funding for a number of projects including dam repairs, removals and reconstruction, along with funds for matching grants for Wastewater Treatment and Drinking Water programs. Funding for the Clean Lab is also included in this budget. 7.) Department of Resources and Economic Development will receive funding for Hampton Seawall repairs; additional funds for the Mt. Washington electrification project and various State Park maintenance items. 8.) The Secretary of States office will receive funds for renovations and shelving for the state archives building. 9.) The NH Veterans Home has funding included in this budget for a new roof and life safety upgrades. 10.) The NH Department of Transportation has a number of general fund items including 5% matching funds for FAA projects at various airports; public transit matching funds; railroad bridge repairs and railroad right of way acquisition funds. 11.) The University System receives 4.5 million dollars for the 06-07 biennium for engineering and design at Demerit and James Halls at the Durham Campus and language to continue the "Keep" project idea for the next 3 biennia at 35 million dollars per biennium. The first "Keep" project was started two biennium's ago and has proven very successful and the committee unanimously agreed to continue the "Keep" idea. 12.) The Departments of Transportation and Safety received approval for various maintenance items; patrol shed renovations and replacements; underground tank removals; Department of Motor Vehicle additions, etc. funded by the Highway Fund. The amendment provided for HVAC upgrades at the Supreme Court; language regarding the Hampton Seawall project funding; additional funding for the Mt. Washington electrification project and language allowing the bureau of public works to use temporary personnel to provide construction inspection services. The committee believes this is a well crafted bill that meets a number of critical capital needs for the State of New Hampshire for the next biennium. Vote 17-0.

Amendment (0883h)

Amend paragraph II, B and the total state appropriation paragraph II of section 1 of the bill by replacing them with the following:

B. Bureau of General Services.

1. State House - Rehab Representatives Hall	\$ 388,000
Less Other*	- 12,876
Net state appropriation subparagraph 1	375,124

* Source of other funds in subparagraph 1 is prior bond authorization as amended in sections 16 and 17 of this act.

2. State Library - Install Fire Suppression System	231,000
3. Legislative Office Building - Install De-Icing System	82,000
4. Monadnock Mill - Repoint Defective Masonry	119,500
5. Londergan Hall - Replace Defective Windows	440,000
6. State House and State House Annex - Repoint Granite and Front Steps	115,000
7. NH Hospital Campus - Steam Plant Plan	75,000
8. All State Owned Facilities - Emergency Repairs	100,000

Notwithstanding the provisions of RSA 228, any sums expended for emergency repairs under subparagraph 8 shall not require approval by governor and council.

9. 5 State Owned Buildings - Upgrade Energy Mgmt System	271,000
10. Supreme Court Building - HVAC	230,000
11. Data Center - Replace Computer Room Cooling Units	444,000
12. Legislative Office Building - Replace Chiller	276,000
13. State House Arch - Repoint Masonry	69,500
14. Office Park South, Roadway Design	250,000
15. M.S. Building, Renovation	9,300,000
Total state appropriation subparagraph B	\$ 12,378,124
Total state appropriation paragraph II	\$ 15,961,124

Amend paragraph IX of section 1 of the bill by replacing it with the following:

IX. Department of Resources and Economic Development.

A. Statewide Radio System	\$400,000
B. Hampton Beach Seawall Repairs	2,000,000
Less Other*	- 2,000,000
Net state appropriation subparagraph B	0

* To provide funds for the appropriation in subparagraph B for Hampton Beach seawall repairs the state treasurer is hereby authorized to borrow upon the credit of the state not exceeding the sum of \$2,000,000 and for said purpose may issue bonds and notes in the name of and on behalf of the state of New Hampshire in accordance with RSA 6-A. Notwithstanding the use of funds under RSA 216:3, IV, payments of principal and interest on the bonds and notes shall be made from the Hampton Beach capital improvement fund established in RSA 216:3, IV.

C. Roof Repair and Replacement Statewide	150,000
D. Interior and Exterior Building Repair Statewide	150,000
E. Mount Washington Electrification	540,000
Less Mount Washington Fund*	- 300,000
Net state appropriation subparagraph E	240,000

* To provide funds for the appropriation of Mount Washington Funds made in subparagraph E the state treasurer is hereby authorized to borrow upon the credit of the state not exceeding the sum of \$300,000 and for said purpose may issue bonds and notes in the name of and on behalf of the state of New Hampshire in accordance with RSA 6-A. Payments of principal and interest on the bonds and notes shall be made from the Mount Washington fund established in RSA 227-B:9.

Total state appropriation paragraph IX	\$ 940,000
--	------------

Amend the bill by inserting after section 22 the following and renumbering the original sections 23 and 24 to read as 25 and 26, respectively:

23 Community-Technical College System; Oversight and Reporting Required. The community-technical college system shall provide a report every 180 days to the governor and legislative capital budget overview committee on the progress of each of the capital projects funded from the sum appropriated and authorized in paragraphs III and X, C of section 1 of this act beginning Septem-

ber 30, 2005 until the funds appropriated in paragraphs III and X, C of section 1 are fully expended. Said reports shall include the method of selecting contractors, the current total project cost, funds encumbered, actual expenditures, and estimated completion date for each project.

24 Bureau of Public Works; Construction Inspection Services. The appropriations for those projects which are managed by the bureau of public works, department of transportation, may be expended to fund temporary personnel for the purpose of providing construction inspection services for those projects included in sections 1, 3, and 4 of this act.

Amend paragraph XXX of section 25 of the bill by replacing it with the following:

XXX. The appropriation made to the community-technical college system in 2003, 240:24, for student residence hall – Berlin Campus.

Amend the bill by replacing section 26 with the following:

26 Effective Date.

I. Section 25 of this act shall take effect June 30, 2005.

II. The remainder of this act shall take effect July 1, 2005.

Adopted.

Committee report adopted.

Referred to the Committee on Finance.

The House recessed at 12:15 p.m.

RECESS

(Speaker Scamman in the Chair)

The House reconvened at 1:20 p.m.

CLERK'S NOTE

The Speaker indicated that unless otherwise ordered by the House, House Bills 687 and 397 would be taken up out of order. If the committee reports on these bills were adopted, they would need referral to the Committee on Finance.

REGULAR CALENDAR – PART II

HB 687-FN, relative to tuition waivers for children and spouses of members of the armed forces who die while on active duty. **OUGHT TO PASS WITH AMENDMENT**

Rep. Timothy E. Easson for Education: Our veterans have made many sacrifices to preserve our freedoms. The committee heard testimony that the state offers free tuition and a \$1,000 stipend for fees, books, room and board, etc. to students who are the survivors of a serviceman or woman who dies from a service connected disability and who attend a state college or university. The bill expands this program to include surviving children of those service members who were killed in the line of duty. The committee also heard testimony that only seven students in the state are in this program. Currently, there is a budget appropriation of \$9,000 for this program, but only \$7,000 gets used because of the \$1,000 cap. The \$1,000 cap was set in 1987 and currently, the fees of one year at the University of New Hampshire total over \$2,000. The amendment clarifies the intent of the sponsors and increases the cap to allow the post secondary commission to distribute the whole appropriation to these worthy students. Vote 13-2.

Amendment (0702h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to free tuition at New Hampshire public institutions of higher education for children of veterans who die while on active duty or from a service-connected disability.

Amend the bill by replacing all after the enacting clause with the following:

1 Scholarships for Orphans of Veterans; Purpose of Appropriations. RSA 193:19 is repealed and reenacted to read as follows:

193:19 Purpose of Appropriations. The sums appropriated under the provisions of this section shall be used for the sole purpose of contributing to the payment of board, room rent, books and supplies, at a New Hampshire public institution of higher education, for veteran's natural or adopted children between the ages of 16 and 25 years, who are legal residents of the state at the time of application, whose parent served on active duty in the armed services of the United States from December 7, 1941 to December 31, 1946; or from June 27, 1950 to January 31, 1955; or from February 28, 1961 to

May 7, 1975; or from August 2, 1990 through a final date of the Gulf War conflict to be prescribed by Presidential proclamation or law; or in any operation not otherwise covered by this section for which the armed forces expeditionary medal or a theater of operations service medal, as defined in RSA 72:29, has been awarded to the veteran, and the veteran, who was a New Hampshire resident at the time of his or her death, either died while on active duty during the service described above, or has since died from a service-connected disability so rated by the federal government. Not more than \$2,500 shall be paid under this section to any one student in any one year, provided that no individual shall be eligible to receive such benefits for a period of more than 4 years.

2 Scholarships for Orphans of Veterans; Tuition. RSA 193:20 is repealed and reenacted to read as follows:

193:20 Tuition. Children, as described in RSA 193:19, enrolled at a New Hampshire public institution of higher education shall receive free tuition.

3 Scholarships for Orphans of Veterans; Payment. Amend RSA 193:21 to read as follows:

193:21 Payment. The amounts payable to recipients shall be determined by the postsecondary education commission ~~[and shall not be in excess of the amount specified in RSA 193:22]~~. The commission shall determine the eligibility in accordance with rules adopted under RSA 541-A of the children who make application for the benefits provided for in this subdivision, provided that no member of the commission shall receive any compensation for such service.

4 Repeal. RSA 193:22, relative to fund, is repealed.

5 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill provides that children of veterans who die while on active duty or later die from a service-connected disability are entitled to free tuition when enrolled at a New Hampshire public institution of higher education.

The bill also increases the maximum scholarship amount a student may receive for board, books and supplies from \$1,000 to \$2,500.

Adopted.

Committee report adopted.

Referred to the Committee on Finance.

HB 397, relative to authority to file an abuse or neglect petition under the Child Protection Act. **OUGHT TO PASS**

Rep. David A. Bickford for Children and Family Law: This bill will preclude private petitions under RSA 169-C. Department of Children Youth and Family will become the sole petitioner in all cases of abuse and neglect. This bill is a consequence of the abuse of the process by individuals which has resulted in a wasteful drain of limited resources that could have been better utilized by DCYF. Vote 11-3.

Rep. Tholl spoke against and yielded to questions.

Report failed.

Rep. Tholl moved recommit.

Rep. McRae spoke in favor.

Motion adopted.

Recommitted to the Committee on Children and Family Law.

HB 567, relative to mediation in family law cases involving children. **OUGHT TO PASS**

Rep. Carolyn M. Gargas for Children and Family Law: This bill amends the current mediation statute so the courts may order mediation in disputed cases involving custody of minor children. The statute provides for reasons not to order mediation when it is not appropriate. Vote 11-4. Committee report adopted and ordered to third reading.

HB 177, relative to home improvement contracts. **OUGHT TO PASS WITH AMENDMENT**

Rep. Matthew J. Quandt for Commerce: This bill establishes certain requirements for home improvement contracts, including that they be in writing and that they address the contract price, the work to be completed and estimated completion date. The bill provides that a violation of the chapter regulating home improvement contracts is prima facie evidence of a violation of the Consumer Protection Act. The bill also establishes a separate fund for civil penalties collected by the department of justice, which may be used for enforcement of the Consumer Protection Act. Vote 18-2.

Amendment (0691h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Chapter; Home Improvement Contracts. Amend RSA by inserting after chapter 359-F the following new chapter:

**CHAPTER 359-G
HOME IMPROVEMENT CONTRACTS**

359-G:1 Application of Chapter. This chapter applies only to residential property, which means real property that includes a single family dwelling or an owner-occupied dwelling of not more than 4 units, as well as all fixtures to, structures on, and improvements to the real property.

359-G:2 Definitions. In this chapter:

I. "Change order" means a written amendment to the home improvement contract which becomes part of and is in conformance with the existing contract.

II. "Consumer" means the owner of the residential property.

III. "Down payment" means all payments to a home improvement contractor prior to the initiation of the work.

IV. "Home improvement" means the construction, reconstruction, alteration, renovation, repair, modernization, conversion, improvement, removal, or demolition, of any residential property where the value of the home improvement or the liability of the consumer is equal to or in excess of \$5,000. "Home improvement" includes the repair, paving, or resurfacing of a residential driveway and pool or hot tub installation.

V. "Home improvement contract" means an agreement, in writing, for the performance of home improvement, including all labor, goods, and services set forth under such agreement, for the performance of home improvement.

VI. "Home improvement contractor" means any person who owns or operates a business who, personally or through others, undertakes, offers to undertake, purports to have the capacity to undertake, or submits a bid for home improvement.

VII.(a) "Home improvement contract price" means:

(1) The total fixed price for performance of the contract;

(2) The home improvement contractor's actual costs and expenses, as defined in the specifications, plus a fixed fee; or

(3) The home improvement contractor's actual costs and expenses, as defined in the specifications, plus a fixed percentage of all costs incurred over the length of the project.

(b) The home improvement contract price may include financing costs, loan consolidation amounts, taxes, and governmental fees paid by or on behalf of the consumer, amounts returned to or on behalf of the consumer, or similar costs not related to the home improvement.

VIII. "Specifications" means the plans, detailed drawings, lists of materials, stated allowances, or other methods customarily used in the home improvement industry as a whole to describe with particularity the work, workmanship, materials, and quality of materials for each home improvement.

359-G:3 Contract Requirements. No home improvement contractor shall perform a home improvement without a home improvement contract that meets the requirements of this chapter. The home improvement contractor and the consumer shall sign the home improvement contract prior to the commencement of any work under the contract. The contract shall contain, at a minimum, the following:

I. The consumer's name, telephone number, and the address of the residential property that is the subject of the home improvement.

II. The name and street address of the home improvement contractor and the number of any license or permit issued to the home improvement contractor by the electrician's board pursuant to RSA 319-C, the plumbers' licensing and regulation board pursuant to RSA 329-A, the water well board pursuant to RSA 482-B, or the department of environmental services pursuant to RSA 485-A, and any other applicable license or permit.

III. The name and telephone number of any agent to whom consumer problems and inquiries can be directed.

IV. The date the home improvement contract was submitted to the consumer and any time limitation on the consumer's acceptance of the home improvement contract.

V. A reasonably detailed description of the proposed home improvements.

VI. If the description required by paragraph V does not include the specifications for the home improvement, a statement that the specifications will be provided to the consumer be-

fore commencing any work and that the home improvement contract is subject to the consumer's separate written and dated approval of the specifications. All specifications shall meet or exceed applicable building codes or standards.

VII. The estimated date of commencement of work and the estimated date when the work will be substantially completed. The estimated date of commencement of work and the completion date may be changed if work cannot begin or end due to circumstances beyond the control of the contractor, including, but not limited to, the lack of readiness of the job site, the unavailability of building materials, or weather conditions.

VIII. A statement of any contingencies that would materially change the approximate completion date.

IX. The home improvement contract price.

X. The amount of the initial down payment, which shall be limited to no more than 1/3 of the total contract price.

XI. The schedule of payments, which may stipulate additional deposits required to initiate the ordering of materials.

XII. A change order statement which reads: "Any alteration or deviation from the contractual specifications that results in a revision of the contract price or date of commencement or completion of the work will be executed only upon the parties entering into a written change order."

XIII. A statement describing the extent of liability insurance maintained by the home improvement contractor or disclosure that the home improvement contractor does not have liability insurance.

XIV. A warranty statement which reads: "In addition to any additional warranties agreed to by the parties, the home improvement contractor warrants that the work will be free from faulty materials, constructed according to the standards of the building code applicable for this location, constructed in a skillful manner, and fit for habitation or appropriate use."

XV. A statement specifying who shall be responsible for obtaining and paying for all applicable permits.

XVI. Signature lines for the home improvement contractor or the contractor's agent and for each consumer who is to be a party to the home improvement contract with a legible printed or a typed version of that person's name placed directly after or below the signature.

359-G:4 Signature of Contractor. Before the consumer signs the home improvement contract and before the consumer may be required to make any down payment, the home improvement contractor shall have agreed unequivocally by written signature to all of the terms of the home improvement contract.

359-G:5 Consumer's Copy of Dated Contract. The home improvement contractor shall give an executed copy of the home improvement contract to the consumer within 3 days of the consumer signing it. The contract shall also show the dates the contractor and each consumer executed the contract.

359-G:6 Approval by Consumer. Any approval required by this chapter shall not be unreasonably withheld by the consumer.

359-G:7 Exemption. Parties to a home improvement contract may exempt themselves from the requirements of this chapter only if:

I. The total home improvement contract is for services totaling less than \$5,000; or

II. The consumer asserts that exigent circumstances exist. Exigent circumstances shall include, but not be limited to, severe damage to the residence, such as by fire or water, that requires immediate repair in order to mitigate further damage or make the residence habitable.

359-G:8 Violations.

I. A violation of this chapter shall constitute prima facie evidence of a violation of the consumer protection act under RSA 358A:2. Except as otherwise provided in this section, any right or remedy available under RSA 358-A, including the civil penalties under RSA 358-A:4 and the criminal penalties under RSA 358-A:6, shall apply to this chapter. The attorney general shall have the sole authority to bring an action under RSA 358-A for violations of this chapter. No person may bring a private action under RSA 358-A:10 for a violation of this chapter.

II. There is established a home improvement consumer protection fund within the office of the treasurer which shall be nonlapsing and continually appropriated to the department of justice for investigation and enforcement measures under the consumer protection act. Any civil penalties assessed under RSA 358-A:4 for violations of this chapter shall be deposited in the home improvement consumer protection fund.

III. If the home improvement contractor has committed more than one violation of this chapter within one year, the court shall consider the following factors in assessing a civil penalty:

(a) The volume of business which the home improvement contractor performs on an annual basis.

(b) The number of contracts in violation.

(c) The actual financial loss or exposure to financial loss suffered by any consumer as a result of the violations.

(d) Whether the home improvement contractor acted in good faith or knowingly with respect to such violations.

IV. Except as otherwise provided in paragraph I, nothing in this section shall impair, limit, or reduce the statutory, common law, or contractual duties or liability of any home improvement contractor.

359-G:9 Applicability. This chapter shall not exempt any home improvement contractor subject to its provisions from complying with any local ordinance with respect to the regulation of home improvement contractors, provided, however, that after January 1, 2006, no political subdivision may enact a local ordinance inconsistent with the provisions of this chapter.

2 New Subparagraph; Home Improvement Consumer Protection Fund. Amend RSA 6:12, I(b) by inserting after subparagraph (234) the following new subparagraph:

(235) Moneys deposited in the home improvement consumer protection fund, established under RSA 359G:8.

3 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill establishes certain requirements for home improvement contracts, including that they be in writing and that they address the contract price, the work to be completed, and estimated completion date. The bill provides that a violation of the chapter regulating home improvement contracts is prima facie evidence of a violation of the consumer protection act. The bill also establishes a separate fund for civil penalties collected by the department of justice, which may be used for enforcement of the consumer protection act.

Adopted.

Committee report adopted and ordered to third reading.

HB 137-FN, relative to unemployment benefit eligibility. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Anthony R. DiFrancia for the Majority of Labor, Industrial and Rehabilitative Services: This bill provides the basic necessities to the part-time employee and his family, allows the transition to re-employment, and eliminates the need for welfare. The present eligibility unemployment benefit program is discriminatory and unfair to part-time employees and families. The original intent of unemployment benefits was to provide employees with economic security. Part-time employees, unemployed through no fault of their own, were not included in past legislation. Federal funds are available through the Reed Act to provide benefits to part-time employees. The pilot program will be able to monitor the actual benefits paid to the employee and will terminate on July 1, 2006. Vote 11-5.

Rep. William J. Infantine for Minority of Labor, Industrial and Rehabilitative Services: The original intent of the bill was to allow part time workers the ability to collect unemployment benefits. The bill was amended to include a one year pilot program paid for by Reed Act money. Reed Act funds came from the government as reimbursement for overpayments made by the states to the unemployment funds. This bill has three major problems. There is a technical flaw in the bill that both accounts for the one year pilot program plus changing the law permanently regarding part time workers. The legislature would have to change the law again next year after the completion of the pilot program to put the law back to where it is now. There is substantial disagreement regarding the cost of this program. The sponsor says the number is in the \$800,000 range and the Department of Employment Security calculates a cost of over \$10,000,000. There is also a concern that mandating the pilot program is a violation against Part I, Article 28-A unfunded mandates and a court challenge is most certain. The minority of the committee feels that the majority was concentrating on providing some kind of unemployment benefits and was willing to overlook the issues stated above. House Bill 170, which passed the committee unanimously, does provide unemployment benefits for a significant part of the part time work force that has child care obligations. This is permanent legislation with well defined and non-disputed financial costs.

Majority Amendment (0242h)

Amend the bill by replacing all after section 1 with the following:

New Paragraph; Unemployment Compensation Eligibility; Part-Time Work. Amend RSA 282A:31 by inserting after paragraph I the following new paragraph:

I-a. An unemployed individual shall not be disqualified for eligibility for unemployment compensation benefits solely on the basis that he or she is only available for part-time work. If an individual restricts his or her availability to part-time work, he or she may be considered to be able to work and available for work pursuant to subparagraph I(d) if it is determined that all of the following conditions exist:

(a) The claim is based on the part-time employment.

(b) The claimant is actively seeking and is willing to accept work under essentially the same conditions as existed while the wage credits were accrued.

(c) The claimant imposes no other restrictions and is in a labor market in which a reasonable demand exists for the part-time services he or she offers.

3 Unemployment Benefit Eligibility. Amend RSA 282-A:31, I(d) to read as follows:

(d) He or she is available for and seeking permanent *full-time* work for which he or she is qualified.

4 Repeal. RSA 282-A:31, I-a, relative to unemployment compensation benefits for part-time workers, is repealed.

5 Appropriation of Federal Funds; Department of Employment Security. There is hereby appropriated out of federal funds made available to this state under section 903(d) of the Social Security Act, 42 U.S.C. section 1103(d), as amended, transferred to the state on March 13, 2002, the sum of \$10,033,920, or so much thereof as may be necessary, to be used, under the direction of the New Hampshire department of employment security for the purpose of providing unemployment compensation benefits to claimants who are seeking part-time work under RSA 282-A:31, I-a. Expenditures may include providing funds for benefit payments, additional personnel, and administrative costs and other purposes that are in accordance with any uses authorized by the United States Congress, now or in the future. Such funds shall exclusively be used for expenses authorized under section 903(d) of the Social Security Act, 42 U.S.C. section 1103(d) as amended.

6 Report. On or before August 1, 2006, the commissioner of employment security shall provide to the general court a report detailing the overall financial cost, additional state personnel utilized, and the number of claimants served as a result of RSA 282-A:31, I-a.

7 Effective Date.

I. Sections 3 and 4 of this act shall take effect July 1, 2006.

II. The remainder of this act shall take effect July 1, 2005.

AMENDED ANALYSIS

This bill:

I. Deletes, for a one-year period, the requirement that an individual seek full-time employment to qualify for unemployment compensation benefits.

II. Authorizes the department of employment security to expend federal funds for part-time unemployment compensation benefits.

III. Requires the commissioner of employment security to report to the general court.

On a division vote, 170 members having voted in the affirmative and 173 in the negative, the majority amendment failed.

The question now being adoption of the motion of Ought To Pass.

Reps. O'Neil and Rausch spoke against.

Rep. DiFruscia spoke in favor.

Rep. Infantine spoke against and yielded to questions.

Reps. Bishop and Gorman spoke in favor and yielded to questions.

Rep. Bishop requested a roll call; sufficiently seconded.

The question being adoption of the motion of Ought To Pass.

and the motion of Ought to Pass failed.

Rep. O'Neil moved Inexpedient to Legislate.

On a division vote, 205 members having voted in the affirmative and 160 in the negative, the motion of Inexpedient to Legislate was adopted.

HB 611-FN, relative to small group insurers. OUGHT TO PASS WITH AMENDMENT

Rep. Sheila T. Francoeur for Commerce: As amended, HB 611-FN establishes a small group re-insurance mechanism; creates a composite band of case characteristics used to establish premiums; removes health underwriting and geography from the composite band; sets a limit of 4:1 variability on premium rates, and establishes a 15% cap on premium rate increase, excluding trend. Additionally, the amendment extends the responsibility of the SB 110 oversight committee to monitoring the effects of small group health insurance reform. Vote 20-0.

Amendment (0917h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Chapter; Small Group Reinsurance Mechanism. Amend RSA by inserting after chapter 404-H the following new chapter:

CHAPTER 404-I**SMALL GROUP REINSURANCE MECHANISM****404-I:1 Purpose.****I. The purpose of this chapter is to:**

(a) Create a nonprofit organization to facilitate the availability of affordable small group health insurance for high risk small groups by establishing a mandatory assessment and reinsurance mechanism to distribute the risks within the small group market.

(b) Protect the citizens of this state who participate in the small group health insurance market by providing a mechanism to enable insurers to better protect against the excessive risk associated with covering high risk groups and individuals within those groups.

II. It is the intent of the general court that the small group reinsurance mechanism shall be adequately funded through an annual, and if necessary, a special assessment mechanism, and that the reinsurance mechanism shall utilize cost containment measures.

404-I:2 Definitions. In this chapter:

I. "Assessment" means the liability of the member insurer to the reinsurance association.

II. "Association" means the reinsurance association.

III. "Commissioner" means the insurance commissioner.

IV. "Covered lives" shall include all persons who are covered under a health insurance policy or certificate issued or delivered to a small employer in New Hampshire.

V. "Health insurance" means health insurance coverage issued in accordance with RSA 415, RSA 420-A, or RSA 420-B. For the purposes of this chapter, health insurance shall not include accident only, credit, dental, vision, Medicare supplement, Medicare Risk, Medicare Advantage, Managed Medicaid, long-term care, disability income, coverage issued as a supplement to a liability insurance, workers' compensation or similar insurance, automobile medical payment insurance, policies or certificates of specified disease, hospital confinement indemnity, limited benefit health insurance or short-term, nonrenewable individual health insurance, coverage provided through the New Hampshire healthy kids association, and coverage provided through the federal Employees' Program. "Health insurance" shall include group excess loss insurance.

VI. "Mechanism" means the New Hampshire small group reinsurance mechanism.

VII. "Member insurer" means a small group health insurance carrier that is licensed in New Hampshire pursuant to RSA 402, RSA 420-A, or RSA 420-B.

VIII. "Plan of operation" means the plan of operation of the small group reinsurance mechanism, including articles, bylaws and operating rules, procedures and policies adopted by the association.

IX. "Reinsurance association" means the entity created within this chapter.

X. "Small employer" means "small employer" as defined in RSA 420-G:2, XVI.

XI. "Small group health insurance carrier" means any entity licensed pursuant to RSA 402, RSA 420-A, or RSA 420-B that issues or maintains in force policies of health insurance to small employers in New Hampshire.

404-I:3 Reinsurance Association's Powers and Duties.

I. The association shall be a not-for-profit, voluntary corporation under RSA 292 and shall possess all general powers as derive from that status and such additional powers and duties as are approved by the commissioner or as specified below.

II. The board of directors of the association shall have the following powers:

- (a) Enter into contracts as necessary or proper to administer the plan of operation.
- (b) Sue or be sued, including taking any legal action necessary or proper for the recovery of any assessments for, on behalf of, or against members of the association or other participating person.
- (c) Take legal action as necessary to avoid the payment of improper claims against the plan.
- (d) Retain appropriate legal, actuarial, and other persons as necessary to provide technical assistance in the operation of the plan, and in any other function within the authority of the plan.
- (e) Borrow money to carry out the plan of operation.
- (f) Issue policies of reinsurance.
- (g) Assess small group health insurance carriers.
- (h) Apply for and accept funds from any third-party.
- (i) Perform any other function within the authority of the association as may be necessary or proper to carry out the plan of operation.

III. The board of directors of the association shall have the following duties:

- (a) Fulfill the plan of operation as approved by the commissioner.
- (b) Develop and issue policies of reinsurance.
- (c) Determine and collect assessments for the reinsurance mechanism.
- (d) Administer reinsurance policies, including premium collection and claims payments.
- (e) Establish appropriate rates, rate schedules, rate adjustments, expense allowances, claim reserve formulas and any other actuarial functions appropriate to the plan of operation for the reinsurance mechanism.

(f) Provide for and employ cost-containment measures and requirements, which shall include but not be limited to, conducting medical audits on reinsurance submissions.

404-I:4 Reinsurance Association Membership and Governance.

I. The association shall be composed of all small group health insurance carriers licensed in the state of New Hampshire.

II. The initial board of directors of the association shall be appointed by the commissioner, and shall include 10 members, including the commissioner, or his or her designee, who shall serve as an ex officio member of the board. In the initial and in each successor board, 5 directors shall be representative of small group health insurance carriers, one director shall be representative of the health care provider community and shall be appointed by the commissioner, one director shall be representative of consumers covered through the reinsurance mechanism and shall be appointed by the commissioner, one director shall be a representative of insurance brokers and shall be appointed by the commissioner, and one director shall be a representative of small employers and shall be appointed by the commissioner. The commissioner shall serve in an ex officio capacity.

III. There shall be no more than one director representing any one small group health insurance carrier or its affiliate. For purposes of this section, the insurance activities of any elected director's affiliate shall be deemed to be insurance activities of the elected director.

IV. In the successor board, the 5 directors representing small group health insurance carriers shall be elected annually. Small group health insurance carriers shall be entitled to vote. A small group health insurance carrier's votes for small group market representatives shall be proportional to the small group health insurance carrier's assessment in that market, and shall be based on that member's covered lives.

V. Members of the board of directors shall be elected to terms of one year.

VI. The board of directors shall take action by affirmative vote representing a simple majority of the entire board.

VII. The board shall elect officers in accordance with the bylaws of the association. The bylaws of the association shall also govern the place and frequency of meetings of directors and their reimbursement for expenses incurred.

404-I:5 Plan of Operation for the Reinsurance Mechanism.

I. The board of directors for the reinsurance association shall adopt a plan of operation for the reinsurance mechanism. The reinsurance mechanism shall be funded in part through an assessment mechanism whereby small group health insurance carriers contribute an amount sufficient to cover the expenses and losses of the mechanism.

II. The plan of operation for the reinsurance mechanism shall establish:

- (a) Procedures for selecting a third-party administrator and setting forth the powers and duties of the third-party administrator;
- (b) Procedures for selecting and retaining an administrator;
- (c) Procedures to create a fund, under management of the board, for administrative expenses;
- (d) Procedures for small group health insurance carriers to submit their claims for reinsurance;
- (e) Guidelines for conducting audits of carrier's administration of claims for individuals ceded to the reinsurance mechanism;
- (f) Procedures for collecting assessments from member carriers;
- (g) Procedures for handling, accounting and auditing of assets, moneys, and claims of the mechanism;
- (h) Requirements for keeping financial and other records;
- (i) Guidelines for termination of reinsurance coverage at the option of the ceding carrier;
- (j) Regular times and places for meetings of the board;
- (k) A methodology for applying the reinsurance provisions in the case of carriers that pay or reimburse health care providers through capitation or salary; and
- (l) Such other administrative provisions as are necessary or proper for the execution of the powers and duties of the association.

404-I:6 Assessment.

I. The assessment for the reinsurance mechanism shall be based on the number of covered lives under health insurance policies issued to small employers times a specified assessment rate. The association shall specify the basis used to set the assessment rate.

II. The association shall establish a regular assessment rate which shall be:

- (a) Calculated on a calendar year basis;
 - (b) Established no later than November 1 in the year preceding the calendar year for which the carrier's experience shall be used to calculate the assessment; and
 - (c) Anticipated to be sufficient to meet the reinsurance mechanism's funding needs.
- III. In addition to the regular assessment rate, the association may establish a special assessment rate. Notwithstanding RSA 420-G:4, a small group health insurance carrier may increase the premiums charged by the amount of the special assessment. Any such premium increase shall be subject to the approval of the commissioner. Any assessment may appear as a separate line item on a policyholder's bill.

(a) The association shall only establish a special assessment if the association determines that its funds are or will become insufficient to pay the reinsurance mechanism's expenses in a timely manner.

(b) The association shall only assess, through the special assessment, at a rate necessary to fund the deficiency ascertained in subparagraph (a).

IV. The regular assessment rate, and any special assessment rate, shall be subject to the approval of the commissioner. The commissioner shall approve the rate if she or he finds that the

amount is required to fulfill the purposes of the reinsurance mechanism. For the purpose of making this determination, the commissioner may, at the expense of the association, seek independent actuarial certification of the need for the proposed rate.

V. The association shall impose and collect assessments from its members.

VI. If the assessment exceeds the amount actually needed, the excess shall be held and invested and, with the earnings and interest thereon, be used to offset future net losses.

VII. Each covered life should be included in the assessment only once. The association shall adopt procedures by which affiliated carriers calculate their assessment on an aggregate basis and procedures to ensure that no covered life is counted more than once.

VIII. The initial assessment rate to fund the reinsurance mechanism shall be \$1 per covered life per month, and shall apply to all health insurance policies issued to small employers that are in force on or after July 1, 2005.

404-I:7 Reinsurance Mechanism.

I. There is hereby created the New Hampshire reinsurance mechanism. This reinsurance mechanism shall be operated by and subject to the control of the association and shall provide reimbursement on an as-incurred basis for risks ceded to the reinsurance mechanism on or after January 1, 2006.

II. The reinsurance mechanism shall be funded by premiums charged for reinsurance and by assessments which the association shall calculate based on the number of covered lives times a specified amount. The reinsurance mechanism shall not be funded with state general fund revenue. The reinsurance mechanism shall never cease providing reinsurance for claims incurred by ceded risks.

404-I:8 Reinsurance Mechanism Administrator.

I. The board shall select an administrator through a competitive bidding process to administer the mechanism. The board shall evaluate bids submitted based on criteria established by the board which shall include:

- (a) The efficiency and timeliness of the administrative procedures;
- (b) An estimate of total charges for administering the mechanism;
- (c) The reinsurance mechanism administrator's ability to apply effective cost containment programs and procedures and to administer the mechanism in a cost efficient manner; and
- (d) The financial condition and stability of the reinsurance mechanism administrator.

II.(a) The reinsurance mechanism administrator shall serve for a period of at least 3 years and shall be subject to removal for cause; and

(b) At least one year prior to the expiration of each period of service by a reinsurance mechanism administrator, the association shall invite entities, including the current reinsurance mechanism administrator, to submit bids to serve as the reinsurance mechanism administrator. Selection of the reinsurance mechanism administrator for the succeeding period shall be made at least 6 months prior to the end of the current period.

III. The reinsurance mechanism administrator shall perform such functions relating to the plan as may be as assigned to such administrator.

IV. The reinsurance mechanism administrator shall submit regular reports to the association and the commissioner regarding the operation of the reinsurance mechanism. The frequency, content, and form of the report shall be specified in the contract between the association and the reinsurance mechanism administrator.

V. Following the close of each calendar year, the reinsurance mechanism administrator shall determine the expense of administration and the paid and incurred losses for the year, and shall report this information to the association and the commissioner on a form prescribed by the commissioner.

VI. The reinsurance mechanism administrator shall be paid as provided in the contract between the association and the reinsurance mechanism administrator.

VII. The association shall submit the contract between itself and the reinsurance mechanism administrator to the commissioner for approval.

VIII. The association may select more than one administrator for the reinsurance mechanism.

404-I:9 Eligibility.

I. A small group health insurance carrier may reinsure with the mechanism as provided for in paragraphs II and III.

II. A small group health insurance carrier may reinsure an employee or dependent of a small employer within a period of 60 days following the small employer's health insurance policy issue

or renewal date. A new employee or dependent of a small employer may be reinsured within 60 days of the individual's effective date of coverage. After the date of issue of a small employer health insurance policy or after the effective date of coverage for a new employee or dependent of a small employer, a small group health insurance carrier may require completion of a health statement for the purpose of determining whether to reinsure an employee or dependent.

III. A small group health insurance carrier may terminate reinsurance with the mechanism for one or more of the reinsured employees or dependents of a small employer:

(a) On the anniversary date of the health insurance policy; or

(b) On the date the employee's or dependent's coverage under the health insurance policy terminates.

404-I:10 Reinsurance Premiums.

I. The board, as part of the plan of operation, shall establish a methodology for determining premium rates to be charged by the mechanism for reinsuring employees or dependents of small employer groups.

(a) The methodology shall include a system for classification of small employers that reflects rating factors that are commonly used by small group health insurance carriers in the state. The methodology shall provide for the development of reinsurance premium rates that shall be multiplied by rating factors to determine the premium rates for the mechanism. The reinsurance premium rates and the method by which the rating factors are applied shall be established by the board, subject to the approval of the commissioner, and shall be set at levels that reasonably approximate gross premiums charged to small employers by small group health insurance carriers.

(b) The premium for the reinsurance mechanism shall allow a carrier to cede an employee or dependent at a rate that is 5 times the group's per member per month premium rate established pursuant to subparagraph (a).

(c) The board periodically shall review the methodology established under subparagraph (a), including the system of classification and any rating factors, to assure that it reasonably fulfills the purposes of this chapter. The board may propose changes to the methodology that shall be subject to the approval of the commissioner.

(d) The board may consider adjustments to the premium rates charged by the mechanism to reflect the use of effective cost containment and managed care arrangements.

II. Premium rates charged for reinsurance by the mechanism to a health maintenance organization that is federally qualified under 42 U.S.C. section 300c(c)(2)(A), and as such is subject to requirements that limit the amount of risk that may be ceded to the mechanism that is more restrictive than those specified in subparagraphs (c) and (d), shall be reduced to reflect that portion of the risk above the amount set forth in subparagraphs (c) and (d) that may not be ceded to the mechanism, if any.

404-I:11 Conditions of Reinsurance Coverage.

I. A small group health insurance carrier that cedes a risk shall apply all managed care and claims handling techniques, including utilization review, individual case management, preferred provider provisions, and other managed care provisions or other methods of operation consistently with respect to reinsured and nonreinsured business.

II. The mechanism shall reimburse a small group health insurance carrier with respect to the claims of a reinsured employee or dependent starting with the first dollar of the carrier's liability under its policy. The mechanism and the small group health insurance carrier shall participate in a cost-sharing arrangement whereby the carrier shall pay 20 percent of the portion of the claims of the reinsured employee that it is responsible for under its policy of insurance, up to a threshold of \$50,000, at which point the reinsurance mechanism shall pay 100 percent of the claims that the carrier is responsible for until a maximum of \$1,000,000 is reached on a calendar year basis.

III. On an annual basis, the board shall review the maximum limit to be retained by the carrier to reflect increases in costs and utilization within the small group market in New Hampshire. The adjustment shall not be less than the annual change in the medical component of the "Consumer Price Index for All Urban Consumers" of the Department of Labor, Bureau of Labor Statistics, unless the board proposes and the commissioner approves a lower adjustment factor.

IV. Any small group health insurance carrier that cedes a risk to the reinsurance mechanism shall make its books and records available for audit at the request of the reinsurance mechanism.

404-I:12 Commissioner's Powers and Duties. In addition to duties and powers enumerated elsewhere in this chapter:

I. The commissioner shall upon request of the board of directors, serve a demand upon the member insurer to pay an assessment within a reasonable time. The failure of the member insurer to promptly comply with such demand shall not excuse the association from the performance of its powers and duties under this chapter.

II. The commissioner may suspend or revoke, after notice and hearing, the certificate of authority to transact insurance in this state of any member insurer that fails to pay an assessment when due or fails to comply with the plan of operation. As an alternative, the commissioner may levy a forfeiture on any member insurer which fails to pay an assessment when due. Such forfeiture shall not exceed 5 percent of the unpaid assessment per month, but no forfeiture shall be less than \$100 per month. Any amounts so collected shall be credited to the assessment fund administered by the association.

III. Any action of the board of directors or the association may be appealed to the commissioner by any member insurer if the appeal is taken within 30 days of the final action being appealed. If a member company is appealing an assessment, the amount assessed shall be paid to the association and available to meet association obligations during the pendency of an appeal. If the appeal on the assessment is upheld, the amount paid in error or excess shall be returned to the member company from available funds of the association. Any final action or order of the commissioner shall be subject to judicial review, pursuant to RSA 541.

IV. The commissioner may adopt rules, pursuant to RSA 541-A, as necessary to carry out the purposes of this chapter.

V. The powers of the commissioner enumerated in this chapter shall be in addition to those established under RSA 404-C.

404-I:13 Examination and Annual Report. The reinsurance mechanism shall be subject to examination by the commissioner. The board of directors shall submit to the commissioner each year, not later than 120 days after the association's fiscal year, a financial report in a form approved by the commissioner and a report of its activities during the proceeding fiscal year. The report shall summarize the activities of the reinsurance mechanism in the preceding calendar year, including the net written and earned premiums, enrollment, the expense of administration, and the paid and incurred losses. The association's fiscal year shall be the calendar year.

404-I:14 Tax Exemption. The reinsurance mechanism shall be exempt from payment of all fees and all taxes levied by this state or any of its political subdivisions.

404-I:15 Immunity for Members and Employees. There shall be no liability on the part of and no cause of action of any nature shall arise against any member insurer or its agents or employees, the association or its agents or employees, members of the board of directors, or the commissioner or the commissioner's representatives, for any action or omission by them in the performance of their powers and duties under this chapter, unless such act or omission constitutes willful or wanton misconduct.

404-I:16 Severability. If any provision of this chapter or the application thereof to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the chapter which can be given effect without the invalid provisions or applications, and to this end the provisions of this chapter are severable.

2 New Paragraph; Small Group Health Insurance; Definition Added. Amend RSA 420-G:2 by inserting after paragraph I the following new paragraph:

I-a. "Case characteristics" means industry, age, gender, group size, participation, and the level of employer contribution of a small employer group that are considered by the carrier in the determination of premium rates for the small employer.

3 Small Group Health Insurance; Case Characteristics. RSA 420-G:4, I(e) is repealed and reenacted to read as follows:

(e) In establishing the premium charged, health carriers providing coverage to small employers shall calculate a rate that is derived from the health coverage plan rate through the consideration of case characteristics that the carrier chooses to utilize.

(1) The premium rates charged for a health benefit plan to small employers shall not vary from the health coverage plan rate, by more than 60 percent (4:1). An insurer may consider all case characteristics of a small group in setting the premium rate for that group.

(2) Upon the renewal of a small employer policy, a carrier is prohibited from increasing the group's per member per month premium rate by more than 15 percent of the rate that was charged in the preceding year. Such rate increase limitation shall not include any premium rate increase that is based on a carrier's annual cost and utilization.

(3) For a group of one, an insurer may increase the premium 10 percent above the premium calculated in subparagraph (1).

4 Legislative Oversight Committee. Amend RSA 420-G:14-c, I to read as follows:

I. There is hereby established a joint legislative oversight committee on small group health insurance reform. The committee shall review the reports filed by the commissioner pursuant to RSA 420-G:14-a, monitor the small group health insurance market in the state, and monitor the ~~[effect of SB 110 of the 2003 legislative session]~~ *effects of small group health insurance reform*. The committee shall make recommendations for any legislative changes the committee deems necessary. The committee shall include 3 members of the house, appointed by the speaker of the house and 2 senators, appointed by the president of the senate.

5 Effective Date.

I. Sections 2 and 3 of this act shall take effect January 1, 2006.

II. The remainder of this act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

I. Establishes a mandatory assessment reinsurance mechanism for small group insurance.

II. Clarifies the use of case characteristics which may be used for calculating premium rates for small group health insurance.

Rep. Hunt inquired if the amendment was divisible and asked that Section 1 be divided from the remainder of the amendment.

The Speaker ruled the amendment was divisible and so ordered.

The question being adoption of Section 1 of the committee amendment.

Rep. Hunt spoke against and yielded to questions.

Reps. DeStefano and Sheila Francoeur spoke in favor.

Rep. Whalley spoke against and yielded to questions.

MOTION TO LAY ON THE TABLE

Rep. Mirski moved that *HB 611*, relative to small group insurers be laid on the table.

Rep. Sheila Francoeur requested a roll call; sufficiently seconded.

The question being adoption of the motion to lay HB 611 on the table.

and the committee report was adopted.

Ordered to third reading.

HB 197, decriminalizing marijuana. INEXPEDIENT TO LEGISLATE

Rep. Peter M. Sullivan for Criminal Justice and Public Safety: The committee heard intelligent and thoughtful testimony on both sides of the issue of marijuana decriminalization. Ultimately, it became apparent that this bill was not an appropriate course of action. The proposed legislation contains no mechanism for the regulation of marijuana and could lead to an ongoing state of legal confusion. In addition, the bill would permit the possession of quantities of marijuana that far exceed what anyone would need for strictly personal use. This would have the effect of decriminalizing not only possession, but also some trafficking. Given these concerns the committee cannot support this bill in its current form. Vote 13-2

Rep. Timothy Robertson spoke against and yielded to questions.

Rep. Peter Sullivan spoke in favor.

Rep. Soltani requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted.

(Deputy Speaker Weyler in the Chair)

HB 208-FN, relative to criminal penalties for possession of a firearm in a safe school zone. **IN-EXPEDIENT TO LEGISLATE**

Rep. Elbert I. Bicknell for Criminal Justice and Public Safety: To quote a past president of the United States, "It is more important to kill bad bills than to pass good ones...." This bill is one of those. It advises an otherwise honest, law abiding citizen who has a valid license to carry concealed within the State of New Hampshire, to be put at jeopardy of facing criminal charges. This bill is unnecessary. The Federal Safe School Act already offers the same protection without the criminal consequences against law abiding licensed citizens. This bill would not address the person who had a firearm unloaded and locked in his car, or in a gun rack as the federal law does. In this bill, because the licensed owner wished to leave his car, he would now, while sitting behind the steering wheel, in heavy winter clothes, unload his firearm and put it "out of sight." Anyone who has handled firearms knows the loading and unloading of that firearm is the most dangerous time and when most "accidental shootings" take place. And here we are on school grounds. We must ask ourselves, "Why this bill?" Are there people carrying openly on school grounds? The committee and the sub-committee heard of none. Shouldn't we, as legislators adhere to the policy that the bills that come out of the committee are worded so that they do just what they are intended to do and not a great deal more? Further, this bill would make it a crime even to have pieces of a firearm such as trigger housing, or a starter pistol in your car. Present New Hampshire law does not. This bill does exactly what the sponsors do not want. It makes a "Safe School Zone", not for teachers and students, but for the criminal. The criminal, who will not follow any laws of any government (that is why he is a criminal), will now act with impunity and do whatever he wishes to do. With HB 208, now he is aware he and only he will have a firearm. This bill, if passed, would create only an illusion of safety. Vote 7-6.

Rep. Cataldo spoke in favor.

Rep. Cataldo requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

HB 285, relative to carrying a concealed weapon without a license. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Stanley E. Stevens for the Majority of Criminal Justice and Public Safety: This is a bill that would repeal certain statutes that prohibit carrying a pistol or revolver without obtaining a license. Specifi-

cally, it repeals RSA 159:4 Carrying without License. This is the statute that provides a penalty for any person convicted of carrying a loaded pistol or revolver in any vehicle, or concealed upon his person without a valid license therefore. The committee has heard, and rejected, several versions of this bill that have been brought forth in every session over the last several years. In each instance the House has supported the committee's position. New Hampshire already has some of the most permissive firearms laws in the United States. A person can already carry a loaded firearm as long as it is not both concealed, or in a vehicle. The current law works well and should remain in place. Vote 12-5.

Rep. Elbert I. Bicknell for the Minority of Criminal Justice and Public Safety: The committee members will, with very little dissent, admit that New Hampshire has some of the better gun laws in our United States. Other states, such as Arizona, as of last year, and before that Alaska, have done away with having their law abiding citizens apply for a license to carry a firearm concealed. Crime and violence have not taken over the streets of these states. In fact the opposite is true and crime has been reduced since now anyone can carry a firearm concealed legally. Vermont has never had a gun law and its streets are not awash in violent crimes. In fact, it is touted by the FBI as being one of the safest of all states. It is the minority's opinion that this bill would align us with the constitutions of New Hampshire and the United States and nothing more.

Rep. Mirski spoke against.

Rep. Stevens spoke in favor.

Rep. James Wheeler requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

CACR 14, relating to tax money and religious schools or institutions. Providing that the language in article 83 of the second part of the New Hampshire constitution which states that "Provided, nevertheless, that no money raised by taxation shall ever be granted or applied for the use of the schools or institutions of any religious sect or denomination" shall be deleted from the article. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Deanna P. Rush for the Majority of Education: CACR 14 removes the Blaine amendment from the New Hampshire constitution, which could result in allowing public tax dollars to support schools or institutions of religious sects or denominations. Our constitution is very specific. It says that no money raised by taxes should go to sectarian schools of any sect. If we remove this wording from the New Hampshire constitution, it could allow public tax dollars to be used for private religious schools. Vote 11-10.

Rep. W. Packy Campbell for the Minority of Education: The minority feels that parents are denied the right to religious freedom in choice of educational environments under the current law. Religious freedom is not a luxury for those who can afford it, but a God given right. The minority feels this amendment is unconstitutional and conflicts with Part I, Article 6 of the Bill of Rights. Failing to remove this amendment to our constitution opens the public schools to lawsuits, whereby they violate the constitution by the denial of the existence of God through omission and establish a state sponsored non-religion. The minority believes this country is founded on the principle, "Freedom of Religion not the Freedom from Religion."

Reps. Ingbretson and Soltani spoke against.

Rep. Marjorie Smith spoke in favor.

Rep. Packy Campbell spoke against and yielded to questions.

Reps. David Campbell and Rush spoke in favor.

Rep. Soltani requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

(Speaker Scamman in the Chair)**RESOLUTION**

Without objection, Rep. O'Neil moved that all bills ordered to third reading be read a third time by this motion, and that all titles of bills be the same as adopted, and that they be passed at the present time.

Adopted.

Third reading and final passage

HB 214, permitting the parents or legal guardian of a sexual assault victim to remain with the victim during the legal proceedings.

HB 220, establishing a committee to study the ability of homeless youth in New Hampshire to make a successful transition to adulthood.

HB 510, relative to financial affidavits in domestic relations cases.

HB 511, relative to the confidentiality of records pertaining to the support of dependent children.

HB 585, relative to grounds for termination of parental rights.

HB 586, relative to the periodic review of child support guidelines.

HB 640-FN, relative to parental rights and responsibilities.

HB 299, establishing a committee to study state laws governing liens for labor and materials.

HB 348, relative to real and personal property conveyances made under powers of attorney.

HB 469, regulating disputes between homeowners and contractors relative to residential construction defects.

- HB 490**, relative to law enforcement access to financial records under the New Hampshire right to privacy act.
- HB 583**, establishing an oversight committee to study medical malpractice insurance rates in this state.
- HB 68**, relative to the enforcement of disorderly conduct by reason of noise.
- HB 125**, relative to ignition interlock devices.
- HB 294**, relative to annulment of arrest records.
- HB 440**, relative to hearing ear dogs, guide dogs, and service dogs.
- HB 468**, relative to provisions for permissible contact between the agent of the defendant subject to a protective order and a plaintiff.
- HB 533-FN**, relative to penalties for aggravated felonious sexual assault.
- HB 558**, relative to the circumstances constituting sexual assault.
- SB 76**, relative to the extension of restraining orders under the domestic violence protection act.
- HB 248**, authorizing semi-annual payments of school building aid.
- HB 301-L**, relative to parent advisory councils for pupils with educational disabilities.
- HB 389**, relative to the duties of the postsecondary education commission.
- HB 435**, establishing a separate high school civics graduation requirement.
- HB 557**, relative to the submission of data to the department of education.
- HR 12**, proclaiming the first week of each school year as "Dictionary Week."
- HB 366**, relative to maintenance of voter checklists.
- HB 381-FN**, relative to special elections, voter lists, and conduct of elections.
- HB 293**, establishing a commission to study the feasibility of developing a materials resource and recovery facility in Sullivan county.
- HB 560**, relative to timber harvesting.
- HB 562**, relative to eliminating certain mercury-added products.
- HB 573**, establishing a commission to study automobile recycling issues, including disposal fees.
- HB 580**, establishing a commission to study the procedures for the formation and dissolution of solid waste management districts under RSA 53-B and the procedures for the dissolution of an interstate waste compact under RSA 53-D.
- HB 114**, relative to the regulation of pharmacists and pharmacy technicians by the pharmacy board.
- HB 354**, relative to the review, approval, and adoption of agency rules.
- HB 383**, relative to vital records administration.
- HB 420**, relative to receiving and addressing complaints against licensees by the board of mental health practice.
- HB 465-FN**, authorizing the board of medicine to take non-disciplinary remedial action against physicians.
- HB 481**, establishing a commission to study the location of the secure psychiatric unit and places to which persons are committed under RSA 651:8-b, RSA 135-C, RSA 171B, and RSA 623:1.
- HB 532**, relative to the licensure of dentists by the board of dental examiners.
- HB 595-FN**, establishing the position of state meat inspector.
- HB 637-FN**, relative to licensure of alcohol and drug abuse professionals.
- HB 272-FN-A**, making an appropriation to the barn preservation fund.
- HB 547-FN**, changing the funding limit for on-premise-use fuel oil storage facilities.
- HB 542**, making technical corrections to the uniform trust code.
- HB 617**, establishing a commission to study the future role of court reporters in New Hampshire's court system.
- HB 672-FN**, relative to notaries public, justices of the peace, and adopting the Uniform Law on Notarial Acts.
- HB 126**, relative to a public employee right of free speech.
- HB 170**, relative to unemployment compensation.
- HB 246**, establishing a committee to study the classification of employees as independent contractors.
- HB 329**, establishing the crime victim employment leave act.
- HB 393**, establishing a committee to study methods for requiring employers to permit voluntary and paid on-call emergency first responders to respond to calls.
- HB 404**, permitting employees to request a wage deduction for contributions to a political action committee.
- HB 561**, relative to reasonable accommodation by employers under the state law against discrimination.

HB 618-FN-L, relative to persons acting as volunteers to a state agency.

HCR 2, declaring October 27 to be Boston Red Sox Day.

SJR 1, declaring the month of April 2005 to be Boston Red Sox Month.

HB 311-L, enabling towns to establish revolving funds for certain purposes.

HB 359, defining "unnecessary hardship" for purposes of zoning variances.

HB 394, relative to real estate tax lien procedures for tax collectors.

HB 429, relative to representation by nonattorneys before the board of tax and land appeals and relative to condemnation proceedings conducted by the board of tax and land appeals.

HB 437, relative to the disposition of municipal records.

HB 480, relative to innovative land use controls.

HB 549, modifying notice requirements for the acceptance of unanticipated funds by a school district, city, town, or public library.

HB 570, relative to preliminary site plan review and the definition of inclusionary zoning.

HB 428, relative to clarifying the authority of the Pease development authority and the division of ports and harbors.

HB 215-FN, relative to water management.

HB 342, establishing a commission to study the barriers to the establishment of all-terrain vehicle trails on public and private lands.

HB 343, establishing a commission to study accessibility for New Hampshire citizens to the water bodies in the state.

HB 487-FN, establishing a volunteer lake assessment program in the department of environmental services.

HB 491, relative to the inherent dangers of OHRV operation and limiting landowner liability for certain fish and game related land uses.

HB 315, relative to best available technology for air pollution control.

HCR 4, urging Congress to find that the Piscataqua River and Portsmouth Harbor lie within the state of New Hampshire.

HCR 8, urging the Congress of the United States to place a moratorium on new free trade agreements, to investigate and review current free trade agreements and policies of the United States, to investigate and review participation of the United States with international trade organizations and to ensure that such agreements, policies, and participation are in the best interests of the citizens of the state of New Hampshire and the United States.

HB 205, relative to licensing requirements for certain drivers.

HB 244-FN, relative to statutory liens by the department of safety.

HB 599-FN, requiring disclosure to consumers of the presence of event data recording devices in new motor vehicles.

HB 683-FN, relative to reporting of motor vehicle offenses by driver education instructors and drivers' school licensees.

HB 567, relative to mediation in family law cases involving children.

HB 177, relative to home improvement contracts.

HB 611-FN, relative to small group insurers.

RECESS

Rep. O'Neil moved that the House stand in recess until 10:00 a.m. tomorrow.

Adopted.

The House recessed at 5:15 p.m.

RECESS

(Speaker Scamman in the Chair)

The Speaker called the recessed session of March 30, 2005 to order at 10:00 a.m. Without objection, The Chair ordered that since the House was technically still in the March 30, 2005 session, any leave of absence requests received by the Clerk today will be granted, unless otherwise ordered by the House.

LEAVES OF ABSENCE

Reps. Albert, Alger, Claire Clarke, Peter Cote, Dyer, Egbers, Hall, Oliver, Palangas, Palazzo and Ulery, the day, illness.

Reps. Baines, Bicknell, W. Packy Campbell, William Chase, Clayton, Clemons, Gonzalez, Greco, Headd, Hellwig, Hogancamp, Hollinger, Lary, Matarazzo, Millham, Moody, Pepino, Serlin and Burton Williams, the day, important business.

Rep. Hagan, the day, illness in the family.

Rep. Paula Johnson, the day, death in the family.

INTRODUCTION OF GUESTS

Katherine Drisko, Taylor and Maggie Rose Pearson, wife and grandchildren of Rep. Drisko. Michael, Laura and Sarah Carenbauer, and Sik Yuk Lee, brother, sister-in-law, niece and guest, guests of Rep. Hamm. Jay Bowers, guest of Rep. Ryan. Presentation of Mary Academy 4th grade class, guests of the Hudson delegation. Patricia Higgins and Salim al-Khaldi, guests of the Hanover/Lyme delegation.

SUSPENSION OF RULES

Reps. O'Neil and Craig moved that the House Rules be so far suspended as to permit the deadlines of:

Wednesday, March 30, 2005, the last day to act on House bills not in a second committee be moved to Wednesday, April 6, 2005;

Thursday, April 7, 2005, last day to report all House bills for action in 1st year session, last day to hold public hearing on retained House bills, and last day to report list of retained House bills, be moved to Thursday, April 14, 2005;

Wednesday, April 13, 2005, last day to act on House bills, CROSSOVER, be moved to Wednesday, April 20, 2005.

Rep. O'Neil spoke in favor.

Adopted by the necessary two-thirds.

CLERK'S NOTE

The Suspension of Rules pertains to the following House Bills:

HB 1-A, making appropriations for the expenses of certain departments of the state for fiscal years ending June 30, 2006 and June 30, 2007.

HB 2-FN-A, relative to state fees, funds, revenue, and expenditures.

HB 25-FN-A, making appropriations for capital improvements.

HB 59-FN-L, relative to municipal responsibility for septage disposal.

HB 78-FN-L, relative to state funding of regional vocational education centers.

HB 191-FN, relative to using school building aid for leased class.

HB 210-FN, relative to the determination of absence and return of contributions of members of the retirement system.

HB 216-FN, relative to the authority of the New Hampshire retirement system to purchase supplies and services.

HB 222-FN, relative to payment of medical benefits costs for disabled group II members of the retirement system.

HB 234-FN, relative to the development of a closed state municipal information network by the office of information technology.

HB 304-FN-A, relative to federal highway grant anticipation bonds.

HB 433-FN-A, relative to planning for public access, recreation, and road management in the Connecticut Lakes headwaters working forest and making an appropriation therefor.

HB 470-FN-A, relative to the annual funding of placement costs for juvenile diversion and alternative disposition programs and relative to an effectiveness study of such programs.

HB 601, allowing businesses to apply the investment tax credit to contributions made to scholarship funding organizations.

HB 613, exempting prepared take-out food items sold in supermarkets from the meals and rooms tax.

HB 671, relative to an exemption from the real estate transfer tax.

HB 679, authorizing the electronic enforcement of traffic signal violations.

HB 616-FN-L, revising the calculation and distribution of adequate education grants.

HB 643-FN, establishing an integrated criminal justice information system.

HB 644-FN, transferring certain responsibilities from the department of transportation and the department of health and human services to the department of administrative services.

HB 662-FN-A, making an appropriation to the department of health and human services for family mutual support services.

HB 670-FN-A, relative to a surcharge on recording documents with the register of deeds to fund the land and community heritage investment program.

HB 686-FN, relative to the judicial branch family division.

HB 687-FN, relative to tuition waivers for children and spouses of members of the armed forces who die while on active duty.

HB 691-FN-L, relative to the medicaid program.

HB 698-FN, relative to penalty assessments.

HB 718-FN-A, relative to group life insurance for New Hampshire citizens serving in the military reserves or national guard and making an appropriation therefor.

HB 302, establishing a county mileage surcharge for service of documents by county sheriffs.

HB 313-FN, relative to registration of business entities.

HB 407-FN-L, relative to licensing of dogs.

HB 430-FN-A, establishing a one-day resident fishing license.

HB 477-FN, increasing registration fees for pesticides and commercial feeds.

HB 597-FN-A, relative to the natural heritage inventory program.

HB 651-FN-L, relative to federal lien registration.

HB 623-FN, relative to licensing requirements in the insurance and financial services industries.

HB 257, relative to emergency medical and trauma service protocols and quality assurance program.

HB 535-FN-A, increasing the tobacco tax.

SPECIAL ORDER

Rep. Carter moved that **CACR 17**, relating to the encouragement of literature. Providing that the importance of education to a prosperous and democratic society be considered when allocating the resources of the state, be made a Special Order as the first order of business after today's lunch recess. On a division vote, 162 members having voted in the affirmative and 149 in the negative, the motion to Special Order was adopted.

REGULAR CALENDAR – PART II (CONT'D.)

HB 132, relative to grounds for dismissal of a teacher. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. J. Timothy Dunn for the Majority of Education: This bill changes the grounds for mid-contract teacher dismissals and opens the door to contradictory local standards and arbitrary dismissals. Local school boards already have the authority and currently can dismiss any teacher who has not satisfactorily maintained the performance standards as stated in school district standards. This power is currently held jointly by administration and school boards. This bill is no longer necessary. Vote 12-10.

Rep. Mark S. Carter for the Minority of Education: Quite simply, this bill improves current law and enhances local control relative to teacher dismissal. RSA 189:13 allows a school board to dismiss for "incompetence," a highly subjective term. Under HB 132 a school board could dismiss a teacher "who has not satisfactorily maintained the performance standards established by the school district;" thus making the parameters for dismissal clear to all parties, and enhancing local control of teacher dismissal policy. This bill was supported by the New Hampshire School Boards Association, the New Hampshire School Administration Association, and the former State Board of Education Chairman. It was opposed only by the NEA. The minority believes that the broader cross section of the New Hampshire population represented by the House will support an Ought to Pass motion once the ITL motion is defeated.

Rep. Carter spoke against.

Rep. Dunn spoke in favor.

Rep. Mirski requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report failed.

Rep. Carter moved Ought to Pass with Amendment and offered floor amendment (0930h).

Floor Amendment (0930h)

Amend RSA 189:13 as inserted by section 1 of the bill by replacing it with the following:

189:13 Dismissal of Teacher. The school board may dismiss any teacher found by them to be immoral [~~or incompetent~~], *or who has not satisfactorily maintained the performance standards established by the school district*, or one who [~~shall~~] *does* not conform to regulations prescribed; provided, that no teacher shall be so dismissed before the expiration of the period for which said teacher was engaged without having previously been notified of the cause of such dismissal, nor without having previously been granted a full and fair hearing

Rep. Carter spoke in favor and yielded to questions.

On a division vote, 193 members having voted in the affirmative and 141 in the negative, floor amendment (0930h) was adopted.

The question now being adoption of the motion of Ought to Pass with Amendment.

Motion adopted and ordered to third reading.

HB 346-L, relative to the procedures for withdrawal from a multi-town school district. INEXPEDIENT TO LEGISLATE

Rep. Debra A. Naro for Education: The committee, due to a drafting error on the amendment, made a procedural decision to recommend inexpedient to legislate. This action was necessary as executive session occurred beyond the operational hours of the office of legislative services. The committee, with the cooperation of the prime sponsor, chose this course of action with the understanding that a floor amendment will be offered with committee support to overturn the inexpedient to legislate motion and offer a corrected amendment. Vote 17-1.

Rep. Stephen L'Heureux spoke against.

Committee report failed.

Rep. Drisko moved Ought to Pass and offered floor amendment (0912h).

Floor Amendment (0912h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the procedure for withdrawal from a cooperative school district.

Amend the bill by replacing all after the enacting clause with the following:

1 Cooperative School Districts; Procedure for Withdrawal. Amend RSA 195:25 to read as follows:

195:25 Procedure for Withdrawal. After the tenth anniversary of the date of operating responsibility, the school board of a cooperative school district may undertake a study of the feasibility and suitability of the withdrawal of one or more member districts from the cooperative district. A similar study shall be undertaken if, after the tenth anniversary of the date of operating responsibility, a pre-existing district shall, by a majority vote on a warrant article at a regular or special town meeting, direct the school board to conduct such a study. The study shall be conducted by a committee composed of at least one member of the school board from each of the pre-existing districts, one member of the board of selectmen from each town, and such other members as may be appointed by the committee. Within ~~[120]~~ 180 days after the date of its formation, the committee shall report its findings to the state board of education. ~~[The report may make a recommendation as to the withdrawal of a member district or districts; and, if this is done, the report shall contain a plan for the education of the pupils in the withdrawing district as well as in the cooperative district. The report shall further include a detailed analysis of the financial and educational consequences of the proposed withdrawal.]~~ *The committee shall submit to the state board of education either a report that withdrawal is not feasible or suitable, or*

a report that includes a withdrawal plan prepared in accordance with RSA 195:26. If the committee determines that withdrawal is not feasible or suitable, the town which voted to undertake the study may submit a minority report at the same time as the committee report is filed with the state board of education. If the committee report does not include a withdrawal plan, the minority report may include a withdrawal plan prepared in accordance RSA 195:26. If the state board approves a withdrawal plan, whether submitted by the committee or by minority report, the plan shall be submitted to the voters of the cooperative school district in accordance with RSA 195:29.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill amends the procedure for withdrawal from a cooperative school district and allows the town which voted to undertake the withdrawal study to submit a minority report to the state board of education.

Floor amendment (0912h) adopted.

Motion of Ought to Pass with Amendment adopted.

Ordered to third reading.

HB 406, revising certain provisions of the home education statutes. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Timothy E. Easson for the Majority of Education: Currently, home school parents have to spend hours creating a curriculum for the year. Actual practice shows that the curriculum is often deviated from as the year progresses in order to provide further emphasis where needed, or to allow the teaching to become tailored to the child's interests. The philosophy behind the current home school laws is that the home schools achieve flexibility in curriculum and methods in exchange for producing results. If the specification of curriculum is removed, there will still be the requirement to teach required subjects per RSA 193-A: 4 and there will still be an evaluation process to ensure results per RSA 193-A: 6. The committee heard testimony that there is no correlation between the test scores of home schooled students and the amount of regulation on home school programs. The committee agreed that if regulation levels have no net effect on home schooled children's education progress, then reducing those regulations makes sense, as it can benefit those parents who otherwise must spend hours attempting to comply with regulations, and helps reduce unnecessary paperwork costs to local schools. Dozens of people attended the hearing during which there was no testimony against the bill. Vote 12-9.

Rep. Deanna P. Rush for the Minority of Education: This bill seeks to remove the oversight authority of the Commissioner of the Department of Education as it pertains to the planning of curriculum for home schooled students. Home schooled students are required (1) to give written notice to the state, (2) to submit a curriculum plan for approval, and (3) to perform an annual evaluation, usually a NEAP test. This bill would remove the second requirement of providing the State Department of Education with a curriculum plan. The minority of the committee feels that planning and developing curriculum guidelines is an important step in providing a good educational program for all children, and it recommends that we keep that requirement in statute.

Majority Amendment (0792h)

Amend the bill by deleting section 4 and renumbering the original sections 5-8 to read as 4-7, respectively.

Majority amendment adopted.

Rep. Rush spoke against.

Rep. Easson spoke in favor.

Rep. Newton requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.
Ordered to third reading.

HB 564, permitting the limited use of alcohol in high school culinary arts programs. **INEXPEDIENT TO LEGISLATE**

Rep. Timothy E. Easson for Education: The committee heard testimony that high school culinary students could benefit from learning the uses of alcohol in cooking under supervision. While this may be a good idea for some advanced culinary programs in the state, the committee believes that it opens up schools to far too much liability for only a potentially negligible gain. It will be very difficult for schools to keep liquor and wine completely secure from students. Although the committee believes that students who are serious about pursuing culinary careers should learn about cooking with alcohol, it poses too much of a risk for public schools to assume the responsibility for providing instruction that already goes on at post-secondary culinary programs. Vote 12-5.

Rep. Lasky spoke against and yielded to questions.

Rep. Easson spoke in favor.

On a division vote, 204 members having voted in the affirmative and 135 in the negative, the committee report was adopted.

HB 721, prohibiting the department of education and the state board of education from adopting a definition of an adequate education. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. David W. Hess for the Majority of Education: The rulemaking notice promulgated last fall by the state board of education announcing revisions to the State Minimum Standards for school approval begins: "This rule establishes the substantive elements of an adequate public education ...according to the delegation of authority in RSA 21-N:9,I and RSA 186:8, I". This absolutely, totally and completely misstates both the board's powers and the authority that has been delegated to it. As the General Court has repeatedly asserted, and as the Supreme Court has repeatedly recognized, the General Court and the governor have the power to define a constitutionally adequate education. And that power has never, in any way, shape or form, been delegated to the state board of education or any other unelected bureaucracy. Indeed, the Supreme Court itself said in Claremont II "Thus in the first instance, it is the legislature's obligation, not that of individual members of the board of education, to establish educational standards that comply with constitutional requirements." The board's claim of authority to establish the elements of an adequate education cannot go unanswered lest some enterprising attorney cite our inaction as acquiescence and agreement with those fallacious assertions of power, thereby committing the General Court to funding all minimum standards promulgated by the board. Vote 13-2.

Rep. Deanna P. Rush for the Minority of Education: The minority of the committee feels that defining adequacy would be a joint role that the legislature share with the state board of education and the department of education. This bill had strong opposition from the New Hampshire School Board Association. They expressed support for a partnership between the legislature, the department of education and the state board of education. This bill is trying to prevent the department of education and the state board of education from doing what is within their field of expertise. The state board has a role in advocating for education.

Majority Amendment (0799h)

Amend paragraph IV of section 1 of the bill by replacing it with the following:

IV. The general court and governor have the power to define a constitutionally adequate education, and therefore any rules proposed or adopted by the department of education or the state board of education which purport to define an adequate education would be unconstitutional and null and void ab initio.

Majority amendment adopted.

Rep. Rous spoke against.

Rep. Hess spoke in favor and yielded to questions.

Rep. Mirski requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

MOTION TO PRINT DEBATE

Rep. Camm moved that the debate on HB 721 be printed in the Permanent Journal. On a division vote, 137 members having voted in the affirmative and 209 in the negative, the motion failed.

(Deputy Speaker Weyler in the Chair)

CACR 20, relating to election of the attorney general. Providing that the attorney general shall be elected by the house of representatives and the senate. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Richard B. Drisko for the Majority of Election Law: This CACR provides for the attorney general to be elected by the House of Representatives and the Senate in the same manner as are the secretary of state and the state treasurer. The majority position weighed the record of a successful history of gubernatorial appointments against the inevitable negatives of politicizing the office. The general history of appointments has generated candidates of high quality. An open election might yield less capable attorneys general. The process does not seem to be broken. Vote 13-4.

Rep. James R. Splaine for the Minority of Election Law: The minority believes that having more people, rather than fewer people, involved in the selection of an important leader is a good thing. Right now, one person, the governor, selects the attorney general and must get three of the five executive councilors to confirm a four-year term. This bill allows for the 424 members of the house and senate to vote, providing for the same process as the selection of our secretary of state and state treasurer, an open process that has worked very well for many decades.

Reps. DiFruscia and Mirski spoke against and yielded to questions.

Rep. Splaine spoke against.

Rep. Drisko spoke in favor.

Rep. Hess spoke in favor and yielded to questions.

Rep. DiFruscia requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

Rep. DeStefano did not vote and notified the Clerk that he wished to be recorded in favor.

HB 48, establishing a committee to study ballot reform. MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.

Rep. Keith D. Hirschmann for the Majority of Election Law: This bill would establish a committee to study ballot reform proposals including the adoption of "instant runoff voting" and "none of the above" as an option. The majority felt this bill's aim of reform by considering "none of the above" as an option to a candidate named on the ballot makes a mockery of the New Hampshire system which the entire country holds the spot light on every four years. Also, "instant runoff voting" would inflict a whole new set of voting problems for our elective process. Vote 12-5.

Rep. Charles F. Weed for the Minority of Election Law: The minority of the Election Law Committee believes that HB 48 potentially provided a vehicle for ballot reform to increase participation in elections. Instant runoff voting would create the opportunity for a greater variety of issues and candidates before the electorate. This could be an effective response to the decline in voter participation rate.

Majority committee report adopted.

HB 183, relative to the nomination of political candidates. INEXPEDIENT TO LEGISLATE

Rep. William L. O'Brien for Election Law: This bill would amend the current law that allows a candidate who is nominated as a candidate as a result of running in a primary to also be a nominee of a different party, that is to say, on both sides of the ballot. The bill would forbid a candidate on any party's state primary election ballot from also being a nominee of a different party in the general election. The majority of the committee believes that it is improper to deny primary voters their choice as to who should be the nominees of their parties and thus have party committees make the selection under RSA 655:37. The voters' choices as to their nominees should be respected. Vote 12-5.

Committee report adopted.

HB 424-FN, prohibiting gifts to elected officials. OUGHT TO PASS WITH AMENDMENT

Rep. Michael D. Whalley for Election Law: This bill, as amended, prohibits any "Elected Official," meaning the governor, members of the executive council, members of the general court, county commissioners, county sheriffs, county treasurers, county attorneys, registers of deeds and registers of probate, from knowingly accepting any gift of money, cash or equivalent, in any amount. "Gift" shall not include campaign contributions as defined in RSA 664, or a commercially reasonable loan made in the ordinary course of business. The committee has retained a number of bills that deal with, but are not limited to, gifts, reporting, contributions and conflicts of interest. The committee believes that a comprehensive review of these retained bills will produce additional recommendations at a later date. Vote 14-0.

Amendment (0852h)

Amend the title of the bill by replacing it with the following:

AN ACT prohibiting the receipt of cash gifts by elected officials.

Amend the bill by replacing all after the enacting clause with the following:

1 Definitions. RSA 15-B:1 is repealed and reenacted to read as follows:

I. "Elected official" means the governor, members of the executive council, members of the general court, county commissioners, county sheriffs, county treasurers, county attorneys, registers of deeds, and registers of probate.

II. "Gift" means any money in the form of cash, check, or other negotiable instrument of any value or a thing of value received with a value in excess of \$50. "Gift" shall not include contributions as defined in RSA 664; a commercially reasonable loan made in the ordinary course of business; meals and beverages consumed in the course of official business; ceremonial gifts or awards which have insignificant monetary value; unsolicited gifts of nominal value or trivial items of informational value; reasonable expenses for food, travel and lodging for an in-state meeting at which the elected official participates in a panel or a speaking engagement; gifts of tickets or free admission extended to an elected official to attend charitable or political events, if the purpose of such gift or admission is a courtesy customarily extended to the office; gifts of money or a thing of value received by an elected official that are purely private and personal in nature and would have been received even were the individual not an elected official, including but not limited to, gifts from relatives by blood or marriage, or a member of the same household. The term "gift" does not include income received by the official in his or her regular course of employment or business or salary, mileage, or expense payments made to the official by the state or county for performance of official duties.

III. "Honorarium" means a payment in the form of cash, check or other negotiable instrument of any value to an elected official for services on which no fee is set or legally obtainable.

2 New Section; Prohibition on Gifts. Amend RSA 15-B by inserting after section 1 the following new section:

15-B:1-a Prohibitions on Gifts. No elected official shall knowingly accept any gift of money in the form of cash, check, or other negotiable instrument of any value. This section shall not be construed to prevent receptions, breakfasts, luncheons, dinners, dances, or picnics or like events from being held for the sole purpose of raising political contributions, provided such contributions comply with and are reported as required by RSA 664.

3 Disclosure Required; Information Required. Amend RSA 15-B:2 and 2-a to read as follows:

15-B:2 Disclosure Required. Every elected state and county official, including members of the general court, shall file a statement annually with the secretary of state by June 15 showing any ~~[income]~~ **gift or honorarium** received by the official during the preceding 12 months ending June 1 ~~[from testimonials, gifts, honorariums, donations, or any other source]~~, when the receipt of such **[income] gift or honorarium** is attributable to the office held by the official. ~~[This report shall not include campaign contributions, income received by the official in his regular course of employment or business or salary, mileage, or expense payments made to the official by the state or county for performance of official duties for the preceding 12 months.]~~ The statement shall give in alphabetical order the full name, post office address, occupation, and principal place of business if any, of all contributors who gave an individual or an aggregate total of **gifts or honorarium having a value of** more than \$50 ~~[of such income]~~ and the date **each was** received. The statement shall be a public record under RSA 91-A. For the purpose of this section, "~~[income]~~ **gift or honorarium** attributable to the office held by the official" means any gift~~;~~ **or** honorarium~~[-or testimonial income]~~ which is received by an official in his **or her** official capacity, and which would not have been received by the official but for the office he holds.

15-B:2-a Information Required on Financial Disclosure Form.

~~[.]~~ Each elected official shall disclose any gift or honorarium the official received **with a value** in excess of \$50 and the nature and value of such gift. ~~[Each elected official shall disclose income received from an individual contributor through gifts and honorariums or, through gifts or honorariums which exceeds that individual contributor's aggregate total of \$50.]~~

H. ~~For testimonials, each elected official shall disclose the total amount of income received; the expenses of holding the testimonial, and the testimonial net income raised after paying those expenses. Each elected official shall also disclose income received from individual contributors in excess of \$50, and shall follow the disclosure requirements of RSA 15-B:2.]~~

4 Effective Date. This act shall take effect June 2, 2005.

AMENDED ANALYSIS

This bill prohibits the receipt of cash gifts by elected state and county officials.

Adopted.

Committee report adopted.

Ordered to third reading.

HB 458, allowing towns to permit limited youth voting in municipal elections. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. William L. O'Brien for the Majority of Election Law: This proposed legislation would extend the voting franchise in municipal elections to individuals 14 through 17 years old by assigning them proportional voting on the following basis: Persons aged 14 and 15 years would be given a $\frac{1}{4}$ vote and persons aged 16 and 17 would be given a $\frac{1}{2}$ vote. The majority opposed this legislation for several reasons, including (1) designating any enfranchised persons as having lesser voting rights than others likely is a violation of the one person, one vote requirement of the U.S. Constitution, (2) it will produce a result where municipal elections are decided on fractional votes, (3) persons under the age of 18 are likely to be unduly influenced by adults and (4) it would complicate the work of election personnel and may increase the cost to towns and cities. Vote 10-4.

Rep. Charles F. Weed for the Minority of Election Law: The minority of the Election Law Committee believe that this bill would have enabled cities and towns who wished to allow minors, ages 14-17, to engage in regular elections with fractional votes in order to encourage civic responsibility and lifelong electoral participation.

Majority report adopted.

HB 289-FN, relative to registration fees for lobbying and lobbyists and requiring registration of employers of lobbyists. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. Richard B. Drisko for the Majority Election Law: The motivation for this bill was to increase revenue to the secretary of state and the attorney general's office by raising the fee for registration of lobbyists. The testimony did not relate the fees to the cost of the operations of the two offices. Testimony spoke to the fairness of the current fees and should not be designed to discourage lobbying. The bill separated lobbying activities into two categories, for-profit and non-profit and listed a higher fee for the former and lower for the latter. The majority felt this was discriminatory. Despite the fact that the fees had not been increased since 1986, after testimony, the majority felt that they were adequate for the current level of service need. Vote 10-4.

Rep. Charles F. Weed for the Minority of Election Law: The minority disagrees and recommends ought to pass as amended. The state offices responsible for registering and monitoring lobbyists, the secretary of state and the attorney general, are already under resourced and will be incurring more responsibilities and costs in the future. We also believe it is appropriate to distinguish between for-profit and non-profit interests in determining fees. This bill would have raised between \$20 and \$25,000. The state has not increased the fees for lobbyists since 1986.

Rep. Weed spoke against.

Rep. Drisko spoke in favor.

Rep. Claudia Chase requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

UNANIMOUS CONSENT

Rep. Easson addressed the House.
The House recessed at 12:20 p.m.

RECESS

(Speaker Scamman in the Chair)

The House reconvened at 1:20 p.m.

MOTION TO VACATE

Rep. Dokmo moved that the House vacate the reference of **SB 19**, relative to qualifications to sell lottery, bingo and lucky 7 tickets, and **SB 48**, prohibiting unlawful peering into the dwelling place of another, to the Committee on Judiciary.

Motion adopted.

The Speaker referred **SB 19**, relative to qualifications to sell lottery, bingo and lucky 7 tickets to the Committee on Executive Departments and Administration, and **SB 48**, prohibiting unlawful peering into the dwelling place of another, to the Committee on Criminal Justice and Public Safety.

(Deputy Speaker Weyler in the Chair)**SPECIAL ORDER**

CACR 17, relating to the encouragement of literature. Providing that the importance of education to a prosperous and democratic society be considered when allocating the resources of the state. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Deanna P. Rush for the Majority of Education: **CACR 17** removes the word "cherish" from our state constitution. One may recall that the word "cherish" was the central argument that was used by the courts in the Claremont school funding rulings. By removing the word "cherish," some feel it would open the door to a different interpretation for school funding. It was also felt by the majority of the committee that the proposed wording change in the New Hampshire constitution was not clearly stated, and would result in voter confusion. This bill could also remove the state's responsibility to fund public education. Vote 12-10.

Rep. Mark S. Carter for the Minority of Education: **CACR 17** would allow the people of New Hampshire to exercise their right to amend the constitution relative to education funding, and to re-assert the authority of the legislature over education funding policy in the state. It is unconscionable to the minority, that after eight years of education funding turmoil, the people of the state have yet to be allowed their constitutional voice in the matter.

Rep. Carter spoke against.

Rep. Elizabeth Blanchard spoke in favor.

Rep. Giuda spoke against and yielded to questions.

Rep. Rush spoke in favor and yielded to questions.

(Speaker Scamman in the Chair)

Rep. Vaillancourt requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

HB 255, establishing a committee to study the pricing of milk. OUGHT TO PASS WITH AMENDMENT

Rep. Burton W. Williams for Environment and Agriculture: Milk pricing is done on a regional basis. A study committee is necessary to insure New Hampshire dairy farmers are being treated fairly. Vote 13-4.

Amendment (0764h)

Amend the introductory paragraph of paragraph I of section 2 of the bill by replacing it with the following:

I. The members of the committee should have knowledge of the dairy industry and shall be as follows:

Adopted.

Committee report adopted and ordered to third reading.

HB 275, defining farmers' market. OUGHT TO PASS

Rep. Burton W. Williams for Environment and Agriculture: Farmer's markets are expanding in New Hampshire every year. Although the wording "farmer's markets" appear in statutes many times, it is appropriate that a true definition be put in statutes. Vote 16-1.

Committee report adopted and ordered to third reading.

HB 432-FN, relative to the septage handling and treatment facilities grant program. OUGHT TO PASS WITH AMENDMENT

Rep. Timothy D. O'Connell for Environment and Agriculture: Initially the position of septage coordinator was general funded and supported by a fee of \$10.00 derived from design permits of disposal systems. Recently the coordinator has been supported by federal funds. HB 432 allows the collected design fees, if not needed to support the septage coordinator, to be applied to the Septage Handling and Treatment Facilities Grant Program. Presently New Hampshire's capacity for safely treating septage is at risk with over 25% being exported to other states. The amendment extends the temporary authority to allow the land application of biosolids to those sites originally grandfathered. HB 722, the result of a study commission report of September 2004, has been retained to allow final resolution of this issue next season. Vote 13-2.

Amendment (0872h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the septage handling and treatment facilities grant program and the septage and sludge land application restrictions.

Amend the bill by replacing all after section 1 with the following:

2 Temporary Use Authorization; Time Extended. Amend 1998, 56:6 as amended by 2003, 43:14 and 2003, 302:3 to read as follows:

56:6 Temporary Use Authorization. The septage and sludge land application restrictions contained in RSA 483:9, VI(c), RSA 483:9-a, VII(b), RSA 483:9-aa, VII(b), and RSA 483:9-b, VII(b) shall not apply until July 1, [2005] 2007 to any land upon which septage or sludge has been spread in accordance with all applicable rules adopted by the federal Environmental Protection Agency and the New Hampshire department of environmental services, during any portion of the 3-year period prior to January 1, 1998. In addition, there shall be no termination of this restriction exemption for qualifying land that is used for scientific research on septage or sludge. Any continued application of septage and sludge pursuant to this section shall comply with all applicable federal and state laws and any best management practices published by the university of New Hampshire cooperative extension.

3 Effective Date.

I. Section 2 of this act shall take effect June 30, 2005.

II. The remainder of this act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill allows the department of environmental services to use certain fees for the septage handling and treatment facilities grant program. This bill also extends the temporary use authorization for septage and sludge land application until July 1, 2007.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 517, establishing a committee to study certain issues relative to construction and demolition waste and establishing a moratorium on the incineration of any construction and demolition waste.
OUGHT TO PASS WITH AMENDMENT

Rep. Timothy D. O'Connell for Environment and Agriculture: It is apparent to the majority that a comprehensive study of the disposal of construction and demolition waste is essential to reach consensus on this complex issue. In addition the bill enacts a moratorium on the incineration of C & D waste until July 1, 2006. Municipal waste combustors currently licensed are exempt from the moratorium. At this time no other facilities burning wood, separated from C & D debris, are permitted and operating in New Hampshire. The study committee will issue a preliminary report by November 1, 2005 and a final report on or before July 1, 2006 to coincide with the expiration of the moratorium. Vote 15-3.

Amendment (0879h)

Amend section 3 of the bill by inserting after paragraph IV the following new paragraph:

V. Evolving emissions control technology and its appropriate application to issuing permits for the incineration of construction and demolition waste.

Amend the bill by replacing sections 5 and 6 with the following:

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library. A preliminary report shall be submitted on or before November 1, 2005, and a final report shall be submitted on or before July 1, 2006.

6 Incineration Moratorium. Notwithstanding any provision of law to the contrary, there is hereby established a moratorium on the disposal of construction and demolition waste by incineration until July 1, 2006. This moratorium shall not apply to any municipal waste combustor subject to RSA 125-M, or to any municipal incinerator as defined in RSA 149-M, that is permitted by the department of environmental services and was in operation on January 1, 2005.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 677-FN, establishing fees and reporting requirements for the storage of hazardous materials.
INEXPEDIENT TO LEGISLATE

Rep. Ryan N. Hansen for Environment and Agriculture: This bill sought a permanent funding source for the state's hazardous materials teams. Homeland Security grants allowed the HazMat teams to rapidly develop to their current levels over the past three years, and the sunseting of those grants forces these teams to seek alternative sources for funding to operate at their existing levels of preparedness. The bill contained many technical ambiguities, an inability to articulate the dollars to be raised, questionable recommendations for sources of revenue and an uncertain impact on the New Hampshire business community. While the committee recognizes the value of our HazMat teams and their need for funding, it became clear this vehicle was not the right solution, forcing the committee to recommend ITL in hope of seeing a better bill in the future. Vote 14-4. Committee report adopted.

HB 56, relative to food safety in restaurants. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Alida I. Millham for the Majority of Executive Departments and Administration: Food safety in the preparation and serving of food is important not only for the people of New Hampshire but for the many thousands of people who visit New Hampshire. This legislation would assure that at least one person in a food serving establishment will have passed a food safety test covering such information as what to know about buying food, how to store food safely; how to safely prepare and serve food. Each establishment will post the certificate of passing the test. There are exemptions for farm stands and occasional food service events. All programs offered in New Hampshire are low in cost and able to accommodate people who are unable to read English. There are no financial implications for the state. Vote 11-4.

Rep. Janeen A. Dalrymple for the Minority of Executive Departments and Administration: This bill will impose a mandatory requirement for food establishments to have an on site certified food safety manager. This, in theory, will ensure the proper handling of food preparation. New Hampshire currently has 6500-7000 licensed food establishments. HB 56 has no provision for Health and Human Services involvement in the administration of this program. At this time, the Hotel and Lodging Association conducts classes and administers the test for a fee of \$125. Other op-

tions include online programs or University of New Hampshire extension courses that cost from \$60 to \$300. The bill does not address the multiple barriers for those individuals who have language or reading difficulties and consequences for failure to pass the test. This bill will also require replacement of a certified manager within 60 days and for smaller food establishments, this regulation places an undue costly burden. There are 138 pages of rules for food safety handling in New Hampshire administered by the Department of Health and Human Services. Each food establishment undergoes regular public health inspections and those inspections are based on compliance of food safety regulations. Testimony from the Department of Public Health last year, indicated there were 120 reported cases of food borne illness in relation to the millions of meals prepared. And they further stated of those cases, it was difficult to identify how many complaints were related to improper food handling. Consequently, there is no clear benefit that introducing this additional regulation will reduce the incidence of the number of accidental incidences of food borne illness caused by improper food handling.

Majority Amendment (0474h)

Amend the bill by replacing all after section 1 with the following:

2 Food Service Licensure; Certified Food Protection Manager Defined. Amend RSA 143-A:3, 1 to read as follows:

1. "Certified food protection manager" means a person who meets the requirements of RSA 143-A:9-c.

I-a. "Commissioner" means the commissioner of the department of health and human services.

3 Food Service Licensure; Definition. Amend RSA 143-A:3, V to read as follows:

V. "Occasional food service establishment" means any food service establishment operated by a private or public organization or institution, whether profit or nonprofit, which prepares food or drink for sale or for service, and any other eating or drinking establishment or operation where food is served or provided for the public with or without charge, no more than ~~[96 hours at no fewer than 3 hours a day]~~ 4 days during a 30-day period. This definition shall not apply to the following non-profit entities which do not offer regularly-scheduled weekday meal service: extracurricular school events; non-profit sporting events; religious activities; or non-profit service organizations.

4 New Paragraph; Definitions Added. Amend RSA 143-A:3 by inserting after paragraph VI the following new paragraph:

VI-a. "Potentially hazardous food" means:

(a) A food which is natural or synthetic and is in a form capable of supporting the:

(1) Rapid and progressive growth of infectious or toxigenic microorganisms;

(2) Growth and toxin production of Clostridium botulinum; or

(3) In raw shell eggs, the growth of Salmonella enteritidis; and

(b) Which is further defined by the United States Public Health Service Food Code adopted by the federal Food and Drug Administration.

5 New Subdivision; Food Service Licensure; Requirement of Certain Establishments to Have a Certified Food Protection Manager. Amend RSA 143-A by inserting after section 9-a the following new subdivision:

Food Protection Manager Certification

143-A:9-b Certified Food Protection Manager Requirement.

I.(a) Except as provided in paragraph II, each food service establishment licensed under RSA 143-A serving a potentially hazardous food shall assign at least one employee to be a certified food protection manager.

(b) A food protection manager shall have the responsibility to ensure that appropriate food safety practices are observed. The food protection manager may have supervisory or training responsibilities at the food service establishment.

(c) A food protection manager shall not be required to be on duty during all of the hours of operation of the food service establishment.

II. No person shall use the title "certified food protection manager" or in any way present himself or herself as a certified food protection manager unless he or she holds a current certificate from a certification program which meets the Conference for Food Protection standards for training, testing, and certification.

III. The following establishments shall not be required to assign a person who is a certified food protection manager:

(a) Food service establishments that serve only commercially pre-packaged foods and beverages, commercially pre-cooked potentially hazardous foods that are dispensed in a manner that minimizes contamination of the food, or commercially prepared cold foods not requiring any further preparation and dispensed or packaged immediately to the consumer in a manner that minimizes contamination of the food.

(b) Home food manufacturers and bed and breakfast establishments.

(c) Farm stands as described in RSA 21:34-a.

(d) Public elementary and secondary school cafeterias licensed under this chapter.

IV. Businesses that have multiple food service settings within a single, physical and geographically contiguous location are required to employ only one certified food protection manager.

V. The commissioner may by rule pursuant to RSA 541-A, establish an exemption for other small food service establishments.

143-A:9-c Certified Food Protection Managers. Each certified food protection manager shall:

I. Be at least 18 years of age.

II. Pass a food protection manager certification test, which may be written or oral, that meets the standards of the Conference for Food Protection.

III. Be recertified at least every 5 years.

143-A:9-d Termination of Food Protection Manager; New or Changed Ownership.

I. Upon termination of the employment of a certified food protection manager, the food service establishment where the manager was employed shall have 60 days to assign a new certified food protection manager in accordance with RSA 143-A:9-c.

II. Establishments that are new or have changed ownership shall meet the requirements of this section within 90 days of initial operation.

143-A:9-e Display of Certificate. Food protection manager certificates shall be:

I. Prominently posted in the establishment next to the food service license to operate; and

II. Removed when the certified food protection manager identified in the certificate is no longer employed by the establishment.

6 New Paragraph; Food Service Licensure; Rulemaking. Amend RSA 143-A:9 by inserting after paragraph I-a the following new paragraph:

I-b. The application process for certification of food protection managers, recertification requirements for certified food protection managers, and administrative fines for violations of provisions of this chapter relative to certified food protection managers.

7 Applicability. Notwithstanding RSA 143-A:9-b – RSA 143-A:9-e, no food service establishment licensed under RSA 143-A which serves potentially hazardous food shall be required to assign a person who is a certified food protection manager until July 1, 2006.

8 Effective Date. This act shall take effect July 1, 2005.

AMENDED ANALYSIS

This bill:

(1) Requires food service establishments, unless exempted, to assign at least one full-time employee to be a certified food protection manager.

(2) Establishes a definition of certified food protection manager.

(3) Grants the commissioner of health and human services certain rulemaking authority.

(4) Provides that food service establishments shall not be required to have a certified food protection manager until July 1, 2006.

(5) Clarifies the definition of occasional food service establishment in the food service licensure statute.

The question being adoption of the majority committee amendment.

On a division vote, 211 members having voted in the affirmative and 133 in the negative, the majority committee amendment was adopted.

Majority committee report adopted.

Ordered to third reading.

HB 307, establishing a committee to study the feasibility of licensing residential building and remodeling contractors. **OUGHT TO PASS**

Rep. Janeen A. Dalrymple for Executive Departments and Administration: The committee heard testimony from consumers and the building trades industry. It was concluded that in order to alleviate any inappropriate practices including consumer fraud and low quality workmanship, a study on licensing should be conducted. Vote 11-5.

Committee report adopted and ordered to third reading.

HB 502-FN, allowing certain surviving spouses to receive a retirement system death benefit. **INEXPEDIENT TO LEGISLATE**

Rep. William R. Zolla for Executive Departments and Administration: This bill would allow a surviving spouse of a retirement system member to receive a retirement system optional allowance when a member was at least 59 years old rather than 60 years old as previously required, with 20 years of service and who was eligible for a retirement system allowance. The committee was not willing to bend the rules to reduce the age requirement to accommodate a single person or others who may later found to be eligible to receiving a greater benefit. Vote 10-4.

Rep. Cloutier spoke against.

Rep. Zolla spoke in favor.

On a division vote, 213 members having voted in the affirmative and 126 in the negative, the committee report was adopted.

HB 555, establishing February 6 as Ronald Reagan Day. **INEXPEDIENT TO LEGISLATE**

Rep. Ken Hawkins for Executive Departments and Administration: The committee heard very passionate testimony on why New Hampshire should have in statute a Ronald Reagan Day. Although a great number of the committee members agreed that President Reagan was in fact a great president, we could not agree to have this in state statute. The ability to have a proclamation signed by the governor each year would in fact carry greater weight because someone will have to initiate this process each year. It was also brought up that in the last session we renamed a mountain in the Presidential Range Mt. Reagan. This was the third bill we had that wanted to name a day or month for someone or for a group. The decision we reached here was the same as we reached on the other bills. Vote 15-1.

Reps. Paul Smith, Velez and Bettencourt spoke against.

Rep. Hawkins spoke in favor.

Rep. Bettencourt requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted.

(Deputy Speaker Weyler in the Chair)

HB 594-FN, relative to retirement system classification for correctional line personnel. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. William R. Zolla for the Majority of Executive Departments and Administration: This bill removes the category of correctional line personnel from group II classification in the state retirement system. The bill allows persons presently employed as group II correctional line personnel on the effective date of the act to remain group II. The bill will assist in further clarifying and differentiating between line personnel working at the prison and state correctional officers who qualify for group II under RSA 100-A:1:VII.d. All new prison personnel employed by the state prisons other than correctional officers as defined above shall be classified as group I. The amendment to this bill removes county personnel from the above considerations. Vote 11-8.

Rep. John DeJoie for the Minority of Executive Departments and Administration: Passage of this bill will deny certain department of corrections employees' proper classification as group II members of the New Hampshire Retirement System. Based under current law, these 53 correctional personnel have been correctly certified by State of New Hampshire Department of Personnel as qualifying for group II membership. These employees have intimate contact with inmates, have graduated from eight weeks of training at the police academy, and are physically fit to perform the security duties required of their positions. In short, they meet the current law. These employees work daily side by side with other employees who are members of the group II retirement system. This bill deems that these employees no longer meet the requirement of group II retirement even though they have met the requirements since 1987. Further, the commissioner of corrections opposes restricting these employees from group II as this bill does. Given the highly publicized disagreements between corrections employees and the department of corrections commissioner, when they agree in opposing this bill, we must give their unison careful consideration. The minority of the committee requests that you defeat this bill. The Executive Departments and Administration Committee will then continue to consider employees on an individual basis for a change in retirement classification.

Majority Amendment (0722h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to retirement system classification for department of corrections correctional line personnel.

Amend the bill by replacing all after the enacting clause with the following:

1 Repeal. RSA 100-A:1, VII(b), relative to group II classification of department of corrections correctional line personnel, is repealed.

2 Application of Repeal to Current Personnel. A person employed as department of corrections correctional line personnel and classified as a group II retirement system member as of the effective date of this act may remain a group II member and continue accruing service as group II service, notwithstanding the 5-year service requirement in RSA 100-A:3, II-c, for as long as the person holds that position or a related position reached through normal career-path promotion.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill removes department of corrections correctional line personnel from group II classification in the state retirement system. The bill allows persons employed as group II department of corrections correctional line personnel on the effective date of the act to remain group II. Majority amendment adopted.

On a division vote, 191 members having voted in the affirmative and 150 in the negative, the majority committee report was adopted.

Ordered to third reading.

Rep. Hinkle voted Yea and intended to vote Nay.

HB 401-FN-A, making an appropriation to the Seacoast Shipyard Association. **OUGHT TO PASS**

Rep. Daniel M. Hughes for Finance: An appropriation of \$100,000 to the State Treasurer for the purpose of funding the Seacoast Shipyard Association (SSA) and this bill requires the Association to report how the funds are spent. The funding in this bill will be used in the effort to keep the Portsmouth Naval Shipyard open and will be used with other funds to assist in legal, publicity, promotional and other fees. The 2005 Base Realignment and Closing Commission (BRAC) meets this spring and the work of SSA will complement the work of the Congressional delegations involved. The economics of the shipyard, the oldest Naval yard in the country, makes an overwhelming case.

The shipyard employs approximately 2000 New Hampshire citizens from 50 New Hampshire towns with a New Hampshire payroll of almost \$125,000,000. The base generates approximately \$100,000,000 for purchased goods, services and support. In addition to the economics, the base is one of our nation's most efficient and is invaluable to the defense effort of our country. Vote 19-5. Committee report adopted and ordered to third reading.

HB 478-FN-A, making an appropriation for "Newsline for the Blind." **OUGHT TO PASS**

Rep. Larry A. Emerton for Finance: This is a small appropriation that will allow New Hampshire's blind population, who otherwise would not be able to read newsprint from various newspapers, to phone into an information and news service. We are among the few states who don't provide this service. The service is now provided by and started up by Verizon. They now do not wish to continue funding this vital program; therefore if we do not continue it, many users will incur a large void in their lives. Vote 24-0.

Committee report adopted and ordered to third reading.

HB 539-FN-A-L, relative to land and community heritage investment program administration. **OUGHT TO PASS**

Rep. MaryAnn N. Blanchard for Finance: This bill results from the study committee on LCHIP last session. It provides that the LCHIP Board may provide up to 10% of its funds for loans. Principal and interest on the loans will be deposited in the LCHIP Trust. Vote 18-6.

Rep. Newton spoke against.

Rep. Dodge spoke against and yielded to questions.

Rep. Giuda moved recommit to committee.

Rep. Hager spoke against and yielded to questions.

Motion to recommit failed.

Reps. Mirski, Stella Scamman and W. Douglas Scamman declared conflicts of interest and did not participate.

MOTION TO LAY ON THE TABLE

Rep. Rodeschin moved that **HB 539-FN-A-L**, relative to land and community heritage investment program administration, be laid on the table.

On a division vote, 154 members having voted in the affirmative and 184 in the negative, the motion to lay on the table failed.

Reps. Mirski, Stella Scamman and W. Douglas Scamman declared conflicts of interest and did not participate.

The question now being adoption of the committee report.

Rep. Weed requested a roll call; sufficiently seconded.

The question now being adoption of the committee report.

Ordered to third reading.

CACR 12, relating to judicial conduct. Providing that the people of New Hampshire, in a manner established by law, shall be responsible for investigating and evaluating the conduct of members of the judicial branch. **OUGHT TO PASS**

Rep. Robert H. Rowe for Judiciary: In New Hampshire, judges are appointed by the governor and council under Part One, Article 35 of the Constitution to "hold their offices so long as they behave well." It is a common misconception that judges are appointed for life. Currently complaints against judges are heard by a conduct committee formed by the judicial branch under its own rules. The passage of this CACR will allow the citizens of the State of New Hampshire to have the authority to receive complaints, investigate complaints and, if appropriate, order sanctions as a result of poor judicial conduct. The perception held by the public is that the judicial branch is judging itself. One branch of government policing itself is simply wrong – behavior should be judged by the citizens. In 47 states, the citizens have an input as to judge's behavior. Until two years ago, New Hampshire had an independent citizens' commission to hear complaints against judges, but the Supreme Court ruled that this violated the separation of powers provision of the New Hampshire Constitution. As a result of the ruling, the judicial branch re-established its own conduct committee. This CACR will give back to the people the power to investigate and evaluate good behavior on the part of a judge and impose sanctions as necessary. Vote 15-5.

Rep. King spoke against and yielded to questions.

Reps. Rowe, Mirski and Soltani spoke in favor and yielded to questions.

Rep. Pratt spoke against.

Rep. Soltani requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report failed.

Rep. Dokmo moved Inexpedient to Legislate.

Motion adopted.

Rep. Coughlin declared a conflict of interest and did not participate.

CACR 16, relating to the definition and constitutionality of judicial and legislative acts. Providing that the supreme court shall determine the constitutionality of judicial acts and the legislature shall determine the constitutionality of legislative acts. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Frances D. Potter for the Majority of Judiciary: The right of citizens to defend themselves against wrongful perhaps oppressive acts of the legislature by going to court is one of the touchstones of American democracy. CACR 16 if passed would deny citizens the right to this court review of legislative actions. The majority believes this would ultimately destroy the checks and balances system we hold dear. There has been much talk in N.H. in recent years about "judicial activism." This talk comes from all directions in the political spectrum; it depends on "whose ox is gored." There is always one group that prevails and another that loses when a case goes to court; the argument against "ac-

tivism” carries no weight since there is another group that can use the same argument to make the opposite point. There is always tension between the right of the majority to act and the right of the minority to protection. It is essential to the preservation of right of every individual’s life, liberty, property, character, that there be an impartial interpretation of the laws and administration of justice. (N.H. Constitution, Part I, Art. 35, Bill of Rights) CACR 16 would essentially upset the separation of powers among the branches of government, legislative, judicial, executive and make the court’s decisions hostage to the political whims of the legislature. The Rule of Law and the protection of minorities are precious and fundamental in our society. If this bill were passed, there would be no place for an individual or minority group to go to appeal a loss of rights, to receive justice. We all know that a court can make a mistake, as can a governor or the legislature. Our safeguard against such lapses is the separation of powers and the check or balance that each body can exercise over the other. The governor has the power to appoint judges; the legislature can bring a bill of address or impeachment against a judge or governor. The court, in reviewing the acts of the legislature, upholds the rule of law embodied in the constitution; the delicate balance among the three branches is literally our safeguard against the tyranny of one branch. All other states in the U.S. recognize the concept of judicial review. Vote 13-8.

Rep. Gregory M. Sorg for the Minority of Judiciary: CACR 16 would bring the Supreme Court back to constitutional legitimacy by writing into the Constitution the distinction between adjudicatory and legislative acts drawn by Justice Levi Woodbury in the 1818 Supreme Court case *Merrill v. Sherburne*, the first case to come before the court under the separation of powers provision, Article 37 of Part I. It would also restore the original understanding of the boundaries of the separation of powers, reflected in that case, whereby the judiciary was constituted the final authority of the constitutionality of adjudicatory acts and the legislature was constituted the final authority on the constitutionality of legislative acts. It has only been in comparatively recent times that the court has laid claim to final, unreviewable authority, binding on the legislature to validate on constitutional grounds acts of a purely legislative character. By reason that the court has an inherent institutional bias in favor of resolutions of separation of powers issues that enhance judicial power at the expense of legislative, the sweeping assertion of authority has resulted in significant judicial intrusions into the legislature’s exclusively granted authority to establish state policy, to the extent that the court acts today as a virtual third chamber of the legislature, with veto power over the other two, exercisable by whichever three members of the court happen to comprise a majority at any given time. As the legislature tires of the continual buffeting to which it is subject on the basis of past and anticipated future dictates from the Supreme Court, the time will come when the legislature shall have no choice but to direct its attention away from mere symptoms of judicial excess towards its root causes.

Rep. Sorg spoke against.

Rep. Mooney spoke in favor.

Rep. Sorg requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

Rodeschin, Beverly

HB 463, relative to evidence of admissions in medical injury actions. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Gregory M. Sorg for the Majority of Judiciary: The purpose of this bill is to encourage reconciliation between medical care providers and patients, and thereby to discourage litigation, by

making inadmissible in any subsequent litigation expressions of "apology, fault, sympathy, commiseration, condolence, compassion, or a general sense of benevolence." The committee concluded that it would be inequitable to except this profession from the general rule that prior acknowledgements of fault are admissible substantively at trial; and concluded, also, that the goal of reconciliation is not likely to be encouraged on the basis of a law providing that fault acknowledged before trial can be repudiated without consequence at trial. Vote 11-5.

Rep. James P. Pilliod for the Minority of Judiciary: This bill was introduced as a result of a two-year legislative commission that studied patient safety and medical errors. HB 463 is a patient-centered bill that would begin to restore the doctor-patient relationship after an unanticipated medical outcome. In Colorado, this law has resulted in open, honest discussions, acceptance of responsibility, a reduction in litigation, more patients have received settlements, it has helped prevent future errors, settlements are reached quicker and patients still retain the right to file a lawsuit. Today, when there is an unanticipated medical outcome, patients and their families typically hear nothing. Risk managers often instruct everyone involved to not say too much. (Check your auto insurance policies - most won't cover you if you talk to the other side.) Indeed, it is the silence and perceived stonewalling that causes many patients to seek the help of attorneys to learn what happened. The reason they receive no information is that doctors, nurses and hospitals know that, if they accept responsibility, their statements may be used against them at trial. We want medical care providers to accept responsibility for their actions, we want patients and their families to know what happened and we want quicker payment of settlements. Those are worthy goals in and of themselves. The so-called protections in this bill are limited. Patients are still free to bring a lawsuit. There is no immunity for medical providers in this bill. The only limitation would be that an injured patient would not be able to use a medical care provider's own explanation as proof that the doctor/nurse/hospital was negligent. However, the patient can use the medical care provider's explanation as a road map to prove his or her case. The committee considered two "I'm sorry" bills. HB 584 is a limited version of HB 463. It would not change existing law, would not promote open communications and would not do anything to change the way doctors and patients behave after an unanticipated outcome. HB 584 supporters spoke of wanting to encourage medical providers to show compassion and to explain what happened and why. HB 584 would not allow providers compassion and to explain what happened and why. HB 584 would not allow providers to talk about the "why" - only to express sympathy/compassion. Unfortunately, HB 584 encourages evasiveness and may create more anger when questions go unanswered. We believe that HB 463 is more comprehensive and will truly benefit patients. The Minority of the Committee supports passage of HB 463. Majority committee report adopted.

HB 496, relative to limits on non-economic damages in medical injury actions. INEXPEDIENT TO LEGISLATE

Rep. Vivian J. Desmarais for Judiciary: The committee heard extensive testimony on numerous bills relating to medical malpractice, including this bill which would mandate a \$250,000 cap on non-economic damages. The State has enacted similar legislation on three separate occasions and the N.H. Supreme Court ruled all three times that such a cap is in violation of our constitution; therefore it makes no sense to pass this measure. Testimony from both sides of the debate said there is no significant problem with frivolous medical malpractice cases in New Hampshire; there are very few huge jury awards and such a cap will do little to nothing to reduce medical malpractice insurance premiums. The committee further feels that a \$250,000 cap could be inadequate for some injuries. In light of the fact that litigation costs, including attorney fees, diminish the actual amount received by an injured person. Vote 17-1. Committee report adopted.

HB 530, relative to an informed jury. MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. Tony F. Soltani for the Majority of Judiciary: Under common law, juries have had the right to refuse to return a guilty verdict where doing so would offend their good conscience. This right was used by jurors in refusing to convict patriots during the revolutionary period. The juries relying on this power refused to convict those who aided and housed runaway slaves. The independent tradition of juries continued during the civil rights movement. This right currently exists in all fifty states including New Hampshire. Presently, however, the juries are not consistently in-

formed of this right, nor are any rules or guidelines regulating the circumstances under which this information may or may not be passed on to the jury. This arbitrary practice has created different practices in different regions. The majority of the committee favors equal treatment of all jurors, and defendants throughout the state. Vote 9-7.

Rep. Maureen C. Mooney for the Minority of Judiciary: The minority opposes HB 530 because it believes that any benefits of this legislation would be greatly outweighed by the damage it would do to the fair and equal application of our criminal statutes. Trial judges already have the ability to give a "jury nullification" instruction at the request of either party. That decision to grant or deny the request for such an instruction can be appealed to the Supreme Court. With HB 530, every criminal trial would turn into a mini-legislation session where the primary issue of the defendant's guilt or innocence would be sidelined by public policy debates. The primary function of a criminal trial must be determining the guilt or innocence of the defendant and making sure that justice is done. HB 530 would interfere with those functions and therefore deserves to be ITL.

Reps. Hunt and Espieffs spoke against and yielded to questions.

Rep. Ingbertson spoke in favor.

Rep. Soltani spoke in favor and yielded to questions.

Rep. Soltani requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report failed.

Rep. Mooney moved Inexpedient to Legislate.

Adopted.

HB 584, relative to evidence of admissions of liability in medical injury actions. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Bette R. Lasky for the Majority of Judiciary: HB 584 is one of two "I'm sorry" bills which were presented to the committee. Such legislation has been passed in ten other states and is said to be lessening the animosity some patients feel vs. their doctors when an unfortunate unforeseen outcome occurs. With the passage of HB 584 a physician feels free to express his sorrow and compassion to the patient without such expressions being admissible in court. The majority of the committee voted to pass this legislation while opposing HB 463 which also allowed the physician to admit fault and not have it admitted in court as well. The committee felt that HB 463 went too far. Vote 8-7.

Rep. Gregory M. Sorg for the Minority of Judiciary: The problem with this bill and the similarly motivated HB 463 is that an expression of "sympathy, compassion, commiseration or a general sense of benevolence" is not evidence of an admission of liability under current rules of evidence. Consequently, a statute making it inadmissible in court for purposes of acknowledging liability is unnecessary. Moreover, it is entirely conceivable that counsel for a health care provider defendant would want to introduce such expressions into evidence in order to present the provider as a humane individual, a possibility that passing this bill would presumably rule out.

Majority committee report adopted.

Ordered to third reading.

HB 619-FN, relative to skier safety and ski area responsibility. MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: OUGHT TO PASS WITH AMENDMENT.

Rep. John B. Hunt for the Majority of Judiciary: In a bi-partisan vote, the majority of the committee supported the passage of HB 619-FN as amended by the committee. This bill is intended to update New Hampshire's skier and ski area responsibility laws, which were last updated in 1978, so that the statute reflects the activities and equipment that is being utilized at ski areas in 2005. House Bill 619-FN maintains the appropriate balance that exists in law today so that skiers and ski area operators understand their respective responsibilities for safety at a ski area. The amendment removes some of the most contentious issues and adds a study committee to review if any other additional winter sports activities need to be included so that New Hampshire ski resorts can continue to remain competitive. Vote 11-8.

Rep. Bette R. Lasky for the Minority of Judiciary: The minority feels strongly that HB 619-FN as amended is wrong at this time. This bill changes RSA 225-A regarding skiers, ski area and passenger tramway safety. It expands the definitions of winter sports beyond skiing and ski jumps to include snowboarding, tubing, snowshoeing and cross-country skiing. There are changes to the color code signs for making the ski trail level of difficult and the placement of such signs. It also expands the ski area's immunity from suit to those who may go beyond the marked trails or who might trespass on the area. The Minority believes that while we don't have any objections to the study committee, and actually heartily support it, our concern is that it is not being dealt with first, before any bill is passed. We believe the bill is too important to rush. It needs a much more thorough study and we would prefer to retain it. The new areas the sponsors wanted for expansion of limited liability such as terrain parks, including jumps, hits, ramps, banks and freestyle bump terrain, are beyond the knowledge of most of us and testimony received from citizens highlighted concern about the safety of the design and construction of many of these newer ski area offerings.

Majority Amendment (0887h)

Amend the bill by replacing all after the enacting clause with the following:

1 Declaration of Policy; Other Winter Sports Added. Amend RSA 225-A:1 to read as follows:

225-A:1 Declaration of Policy. The state of New Hampshire finds that the [sport] *sports* of skiing, [is] *snowboarding, snow tubing, and snowshoeing* are practiced by a large number of citizens of the state of New Hampshire, and also that skiing, [attracts] *snowboarding, snow tubing, and snowshoeing* attract to the state of New Hampshire large numbers of nonresidents significantly contributing to the economy of New Hampshire. Therefore, it shall be the policy of the state of New Hampshire to protect its citizens and visitors from unnecessary mechanical hazards in the operation of ski tows, lifts, *nordic* ski jumps and *passenger* tramways, to ensure that proper design and construction are used, that board accepted safety devices and sufficient personnel are provided for, and that periodic inspections and adjustments are made which are deemed essential to the safe operation of ski tows, ski lifts, *nordic* ski jumps and passenger tramways. The primary responsibility for operation, construction, maintenance and inspection rests with the operators of such passenger tramway devices. The state, through its passenger tramway safety board, as hereinafter provided, shall register all ski lift devices and *nordic* ski jumps, establish reasonable standards of design and operational practices, and make such independent inspections as may be necessary in carrying out this policy. Further, it shall be the policy of the state of New Hampshire to define the primary areas of responsibility of skiers and other users of alpine (downhill) and *nordic* (cross country and *nordic* ski jumps) areas, recognizing that the sport of skiing and other ski area activities involve risks and hazards which must be assumed as a matter of law by those engaging in such activities, regardless of all safety measures taken by the ski area operators.

2 Definition of Terms. RSA 225-A:2 is repealed and reenacted to read as follows:

225-A:2 Definitions. In this chapter:

- I. "Board" means the passenger tramway safety board.
- II. "Department" means the department of safety, division of safety services.
- III. "Industry" means the activities of all those persons in the state who own or control the operation of ski areas.
- IV. "Nordic ski jump" means a facility constructed for the purpose of nordic ski jumping and built in accordance with appropriate standards and guidelines, and any facilities that are associated with the use or viewing of such a facility.
- V. "Passenger" means any person, including skiers, while being transported or conveyed by a passenger tramway, or while waiting in the immediate vicinity for such transportation or

conveyance, or while moving away from the disembarkation or unloading point of a passenger tramway to clear the way for the following passengers, or while in the act of boarding or embarking upon or disembarking from a passenger tramway.

VI. "Passenger tramway" means a device used to transport passengers uphill on skis or other winter sports devices, or in cars on tracks or suspended in the air, by the use of steel cables, chains or belts or by ropes, and usually supported by trestles or towers with one or more spans. The term passenger tramway shall include the following:

(a) Two-car aerial passenger tramway, a device used to transport passengers in 2 open or enclosed cars attached to, and suspended from, a moving wire rope, or attached to a moving wire rope and supported on a standing wire rope, or similar devices.

(b) Multi-car aerial passenger tramway, a device used to transport passengers in open or enclosed cars attached to, and suspended from, a moving wire rope, or attached to a moving wire rope and supported on a standing wire rope, or similar devices.

(c) "Conveyor" means a class of outdoor transportation wherein skiers or passengers are transported uphill on a flexible moving element such as a conveyor belt.

(d) Chair lift, a type of transportation on which passengers are carried on chairs suspended in the air and attached to a moving cable, chain or link belt supported by trestles or towers with one or more spans, or similar devices.

(e) J bar, T bar or platter pull, so-called, and similar types of devices are means of transportation which pull skiers riding on skis by means of an attachment to a main overhead cable supported by trestles or towers with one or more spans.

(f) Rope tow, a type of transportation which pulls the skier riding on skis as the skier grasps the rope manually, or similar devices.

(g) Wire rope tow means a type of transportation by which skiers are pulled on skis while manually gripping a handle attached to a wire hauling cable. The hauling cable is maintained at a constant height range between the loading and unloading points, and there is only one span with no intermediate towers.

VII. "Ski area operator" means a person who owns or controls the operation of a ski area. The word "operator" shall include the state or any political subdivision. An operator of a passenger tramway shall be deemed not to be operating a common carrier. Ski area operator is included in the term "operator" as used in this chapter.

VIII. "Ski areas" means all passenger tramways and all designated alpine and nordic trails, slopes, freestyle terrain, tubing terrain, and nordic ski jumps under the control of the alpine and nordic ski area operator and any other areas under the operator's control open to the public for winter sports recreation or competition.

IX. "Skier" means a person utilizing the ski area under the control of a ski area operator for ski, snowboard, and snow tube recreation and competition.

X. "Tubing terrain" means areas designated for sliding on inflatable tubes or other similar devices down a prepared course or lanes at a ski area.

XI. "Winter sports" means the use of skis, snowboards, snow tubes, snowshoes, and any device being utilized by a disabled or adaptive participant for winter recreation or competition.

3 Responsibilities of the Ski Area Operator. RSA 225-A:23 is repealed and reenacted to read as follows:

225-A:23 Responsibilities of the Ski Area Operator. It shall be the responsibility of the operator to maintain the following signs and designations:

I. General Designations. The following color code is hereby established:

(a) Green circle: On area's easiest trails and slopes.

(b) Black diamond: On area's most difficult trails and slopes.

(c) Blue square: On area's trails and slopes that fall between the green circle and black diamond designation.

(d) Yellow triangle with red exclamation point inside with a red band around the triangle: Extrahazardous.

(e) Border around a black figure in the shape of a skier inside with a band running diagonally across the sign with the word "closed" beneath the emblem: Trail or slope closed.

(f) Orange oval: On area's designated freestyle terrain without respect to its degree of difficulty.

II. Base Area; Information to Skiers and Passengers.

(a) A trail board shall be maintained at a prominent location listing the ski area's network of ski trails, slopes, tubing terrain, and designated freestyle terrain in accordance with the aforementioned color code and containing a key to the code in accordance with the above designations; said trail board shall further designate which trails, slopes, and snow tube terrain are open or closed.

(b) The ski area operator shall warn skiers and passengers by use of the trail board, if applicable, that snow grooming or snow making operations are routinely in progress on the slopes and trails serviced by each tramway.

(c) A map shall be available at all ski areas to all skiers and passengers indicating the system of ski trails, slopes, tubing terrain, and designated freestyle terrain in accordance with the color code in paragraph I.

III. Ski Trails and Slopes; Information and Warning to Skiers and Other Persons.

(a) The operator shall mark the beginning of each alpine and nordic ski trail or slope with the appropriate symbol for that particular trail's or slope's degree of difficulty in accordance with RSA 225-A:23, I.

(b) The beginning of each alpine ski trail or slope is defined as the highest point of the trail or slope. Lower trail junctions and intersections may be marked with a degree of difficulty symbol.

(c) The operator shall mark the beginning of, and designated access points to, each alpine trail or slope that is closed with a sign in accordance with RSA 225-A:23, I(e). For purposes of this subparagraph, "designated access points" means the beginning of a trail, slope, or any point where an open trail crosses or intersects the closed trail as shown on the ski area's trail board and trail map.

(d) The operator shall mark the beginning of and designated access points to terrain with the appropriate symbol in accordance with RSA 225-A:23, I(f), which sign shall warn the skier that the use of the terrain is at the skier's own risk. Further, a sign shall be placed at each lift depicting the symbols in RSA 225-A:23, I(a)-(f) describing the trail or slope that the skier may encounter by utilizing such lift.

IV. Nordic Ski Jumps. The operator shall provide a sign in a prominent location at or near the nordic ski jump facility, which sign shall warn the ski jumper that the use of the nordic ski jump is entirely at the ski jumper's own risk. Further, the ski area operator shall be responsible for the design, construction and structural maintenance of all nordic ski jumps.

4 Responsibilities of Skiers and Passengers. Amend the introductory paragraph of RSA 225A:24 and RSA 225-A:24, I-III to read as follows:

225-A:24 Responsibilities of Skiers and Passengers. It is hereby recognized that, regardless of all safety measures which may be taken by the ski area operator, skiing, **snowboarding, snow tubing, and snowshoeing** as ~~a sport~~ **sports**, and the use of passenger tramways associated therewith may be hazardous to the skiers or passengers. Therefore:

I. Each person who participates in the sport of skiing, **snowboarding, snow tubing, and snowshoeing** accepts as a matter of law, the dangers inherent in the sport, and to that extent may not maintain an action against the operator for any injuries which result from such inherent risks, dangers, or hazards. The categories of such risks, hazards, or dangers which the skier or passenger assumes as a matter of law include but are not limited to the following: variations in terrain, surface or subsurface snow or ice conditions; bare spots; rocks, trees, stumps and other forms of forest growth or debris; **terrain**, lift towers, and components thereof (all of the foregoing whether above or below snow surface); pole lines and plainly marked or visible snow making equipment; collisions with other skiers or other persons or with any of the categories included in this paragraph.

II. Each skier and passenger shall have the sole responsibility for knowing the range of his **or her** own ability to negotiate any slope, trail, **terrain**, or passenger tramway. Any passenger who boards such tramway shall be presumed to have sufficient **knowledge**, abilities, **and physical dexterity** to negotiate the lift, and no liability shall attach to any operator or attendant for failure to instruct persons on the use thereof.

III. Each skier or passenger shall conduct himself **or herself**, within the limits of his **or her** own ability, maintain control of his **or her** speed and course at all times **both on the ground and in the air**, while skiing, **snowboarding, snow tubing, and snowshoeing** heed all posted warnings, and refrain from acting in a manner which may cause or contribute to the injury of himself, **her-self**, or others.

5 New Subparagraph; Prohibitions; Access Closed Terrain. Amend RSA 225-A:24, V by inserting after subparagraph (f) the following new subparagraph:

(g) Ski or otherwise access terrain outside open and designated ski trails and slopes or beyond ski area boundaries without written permission of said operator or designee.

6 Insurance; Limitations. Amend RSA 225-A:25, I to read as follows:

I. Unless an operator of a passenger tramway is in violation of this chapter or the rules of the board, which violation is causal of the injury complained of, no action shall lie against any operator by any passenger or his *or her* representative; this prohibition shall not, however, prevent the maintenance of an action against an operator for negligent operation, construction, or maintenance of the passenger tramway itself.

7 Insurance; Limitations; Ski Area Operators Added. Amend RSA 225-A:25, IV to read as follows:

IV. No action shall be maintained against any operator for injuries to any skier or passenger unless the same is commenced within 2 years from the time of injury provided, however, that as a condition precedent thereof the operator shall be notified by certified return receipt mail within 90 days of said injury. The venue of any action against an operator shall be in the county ~~[in which the passenger tramway base station]~~ *where the ski area* is located and not otherwise.

8 New Paragraphs; Ski Areas; Limitations. Amend RSA 225-A:25 by inserting after paragraph IV the following new paragraphs:

V. No ski area operator shall be held responsible for ensuring the safety of, or for damages including injury or death, resulting to skiers or other persons who utilize the facilities of a ski area to access terrain outside open and designated ski trails. Ski areas shall not be liable for damages, including injury or death, to persons who venture beyond such open and designated ski trails.

VI. A ski area operator owes no duty to anyone who trespasses on the ski area property.

9 Ski Area Vehicles; Reference Changed. Amend RSA 259:101 to read as follows:

259:101 Ski Area Vehicles. "Ski area vehicles" shall mean motor vehicles, except private passenger vehicles, whether wheeled or tracked, on-highway or off-highway, owned or leased by a ski area as defined in RSA 225-A:2, ~~[¶]~~ *VIII*, and used exclusively in winter or summer maintenance of ski trails, parking lots, private access roads, structures and other ski area facilities. These vehicles shall include snow cats, snow dozers, snow grooming equipment and tractors, except that it shall not include vehicles with metal tracks or cleats operated outside the bounds of any road maintained exclusively by the ski area.

10 Committee Established.

I. There is established a committee to study additional winter sports that may need to be included in the ski area exemption from liability and skier safety.

II. Membership and Compensation.

(a) The members of the committee shall be as follows:

(1) Three members of the house of representatives, appointed by the speaker of the house of representatives. One member shall be from the resources, recreation and development committee, and one member shall be from the judiciary committee.

(2) Two members of the senate, appointed by the president of the senate.

(b) Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

III. Duties. The committee shall study:

(a) The need to include additional winter sports in the ski area liability exemption and which sports need to be included.

(b) Revising the statutes relating to skier safety and ski area responsibility to reflect changes in the sport of skiing and activities at ski areas.

IV. Chairperson. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section.

V. Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2005.

11 Effective Date.

I. Section 10 of this act shall take effect upon its passage.

II. The remainder of this act shall take effect July 1, 2005.

AMENDED ANALYSIS

This bill:

- I. Adds "snowboarding," "snow tubing," and "snowshoeing" to "skiing" in the declaration of policy.
 - II. Adds definitions to the definitions section and alphabetizes the section.
 - III. Makes certain changes to the color code signs for marking the ski trail level of difficulty and their placement.
 - IV. Adds "snowboarding," "snow tubing," and "snowshoeing" to skiing as inherently dangerous activities and changes the list of hazards for which skiers and others assume the risks.
 - V. Prohibits skiers from accessing certain parts of a ski area without written permission.
 - VI. Establishes a committee to study additional winter sports that may need to be included in the ski area exemption from liability and skier safety.
- Majority committee amendment adopted.
Majority committee report adopted.
Ordered to third reading.

HB 702-FN, relative to the screening of medical malpractice claims. OUGHT TO PASS WITH AMENDMENT

Rep. Bette R. Lasky for Judiciary: This bill, as amended, is the final product of work by the committee to find a solution to lower malpractice rates in New Hampshire. This session, we had more than one "malpractice" bill presented to us. By examining four different types of tort reform, we believe that we have found a new approach which will work in New Hampshire. We have never heard evidence that New Hampshire has runaway jury awards or that there is a huge problem with frivolous medical malpractice cases. Nor do we know for certain that any reform we enacted will, in fact, lower doctor's malpractice insurance rates. Still, the committee feels that HB 702-FN, as amended with prescreening process by an unbiased judge will help weed out non meritorious claims before they enter the judicial process and the 45 day mandatory mediation will help bring speedier resolutions for meritorious cases with a trial. That will save money. This bill also does not deny anyone with a meritorious claim justice. Without the excessive costs of the "Two Trial" Maine process, the person with a small claim or little money is not denied his day in court because of lack of funds. Admissibility to the jury has also been a difficulty with other bills. No process, no matter how well intentioned should have the potential of poisoning the jury. HB 702-FN as amended does not allow the outcome of the prescreening process to be admitted to the jury. The majority of the committee believes this bill is efficient, simple and gives the citizens of our state easy access to the jury system when they have truly been wronged and it is a neutral, quick and fair process to exonerate physicians whose only mistake is human error or an unexpected unforeseen medical outcome. Vote 15-6.

Amendment (0909h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the screening and mediation of medical malpractice claims.

Amend the bill by replacing all after the enacting clause with the following:

1 New Chapter; Screening and Mediation for Medical Injury Claims. Amend RSA by inserting after chapter 519-A the following new chapter:

CHAPTER 519-B

SCREENING AND MEDIATION FOR MEDICAL INJURY CLAIMS

519-B:1 Definitions. In this chapter a "provider of health care" shall mean a person, corporation, facility, or institution licensed by the state to provide health care or professional services as a physician, hospital, clinic or nursing home, dentist, registered or licensed nurse, optometrist, podiatrist, chiropractor, physical therapist, psychologist, acupuncturist, or an officer, employee, or agent thereof acting in the course and scope of his or her employment.

519-B:2 Screening Hearing and Mediation.

I. Every action at law for medical injury against a provider of health care shall be screened by a single justice of the superior court. The plaintiff shall present an offer of proof and the screening judge shall determine if the evidence presented, if properly substantiated, is sufficient to raise a legitimate question of liability appropriate for judicial inquiry or whether the plaintiff's case is merely an unfortunate medical result.

II. All actions which continue after the decision of the screening judge under paragraph I shall be mediated within 45 days in a manner established by court rules to promote and encourage an expeditious settlement.

519-B:3 Procedure.

I. Each such action for medical injury shall be heard by the screening judge within 45 days after the defendant's answer has been filed. Substantial evidence shall mean such evidence as a reasonable person might accept as adequate to support a conclusion. Admissible evidence shall include, but not be limited to, hospital and medical records, nurses' notes, x-rays, and other records kept in the usual course of the practice of the health care provider without the necessity for other identification or authentication, statements of fact or opinion on a subject contained in a published treatise, periodical, book, or pamphlet or statements by experts without the necessity of such experts appearing at the hearing. The screening judge may, upon the application of either party or upon his or her own decision, summon or subpoena any such records or individuals to substantiate or clarify any evidence which has been presented and may appoint an impartial and qualified physician or surgeon or other related professional person or expert to conduct any necessary professional or expert examination of the claimant or relevant evidentiary matter and to report to the screening judge or to testify as a witness thereto. Such a witness shall be allowed traveling expenses and a reasonable fee to be fixed by the screening judge which shall be assessed as costs. The testimony of the witness and the decision of the screening judge shall be admissible as evidence at a trial.

II. If a finding is made for the defendant or defendants in the case the plaintiff may pursue the claim through the usual judicial process only upon filing bond in the amount of \$6,000 in the aggregate secured by cash or its equivalent with the clerk of the court in which the case is pending, payable to the defendant or defendants in the case for costs assessed, including witness and experts fees and attorneys fees if the plaintiff does not prevail in the final judgment. The screening judge may, within his or her discretion, increase the amount of the bond required to be filed. If the bond is not posted within 30 days of the screening judge's finding, the action shall be dismissed. Upon motion filed by the plaintiff and a determination by the court that the plaintiff is indigent, the screening judge may reduce the amount of the bond but may not eliminate the requirement.

III. The expenses of the screening hearing and mediation shall be equitably assessed to the parties by the court.

519-B:4 Final Disposition. Upon entry of judgment, settlement, or other final disposition at trial court level, the clerk shall, no later than 15 days after such entry, send a copy of the judgment, settlement or other final disposition, to the board of medicine. The terms of judgment, settlement, or other final disposition shall not be sealed by agreement of the parties or by any other means and shall be available for public inspection, except, however, the identity of the plaintiff may be kept confidential.

519-B:5 Notification to the Board of Medicine. Whenever the tribunal makes a finding, the clerk of the court shall, no later than 15 days after such finding, send a copy of the complaint and finding to the board of medicine.

2 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill establishes a screening hearing before a superior court judge to review medical malpractice claims and mediation for claims that continue.

Rep. Dokmo spoke against.

Amendment failed.

Rep. Dokmo offered floor amendment (0955h).

Floor Amendment (0955h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the screening and mediation of medical malpractice claims.

Amend the bill by replacing all after the enacting clause with the following:

1 New Chapter; Screening and Mediation for Medical Injury Claims. Amend RSA by inserting after chapter 519-A the following new chapter:

CHAPTER 519-B**SCREENING AND MEDIATION FOR MEDICAL INJURY CLAIMS**

519-B:1 Definitions. In this chapter a "provider of health care" means a provider of health care as defined in RSA 151-C:2, XXX(a).

519-B:2 Screening Hearing and Mediation.

I. Every action at law for medical injury against a provider of health care shall be screened by a single justice of the superior court. The plaintiff shall present an offer of proof and the

screening judge shall determine if the evidence presented, if properly substantiated, is sufficient to raise a legitimate question of liability appropriate for judicial inquiry or whether the plaintiff's case is merely an unfortunate medical result.

II. All actions which continue after the decision of the screening judge under paragraph I shall be mediated within 45 days in a manner established by court rules to promote and encourage an expeditious settlement.

519-B:3 Procedure.

I. Each such action for medical injury shall be heard by the screening judge within 45 days after the defendant's answer has been filed. At the screening hearing the burden of persuasion shall be on the plaintiff to produce such evidence as a reasonable person might accept as adequate to support a conclusion. Admissible evidence shall include, but not be limited to, hospital and medical records, nurses' notes, x-rays, and other records kept in the usual course of the practice of the health care provider without the necessity for other identification or authentication, statements of fact or opinion on a subject contained in a published treatise, periodical, book, or pamphlet or statements by experts without the necessity of such experts appearing at the hearing. The screening judge may, upon his or her own decision, summon or subpoena any such records or individuals to substantiate or clarify any evidence which has been presented. The testimony of the witnesses and the decision of the screening judge shall not be admissible as evidence at a trial.

II. The expenses of the screening hearing and mediation shall be equitably assessed to the parties by the court.

519-B:4 Final Disposition. Upon entry of judgment, settlement, or other final disposition at trial court level, the clerk shall, no later than 15 days after such entry, send a copy of the judgment, settlement or other final disposition, to the board of medicine. The terms of judgment, settlement, or other final disposition shall not be sealed pursuant to RSA 507-E:3.

519-B:5 Notification to the Board of Medicine. Whenever the screening judge makes a finding, the clerk of the court shall, no later than 15 days after such finding, send a copy of the complaint and finding to the board of medicine.

2 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill establishes a screening hearing before a superior court judge to review medical malpractice claims and mediation for claims that continue.

Rep. Dokmo spoke in favor.

Floor amendment (0955h) adopted.

MOTION TO LAY ON THE TABLE

Rep. Batula moved that **HB 702-FN**, relative to the screening of medical malpractice claims, be laid on the table.

Rep. Giuda requested a roll call; sufficiently seconded.

The question being adoption of the motion to lay HB 702 on the table.

and the committee report was adopted.

Ordered to third reading.

RECONSIDERATION

Having voted with the prevailing side, Rep. Norelli moved that the House reconsider its action whereby it voted **HB 323-FN**, relative to excluding social security numbers and other information from documents filed with registries of deeds, Inexpedient to Legislate.

Reps. Patten and Stohl spoke against.

Rep. Kurk spoke in favor.

Rep. Patten requested a roll call; sufficiently seconded.

The question being adoption of the motion of reconsideration.

and reconsideration prevailed.

The question now being adoption of the committee report of Inexpedient to Legislate.

Rep. Kurk spoke against.

Rep. Patten spoke in favor and yielded to questions.

On a division vote, 149 members having voted in the affirmative and 151 in the negative, the committee report failed.

Rep. Kurk moved Ought to Pass with Amendment and offered floor amendment (0867h).

Floor Amendment (0867h)

Amend the bill by replacing all after the enacting clause with the following:

I New Sections; Registers of Deeds; Social Security Numbers and Financial Information. Amend RSA 478 by inserting after section 4-a the following new sections:

478:4-b Records; Social Security Numbers and Financial Information.

I. The preparer of a document shall not include an individual's social security number in a document that is prepared and presented for recording in the office of the register of deeds. This paragraph shall not apply to state or federal tax liens, certified copies of death certificates, and other documents required by law to contain such information that are filed or recorded in the office of the register of deeds.

II. If a deed or instrument that includes an individual's social security number, credit card number, or other financial account numbers, was filed with the register of deeds prior to January 1, 2006 and is available on the Internet, the individual may request that the register of deeds redact such information from the Internet record. The register of deeds shall establish a procedure by which individuals may request that such information be redacted from the Internet. Upon request, the information shall be redacted.

478:4-c Violation; Enforcement.

I. An individual aggrieved by a violation of RSA 478:4-b may bring against the preparer:

(a) An action to enjoin such violation.

(b) An action to recover actual monetary loss from such a violation, or to receive up to \$1,000 in damages for each such violation, whichever is greater.

(c) Both such actions.

II. It shall be an affirmative defense in any action brought under this section that the defendant has established and implemented, with due care, reasonable practices and procedures to effectively prevent a violation of RSA 478:4-b. If the court finds that the defendant willingly or knowingly or with gross negligence violated RSA 478:4-b, the court may, in its discretion, increase damages to an amount equal to not more than 3 times the amount available under paragraph I.

2 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill prohibits, with certain limited exceptions, a person from filing with the registry of deeds a document that includes an individual's social security number. The bill also permits an individual to request that the register of deeds redact the individual's social security number, credit card number, or other financial account numbers from records that were filed prior to January 1, 2006 and are available on the internet.

On a division vote, 182 members having voted in the affirmative and 116 in the negative, floor amendment (0867h) was adopted.

The question now being adoption of the motion of Ought to Pass with Amendment.

Motion adopted and ordered to third reading.

MOTION TO VACATE

Rep. Stephen L'Heureux moved that the House vacate the reference of *SB 208-FN*, relative to certification of driver education instructors, to the Committee on Education.

Motion adopted.

The Speaker referred *SB 208-FN*, relative to certification of driver education instructors, to the Committee on Transportation.

RESOLUTION

Rep. O'Neil offered the following: RESOLVED, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, April 6, 2005 at 10:00 a.m.

Adopted.

LATE SESSION

Third reading and final passage

HB 132, relative to grounds for dismissal of a teacher.

HB 346-L, relative to the procedure for withdrawal from a cooperative school district.

HB 406, revising certain provisions of the home education statutes.

HB 721, prohibiting the department of education and the state board of education from adopting a definition of an adequate education.

HB 424-FN, prohibiting the receipt of cash gifts by elected officials.

HB 255, establishing a committee to study the pricing of milk.

HB 275, defining farmers' market.

HB 432-FN, relative to the septage handling and treatment facilities grant program and the septage and sludge land application restrictions.

HB 517, establishing a committee to study certain issues relative to construction and demolition waste and establishing a moratorium on the incineration of any construction and demolition waste.

HB 56, relative to food safety in restaurants.

HB 307, establishing a committee to study the feasibility of licensing residential building and remodeling contractors.

HB 594-FN, relative to retirement system classification for department of corrections correctional line personnel.

HB 401-FN-A, making an appropriation to the Seacoast Shipyard Association.

HB 478-FN-A, making an appropriation for "Newsline for the Blind."

HB 539-FN-A-L, relative to land and community heritage investment program administration.

HB 584, relative to evidence of admissions of liability in medical injury actions.

HB 619-FN, relative to skier safety and ski area responsibility.

HB 702-FN, relative to the screening and mediation of medical malpractice claims.

HB 323-FN, relative to excluding social security numbers and other information from documents filed with registries of deeds.

UNANIMOUS CONSENT

Rep. Stone addressed the House.

Rep. Craig moved that the remarks of Rep. Joseph E. Stone be printed in the Permanent Journal. Unanimously adopted.

Rep. Stone: Thank you, Mr. Speaker. Tomorrow morning, April 1st, marks the 60th anniversary of the Battle of Okinawa. On April 1, 1945, this horrendous battle began. Several years ago when I spoke on this, I asked four individuals to stand who had participated in this battle. At that time we had Representative Leighton Pratt who served in the Navy, the late Robert Milligan who served in the Navy, Representative John Flanders, who's with us today, served in the Navy, and former Representative Leo Fraser served with the 2nd Marine Air Base.

I recall vividly that morning as I climbed over the rail of a LST, down a landing net, into a Higgins boat and then proceeded to take part in the invasion of Okinawa. On February 19th of this year, we were honored to have the honorable Representative from New London, Alf Jacobson, speak to us about the Battle of Iwo Jima. Historians have said that that was a very savage battle, but historians have also said that the bloodiest battle that took place in the Pacific theater was the Battle of Okinawa. This battle went on for five months. It was a very small island, very rough terrain. The marines and the soldiers battled furiously to take this land. I've stated before and I'll state again, this island was taken yard by yard, cave by cave, hill by hill, until the victory was secured on September 2 of that year.

27,000 Americans, soldiers, marines, airmen and sailors, either lost their lives or were wounded. 91,000 Japanese were killed. 150,000 Okinawans lost their lives on their own mainland. Over 250 American ships were either sunk or severely damaged by Japanese flyers, kamakazi flyers flying suicide missions. As I've done every year since that time, on April 1st I've said a silent prayer in honor of those who gave their lives and also a silent prayer thanking God that I was one of the survivors and that I could be here today.

In this room, we have many members of the Greatest Generation, men and women who fought and served in World War II. Mr. Speaker, with your permission, I would like to have those individuals who are here stand, if I may, sir.

Thank you, Mr. Speaker, and thank you people for giving me the privilege to speak. And to my fellow marines, "Semper Fi."

RECESS MOTION

Rep. O'Neil moved that the House stand in recess for the purpose of introduction of bills, enrolled bill amendments, enrolled bill reports and receiving Senate messages only.

Adopted.

The House recessed at 6:20 p.m.

RECESS

HOUSE JOURNAL No. 11

Wednesday, April 6, 2005

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by Guest Chaplain, Rev. Dr. David F. Dodge, Pastor of the Stratham Community Church.

Eternal and ever-present God, who was and is and evermore shall be, who brings us the changing seasons and provides us with every good thing we thank You for all the blessings You bestow upon us. As we gather in this historic place to do the work of the people, we remember those who went before us, whose work created that which sustains us, and gives us the impetus to move forward as a prosperous state.

We pray this day for our national leaders that they may continue to work toward peace and the betterment of humankind around the world. We pray for those who serve our country, both at home and abroad. Particularly, New Hampshire soldiers serving in harm's way. Keep them safe. We pray in mourning for the loss of Pope John Paul II. May his legacy of love continue to foster the prospects of peace and the light of hope in a hurting world.

Hear our prayers of love and concern, O God, for those who are ill or experiencing difficult times, be they colleagues, friends or members of our own families. May they know Your healing presence and be present to us this day, loving God. Give us wisdom in our decision-making, guidance in our deliberations, and a mindfulness for those we serve with the passion of all the prophets, we pray. Amen and amen.

Rep. Elizabeth D. Blanchard led the Pledge of Allegiance.

The National Anthem was sung by Alicia Rossman, a senior at Exeter High School.

LEAVES OF ABSENCE

Reps. Albert, Alger, Peter Cote, Kelly, Lessard, Mary Ellen Martin, Maybeck, Mulholland, Palangas, Palazzo and Ross, the day, illness.

Reps. Baines, Bicknell, William Chase, Mark Clark, Clayton, Dexter, Nancy Elliott, Donald Flanders, Hollinger, Hunt, Itse, Lawrence, Moody, Reeves, Rochette, Sanders and Francis Sullivan, the day, important business.

Reps. Hagan and Lefebvre, the day, illness in the family.

Reps. Paula Johnson and Mitchell, the day, death in the family.

INTRODUCTION OF GUESTS

Robert and Cheryl Rossman, parents of the day's singer, guests of the House. Wendy Garrity, Steven Beland, Kaitlyn Duchaine, wife, son and daughter of Rep. Patrick Garrity.

Rose Kester, mother of Rep. Marjorie Smith. Somersworth High School's Social Studies Government Class, students of Rep. Hilliard. Sabrina Avedisian, guest of Reps. Headd and McKinney. Janice Ulery, wife of Rep. Ulery. Anastasia Bult, guest of the Pembroke delegation. Members of the American Legion, Ben Talford, Jack Neylon, NH Adjutant John Zachodny, NH Past Commander Tony Rabia and Adjutant General Ken Clark of the New Hampshire National Guard, guests of the State-Federal Relations and Veterans Affairs Committee.

INTRODUCTION OF SPECIAL GUEST

Rep. Weyler moved that the remarks of Thomas P. Cadmus, the National Commander of the American Legion, be printed in the Permanent Journal.

Adopted.

REMARKS

Thomas P. Cadmus: Thank you very much and good morning, Mr. Speaker of the House, Doug Scamman and Minority Leader, James Craig, and legislators one and all. As you heard, I am Tom Cadmus. I am the National Commander of the American Legion and I represent an organization of 2.7 million nationally. I hail from the state of Michigan. I've been in your great state since Sunday and I've been from one end to the other, and I've had a very enjoyable time.

The American Legion is a veterans organization and believes in supporting our veterans, our troops and alike. But if I could, I would just like to take a moment and recognize your General, Major General now, now I believe he just got appointed to Major General, doing an excellent job, General Ken Clark. Good to see you again, sir. I would also like to recognize Richard Heon, who has done the work for me to come in here and speak to you for just a few minutes this morning. My message will be brief because I've got some legionnaires in the state of Vermont that are waiting for me to get over there. So anyway, I just have a couple observations that I've seen while being in the Granite State. And number one, I got to see your state Veterans' Cemetery. What a beautiful tribute to our veterans for their final resting area! It's wonderful, and you should be proud of that. Also, I had the opportunity to visit your state Veterans' Home. You've built on to it, it's a beautiful facility and our aging veterans, what a great place as we all get to the age of senior citizens, a great place to go and that is a true tribute to your veterans in this state again. But I'd like to add that on the national level, your veterans' home is being subsidized or being paid a per diem from the Veterans' Administration from the federal level. When the President's budget came out they were only going to pay the per diem for categories 1 through 3, and indigent 4. Well, we of the American Legion stand here to say "no." We think that these veterans homes need to be subsidized for all veterans. And I know not only would it be devastating to the State of New Hampshire, but would be devastating to the State of Michigan, and the rest. All but three states have veterans' homes, and soon there will only be two, Delaware being one that is about to build one. So, I can tell you that we of the American Legion nationally are standing pat to make sure that per diem flows to all states to support our veterans' homes.

I am pleased to hear that you are recognizing your troops that are returning this month. You know, I can't get over this. I was talking to the Adjutant General of Pennsylvania, Major General Wright, and she give me a stat that even I was shocked by. The operation in Iraq is being handled by 48%, 48% of that operation is being handled by National Guard and Reservists. That's an unbelievable figure. Never before in the course of the United States, since World War II, have we used our National Guard and Reserve components so much. It's outstanding.

Just in closing, I would like to say that we, the American Legion, especially in the state of New Hampshire, we call it the American Legion Department in New Hampshire, some 25,000 strong with its Auxiliary and the Sons of the American Legion, we do a lot of good things. Such as, and it probably relates to you more than anyone, our Boys' State and Girls' State Program which we feel is a great program to introduce young people to the political process and maybe come and join this very chamber some day. We, the American Legion, sponsor those things and enjoy doing that.

Other than that, I'll let you get back to your business here at hand in this great state. Thank you from a guy from a small town in Michigan where it's really great, what a country, that I can come here and speak to the House of Representatives of the State of New Hampshire. Thank you very much.

MEMORIAL REMARKS

Rep. Weyler moved that the remarks of Rep. Price be printed in the Permanent Journal.
Adopted.

Rep. Price: Thank you, Mr. Speaker. Dawn Nolan-Piteri, a former state representative, died on March 31st at the age of 44. She served two terms representing Nashua in the House of Representatives from 1997 to 2000. In addition to her duties here in Concord, Dawn was also very active in the Nashua community. She was a licensed nurse assistant at St. Joseph's Hospital and worked for the Home Health Care and Hospice Association. She was a Sunday school teacher at Community Chapel and worked briefly at a child learning center.

I knew Dawn for a number of years, both from her work as a state representative and from various Republican campaigns in Nashua. Dawn actually lived in my ward in Nashua. Those of you who knew her know that she was dedicated to public service, to her community and to her family. And our thoughts and prayers go out to her family and her friends at this time. Thank you.

The House stood to observe a moment of silent prayer in tribute.

ENROLLED BILL REPORT

The Committee on Enrolled Bills has examined and found correctly enrolled Senate Joint Resolution numbered 1.

Rep. Currier, Sen. D'Allesandro for the Committee

REGULAR CALENDAR

HB 66, regulating mandatory overtime for nurses. **OUGHT TO PASS WITH AMENDMENT**
 Rep. Jeffrey P. Goley for Labor, Industrial and Rehabilitative Services: This bill allows a nurse who has been working 12 consecutive hours the option to say no if asked to stay longer than his/her regularly scheduled shift without being disciplined. The committee received information showing that when nurses worked longer than 12 hours the chances of making medical error increased. The bill also allows an employer to enter into a written agreement with employees wishing to be exempted from this legislation and submitting those agreements to the Department of Labor. Vote 11-3.

Amendment (0725h)

Amend the title of the bill by replacing it with the following:

AN ACT regulating mandatory overtime for nurses and assistants.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Regulating Mandatory Overtime for Nurses and Assistants. Amend RSA 275 by inserting after section 60 the following new subdivision:

Mandatory Overtime for Nurses and Assistants**275:61 Prohibited Overtime.**

I. A registered nurse, licensed practical nurse, or a licensed nursing assistant licensed under RSA 326-B shall not be disciplined, or lose any right, benefit, or privilege for refusing to work more than 12 consecutive hours, except as provided in paragraph II. A nurse may be disciplined for refusing mandatory overtime in a case when overtime is required under paragraph II. Any nurse who is mandated to work more than 12 consecutive hours, as permitted by this subdivision, shall be allowed at least 8 consecutive hours of off-duty time immediately following the worked overtime.

II. The prohibition against mandatory overtime shall not apply to:

- (a) A nurse participating in surgery, until the surgery is completed;
- (b) A nurse working in a critical care unit, until another employee beginning a scheduled work shift relieves him or her;
- (c) A public health emergency; or
- (d) A nurse covered by a collective bargaining agreement containing provisions addressing the issue of mandatory overtime.

275:62 Special Agreement. Employers shall be exempted from the provisions of RSA 275:61 by written agreement between the employer and employee, made without coercion or pressure, provided the agreement is submitted to the commissioner of the department of labor. The agreement may be terminated by the employee by written notice to the employer and the commissioner of the department of labor. Said termination shall be effective 14 days after notice is provided.

275:63 Penalties. Any employer who willfully violates any provision of this subdivision shall be subject to a civil penalty under RSA 273:11-a.

2 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill regulates mandatory overtime for nurses and assistants and provides civil penalties.

Rep. Giuda spoke against.

Rep. Osborne spoke in favor.

Rep. Holden spoke in favor and yielded to questions.

(Deputy Speaker Weyler in the Chair)

On a division vote, 175 members having voted in the affirmative and 166 in the negative, the committee amendment was adopted.

On a division vote, 205 members having voted in the affirmative and 137 in the negative, the committee report was adopted.

Ordered to third reading.

HB 217, relative to liability of third persons under workers' compensation. **INEXPEDIENT TO LEGISLATE**

Rep. Anthony R. DiFruscia for Labor, Industrial and Rehabilitative Services: The committee believed this bill places an extra burden on the injured worker and attempts to dictate to the judi-

ciary how to handle workers compensation cases. It strikes from the statute the judge's ability to handle cases "as justice may require" and essentially ties their hands. This bill effectively boxes the judge in and does not allow him or her the flexibility or discretion needed as workers compensation cases often need. Workers' compensation all have different circumstances and should be dealt with on a case-by-case basis. This bill is the result of one court case where an insurance company lost and didn't agree with the unanimous decision of our Supreme Court. The bill is the insurance company's attempt to remedy its loss through legislation. The committee felt this one case does not merit legislation. Vote 11-2.

Committee report adopted.

HB 350, relative to enforcement of the labor protection statutes. OUGHT TO PASS WITH AMENDMENT

Rep. Randolph N.S. Holden for Labor, Industrial and Rehabilitative Services: This is a "house-keeping" bill brought to the committee by the Department of Labor. The bill allows the Commissioner to hold hearings and investigate charges of violation of the labor protection laws. In addition, the proposed legislation allows employers to recover accidental wage overpayment provided that both parties agree to the stipulations. Finally, the legislation provides for continuity with other penalty provision within labor laws. Vote 10-5.

Amendment (0836h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to enforcement of the labor protection statutes, permitting certain wage deductions, and increasing the civil penalty in the department of labor.

Amend the bill by replacing all after section 1 with the following:

2 Enforcement; Wage Claim; Department or Employee May File, Date Extended. Amend RSA 275:51, V to read as follows:

V. ~~[If an employee elects to file a wage claim under this section, the wage claim must be filed with the department no later than 18]~~ *A wage claim may be filed by an employee or by the department on its own motion no later than 36 months from the date the employee knew the wages were due.* The commissioner shall notify the employer by serving upon the employer a copy of such claim and an order to file with the commissioner within 10 days from the receipt of such notice any objections to such claim specifying the grounds therefor. Service may be by certified mail with return receipt. If objection is not made within 10 days, the commissioner may order that payment be made in accordance with the claim. If requested, a hearing shall be afforded at which time any party may appear, with counsel if desired, and present evidence and cross-examine opposing witnesses. Any party, at the party's own expense, may cause a record to be made of the hearing. A written decision shall be made within 30 days after the hearing stating the decision and specifying the facts and conclusions upon which the decision is based. If wages are found to be due, an order for payment shall issue. Any party aggrieved by the decision may appeal to the superior court not later than 20 days from the date thereof by petition, setting forth that the decision is erroneous, in whole or in part, and specifying the grounds upon which the decision is claimed to be in error. Upon the filing of an appeal, the commissioner shall transfer to the court the record of the proceeding or a certified copy thereof. The scope of review by the superior court shall be limited to questions of law. ~~[After hearing and upon consideration of the record, the court may affirm, vacate or modify in whole or in part the decision of the commissioner, or may remand the matter to the commissioner for further findings.]~~ *The superior court may confirm, reverse, or modify the commissioner's decision or conduct a trial de novo, if it finds any error of law.* In the absence of a seasonable appeal, the decision and order shall be final, shall be entered upon the docket of the superior court at the request of the prevailing party, may be enforced as a judgment of the court, and shall be a lien upon the property of the employer situated in the state for a period of 3 years from the time of the decision. It is a requirement of this chapter for purposes of RSA 275:52 that a final order be immediately satisfied by the employer.

3 New Subparagraphs; Withholding of Wages; Deductions Allowed. Amend RSA 275:48, I by inserting after subparagraph (d)(2) the following new subparagraphs:

(3) Voluntary installment payments of legitimate loans made by the employer to the employee as evidenced by a document that includes the following:

(A) The time the payments will begin and end.

(B) The amounts to be deducted.

(C) A specific agreement regarding whether the employer is allowed to deduct any amount outstanding from final wages at the termination of employment.

(4) Voluntary payments for the recovery of accidental overpayment of wages when the following conditions are met:

(A) The recovery is agreed to in writing.

(B) The deduction for the overpayment begins one pay period following the date the parties execute the written agreement.

(C) The written agreement specifies:

(i) The date the recovery of the overpayment will begin and end.

(ii) The amount to be deducted, which shall be agreed upon by the employer and the employee but which shall, in no event, be more than 20 percent of the employee's gross pay in any pay period.

(iii) A specific agreement regarding whether the employer is allowed to deduct any amount outstanding from final wages at the termination of employment.

(5) Voluntary payments for the recovery of tuition for non-required educational costs paid by the employer for the employee to an educational institution when the specific deduction is authorized in writing prior to the deduction as evidenced by a document that includes the following:

(A) The time the payments will begin and end.

(B) The amounts to be deducted.

(C) A specific agreement regarding whether the employer is allowed to deduct any amount outstanding from final wages at the termination of employment.

(6) Voluntary payments for vacation pay, paid time off pay, earned time pay, personal time pay, annual pay, sick pay, sick dependent pay, and bereavement pay pursuant to a written employment policy as required by RSA 275:49, III, when requested and paid to the employee in advance of eligibility and when the employee agrees in writing without coercion or pressure to allow the employer to deduct the amount owed from his or her final wages at the termination of employment.

4 Civil Penalties; Maximum Increased. Amend RSA 273:11-a, I to read as follows:

I. In addition to any criminal penalty provided under this title, the commissioner may, after hearing, impose a civil penalty not to exceed ~~[\$1,000]~~ **\$2,500**, as determined by the commissioner, for any violation of any of the provisions of this title or of any rule adopted pursuant to this title. Any person on whom a penalty is imposed under this section may appeal as provided in RSA 273:11-c and 273:11-d. All moneys collected under this section shall be deposited in the general fund.

5 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill:

I. Empowers the commissioner to hold hearings and investigate charges of violations of the labor protection statutes either on his or her own motion or on an employee complaint.

II. Adds the department of labor as a party entitled to initiate a wage claim and extends the period in which to file a wage claim from 18 months to 36 months.

III. Allows voluntary deductions from wages for loans, accidental overpayments, tuition, and certain time off.

IV. Increases the civil penalty that the commissioner may impose from \$1,000 to \$2,500.

Rep. Holden spoke against.

Amendment failed.

Rep. Holden offered floor amendment (0916h).

Floor Amendment (0916h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to enforcement of the labor protection statutes, permitting certain wage deductions, and increasing the civil penalty in the department of labor.

Amend the bill by replacing all after section 1 with the following:

2 Enforcement; Wage Claim; Department or Employee May File, Date Extended. Amend RSA 275:51, V to read as follows:

V. ~~[If an employee elects to file a wage claim under this section, the wage claim must be filed with the department no later than 18]~~ **A wage claim may be filed by an employee or by the de-**

*partment on its own motion no later than 36 months from the date the employee knew the wages were due. The commissioner shall notify the employer by serving upon the employer a copy of such claim and an order to file with the commissioner within 10 days from the receipt of such notice any objections to such claim specifying the grounds therefor. Service may be by certified mail with return receipt. If objection is not made within 10 days, the commissioner may order that payment be made in accordance with the claim. If requested, a hearing shall be afforded at which time any party may appear, with counsel if desired, and present evidence and cross-examine opposing witnesses. Any party, at the party's own expense, may cause a record to be made of the hearing. A written decision shall be made within 30 days after the hearing stating the decision and specifying the facts and conclusions upon which the decision is based. If wages are found to be due, an order for payment shall issue. Any party aggrieved by the decision may appeal to the superior court not later than 20 days from the date thereof by petition, setting forth that the decision is erroneous, in whole or in part, and specifying the grounds upon which the decision is claimed to be in error. Upon the filing of an appeal, the commissioner shall transfer to the court the record of the proceeding or a certified copy thereof. ~~[The scope of review by the superior court shall be limited to questions of law. After hearing and upon consideration of the record, the court may affirm, vacate or modify in whole or in part the decision of the commissioner, or may remand the matter to the commissioner for further findings.]~~ **The superior court may confirm, reverse, or modify the commissioner's decision or conduct a trial de novo, as justice may require.** In the absence of a seasonable appeal, the decision and order shall be final, shall be entered upon the docket of the superior court at the request of the prevailing party, may be enforced as a judgment of the court, and shall be a lien upon the property of the employer situated in the state for a period of 3 years from the time of the decision. It is a requirement of this chapter for purposes of RSA 275:52 that a final order be immediately satisfied by the employer.*

3 New Subparagraphs; Withholding of Wages; Deductions Allowed. Amend RSA 275:48, 1 by inserting after subparagraph (d)(2) the following new subparagraphs:

(3) Voluntary installment payments of legitimate loans made by the employer to the employee as evidenced by a document that includes the following:

(A) The time the payments will begin and end.

(B) The amounts to be deducted.

(C) A specific agreement regarding whether the employer is allowed to deduct any amount outstanding from final wages at the termination of employment.

(4) Voluntary payments for the recovery of accidental overpayment of wages when the following conditions are met:

(A) The recovery is agreed to in writing.

(B) The deduction for the overpayment begins one pay period following the date the parties execute the written agreement.

(C) The written agreement specifies:

(i) The date the recovery of the overpayment will begin and end.

(ii) The amount to be deducted, which shall be agreed upon by the employer and the employee but which shall, in no event, be more than 20 percent of the employee's gross pay in any pay period.

(iii) A specific agreement regarding whether the employer is allowed to deduct any amount outstanding from final wages at the termination of employment.

(5) Voluntary payments for the recovery of tuition for non-required educational costs paid by the employer for the employee to an educational institution when the specific deduction is authorized in writing prior to the deduction as evidenced by a document that includes the following:

(A) The time the payments will begin and end.

(B) The amounts to be deducted.

(C) A specific agreement regarding whether the employer is allowed to deduct any amount outstanding from final wages at the termination of employment.

(6) Voluntary payments for vacation pay, paid time off pay, earned time pay, personal time pay, annual pay, sick pay, sick dependent pay, and bereavement pay pursuant to a written employment policy as required by RSA 275:49, III, when requested and paid to the employee in advance of eligibility and when the employee agrees in writing without coercion or pressure to allow the employer to deduct the amount owed from his or her final wages at the termination of employment.

4 Civil Penalties; Maximum Increased. Amend RSA 273:11-a, I to read as follows:

I. In addition to any criminal penalty provided under this title, the commissioner may, after hearing, impose a civil penalty not to exceed [~~\$1,000~~] **\$2,500**, as determined by the commissioner, for any violation of any of the provisions of this title or of any rule adopted pursuant to this title. Any person on whom a penalty is imposed under this section may appeal as provided in RSA 273:11-c and 273:11-d. All moneys collected under this section shall be deposited in the general fund.

5 Effective Date. This act shall take effect January 1, 2006.

AMENDED ANALYSIS

This bill:

I. Empowers the commissioner to hold hearings and investigate charges of violations of the labor protection statutes either on his or her own motion or on an employee complaint.

II. Adds the department of labor as a party entitled to initiate a wage claim and extends the period in which to file a wage claim from 18 months to 36 months.

III. Allows voluntary deductions from wages for loans, accidental overpayments, tuition, and certain time off.

IV. Increases the civil penalty that the commissioner may impose from \$1,000 to \$2,500. Floor amendment (0916h) adopted.

Report adopted and ordered to third reading.

HB 665-FN-L, relative to the applicable minimum wage for hourly employees. OUGHT TO PASS WITH AMENDMENT

Rep. Benjamin C. Baroody for Labor, Industrial and Rehabilitative Services: This was a good compromise that most people could live with. The amendment would give a one dollar increase after two years. Fifty cents September 1, 2005 and fifty cents September 1, 2006. The committee heard a wide range of testimony and felt it was time. Vote 11-2.

Amendment (0853h)

Amend the introductory paragraph of RSA 279:21 as inserted by section 1 of the bill by replacing it with the following:

279:21 Minimum Hourly Rate. Unless otherwise provided by statute, no person, firm, or corporation shall employ any employee at an hourly rate lower than that set forth in the federal minimum wage law, as amended, or as follows, whichever is higher:

Date	Hourly Rate
[April 1, 1991 to September 30, 1996	\$4.25
October 1, 1996 to August 31, 1997	\$4.75]
On and after September 1, 1997	\$5.15
<i>On and after September 1, 2005</i>	<i>\$5.65</i>
<i>On and after September 1, 2006</i>	<i>\$6.15</i>

Tipped employees of a restaurant, hotel, motel, inn or cabin, who customarily and regularly receive more than \$20 a month in tips directly from the customers will receive a base rate from the employer of not less than \$2.38 per hour. With any change to the minimum wage after the effective date of this section, the employer is responsible to pay employees \$2.38 per hour or 45 percent of the applicable minimum wage whichever is higher. If an employee shows to the satisfaction of the commissioner that the actual amount of wages received at the end of each pay period did not equal the minimum wage for all hours worked, the employer shall pay the employee the difference to guarantee the applicable minimum wage. The limitations imposed hereby shall be subject to the following exceptions:

Amendment adopted.

Rep. Adams spoke against and yielded to questions.

Rep. Marjorie Smith spoke in favor and yielded to questions.

Rep. Phyllis Katsakiores spoke against.

Reps. Holden and Norelli spoke in favor.

Rep. Mirski requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

--------------------	-------------------	--------------------

and the committee report was adopted.

Ordered to third reading.

HB 392-FN, increasing the mileage reimbursement rate for members of the legislature. **OUGHT TO PASS**

Rep. Betsy McKinney for Legislative Administration: In the past century, mileage rates for the state plan have been addressed and increased to keep pace with costs every 10 years. However, after 1979 when they set the current rate, 38 cents per mile and 19 cents per mile in excess of 45 miles, no one looked at the issue in 1989 or 1999. We heard testimony that this poses a real hardship for those who come to Concord from the North Country or those that stay overnight. The bill changes the mileage rate to 76 cents per mile and 38 cents per mile, and makes it effective in the next session, January 1, 2007. We did hear testimony that the rate adjusted for inflation really should be 99 cents per mile, but the committee declined that amount and the legislature can look at it again in 2009. Vote 10-1.

On a division vote, 253 members having voted in the affirmative and 87 in the negative, the committee report was adopted.

Ordered to third reading.

HCR 10, recognizing February 8, 2005 as Scouting in New Hampshire day. **OUGHT TO PASS**

Rep. Paul C. Smith for Legislative Administration: The Boy Scouts of America is an organization that on February 5, 2005 turned ninety-five-years old. In those 95 years, scouting has made great leaders out of boys including astronauts, presidents, actors, businessmen, philanthropists-the list goes on and on. While some view the Boy Scouts as discriminatory, it remains a private organization that has withstood countless legal battles with the ultimate goal of instilling morals and character in its membership. This resolution has bi-partisan support, as it should, because Scouts come from all walks of life, regardless of party, station, etc. This resolution does one thing, commends the Boy Scouts for one day. That does not seem unacceptable. Vote 7-4.

Committee report adopted and ordered to third reading.

HB 90, relative to private driving instruction and exhibition facilities. **MAJORITY: INEXPE- DIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Harry S. Gale for the Majority of Municipal and County Government: The bipartisan majority feels that this bill does not need further action by this legislature. The issue that precipitated this bill was legislative intervention last session. This committee strongly feels that this is a local issue and the committee will not play the role of arbiter. The fact that the legislature intervened last year has absolutely nothing to do with the substance of the matter. This issue needs to be addressed at the local level with all the tools that the legislature has given those local communities to deal with any and all land use issues at the local level. Due process will provide for any appeal if that is deemed appropriate or necessary. Vote 14-5.

Rep. Nancy K. Johnson for the Minority of Municipal and County Government: The committee heard overwhelming public testimony in support of HB 90. This bill repeals RSA 287-G enacted last year,

which exempts "private driving instructions and exhibition facilities" from municipal regulation under RSA 31:41-a and RSA 31:42. The bill is not about Tamworth. While last year's changes were advocated by representatives of the proposed Tamworth race track and had the most immediate impact there, they removed the ability of any municipality to apply a local race track ordinance. The minority believes that it is a dangerous precedent for the legislature to take away local control. Passing HB 90 would restore local control which is so vital to the New Hampshire way.

Rep. Merrow spoke against.

Reps. Dowd and Stohl spoke in favor and yielded to questions.

Reps. Schmidt and Dickinson spoke against and yielded to questions.

Rep. Buhlman spoke in favor.

Rep. Merrow requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the committee report failed.

Rep. Merrow moved Ought to Pass with Amendment and offered floor amendment (0924h).

Floor Amendment (0924h)

Amend the bill by replacing section I with the following:

1 Repeal. RSA 287-G:1, II, relative to private driving instruction and exhibition facilities not being considered race tracks for the purposes of RSA 31:41-a or RSA 31:42, is repealed.

Rep. Merrow spoke in favor and requested a roll call; sufficiently seconded.

The question being adoption of floor amendment (0924h).

and floor amendment (0924h) was adopted.
Motion of Ought to Pass with Amendment adopted.
Ordered to third reading.
The House recessed at 12:40 p.m.

RECESS

(Speaker Scamman in the Chair)

The House reconvened at 1: 40 p.m.

HB 233-FN-L, relative to reimbursement for police assistance provided to schools within a cooperative school district or an authorized regional enrollment area school. **MAJORITY: INEXPE-DIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Harry S. Gale for the Majority of Municipal and County Government: The town of Langdon is the smallest community with the Fall Mountain Regional School District. However, the regional high school was built in that town and based on the requirement that law enforcement within a town is implemented through and the responsibility of the local police department, there is disagreement among the towns that are part of the school district as to whether the town of Langdon has the full responsibility for paying for the law enforcement for the high school. A temporary solution was found when a school resource office was funded through a Cops Grant from the federal government. Now that this program is in its fourth year, the disagreement regarding the funding of a law enforcement officer is coming back. This bill proposes to require that the municipalities within the school district reimburse the town of Langdon for not less than 180 days during the school year at a rate of \$300 per diem. Whenever this type of requirement is made by the state to a local situation the unfunded mandated provision in our constitution in Part I Article 28-a must be considered. The committee urges the local governing bodies to resolve this disagreement so the students' safety and well-being will be constant. Vote 14-4.

Rep. Peter B. Schmidt for the Minority of Municipal and County Government: Ideally, arrangements for mutually beneficial services should be paid for on a fairly shared basis, and the agree-ment should be negotiated voluntarily among the affected parties. When, in the real world, a majority among such parties refuses to negotiate and unfairly leaves the payment of the said ser-vices to the minority, it is not inappropriate for a higher authority to intervene and compel a mutually and fairly shared arrangement. That was the premise of HB 233-FN-L. A minority of the committee members agreed with the bill's concept and would have preferred to see the state in-volve itself in reaching an equitable solution.
Majority committee report adopted.

HB 69, relative to property rights and large groundwater withdrawals. **OUGHT TO PASS WITH AMENDMENT**

Rep. Judith T. Spang for Resources, Recreation and Development: This bill as amended makes changes in the large groundwater withdrawal permits process to improve its transparency for the benefit of both the applicant and municipalities in which the withdrawal is to occur. Communica-tions are improved and a public hearing is established at the point when all relevant information on the application has been submitted by all parties. The bill also corrects inconsistencies between this permitting process and other water permits by providing for appeal of department decisions through the water council. Vote 18-1.

Amendment (0875h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to large groundwater withdrawals.

Amend the bill by replacing all after the enacting clause with the following:

I Approval for Large Groundwater Withdrawals; Municipal Information. Amend RSA 485-C:21, II to read as follows:

II. Applications for approval of water withdrawals of 57,600 gallons or more per day shall be filed with the department [in] on a form approved by the department. A preliminary report sub-mitted by a public water system pursuant to department rules shall be an application for purposes

of this section. Copies of the application *and any subsequent materials submitted to the department* shall be forwarded by certified mail by the applicant to the governing bodies of each municipality and each supplier of water within the anticipated zone of contribution to the well. *The department shall provide the governing body of each municipality with copies of any mailed correspondence sent to the applicant. The department shall provide the applicant with copies of any mailed correspondence sent to or received from the governing body of a municipality.*

2 New Paragraph; Approval for Large Groundwater Withdrawals; Hearing. Amend RSA 485-C:21 by inserting after paragraph V the following new paragraph:

V-a. Upon the request of the governing body of a municipality within the anticipated zone of contribution, the department shall hold a public hearing, after receipt of the final report, and prior to a final decision. The department shall notify the municipalities within 10 days of receiving the final report. The municipalities shall have 15 days within which to request a public hearing. Notice and response to hearing requests shall be the same as that required under paragraph IV.

3 Appeals. RSA 485-C:21, VI is repealed and reenacted to read as follows:

VI. Decisions of the department may be appealed in accordance with RSA 21-O:7, IV.

4 New Paragraph; Public Record. Amend RSA 485-C:21 by inserting after paragraph VI the following new paragraph:

VII. Records of public hearings shall be available pursuant to RSA 91-A.

5 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

I. Requires the department to provide each municipality with a copy of any correspondence sent to an applicant and to provide the applicant with copies of correspondence to an from a municipality.

II. Requires a public hearing prior to the issuance of a decision on an application for a large groundwater withdrawal.

III. Makes the record of a public hearing on a large groundwater withdrawal subject to RSA 91A. Amendment adopted.

Committee report adopted and ordered to third reading.

Rep. Soltani declared a conflict of interest and did not participate.

HB 322-FN, relative to the registration fees and requirements for snow traveling vehicles. INEXPEDIENT TO LEGISLATE

Rep. David P. Currier for Resources, Recreation and Development: Under current law both residents and non-residents receive a \$30.00 discount on the registration fee of their snowmobiles each year, if they are a member of one of the 120 NHSA affiliated clubs. This law was passed in 2002 to encourage club membership which now provides annually some 56,000 hours of volunteer labor to maintain over 6,900 miles of groomed snowmobile trails in the state and helps fund the club's share of the grant-in-aid programs which split the cost of grooming equipment with the state. A 2003 study by Plymouth State University determined that snowmobile parties directly spent about \$453 million dollars each year, with the total impact from all snowmobile related spending of almost \$1.2 billion. Without this income many north country businesses would suffer during the winter months. In 2003 and 2004, attempts were made to repeal this law which were soundly defeated in the House. Because of the success demonstrated by this New Hampshire snowmobile program, the states of New York, Michigan, and Wyoming are trying to follow our example. Vote 14-4. Committee report adopted.

HB 525, establishing a committee to study the leasing of state-owned conservation land to private entities and relative to a temporary prohibition on the leasing of such lands. INEXPEDIENT TO LEGISLATE

Rep. David P. Currier for Resources, Recreation and Development: This bill would have established a committee to study the leasing of state-owned conservation land to private entities and prohibits any department, agency, or political subdivision of the state from initiating, altering, or executing a lease of state-owned conservation land to a private entity until the study committee has submitted its final report, or until November 1, 2006, whichever is later. The subject matter was so related to another piece of legislation before the committee (House Bill 419) that the committee decided to recommend Inexpedient to Legislate on this bill to concentrate its' efforts on House Bill 419. Vote 19-0. Committee report adopted.

HB 520, relative to the USA Patriot Act. **INEXPEDIENT TO LEGISLATE**

Rep. Pamela D. Coughlin for State-Federal Relations and Veterans Affairs: The majority of the committee believes that the State of New Hampshire cannot nullify a federal law through a House Bill. This type of legislation should be done through a House Resolution. Vote 10-3. Committee report adopted.

HB 453-FN, relative to boat launch access and parking without charge at Hampton and Rye harbors for persons 65 years of age or older. **INEXPEDIENT TO LEGISLATE**

Rep. Benjamin E. Parker for Ways and Means: This bill would have codified free boat launch access and parking for persons 65 years of age or older at these two harbor facilities only. Responsibility for these harbors was recently transferred from the Department of Resources and Economic Development (DRED) to the Pease Development Authority and at that time the fees were enforced. Upon research, it was determined that at no time had DRED been authorized to waive these fees. Further, the committee believes no compelling policy consideration warranted waiving these fees for this segment of the population. Vote 16-3. Committee report adopted.

HB 601-FN, allowing businesses to apply the investment tax credit to contributions made to scholarship funding organizations. **INEXPEDIENT TO LEGISLATE**

Rep. Benjamin E. Parker for Ways and Means: This bill included a number of policy issues related to education finance and vouchers in the form of scholarships. However, the committee focused only on the revenue policy aspect of the bill. The bill allowed the taxpayer a partial credit against taxes for amounts contributed to a "scholarship funding organization." This organization would then, at its discretion, grant scholarships to students with the understood purpose of defraying education tuition costs. Upon taxpayer initiative, the bill would have taken revenues otherwise bound for the general fund and dedicated them to an organization beyond the control and auspices of the legislature. Despite any other possible merits of this bill, the committee believes that diverting revenue from the general fund for this purpose and removing the legislature from the appropriation process is inappropriate policy. Vote 15-0. Committee report adopted.

HB 305, relative to amended warrant articles on official ballots. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Nancy K. Johnson for the Majority of Municipal and County Government: The bill would require that in every official ballot municipality, any warrant article that is amended at the deliberative session, both the original and the amended article, would be put on the ballot. The result of this would mean that potentially the number of warrant articles before the voters would double. The voters would be confronted with the volume of conflicting articles. In addition when municipalities voted in the official ballot, they did so with the understanding that warrant articles could be amended at the deliberative session. To change this would mean we would be changing a basic principle of official ballot municipalities. Vote 10-7.

Rep. Laurie J. Boyce for the Minority of Municipal and County Government: In an official ballot town, a warrant article may be changed during the deliberative session that is not well attended due to a variety of reasons – when the meeting is held, the length of the meeting and the lack of involvement at the local level. The idea of having an official ballot referendum type of government was to get more voters involved in the process. It dramatically increased the attendance at the polls, but not attendance at the deliberative session. Now during that session a warrant article can be totally changed to have the opposite meaning of the original warrant article. This bill would require that both articles – the original and the amended version – be placed on the ballot with a place to mark the voter's preference beside each question. The minority feels that having both articles on the ballot would create a better situation and not disenfranchise the voters.

Rep. Hawkins spoke against.

Rep. Nancy Johnson spoke in favor.

Rep. O'Brien requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

RESOLUTION

Reps. O'Neil and Craig offered the following: **RESOLVED**, that late drafting and introduction having been approved by the Rules Committee, House Concurrent Resolution numbered 11, establishing joint rules for committees of conference for the 2005 and 2006 sessions of the New Hampshire general court, shall be by this resolution read a first and second time by the therein listed title. Adopted.

INTRODUCTION OF HCR 11**First and second reading**

HCR 11, establishing joint rules for committees of conference for the 2005 and 2006 sessions of the New Hampshire general court. (W. D. Scamman, Rock 13; Eaton, Dist 10)

SUSPENSION OF RULES

Reps. O'Neil and Craig moved that the Rules be so far suspended as to permit consideration at the present time, of **HCR 11**, establishing joint rules for committees of conference for the 2005 and 2006 sessions of the New Hampshire general court.

Adopted by the necessary two-thirds.

CONSIDERATION OF HCR 11

HCR 11, establishing joint rules for committees of conference for the 2005 and 2006 sessions of the New Hampshire general court.

Rep. O'Neil moved Ought to Pass.

Rep. Hughes spoke against.

Rep. Soltani spoke in favor.

Reps. Pratt and Hess spoke in favor and yielded to questions.

The question being adoption of the motion of Ought to Pass.

On a division vote, 261 members having voted in the affirmative and 80 in the negative, the motion of Ought to Pass was adopted.

Ordered to third reading.

REGULAR CALENDAR (CONT'D.)

HB 417, relative to petitions for municipal charter revisions. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. John P. Dowd for the Majority of Municipal and County Government: This bill would lower the bar for the number of signatures needed for the revision of or initiation of a town charter form of government from 20% of the number of votes cast in the last regular municipal election to 500 signatures. There is nothing more sacred than the form of government of a community and there is a lot of time and dollars involved in a charter revision. The number of signatures should be difficult enough so that it can not be done without due diligence. Vote 14-3.

Rep. Paul R. Hopfgarten for the Minority of Municipal and County Government: This bill would set a maximum number of signatures required for charter amendments or charter commissions.

Whereas warrant articles have a maximum number of signatures (25) needed to place on the warrant, it was felt by the minority that having a maximum of 500 signatures of registered voters for a charter change was reasonable and prudent. The current law of 20% of the voters in the last municipal election is a volatile standard which could fluctuate significantly year to year. This bill does not change the fact that voter approval is still necessary at a separate election to approve any changes to a charter, and 3 votes are needed to affect a new charter; one to approve a commission, one to elect said commission, and one to approve the new charter. This bill sets an equitable standard for securing petition signatures
Majority committee report adopted.

HB 314-FN, requiring public restrooms in the division of motor vehicles. **INEXPEDIENT TO LEGISLATE**

Rep. Paul C. Smith for Public Works and Highways: This bill was an important topic of discussion for this committee and one that was not taken lightly. The bill requires public restrooms in all Department of Motor Vehicle buildings around the state. While the majority did not disagree with adding restroom facilities to the premises, at this time it is not appropriate or fiscally sound. During the hearing and afterward, committee members asked very tough questions of the Department of Safety. Since the hearing, the department has agreed that in the future, when planning to lease a facility, they will not consider any location without restroom facilities available to the public. Of the existing Department of Motor Vehicle facilities, a few share the building with State Police barracks and the department testified that to open the restrooms would allow the public to enter restricted areas and to fix this problem in those barracks could cost between 50,000 to 100,000 dollars or more in each case. In addition, several facilities that had public restroom facilities were forced to close them due to extreme vandalism and the cost of repair. The debate over this bill was not whether it should pass; it was over retention, or inexpedient to legislate, with the minority of the committee contending that to have legislation on hand would hold the department accountable. The majority of the committee believed that just as the department was willing to comply with the notion to not consider any new locations or leases without a restroom facility, so will they be willing to comply with other ideas such as listing facilities with restrooms on all renewal notices and such. Again, this committee took a hard look at this bill and asked the questions that needed to be asked and we believe that the department is willing to change its practices without legislative mandate. Vote 10-7.

Rep. Weare spoke against.

Rep. Chandler spoke in favor and yielded to questions.

Committee report adopted.

(Deputy Speaker Weyler in the Chair)

HB 419, relative to the Mount Sunapee ski area boundary and lease terms. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Richard T. Cooney for the Majority of Resources, Recreation and Development: This bill would suspend any action on the proposed expansion of the Mt. Sunapee State Park Lease until a study committee files a report on November 1, 2006. The legislature in 1997 authorized a lease of the ski operations at Mt. Sunapee to a private operator and gave oversight of the lease to the Department of Resources and Economic Development (DRED) and the Governor and Council. The majority of the committee supports ITL because we are convinced that any proposed changes in the ski area lease should remain with DRED and the Governor and Council following the recommendation of the Department of Resources and Economic Development as outlined in the original lease. Vote 12-9.

Rep. Dennis F. Abbott for the Minority of Resources, Recreation and Development: This bill seeks to resolve an issue regarding the intent of the legislature when it authorized the lease of the Mount Sunapee ski area. It is the belief of the Minority that the legislature did not grant to the Department of Resources and Economic Development the ability to approve the expansion of operations beyond the existing ski area described in the lease and operating agreement, nor did the legislature contemplate any expansion that would primarily benefit a private real estate development. Rather, the type of expansion contemplated by the legislature was one that would benefit the general public. The minority does not dispute the testimony that Okemo Mountain, Inc. has operated Sunapee in a profitable manner, and has no issue with any associated housing

development on private land. However, many individuals and organizations testifying before the committee questioned devoting state resources to benefit a private real estate development. The Minority maintains that legislative intent must be determined to ensure that the proper process is observed, and the rights and privileges of all our citizens wishing to use the park for multiple purposes are protected.

Reps. Spang and Abbott spoke against and yielded to questions.

Rep. Kurk spoke against.

Reps. Dickinson, Chandler and King spoke in favor.

Rep. David Campbell spoke in favor and yielded to questions.

(Speaker Scamman in the Chair)

Rep. Dickinson requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

and the majority committee report was adopted.

HB 333, relative to the rights of citizens. INEXPEDIENT TO LEGISLATE

Rep. Richard F. Heon for State-Federal Relations and Veterans Affairs: The majority of the committee believes that no matter how noble enough in concept this bill relative to the rights of citizens would have far reaching unintended consequences. The analysis of this bill affirms the right of the people of this state to choose their political status in human society. The bill also provides that no government shall exercise any compelled performance upon an American citizen. The majority believes that rather than expanding the rights of law abiding citizens, this is a mischievous bill that would work to the detriment of law-abiding citizens. Vote 7-6.

Rep. Marple spoke against.

Rep. Heon spoke in favor.

Committee report adopted.

(Deputy Speaker Weyler in the Chair)

HB 513, relative to motor vehicle inspection stations. OUGHT TO PASS WITH AMENDMENT

Rep. Brenda L. Ferland for Transportation: These are the changes the committee is recommending based on the contract that the state has entered into. 1.) There shall be either a telephone number or internet site by the Department of Safety reserved exclusively for citizen's complaints. 2.) No inspection station may charge more than \$15 for the EPA OBD II test. 3.) The OBD inspection is required on any model year 1996 and newer, gasoline powered and model year 1997 and newer diesel. 4.) If a vehicle fails OBD test and passes all other inspection requirements, then it shall be issued a temporary waiver that permits its operation for 60 days, in order to make required repairs. Only one waiver shall be issued during its inspection cycle. If the cost of the required repairs is more than \$250 as determined, the vehicle shall be issued an inspection sticker provided that a vehicle may not

be issued more than two consecutive inspection stickers, and no sticker shall be issued after a third consecutive OBD II indication of failure. 5.) If a vehicle fails the OBD test and the owner fails to make the required repairs, the owner may not sell the vehicle without informing the purchaser of failure. If the owner fails to inform the purchaser of the OBD failure, the purchaser shall be entitled to a refund of the purchase price and reasonable attorney fees. 6.) An established OBD II advisory committee consists of three representatives, two senators, Director of the Division of Motor Vehicles of the Department of Safety, Attorney General or designee, one member of the N.H. Automobile Dealer Association, one member of the N.H. Motor Transport Association, one member of D.E.S. The committee shall review and approve any contracts between the state and any private entities relating to OBD II testing and oversee any contracts relating to OBD II. The department shall not enter into any contract for services relating to OBD II testing prior to approval of the committee. Exemptions: Motor vehicle stations that do less than 200 inspections per year. Stations that inspect motorcycles only, private fleet vehicles, and municipalities shall not be required to pay any fee to a private entity for inspection related services pursuant to any contract executed by the state or the Department of Safety prior to the effective date of this act. Vote 9-0.

Amendment (0798h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to on-board diagnostic system inspections.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Department of Safety; Duties of Commissioner; Complaints. Amend RSA 21-P:4 by inserting after paragraph XI the following new paragraph:

XII. Establish an easily accessible mechanism for citizens to file complaints with the department relating to on-board diagnostic system testing required by RSA 266:59-b. The complaint mechanism shall include either a telephone number reserved exclusively for such complaints or an Internet site for such complaints that may be accessed through links prominently displayed on Internet sites operated by the department or the state.

2 Equipment of Vehicles; Inspections; Fees. Amend RSA 266:1, VII to read as follows:

VII. Each inspection station shall conspicuously post on the outside of the building a sign showing the inspection fee charged. *No inspection station may charge more than \$15 for the EPA OBD II test required by RSA 266:59-b.*

3 Emission Control Equipment; OBD II Testing Required. Amend RSA 266:59-b, III-V to read as follows:

III. ~~[For all model year 1996 and newer gasoline-powered and model year 1997 and newer diesel-powered motor vehicles equipped with on-board diagnostic systems meeting the federal EPA OBD II standards;]~~ The commissioner, after public hearing and consultation with the commissioner of the department of environmental services and the air pollution advisory committee, and notification of the house science, technology, and energy committee and the senate environment committee, and with the approval of the air pollution advisory committee, shall adopt rules under RSA 541-A, which require ~~[every motor vehicle]~~ *all model year 1996 and newer gasoline-powered and model year 1997 and newer diesel-powered motor vehicles equipped with on-board diagnostic systems meeting the federal EPA OBD II standards* driven on the ways of this state which ~~[is]~~ *are* subject to inspection under this chapter, after a date specified by the commissioner, to be tested for OBD II indications of failures as a component of the inspection. *The test for OBD II indications of failure shall be conducted only after the inspection required by RSA 266:1 is completed.* To the extent allowed by EPA OBD II policy, OBD II data may be substituted for visual and functional tests required by paragraph I.

IV. *(a)* This section shall not apply to vehicles 20 or more model years old which shall be determined by subtracting the model year of the vehicle from the calendar year in which the inspection occurs.

(b) Vehicles of a model year within 4 years of the date of inspection with an odometer reading of less than 80,000 miles shall be exempt from the OBD II testing requirements under paragraph III.

V. If a vehicle fails the EPA OBD II test and it passes all other inspection requirements under this chapter, then it shall be issued a temporary waiver that permits its operation for 60 days from the date of issuance, in order to make required repairs. A vehicle shall be eligible for only one such waiver during its inspection cycle. *If the cost of the required repairs is more than \$250, as determined by the inspection station or by written estimate from any other inspection station,*

the vehicle shall be issued an inspection sticker, provided that a vehicle may not be issued more than 2 consecutive inspection stickers based on the cost of repairs and no inspection sticker shall be issued to any vehicle registering a third consecutive OBD II indication of failure.

VI. If a vehicle fails the EPA OBD II test and the owner fails to make the required repairs, the owner may not sell the vehicle without informing the purchaser of the OBD II failure. If the owner fails to inform the purchaser of the OBD II failure, the purchaser shall be entitled to a refund of the purchase price and reasonable attorney's fees.

VII.(a) There is established an OBD II testing advisory committee. The committee shall be composed of the following:

- (1) Three representatives, appointed by the speaker of the house of representatives.
- (2) Three senators, appointed by the president of the senate.
- (3) The director of the division of motor vehicles of the department of safety.
- (4) The attorney general, or designee.
- (5) One member appointed by the New Hampshire Automobile Dealers Association.
- (6) One member appointed by the New Hampshire Motor Transport Association.

(b) Members' terms shall be coterminous with their terms in office, except that members appointed pursuant to subparagraphs (a)(5) and (a)(6) shall serve at the discretion of the appointing authority.

(c) The committee shall:

(1) Review and approve any contracts between the state and any private entities relating to OBD II testing.

(2) Oversee any contracts between the state and any private entities relating to OBD II testing.

(d) The department shall not enter into any contract for services related to OBD II testing, or extend or renew any contract for services related to OBD II testing, without the prior approval of the committee.

4 Fees for Inspection-Related Services; Exemptions. Motor vehicle inspection stations that are authorized to inspect only motorcycles or private fleet vehicles and motor vehicle inspection stations operated by municipalities shall not be required to pay any fees to a private entity for inspection-related services pursuant to any contract executed by the state or the department of safety prior to the effective date of this act.

5 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

I. Limits the fees that motor vehicle inspection stations may charge for EPA OBD II tests.

II. Modifies the applicability of the OBD II testing requirements.

III. Allows an inspection sticker to be issued to a vehicle if repairing an OBD II failure will cost more than \$250.

IV. Requires notice of an OBD II failure by a motor vehicle seller.

V. Establishes an advisory committee to approve and oversee contracts relating to OBD II testing.

VI. Exempts certain inspection stations from paying fees to a private entity for inspection-related services.

MOTION TO LAY ON THE TABLE

Rep. Marple moved that **HB 513**, relative to motor vehicle inspection stations, be laid on the table, and the motion failed.

The question now being adoption of the committee amendment.

Rep. Packard spoke against.

Amendment failed.

Rep. Packard offered floor amendment (0925h).

Floor Amendment (0925h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to on-board diagnostic system inspections.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Department of Safety; Duties of Commissioner; Complaints. Amend RSA 21-P:4 by inserting after paragraph XI the following new paragraph:

XII. Establish an easily accessible mechanism for citizens to file complaints with the department relating to on-board diagnostic system testing required by RSA 266:59-b. The complaint mechanism shall include either a telephone number reserved exclusively for such complaints or an Internet site for such complaints that may be accessed through links prominently displayed on Internet sites operated by the department or the state.

2 Equipment of Vehicles; Inspections; Fees. Amend RSA 266:1, VII to read as follows:

VII. Each inspection station shall conspicuously post on the outside of the building a sign showing the inspection fee charged. *No inspection station may charge more than \$15 for the EPA OBD II test required by RSA 266:59-b.*

3 Emission Control Equipment; OBD II Testing Required. Amend RSA 266:59-b, III-V to read as follows:

III. ~~[For all model year 1996 and newer gasoline-powered and model year 1997 and newer diesel-powered motor vehicles equipped with on-board diagnostic systems meeting the federal EPA OBD II standards.]~~ The commissioner, after public hearing and consultation with the commissioner of the department of environmental services and the air pollution advisory committee, and notification of the house science, technology, and energy committee and the senate environment committee, and with the approval of the air pollution advisory committee, shall adopt rules under RSA 541-A, which require ~~[every motor vehicle]~~ *all model year 1996 and newer gasoline-powered and model year 1997 and newer diesel-powered motor vehicles equipped with on-board diagnostic systems meeting the federal EPA OBD II standards* driven on the ways of this state which ~~[is]~~ *are* subject to inspection under this chapter, after a date specified by the commissioner, to be tested for OBD II indications of failures as a component of the inspection. To the extent allowed by EPA OBD II policy, OBD II data may be substituted for visual and functional tests required by paragraph I.

IV. This section shall not apply to vehicles 20 or more model years old which shall be determined by subtracting the model year of the vehicle from the calendar year in which the inspection occurs.

V. If a vehicle fails the EPA OBD II test and it passes all other inspection requirements under this chapter, then it shall be issued a temporary waiver that permits its operation for 60 days from the date of issuance, in order to make required repairs. A vehicle shall be eligible for only one such waiver during its inspection cycle. *If the cost of the required repairs is more than \$250, as determined by the inspection station or by written estimate from any other inspection station, the vehicle shall not be denied an inspection sticker for the OBD II failure, provided that a vehicle may not be issued more than 2 consecutive inspection stickers based on the cost of repairs and no inspection sticker shall be issued to any vehicle registering a third consecutive OBD II indication of failure.*

VI. *If a vehicle fails the EPA OBD II test and the owner fails to make the required repairs, the owner may not sell the vehicle without informing the purchaser of the OBD II failure. If the owner fails to inform the purchaser of the OBD II failure, the purchaser shall be entitled to a refund of the purchase price and reasonable attorney's fees.*

VII.(a) There is established an OBD II testing advisory committee. The committee shall be composed of the following:

- (1) Three representatives, appointed by the speaker of the house of representatives.
- (2) Three senators, appointed by the president of the senate.
- (3) The director of the division of motor vehicles of the department of safety.
- (4) The attorney general, or designee.
- (5) The commissioner of environmental services, or designee.
- (6) One member appointed by the New Hampshire Automobile Dealers Association.
- (7) One member appointed by the New Hampshire Motor Transport Association.

(b) Members' terms shall be coterminous with their terms in office, except that members appointed pursuant to subparagraphs (a)(5) and (a)(6) shall serve at the discretion of the appointing authority.

(c) The committee shall:

(1) Review and approve any contracts between the state and any private entities relating to OBD II testing.

(2) *Oversee any contracts between the state and any private entities relating to OBD II testing.*

(d) *The department shall not enter into any contract for services related to OBD II testing, or extend or renew any contract for services related to OBD II testing, without the prior approval of the committee.*

4 Fees for Inspection-Related Services; Exemptions. Motor vehicle inspection stations that are authorized to inspect only motorcycles or private fleet vehicles, motor vehicle inspections stations that inspect fewer than 200 vehicles per year, and motor vehicle inspection stations operated by municipalities shall not be required to pay any fees to a private entity for inspection-related services pursuant to any contract executed by the state or the department of safety prior to the effective date of this act.

5 Electronic Transfer of Inspection Information; Exemption. The department of safety shall not require an inspection station to transfer inspection information electronically for any vehicle of model year 1995 or older.

6 OBD II Testing; Applicability. Notwithstanding RSA 266:59-b, any EPA OBD II testing required by department of safety rules prior to May 1, 2006 shall be advisory only. No inspection station shall deny an inspection sticker to any vehicle because of OBD II failure prior to May 1, 2006.

7 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill:

- I. Limits the fees that motor vehicle inspection stations may charge for EPA OBD II tests.
- II. Modifies the applicability of the OBD II testing requirements.
- III. Allows an inspection sticker to be issued to a vehicle if repairing an OBD II failure will cost more than \$250.
- IV. Requires notice of an OBD II failure by a motor vehicle seller.
- V. Establishes an advisory committee to approve and oversee contracts relating to OBD II testing.
- VI. Exempts certain inspection stations from paying fees to a private entity for inspection-related services.

Rep. Packard spoke in favor and yielded to questions.

Rep. Lars Christiansen spoke against.

Floor amendment (0925h) adopted.

(Rep. Sheila Francoeur in the Chair)

Rep. Hinkle offered floor amendment (0947h).

Floor Amendment (0947h)

Amend the bill by deleting section 2 and renumbering the original sections 3-5 to read as 2-4, respectively.

AMENDED ANALYSIS

This bill:

- I. Modifies the applicability of the OBD II testing requirements.
- II. Allows an inspection sticker to be issued to a vehicle if repairing an OBD II failure will cost more than \$250.
- III. Requires notice of an OBD II failure by a motor vehicle seller.
- IV. Establishes an advisory committee to approve and oversee contracts relating to OBD II testing.
- V. Exempts certain inspection stations from paying fees to a private entity for inspection-related services.

Rep. Hinkle spoke in favor.

Floor amendment (0947h) failed.

Rep. Kennedy offered floor amendment (0981h)

Floor Amendment (0981h)

Amend the title of the bill by replacing it with the following:

AN ACT eliminating EPA OBD II testing requirements.

Amend the bill by replacing all after the enacting clause with the following:

- 1 Repeal. RSA 266:59-b, III and V, relative to EPA OBD II testing requirements, is repealed.
- 2 EPA OBD II Testing; Financial Obligations. All motor vehicle inspection stations are hereby released from any contractual or other financial obligations associated with the department of safety's EPA OBD II testing program. The state hereby assumes liability for any such obligations

resulting from a motor vehicle inspection station entering into a contract with a private entity as a result of requirements established by the department of safety. The state and all motor vehicle inspection stations are hereby prohibited from charging or passing any costs related to the EPA OBD II testing program to consumers.

3 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill repeals the law authorizing EPA OBD II testing requirements. This bill also releases inspection stations from financial obligations associated with the OBD II program and prohibits charging consumers for costs associated with the program.

Rep. Kennedy spoke in favor and requested a roll call; sufficiently seconded.

The question being adoption of floor amendment (0981h).

Osgood, Philip Sr
and the committee report was adopted.
Ordered to third reading.

Rep. Hansen voted Nay and intended to vote Aye.

(Speaker Scamman in the Chair)**SPECIAL ORDER**

HB 679-FN-L, authorizing the electronic enforcement of traffic signal violations. **OUGHT TO PASS**
Rep. Brenda L. Ferland for Transportation: This bill will allow for the authorization of electronic enforcement of traffic signal violators. A city or town having a population of more than 20,000 can request video enforcement at its traffic signal intersections. There will be posted warnings not more than 300 feet from the location of electronic monitors. The camera will take a picture of the number plate of the offending vehicle. The person to whom the vehicle is registered will be issued a citation. The citation shall be accompanied by a notice with date, time, and location of incident along with name, address and numbers to request a copy of the photographic evidence. If an owner can prove he or she is not responsible for the violation the citation shall be withdrawn. The fine

shall not be deemed a conviction on a driving record and shall not be used to assign demerit points. Fifty percent of fines collected shall be remitted to the city or town with these systems. While some intersections could stand improving, we have all witnessed numerous occasions of drivers speeding up on "amber lights" only to be running a red light. Red light runners put everyone at risk. They carry their fair share of statistics on near misses and accidents. Therefore, the committee supports the use of cameras to assist law enforcement to make all roads safer. Vote 14-0.

Reps. Buhlman and Kurk spoke against.

Reps. Danforth and Bouchard spoke in favor and yielded to questions.

Rep. Graham spoke in favor.

Rep. Mirski requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

INDEFINITELY POSTPONE

Rep. Vaillancourt moved that **HB 679-FN-L**, authorizing the electronic enforcement of traffic signal violations, be indefinitely postponed.
Adopted.

REGULAR CALENDAR (CONT'D.)

HB 705, relative to passenger restraints. **INEXPEDIENT TO LEGISLATE**

Rep. Brenda L. Ferland for Transportation: This bill would have required all persons, drivers and passengers 18 years of age and older, to wear passenger restraints which are fastened and properly adjusted at all times. The prime sponsor considered the offense as secondary. Just about everyone that spoke about this issue was throwing statistics around, whether they were for or against the bill. What the committee did hear was that most adults wear their seat belts. Thus they felt that it should still be their decision. They were also concerned about how long before this became a primary offense. One visual survey done has New Hampshire at 63.4 percent. That is almost as good as our neighboring states that have passenger restraint laws. Vote 12-2.

Reps. Emerson and Pilliod spoke against.

Rep. Packard spoke in favor.

Rep. Emerson requested a roll call; sufficiently seconded.

The question being adoption of the committee report.

and the committee report was adopted.

HB 51, establishing a committee to study the feasibility of imposing a luxury sales tax and an amusements tax. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Steve Vaillancourt for the Majority of Ways and Means: This bill does not impose any type of luxury tax or any other type of tax. It simply establishes a committee to study the feasibility of some

type of luxury, entertainment, or amusement tax in the future. The need for new revenue sources is something we are likely to face every session. Who can deny that reality? With an income and sales tax off the table and with business taxes "maxed" out, the number of options for raising significant revenues is extremely limited. Conceivably, a future legislature might need to consider some type of luxury tax. If so, that body should not go forward in the dark. This study committee will develop valuable information. For example, during the hearing on this bill, an opponent acknowledged that the state of Vermont applies its six percent sales tax to ski tickets. Some veteran House members may recall that during the crisis facing the state in 1999, the Finance Committee actually considered some type of luxury or entertainment tax. During an emergency Friday afternoon session, Representatives Hall was the scene of a lengthy hearing. Opposition was strong, and the committee was operating in a vacuum. Had we then had the benefit of information a study committee of this type would have generated, we would have been better off. Rest assured, a luxury tax does not have to mean a boat tax, an idea which proved such a folly at the federal level a decade ago. It could mean anything from an assessment on a \$100 Bette Midler ticket at the Verizon Center to one on one movie rentals, ski tickets, bowling frames, or any number of imaginative (and conceivably controversial) alternatives. To say no to such a study committee is to close our eyes to future needs and to ultimately bring us closer to having to accept a sales or income tax. Knowledge is power. Passage of this bill will increase both our knowledge and our power. Vote 10-8.

Rep. Peyton B. Hinkle for the Minority of Ways and Means: This bill directed the committee to study what items should be taxed as luxury items and what amusements should be taxed and the feasibility of imposing such taxes. This was viewed by the minority as the beginning of the descent down the slippery slope toward a general sales tax. A committee under former Governor Shaheen already studied the issue of a sales tax and concluded it would result in the loss of retail sales and jobs. A large percent of the retail sales occur in the southern end of the state and many sales are for high ticket luxury items. The retail trade would be seriously jeopardized by a luxury tax. Retailers considering location in the state would think twice if they were unsure how many items would be taxed as luxuries and the impact of the tax on sales volume. Since various forms of amusements, including skiing, provide an attraction for tourists, taxing them could cause a loss of business among owners who rely on a short season to make their profit. Other venues, such as those at the Verizon Center, would carry an extra tax burden. New Hampshire's image as a low tax state friendly to tourism could be tarnished by adding another tax on top of the room and meals tax.

Reps. Hinkle and Mirski spoke against.

Reps. Vaillancourt and Pratt spoke in favor.

Rep. Mirski requested a roll call; sufficiently seconded.

The question being adoption of the majority committee report.

Rodeschin, Beverly

and the majority committee report failed.

Rep. Hinkle moved Inexpedient to Legislate.

Motion adopted.

HB 94-FN-A, requiring a discount to wholesalers on cash purchases of tobacco tax stamps.
MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.

Rep. Howie Lund for the Majority of Ways and Means: The committee considered the bill with an amendment which would provide a one cent (.01) discount to distributors on tobacco stamps effective July 1, 2006. This was voted down because the business involved had already adjusted its pricing models to accommodate the one cent loss. This bill if passed will decrease state unrestricted general fund revenue by \$1,354,050 in FY 2006 and each year thereafter, and decrease restricted education trust fund revenue by \$553,062 FY 2006 and each year thereafter. Vote 10-6.

Rep. Kevin L. Camm for the Minority of Ways and Means: This bill would restore the one cent per pack discount that wholesalers received for affixing tax stamps to cigarettes. That discount was re-

moved in a committee of conference a few years ago. The minority felt that was an improper and unfair forum for such a policy change. Should the legislature desire to change the way it compensates those who provide a service for the state, it should do so by the same process as with any other bill. The amendment changes the effective date to July 1, 2006 so FY 2006 is not affected.

Rep. Camm spoke against.

Rep. Lund spoke in favor.

Majority committee report adopted.

(Deputy Speaker Weyler in the Chair)
